

# Memorandum

**To:** Program Directors: Pediatric Anesthesiology Fellowship Programs  
**From:** Linda Thorsen, Associate Executive Director, RRC for Anesthesiology  
**Date:** June 9, 2009  
**Re:** UPDATE: Submission of Electronic Logs (2009-2010)

---

**PLEASE NOTE: Procedure logs for Pediatric Anesthesiology fellows for the current academic year should be submitted to the ACGME offices by July 15, 2009.**

**NEW ELECTRONIC LOG SYSTEM, effective July 1, 2009:** For the academic year beginning July 1, 2009, procedures should be entered via the ACGME data collection website noted below. Within the last several months a number of pediatric anesthesiology program directors have participated in the testing phase utilizing the electronic form/system. This form as well as a brief tutorial is now available for use by ACGME-accredited Pediatric Anesthesiology fellowship directors.

Program directors may access the system with a current ID and password. The URL right to the login page is:

<https://www.acgme.org/residentdatacollection>

The tutorial is listed with other specialty log tutorials.

**As a reminder, submission of procedures is required by the RRC for all pediatric anesthesiology fellowships annually; for the 2009-2010 academic year, it is expected that data will be entered in the ACGME log system by AUGUST 1, 2010.**

You will note that the electronic log form is similar to the 'paper' log currently in use. Please call our staff with any questions: Dyan Flores – 312-755-5490 or e-mail: [dflores@acgme.org](mailto:dflores@acgme.org).
