- **Pub Med IDs (assigned by PubMed) for articles published between 7/1/2011 and 6/30/2012. List up to 4.**

- **Pub Med ID (PMID)** is an unique number assigned to each PubMed record. This is generally an 8 character numeric number. The PubMed Central reference number (PMCID) is different from the PubMed identifier (PMID). PubMed Central is an index of full-text papers, while PubMed is an index of abstracts.

- **Number of other presentations given (grand rounds, invited professorships), materials developed (such as computer-based modules), or work presented in non-peer review publications between 7/1/2011 and 6/30/2012. Articles without PMIDs should be listed in this section. This will include publications which are peer reviewed but not recognized by the National Library of Medicine.**

- **Had an active leadership role (such as serving on committees or governing boards) in national medical organizations or served as reviewer or editorial board member for a peer-reviewed journal between 7/1/2011 and 6/30/2012.**

- **Between 7/1/2011 and 6/30/2012, held responsibility for seminars, conference series, or course coordination (such as arrangement of presentations and speakers, organization of materials, assessment of participant’s performance) for any didactic training within the sponsoring institution or program. This includes training modules for medical students, residents, fellows and other health professionals.** This does not include single presentations such as individual lectures or conferences.
