

**Required Minimum Number of Key Indicator Procedures
for Graduating Residents
Review Committee for Otolaryngology**

Note: Case logs for 2013 program graduates will be reviewed for compliance with minimum numbers, but no citations will be given. Residents graduating in 2014 are expected to achieve the required minimum numbers for all Key Indicator Procedures. Achievement of the required minimum numbers is an indicator of experience, but is not considered an indicator of competence. Programs should continue to evaluate procedural competence to ensure that graduates are competent to enter practice without direct supervision.

Category	Procedure	Min #
KEY INDICATOR: Head & Neck	Parotidectomy (all types)	15
