Vascular Surgery - Integrated Case Logs

National Data Report

Prepared by: Department of Applications and Data Analysis

- I. National Resident Statistics Main Table
 - A. The main table provides a national picture of educational experiences. The report is ideal for establishing and assessing national policy related to resident practical experiences. Data are broken out by role (surgeon, assistant, etc), indicating the resident procedures with primary credit. Procedures with secondary credit are also shown.
 - B. Descriptive statistics have been carefully chosen to provide the most useful information for judging performance at the national level.
 - i. "Natl Res AVE" The national average describes the mean number of procedures performed per resident in the nation.

- ii. "Natl Res MIN" The minimum number of procedures performed nationally.
- ii. "Natl Res MAX" The greatest number of procedures performed nationally.
- C. The Defined Categories Table follows the main table.
