

Minimum Numbers for Pediatric Surgical Experience

	Resident Experience Two-Year	Institutional Data:
Total Major Operations	800	3400
Major Trauma-Non-Operative	90	180
Tumors	25	50
Important Pediatric Surgical Cases	55	140
Neonate Cases	75	140
Component Procedures for Defined Categories		
Tumors		
Major excision soft tissue tumor		
Resection chest wall tumor		
Cystic hygroma/lymphoangioma		
Major tumor (head & neck)		
Excision mediastinal tumor		
Excision neuroblastoma/adrenal/other retroper		
Major hepatic resection/repair: Tumor		
Nephrectomy (total or partial)		
Oophorectomy (partial or total)		
Important Ped. Surgical Cases		
Repair chest wall deformity		
Excision mediastinal cyst		
Pulmonary resection tumor, congenital malfor		
Esophageal resection or replacement		
Perineal procedure for imperforate anus		
Pull through for imperforate anus		
Hirschsprung's: Open		
Hirschsprung's: Scope		
Orchidopexy: Open		
Orchidopexy: Scope		
Procedures for intersex: vaginal reconstruction		
Neonate		
Repair esophageal atresia and or TEF		
Repair diaphragmatic hernia		
Operation for malrotation		
Repair intestinal atresia, stenosis or web		
Rsx/repair/ostomy for NEC		
Ostomy: anorectal malformation		
Ostomy: Hirschsprung's		
Omphalocele (any surgical repair)		
Gastroschisis (any surgical repair)		
Excision sacrococcygeal teratoma
