INTRODUCTION

The Resident Case Log System is an Internet-based data collection system utilizing CPT codes.

The system was designed to permit residents to enter procedures on a regular basis at their convenience. However, some programs may prefer to have residents report their procedures to one individual who will enter all procedures for all residents. Data may be entered from any PC connected to the World Wide Web.

The site is secured by an encryption certificate obtained through the Verisign Corporation.

GETTING STARTED

The RRC office provides each program director with a Username and Password to access the collection. The program enters program specific information such as residents, attending physicians, institutions, and users.

Access to the system is available through most commonly used Internet browsers and providers, such as Microsoft Internet Explorer 4.01, Netscape 4.0, AOL, and Prodigy. No special download is required.

TECHNICAL NOTE: Cookies are small pieces of information stored on a web browser that improve computer performance. In order for the Resident Case Log System to work properly, your computer must be set up so that Cookies are *NOT* disabled. Contact your local technical support staff if your computer's default settings need to be changed.

When running reports the system will ask you to download the Crystal Smart Viewer. This is a Seagate Crystal Report application, which allows you to search and print reports. Please answer yes to the download.

CONTACT US

As you use this application, please do not hesitate to contact the ACGME Help Desk (312/755-7464) when you have questions or suggestions. Additionally, you can contact us via e-mail at oplog@acgme.org

oplog@acgme.org

LOGGING ON

Using your Internet-browser, go to the ACGME homepage at www.acgme.org. Select Resident Case Log System

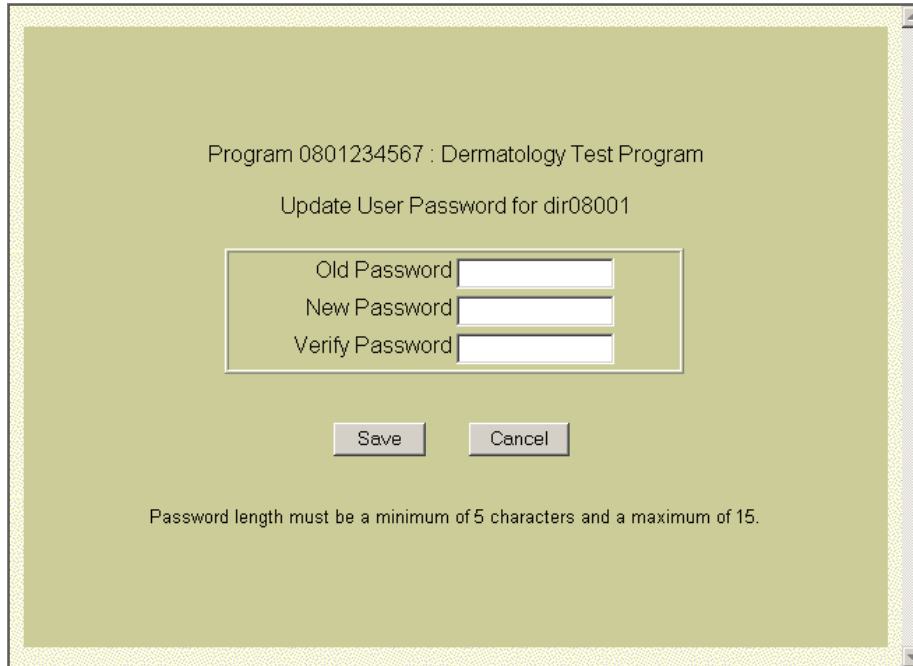

The screenshot shows the ACGME website's navigation menu on the left and the main content area. The main content area is titled "Resident Case Log System" and includes a link to the "Manual and List of all available CPT codes by Specialty". Below this, there is a link to "Click here to go to the Resident Case Log." and a note stating "The new release of the Resident Case Log is compatible with most common Internet browsers." and "NO additional Plug-ins are required." The page also lists supported operating systems (Windows 95, 98, NT, 2000, XP, ME and Macintosh) and provides a note for Macintosh users regarding printing reports. A paragraph explains that the system has been in production for many specialties and has over 600,000 procedures entered into the database. The bottom section of the page provides instructions on how to access the system using Netscape or Internet Explorer, and provides contact information for program directors and residents who have not received a User ID and Password.

The screenshot shows the login page for the Resident Case Log System. It features the ACGME logo in the top left corner and a "Help" link in the top right corner. The main heading is "Welcome to the Resident Case Log System". Below this, there are two input fields: "User ID:" and "Password:". To the right of the "Password:" field is a checkbox labeled "Change Password". Below the input fields are two buttons: "Login" and "Reset". At the bottom of the page, there is a copyright notice: "The CPT five-digit codes and/or nomenclature are copyright 1994 American Medical Association (or such other date of publication of the work as defined in the federal copyright laws). All Rights Reserved." Below the copyright notice are two logos: "VeriSign" and "SSL Secured".

Enter the Username and Password (provided by your program's system coordinator) and click on the Login button. *If you want to change your password, click on the Change Password box **before** you log in.*

CHANGING YOUR PASSWORD

Enter your Username and Password, click on the Change Password check box, and press the Login button. A new window will open to request your password and confirm the new one. **If you forget your password, your program's system coordinator is the only person who can assign you a new one.** Enter the required data and press the save button. If you decide you don't want to change the password press the Cancel button. You will still be logged on to the system.

Program 0801234567 : Dermatology Test Program

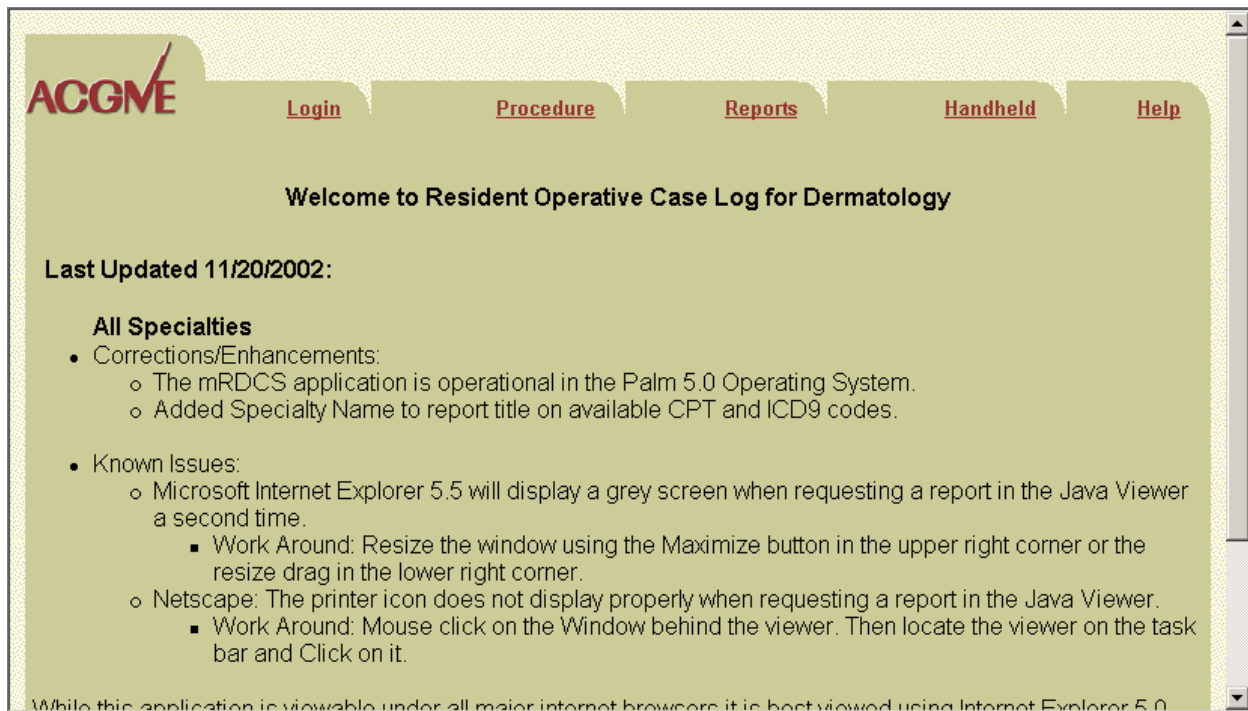

Update User Password for dir08001

Old Password	<input type="text"/>
New Password	<input type="text"/>
Verify Password	<input type="text"/>

Password length must be a minimum of 5 characters and a maximum of 15.

WELCOME PAGE

The Welcome Page will be the starting point of any login. It will confirm that you are logged on and keep you abreast of changes or issues. It will also provide you with the necessary tabs to perform your entry.

LIST OF OPTIONS

The Welcome Page has a group of tabs listed across the top of the Page.

1. **Login** will place you on the Login page and permit you to log onto the system. (At this point, however, you are already logged on.)
2. **Procedure** will allow you to add, edit, delete, and view procedures.
3. **Reports** allows you to view and print:
 - a. Resident Operative report lists total procedures by area and type, which can be filtered by date range, attending, and institution, etc;
 - b. Resident Full Detail and Resident Brief Detail reports is an itemized, chronological list of all your entries, which also can be filtered by date range, attending, and institution, etc.; or
 - c. Resident Activity report lists the procedure date that was entered; or
 - d. Available CPT Codes which can be displayed either by CPT or by Area and Type. (These could be handy, timesaving reference guides, were you to print them out).
4. **Handheld** will allow you to download the handheld application once your program has activated this feature.
5. **Help** will provide you with an index of topics and information about the system.

PROCEDURES

Click on the Procedure tab and the Procedure Menu will display. To add new procedures, click on Add. To change, delete or view procedures, click on Search/Update. To change and incorrect resident procedure year, click on Update Procedure Year. To download all procedures click on Download Procedures.

To add a new procedure, click on Add.

When entering procedures, please keep the following in mind:

Under Resident's Role - Performed should be selected when you had the substantial responsibility during the procedure and Observed should be selected if you had a primarily assisting role with the attending as the surgeon.

ADDING A NEW PROCEDURE

After you click on the **Add** link, the Procedure Entry page will display:

The screenshot shows the ACGME Procedure Entry form. At the top, there is a navigation bar with the ACGME logo and tabs for Login, Procedure, Reports, Handheld, and Help. The main form area is titled "Procedure Entry" and contains the following fields and controls:

- Resident:** A dropdown menu showing "Number 1. Resident".
- Resident Year:** A text input field containing "1".
- Attending:** A dropdown menu showing "< Please select a value >".
- Residents Role:** A dropdown menu showing "Performed".
- Proc Date:** A text input field containing "1/15/2003".
- Case ID:** A text input field.
- CPT Code:** A text input field with "Select" and "Search" buttons.
- Comments:** A large text area for entering comments.
- Buttons:** "Save", "Help", "Clear", and "Cancel" buttons.
- Selected Procedures:** A section with a title "Selected Procedures" and a message "No CPT Descriptions have been currently selected for display." Below this is a "Remove CPT" button.
- Full CPT Desc:** A text input field.
- Area:** A dropdown menu.
- Type:** A dropdown menu.

Required Fields

Resident: Resident name is automatically entered based on your login.

Attending: Select the Attending Physician using the down arrow.

Resident Year: Enter your year of residency at the time of the procedure. The year will default to the year entered on the resident setup screen by your local system administrator.

Resident Role: Select Role using the down arrow. Performed should be selected when you had the substantial responsibility during the procedure and Observed should be selected if you had a primarily assisting role with the attending as the surgeon.

Procedure Date: Enter Date including / or – to separate month/day/year. Format mm/dd/ccyy.

CPT Code: If you know the CPT code: Enter the CPT code and click on the Select button. If you don't know the CPT code: Click on the Search button.

Selecting a CPT code

If you know the appropriate CPT code(s), type the value, and click on the Select button. In the pictured example, CPT code 15782 was entered. If the CPT code is valid it will automatically be placed in the Selected Procedures list.

The screenshot shows the ACGME Procedure Entry form. At the top, there are navigation tabs: Login, Procedure, Reports, Handheld, and Help. The form fields are as follows:

- Resident: Number 1, Resident (dropdown)
- Resident Year: 1 (text)
- Attending: Attending, number 2 (dropdown)
- Residents Role: Performed (dropdown)
- Proc Date: 1/15/2003 (text)
- Case ID: 12345 (text)
- CPT Code: (empty text field) with Select and Search buttons
- Comments: (empty text area)
- Buttons: Save, Help, Clear, Cancel

Below the form, the Selected Procedures section shows:

- Selected Procedures 1 (text)
- 15782 Dermabrasion; regional, other than face (highlighted in a list)
- Remove CPT button
- Full CPT Desc: Dermabrasion; regional, other than face (text field)
- Area: Dermatology - Procedures (dropdown)
- Type: Dermabrasion (dropdown)

Selected Procedure Field

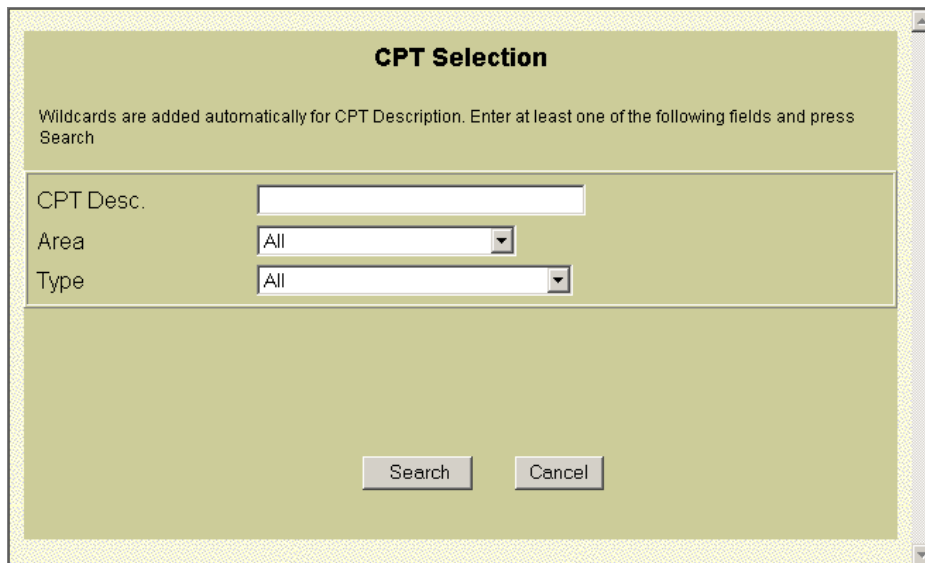

The Selected Procedures field allows you to browse CPTs added to this entry. Use the mouse to point and click on a CPT code, and the selection is highlighted and expanded in the text fields below. To remove the highlighted procedure, click on the Remove CPT button. To remove all of them click on the Clear button.

This close-up screenshot focuses on the Selected Procedures field. It shows the same buttons (Save, Help, Clear, Cancel) at the top. The Selected Procedures section contains:

- Selected Procedures 1 (text)
- 15782 Dermabrasion; regional, other than face (highlighted in a list)
- Remove CPT button
- Full CPT Desc: Dermabrasion; regional, other than face (text field)
- Area: Dermatology - Procedures (dropdown)
- Type: Dermabrasion (dropdown)

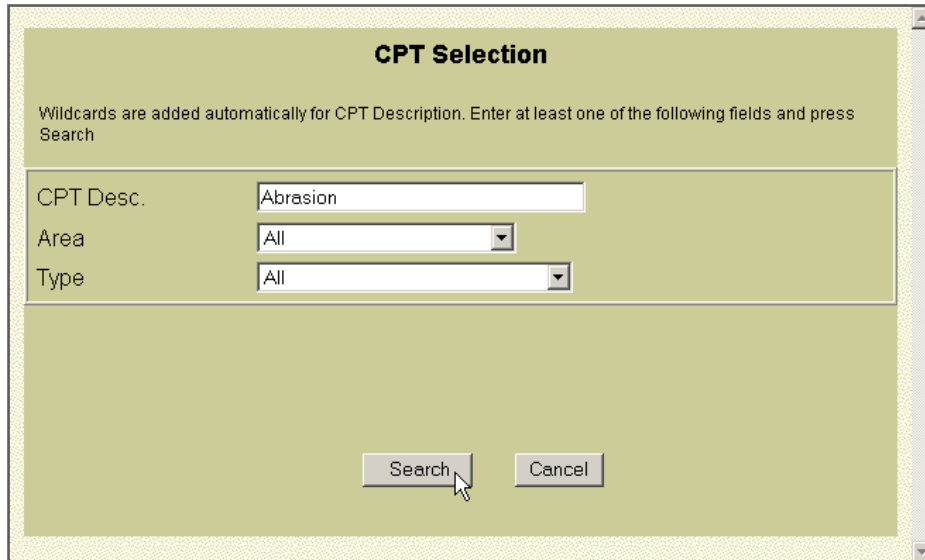

Searching for a CPT Code

To search for a CPT, click on the Search button next to the CPT code field. The CPT Selection window will display:

The screenshot shows a window titled "CPT Selection" with a light green background. Below the title, there is a text instruction: "Wildcards are added automatically for CPT Description. Enter at least one of the following fields and press Search". The form contains three input fields: "CPT Desc." (a text box), "Area" (a dropdown menu with "All" selected), and "Type" (a dropdown menu with "All" selected). At the bottom of the form are two buttons: "Search" and "Cancel".

CPT Selection allows the user to look for CPTs in multiple ways. A user can search for a specific phrase or word in the description, or select an area or type to view all CPT descriptions available. You may also select an anatomic area and/or procedure from the drop-down boxes. Below is an example of entering a word or phrase that exists in the description.

This screenshot is identical to the previous one, but the "CPT Desc." text box now contains the word "Abrasion". A mouse cursor is pointing at the "Search" button, indicating it is about to be clicked.

When abrasion is entered and the Search button is clicked, the results are displayed for all of the CPT descriptions containing the word abrasion (see next page):

Searching for a CPT Code (cont.)

CPT Selection

*-indicates CPT is found in multiple area/types

CPT	
15787 Abrasion; each additional four lesions or less (List separately in addition to code for primary procedure)	select
15786 Abrasion; single lesion (eg, keratosis, scar)	select
29862 Arthroscopy, hip, surgical; with debridement/shaving of articular cartilage (chondroplasty), abrasion arthroplasty, and/or resection of labrum	select
29879 Arthroscopy, knee, surgical; abrasion arthroplasty (includes chondroplasty where necessary) or multiple drilling or microfracture	select
15782 Dermabrasion; regional, other than face	select
15781 Dermabrasion; segmental, face	select
15783 Dermabrasion; superficial, any site, (eg, tattoo removal)	select
15780 Dermabrasion; total face (eg, for acne scarring, fine wrinkling, rhytids, general keratosis)	select
65435 Removal of corneal epithelium; with or without chemocauterization (abrasion, curettage)	select
97602 Removal of devitalized tissue from wound(s); non-selective debridement, without anesthesia (eg, wet-to-moist dressings, enzymatic, abrasion), including topical application(s), wound assessment, and instruction(s) for ongoing care, per session	select
15810 Salabrasion; 20 sq cm or less	select

Click on the select link and the CPT code is returned to the procedure entry screen and entered in the Selected Procedures box.

ADDING A NEW PROCEDURE (CONT.)

To save the entry, click on the Save button. Only one CPT code may be saved for credit.

The screenshot shows the ACGME Procedure Entry form. At the top left is the ACGME logo. The navigation menu includes Login, Procedure, Reports, Handheld, and Help. The form is titled "Procedure Entry" and contains the following fields and controls:

- Resident: Number 1, Resident (dropdown)
- Resident Year: 1 (text input)
- Attending: Attending, number 2 (dropdown)
- Residents Role: Performed (dropdown)
- Proc Date: 1/15/2003 (text input)
- Case ID: 12345 (text input)
- CPT Code: (text input) with Select and Search buttons
- Comments: (text area)
- Buttons: Save, Help, Clear, Cancel
- Selected Procedures: 1 (dropdown) with a list containing "15782 Dermabrasion; regional, other than face" and a Remove CPT button
- Full CPT Desc: Dermabrasion; regional, other than face (text input)
- Area: Dermatology - Procedures (dropdown)
- Type: Dermabrasion (dropdown)

To assist with data entry, the attending, year in program, and procedure date have remained pre-filled from the previous entry. Change these fields as needed. When finished entering all of your procedure data, to exit to the Procedure menu, click on the Cancel button.

SEARCH/UPDATE A PROCEDURE

To edit, delete, or view a procedure's details, click on the **Search/Update** link on the Procedure Menu screen. The Search Procedure window will display. Enter any of the search criteria and press the Ok button. A list of all the procedures matching the search criteria is displayed.

Filters (you may set the following filters)

- Attending:** A drop-down box will list all of the attendings entered by the program.
- Resident:** Defaults to you, the resident that is logged on.
- Date Range:** If you enter the beginning date only, the system will filter procedure data since and including that date. Likewise, if you enter the ending date only, the system will filter procedure data up to and including that date. Of course, entering both the beginning and ending dates yields all procedure data entered between the two dates, inclusively.
- Residents Role:** Select All, Performed or Observed from the drop-down box.
- Resident Year:** Select which year's data from the drop-down menu.
- CPT Code:** Type the CPT Code to search for.
- Area Description:** Select the Area Description from the drop-down menu.
- Type Description:** Select the Type Description from the drop-down menu.
- Records per Page:** How many procedures do you want to appear on one display page?
If you want all of the procedures to appear on one page, enter 9999.

Editing, Deleting, or Viewing a Procedure

Locate the procedure that you want to edit, delete, or view the details of, and click on the appropriate link. Either the Procedure Edit, Procedure View, or Procedure Delete screen will display.

Resident Name	Resident Year	Procedure Date	Role	Case ID:
Number 1, Resident	1	01-01-2001	P (Performed)	7437546
edit / view / delete Attending: Attending, number 2 Institute: » 15786 Abrasion; single lesion (eg, keratosis, scar) » 11101 Biopsy of skin, subcutaneous tissue and/or mucous membrane (including simple closure), unless otherwise listed (separate procedure); each separate/additional lesion (List separately in addition to code for primary procedure)				
Number 1, Resident	1	01-01-2002	P (Performed)	9489857
edit / view / delete Attending: Attending, number 2 Institute: » 15786 Abrasion; single lesion (eg, keratosis, scar)				
Number 1, Resident	1	01-01-2002	P (Performed)	964745
edit / view / delete Attending: Attending, number 2 Institute: » 15789 Chemical peel, facial; dermal				
Number 1, Resident	1	01-01-2002	P (Performed)	
edit / view / delete Attending: Attending, number 2 Institute: » 11100 Biopsy of skin, subcutaneous tissue and/or mucous membrane (including simple closure), unless otherwise listed (separate procedure); single lesion » 15789 Chemical peel, facial; dermal				
Number 1, Resident	1	08-01-2002	P (Performed)	

Procedure Edit/Update Screen

To **edit**, make the necessary changes on the screen. To add a new CPT code, type the new desired code in the CPT code box and press the Select button. See page 9 for **Selecting a CPT Code** to search for an unknown CPT code to add to the procedure list. Select only one code for credit. To choose a different CPT code for credit, click on the CPT code with the asterisk next to it and unclick the credit box. When you click on the Update button, all changes will be saved and you will be returned to the result list.

The screenshot shows the 'Procedure Entry' form. At the top, there is a navigation bar with 'ACGME' logo and tabs for 'Login', 'Procedure', 'Reports', 'Handheld', and 'Help'. The form fields include: Resident (Number 1, Resident), Resident Year (1), Attending (< Please select a value >), Residents Role (Performed), Proc Date (1/15/2003), Case ID (empty), CPT Code (empty), and a Comments text area. Below the form are buttons for 'Save', 'Help', 'Clear', and 'Cancel'. A 'Selected Procedures' section shows a message: 'No CPT Descriptions have been currently selected for display.' with a 'Remove CPT' button. At the bottom, there are fields for 'Full CPT Desc', 'Area', and 'Type'.

Procedure View Screen

When you **view** the details regarding a procedure, you will not be able to make changes. To return to the result list, click on the Cancel button.

The screenshot shows the 'Procedure View' form. It displays the same fields as the edit screen but with populated data: Resident (Number 1, Resident), Resident Year (1), Attending (Attending, number 2), Residents Role (Performed), Proc Date (01-01-2001), Case ID (7437546), and CPT Code (empty). The 'Selected Procedures' section now shows two entries: '11101 Biopsy of skin, subcutaneous tissue and/or mucous mem' and '15786 Abrasion; single lesion (eg, keratosis, scar)'. Below this is a 'Remove CPT' button. The 'Full CPT Desc' field is populated with 'Biopsy of skin, subcutaneous tissue and/or mucous membrane (including simple closure), unless otherwise'. The 'Area' is 'Dermatology - Procedures' and the 'Type' is 'Excision - benign lesion'. Buttons for 'Help' and 'Cancel' are visible.

Procedure Delete Screen

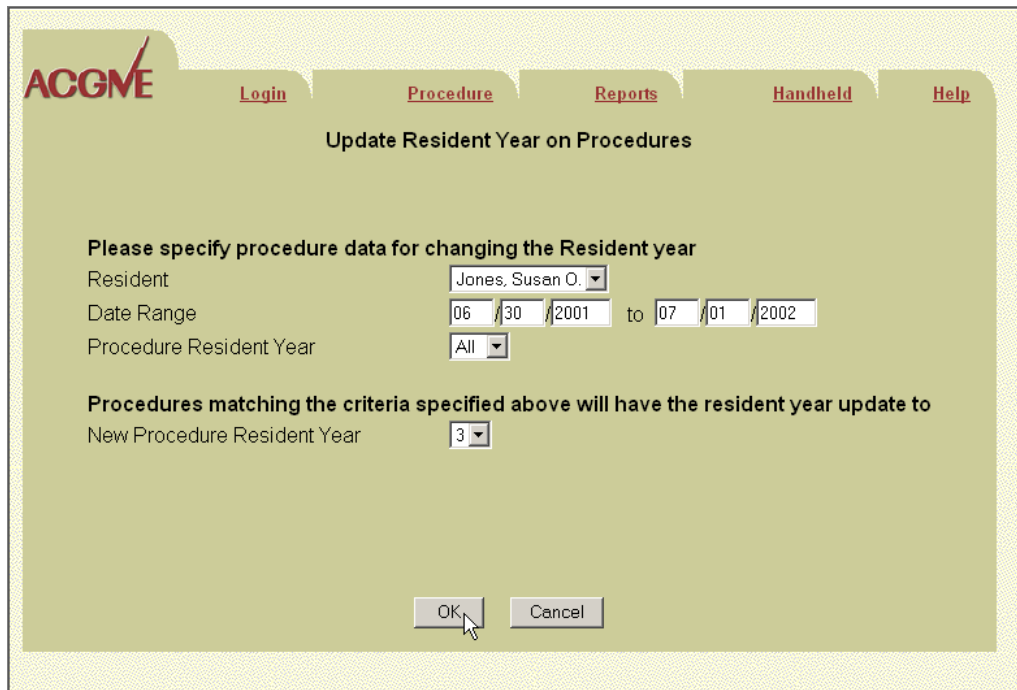

To **delete** a procedure, click on the Delete button. Click on the Cancel button to return to the result list.

The screenshot shows a web-based interface for deleting a procedure. The form is titled "Procedure Delete" and contains the following fields and controls:

- Resident:** A dropdown menu with "Number 1, Resident" selected.
- Resident Year:** A text input field containing "1".
- Attending:** A dropdown menu with "Attending, number 2" selected.
- Residents Role:** A dropdown menu with "Performed" selected.
- Proc Date:** A text input field containing "01-01-2001".
- Case ID:** A text input field containing "7437546".
- CPT Code:** A text input field with "Select" and "Search" buttons next to it.
- Comments:** A large text area for entering notes.
- Buttons:** "Delete", "Help", and "Cancel" buttons are located below the comments field.
- Selected Procedures:** A list box titled "Selected Procedures 2" containing two entries:
 - 11101 Biopsy of skin, subcutaneous tissue and/or mucous mem
 - 15786 Abrasion; single lesion (eg, keratosis, scar)
- Remove CPT:** A button located below the selected procedures list.
- Full CPT Desc:** A dropdown menu showing "Biopsy of skin, subcutaneous tissue and/or mucous membrane (including simple closure), unless otherwise".
- Area:** A dropdown menu with "Dermatology - Procedures" selected.
- Type:** A dropdown menu with "Excision - benign lesion" selected.

UPDATE PROCEDURE YEAR

The update procedure year enables a program to quickly change the resident year in program for a large number of procedures. The resident year may be incorrect from converting the data from the old system or if the data originated in another system and was uploaded into the internet system. This feature also allows you to change a resident's year in program for past entries if the resident year was not updated in the program setup section.

The screenshot shows a web application interface with a navigation bar at the top containing 'ACGME', 'Login', 'Procedure', 'Reports', 'Handheld', and 'Help'. The main heading is 'Update Resident Year on Procedures'. Below this, a section titled 'Please specify procedure data for changing the Resident year' contains the following fields: 'Resident' (a dropdown menu showing 'Jones, Susan O.'), 'Date Range' (two date pickers showing '06/30/2001' and '07/01/2002'), and 'Procedure Resident Year' (a dropdown menu showing 'All'). A second section, 'Procedures matching the criteria specified above will have the resident year update to', contains a 'New Procedure Resident Year' dropdown menu showing the value '3'. At the bottom of the form are 'OK' and 'Cancel' buttons.

To update the resident year, first select the resident whose data needs to be updated. Then, specify the appropriate date range. In this example, the entire academic year (06/30/2001 through 07/01/2002) was selected. Next, choose which year is currently entered for the incorrect procedures and needs to be changed (selecting all will cause every procedure for that resident to be updated to the new value). Finally, choose the correct year to update the procedures with. After you click OK, you will receive a message indicating how many procedures were updated.

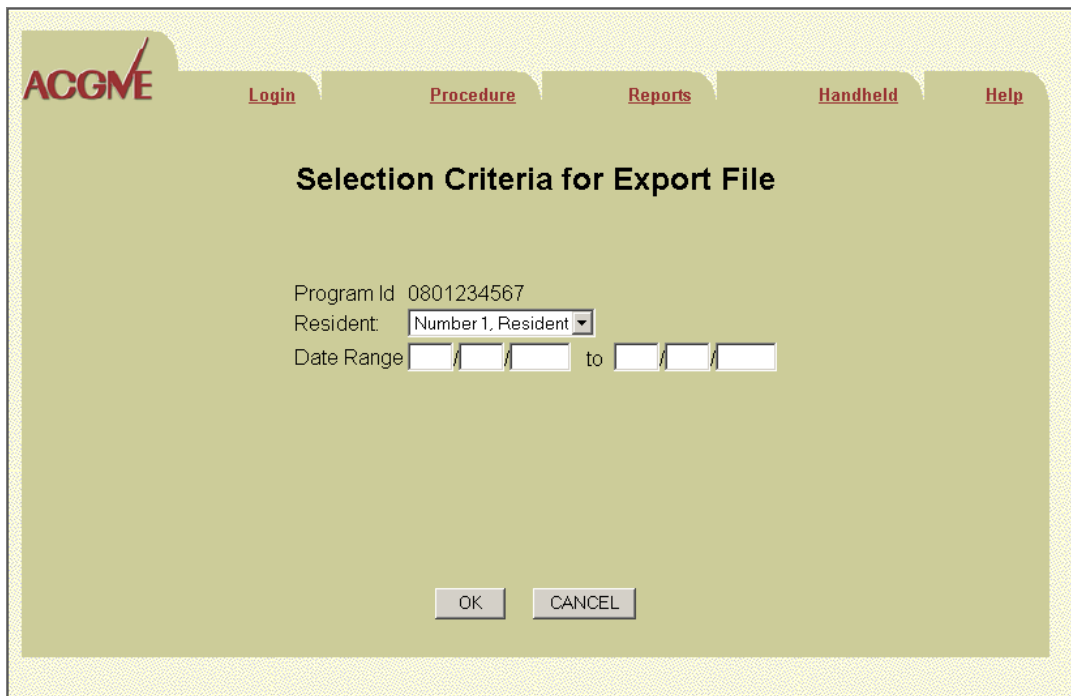

DOWNLOADING PROCEDURES

The Download Procedure section is used to generate an electronic text file of procedures entered for your program. This is a 2-step process; first the file needs to be selected for exporting and then the file will need to be downloaded.

To generate the file for exporting, click on the Request new export file button. You can export the data for an individual resident, as well as a particular date range. If you leave the fields blank, a listing of all procedures will be generated. If logged in as a resident, only procedures for that resident can be exported.

DOWNLOADING PROCEDURES (CONT.)

The screenshot shows the ACGME web interface with a navigation bar containing 'Login', 'Procedure', 'Reports', and 'Help'. The main heading is 'Procedure Export List'. There are two tables: 'Files ready for download' and 'Files waiting for processing'. The first table has columns for Build Date, Expires, Selection Criteria, Size, and Filename. The second table has columns for Request Date, Selection Criteria, and Status. At the bottom, there are two buttons: 'Request new export file' and 'Cancel'.

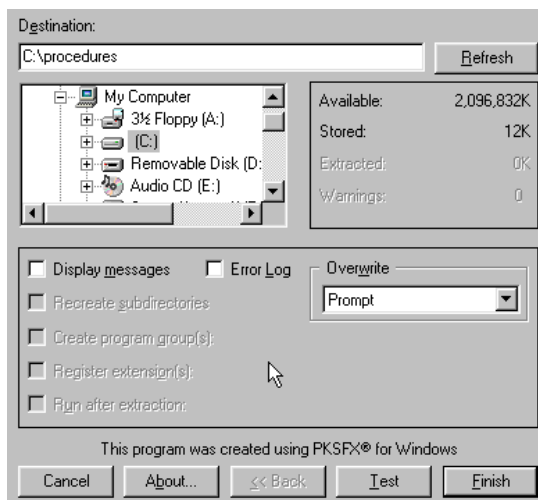

Build Date	Expires	Selection Criteria	Size	Filename
5/4/01 8:07:00 PM	8/4/01	All Procedures for Resident, Number1	89 K	4409912345276144974.exe

Request Date	Selection Criteria	Status
5/11/01 9:32:00 AM	All Procedures for Resident, Number1	Cancel Request

In the example above, a file for all residents' procedures performed will be generated. To cancel a request, click on Cancel Request before the file is generated. The export requests are processed four times daily at 2:00 a.m., 8:00 a.m., 12:30 p.m., and 5:00 p.m. Central time. Once the file has been generated you will need to download it to your computer.

To download the file to your computer, click on the file name link. A message box will open allowing you to select open this file under current location or save this file to disk. Select Save this File to disk, and specify where you want to save the file on your computer.

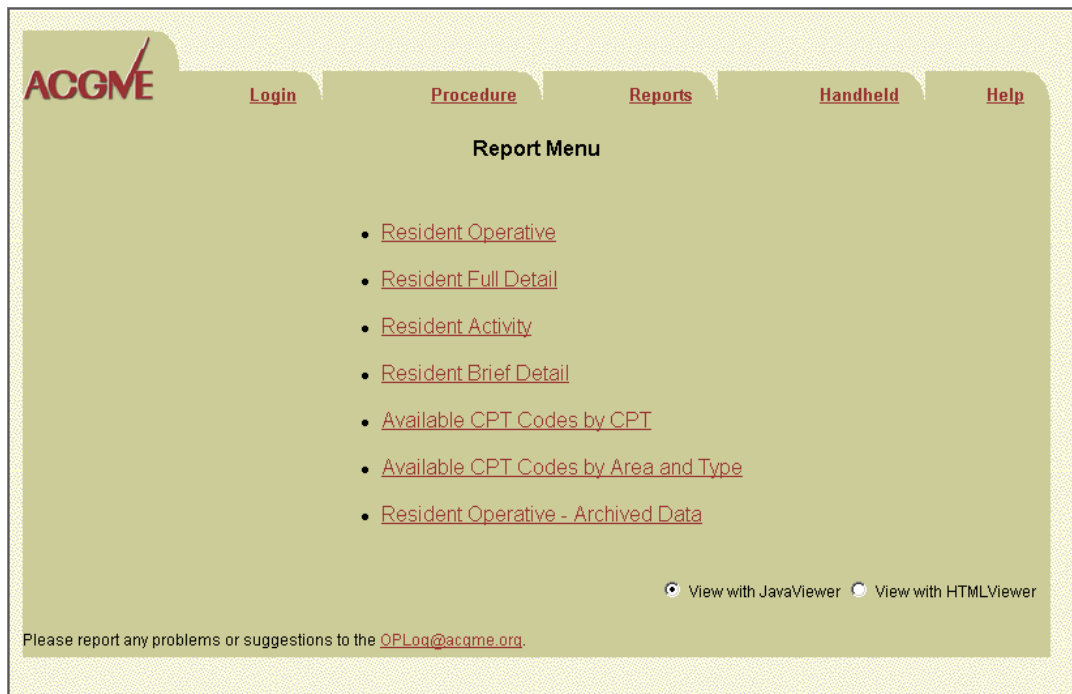

The downloaded file is a self-extracting zip file named 'procedures'. Simply double-click on it and a window will pop up. Specify in which directory you want to put the data, and click finish. This will extract the file (the first ten characters of the name will be the program id). The resulting text file is tab-delimited with field names on the first row. It can be imported into Excel, Access, FoxPro, etc.

REPORTS

System reports are written in Crystal Report Writer and viewed with a smart viewer that allows you to search and navigate through groupings while viewing the report. Occasionally, printing reports can be problematic. For example, at times the Netscape browser increases the font size by approximately 50%. The reports do print consistently better on the latest printers which use the Print Control Language 6 (PCL6) drivers.

Currently there are three resident experience reports. The Resident Operative report is designed for submission to the Residency Review Committee. The Resident Full Detail report is similar to the Procedure Search Results list, which is a detailed listing of procedures entered. The Resident Activity report tracks the last time a procedure was entered. The other reports are listings of all valid CPT codes.

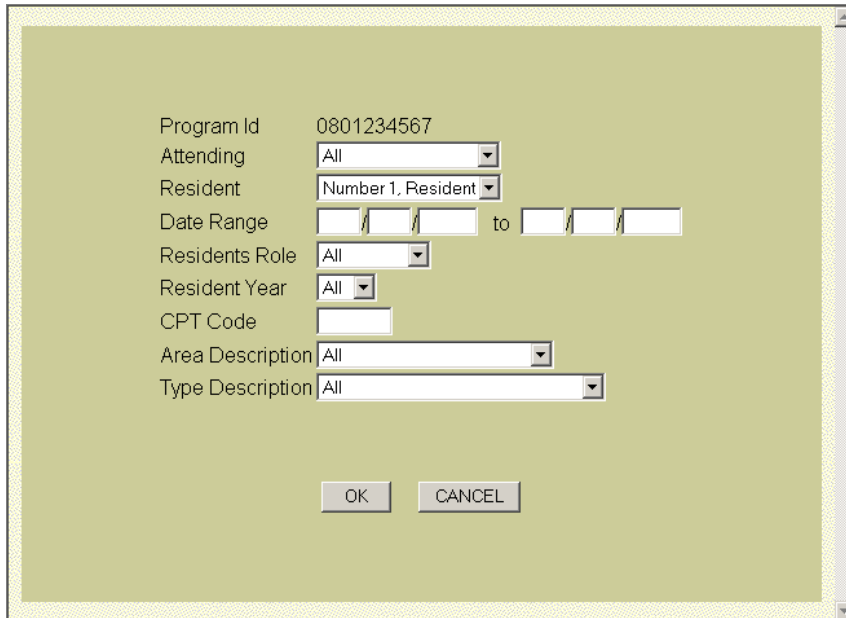

There are two ways to view reports:

1. Java Smart viewer, which uses an 'Active X' control.
2. HTML viewer is a generic report viewer that should work on all browsers.

If you are using a PC, select JavaViewer. Mac users will have to use the HTML Viewer, which will at least allow you to view the reports. Currently, we are still experiencing printing problems with Macs.

REPORTS (cont.)

Select the report you want by clicking on the appropriate link. The selection criteria page displays.

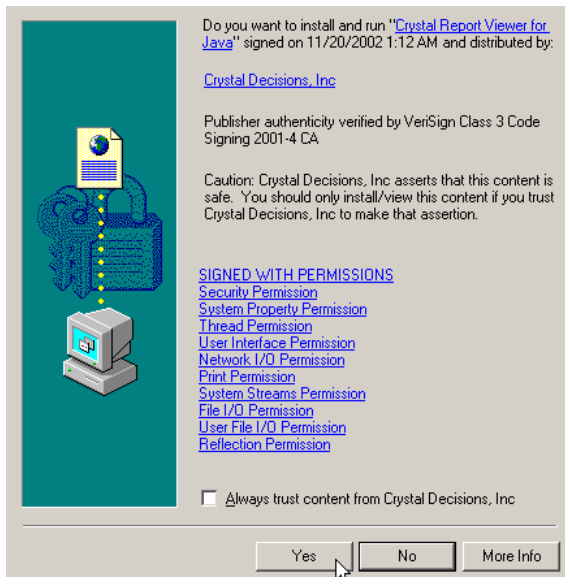

A screenshot of a dialog box for selecting report criteria. The background is a light olive green. The fields are as follows:

- Program Id: 0801234567
- Attending: All (dropdown)
- Resident: Number 1, Resident (dropdown)
- Date Range: [] / [] / [] to [] / [] / []
- Residents Role: All (dropdown)
- Resident Year: All (dropdown)
- CPT Code: []
- Area Description: All (dropdown)
- Type Description: All (dropdown)

At the bottom are two buttons: OK and CANCEL.

Use the selection box to filter data, presented on reports, and click the OK button to generate the report.

A new window will open displaying the report. The first time you run a report, the ACGME sends a Java applet called Crystal Report Viewer for Java from Crystal Decisions, Inc. You will see a security warning asking if you want to install and run the viewer. Click the Yes button see the report (if you press the No button you will see the report but will not be able to print it in its proper format).

The report will display in a new window that will provide you with special functions described below.

AVAILABLE CPT CODES REPORTS

You can view and print all available CPT Codes, sorted either numerically or by area and type, from the Reports Menu screen. Printing them may save you time in the long run, as searching through a printed document often takes less time than searching a computer's database.
