Notes

- Minimum numbers represent what the Review Committee believes to be an acceptable minimal exposure.
- Minimum numbers are not a final target number and achievement does not signify competence.
- Program directors must ensure that residents continue to report their procedures in the Case Log System after minimums are achieved.
- Programs are considered compliant with obstetrics and gynecology procedural requirements if all graduating residents in a program achieve the minimum number in each category.

Contact Review Committee Executive Director Kathleen Quinn-Leering, PhD (kquinn@acgme.org) with any questions.

¹Obstetric ultrasound includes fetal biometry performed at over 14 weeks gestation
