# ACGME Site Visit Update 2024

©2024 ACGME

# Background

Previously, all programs with a status of Continued Accreditation, Continued Accreditation with Warning, and Continued Accreditation without Outcomes received a Self-Study date and a 10-Year Accreditation Site Visit date. The review of the program Self-Study was incorporated into the 10-Year Accreditation Site Visit process.

©2024 ACGME

# Background

- Effective October 2023:
  - The ACGME discontinued 10-Year Accreditation Site Visits for programs.
  - The program Self-Study will continue to be a requirement (V.C.2.), but it will no longer be linked to or reviewed during a site visit.

©2024 ACGME

# Updated Model for Site Visits

- Starting in 2024, the ACGME will conduct site visits annually for approximately 1-2% of programs with a status of Continued Accreditation that have not had a site visit in approximately 10 years or more.
    - These site visits will be identified through a sampling process and will support the ACGME's assurance responsibility to the public.
    - For 2024, all selected programs for these site visits were notified in January of their approximate site visit target date (May-July 2024).
    - Separately, Review Committees may request site visits for programs with Continued Accreditation statuses at their discretion after the annual review of data or in response to a complaint.

©2024 ACGME

# Program Self-Study

- The ACGME encourages programs to incorporate a Self-Study into the Annual Program Evaluation process and track ongoing progress and program improvements as outlined in the Common Program Requirements (V.C.2.).
- For questions regarding Graduate Medical Education Committee (GMEC) oversight (Institutional Requirement I.B.4.a).(4)) relating to the program Self-Study, contact the Institutional Review Committee (irc@acgme.org).
- Institutional Self-Studies and 10-Year Accreditation Site Visits will proceed according to the Institutional Review Committee's current process.
