### Rochester
**University of Rochester Program**
- **Sponsor**: Strong Memorial Hospital of the University of Rochester
- **Program Director**: Victoria J Teodorescu, MD
- **Address**: 530 First Avenue, Rochester, NY 14642
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@mountsinai.org

### Staten Island
**Staten Island University Hospital Program**
- **Sponsor**: Staten Island University Hospital
- **Program Director**: Victoria J Teodorescu, MD
- **Address**: 530 First Avenue, Staten Island, NY 10305
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@mountsinai.org

### Stony Brook
**SUNY at Stony Brook Program**
- **Sponsor**: Stony Brook University Medical Center
- **Program Director**: Victoria J Teodorescu, MD
- **Address**: 530 First Avenue, Staten Island, NY 10305
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@mountsinai.org

### North Carolina
**Chapel Hill**
**University of North Carolina Hospitals Program**
- **Sponsor**: University of North Carolina Hospitals
- **Program Director**: William Suggs, MD
- **Address**: 1300 York Avenue, New York, NY 10029
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

### Charlotte
**Carolina Medical Center Program**
- **Sponsor**: Carolinas Medical Center
- **Program Director**: Timothy S Broush, MD
- **Address**: PO Box 32861, Charlotte, NC 28223
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

### Durham
**Duke University Hospital Program**
- **Sponsor**: Duke University Hospital
- **Program Director**: Cynthia K Shortell, MD
- **Address**: PO Box 3538, Durham, NC 27710
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

### Winston-Salem
**Wake Forest University School of Medicine Program**
- **Sponsor**: Wake Forest University Baptist Medical Center
- **Program Director**: Kimberly J Hannen, MD
- **Address**: PO Box 32861, Charlotte, NC 28223
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

### Ohio
**Cincinnati**
**TriHealth (Good Samaritan Hospital) Program**
- **Sponsor**: TriHealth
- **Program Director**: Patrick Muck, MD
- **Address**: 375 Dixmyth Avenue, Cincinnati, OH 45209
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

### University Hospital/University of Cincinnati College of Medicine Program
- **Sponsor**: University Hospital Inc
- **Program Director**: Amy B Reed, MD
- **Address**: PO Box 32861, Charlotte, NC 28223
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

### Cleveland
**Cleveland Clinic Foundation Program**
- **Sponsor**: Cleveland Clinic Foundation
- **Program Director**: Daniel O Clair, MD
- **Address**: PO Box 32861, Charlotte, NC 28223
- **Length**: 2 Years
- **Notes**: E-mail: victoria.teodorescu@einstein.yu.edu

Vascular Surgery (General Surgery) Programs
## Vascular Surgery (General Surgery) Programs

### Texas

**Dallas**

**Baylor University Medical Center Program**

- **Sponsor:** Baylor University Medical Center
- **Program Director:** Gregory J Pearl, MD
- **Department of Vascular Surgery**
- **Address:** 2500 Gaston Avenue Dallas, TX 75246
- **Tel:** 214 820-4543  Fax: 214 820-4538
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 4
- **Program ID:** 450-48-21-028

**University of Texas Southwestern Medical School Program**

- **Sponsor:** University of Texas Southwestern Medical School
- **Dallas County Hospital District Parkland Memorial Hospital**
- **Dallas VA Medical Center**
- **University Hospitals Zale Lipshy**
- **Program Director:** G Patrick Clagett, MD
- **Address:** 5000 Harry Hines Blvd Dallas, TX 75016
- **Tel:** 214 645-0549  Fax: 214 645-0546
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 3
- **Program ID:** 450-48-21-029

**Houston**

**Baylor College of Medicine Program**

- **Sponsor:** Baylor College of Medicine
- **Methodist Hospital (Houston)**
- **St Luke’s Episcopal Hospital**
- **Program Director:** Peter H Lin, MD*
- **Address:** One Baylor Plaza, #404D Houston, TX 77030
- **Tel:** 713 798-0628  Fax: 713 798-0233
- **E-mail:** plin@bcm.edu
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 4
- **Program ID:** 450-48-21-016

**University of Texas Health Science Center at Houston Medical School Program**

- **Sponsor:** University of Texas Southwestern Medical School
- **Memorial Hermann Hospital**
- **Program Director:** Hamid J Safi, MD
- **Department of Cardiothoracic and Vascular Surgery**
- **Address:** 6410 Fannin, Suite 450 Houston, TX 77030
- **Tel:** 713 500-5304
- **E-mail:** harold.d.heidemann@uth.tmc.edu
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 2
- **Program ID:** 450-48-13-104

### Utah

**Salt Lake City**

**University of Utah Program**

- **Sponsor:** University of Utah Medical Center
- **Program Director:** Larry W Kraiss, MD
- **Department of Vascular Surgery**
- **Address:** 30 North 1900 East
- **Tel:** 801 581-6301  Fax: 801 581-3433
- **E-mail:** larry.kraiss@hsc.utah.edu
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 2
- **Program ID:** 450-49-21-085

### Virginia

**Charlottesville**

**University of Virginia Program**

- **Sponsor:** University of Virginia Medical Center
- **Program Director:** Kenneth J Cherry Jr, MD
- **Section of Vascular Surgery UHRC Room 4670**
- **PO Box:** 900767, 1215 Lane Road Charlottesville, VA 22908
- **Tel:** 434 243-7052  Fax: 434 882-3815
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 2
- **Program ID:** 450-51-21-083

**Eastern Virginia Medical School Program**

- **Sponsor:** Eastern Virginia Medical School
- **St Luke’s Episcopal Hospital**
- **Methodist Hospital (Houston)**
- **Program Director:** Peter H Lin, MD*
- **Address:** 3010 6th Street, Suite 400 Virginia Beach, VA 23451
- **Tel:** 757 622-2448  Fax: 757 622-6440
- **Length:** 2 Yrs  **ACGME Approved/Offered Positions:** 4
- **Program ID:** 450-51-21-018

**Virginia Commonwealth University Health System Program**

- **Sponsor:** Virginia Commonwealth University Health System
- **Medical College of Virginia Hospitals**
- **Program Director:** Mark M Levy, MD
- **Address:** 1200 E Broad St
- **PO Box:** 900108 Richmond, VA 23298
- **Tel:** 804 828-3211  Fax: 804 828-2744
- **Length:** 1 Yr  **ACGME Approved/Offered Positions:** 1
- **Program ID:** 450-51-21-039

### Wisconsin

**Madison**

**University of Wisconsin Program**

- **Sponsor:** University of Wisconsin School of Medicine
- **University of Wisconsin Hospitals**
- **Program Director:** Jay W. Seebrook, MD
- **Address:** 600 Highland Avenue, 2700 Duke Avenue Madison, WI 53792

Graduate Medical Education Directory 2008-2009 771
Section IV

New and Withdrawn Programs

New Programs
The following programs were accredited by the Accreditation Council for Graduate Medical Education with an effective date between January 1 and December 31, 2007.

Addiction Psychiatry (Psychiatry)
University of Pittsburgh Medical Center Medical Education Program
Pittsburgh, PA
Program ID: 401-41-21-058

University of Wisconsin Program
Madison, WI
Program ID: 401-56-12-057

Adolescent Medicine (Pediatrics)
New York Presbyterian Hospital (Columbia Campus) Program
New York, NY
Program ID: 321-35-12-033

Adult Cardiothoracic Anesthesiology
University of Alabama Medical Center Program
Birmingham, AL
Program ID: 041-01-21-034

University of California (Davis) Health System Program
Sacramento, CA
Program ID: 041-05-13-003

Stanford University Program
Stanford, CA
Program ID: 041-05-21-026

University of Southern California/LAC+USC Medical Center Program
Los Angeles, CA
Program ID: 041-05-31-036

University of Colorado Program
Aurora, CO
Program ID: 041-07-13-035

Emory University Program
Atlanta, GA
Program ID: 041-12-21-010

University of Chicago Program
Chicago, IL
Program ID: 041-16-12-009

McCaw Medical Center of Northwestern University Program
Chicago, IL
Program ID: 041-16-13-039

Loyola University Program
Maywood, IL
Program ID: 041-16-21-030

Ochsner Clinic Foundation Program
New Orleans, LA
Program ID: 041-21-12-033

Johns Hopkins University Program
Baltimore, MD
Program ID: 041-23-12-017

University of Maryland Program
Baltimore, MD
Program ID: 041-23-21-022

Brigham and Women’s Hospital Program
Boston, MA
Program ID: 041-24-13-007

Beth Israel Deaconess Medical Center Program
Boston, MA
Program ID: 041-24-21-014

Massachusetts General Hospital Program
Boston, MA
Program ID: 041-24-31-002

University of Michigan Program
Ann Arbor, MI
Program ID: 041-25-31-016

College of Medicine, Mayo Clinic (Rochester) Program
Rochester, MN
Program ID: 041-26-13-023

New York Presbyterian Hospital (Cornell Campus) Program
New York, NY
Program ID: 041-35-12-013

Albert Einstein College of Medicine Program
Bronx, NY
Program ID: 041-35-12-029

University at Buffalo Program
Buffalo, NY
Program ID: 041-35-13-015

New York Presbyterian Hospital (Columbia Campus) Program
New York, NY
Program ID: 041-35-21-006

New York University School of Medicine Program
New York, NY
Program ID: 041-35-31-024

Cleveland Clinic Foundation Program
Cleveland, OH
Program ID: 041-38-21-018

University of Pennsylvania Program
Philadelphia, PA
Program ID: 041-41-31-008

Medical University of South Carolina Program
Charleston, SC
Program ID: 041-45-31-020

University of Texas Southwestern Medical School Program
Dallas, TX
Program ID: 041-48-13-011

Virginia Commonwealth University Health System Program
Richmond, VA
Program ID: 041-51-12-005
New Programs

Cardiovascular Disease (Internal Medicine)
University of California (San Francisco)/Fresno Program
Fresno, CA
Program ID: 141-05-21-279

Staten Island University Hospital Program
Staten Island, NY
Program ID: 141-35-13-276

Lehigh Valley Hospital Network/Pennsylvania State University Program
Allentown, PA
Program ID: 141-41-13-280

University of Tennessee Medical Center at Knoxville Program
Knoxville, TN
Program ID: 141-47-12-278

Clinical Neurophysiology (Neurology)
Massachusetts General Hospital Program
Boston, MA
Program ID: 187-24-21-117

Medical University of South Carolina Program
Charleston, SC
Program ID: 187-45-12-116

Congenital Cardiac Surgery (Thoracic Surgery)
University of Southern California/Children's Hospital Los Angeles Program
Los Angeles, CA
Program ID: 466-05-12-001

University of Michigan Program
Ann Arbor, MI
Program ID: 466-25-12-005

University of Washington Program
Seattle, WA
Program ID: 466-54-13-003

Critical Care Medicine (Anesthesiology)
Loma Linda University Program
Loma Linda, CA
Program ID: 045-05-31-079

Critical Care Medicine (Internal Medicine)
Henry Ford Hospital Program
Detroit, MI
Program ID: 142-25-12-160

Dermatology
Wayne State University Program
Detroit, MI
Program ID: 080-25-13-139

Dermatopathology (Dermatology)
Dartmouth-Hitchcock Medical Center Program
Lebanon, NH
Program ID: 100-32-31-083

Ohio State University Hospital Program
Columbus, OH
Program ID: 100-38-12-084

Penn State University/Milton S Hershey Medical Center Program
Hershey, PA
Program ID: 100-41-21-085

Developmental-Behavioral Pediatrics (Pediatrics)
Stanford University Program
Palo Alto, CA
Program ID: 336-05-12-041

University of Rochester Program
Rochester, NY
Program ID: 336-35-31-040

Emergency Medicine
University of California (San Francisco)/San Francisco General Hospital Program
San Francisco, CA
Program ID: 110-05-13-192

Florida Hospital Medical Center Program
Orlando, FL
Program ID: 110-11-12-190

Hospital Episcopal San Lucas/Ponce School of Medicine Program
Ponce, PR
Program ID: 110-42-12-187

University of Texas Medical Branch Hospitals Program
Galveston, TX
Program ID: 110-48-21-191

Endovascular Surgical Neuroradiology (Neurological Surgery)
St Joseph’s Hospital and Medical Center Program
Phoenix, AZ
Program ID: 163-03-12-002

Family Medicine
Louisiana State University (Bogalusa) Program
Bogalusa, LA
Program ID: 120-21-13-695

St Joseph Mercy (Livingston) Hospital Program
Brighton, MI
Program ID: 120-25-21-690

Wayne State University/Crittenton Program
Rochester, MI
Program ID: 120-25-21-694

St Luke's Hospital Program
Maumee, OH
Program ID: 120-38-13-688

Geisinger Health System Program
Wilkes Barre, PA
Program ID: 120-41-12-689

Forensic Psychiatry (Psychiatry)
Louisiana State University (Shreveport) Program
Shreveport, LA
Program ID: 406-21-13-057

Geriatric Medicine (Family Medicine)
Kaiser Permanente Southern California (Fontana) Program
Fontana, CA
Program ID: 125-05-12-065

Louisiana State University (Lafayette) Program
Lafayette, LA
Program ID: 125-21-21-066

Clinical Cardiac Electrophysiology (Internal Medicine)
Michigan State University Program
East Lansing, MI
Program ID: 154-25-13-118

Albert Einstein College of Medicine at Beth Israel Medical Center Program
New York, NY
Program ID: 154-35-13-121

University of Toledo Program
Toledo, OH
Program ID: 154-38-31-123

Texas A&M College of Medicine-Scott and White Program
Temple, TX
Program ID: 154-48-21-113
New Programs

UMDNJ-Robert Wood Johnson at
CentraState Program
New Brunswick, NJ
Program ID: 125-33-13-067

Texas Tech University (Permian Basin)
Program
Odessa, TX
Program ID: 125-48-31-068

Geriatric Psychiatry (Psychiatry)
University of Arkansas for Medical Sciences Program
Little Rock, AR
Program ID: 407-04-12-070

University of Colorado Program
Denver, CO
Program ID: 407-07-21-071

Rush University Medical Center Program
Chicago, IL
Program ID: 407-16-13-072

Medical College of Wisconsin Affiliated Hospitals Program
Milwaukee, WI
Program ID: 407-56-31-073

Hand Surgery (Orthopaedic Surgery)
University of Colorado Program
Denver, CO
Program ID: 263-07-21-076

Hematology and Oncology (Internal Medicine)
New York University School of Medicine Program
New York, NY
Program ID: 145-35-31-152

Infectious Disease (Internal Medicine)
College of Medicine, Mayo Clinic (Jacksonville) Program
Jacksonville, FL
Program ID: 146-11-21-207

Albert Einstein Healthcare Network Program
Philadelphia, PA
Program ID: 146-41-13-208

Internal Medicine
University of Arizona/UPHK Graduate Medical Education Consortium Program
Tucson, AZ
Program ID: 140-03-12-536

University of Miami School of Medicine at Florida Atlantic University Program
Miami, FL
Program ID: 140-11-31-535

Keesler Medical Center Program
Keesler AFB, MS
Program ID: 140-27-13-001

Methodist Hospital Program
Houston, TX
Program ID: 140-48-13-534

Internal Medicine/Pediatrics
Wayne State University Program
Detroit, MI
Program ID: 700-35-14-029

University of Utah Program
Salt Lake City, UT
Program ID: 700-49-14-091

Interventional Cardiology
(Internal Medicine)
University of Texas Southwestern Medical School Program
Dallas, TX
Program ID: 152-48-13-152

Marshall University School of Medicine Program
Huntington, WV
Program ID: 152-55-13-149

Medical Microbiology (Pathology)
Beth Israel Deaconess Medical Center/Harvard Medical School Program
Boston, MA
Program ID: 314-24-13-018

Medical Toxicology (Emergency Medicine)
Cook County Hospital Program
Chicago, IL
Program ID: 118-16-21-028

HealthPartners Institute for Medical Education Program
Saint Paul, MN
Program ID: 118-26-13-029

Musculoskeletal Radiology (Radiology-Diagnostic)
University of Texas at Houston Program
Houston, TX
Program ID: 426-48-12-014

Neonatal-Perinatal Medicine (Pediatrics)
West Virginia University Program
Morgantown, WV
Program ID: 329-55-11-086

Nephrology (Internal Medicine)
University of Florida College of Medicine
Jacksonville Program
Jacksonville, FL
Program ID: 148-11-13-194

University of Nebraska Medical Center College of Medicine Program
Omaha, NE
Program ID: 148-30-21-183

Mount Sinai School of Medicine (Elmhurst) Program
Elmhurst, NY
Program ID: 148-35-12-192

Neuromuscular Medicine (Neurology)
Yale-New Haven Medical Center Program
New Haven, CT
Program ID: 103-38-13-015

Ohio State University Hospital Program
Columbus, OH
Program ID: 103-38-13-015

Penn State University/Milton S Hershey Medical Center Program
Hershey, PA
Program ID: 183-41-12-009

Neuroradiology (Radiology-Diagnostic)
University of Missouri-Columbia Program
Columbia, MO
Program ID: 245-28-21-108

New York Medical College at Westchester Medical Center Program
Valhalla, NY
Program ID: 245-35-13-109

Neurology (Otolaryngology)
University of Virginia Program
Charlottesville, VA
Program ID: 286-51-21-005

Nuclear Radiology (Radiology-Diagnostic)
University of California (Irvine) Program
Orange, CA
Program ID: 425-05-21-069

Ohio State University Hospital Program
Columbus, OH
Program ID: 425-38-13-070

University of Utah Program
Salt Lake City, UT
Program ID: 425-49-31-071

Obstetrics and Gynecology
Louisiana State University (Baton Rouge) Program
Baton Rouge, LA
Program ID: 220-21-13-354

Atlantic Health (Morristown) Program
Morristown, NJ
Program ID: 220-33-31-365

Crozer-Chester Medical Center Program
Upland, PA
Program ID: 220-41-21-367

Ophthalmology
University of Florida Program
Jacksonville, FL
Program ID: 240-11-31-182

SUNY at Stony Brook Program
Stony Brook, NY
Program ID: 240-35-21-180
New Programs

Orthopaedic Sports Medicine
(Orthopaedic Surgery)
Ochsner Clinic Foundation Program
New Orleans, LA
Program ID: 268-21-21-116

Orthopaedic Surgery
University of South Florida College of Medicine Program
Tampa, FL
Program ID: 268-11-12-207

Orthopaedic Surgery
Detroit Medical Center Program
Detroit, MI
Program ID: 268-23-31-210

Orthopaedic Surgery of the Spine
(Orthopaedic Surgery)
Beth Israel Deaconess Medical Center/Harvard Medical School Program
Boston, MA
Program ID: 267-24-21-028

Pediatric Emergency Medicine
(Emergency Medicine)
University of North Carolina Hospitals Program
Raleigh, NC
Program ID: 114-36-12-018

Pediatric Emergency Medicine
(Pediatrics)
Newark Beth Israel Medical Center Program
Newark, NJ
Program ID: 324-33-12-057

Pediatric Endocrinology
(Pediatrics)
University of California (Davis) Health System Program
Sacramento, CA
Program ID: 326-05-12-087

SUNY Upstate Medical University Program
Syracuse, NY
Program ID: 326-35-21-088

Pediatric Hematology/Oncology
(Pediatrics)
University of California (San Diego) Program
San Diego, CA
Program ID: 327-05-13-085

University of California (Davis) Health System Program
Sacramento, CA
Program ID: 327-05-21-084

UMDNJ-Robert Wood Johnson Medical School Program
New Brunswick, NJ
Program ID: 327-33-12-083

Pediatric Infectious Diseases
(Pediatrics)
University of Southern California/LAC+USC Medical Center Program
Los Angeles, CA
Program ID: 335-05-13-072

Pediatric Nephrology (Pediatrics)
Children’s National Medical Center/George Washington University Program
Washington, DC
Program ID: 328-10-12-073

Emory University Program
Atlanta, GA
Program ID: 328-12-31-074

University of Texas Health Science Center at San Antonio Program
San Antonio, TX
Program ID: 328-48-13-072

Pediatric Otolaryngology
(Otolaryngology)
George Washington University/Children’s National Medical Center Program
Washington, DC
Program ID: 258-10-31-007

Pediatric Pulmonology
(Pediatrics)
Stanford University Program
Palo Alto, CA
Program ID: 330-05-13-061

Emory University Program
Atlanta, GA
Program ID: 330-16-12-062

University of Chicago Program
Chicago, IL
Program ID: 330-16-21-060

Albert Einstein College of Medicine Program
Bronx, NY
Program ID: 330-33-21-063

Pediatric Rehabilitation Medicine (Physical Medicine and Rehabilitation)
College of Medicine, Mayo Clinic (Rochester) Program
Rochester, MN
Program ID: 346-26-31-013

Pediatric Surgery (General Surgery)
University of Chicago Program
Chicago, IL
Program ID: 445-16-31-041

Vanderbilt University/Monroe Carell, Jr Children’s Hospital Program
Nashville, TN
Program ID: 445-47-21-046

Pediatric Urology (Urology)
St Louis University School of Medicine Program
St Louis, MO
Program ID: 485-25-31-029

University of Tennessee/LeBonheur Children’s Medical Center Program
Memphis, TN
Program ID: 485-47-12-029

Children’s Medical Center of Dallas/University of Texas Southwestern Medical School Program
Dallas, TX
Program ID: 485-48-31-021

Pediatrics
St Vincent Hospital and Health Care Center Program
Indianapolis, IN
Program ID: 320-17-12-420
Psychiatry
University of Arizona/UPHK Graduate Medical Education Consortium Program
Tucson, AZ
Program ID: 400-03-21-301

Psychosomatic Medicine (Psychiatry)
University of Minnesota Program
Minneapolis, MN
Program ID: 409-26-12-033

University Hospitals Case Medical Center Program
Cleveland, OH
Program ID: 409-38-13-035

Thomas Jefferson University Program
Philadelphia, PA
Program ID: 409-41-21-038

University of Pennsylvania Program
Philadelphia, PA
Program ID: 409-41-31-036

University of Texas Southwestern Medical School Program
Dallas, TX
Program ID: 409-48-21-034

Pulmonary Disease (Internal Medicine)
University of California (San Francisco)/Fresno Program
Fresno, CA
Program ID: 149-05-21-209

San Juan City Hospital Program
San Juan, PR
Program ID: 149-42-13-210

Palmetto Health/University of South Carolina School of Medicine Program
Columbia, SC
Program ID: 149-45-12-208

Radiation Oncology
University of South Florida Program
Tampa, FL
Program ID: 440-03-12-420

University of Oklahoma Health Sciences Center Program
Oklahoma City, OK
Program ID: 430-11-12-137

Rheumatology (Internal Medicine)
University of Kentucky College of Medicine Program
Lexington, KY
Program ID: 150-20-21-156

Louisiana State University School of Medicine Program
New Orleans, LA
Program ID: 150-21-13-157

Sleep Medicine
University of Alabama Medical Center Program
Birmingham, AL
Program ID: 520-01-32-066

University of California (Davis) Health System Program
Sacramento, CA
Program ID: 520-05-14-094

University of Colorado School of Medicine Program
Denver, CO
Program ID: 520-07-14-103

Norwalk Hospital Program
Norwalk, CT
Program ID: 520-08-14-047

University of South Florida College of Medicine Program
Tampa, FL
Program ID: 520-11-14-101

University of Chicago Hospitals Program
Chicago, IL
Program ID: 520-16-14-081

Louisiana State University (Shreveport) Program
Shreveport, LA
Program ID: 520-21-18-086

University of Maryland Medical System Program
Baltimore, MD
Program ID: 520-23-14-089

Boston University Medical Center Program
Boston, MA
Program ID: 520-24-18-079

St Christopher's Hospital for Children Program
Philadelphia, PA
Program ID: 520-41-32-003

Brown University Program
Providence, RI
Program ID: 520-43-14-088

San Antonio Uniformed Services Health Education Consortium Program
San Antonio, TX
Program ID: 520-48-14-085

Baylor College of Medicine Program
Houston, TX
Program ID: 520-48-14-102

Sports Medicine (Family Medicine)
St Joseph's Hospital and Medical Center Program
Tempe, AZ
Program ID: 127-03-13-120

Christiana Care Health Services Program
Wilmington, DE
Program ID: 127-09-13-110

University of Florida Program
Gainesville, FL
Program ID: 127-11-12-114

William Beaumont Hospital Program
Auburn Hills, MI
Program ID: 127-25-21-115

Oakwood Annapolis Hospital Program
Flemington, NJ
Program ID: 127-25-31-117

University of Nevada School of Medicine Program
Reno, NV
Program ID: 127-31-12-111

University of New Mexico Program
Albuquerque, NM
Program ID: 127-34-13-112

University of Pennsylvania Program
Philadelphia, PA
Program ID: 127-41-13-118

Drexel University College of Medicine/Hahnemann University Hospital Program
Philadelphia, PA
Program ID: 127-41-31-121

Greenville Hospital System/University of South Carolina School of Medicine Program
Greenville, SC
Program ID: 127-45-21-119

University of Texas Southwestern Medical School Program
Dallas, TX
Program ID: 127-48-13-116

Surgery-General
St Joseph's Hospital and Medical Center Program
Phoenix, AZ
Program ID: 440-03-12-420

Tulane University Program
New Orleans, LA
Program ID: 440-21-21-423

Keesler Medical Center Program
Keesler AFB, MS
Program ID: 440-27-31-002

Surgical Critical Care (General Surgery)
Childrens Hospital Los Angeles
Los Angeles, CA
Program ID: 442-05-31-114

Indiana University School of Medicine Program
Indianapolis, IN
Program ID: 442-17-12-115

University of Iowa Hospitals and Clinics Program
Iowa City, IA
Program ID: 442-18-13-117

Michigan State University Program
Lansing, MI
Program ID: 442-25-21-116

Thoracic Surgery
Texas Heart Institute/Baylor College of Medicine Program
Houston, TX
Program ID: 460-48-13-124

Section V
Graduate Medical Education Teaching Institutions

Section V lists hospitals and organizations that sponsor graduate medical education (GME) programs or participate in GME. Sponsoring institutions assume final responsibility for a GME program. Most GME programs are sponsored by specific clinical departments within a hospital, another health care institution such as a medical school, or an educational consortium. Major participating institutions include hospitals or other sites recognized by at least one residency review committee as providing a major portion of required GME. Hospitals and other institutions that provide rotations of less than one-sixth of the program length or less than a total of 6 months are not listed in the Directory.

All institutions that sponsor GME programs or participate in GME are listed in alphabetical order by state and city. Each listing includes the institution name, address, and identification code. Also provided are codes of medical schools affiliated with each institution (where applicable) and abbreviations for the specialty and subspecialty programs affiliated with each institution. (A key for specialty and subspecialty abbreviation codes is provided on the inside back cover of this Directory).

Candidates seeking a residency should refer to the list of programs in Section III. Applications for a residency position should be addressed to the program director rather than to an institution.

Relationships Between Hospitals and Medical Schools (Medical School Affiliation)
Hospitals that sponsor an accredited program are not required to have a formal relationship with a medical school. Where such a relationship exists, the affiliation is identified by the dean of the medical school as M (major), G (graduate only), or L (limited). The medical school associated with the code number in this listing is identified in Appendix D.

Major affiliation (M) signifies that an institution is an important part of the teaching program of the medical school and is a major unit in the clinical clerkship program. Major teaching institutions provide clerkship experience in two or more of the major specialties: internal medicine, surgery, pediatrics, and obstetrics-gynecology. An institution responsible for most of the teaching in a single specialty, such as psychiatry or pediatrics, may also be considered a major affiliation. In a major teaching institution, medical students serve clinical clerkships regularly on inpatient services, under the direct supervision of medical school faculty. A major teaching institution may or may not be used for medical school residencies.

Graduate affiliation (G) indicates that the institution is affiliated with the medical school only for its graduate programs and that one or more of the following arrangements is in effect:
1. House staff of the GME programs are selected by officials of a medical school department or by a joint committee of the institution teaching staff and medical school faculty.
2. Medical school faculty (other than the institution’s attending staff) are regularly scheduled to participate in the teaching programs of the institution. No graduate affiliation is indicated if medical school faculty participation at the institution is limited to an occasional lecture or consultation visit, or if the institution’s residents attend medical school teaching conferences only as visitors.
3. A contractual arrangement (with or without financial commitment) specifies the medical school participation in the organization and supervision of the GME program in the institution.
4. There is some degree of exchange of residents between this institution and the principal teaching institution of the medical school.

Limited affiliation (L) signifies that the institution is affiliated with the medical school’s teaching program only for brief and/or unique rotations of students or residents.

Appendix A

Combined Specialty Programs

Combined training consists of a coherent educational experience in two or more closely related specialty or subspecialty programs. The educational plan for combined training is approved by the board of each of the specialties to assure that resident physicians completing combined training are eligible for board certification in each of the component specialties. Each specialty or subspecialty program is separately accredited by the Accreditation Council for Graduate Medical Education (ACGME) through its respective Residency Review Committee (RRC). The duration of combined training is longer than any one of its component specialty programs standing alone, and shorter than all of its component specialty programs together.

Applicants to combined specialty programs are encouraged to review requirements for admission to the certification process of each board (see Appendix B).

Note on Combined Internal Medicine/Pediatrics Programs

The American Board of Internal Medicine and American Board of Pediatrics have developed policies regarding board eligibility of residents in programs that are not accredited. Combined internal medicine/pediatrics training initiated June 1, 2007, or after must be undertaken in combined internal medicine/pediatrics programs accredited by the ACGME.

Residents contracted to programs for July 1, 2007 through the NRMP in programs that do not seek or achieve accreditation will be allowed to finish that academic year in the unaccredited program and still have the training count toward the requirements for certification. After the 1 year of training, they must transfer to an accredited program in order to be eligible for certification.

Residents who have entered board-approved internal medicine/pediatrics programs prior to June 1, 2007 will be allowed to complete their training in the approved program and will be eligible for admission to the certification examination in internal medicine and pediatrics, even if the program chooses not to seek accreditation or is unsuccessful in achieving accreditation. The boards will continue to monitor those programs in order to assure compliance with the curricular content required by the ACGME. ACGME-accredited programs in internal medicine/pediatrics are listed in Section III.

Diagnostic Radiology/Nuclear Medicine/Nuclear Radiology

The American Board of Radiology and the American Board of Nuclear Medicine offer dual certification for candidates who have satisfactorily completed a combined total of 6 years of suitable accredited training in programs approved by both boards and successfully passed the certifying examination of both boards.

To be eligible for dual certification, a resident must obtain residency training in diagnostic radiology and nuclear medicine that must include a) a preparatory clinical year in an ACGME-accredited program and b) 4 years of education in an ACGME-accredited diagnostic radiology program that includes 6 months of nuclear medicine training, followed by c) 1 year of education in a combined nuclear medicine and nuclear radiology program. Certifying examinations of each board cannot be taken until all required years of training in both specialties are satisfactorily completed. Emergency Medicine/Family Medicine

The American Board of Emergency Medicine and the American Board of Family Medicine offer dual certification for candidates (el-
Emergency Medicine/Family Medicine

The American Board of Emergency Medicine and the American Board of Family Medicine offer dual certification for candidates (eligible for certification by each Board) who enter and successfully complete the curriculum of the 5-year program.

Internal Medicine/Dermatology

The American Board of Internal Medicine and the American Board of Dermatology offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Internal Medicine/Emergency Medicine

The American Board of Internal Medicine and the American Board of Emergency Medicine offer dual certification for candidates who have completed at least 2½ years of suitable accredited training in each specialty. A combined residency consists of 5 years of balanced education in the two disciplines. It is strongly recommended that the participating residencies be in the same academic health center.

To be eligible for dual certification, the resident must satisfactorily complete 60 months of combined education, which must be verified by the directors of both programs. The certifying examinations cannot be taken until all 5 years are completed.

Internal Medicine/Emergency Medicine/Critical Care Medicine

The American Board of Internal Medicine and the American Board of Emergency Medicine offer triple certification for candidates who complete a 6-year (72-month) integrated, coherent program of combined training in internal medicine, emergency medicine, and critical care medicine, approved by both boards.

Upon successful completion and verification of the first 5 years of this program, candidates may apply to take the certification examinations in internal medicine and emergency medicine. To meet eligibility for certification in critical care medicine, the candidate must: (1) have satisfactorily completed the 6-year combined program; (2) be certified by the American Board of Internal Medicine; and (3) have met the certification requirements of the American Board of Emergency Medicine.

Internal Medicine/Family Medicine

The American Board of Internal Medicine and the American Board of Family Medicine offer dual certification for candidates who have satisfactorily completed 4 years of combined training in programs approved by both boards.

To be eligible for dual certification, combined residency training in internal medicine and family medicine must include at least 48 months of balanced education in the two disciplines and be verified by the training director(s) of the program. The written certifying examinations cannot be taken until all required years in both specialties are completed.

Internal Medicine/Medical Genetics

The American Board of Internal Medicine and the American Board of Medical Genetics have approved a pathway leading to admissibility to the certification processes in internal medicine and medical genetics to candidates who have satisfactorily completed 5 years of combined training in internal medicine and medical genetics in an approved training track, beginning with a GY1 in internal medicine. Such training, which must be verified by the program directors of both specialties, is intended to provide educational and practical experiences in each discipline that are equivalent to those in the training programs of the parent specialties.

This combined residency training must be conducted in the same institution and its affiliated hospitals. There should be no interruption in training.

Internal Medicine/Neurology

The American Board of Internal Medicine and the American Board of Psychiatry and Neurology offer dual certification for candidates who have completed 5 years of combined training suitable to both boards. A combined residency in internal medicine and neurology must include at least 5 years of coherent education integral to residencies in the two disciplines. It is strongly recommended that the participating residencies be in the same institution.

To meet eligibility for dual certification, the resident must satisfactorily complete 60 months of training, which must be verified by the directors of both programs. The written certifying examinations cannot be taken until all required years in both specialties are satisfactorily completed.

Internal Medicine/Nuclear Medicine
The American Board of Internal Medicine and the American Board of Nuclear Medicine offer a training pathway for candidates who have completed 4 years of combined accredited training in internal medicine and nuclear medicine leading to admissibility to certification in both specialties. To meet eligibility for dual certification, the resident must satisfactorily complete 48 months of combined training that is verified by the directors of both training programs. It is strongly recommended that combined training occur in the same institution. Residents will be eligible for admission to the written certifying examination in internal medicine after successfully completing the R-3 year of training and for the nuclear medicine examination after the R-4 year.

Internal Medicine/Physical Medicine and Rehabilitation
The American Board of Internal Medicine and the American Board of Physical Medicine and Rehabilitation offer dual certification for candidates who have completed at least 2½ years of suitable accredited training in each specialty. A combined residency must include at least 5 years of coherent training integral to residencies in the two disciplines. It is strongly recommended that the participating residencies be in the same institution.

To meet eligibility requirements for dual certification, the resident must satisfactorily complete 60 months of combined education, which must be verified by the directors of both programs. The written certifying examinations cannot be taken until required training in a specialty has been satisfactorily completed. The certifying examination in internal medicine cannot be taken prior to the fall of the fifth year in the combined program.

Internal Medicine/Preventive Medicine
The American Board of Internal Medicine (ABIM) and the American Board of Preventive Medicine (ABPM) offer dual certification for candidates who have completed a minimum of 4 years of accredited training in combined internal medicine/preventive medicine programs that meet the Guidelines for Combined Internal Medicine - Preventive Medicine Residency Training Programs approved by ABPM and ABIM. In addition to satisfactory completion of the combined training programs, applicants for the ABPM certifying examination must have completed the required year of preventive medicine practice to qualify.

Neurology/Diagnostic Radiology/Neuroradiology

The American Board of Psychiatry and Neurology and the American Board of Radiology offer certification in neurology, diagnostic radiology, and neuroradiology. The combined residency must include at least 7 years of coherent training integral to all three residencies. It is recommended that the participating residencies be in the same academic health center.

To meet eligibility requirements for triple certification, the resident must satisfactorily complete 84 months of combined training, which must be verified by the directors of each program. Lacking verification of acceptable clinical competence in the combined program, the resident must satisfactorily complete the standard length of residency training and all other requirements before each certifying examination may be taken. Applicants may not take the certifying examination until all required years of training have been completed. In order to be eligible for the neuroradiology exam, a resident must have completed certification in both diagnostic radiology and neurology.

Pediatrics/Dermatology

The American Board of Pediatrics and the American Board of Dermatology offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Pediatrics/Emergency Medicine

The American Board of Pediatrics and the American Board of Emergency Medicine offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Offers additional training or educational experience beyond accredited length
Offers a primary care track
Offers a rural track
Offers a women’s health track
Offers a hospitalist track
Offers a research track/nonaccredited fellowship
Offers an other track
Resident Evaluation
Yearly specialty in-service examination required
Patient surveys

Portfolio system
360 degree evaluations
Objective structured clinical examinations (OSCE)
Program Evaluation
Program graduation rates
Board certification rates
In-training examinations
Performance-based assessments
Employment Policies and Benefits
Part-time/shared positions
On-site child care
Subsidized child care
Allowance/stipend for professional expenses
Leave for educational meetings/conferences
Moving allowance
Housing stipend
On-call meal allowance
Free parking
PDAs
Placement assistance upon completion of program
Cross coverage in case of illness/disability
Compensation and Leave (Graduate Year 1)
Average resident/fellow compensation
Average number of weeks of vacation
Sick days (paid)
Maximum number of paid days for family/medical leave
Maximum number of unpaid days for family/medical leave
Major Medical Benefits
Major medical insurance for residents
Major medical insurance for dependents
Outpatient mental health insurance
Inpatient mental health insurance
Group life insurance
Dental insurance
Disability insurance
Disability insurance for occupationally acquired HIV
Medical insurance coverage begins when starting program

The American Board of Family Medicine and the American Board of Psychiatry and Neurology offer dual certification in family medicine and psychiatry. A combined residency in family medicine and psychiatry must include at least 3 years of coherent training integral to residencies in the two disciplines. It is required that the combined training be under the aegis of the same academic institution.

To meet eligibility for dual certification, the resident must satisfactorily complete 60 months of combined training, which must be verified by the directors of both programs. The certifying examinations may not be taken until all required years of training in both specialties are satisfactorily completed.

Data
Combined Specialty Programs

**Educational Benefits**

- Curriculum on management of tobacco dependence: 28.6%
- Program to assess/enhance medical professionalism: 57.1%
- Debt management/financial counseling: 42.9%
- Formal program to develop teaching skills: 100.0%
- Formal mentoring program: 71.4%
- Formal program to foster interdisciplinary teamwork: 42.9%
- Continuous quality improvement training: 100.0%
- International experience: 28.6%
- Resident/fellow retreats: 100.0%
- Off-campus electives: 100.0%
- Hospice/home care experience: 42.9%
- Cultural competence awareness: 100.0%
- Instruction in medical Spanish or other non-English language: 14.3%
- Alternative/complementary medicine curriculum: 42.9%
- Training in identifying and reporting of domestic violence/abuse: 57.1%
- MPH/MBA or PhD training: 14.3%
- Research rotation: 0.0%

**Educational Features**

- Offers additional training or educational experience beyond accredited length: 0.0%
- Offers a primary care track: 14.3%
- Offers a rural track: 14.3%
- Offers a women's health track: 0.0%
- Offers a hospitalist track: 0.0%
- Offers a research track/nonaccredited fellowship: 14.3%
- Offers an other track: 14.3%

**Resident Evaluation**

- Yearly specialty in-service examination required: 92.9%
- Patient surveys: 42.9%
- Portfolio system: 57.1%
- 360 degree evaluations: 100.0%
- Objective structured clinical examinations (OSCE): 42.9%

**Program Evaluation**

- Program graduation rates: 85.7%
- Board certification rates: 100.0%
- In-training examinations: 100.0%

**Employment Policies and Benefits**

- Performance-based assessments: 85.7%
- Disability insurance: 57.1%
- Dental insurance: 100.0%
- Group life insurance: 100.0%
- Medical insurance coverage begins when starting program: 100.0%

**Compensation and Leave (Graduate Year 1)**

- Average resident/fellow compensation: $43,930
- Average number of weeks of vacation: 3.5
- Sick days (paid): 12.4
- Maximum number of paid days for family/medical leave: 20
- Maximum number of unpaid days for family/medical leave: 20

**Major Medical Benefits**

- Major medical insurance for residents: 100.0%
- Major medical insurance for dependents: 85.7%
- Inpatient mental health insurance: 100.0%
- Group life insurance: 100.0%
- Disability insurance: 85.7%
- Disability insurance for occupationally acquired HIV: 57.1%
- Medical insurance coverage begins when starting program: 100.0%

**Psychiatry/Neurology**

*The American Board of Psychiatry and Neurology has established guidelines for combined training in psychiatry and neurology. There are usually taken at one approved institution but may be taken at no more than two approved institutions.*

**Data**

<table>
<thead>
<tr>
<th>Table 1. Psychiatry/Neurology Programs</th>

The American Board of Medical Specialties (ABMS) and Board Certification

The American Board of Medical Specialties (ABMS®), a not-for-profit organization, represents 24 approved medical specialty boards that establish and maintain high standards for physician certification and the delivery of safe, quality medical care by certified physician specialists. The primary function of the ABMS is to assist the member boards in their efforts to develop and use standards for the evaluation and certification of physician specialists.

Additionally, in collaboration with other organizations and the Accreditation Council for Graduate Medical Education (ACGME), the member boards assist in improving the quality of medical education by elevating the standards for graduate medical education and accreditation (approval) of residency and training programs.

The ABMS member boards (listed below) have been approved by the ABMS and the AMA Council on Medical Education (AMA CME) through the Liaison Committee for Specialty Boards (LCSB), with ultimate approval of the application by the membership of the ABMS and the AMA CME.

American Board of:
- Allergy and Immunology
- Anesthesiology
- Colon and Rectal Surgery
- Dermatology
- Emergency Medicine
- Family Medicine
- Internal Medicine
- Medical Genetics
- Neurological Surgery
- Nuclear Medicine
- Obstetrics and Gynecology
- Ophthalmology
- Orthopaedic Surgery
- Otolaryngology
- Pathology
- Pediatrics
- Physical Medicine and Rehabilitation
- Plastic Surgery
- Preventive Medicine
- Psychiatry and Neurology
- Radiology
- Surgery
- Thoracic Surgery
- Urology

The governing body of each ABMS member board is composed of specialists qualified in the particular field represented by that board. In many but not all cases, members are elected to the board from national specialty organizations in fields related to the particular specialty involved. These individuals can include educators in the specialty, those with specialized training or skills in the primary specialty or subspecialties represented by the board, and from among those who have demonstrated the expertise, motivation, and ability to assist in the evaluation procedures leading to certification.

Certification obtained through one of the ABMS member boards denotes that a physician has gone beyond the minimum requirement necessary for licensure. It provides the assurance that a physician has the appropriate knowledge, skills, and experience needed to deliver quality care in a specific area of medicine according to the standards designated by the ABMS and its member boards.

Note: The American Board of Medical Specialties (ABMS) and Board Certification Information.
The ABMS member boards oversee the certification process for their particular specialty. A physician receives certification as a specialty medical practitioner after receiving a medical degree, completing an accredited training program, receiving a license to practice medicine, undergoing an evaluation of his or her record by a panel of peer experts, and passing a comprehensive examination given by an ABMS member board. Physicians meeting this set of requirements are awarded general certificates in the field represented by that member board. Physicians can also become certified in a subspecialty, which requires additional training and examination.

A summary of the certification requirements of each member board of the ABMS are included on subsequent pages. Note: Applicants for certification should contact the respective board(s) to confirm the current, official policy and requirements of a given board(s). Inquiries regarding specialty board certification requirements should be directed to the specialty board executive offices listed in Table 1.

The member boards of ABMS publish materials containing statements on the requirements for certification, which are also reprinted in each edition of the Official American Board of Medical Specialties Directory of Board Certified Medical Specialists. This publication contains certification and biographical information on each diplomate who has been certified by a member board of ABMS. The Directory is available from Elsevier Science, 655 Avenue of the Americas, New York, NY 10010; 888 437-4636; fax 212 633-3820.

**Board Certification and Maintenance of Certification: What Students and Residents Need to Know**

The first nationally recognized medical specialty certification board was established in 1917 (the American Board of Ophthalmology). Board certification was seen as a way to receive formal recognition of one's qualifications in a chosen specialty field by one's professional peers.

Then, as now, it was a voluntary process. Today, however, board certification is becoming less an option and more a necessity to gain credentialing privileges on hospital staffs and participate in managed care plans. Between 85% and 90% of practicing physicians are certified by a member board of ABMS. (A list of all General and Subspecialty Certificates issued by ABMS member boards is shown in Table 2.) In addition, all boards currently issue time-limited certificates and have moved from recertification to maintenance of certification, which encompasses the following four components:

- **Professional standing**—Physicians must hold a valid, unrestricted medical license in at least one state or jurisdiction in the United States, its territories, or Canada.
- **Lifelong learning and self-assessment**—Physicians are required to participate in educational and self-assessment programs that meet specialty specific standards set by the member boards for its physician diplomates to provide quality care in that specialty.
- **Cognitive expertise**—Physicians must prove, through formalized examination, that they have the fundamental, practice related and practice environment related knowledge to provide quality care in a particular specialty.
- **Practice performance assessment**—Physicians are evaluated in their clinical practice according to specialty-specific standards for patient care. They are asked to demonstrate that they can assess the quality of care they provide compared to peers and national benchmarks and then apply the best evidence or consensus recommendations to improve that care using follow-up assessments.

In reviewing the information that follows and making one's plans for board certification, students and residents may want to consider these questions:

- What are the steps of the certification process?
- Is my training program ACGME- or RCPSC-accredited?
- Does training in nonaccredited programs count toward board certification requirements?
- Can one receive credit for training completed outside the United States?
- Must all training occur in one program? What happens if one changes residencies?
- What is the program's policy on maternity/paternity leave and vacations?
- What impact do absences during residency/fellowship have on board certification?
- How soon after training can one take the boards?
- What training/expertise is necessary beyond residency/fellowship training?
- Does my GME program offer dual certification?
- Is certification with added qualifications available?
- How frequently are the board examinations (written, oral) offered?

What are the repercussion of losing board certification?
What does the board certification process cost?
What other costs are associated with certification and maintenance of certification (including travel, lodging, review courses)?
What is the impact of choosing not to become board certified?
What are the requirements for maintenance of certification?
Is there a “by-experience” route to certification?
Graduation from an osteopathic school in the United States accredited by the American Osteopathic Association
International medical graduates (IMGs), also known as graduates of foreign medical schools, must possess an Educational Commission for Foreign Medical Graduates (ECFMG) certificate, which is required for IMGs to enroll in US residency/fellowship programs. Candidates who entered GME in the US via the AMA-sponsored Fifth Pathway program are also accepted as candidates for certification (see Section I, Part C for more information on the Fifth Pathway program). IMGs are requested by at least one board to provide a verified, notarized, and translated copy of the diploma, showing the medical degree and the date it was awarded.

Undergraduate Medical Education Requirements
In general, the ABMS certification boards specify the following requirements for undergraduate medical education, or medical school:
• Graduation from a medical school in the United States accredited by the Liaison Committee for Medical Education (LCME), which is sponsored by the AMA and Association of American Medical Colleges (AAMC)
• Graduation from a medical school in Canada accredited by the Committee on Accreditation of Canadian Medical Schools (CACMS), with which the LCME collaborates

Graduate Medical Education Requirements
The amount of GME required varies by board (see Table 3). In most cases, residency/fellowship training must be completed in GME programs accredited by the Accreditation Council for Graduate Medical Education (ACGME) in the US or the Royal College of Physicians and Surgeons of Canada in Canada. Similarly, leave of absence policies (for parental or family leave or illness) vary from one board to the next, as shown in Table 4.
Residency/fellowship program directors are required to document to the respective board(s), in writing, whether a resident/fellow has achieved a satisfactory level of competence and is qualified to pursue certification. The definition of “competence” varies somewhat from one specialty to another, but would generally include attainment of medical knowledge and its application in patient care, as well as interpersonal skills, manual and technical capabilities (in surgical fields, for example), ethics, and pro-
Professionalism. Residents/fellows are rated on specialty-specific measures as well as the six general competencies of the ACGME:

- **Patient Care**—Residents must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health.
- **Medical Knowledge**—Residents must demonstrate knowledge of established and evolving biomedical, clinical, epidemiological and social-behavioral sciences, as well as the application of this knowledge to patient care.
- **Practice-based Learning and Improvement**—Residents must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and life-long learning.
- **Interpersonal and Communication Skills**—Residents must demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families, and health professionals.
- **Professionalism**—Residents must demonstrate a commitment to carrying out professional responsibilities and an adherence to ethical principles.
- **Systems-based Practice**—Residents must demonstrate an awareness of and responsiveness to the larger context and system of health care, as well as the ability to call effectively on other resources in the system to provide optimal health care.

**Licensure Requirements**

In most cases, applicants for certification and maintenance of certification, as well as current diplomates, must hold a full, valid, current, and unrestricted license to practice medicine in the United States, its territories, or Canada. If licenses are held in more than one jurisdiction, all licenses held must meet this requirement. Applicants and diplomates are also required to inform their respective board of any and all restrictions placed on their licenses.

Some boards (e.g., American Board of Obstetrics and Gynecology, American Board of Psychiatry and Neurology [ABPN]) allow for

### Table 4. Residency/Fellowship Leave of Absence Policies of ABMS Certification Boards

<table>
<thead>
<tr>
<th>American Board of:</th>
<th>Absences may not exceed . . .</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Allergy and Immunology</td>
<td>2 months over the 24-month allergy/immunology program</td>
<td>Absences should be made up. Program directors who believe that an absence of more than 2 months is justified should send a letter of explanation to the ABAI for review and approval.</td>
</tr>
<tr>
<td>Anesthesiology</td>
<td>60 working days (12 weeks) during the Clinical Anesthesia (CA) 1-3 years of training</td>
<td>If a resident’s absence exceeds the prescribed limits, the total training time will be lengthened to make up for the additional absence. In the event of an absence of 6 months or longer, the board shall determine the number of months of training the resident will have to complete after resuming the residency program to satisfy the training required for admission to the ABA examination system.</td>
</tr>
<tr>
<td>Colon and Rectal Surgery</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Dermatology</td>
<td>6 weeks in any 1 academic year, or a total of 14 weeks over 3 years</td>
<td>Any absence(s) exceeding these limits, including vacation, should be approved only under truly exceptional circumstances. In addition, any resident approved to sit for the certifying examination despite such an absence should have completed each year of training in an above average or excellent manner as recorded on the residency evaluation forms.</td>
</tr>
<tr>
<td>Emergency Medicine</td>
<td>6 weeks in an academic year</td>
<td>Leaves of absence, vacation time, sick time, etc, that exceed 6 weeks in an academic year require extension of the residency program. Such leave time cannot be accrued from year to year. Therefore, the Board defines an acceptable year of training as a minimum of 46 weeks.</td>
</tr>
<tr>
<td>Family Medicine</td>
<td>1 month per academic year</td>
<td>Vacation periods may not accumulate from one year to another. Annual vacations must be taken in the year of the service for which the vacation is granted. No two vacation periods may be concurrent. Absence from residency education, in excess of 1 month within the academic year, must be made up before the resident advances to the next training level, and the time must be added to the projected date of completion of the required 36 months of training.</td>
</tr>
<tr>
<td>Internal Medicine</td>
<td>1 month per year</td>
<td>Trainees may take up to 1 month per year of training for vacation, parental or family leave, or illness (including pregnancy-related disabilities). Training must be extended to make up any absences exceeding 1 month per year of training.</td>
</tr>
<tr>
<td>Medical Genetics</td>
<td></td>
<td>Residents/fellows may take up to 1 month per year of training for vacation, parental or family leave, or illness (including pregnancy-related disabilities). Training must be extended to make up any absences exceeding 1 month per year of training. Vacation leave is essential and cannot be forfeited.</td>
</tr>
<tr>
<td>Neurological Surgery</td>
<td></td>
<td>Left to the program director’s discretion and state regulations, as long as ABNS training requirements for certification are met.</td>
</tr>
<tr>
<td>Nuclear Medicine</td>
<td></td>
<td>A resident may have a total of 6 weeks per year leave of absence for any cause, including vacation and pregnancy. Any more time must be made up for the resident to be accepted to take the certifying examination.</td>
</tr>
<tr>
<td>Obstetrics and Gynecology</td>
<td>8 weeks in any of the first 3 years of GME, or 6 weeks during the fourth year of GME, or a total of 20 weeks over the 4 years of residency</td>
<td>If a resident’s absence exceeds the prescribed limits, the total training time will be lengthened to make up for the additional absence.</td>
</tr>
<tr>
<td>Ophthalmology</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Orthopaedic Surgery</td>
<td>6 weeks per year</td>
<td></td>
</tr>
<tr>
<td>Otolaryngology</td>
<td>6 weeks per year</td>
<td>If a resident’s absence exceeds the 6-week per year limit, the program director must submit a plan to the ABO for approval on how the training will be made up, which may require an extension of the residency. If a longer leave of absence is granted in any year, the required period of GME may be extended accordingly.</td>
</tr>
<tr>
<td>Pathology</td>
<td>4 weeks per year</td>
<td>One year of approved training credit toward ABP certification must be 52 weeks in duration, and the resident must document an average of 48 weeks per year of full-time pathology training over the course of the training program. Any additional leave must be made up.</td>
</tr>
</tbody>
</table>
exceptions for those applicants who do not yet have an unrestricted medical license because they are still in training; in these cases, an educational or institutional license is sufficient, provided that proof of the full, unrestricted medical license is provided to the ABPN within the specified time frame. The ABPN also allows consideration of the following exceptions for licensure: Restriction of a physician’s medical license does not include medical licenses that, when issued, are limited to a geographic area within a jurisdiction (eg, practice limited to underserved areas), as long as such licenses are not in any way limited due to, because of, or by virtue of a disciplinary, legal, or administrative action against the license holder. At its sole discretion, the ABPN may review instances of licensure restrictions to determine whether such restrictions constitute a violation of the ABPN’s licensure requirements.

Applicants With a History of Chemical Dependency or Substance Abuse

(Note: Following is general information about boards’ policies in this regard. Each board may have specific policy that differs from these general guidelines.)

The Americans with Disabilities Act (ADA) protects individuals with a history of chemical dependency or substance abuse who are not currently abusing alcohol or using drugs illegally. Candidates with a history of chemical dependency or abuse of a controlled substance will not be admitted to board examinations unless they present evidence satisfactory to the board that they have successfully completed the program of treatment prescribed for their condition and the board is satisfied that they are currently free of such substance abuse or chemical dependency and do not currently pose a
direct threat to the health and safety of others. A board may also require attestations from the responsible program administrators and physicians that the applicant has been free of chemical dependency for a period sufficient to establish that the applicant is not currently exhibiting chemical dependency and/or that substance abuse is not an ongoing problem.

Notes
Dermatology—A confirmatory letter from a licensed physician within 1 month of the examination stating that the disorder no longer exists or is currently controlled is also necessary.

Internal Medicine—Documentation of at least 1 year of continuous sobriety from a reliable monitoring source must be submitted to the board for admission to an examination or to receive a certificate.

Psychiatry and Neurology—Restriction of a physician’s medical license does not include voluntary participation in an impaired physicians’ program or other appropriate, monitored alcohol or chemical substance-abuse recovery program if the physician has not been reported to either the National Practitioner Data Bank or the Data Bank of the Federation of State Medical Boards.

Thoracic Surgery—Documentation of at least 2 years of continuous sobriety from a reliable monitoring source must be submitted to the board for admission to an examination. For candidates who are already in the examination process and develop a chemical dependency as reported to the board, the process will be suspended until the candidate can provide documentation suitable to the board that the condition has been under control for a period of 2 years. At that time, the candidate will be readmitted to the examination process. The requirement to be accepted for examination within 5 years of completion of an approved thoracic surgery residency will not be waived.

Applicants With Disabilities
(Nota: Following is general information about boards’ policies in this regard. Each board may have specific policy that differs from these general guidelines.)

The ABMS certification boards support the intent of the Americans with Disabilities Act (ADA). Accordingly, the boards will attempt to make reasonable accommodations for applicants with disabilities, and may provide or allow the use of necessary auxiliary aids, services, or testing conditions that do not fundamentally alter the measurement of the skills or knowledge the examination is intended to test.

Applicants are required to notify the respective board of the need for special testing circumstances when applying for examination. This deadline allows the board to request the necessary document, review the records, and verify the disability, if necessary. All special arrangements must be made and agreed upon in advance; special arrangements cannot be made at the time the examination is given. Therefore, early notification of the need for special testing circumstances is encouraged.

If necessary, some boards may undertake an independent assessment, at the expense of the board. Documentation and other evidence substantiating the disability may include:
- A report diagnosing the applicant’s disability written by a professional appropriately qualified to evaluate the disability
- A history of the disability, including previous settings in which accommodations have been granted
- Diagnostic information about the specified disability using standard nomenclature from sources such as the International Classification of Diseases (ICD) and the Diagnostic and Statistical Manual of Mental Disorders
- Specific recommended accommodations with a rationale for why each accommodation is needed.

Use of the Term “Board Eligible”
Because certification is a process of advancement through several individual steps, including examination, the completion of any one step, such as the minimal educational requirements, should not imply that a candidate is now possessed of some special qualification that is more or less equivalent to certification. For this reason, the majority of ABMS boards do not use or sanction the use of the terms “board eligible” or “board qualified.” The status of an applicant with a given board is determined by and varies with the current status of his/her credentials.

Exceptions: The American Board of Orthopaedic Surgery recognizes candidates who have successfully completed Part I and are waiting to take Part II as being “board eligible.” The American Board of Physical Medicine and Rehabilitation, although it does not accept any use of “board eligible,” uses the term “board admissible” to define the status of an applicant who has been accepted by the ABPMR as a candidate to take the examination for which he or she has applied.

Examination Policies
Cheating and Irregular or Unethical Behavior on Examinations
(Note: Following is general information about boards’ policies in this regard. Each board may have specific policy that differs from these general guidelines.)

Cheating and irregular or unethical behavior by a candidate before, during, or after a written or oral examination may include:
- Giving or obtaining information or aid
- Looking at others’ test material
- Removing examination materials from the test center and/or reproducing these materials or distributing them to others
- Reconstructing examination questions and answers and transferring this information to others after the examination
- Taking notes
- Bringing electronic devices (e.g., beepers, pagers, cell phones, etc.) into the examination
- Failing to comply with time limits or instructions
- Talking or other disruptive behavior
- Making telephone calls
- Offering any benefit to an agent of the board in return for any right, privilege, or benefit that is not usually granted by the board to other similarly situated candidates or persons

Any irregular or improper behavior that is observed, made apparent by statistical analysis, or uncovered by other means will be considered a subversion of the certification process and may be sufficient to bar a person from qualification, terminate participation in an examination, invalidate the results of a candidate’s examination, cause the withholding or revocation of scores or certificates, or merit other appropriate actions, up to and including legal prosecution. In addition, the candidate may be barred from retaking the examination in the future for a period determined by the board (the orthopaedic surgery board, for example, requires a 5-year hiatus, the psychiatry/neurology board up to 5 years), and the board may inform program director(s), licensing bodies, state and national medical associations and specialty societies, impaired physicians advocacy groups, or law enforcement agencies of these actions.

The materials comprising all board examinations are confidential and are the sole property of the respective board. Any unauthorized reproduction, distribution, or use of any of these materials is prohibited. Boards will prosecute copyright violations to the full extent provided by law and seek monetary damages for any loss of examination materials.

A board may withhold a candidate’s scores and require that the candidate retake one or more portions of an examination if presented with sufficient evidence that the security of the examination has been compromised, notwithstanding the absence of any evidence of the candidate’s personal involvement in such activities.

**Recertification and Maintenance of Certification**

As described below, ABMS member boards are moving away from time-limited recertification to a program of continuous certification called Maintenance of Certification (MOC). The boards are at various stages in the conversion to MOC. The year recertification was first issued and the duration of recertification are shown in Table 6.

**Continuous Certification of Physician Specialists**

Recognizing that the professional responsibility of physicians requires ongoing learning and improvement throughout their careers, a program of continuous certification called Maintenance of Certification (MOC) was developed by the ABMS and the member boards as a formal means of measuring a physician’s cumulative and ongoing qualifications in the specialty and/or subspecialty in which certification is held.

With the MOC program, the ABMS member boards are moving away from periodic (every 6, 7, or 10 years) recertification by examination to a more comprehensive process for assessing the continuing competence of physician specialists and their ability to provide quality health care. The MOC processes assure that the physician is...

## Certification Requirements

<table>
<thead>
<tr>
<th>Specialty</th>
<th>Practice Performance Requirements</th>
<th>Cognitive Expertise/Examination Requirements</th>
<th>Lifelong Learning and Self-Assessment Requirements</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dermatology</td>
<td>Completion of one Quality Assessment, one patient survey, and one peer survey every year.</td>
<td>Three self-assessment examinations at approximately 3-year intervals.</td>
<td>The current examination is a clinically focused, take-home, open-book examination that is elective, that are tailored to the candidate’s practice profile. In 2020, this examination will be a closed-book examination administered at testing centers in the US.</td>
<td>MOC program began in 2004.</td>
</tr>
<tr>
<td>Emergency Medicine</td>
<td>The Continuous Certification (ConCert) examination, a secure, open-book, take-home, open-book examination administered at testing centers in the US and Canada. The examination consists of approximately 5 hours to complete and focuses on what the practicing emergency physician needs to know when seeing patients.</td>
<td>The Lifelong Learning and Self-Assessment (LLSA) component includes an annual set of readings to guide participants in self-study of recent emergency medicine literature. Each year, the ABEM will offer an open-book, unproctored LLSA test with 22-40 questions to help reinforce education and practice.</td>
<td>Diplomates who are clinically active will be required to attest to the ABEM twice during a 10-year certification period that they have participated in an acceptable quality improvement (QI) program at a national, regional, or local level and in a manner that advances patient safety and professionalism feedback program.</td>
<td>MOC program began in 2004. If all requirements and deadlines are met, the diplomate is eligible for a 3-year extension to the 7-year certificate.</td>
</tr>
<tr>
<td>Family Medicine</td>
<td>The Part III Cognitive Examination contains multiple-choice questions and tests cognitive ability and problem-solving ability relevant to family medicine. The examination, offered in computer-based format only, is fully in English.</td>
<td>One Performance in Practice Module (PPM) must be completed each year, with 22-40 questions to help reinforce learning and practice.</td>
<td>Diplomates will be required to attest to their own clinical practice data and patient feedback.</td>
<td>MOC program began in 2004.</td>
</tr>
</tbody>
</table>

### American Board of Family Medicine (ABFM) Exam
- **Exam Format**: 22-40 questions
- **Duration**: Approximately 5 hours
- **Language**: English

### CME Requirement
- **Total Credits**: 300 CME credits
- **Evaluation of Credit**: A total of 100 credits must be earned per year over the 10-year cycle.
- **Self-Assessment Module (SAM)**: One Self Assessment Module (SAM) composed of an online, 80-question examination focusing on recent developments and practice issues in family medicine. The examination is offered in computer-based format only, is fully in English.

### MOC Program
- **Beginning Year**: 2004
- **Extension**: If all requirements and deadlines are met, the diplomate is eligible for a 3-year extension to the 7-year certificate.
<table>
<thead>
<tr>
<th>American Board of</th>

<tbody>
<tr>
<td>Internal Medicine</td>
<td></td>
<td>ABIM diplomates must earn at least 20 of the required 100 self-assessment points for Maintenance of Certification in the Self-Evaluation of Medical Knowledge category by completing ABIM medical knowledge modules. These open-book modules test clinical and practical knowledge in a particular field.</td>
<td>The ABIM secure exam is a computer-based multiple choice examination (single best answer format) which takes approximately 8 hours to complete. The exam stresses clinical decision-making, using patient-based case scenarios.</td>
<td>ABIM diplomates must earn at least 20 of the required 100 self-assessment points for Maintenance of Certification in the Self-Evaluation of Practice Performance category. ABIM offers a Web-based tool to fulfill this requirement—the ABIM PIMsm Practice Improvement Module, which enables physicians to conduct a confidential self-evaluation of the medical care that they provide. PIMs help physicians gain knowledge about their practices through analysis of practice data and the development and implementation of a plan to target areas for improvement.</td>
<td>MOC program began in 2006. All ABIM certificates issued in 1990 (1987 for critical care medicine and 1988 for geriatric medicine) and thereafter are valid for 10 years.</td>
</tr>
</tbody>
</table>

Medical Genetics | 250 Category 1 CME credits over the 10-year period; at least 50% of the credits must be in genetics. Credits will be audited in years 4-5 and 8-9. | Web-based, open-book, and non-proctored literature modules will be more concise versions of the current literature review. A pre-reading and post-reading test are required to help diplomates assess their acquisition of knowledge. Only the post-reading test will count, and can be taken as often as necessary to pass. A message rather than a score is recorded when diplomates pass the post-reading test. Participation in three of five offered modules must take place during the 10-year cycle. Each module will be accessible for only a 3-year period of time. | The specialty-only certification-type examination will be computerized and proctored at a testing center; it must be passed only once during years 8 to 10 of the 10-year cycle. The examination may be taken again, if necessary, to achieve a passing score. The examination will be available once a year. | Practice improvement activities will assist diplomates in evaluating their practice, identifying areas that may need improvement, and documenting any improvements. Activities are not graded, but participation in three activities during the 10-year cycle is mandatory. | MOC program began in 2007. |

<td>Neurological Surgery</td>
<td>150 CME credits every 3 years, including a minimum of 60 Category 1 neurosurgical credits; remainder may be either Category 1 or 2. At least 80% of total must be specific to neurosurgery.</td>
<td>Every 3 years, take the web-based educational Self-Assessment in Neurological Surgery (SANS) examination developed and administered by the Congress of Neurological Surgeons.</td>
<td>Secure, proctored, web-based examination given each March at neurosurgical residency programs. Consists of 210 clinically oriented questions. 155 items are General Neurosurgery; three different modules are offered for the other 55: 1) More general neurosurgery; 2) Complex spine surgery; 3) Pediatric neurosurgery. Taken once each 10 years.</td>
<td>Submit details of 10 consecutive current cases selected from a list of procedures that cover the subspecialties. Assessment of physician/patient communication, via a survey of 20 patients. Chief of staff questionnaire covering professionalism, communication skills, and participation in systems-based practice. All three repeated every 3 years.</td>
<td></td>
</tr>
<tr>
<td>Nuclear Medicine</td>
<td>50 CME credits every year, of which 25 must be category 1 (including 8 category 1 CME credits from ABNM-approved self-assessment modules); 70% of Category 1 credit must be in nuclear medicine (175 credits)</td>
<td>Each diplomat must obtain a minimum of 8 self-assessment credits per year. The Society of Nuclear Medicine has developed a Lifelong Learning &amp; Self-Assessment Program (LLSAP) that allows nuclear medicine physicians to meet this component.</td>
<td>The examination contains questions on fundamental knowledge, up-to-date practice-related knowledge, and issues such as ethics and professionalism. This component consists of the recertification examination administered by the ABNM.</td>
<td>Applicants must demonstrate evidence of evaluation of performance in practice, including the medical care provided for common/major health conditions and physician behaviors, such as communication and professionalism, as they relate to patient care.</td>
<td>MOC program began in 2007.</td>
</tr>
<tr>
<td>Obstetrics and Gynecology</td>
<td>The basic annual board certification process for diplomates results in a minimum of 150 Category 1 CME credits granted by ACOG. Each diplomat may earn up to 210 Category 1 CME credits per 6-year cycle.</td>
<td>Diplomates receive three booklets each year containing 180 questions (60 in GYN, 60 in OB, and 60 in Office Practice) and must answer at least 120 out of 180 questions.</td>
<td>The written maintenance of certification examination will last 3 hours and 45 minutes and have 180 objective multiple choice questions. The examination will be held in computer testing facilities located throughout the US and will first be administered in 2013.</td>
<td>Diplomates must complete 10 modules per 6-year cycle. For General OB/GYN, diplomates can choose from OB, GYN, or OP, as well as modules in patient safety, ethics, etc.</td>
<td>MOC program begins in 2008.</td>
</tr>
<tr>
<td>Ophthalmology</td>
<td>An average of 30 ACCME-approved Category 1 CME credits per year as of the date of certification and throughout the 10-year MOC cycle, with 3 CME credits in ethics.</td>
<td>The Periodic Ophthalmic Review Tests (PORT) are a series of 50-item, online self-review tests in core ophthalmic knowledge and 10 Practice Emphasis Areas (PEAs). Two PORTs are required for most diplomates: one in core knowledge and one in a PEA of choice.</td>
<td>The Demonstration of Ophthalmic Cognitive Knowledge (DOCK) Examination is required for completion of MOC. DOCK is a secure, proctored, 150-item computer-based examination administered at approximately 250 test centers for a period of 1 month each September; it consists of three 50-item modules, one in core ophthalmic knowledge and two in Practice Emphasis Areas (PEAs).</td>
<td>The Office Record Review (ORR) is an online self-review of clinical practice in which a diplomat reviews 15 current patient charts; it consists of over 35 ophthalmic diagnoses with specific criteria. The ABO intends to add an additional component to the ORR that will encourage acquisition of new knowledge and skills and a demonstration of practice improvement.</td>
<td>MOC program began in 2006.</td>

<tr>
<td>Orthopaedic Surgery</td>
<td>120 credits of Category 1 CME over two 3-year cycles</td>
<td>As part of the CME requirement, a minimum of 20 CME credits of Self-Assessment Examinations (SAEs) is required.</td>
<td>Diplomates must pass a secure examination after successful completion of all MOC components. The options for the secure exam are 1) Practice-based Oral exam, 2) Computer-administered practice-profiled exams in adult reconstruction, sports orthopaedics, or surgery of the spine, 3) Computer-administered General Clinical exam, and 4) for those Diplomates who hold a CAD in Surgery of the Hand, a computer-administered combined exam in this discipline.</td>
<td>This component will focus on a quality improvement model and include a stringent peer review process, involving submission of case lists. In addition, the board will obtain peer review of the candidate from colleagues and evaluations from hospital chiefs of staff and others.</td>
<td></td>
</tr>
<tr>
<td>Otolaryngology</td>
<td>Candidates are required to complete a sufficient number of CME credits to meet their state's requirement for licensure for each license held. Sixty percent of the hours must be specifically related to otolaryngology. For candidates in states that do not have specific requirements, 15 CME credits are required.</td>
<td>Core component examination includes knowledge fundamental to the practice of otolaryngology, as well as knowledge of practice environment issues such as quality assurance, safety, regulations, ethics of practice, professionalism, legal and reimbursement issues, and one module, selected by the candidate, which focuses on a specific area.</td>
<td>Neurotology and sleep medicine subspecialty-certified individuals need only participate in the neurotology MOC or sleep medicine program to maintain the primary and subspecialty certificates.</td>
<td>MOC program began in 2002.</td>

<tr>
<td>Pathology</td>
<td>An average of 35 Category 1 CME credits per year for each 2-year period in the MOC cycle; 10 of these credits must be obtained from completion of self-assessment modules (SAMs), and 80% of the CME must be directly related to the diplomate’s practice. The remainder may be in relevant areas, such as administration or ethics.</td>
<td>The examination will be a closed-book assessment based on knowledge that a competent practitioner would be expected to possess without access to reference material. Initially, the examination will be given in the ABP Examination Center in Tampa, Florida; if future technology permits assurance of examination security, the ABP anticipates administering its computer-based examinations in regional computer testing centers.</td>
<td>Diplomates will be required to provide peer attestations as to interpersonal and communication skills, professionalism, ethics, and effectiveness in systems-based practice. At the beginning of the fourth year of each certification period and again at the time of application for the cognitive examination, diplomates will be asked to supply the names of four references who can attest to their ability and effectiveness in practice. In addition, each pathologist must participate in at least one laboratory improvement and quality assurance activity or program per year.</td>
<td>Participation in an accredited fellowship during 1 full year of any 2-year period will cover all MOC Part II and Part IV requirements for that period.</td>

<tr>
<td>Pediatrics</td>
<td>Part Two of MOC in General Pediatrics consists of two Internet-based self-assessment exercises: 1) The ABP Knowledge Self-assessment consists of 200 multiple-choice items reflecting the same general content as the secure examination. Because this activity is a self-assessment and is designed to provide practice experience for the examination, there is no passing score for this activity. 2) The Decision Skills Self-assessment consists of 50 multiple-choice items based on patient cases. Each question provides history, physical, and laboratory findings and asks for the most likely diagnosis or for the most appropriate additional study or expected laboratory finding. Unlike the Knowledge Self-assessment, a minimum score is required for this activity. Both assessment exercises must be completed during the calendar year in which they were started to receive credit for MOC. Part Two of MOC in Pediatric Subspecialties consists of an Internet-based self-assessment exercise. Participants are required to complete one self-assessment exercise during a 7-year period. This requirement may be met by completing a self-assessment provided by the ABP or an ABP-approved self-assessment provided by an external entity. The ABP’s self-assessment focuses on recent literature and is delivered via the Internet. Expert panels of subspecialists select a list of articles, available on the ABP Web site, that focus on recent advances in each subspecialty. The self-assessment exercise consists of multiple-choice questions based on the listed references. Participants may start and stop the assessment exercises as often as they like within the specified year (i.e., each assessment will have 365-day validity period). However, a self-assessment must be completed within the stated 365-day period in which it was started in order to receive credit for MOC. A passing score is required for each self-assessment. Participants are allowed as many attempts as necessary to successfully complete the assessment. Part Three of MOC consists of a secure examination administered at testing centers throughout the US and elsewhere. Approximatively 200 questions are included in this half-day, closed-book examination. Pass rates for PMCP examinations are relatively high, ranging from 88% to 100%. Component A: Patient surveys to solicit information about a participant’s interpersonal and communication skills and professionalism (once during the 7-year certificate span). There will be no minimum score for this activity. Component B: The Practice Performance component, designed to help physicians learn about quality improvement strategies, collect and analyze practice data over time, and document improved quality of care.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>If a certificate has an ending date prior to 2010, only the licensure and examination activities are required to renew the certificate for another 7 years. If a certificate has an ending date of 2010 and beyond, all MOC requirements must be completed prior to the ending date of the certificate to renew the certificate for another 7 years. Diplomates are not required to maintain their general pediatric certificates in order to maintain certification in a subspecialty; however, diplomates desiring to maintain both certificates may be eligible for reduced fees. MOC program began in 2003.</td>

<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychiatry and Neurology</td>
<td>Completion of 150 specialty- or subspecialty-specific Category 1 CME credits in each of the two 5-year blocks of the 10-year MOC cycle, for a total of 300 CME credits</td>
<td>Diplomates are required to participate in at least two major, broad-based self-assessment programs during the 10-year MOC cycle, to be completed in years 1-3 of the first 5-year block of the cycle and years 6-8 of the second 5-year block. The self-assessment activities must cover current knowledge and/or current best practices in one or more of the required competency areas in a single assessment or in the sum of several combined assessments, totaling at least 100 questions, and provide feedback to the diplomate that can be used as the subsequent basis for focused CME, lifelong learning, and/or career development.</td>
<td>The cognitive examinations are multiple-choice, computer-based examinations administered at testing centers throughout the country. MOC cognitive examinations differ from the initial certification examinations in that they are practice-relevant and focus on the clinical applications of knowledge. To prepare for the examinations, a diplomate should keep current with research and developments in the respective field, read specialty-specific journals and practice guidelines, and attend relevant CME programs.</td>
<td>The Performance in Practice (PIP) component is a quality improvement program designed to evaluate whether physicians have shown practice improvement over the 10-year MOC cycle by chart review and second-party external review. Diplomates will be required to complete three PIP Units consisting of both modules in years 1-3, 4-6, and 7-9 of the 10-year cycle.</td>
<td>Diplomates with certificates in addiction psychiatry, clinical neurophysiology, forensic psychiatry, geriatric psychiatry, hospice and palliative medicine, neuromuscular medicine, pain medicine, psychosomatic medicine, sleep medicine, and vascular neurology must also maintain certification in their specialty in order to apply for MOC in the area of subspecialization. Diplomates in neurodevelopmental disabilities must maintain certification in neurology with special qualification in child neurology. If certification in the subspecialty lapses, certification in the subspecialty is no longer valid. Diplomates in child and adolescent psychiatry do not need to maintain current certification in general psychiatry for their subspecialty certification to remain valid and to maintain certification in child and adolescent psychiatry.</td>
</tr>
<tr>
<td>Radiology</td>
<td>A minimum of 250 ACCME-approved Category 1 CME credits over the 10-year cycle, with at least 70% in specialty-specific or related areas</td>
<td>Self-assessment modules (SAMs) are educational venues (eg, refresher courses, workshops, reading assignments, online offerings), usually offered by the societies, that have been ABR-qualified. All SAMs are also qualified as Category 1 CME, and can serve to fill that requirement as well.</td>
<td>Completion of a computer-based examination within the last 3 years of the 10-year MOC cycle is required. A practice-profiled exam will be offered by the ABR at least once a year, starting in 2010. The proctored examination is a comprehensive test covering the knowledge base required for the practice of diagnostic radiology.</td>
<td>The board’s Practice Quality Improvement (PQI) encompasses five categories of projects: 1) patient safety, 2) accuracy of interpretation, 3) report turnaround time, 4) practice guidelines and technical standards, and 5) referring physician surveys. Each diagnostic radiologist decides on a project in one of these categories.</td>

<td>-------------------------------</td>
<td>-------</td>
</tr>
<tr>
<td>Surgery</td>
<td>A minimum of 30 credits of Category 1 and 50 credits overall of CME, to be performed yearly and verified every 3 years</td>
<td>Over the course of 3 years, one third of Category 1 CME must be a self-assessment activity.</td>
<td>Successful completion of a secure examination at 10-year intervals; diplomates may first take the examination starting 3 years prior to certificate expiration.</td>
<td>Participation in a national, regional, or local surgical outcomes database or quality assessment program, verified every 3 years. In cases where no such program is available, the ABS will consider the use of individual practice data. Participation in the CMS Physician Quality Reporting Initiative (PQRI) or ACS case log system meets this requirement. Periodic communication skills assessment based on patient feedback will also be required, but this is not yet finalized.</td>
<td></td>
</tr>
<tr>
<td>Thoracic Surgery</td>
<td>150 credits of Category 1 CME in the broad category of cardiothoracic surgery over each 5 year period (an average of 30 credits per year)</td>
<td>Each diplomate must complete the standard self-assessment exercise (SESATS) 5 years after initial certification and every 10 years thereafter.</td>
<td>During each 10-year MOC cycle, the diplomate must pass a secure, comprehensive written examination of fundamental and practice-related knowledge. Exam content will be derived from recent editions of SESATS and will include all areas of thoracic surgery.</td>
<td>Reference letters—Letters of reference on behalf of the diplomate documenting licensing, hospital privileges, level of clinical activity, and stature within the surgical community will be solicited from responsible members of the staff of the diplomate’s principal hospital. Peer (and patient) evaluation—Once during each 10-year MOC cycle each diplomate will be required to submit the names of at least 4 physicians familiar with his/her practice who may serve as peer evaluators. Outcome data—Diplomate must keep a record of a representative sample of at least their five most frequently done procedures for documentation of clinical activity and outcomes, compare his/her outcomes to national norms, and use this information as a means of practice improvement.</td>

<td>90 CME credits in years 4 and 7-9 of the 10-year cycle</td>
<td>Completion of a Practice Assessment Protocol (PAP) is required in years 2, 4, 6, and 7-9 of the 10-year cycle in the diplomate’s area of practice. The PAPs, non-graded learning tools based on current clinical guidelines, involve self-review of a small number of sequential cases in a specific area (e.g., evaluation of hematuria, treatment of superficial bladder cancer, etc.), a comparison of the diplomate’s evaluation and management of these cases to accepted practice guidelines; and the successful answering of a short series of questions regarding the clinical guidelines.</td>
<td>Successful completion of a computer-based closed book examination will be required within the 3-year period prior to expiration of the candidate’s certification.</td>
<td>Completion of a 6-month electronic practice log is required in years 4 and 7-9 of the 10-year cycle.</td>
<td>MOC program began in 2007.</td>
</tr>
</tbody>
</table>

Note: Unless otherwise indicated, the information shown is for MOC in the specialty; different rules may apply to subspecialty MOC.
maintaining an appropriate level of knowledge in the specialty to promote optimal health outcomes.

The MOC program incorporates the latest research on physician competence, patient safety, and practice management care and focuses on six general competencies:

- Patient care
- Medical knowledge
- Practice-based learning and improvement
- Interpersonal and communications skills
- Professionalism
- Systems-based practice

These areas were identified jointly by the ABMS and the ACGME as those which are crucial for a physician to deliver high-quality patient care.

MOC was initially proposed in 1998-99 and developed with the involvement of a broad spectrum of medical and surgical specialties. The effort is supported by many major medical organizations, including the:

- American Medical Association (AMA)
- American Hospital Association (AHA)
- National Board of Medical Examiners (NBME)
- Federation of State Medical Boards of the US (FSMB)
- The Joint Commission
- Council of Medical Specialty Societies (CMSS)
- Accreditation Council for Graduate Medical Education (ACGME)
- Association of American Medical Colleges (AAMC)
- Educational Commission for Foreign Medical Graduates (ECFMG)

The MOC process has four basic components:

1. Professional standing
   Documents that the certified physician has met and maintains legal requirements to practice medicine. All licenses held by a physician must be unrestricted. Some boards also review hospital credentials and request a statement of professional and moral character from the hospital chief of staff.

2. Lifelong learning and self-assessment
   This component enables physicians to reaffirm their commitment to continuous learning and improvement and to assume a leadership role in the quest for safe, quality health care. This requires evidence of participation in educational and self-assessment programs and meeting specialty-specific standards. It is integrated with practice performance to provide a real world practice basis to guide learning and enables physicians to put their learning to use continuously and regularly in the process of normal patient care.

3. Cognitive expertise
   Provides evidence, through an examination, that physician specialists have the necessary knowledge to provide quality patient care. Examinations cover the scope and range of the discipline and are clinically relevant.

4. Practice performance assessment
   This component focuses on improvement in the quality of care through collaborative efforts with other organizations. Physicians are evaluated in their clinical practice according to specialty-specific standards for patient care. They are provided with feedback and techniques for improvement.

Table 7 includes specific information on each board's examination procedures in relation to examination fees, schedules, and dates and deadlines. Be sure to check the Web site of the relevant board(s) for the most up-to-date information.

Application for Examination

Each candidate for examination must complete and submit an Application for Examination, which may be accessed on the ABCRS Web site at www.abcrs.org.

As part of the application process, residents must submit a list of all operative procedures performed during their training period. Case log reporting is completed using the electronic software provided by the Accreditation Council for Graduate Medical Education (ACGME). Login instructions and deadline dates are accessible through the ACGME web site at www.acgme.org. The American Board of Colon and Rectal Surgery will obtain the information directly from the ACGME.

Examination Schedule

Applications for the 2009 certification process must be completed and returned at the conclusion of training according to the schedule below:

## Examination Schedule

### Certification, Recertification, and Sports Medicine Exams, 2008

#### Summer Examination

- January 24 — Online applications available; registration begins ($1,150 fee)
- February 29 — First deadline to submit the online application ($1,150 fee)
- March 31 — Second deadline to submit the online application ($1,300 fee)
- April 30 — Third deadline to submit the online application ($1,450 fee)
- May 23 — Test center selection priority seating deadline
- May 31 — Fourth deadline to submit the online application ($1,600 fee)
- June 16 — Final deadline to submit the online application ($1,850 fee)
- June 25 — Last day to clear all application deficiencies
- June 25 — Last day to approve all special testing (ADA) requests
- June 25 — Last day to make official name change with the ABFM for exam
- June 30 — All family medicine residency training must be completed
- July 15 — Last day to select/change testing date or location
- July 15 — Last day to withdraw from testing center without seat fee
- July 21-26 and 28-31; August 1, 2, and 4-9 — Examination dates

### Winter Examination

- December 5 and 6 — Examination dates (application deadlines to be determined)

### Geriatric Certification/Recertification

- March 1 — Registration begins (online application available)
- May 1 — First deadline to submit online application ($1,150)
- June 1 — Final deadline to submit online application ($1,350 fee)
- July 13 — Deadline to clear deficiencies (excluding SEP); last day to approve special testing (ADA) documentation
- July 13 — Deadline to make official name change with ABFM for exam
- August 15 — Deadline for completion of SEP module
- September 30 — All geriatric fellowship training must be completed
- October 1 — Deadline to change/withdraw from testing center
- November 17 — Certification/Recertification exam date

### Sleep Medicine, 2009

- Note: There is only one Geriatric examination given per year.
- March 1 — Registration begins (online application available)
- May 1 — First deadline to submit online application ($1,150)
- June 1 — Final deadline to submit online application ($1,350 fee)
- July 13 — Deadline to clear deficiencies (excluding SEP); last day to approve special testing (ADA) documentation
- July 13 — Deadline to make official name change with ABFM for exam
- August 15 — Deadline for completion of SEP module
- September 30 — All geriatric fellowship training must be completed
- October 1 — Deadline to change/withdraw from testing center
- November 17 — Certification/Recertification exam date

Note: The sleep medicine examination is given biennially. The next sleep medicine certification examination will occur in 2009.
In-Training Examination
November 7—Examination date

Adolescent Medicine, 2008

Note: The adolescent medicine examination is given biennially.
October 8, 2007—Registration begins (online applications available)
November 15, 2007—First deadline to submit the online application ($1,150; no late fee assessed)
November 30, 2007—All adolescent medicine fellowship training must be completed
December 10, 2007—Final deadline to submit online application ($1,350 includes late fee)
December 10, 2007—Deadline to Submit Special Testing (ADA) Documentation
December 13, 2007—Deadline to clear all deficiencies; Last Day to Approve Special Testing (ADA) Documentation
December 13, 2007—Deadline to make official name change with ABFM for exam
December 13, 2007—Deadline to submit verification letter for completion of training
January 14, 2008—Deadline to select/change test center
February 14, 2008—Deadline to withdraw from test center
April 7, 2008—Adolescent medicine CAQ exam date

Hospice and Palliative Medicine, 2008
October 29—Exam date (application deadlines to be determined)

Examination Schedule

Internal Medicine
Exam Dates: August 12, 13, 15, 19, 21, 25, 27, or 28, 2008
Exam for Candidates Requiring Testing Accommodations Across Multiple Days*: August 26 and 27, 2008
Registration Deadline: February 1, 2008
Late Registration (requires late fee): February 2, 2008
Late Registration Deadline: March 1, 2008
Cancellation Deadline: June 1, 2008

Cardiovascular Disease
Exam Dates: November 5-6, 2008 or November 6-7, 2008

Clinical Cardiac Electrophysiology
Exam Date: November 11, 2008

Critical Care Medicine
Exam Date: November 13, 2008

Endocrinology, Diabetes, and Metabolism
Exam Date: October 24, 2008

Gastroenterology
Exam Date: November 18, 2008

Geriatric Medicine
Exam Date: November 17, 2008

Hematology
Exam Date: October 27, 2008

Hospice and Palliative Medicine
Exam Date: November 29, 2008

Infectious Disease
Exam Date: October 6, 2008

Interventional Cardiology
Exam Date: November 10, 2008

Medical Oncology
Exam Date: October 28, 2008

Nephrology
Exam Date: November 24, 2008

Pulmonary Disease
Exam Date: November 12, 2008

Rheumatology
Exam Date: October 23, 2008

Sleep Medicine
Exam Date: N/A

Transplant Hepatology
Exam Date: November 19, 2008
Registration Opens: March 1, 2008  
Registration Deadline: May 1, 2008  
Late Registration (requires late fee): May 2, 2008  
Late Registration Deadline: June 1, 2008  
Cancellation Deadline: September 1, 2008  
Exam for Candidates Requiring Testing Accommodations Across Multiple Days*: November 18 and 19, 2008  
Fee: $1,165 (except clinical cardiac electrophysiology, interventional cardiology, and transplant hepatology, which are $2,000)  
* These testing dates are available only to candidates with a documented disability requiring additional testing time, as provided under the Americans with Disabilities Act. Please see the ABIM policy on Testing Accommodations for Exam Takers with Disabilities at www.abim.org/exam/ada.aspx.

Important Dates and Deadlines
I. Final Year of Residency (ending on or before the following September 30)
A. July 1—Commence
B. September 1 to November 30—Apply for basic written examination
C. Last Monday in June—Take basic written examination

II. Practice
A. First year of practice
No board activities necessary
B. Second year of practice
July 1 to June 30—Patient case list
November 1 to February 28—Apply for general oral examination
C. Third year of practice
August 1—Deadline for submission of patient list
November, December, January, or February—Take general oral examination

III. Fellowship in Subspecialty
A. First year (fellowship) (July 1-June 30)
No board activities
B. Second year (fellowship) (July 1-June 30)
No general board activities
C. Third year (fellowship) (July 1-June 30)
1. No general board activities
2. (September 1 to November 30—Apply for subspecialty written examination)

D. Fourth year—First year of practice (July 1-June 30)
1. July 1 to June 30—Patient case list
2. November 1 to February 28—Apply for the November, December, or January general oral examination
E. Fifth year—Second year of practice (July 1-June 30)
1. August 1—Deadline for submission of patient list
2. November, December, or January—Take general oral examination
3. January 1 to April 30—Apply for subspecialty oral examination
4. January 1 to December 31—Subspecialty patient case list

F. Sixth year—Third year of practice (July 1-June 30)
1. January 1—Deadline for submission of thesis
2. January 1 to December 31—Deadline for submission of subspecialty patient case list
3. March or April—Take oral subspecialty examination

Recent Resident Graduates
Summary of Dates, Fees, and Late Fees for Accelerated Oral Examination
July 1 of year written exam taken and passed
Candidate begins collection of cases for case list
Prior to August 1, 2006
Candidate will be notified of pass/fail on written examination by the board office
August 1, 2006 - September 15, 2006 (5:00 PM CST)  
Candidate must return automated application for oral examination with application fee of $895
September 15, 2006  
No applications accepted after this date
October 2, 2006  
Candidates will be notified of acceptance into accelerated process for the 2007 examination
July 2007 - August 1, 2007  
Candidates will be notified to submit properly formatted case lists and examination fee of $935
August 1-17, 2007  
Candidates notified by the board in July to submit their properly formatted case lists and examination fee must include a late fee of $330 ($935 plus $330 = $1265)
August 17, 2007  
No case lists or examination fees accepted after this date
October 2, 2006  
Candidates will be notified of acceptance into accelerated process for the 2007 examination
November & December 2007, and January 2008
Oral Examination, ABOG Test Center, 2915 Vine St, Dallas, TX 75204

Fellowship Applicants
Summary of Dates, Fees, and Late Fees for Accelerated Oral Examination
July 1 of 1st, 2nd, 3rd or 4th year  
Candidate begins collection of cases for case list
Prior to August 1, 2006

813 286-2444
813 289-5279 Fax
www.abpath.org

Examination Dates
All examinations are computer based and are administered at the ABP Examination Center in Tampa, Florida.

Anatomic Pathology and Clinical Pathology Examinations
The Spring 2008 primary examinations will begin on Monday, May 19, and will continue until all qualified, registered candidates have been examined. Individuals applying for the Spring primary certification examinations must complete their training by July 1 of the year of application.

The Fall 2008 primary examinations will begin on Monday, October 13, and will continue until all qualified, registered candidates have been examined. Individuals applying for the Fall primary certification examinations must complete their training by November 1 of the year of application.

Subspecialty Examinations
The subspecialty examinations in chemical pathology, medical microbiology, molecular genetic pathology, neuropathology, and pediatric pathology are given every 2 years. Individuals applying for subspecialty examinations must complete their training by October 1 of the year of application.
- Blood Banking/Transfusion Medicine—September 3
- Cytopathology—September 8
- Dermatopathology—September 15
- Forensic Pathology—September 4
- Hematology—September 17

Depending on the number of candidates, it may be necessary to give certain subspecialty examinations on multiple days. In that case, each candidate will be notified of his or her examination date at least 6 weeks prior to the examination date listed.

Final Filing and Cutoff Dates
The final filing dates for receipt of applications or registrations are as follows:
- January 4 for Spring primary examinations
- May 1 for Fall primary examinations for initial applicants
- August 15 for Fall primary examinations for those who have been declared qualified by ABP
- May 1 for subspecialty examinations

If the candidate cancels an appearance for the examination after these dates or does not appear for the examination, the entire application-examination fee is forfeited with the following exceptions:
1. Personal illness at the time of the examinations, validated by the candidate's personal physician. In this case, consideration will be given to transferring a major portion of the examination fee to the following examination.
2. Inability to accept the date assignment (primary certification applicants only). Once examination date assignments are mailed, candidates for the primary certification examination have 4 weeks from notification of their assignment to accept. These candidates may request a transfer to a future examination, in which case the examination fee, minus a $250 transfer fee, will be applied to that examination. There will be a $500 fee assessed for any additional transfer of examination dates. There is no opportunity to change the assignment within a given examination period. If the ABP is not notified within the 4-week period, the assignment will stand.

It is the candidate's responsibility to notify the ABP in writing of any change that may affect a scheduled examination.
American Board of Pediatrics
111 Silver Cedar Court
Chapel Hill, NC 27514-1513
919 929-0461
919 929-9255 Fax
E-mail: abpeds@abpeds.org
www.abp.org

2008 Examinations Schedule
The fees for certification in general pediatrics and the pediatric subspecialties are payable only in US dollars. Application payment for both first-time applicants and re-registrants is required using either a VISA or MasterCard credit card. The American Board of Pediatrics (ABP) reserves the right to make changes in its fees, policies, and procedures at any time and will make every effort to give advance notice when such changes are made. It is the applicant’s responsibility to be aware of and to meet all deadlines. All applications must be submitted online.

Certification in the Pediatric Subspecialties
The ABP issues a certificate of special qualifications in the following subspecialties:
• Adolescent medicine
• Child abuse pediatrics
• Pediatric cardiology
• Pediatric critical care medicine
• Developmental-behavioral pediatrics
• Pediatric emergency medicine
• Pediatric endocrinology
• Pediatric gastroenterology
• Pediatric hematology-oncology
• Pediatric infectious diseases
• Neonatal-perinatal medicine
• Pediatric nephrology
• Pediatric pulmonary
• Pediatric rheumatology

The ABP, in collaboration with other ABMS boards, also offers a certificate of added qualifications in the following fields: (Note: Physicians must submit an application to the board through which they are certified.)
• Medical toxicology
• Neurodevelopmental disabilities
• Pediatric transplant hepatology
• Sleep medicine
• Sports medicine

- Re-Registrants' Late Registration
  November 18, 2008 – December 15, 2008

American Board of Physical Medicine and Rehabilitation
3015 Allegro Park Lane SW
Rochester, MN 55902-4139
507 282-1776
507 282-9242 Fax
E-mail: office@abpmr.org
www.abpmr.org

Deadlines
The appropriate fees must be postmarked and mailed and the completed application materials for admissibility must be submitted online by December 31 (Part I) or November 15 (Part II) preceding the scheduled examination. This applies to initial applications or reapplications.

An additional $500 nonrefundable late fee will be required for consideration of applications postmarked between January 1 and January 15 (Part I) or November 16 and December 15 (Part II). Applications submitted after March 31 (Part I) or December 16 (Part II) will not be accepted. The postmark applied by the United States Postal Service (or the appropriate national postal service for non-US citizens) is the date of mailing and takes precedence over postmarks applied by in-house mailing equipment.

Fees
Refer to the Booklet of Information at the ABPMR Web site for the current fees.

Part I
$1,375, $600 of which is an application processing fee and is not refundable.

Part II
$1,870, $600 of which is an application processing fee and is not refundable.

Late Fee
An additional nonrefundable $500 is required after the December 31 deadline for Part I and after the November 15 deadline for Part II.

Reapplication
Physicians who have initially applied for and failed or did not take either Part I or Part II can apply for admissibility for re-examination or examination during any subsequent examination period. The same requirements will be in effect for reapplication as for initial admissibility. Currently, there is no limit to the number of times a physician may reapply for examinations.

Refunds and Forfeiture of Fees
Except as hereafter provided, no fees paid will be refunded. The board will return the refundable portion of the fee only in the event that

- an applicant withdraws the application prior to the meeting of the board to act thereon, or
- an applicant is declared not admissible to the examination.

Once an applicant has been declared admissible and is a candidate, the fees will be forfeited if the candidate withdraws for any reason, or does not appear for the scheduled examination for which he or she applied.

Dual Specialty Certification
Residents may elect to pursue integrated training in physical medicine and rehabilitation (PM&R) and another specialty by enrolling...
in a combined training program. The ABPMR currently approves three types of combined training:

- Pediatrics and PM&R
- Internal medicine and PM&R
- Neurology and PM&R

All three programs require completion of at least 36 months of accredited training in general comprehensive PM&R.

**Subspecialty Certification**

**Hospice and Palliative Medicine**
Applications are available on the ABPMR Web site after December 1, and completed applications are due by February 15, of the year the examination will be given.

**Neuromuscular Medicine**
Applications are available on the ABPMR Web site after December 1, and completed applications are due by February 15, of the year the examination will be given.

**Pain Medicine**
Applications are available on the ABPMR Web site after January 1, and completed applications are due by February 15, of the year the examination will be given.

**Pediatric Rehabilitation Medicine**
Applications are available on the ABPMR Web site after February 1, and completed applications are due by March 15, of the year in which the exam will be taken.

**Spinal Cord Injury (SCI) Medicine**
Applications are available on the ABPMR Web site after February 1, and completed applications are due by March 15, of the year the examination will be given.

**Sports Medicine**
Applications are available on the ABPMR Web site after December 1, and completed applications are due by February 15, of the year the examination will be given.

**American Board of Plastic Surgery**

Seven Penn Center, Suite 400
1635 Market St.
Philadelphia, PA 19103-2204
215 587-9322
215 587-9622 Fax
E-mail: info@abplsurg.org
www.abplsurg.org

**Fee Schedule**

- Resident Registration/Training Evaluation: $160
- Application Registration Fee: $525
- Application Registration Late Penalty Fee: $500

**Written Examination Fees**

- Examination Fee: $1,300
- Late Penalty Fee: $500
- Withdraw Fee (>30 days prior to exam): $700
- Score Validation Fee: $210

**Oral Examination Fees**

- Case List Review Fee: $625
- Case List Late Penalty Fee: $500
- Examination Fee: $1,100
- Late Penalty Fee: $700
- Withdrawal Fee (>30 days prior to exam): $700
- Critique Fee: $210

**Other Fees**

- Missing Items Penalty Fee: $100
- Written and Oral Examination Reapplication Registration Fee: $525
- Credentials Review Fee: $225
- Ethics Review Fee: $225
- Certificate Fee: $115
- Verification of Status Fee: $35
- Check Returned for Insufficient Funds Fee: $55
- Photocopying Fee: $15
- Repeat Examination Fee (Examination Fees above): $750
- Informal Appeal Fee: $750
- Formal Appeal Fee: $1,500

All fees must be submitted in United States currency by check or money order. Foreign currencies, including Canadian, are unacceptable.

Credit Cards are not accepted.
Fees are subject to change by the board.
Most fees are nonrefundable.

**Diplomate Annual Dues Fee $200**

An annual dues fee was initiated in 1999. The board office sends out announcements annually. Retired diplomates are excluded from the annual dues request.

Because of the limited number of plastic surgeons certified by this board, it may be necessary for the board to request a voluntary annual contribution from its diplomates.

**Refunds**

For the written examination, a refund of the examination fee (less a processing charge of $700) will be granted provided the candidate submits a written request for withdrawal received in the board office at least 30 calendar days prior to the date of the examination.

For the oral examination, a refund of the examination fee (less a processing charge of $700) will be granted provided the candidate
submits a written request for withdrawal received in the board of-
office at least 30 calendar days prior to the date of the examination.
For either the written or oral examination, candidates who notify
the board office in writing less than 30 calendar days prior to the
examination date of their intent to withdraw, or who fail to appear
for examination, will forfeit the entire examination fee. The board
may waive this rule only if the circumstances warrant.

Fees
A nonrefundable application fee of $410 is required if the applicant holds an MPH or equivalent masters or doctoral post-graduate degree and has completed an ACGME-accredited residency in the specialty area of preventive medicine in which certification is sought.
A nonrefundable application fee of $705 is required if the applicant is applying through the alternative pathway to certification.
A nonrefundable application fee of $590 is required if the applicant is applying through the special pathway for ABPM diplomates.
In addition to the application fee, there is a $200 processing fee for paper applications.
A nonrefundable re-review fee of $190 is required to reactivate an application within 2 years of the original review.
An additional fee of $60 may be required for an incomplete application after the July 15 deadline.
The examination fee of $1,950 is due with the application fee.

Fees for the Subspecialty of Medical Toxicology
The next offering of Medical Toxicology will be in 2008. Fees are to be determined.

Fees for the Subspecialty of Undersea and Hyperbaric Medicine
A nonrefundable application fee of $385 is required if the applicant is applying through the fellowship pathway ($555 if applying through the practice pathway).
The examination fee of $1,750 is due with the application fee.
Note: All fees are reviewed annually and are subject to change at the direction of the board. Please contact the board office for the current fee schedule.

Important Dates
- June 1—Deadline for completed application forms, application fees, and reapplication requests to be received in the board office for the examination
- June 1—Deadline for receipt of re-review requests and fees
- July 15—Deadline for receipt of additional information not included with the June 1 application
- August 1—Deadline for completion of all requirements for alternative and special pathway applicants to sit for the examination
- August—Meeting of the board to determine admissibility of applicants to the examination. Letters of notification of admissibility for the examination are sent by email to candidates after the August board meeting. Notification is not given by telephone.
- September—Deadline for completion of requirements for residency pathway applicants to sit for the examination. Requirements must be completed 15 business days prior to the first day of the examination.
- Fall—Annual 1-day computer-based examination at various sites across the United States and several international sites. Current examination dates are listed on the ABPM Web site at www.theabpm.org.
- December/January—Meeting of the board to determine the pass/non-pass score for the examination
- December/January—Results of the certifying examination are mailed to candidates. Notification is not given by telephone.

Special Requirements in Aerospace Medicine, Occupational Medicine, and Public Health and General Preventive Medicine
A period of not less than 1 year of supervised training and instruction, accredited by the ACGME in the specialty area for which certification is being sought, is required.

Subspecialties
Medical Toxicology
Every 2 years the ABPM offers subspecialty certification in medical toxicology to ABPM diplomates who meet the appropriate requirements for medical toxicology. Applications for the 2008 examination cycle will be available from the board office beginning in January 2008 and will be accepted with postmark dates through May 1.

Undersea and Hyperbaric Medicine
ABPM offers subspecialty certification in undersea and hyperbaric medicine in late fall each year to physicians who hold current certification by one of the ABMS member boards and meet the appropriate requirements in undersea and hyperbaric medicine. The American Board of Emergency Medicine (ABEM) also offers subspecialty certification in undersea and hyperbaric medicine. Those physicians certified only by the ABEM must apply through that board.

Appendix D
Graduate Medical Education Glossary

Accreditation Council for Graduate Medical Education (ACGME)—An accrediting agency with the mission of improving health care by assessing and advancing the quality of resident physicians’ education through accreditation. The ACGME establishes national standards for graduate medical education by which it approves and continually assesses educational programs under its aegis. The ACGME accredits GME programs through its 28 review committees (26 Residency Review Committees, or RRCs, the Transitional Year Review Committee, and the Institutional Review Committee). The ACGME has five member organizations:

- American Board of Medical Specialties
- American Hospital Association
- American Medical Association
- Association of American Medical Colleges
- Council of Medical Specialty Societies

Each member organization nominates four individuals to the ACGME’s Board of Directors. In addition, the Board of Directors includes three public representatives, two resident representatives, and the chair of the Council of Review Committee Chairs. A representative for the federal government also serves on the Board in a non-voting capacity.

Affiliated institution (see “Major participating institution”)—Term no longer in use by the AMA or ACGME; it has been replaced by “major participating institution.”

American Board of Medical Specialties (ABMS) (see also “Certification”)—The umbrella organization for the 24 approved medical specialty boards in the United States. Established in 1933, the ABMS serves to coordinate the activities of its Member Boards and to provide information to the public, the government, the profession, and its members concerning issues of specialization and certification in medicine. The mission of the ABMS is to maintain and improve the quality of medical care in the United States by assisting the member Boards in their efforts to develop and utilize professional and educational standards for the evaluation and certification of physician specialists. See Appendix B for more information.

Annual Survey of Graduate Medical Education Programs—see “National GME Census.”

Attending—see “Teaching staff.”

Categorical positions (see also “Graduate Year 1” and “Preliminary Positions”)—Positions for residents who remain in a given program or specialty until completion of the total year(s) required for admission to specialty board examination.

Certification (see also “American Board of Medical Specialties”)—A voluntary process intended to assure the public that a certified medical specialist has successfully completed an approved educational program and an evaluation including an examination process designed to assess the knowledge, experience, and skills requisite to the provision of high-quality patient care in that specialty. Medical specialty boards determine whether candidates have received appropriate preparation in approved residency training programs in accordance with established educational standards, evaluate candidates with comprehensive examinations, and certify those candidates who have satisfied the board requirements. Physicians who are successful in achieving certification are called diplomates of the respective specialty board. The boards also offer a Maintenance of Certification® program for qualified diplomates at intervals of 7 to 10 years. See Appendix B for more information.

Chief resident—A position in the final year of the residency (e.g., surgery) or in the year after the residency is completed (e.g., internal medicine and pediatrics); the individual in this position plays a significant administrative and teaching role in guiding new residents.
Combined specialty programs—Combined training consists of a coherent educational experience in two or more closely related specialty or subspecialty programs (listed below; see Appendix A for more information). The educational plan for combined training is approved by the specialty board of each of the specialties to assure that resident physicians completing combined training are eligible for board certification in each of the component specialties. Each specialty or subspecialty program is separately accredited by the Accreditation Council for Graduate Medical Education (ACGME) for board certification in each of the component specialties. Each program has its own curriculum, requirements for eligibility for first board certification in the discipline, evaluation mechanisms, training environment, compensation, resident-to-faculty ratio, work schedule, policies, and educational environment.

Current combined specialties are:
- Diagnostic radiology/nuclear medicine/nuclear radiology
- Emergency medicine/family medicine
- Family medicine/preventive medicine
- Internal medicine/dermatology
- Internal medicine/emergency medicine
- Internal medicine/emergency medicine/critical care medicine
- Internal medicine/family medicine
- Internal medicine/medical genetics
- Internal medicine/neurology
- Internal medicine/nuclear medicine
- Internal medicine/physical medicine and rehabilitation
- Internal medicine/preventive medicine
- Internal medicine/psychiatry
- Neurology/diagnostic radiology/neuroradiology
- Neurology/nuclear medicine
- Neurology/physical medicine and rehabilitation
- Pediatrics/dermatology
- Pediatrics/emergency medicine
- Pediatrics/medical genetics
- Pediatrics/physical medicine and rehabilitation
- Pediatrics/psychiatry/child and adolescent psychiatry
- Psychiatry/family medicine
- Psychiatry/neurology

Note: Combined internal medicine/pediatrics training initiated June 1, 2007, or after must be undertaken in combined medicine/pediatrics programs accredited by the ACGME, which are listed in Section III.

Consortium—A group of healthcare organizations established to pursue joint objectives in patient care, education, research, or other areas. If a consortium is formally established as an ongoing organizational entity with a commitment to graduate medical education, it may serve as a sponsoring institution of one or more GME programs.

Core discipline program—See “General specialty program”

Council on Medical Education—This AMA council formulates policy on medical education by recommending educational policies to the AMA House of Delegates, through the AMA Board of Trustees. The Council is also responsible for recommending the appointment of more than 100 representatives to accrediting bodies and other national organizations.

Designated institutional official—An individual at an institution sponsoring or participating in one or more GME programs who has the authority and responsibility for the oversight and administration of GME programs.

Educational Commission for Foreign Medical Graduates (ECFMG)—A nonprofit organization that assesses the readiness of graduates of foreign medical schools to enter graduate medical education in the United States. ECFMG certification provides assurance to GME program directors, and to the people of the United States, that graduates of foreign medical schools have met minimum standards of eligibility required to enter such programs. Almost all graduates of foreign medical schools must have an ECFMG certificate to participate in GME in the US. This certification does not guarantee that such graduates will be accepted into GME programs in the United States. (For more information on the ECFMG, see Section I.)

Electronic Residency Application Service (ERAS)—A service for medical students/residents through which residency/fellowship application, letters of recommendation, Medical Student Performance Evaluations (MSPEs), transcripts, and other supporting credentials are transmitted via the Internet from medical schools to residency program directors. For more information about ERAS, a service of the Association of American Medical Colleges (AAMC), consult www.aamc.org/eras or see Section I.

Fellow (also see “Resident or resident physician” and “Intern”)—A physician in an ACGME-accredited program that is beyond the requirements for eligibility for first board certification in the discipline. Such physicians may also be termed “residents.” The term “fellow” may require modifiers for precision and clarity, eg, “research fellow.”

Fifth Pathway—One of several ways that individuals who obtain their undergraduate medical education abroad can enter GME in the United States. The Fifth Pathway is a period of supervised clinical training for students who obtained their premedical education in the United States, received undergraduate medical education in countries that do not grant the MD degree until the completion of 1 year of national service after medical school, and passed Step 1 of the United States Medical Licensing Examination. After these students successfully complete a year of clinical training sponsored by an LCME-accredited US medical school and pass USMLE Step 2, they become eligible for an ACGME-accredited residency. For more information, see Section I. Note: The Fifth Pathway is being discontinued as of June 30, 2009.

FREIDA Online® (Fellowship and Residency Electronic Interactive Database Access)—An online information resource, available through the AAMC Web site at www.aamc.org/go/freida, that assists medical students and residents in selecting GME programs. It includes information on all ACGME-accredited residency programs and combined specialty programs, the majority with expanded listings that provide such information as program benefits (including compensation), resident-to-faculty ratio, work schedule, policies, and educational environment.

General specialty program—A primary specialty (eg, anesthesiology, family practice, internal medicine) that provides resident physicians, under supervision, with the knowledge and skills needed to be practitioners in a specified area of medical practice; sometimes referred to as a “core discipline program.” General specialty programs function within an institution and are subject to all ACGME accreditation actions, policies, and procedures. Completing an ACGME-accredited residency in a general specialty program is one of the requirements of certification by a specialty board and is a prerequisite to subspecialty training.

GME Track (see also “National GME Census”)—Available at www.aamc.org/gmetrack, this secure Web-based application of the Association of American Medical Colleges includes, among other services, the National GME Census. Through GME Track, residency information is collected for both the AAMC and the AMA.

Graduate medical education (GME)—See also “Postgraduate medical education”—As the second of three major phases of medical education in the US, graduate medical education (GME) prepares physicians for the independent practice of medicine in a medical
specialty. GME focuses on the development of clinical skills and professional competencies and on the acquisition of detailed factual knowledge in a medical specialty. GME programs are based in hospitals or other health care institutions and, in most specialties, utilize both inpatient and ambulatory settings. GME programs, including Transitional Year programs, are usually called “residency programs” and the physicians educated in them “residents.”

Graduate Medical Education Directory—Annual publication that lists residency/fellowship programs accredited by the ACGME. Known informally as the “Green Book,” the Directory lists all ACGME-accredited programs, Board-approved combined programs, and the certification requirements of 24 medical specialty boards.

Graduate Year (GY) (see also “Program year” and “Postgraduate year”)—Refers to an individual’s current year of accredited GME; this may or may not correspond to the program year. For example, a fellow in pediatric cardiology could be in the first program year of the pediatric cardiology program but in his/her fourth graduate year of GME (including the 3 prior years of pediatrics). The AMA does not use the term “postgraduate year” (PGY).

Graduate Year 1 (GY1)—Used in connection with residents and with residency positions to indicate the first year of training after medical school. Individuals in GY1 positions who plan to complete the entire program are counted as enrolled in Graduate Year 1 (GY1), Categorical. Individuals in GY1 positions who are using their first year as a residency program as a prerequisite to enter another specialty or subspecialty program are counted as enrolled in Graduate Year 1 (GY1), Preliminary. Not all specialties offer GY1 positions, and in those specialties with approved GY1 positions, some programs do not offer them. Furthermore, although by definition residents in GY1 positions are not required to have prior GME, some residents who fill such positions may have had previous training.

Institution—A sponsoring institution is the institution (e.g., university, medical school, hospital, school of public health, health department, public health agency, organized health care delivery system, medical examiner’s office, consortium, or educational foundation) that assumes the ultimate responsibility for a GME program. ACGME-accredited GME programs must operate under the authority and control of a sponsoring institution, which must be appropriately organized for the conduct of GME in a scholarly environment and committed to excellence in both medical education and patient care. A sponsoring institution must be in substantial compliance with the ACGME Institutional Requirements and must ensure that its ACGME-accredited programs are in substantial compliance with the Institutional, Common, and specialty-specific Program Requirements.

A major participating institution is an institution to which residents rotate for a required experience of long duration and/or those that require explicit approval by the appropriate RRC prior to utilization. Major participating institutions are listed as part of an accredited program in the Graduate Medical Education Directory. Note: Hospitals and other institutions that provide rotations of less than one sixth of the program length or less than a total of 6 months are not listed in the Directory.

Intern (see “Resident or resident physician” and “Fellow”)—No longer used by the AMA or ACGME. Historically, “intern” was used to designate individuals in the first post-MD year of hospital training, less commonly, it designated individuals in the first year of any residency program. Since 1975, the Graduate Medical Education Directory and the ACGME have used “resident,” “resident physician,” or “fellow” to designate all individuals in ACGME-accredited programs.
Residency Review Committees (RRCs)—The 28 review committees within the ACGME system (including the Transitional Year Review Committee) that meet periodically to review programs within their specialty and/or subspecialty, propose Program Requirements for new specialties/subspecialties, and revise requirements for existing specialties/subspecialties.

Resident or resident physician (see also “Fellow”)—Any individual at any level in an ACGME-accredited GME program, including subspecialty programs. Local usage might refer to these individuals as interns, house officers, housestaff, trainees, fellows, junior faculty, or other comparable terminology. Beginning in 2000, the ACGME has used the term “fellow” to denote physicians in subspecialty programs (versus residents in specialty programs) or in GME programs that are beyond the requirements for eligibility for first board certification in the discipline.

Section on Medical Schools (SMS)—A section of the AMA House of Delegates with representation from accredited US medical and osteopathic schools. For more information, see www.ama-assn.org/go/sms.

Sponsoring institution—See “Institution.”

Subspecialty program—Provides advanced GME in a highly specialized field of study within a specialty, eg, gastroenterology within the field of internal medicine. Many subspecialty programs are subject to ACGME accreditation actions, policies, and procedures. Completing an ACGME-accredited residency/fellowship in a particular subspecialty program may qualify the physician to seek certification by the related subspecialty board. Some subspecialty programs are accredited independently of the related general specialty program and are not dependent on a general specialty program. Other subspecialty programs function only in conjunction with an accredited general specialty program, and the subspecialty program’s accreditation status is related to the status of the accredited general specialty program.

Teaching staff—Any individual who has received a formal assignment to teach resident physicians. In some institutions appointment to the medical staff of the hospital constitutes appointment to its teaching staff.

Transitional year program (see also “Preliminary positions”)—Broad-based clinical training in an ACGME-accredited graduate year 1 (GY1) residency program that provides a balanced curriculum in multiple clinical disciplines. Developed for the year between medical school graduation and a specialty residency program, the transitional year is designed to facilitate the choice of and/or preparation for a specific specialty; it is not meant to prepare participants for the independent practice of medicine. To sponsor a transitional year program, an institution and its affiliate must conduct two or more ACGME-accredited programs that participate in the transitional year.

United States Medical Licensing Examination (USMLE)—A three-step examination that is required for licensure of all practicing physicians in the US. For more information, see www.usmle.org or refer to State Medical Licensure Requirements and Statistics, published annually by the AMA.

Web ADS—The Web Accreditation Data System (ADS) of the ACGME. This Internet-based data collection system contains the current data on file with the ACGME for all sponsoring institutions and programs, which are required to verify and update general information annually via this secure online system. In addition, programs are required to verify the accredited training of all residents and to communicate organizational changes as they occur. See www.acgme.org/ADS for more information.
Appendix E
Listings of Subspecialty and Fellowship Programs

Introduction
In addition to the residency/fellowship programs accredited by the Accreditation Council for Graduate Medical Education (ACGME), a number of medical specialty societies maintain lists of subspecialty and fellowship programs outside the purview of the ACGME accreditation process. Note: Inclusion on this list does not reflect AMA approval or recognition of these practice areas.
To propose an additional list of subspecialties/fellowships for this section, contact Fred Donini-Lenhoff at fred.lenhoff@ama-assn.org.

Abdominal Transplant Surgery Fellowships
www.asts.org/FellowshipTraining
The American Society of Transplant Surgeons (ASTS) accredits abdominal transplant surgery programs, through which fellows develop proficiency in the surgical and medical management of patients with end-stage organ diseases amenable to transplantation. Candidates for such training must have satisfactorily completed a residency that satisfies the educational requirements for certification by the American Board of Surgery or the American Board of Urology (or foreign equivalency).
The ASTS is composed of over 1,000 transplant surgeons, physicians, and scientists dedicated to excellence in transplantation surgery through education and research with respect to all aspects of organ donation and transplantation.
In January 2008, 67 abdominal transplant surgery fellowships in the United States and Canada were listed on the ASTS Web site.

Breast Fellowships
www.surgonc.org/default.aspx?id=60

The Society of Surgical Oncology (SSO) reviews and approves breast fellowship and general surgical oncology training programs on an ongoing basis. Each fall the Society conducts a Matching Program to match qualified candidates with positions in SSO-approved training programs.

In January 2008, 33 breast fellowships were listed on the SSO’s Web site.

Electrodiagnostic Medicine Fellowships
www.aanem.org/education/training/fellowship_listing.cfm

The Listing of Fellowships in Electrodiagnostic Medicine from the American Association of Neuromuscular & Electrodiagnostic Medicine (AANEM) is an informational service assembled from data submitted voluntarily by various institutions. The AANEM does not review, evaluate, or provide input regarding the listing. This listing is not necessarily complete, and inclusion of a program does not imply sponsorship or endorsement by the AANEM. This listing is not affiliated with or endorsed by the American Board of Electrodiagnostic Medicine (ABEM) in any way. Completion of any of the listed fellowships does not guarantee satisfaction of the ABEM eligibility requirement of completion of a preceptorship in electrodiagnostic medicine. Any statement included in this listing that completion of the fellowship will enable a candidate to qualify for examination by a particular board should be investigated by the individual applying for the fellowship. Candidates should contact the individual boards for determination of eligibility requirements.

Fellowships in many areas are listed, including:
- Clinical electrodiagnostic medicine
- EMG/neuromuscular
- Electrodiagnostic medicine and electrophysiology of movement disorders
- Epilepsy, neuromuscular disorders
- Neuromuscular diseases
- Spine/neuromuscular

Information
American Association of Neuromuscular & Electrodiagnostic Medicine
2621 Superior Drive NW

Dermatology Fellowships
www.aad.org/members/residents

The American Academy of Dermatology (AAD) is a professional association for physicians in dermatology. The online Fellowship Directory of the AAD, which is intended for reference by medical students, residents, and dermatologists, includes dermatology fellowships in the following disciplines or areas:
- Burn
- Clinical dermatology
- Clinical research
- Clinician educator
- Cosmetic
- Dermatopathology
- Dermatopharmacology and epidermolysis bullosa
- HIV
- Immunodermatology
- Immunology
- Laser
- Medical dermatology
- Melanoma translational research
- Mohs surgery
- Oncology/melanoma
- Pediatric dermatology
- Pharmacology
- Phototherapy
- Research

Advanced Gynecologic Endoscopy Fellowships
www.aagl.org/fellowships.asp?0.6805318

The Fellowship in Gynecologic Endoscopy, an affiliate of the AAGL and the Society of Reproductive Surgeons (SRS), sponsors fellowships in advanced gynecologic endoscopy. These fellowships were created to produce a standardized training program with a research requirement. The fellowship provides an opportunity for gynecologists who have completed their residency to acquire additional skills in minimally invasive gynecologic surgery.

Educational objectives focus on evidence-based medicine, anatomical principles, instrumentation, operative laparoscopy, and operative hysteroscopy. The fellowship offers in-depth experience using state-of-the-art techniques to treat abnormal uterine bleeding, pelvic pain, myomata, endometriosis, adhesive disease, and pelvic relaxation.

This fellowship also aims to further research in the field of minimally invasive gynecology. Fellows are required to complete a scholarly contribution to be presented at the annual meetings of the AAGL and the American Society for Reproductive Medicine.

The Fellowship in Gynecologic Endoscopy actively encourages applications from postgraduate physicians aspiring to develop their surgical skills in minimally invasive gynecology.

Hospitalist and Hospital Medicine Programs
www.hospitalmedicine.org

Hospitalists are physicians whose primary professional focus is the general medical care of hospitalized patients. Their activities include patient care, teaching, research, and leadership related to hospital care.

The term “hospitalist” refers to physicians whose practice emphasizes providing care for hospitalized patients. The term was coined by Drs. Robert Wachter and Lee Goldman in a New England Journal of Medicine article in August 1996 (Wachter RM, Goldman L. The emerging role of “hospitalists” in the American health care system. N Engl J Med 1996;335:514-7). A review in the Journal of the American Medical Association (Wachter, RM, Goldman L. The Hospitalist Movement: 5 Years Later, JAMA 287:487-494, Jan 29/30, 2002) further defines the field of hospital medicine. While some doctors have emphasized inpatient care for many years, there has been an explosive growth of such doctors since 1994. There are now more than 12,000 hospitalists in the US according to a study by the American Hospital Association. There are more new jobs available for hospitalists than in any aspect of internal medicine. Hospital medicine is a significant career path option for those trained in general internal medicine, general pediatrics, family practice, and obstetrics.

The majority (85%) of practicing hospitalists are trained in internal medicine, and some (5%) have completed subspecialty fellowships, pulmonary disease and critical care medicine being the most common. Recognizing that many medical students and residents are interested in this field, academic centers have recently begun to develop hospitalist residency and fellowship programs in hospital medicine. Hospitalist tracks are generally part of an internal medicine residency program, but offer additional exposure to the broad range of issues confronting hospital-based physicians, such as end-of-life care, quality improvement, and medical consultation. Fellowship programs tend to emphasize research training, teaching skills, and additional clinical experience.

As of January 2006, 22 fellowships were listed on the Society of Hospital Medicine’s Web site (13 internal medicine, five family medicine, and four pediatrics).

Minimally Invasive Surgery Fellowships
www.fellowshipcouncil.org/directory/index2.php

The Fellowship Council is an association of minimally invasive surgery and surgical gastrointestinal endoscopy fellowship directors formed to address the unique needs of fellowship directors. The Fellowship Council provides a communication forum for disseminating information about fellowship programs, discussing fellowship issues, and communicating the Council’s positions to other organizations. The Council works to establish criteria for implementing and enriching fellowship programs and standardizing the fellowship application and selection process.

In January 2008, 127 fellowships were listed on the Council’s Web site.

Neurology Fellowship Programs
www.aan.com/education/fellowships/

The online Directory for Fellowship Positions is provided through the efforts of the American Academy of Neurology’s Graduate Education Subcommittee (GES), the Association of University Professors of Neurology (AUPN), and the American Neurological Association (ANA). The goals of the GES are to provide opportunities for resident involvement in the Academy, encourage attendance at the annual meeting, and provide information to residents on fellowships.

The mission of the AUPN is to support academic departments of neurology in attracting, educating, and developing the cadre of physicians and physician-scientists needed to diagnose, understand, and treat disorders of the nervous system. Members of the AUPN include heads or chairs of divisions or departments of neurology, directors of residency training programs, directors of clerkship programs, or directors of research programs in accredited medical schools in the United States (or similar medical schools in Canada which take part in the United States Neurology Resident Matching Program).

The American Neurological Association is a professional society of academic neurologists and neuroscientists devoted to advancing the goals of academic neurology, training and educating neurologists and other physicians in the neurologic sciences; and expanding both our understanding of diseases of the nervous system and our ability to treat them.

The Directory lists fellowships covering the following disciplines:
- Clinical neurophysiology
- Dementia
- EEG
- EMG
- Epilepsy
- Geriatric neurology
- Headache
- Interventional neurology
- Movement disorders
- Multiple sclerosis
- Neuropathology
- Neurorehabilitation
- Neuroimaging
- Neuroimmunology
- Neurologic critical care
- Neuromuscular disorders
- Neuro-oncology
- Neuro-ophthalmology
- Neuro-otology
- Neuropathology
- Neuropharmacology
- Neurology
- Pain
- Sleep disorders
- Spine

Obstetrics-Gynecology Subspecialty Programs
www.abog.org/app/app.html

The American Board of Obstetrics and Gynecology (ABOG) approves GME fellowship programs in the following subspecialties of obstetrics and gynecology:

- Female pelvic medicine and reconstructive surgery (29 programs)
- Gynecologic oncology (40 programs)
- Maternal-fetal medicine (69 programs)
- Reproductive endocrinology/infertility (38 programs)

An educational program in gynecologic oncology, maternal-fetal medicine, or reproductive endocrinology and infertility must (with rare exceptions) be affiliated with a medical school and be an integral part of a department of obstetrics and gynecology that also conducts an accredited residency program in obstetrics and gynecology. It must function with the approval, but not necessarily under the direction, of the chair of the department. A subspecialty program requires special facilities, services, and personnel, and the activities of the subspecialty fellows and the residents in the core program must be clearly and separately identified.

Institutions may apply for approval of education programs of 3 years’ duration. Refer to the General and Special Requirements for Graduate Medical Education for detailed guidelines.

Subspecialty Certification

Fellows who enter a 3-year fellowship program must satisfactorily complete 3 years of training to be admissible to the subspecialty division’s written examination. The certification process for all candidates will be identical. Program directors and candidates must be aware that in order to become certified in any subspecialty, the candidate must pass both the written and oral examinations of the principal Board.

It is recommended that continued contact with the broad aspects of obstetrics and gynecology be continued throughout the fellowship, including such mechanisms as participation in lectures, conferences, or night and weekend call. The extent of these activities, however, must not significantly alter the training program as proposed by the program director and approved by the division.

Ophthalmology Fellowship Programs
www.aupofcc.org

Formed in 2005, the Association of University Professors of Ophthalmology Fellowship Compliance Committee (AUPO FCC) is a non-profit organization committed to the establishment of ophthalmology training standards in fellowship programs. The AUPO FCC offers a compliance system focused on uniform educational standards, protection of the public, protection of institutions, protection of trainees, accountability, and enforcement. The compliance process is voluntary and financed by participating fellowship programs, subspecialty societies, and the AUPO. All subspecialties in ophthalmology are encouraged to participate in the AUPO FCC.

This AUPO FCC Web site includes listings of fellowships in the following:

- Cornea, external disease & refractive surgery
- Glaucoma
- Neuro-ophthalmology
- Ophthalmic pathology
- Pediatric ophthalmology & strabismus
- Retina & vitreous
- Uveitis

Pathology Fellowship Programs

www.pathologytraining.org

The Intersociety Council for Pathology Information (ICPI) is a non-profit educational organization sponsored by national pathology societies to serve as a central source of information about pathology in the practice of medicine and in medical research and education. It publishes annually the Directory of Pathology Training Programs in the US and Canada, which includes specialty and subspecialty programs in US and Canada. Other features of the Directory include listings of post-sophomore fellowships for medical students and information about careers in pathology, as well as a description of the principal pathology societies. A searchable Web version of the Directory is available at www.pathologytraining.org. Listings of programs in pathology subspecialties include the following:

- Anatomic pathology
- Blood banking/transfusion medicine
- Breast pathology
- Cardiovascular respiratory pathology
- Chemical pathology/clinical chemistry
- Clinical microbiology
- Coagulation
- Cytopathology
- Dermatopathology
- Forensic pathology
- Gastrointestinal pathology/hepatic pathology
- Genitourinary pathology
- Gynecologic, OB-Gyn, and perinatal pathology
- Head and neck pathology
- Hematopathology
- Immunohistochemistry
- Immunopathology/transplantation
- Informatics
- Laboratory medicine
- Molecular diagnostics
- Molecular pathology
- Neuropathology
- Oncologic pathology
- Ophthalmic pathology
- Orthopedic pathology
- Pediatric/developmental/perinatal pathology
- Renal pathology
- Soft tissue pathology
- Surgical/anatomic pathology

The Directory is intended for reference by medical students and residents, who can obtain a complimentary copy with a request countersigned by a pathologist or by sending a check for $8 (to cover shipping and handling) to the below address.

The Intersociety Committee also offers a 16-page brochure, Pathology as a Career in Medicine.

Surgical Oncology Fellowships

www.surgonc.org/default.aspx?id=60

The Society of Surgical Oncology (SSO) reviews and approves general surgical oncology and breast fellowship training programs on an ongoing basis. Each fall the Society conducts a Matching Program to match qualified candidates with positions in SSO-approved training programs.

In January 2008, 14 surgical oncology fellowships were listed on the SSO’s Web site.

The American Association for the Surgery of Trauma (AAST) has compiled lists of trauma and trauma-related fellowships arranged according to compliance with AAST-published guidelines.

In January 2008, 43 trauma and trauma-related fellowships and 11 research fellowships in compliance with the AAST’s guidelines were listed on the AAST’s Web site.

The site also includes a link to www.trauma.org/index.php/resources/fellowships/, which lists approximately 90 institutions supporting trauma-related fellowships, lectureships, and research positions in the following:

- Trauma Surgery
- Trauma Surgery & Critical Care
- Trauma, Critical Care and Acute Care Surgery
- Trauma Surgery & Injury Control
- Surgical Critical Care
- Orthopaedic Trauma
- Burn & Plastic Trauma
- Trauma Anaesthesia
- Trauma Radiology
- Trauma Research

Obtaining a Medical License: The Basics
By the Federation of State Medical Boards
[Reprinted from Licensing and Credentialing: What Physicians Need to Know]

Increasing public demand for protection, coupled with the growth in the number and sophistication of fraudulent practitioners over the past 2 decades, has resulted in stronger and more complex licensing boards and licensing statutes throughout the country. As might be expected, the rate of change differs widely among the states’ licensing boards, depending on each jurisdiction’s resources and Medical Practice Act, as well as on legislative, media, and public expectations. All medical boards have continued to improve licensure processes, and a trend toward uniformity among licensing boards exists to enhance both the initial licensure process and licensure portability.

Many states have expanded what is considered to be the practice of medicine to address new trends in the medical field that need to be regulated by medical boards. For example, a number of states have passed legislation in recent years that empower medical boards to have jurisdiction over the practice of medicine across state boundaries or treatment decisions made by medical directors of managed care organizations.

Within this context, a physician seeking initial licensure or subsequently applying for a license in other states should anticipate the possibility of delays due to the necessary investigation of credentials and past practice, as well as the need to comply with necessary licensing standards. To assist a physician in the quest for licensure, this article attempts to provide some ground rules. These suggestions will not apply in all cases but generally will help most physicians applying for licensure as well as benefit the licensing board of the state in which the physician wishes to practice.

When contacting a licensing board for the first time, ask for a copy of its current licensing requirements and the average time it takes to process applications. This will provide the physician with a solid idea of when to consider closing an existing practice and/or plan a move as well as with information about the potential problem areas to be addressed in completing an application. While initial licensure requirements for domestic and international medical graduates differ somewhat among states, all states will require proof of prior education and training and proof of the completion of a licensure examination approved by the board. Specifically, all physicians must submit proof of successful completion of all three steps of the United States Medical Licensing Examination (USMLE). However, because some medical students and physicians had completed portions of the National Board of Medical Examiners and Federation Licensing Examination (FLEX) sequences before the implementation of USMLE in 1994, certain combinations of examinations may be considered by medical licensing authorities as comparable to the USMLE.
Medical Licensure Information

To send a USMLE or FLEX transcript to state medical boards, visit www.fsmb.org or contact:
Federation of State Medical Boards
PO Box 619850
Dallas, TX 75261-8850
817 868-4000
www.fsmb.org

For info on the USMLE, visit www.usmle.org or see:
USMLE Office of the Secretariat
3750 Market St
Philadelphia, PA 19104-3910
215 590-9700

At the initial contact, the physician should provide the licensing board with a resume or curriculum vitae. This will allow a licensing board to evaluate potential problem areas early in the process. In short, the initial contact should be used to develop a set of reasonable expectations about the duration and complexity of the licensing process in a state to avoid frustration about the time required to obtain licensure. Unreasonable expectations can result in financial jeopardy due to the premature closing of a practice or failure to meet a starting date with an employer in the new state.

A physician should never try to hide derogatory information from a licensing board. It is much better to come forward with the information, assist the board in obtaining records and other necessary data, and provide information about mitigating circumstances that would prevent license denial. Full and frank disclosure of all information requested is by far the best approach to successful licensure. A physician should remember that in most states, making a false statement on an application for licensure is grounds for denial or future restriction.

A physician who is actively involved in the licensing process can often shorten the length of time it takes to obtain a license. Personally contacting and following up with the medical schools, training programs, and appropriate hospitals will motivate these institutions to verify credentials more expeditiously. Following up with the licensing boards in other states where the physician holds or has held a license also may assist in shortening the time for licensure. It is important to note a difference between follow-up and excessive use of phone contact, which often delays the processing of requested verification materials, since the physician’s application or request may need to be pulled from the “stack” to answer an inquiry. A short note to the organization processing the request for information 30 days after the initial letter or form was mailed may be a better course to follow than frequent phone contact.

Another option for physicians applying for licensure is the Federation Credentials Verification Service (FCVS). The FCVS was created in 1996 by the Federation of State Medical Boards of the United States to provide a centralized, uniform process for state medical boards—as well as private, governmental and commercial entities—to obtain a verified, primary source record of a physician’s core credentials. The FCVS repository of information allows a physician to establish a confidential, lifetime professional portfolio that can be forwarded, at the physician’s request, to any entity that has established an agreement with FCVS. Currently, the majority of licensing authorities accept FCVS-verified documents for licensure. For more information on FCVS, call 888 ASK-FCVS (275-3287).

A wise physician will exercise patience and courtesy in the licensing process. State licensing boards and their staff, in most cases, do the best job possible to protect the public with the resources provided them. This requires taking the necessary time to fairly evaluate each application for licensure. In that same context, all actively practicing physicians should be cognizant of state laws; they may be providing care or performing acts that might not, until recently, have required them to hold a license.

Even for physicians with uncomplicated histories who submit complete and accurate applications, delays in obtaining a medical license may be encountered. Physicians should plan for at least a 60-day period from the time they submit a completed application for license and the actual date licensure is granted. Physicians who are graduates of a medical school outside the United States should anticipate a slightly longer period. All physicians should be cognizant of the fact that, in general, the highest volume of licensure applications is received between the months of April and September. This is the peak period because physicians with families want to relocate before the academic school year starts for their children, residents want and need licensure to begin practicing, and state employees with school-age children often take their earned vacation time during this period. Finally, it is important to remember that hospital credentialing and qualification for medical malpractice insurance are based on possession of full and unrestricted licensure. This too may mean additional time before a physician can actually begin practicing.

Physicians informed about the process and working cooperatively with the licensing board need not find licensing an unpleasant experience. Members of the medical profession should always remember that the business of medical licensing boards is to protect the public from unqualified and unfit physicians. However, licensing boards also strive to ensure a process that protects the legal rights and privileges of physicians. While maintaining this balance often appears bureaucratic and cumbersome, the end result is improved health care for the people of the United States.
State Medical Licensure
Requirements and Statistics:

Contents

State Medical Licensure Requirements and Statistics, 2008 edition, includes the information shown below. On the following pages are selected tables that are relevant to GME.

To order your copy, call the AMA at 800 621-8335 or visit www.ama-assn.org/go/licensure.

Section I: Licensure Policies and Regulations of State Medical Boards

- Administration of the United States Medical Licensing Examination Steps 1 and 2
- Administration of the United States Medical Licensing Examination Step 3
- Endorsement Policies for Physicians Holding an Initial License
- Additional Requirements for Endorsement of Licenses Held by International Medical Graduates
- Policies About the Special Purpose Examination (SPEX) and Comprehensive Osteopathic Medical Variable-Purpose Examination (COMVEX)
- Initial Licensure of US Medical/Osteopathic School Graduates
- Initial Licensure of International Medical Graduates
- Initial Licensure of Canadian Citizens Who Are Graduates of Accredited Canadian Medical Schools
- Initial Licensure of Canadian Citizens Who Are Graduates of Accredited Canadian Medical Schools
- Medical Student Clerkship Regulations
- Additional Policies Concerning IMGs and DOs
- Accredited Subspecialties and Nonaccredited Fellowships That Satisfy GME Requirements for Licensure
- Licensure Requirement Exemptions for Eminent Physicians and Medical School Faculty
- Teaching (Visiting Professor) Licenses
- Licensure and Reregistration Fees, Intervals, and Requirements
- Continuing Medical Education for Licensure Reregistration
- Resident/Fellow Physician Licenses
- Resident/Fellow Physician Licenses: Documentation and Verification
- Noneducational Temporary or Limited Licenses, Permits, Certificates, and Registration
- Regulations on the Practice of Telemedicine and Out-of-state Consulting Physicians

Section II: Statistics of State Medical Licensing Boards

- Licenses Issued to Physicians by State Medical Boards, 1975–present
- Full Unrestricted Licenses (Whether Physician’s Initial or Subsequent) Issued to MDs and DOs by State Medical Boards
- Initial Licenses Issued to MDs and DOs by State Medical Boards
- Initial Licenses Issued to MDs and DOs by State Medical Boards, 1950–present
- Initial Licenses Issued to International Medical Graduates by State Medical Boards, 1975–present

Section III: Medical Licensing Examinations and Organizations

- The United States Medical Licensing Examination (USMLE)
- The Federation of State Medical Boards (FSMB) of the United States, Inc
- National Board of Medical Examiners (NBME)
- National Board of Osteopathic Medical Examiners (NBOME)

Section IV: Information for International Medical Graduates

- Educational Commission for Foreign Medical Graduates (ECFMG)
- Immigration Overview for International Medical Graduates

Section V: Federal and National Programs and Activities

- Licensure in the United States Armed Forces
- Federal Controlled Substances Registration
- National Practitioner Data Bank and Healthcare Integrity and Protection Data Bank

Section VI: Other Organizations and Programs

- American Board of Medical Specialties
- Accreditation Council for Graduate Medical Education
- American Medical Association Survey and Data Resources
- American Medical Association Continuing Medical Education
- American Medical Association Project USA
- The Joint Commission
- National Association Medical Staff Services
- National Committee for Quality Assurance
- Administrators in Medicine

Appendixes

- Boards of Medical Examiners in the United States and Possessions
- Boards of Osteopathic Medical Examiners in the United States and Possessions
- Member Boards of the Federation of Medical Licensing Authorities of Canada
- Glossary of Medical Licensure Terms and List of Common Abbreviations
Administration of the United States Medical Licensing Examination Step 3

In 1990, the Federation of State Medical Boards (FSMB) and the National Board of Medical Examiners (NBME) established the United States Medical Licensing Examination (USMLE), a single examination for assessment of US and international medical school students or graduates seeking initial licensure by US licensing jurisdictions. The USMLE replaced the Federation Licensing Examination (FLEX) and the certification examination of the NBME, as well as the Foreign Medical Graduate Examination in the Medical Sciences (FMG-E), which was formerly used by the Educational Commission for Foreign Medical Graduates (ECFMG) for certification purposes.

The USMLE is a single examination program with three steps. Each step is complementary to the others; no step can stand alone in the assessment of readiness for medical licensure. For 2008, the fee for the Step 3 examination is $670.

Many states require US or Canadian medical school graduates to have from 6 to 12 months of accredited US or Canadian graduate medical education (GME) to take USMLE Step 3. In some states, graduates of foreign medical schools are required to have completed more GME (as much as 3 years in several states). A number of states do not require completion of GME to take Step 3 or require only that a physician taking the examination be enrolled in a GME program.

Nearly all medical licensing authorities require completion of Steps 1, 2, and 3 within a 7-year period, or 10 years for those in MD/PhD or similar dual-degree programs (although 24 states may make exceptions in the event of extenuating circumstances, as noted in Table 2). Exceptions are California, Kansas, Maryland, Nebraska, Oklahoma, and South Carolina, which allow 10 years; and Delaware, Florida, Kentucky, Louisiana, Michigan, New Hampshire, New York, and Pennsylvania, which do not impose a time limit. This 7-year period begins when the medical student or graduate first passes Step 1 or Step 2. Many licensing authorities also limit the number of attempts allowed to pass each step (particularly Step 3) and require additional education, training, or experience after a given number of failed attempts.

Additional Notes for Specific Licensing Jurisdictions

Alabama—If an applicant fails to achieve a passing score on Step 3 in three administrations, the Board may approve one additional attempt to pass Step 3 after demonstration by the applicant of additional education, experience, or training acceptable to the Board. Applicants who are “dual degree candidates” (see definition, below) must achieve a passing score on Step 3 in not more than three administrations and complete Steps 1, 2, and 3 within a 10-year period, beginning when the applicant initially passes his or her first step. The Board does not accept scores from a retaking of a previously passed step of the USMLE.

For purposes of the USMLE, dual degree candidates are defined as follows:

- The applicant is pursuing the MD or DO degree and the PhD degree in an institution or program accredited by the LCME and a regional university accrediting body; and
- The applicant is a student in good standing, enrolled in the institution or program; and
- The PhD studies are in a field of biological sciences tested in the USMLE Step 1 content, including, but not limited to, anatomy, biochemistry, physiology, microbiology, pharmacology, pathology, genetics, neuroscience, and molecular biology.

Arizona—No time limit for USMLE Step 3 for applicants who hold a license in another jurisdiction (licensure by endorsement); for initial licensure, the 7-year limit applies.

Ohio—All 3 steps must have been passed within a 7-year period, and the performance achieved on each step must have been recognized by the USMLE as a recommended passing performance. A limited exception to this rule may be granted to an applicant who in conjunction with a medical degree is actively pursuing a doctoral degree in an institution or program accredited by the Liaison Committee on Medical Education and a regional university accrediting body. The applicant must be a student in good standing when enrolled in the institution or program, and the doctoral degree must be in a field of biological sciences tested in the Step 1 content. To be considered, the fields must include, but are not necessarily limited to, anatomy, biochemistry, physiology, microbiology, pharmacology, genetics, neuroscience, and molecular biology. Fields not excepted include, but are not necessarily limited to, business, economics, ethics, history, and other fields not directly related to biological science.

A limited exception to this rule may also be granted to an applicant who suffered from a significant health condition which by its severity would necessarily cause a delay to the applicant's medical study. Regardless, all three steps must have been passed within a 10-year period.

Oregon—A waiver is allowed of the three attempt limit for USMLE Step 3 (1 year approved GME after third failed attempt before fourth and final attempt) for applicants who are ABMS certified. A waiver of the 7-year time limit for completion of USMLE Steps 1, 2, and 3 is allowed for applicants who are ABMS certified, have participated in a combined MD/PhD or DO/PhD program, suffered from a documented significant health condition that by its severity would necessarily cause delay to an applicant’s medical study, or have completed continuous GME equivalent to an MD/PhD or DO/PhD program.

Texas—All candidates, except MD/PhD graduates, must pass all examination steps within 7 years. MD/PhD graduates must pass all steps within 2 years of completing the GME required for licensure in Texas. Both of these time limits may be expanded to 10 years if the applicant 1) is ABMS or AOA Bureau of Osteopathic Specialists specialty board certified, or 2) has been issued a faculty temporary license in Texas, has practiced under that permit for at least 12 months, and has been recommended for licensure by the institution at which the faculty temporary license was used.

Virgin Islands—The USMLE is not administered; SPEX is used to evaluate physicians’ knowledge.

* Refer to introductory text to this table for more information on this state’s regulations.

**Note:** All information should be verified with the licensing board; medical licenses are granted to those physicians meeting all state requirements—at the discretion of the board.
Initial Licensure of US Medical/Osteopathic School Graduates

All states require a written examination for initial licensure: generally, for MDs, the three-step United States Medical Licensing Examination (USMLE), which has replaced the Federation Licensing Examination (FLEX) and the national board examination of the National Board of Medical Examiners (NBME). Osteopathic physicians take the three-level Comprehensive Osteopathic Medical Licensing Examination (COMLEX-USA) of the National Board of Osteopathic Medical Examiners (NBOME).

To be eligible to take USMLE Step 3, more than half of the state medical boards require graduates of US medical schools to have completed at least 1 year of graduate medical education (GME). Twenty-three boards do not require completion of any GME to take USMLE Step 3 (although in some cases a candidate must be enrolled in a GME program).

To be eligible to take Level 3 of the Comprehensive Osteopathic Medical Licensing Examination (COMLEX), osteopathic physicians must be currently participating in and in good standing with an AOA-accredited internship or ACGME-accredited GME program or must have successfully completed such an internship or program.

All medical and osteopathic boards require completion of at least 1 year of GME before issuing a full, unrestricted license.

**Note:** All information should be verified with the licensing board; medical licenses are granted to those physicians meeting all state requirements—at the discretion of the board.
Initial Licensure of Canadian Citizens Who Are Graduates of Accredited Canadian Medical Schools

When considering applications for licensure, all state medical boards consider Canadian citizens who have graduated from an accredited Canadian medical school on the same basis as graduates of accredited US medical schools.

Forty-seven licensing boards endorse the Licentiate of the Medical Council of Canada (LMCC) as evidence of passing an acceptable licensing examination (applicants must also pass all other board requirements for licensure).

With the exception of Guam and the Virgin Islands, all licensing boards accept Canadian graduate medical education (GME) as equivalent to GME in a US program accredited by the Accreditation Council for Graduate Medical Education (ACGME). These rules do not uniformly apply to international medical graduates, who should refer to Table 5.

### Abbreviations

ACGME—Accreditation Council for Graduate Medical Education  
GME—graduate medical education  
LMCC—certification by the Licentiate of the Medical Council of Canada

**Note:** All information should be verified with the licensing board; licenses based on endorsement are granted to those physicians meeting all state requirements.
Initial Licensure of International Medical Graduates

All international medical graduates (IMGs) must hold a certificate from the Educational Commission for Foreign Medical Graduates (ECFMG) examination before taking Step 3 of the United States Medical Licensing Examination (USMLE).

Nineteen boards maintain and use a list of approved/unapproved foreign medical schools for initial licensure decisions. New Mexico uses the list of schools from the California board.

Forty states will endorse for licensure the Licentiate of the Medical Council of Canada (LMCC) when held by an IMG.

Twenty-three state boards allow IMGs to take USMLE Step 3 before they have had GME in a US or Canadian hospital (although some of these states require that a candidate be enrolled in a GME program). All states, however, require at least 1 year of GME for licensure, and 30 states require 3 years. Candidates are not awarded a license until they undertake the required GME in the United States and meet other board requirements (eg, an ECFMG certificate, personal interview, payment of fees).

Fifth Pathway

In 1971, the AMA established Fifth Pathway, a program for US citizens studying abroad at foreign medical schools. The program requires that participants have:

1. Completed, in an accredited US college or university, undergraduate or premedical work of a quality acceptable for matriculation in an accredited US medical school, evaluated by measures such as college grade point average and scores on the Medical College Admission Test
2. Studied medicine in a foreign medical school located outside the US, including Puerto Rico, and Canada that is listed in the International Medical Education Directory, available on the ECFMG Web site at www.ecfmg.org and developed and maintained by the Foundation for Advancement of International Medical Education and Research (FAIMERSM), a nonprofit foundation of the ECFMG
3. Completed all formal requirements for a diploma of the foreign medical school except internship and/or social service (Those who have completed all the formal graduation requirements of the foreign medical school, including internship and/or social service, and are consequently eligible to apply for ECFMG certification, are not eligible for the Fifth Pathway.)

If the aforementioned criteria are met, the candidate may substitute the Fifth Pathway program for internship and/or social service in the foreign country. After receiving a Fifth Pathway certificate from an accredited US medical school, these US citizens are eligible to enter the first year of GME in the United States.

In 52 jurisdictions (exceptions are Guam and the Virgin Islands), individuals who hold Fifth Pathway certificates (but not the ECFMG certificate) are eligible for licensure. Fifth Pathway certificate holders must pass Steps 1 and 2 of the USMLE before entering a GME program accredited by the Accreditation Council for Graduate Medical Education (ACGME).

Note: The Fifth Pathway program will be discontinued as of June 30, 2009.

Additional Notes for Specific Licensing Jurisdictions

Florida—ECFMG certificate required for licensure if a candidate is not a graduate of a foreign medical school approved by the Florida Board of Medicine (none has yet been approved).

Maine—GME taken in Canada or the British Isles (accredited by a national body deemed equivalent to ACGME) may be considered qualifying on an individual basis.

Maryland—In addition to 2 years of ACGME- or AOA-accredited GME required for licensure, 1 year of GME required if a candidate failed any part of an examination three times; no more than three failures permitted.

Mississippi—ABMS board certification required for candidates who completed the Fifth Pathway.

New Jersey—An individual’s educational experience must meet certain eligibility requirements.

North Carolina—Less than 3 years of GME may be accepted if applicant has completed at least 1 year of approved GME and is certified by an ABMS or AOA specialty board.

North Dakota—Three years of US or Canadian GME is required for licensure; if a candidate has not completed 3 years of GME but has met all other licensing requirements and has completed 1 year of GME in the United States or Canada in a board-approved program, and if the board finds that the candidate has other professional experience and training substantially equivalent to the second and third years of GME, the candidate may be deemed eligible for licensure (upon passing SPEX or ABMS board certification).

Oregon—IMG candidates for licensure must have completed at least 3 years of progressive GME in not more than two specialties in not more than two US or Canadian hospitals accredited for such training.

Pennsylvania—The board will grant unrestricted license by endorsement to a candidate who does not meet standard requirements if the candidate has achieved cumulative qualifications that are endorsed by the board as being equivalent to the standard license requirements.

South Carolina—ABMS/AOA board certification required for candidates who completed the Fifth Pathway.

South Dakota—No list of approved/unapproved foreign medical schools is maintained; decisions made on a case-by-case basis.

Medical Licensure Information

Medical Student Clerkship Regulations

For purposes of this publication, a clerkship is defined as clinical education provided to medical students. Twenty states evaluate the quality of clinical clerkships in connection with an application for licensure. In most states, clerkships for US medical students must take place in hospitals affiliated with medical schools accredited by the Liaison Committee on Medical Education (LCME). Eleven of these 20 states have additional and/or more specific bases for evaluation.

Twelve boards regulate clerkships provided in their states to students of foreign medical schools (including US citizens studying medicine in foreign schools). Of these, Pennsylvania and Puerto Rico forbid such clerkships. For purposes of licensure, 21 states accept only those clerkships completed in hospital departments with graduate medical education (GME) programs accredited by the Accreditation Council for Graduate Medical Education (ACGME). Eight states have additional regulations.

Additional Notes for Specific Licensing Jurisdictions

**California**—Students of foreign medical schools may complete up to 18 of 72 required weeks in nonapproved clerkships outside of California.

**Florida**—Rules on clinical clerkships for international medical graduates adopted by the Florida Board before October 1986 do not apply to any graduate who had already completed a clinical clerkship or who had begun a clinical clerkship, as long as the clerkship was completed within 3 years. An international medical school must be registered with the Florida Department of Education for its students to perform clinical clerkships in Florida.

**Michigan**—Specific clerkships are required (only for MDs).

**Texas**—Clerkships must be performed 1) as a student in an accredited medical or osteopathic school or 2) in a hospital or teaching institution sponsoring or participating in a GME program accredited by the ACGME, the AOA, or the board in the same specialty or subspecialty as the medical or osteopathic medical education. The only exception is for applicants who are ABMS or AOA Bureau of Osteopathic Specialists specialty board certified.

* Refer to introductory text to this table for more information on this state’s regulations.

† In many cases, clerkships must take place in hospitals affiliated with LCME-accredited medical schools or ACGME-accredited residency programs. These states require additional and/or more specific criteria for evaluation.

**Note:** All information should be verified with the licensing board; medical licenses are granted to those physicians meeting all state requirements—at the discretion of the board.
Additional Policies Concerning IMGs and DOs

A number of state medical boards have additional graduate medical education (GME) and specialty certificate policies for international medical graduates (IMGs). Fifteen states have requirements for appointment to GME programs other than requiring an Educational Commission for Foreign Medical Graduates (ECFMG) certificate or a limited license.

Seven boards—Connecticut, Maine, Nebraska, Ohio, Oklahoma, Oregon, and Rhode Island—indicated that GME completed in foreign countries other than Canada may be considered for credit toward a license. Specialty certificates of foreign boards, such as the Royal College of Physicians in the United Kingdom, may be accepted for credit toward a license in 11 states.

Thirty-seven medical boards accept GME accredited by the Accreditation Council for Graduate Medical Education (ACGME) for licensure of osteopathic medical graduates.

Additional Notes for Specific Licensing Jurisdictions

Maine—The board may accept GME completed in England, Scotland, and Ireland for credit toward a license, if it is accepted by the specialty board as meeting board eligibility in the United States and notified via certified letter.

Pennsylvania—IMGs seeking appointment to a GME program need a passing score on United States Medical Licensing Examination (USMLE) Steps 1 and 2 (or National Board of Medical Examiners [NBME] Parts I and II or Federation Licensing Examination [FLEX] Component 1) for graduate year 2 medical education; for graduate year 3 and beyond, all parts of USMLE (or NBME or FLEX) are required.

- **GME**—graduate medical education
- **NBME**—certificate of the National Board of Medical Examiners
- **USMLE**—United States Medical Licensing Examination

* * Refer to introductory text to this table for more information on this state’s regulations.

**Note:** All information should be verified with the licensing board; medical licenses are granted to those physicians meeting all state requirements—at the discretion of the board.
Both the AMA and the Accreditation Council for Graduate Medical Education (ACGME) define a residency as graduate medical education (GME) that takes place in any of the medical specialties with ACGME Program Requirements (e.g., internal medicine, pediatrics, surgery). Beginning in 2000, the ACGME has used the term fellowship to denote GME in ACGME-accredited subspecialty programs (e.g., cardiovascular disease, hand surgery, rheumatology) that is beyond the requirements for eligibility for first board certification in the discipline.

All state medical boards accept residency education in specialty programs accredited by the ACGME as satisfying their GME requirements for licensure. Fifty-one jurisdictions—all except Arkansas, Montana, and Puerto Rico—accept residency education in subspecialty programs accredited by ACGME as satisfying their GME requirements for licensure.

Nine boards accept clinical fellowships not accredited by ACGME, and three boards—Hawaii, New York, and North Carolina—may accept research fellowships not accredited by ACGME to satisfy the GME requirement for licensure.

GME—graduate medical education

* Refer to introductory text to this table for more information on this state’s regulations.

**Note:** All information should be verified with licensing board; medical licenses are granted to those physicians meeting all state requirements—at the discretion of the board.
Licensure Requirement Exemptions for Eminent Physicians and Medical School Faculty

Eighteen boards license physicians through recognition of eminence in medical education or medical practice. Physicians appointed to a medical school faculty are excused from the graduate medical education (GME) requirement for limited licensure in 20 states and from the examination requirement for limited licensure or teaching certification in 19 states. These faculty appointees would, however, receive a limited license or similar credential.

Note: All information should be verified with licensing board; medical licenses are granted to those physicians meeting all state requirements—at the discretion of the board.
Resident/Fellow Physician Licenses

Sixty-two jurisdictions issue educational licenses, permits, certificates, or registration to resident/fellow physicians in graduate medical education (GME) programs, with fees ranging from $0 to $300 per year. (The GME program director generally provides a list of residents/fellows and any other required information directly to the licensing jurisdiction.) In 37 of those jurisdictions, residents/fellows must obtain a new permit/license when changing residency/fellowship programs within the state.

Medical boards in 14 states require that prospective residents have passed United States Medical Licensing Examination (USMLE) Step 1 to receive a permit/license. California, Mississippi, Montana, North Dakota, and Utah require passage of Steps 1 and 2.

Nineteen states require that resident/fellow physicians obtain full licensure (not limited or training licenses) at some point in their training (usually after having completed a certain number of years of GME).

Additional Notes for Specific Licensing Jurisdictions

California—Permits are awarded on an individual basis for a maximum of 5 years to noncitizen physicians for postgraduate work in a California medical school.

IMGs must submit an application to determine that all core requirements have been met before they may begin training in California.

Illinois—Limited temporary licenses (valid for 6 months) are awarded to persons in non-Illinois residency programs who are accepted for a specific period of time to perform a portion of that program at a clinical residency program in Illinois due to the lack of adequate facilities in their state.

Visiting Resident Permits are issued for 180 days to persons who have been invited or appointed for a specific period of time to perform a portion of that clinical residency program under the supervision of an Illinois-licensed physician in an Illinois patient care clinic or facility affiliated with the out-of-state GME program.

Massachusetts—Limited registration is issued to physicians enrolled in accredited residency programs and physicians enrolled in fellowships at hospitals with accredited residency programs in the area of the applicant’s specialty.

Mississippi—Institutional license is issued to interns and IMG physicians providing health care in state institutions. Applicants are not required to meet all requirements for permanent unrestricted licensure.

Restricted temporary license is issued to physicians enrolled in first year of GME at the University of Mississippi School of Medicine for practice limited to that school.

Addictionology Fellowship License is issued to physicians admitted for treatment in a board-approved drug and/or alcohol addiction treatment program or to physicians enrolled in fellowship of addictionology of the Mississippi State Medical Association Impaired Professionals Program.

Oregon—Limited license (LL), Postgraduate (PG), and Fellow. LL Fellow licenses may be renewed for 1 additional year, LL-PG annually until training is completed.

Pennsylvania—Interim Limited License (up to 12 consecutive months) is issued to physicians providing medical service other than at the training location of the licensee’s accredited GME program. Graduate License allows the licensee to participate for a period of up to 12 consecutive months in GME within the complex of the hospital to which the licensee is assigned and any satellite facility or other training location used in the program.

South Dakota—Resident physicians practicing within the confines of their residency program are not required to obtain a certificate from the board.

A resident physician who wishes to practice on an irregular basis outside their program may apply for a resident certificate if they have completed at least 1 year of GME and remain enrolled in good standing in their program until successful completion. To apply for this certificate, they must meet South Dakota’s examination requirements for completion of the entire USMLE within a 7-year period and passing of each step within three attempts. The fee for this certificate is $50.

Yes.

I accept your invitation for a full-year membership in the American Medical Association.

Members who reside in Mississippi must join directly through their state or county medical society.

A physician or medical student who applies for direct membership in the AMA is encouraged to also join his/her state and local medical societies.

Three easy ways to join:

Return the application to:
Membership Processing
American Medical Association
P.O. Box 4188
Carol Stream, IL 60197-9791

(800) 262-3211

www.ama-assn.org/go/join

Up to 15% multi-year discount:
____$38 Two-year membership
____$54 Three-year membership
____$68 Four-year membership

(continued on page 2)
Applying for AMA membership

Membership is contingent upon the American Medical Association’s (AMA) acceptance of the membership application. The endorsement, deposit or negotiation of an applicant’s check does not guarantee admission into or acceptance of membership by the AMA. Checks received will routinely be deposited without a determination of the propriety of the payment or the applicability of the amount. Applicants who are not admitted to membership will receive a refund from the AMA for the amount submitted.

To find out the 2008 percentage of dues that are allocable to AMA’s lobbying activities and therefore not deductible for income tax purposes, please contact AMA Member Relations at (800) 262-3211.

Dues paying members are eligible for print copies of JAMA and American Medical News. The allocated cost of $32 for JAMA and $26 for American Medical News is included in and not deductible from AMA membership dues. All members receive free online access to JAMA, American Medical News and the Archives.

Conditions of AMA membership and application

Compliance with the Principles of Medical Ethics as interpreted in the Code of Medical Ethics, the Bylaws of the American Medical Association, and the Rules of the AMA Council of Ethical and Judicial Affairs are conditions of applying for AMA membership.

The Principles are a declaration of ethical guidelines, created by the AMA for physicians and are accessible online at www.ama-assn.org/ama/pub/category/2512.html.

- The Code of Medical Ethics may be viewed online at www.ama-assn.org/ama/pub/category/2498.html.
- The AMA’s Bylaws are accessible at www.ama-assn.org/ama/pub/category/13374.html.

Unless otherwise disclosed to the AMA Office of General Counsel, by submitting your application you confirm you have not:

(i) been convicted of a fraud or a felony within the last five years:

(ii) had any action taken against you in any jurisdiction within the last five years (or extending to within the last five years) regarding your license to practice medicine (including actions involving revocation, suspension, limitation, probation or any other sanctions or conditions imposed upon your license); or

(iii) been the subject of any disciplinary action by any medical society, hospital staff, federal or state government within the last five years.

The Health Care Quality Improvement Act requires professional societies (such as the AMA) to report certain professional review actions, including denial of membership, to the National Practitioner Data Bank. Illinois law governs any legal matter relating to membership decisions by the AMA.

Credit card payment information

Credit card options: (1) Single payment available to all members. (2) Single payment with automatic renewal, and (3) Installment payment with automatic renewal applies to professional practice, military and fully retired membership categories only.

Pay monthly: Installment payments begin the month payment is received and are paid in full by Dec. 31, 2008. Renewal of both automatic payment options will be charged in January 2009, with one lump sum for single payment and 1/12 of the annual fee for installment payments.

Participation in either of the two automatic renewal options ensures continuity of your membership benefits and helps save your AMA valuable resources. With the automatic renewal options, your membership will continue from year to year unless cancelled by either party. The AMA guarantees it will not change your future membership dues without prior written notice.
