# Browser Notifications

Please use this reference guide to make notification changes concerning www.acgme.org from the top three web browsers (Chrome, Firefox, and Edge).

Chrome

1. On your computer, open Chrome.
2. At the top right, click More and then Settings.
3. Under "Privacy and security," click Site settings.
4. Click Notifications.
5. Choose to block or allow notifications:
   - Allow or Block all: Turn on or off Sites can ask to send notifications.
   - Block a site: Next to "Block," click Add. Enter the site and click Add.
   - Allow a site: Next to "Allow," click Add. Enter the site and click Add.
   - Allow quieter notification prompts: Allow sites to ask to send notifications, then click Use quieter messaging (blocks notification prompts from interrupting you). You won't get notifications after you ignore multiple notifications from a site, or if other users typically don't allow notifications from a site.
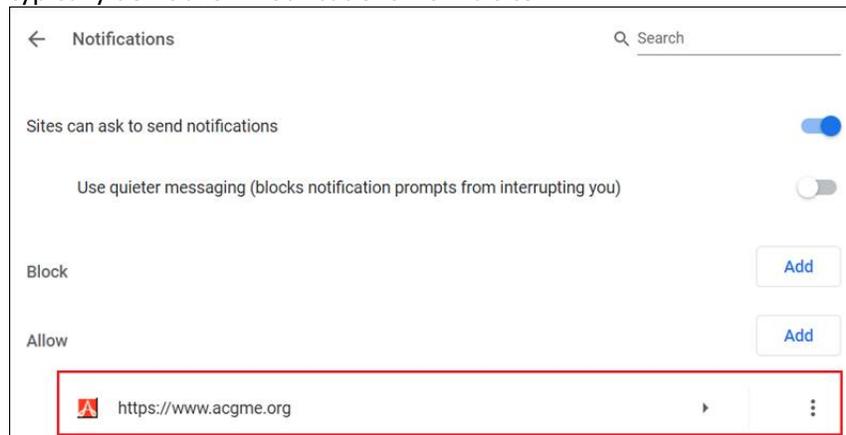

Firefox

1. On your computer, open Firefox.
2. Click the menu button ▤ Menu and select Options (upper right-hand side).
3. Click Privacy & Security from the left pane.
4. Scroll to the Permissions section.
5. Click the Settings… button next to Notifications.
6. Select the website.
7. Click the Remove Website button.
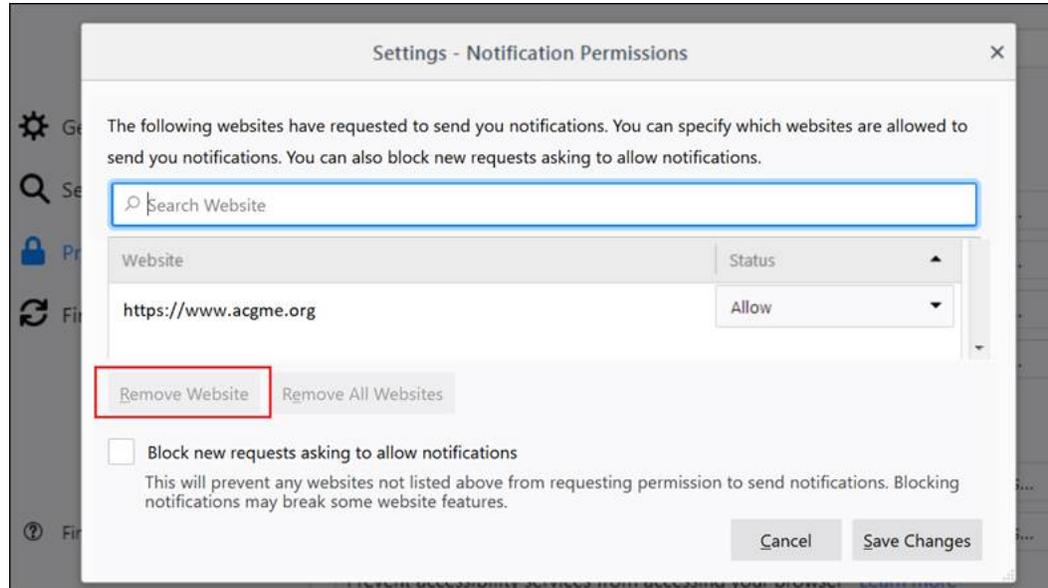

Edge

1. On your computer, open Edge.
2. Click on the [···] menu for options (upper-right hand side).
3. Select Settings from the list.
4. Select Cookies and site permissions from the left sidebar pane.
5. Within the Site Permissions page, select the Notification menu.
6. Select the website.
7. Click the icon to remove the site
