Radiology-Diagnostic: Accredited Programs

Graduate Medical Education Directory 2006-2007
633
## Radiology-Diagnostic: Accredited Programs

### Long Branch
**Monmouth Medical Center Program**
- **Sponsor:** Monmouth Medical Center
- **Prgm Director:** Richard B. Rachman, MD
- **Department of Radiology**
- **Long Branch, NJ 07740**
- **Tel:** 732-923-6800  **Fax:** 732-923-6216
- **E-mail:** r8rchman@sbhcs.com
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 8

**Program ID:** 420-93-31-115

### Morristown
**Atlantic Health System (Morristown) Program**
- **Sponsor:** Atlantic Health System
- **Morristown Memorial Hospital Overlook Hospital**
- **Prgm Director:** Jeanne B. Schwartz, MD
- **100 Madison Avenue**
- **PO Box 1896**
- **Morristown, NJ 07960**
- **Tel:** 973-971-2372  **Fax:** 973-970-7294
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 20

**Program ID:** 420-33-11-116

### New Brunswick
**UMDNJ-Robert Wood Johnson Medical School Program**
- **Sponsor:** UMDNJ-Robert Wood Johnson Medical School
- **Robert Wood Johnson University Hospital**
- **St Peter's University Hospital**
- **Prgm Director:** Judith K. Amorosa, MD
- **Department of Radiology**
- **One Robert Wood Johnson Place**
- **New Brunswick, NJ 08903**
- **Tel:** 732-235-7721  **Fax:** 732-235-6869
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 20

**Program ID:** 420-33-21-226

### Newark
**Newark Beth Israel Medical Center Program**
- **Sponsor:** Newark Beth Israel Medical Center
- **Prgm Director:** Vivian Rivera, MD
- **301 Lyons Avenue at Osborne Terrace**
- **Newark, NJ 07112**
- **Tel:** 973-926-7099  **Fax:** 973-926-7688
- **E-mail:** hdbagion@shhcs.com
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 5

**Program ID:** 420-33-11-116

**UMDNJ-New Jersey Medical School Program**
- **Sponsor:** UMDNJ-New Jersey Medical School
- **UMDNJ University Hospital**
- **Veterans Affairs New Jersey Health Care System**
- **Prgm Director:** Stephen R. Baker, MD
- **Department of Radiology, Room C-230**
- **150 Bergen Street**
- **Newark, NJ 07103**
- **Tel:** 973-973-5988  **Fax:** 973-972-7429
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 18

**Program ID:** 420-33-21-226

### New Mexico
**Albuquerque**
- **University of New Mexico Program**
- **Sponsor:** University of New Mexico School of Medicine
- **University of New Mexico Hospital**
- **Veterans Affairs Medical Center (Albuquerque)**
- **Prgm Director:** Philip W. Winst, MD
- **Department of Radiology**
- **MSC10 0330, 1 University of New Mexico**
- **Albuquerque, NM 87131**
- **Tel:** 505-272-0902  **Fax:** 505-272-5821
- **E-mail:** rdwinst@salud.unm.edu
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 21
- **Subspecialties:** EBR

**Program ID:** 420-36-21-120

### New York
**Albany**
- **Albany Medical Center Program**
- **Sponsor:** Albany Medical Center
- **Veterans Affairs Medical Center (Albany)**
- **Prgm Director:** Paul K. Silk, MD
- **Department of Radiology MC113**
- **45 New Scotland Avenue**
- **Albany, NY 12208**
- **Tel:** 518-262-3271  **Fax:** 518-262-9203
- **Length:** 4 Yrs
- **ACGME Approved/Offered Positions:** 20
- **Subspecialties:** EBR

**Program ID:** 420-35-11-121

**Bronx**
- **Albert Einstein College of Medicine (Jacobi) Program**
- **Sponsor:** Albert Einstein College of Medicine of Yeshiva University
- **North Bronx Healthcare Network-Jacobi Medical Center**
- **Prgm Director:** Melvina Zelefsky, MD
- **1300 Morris Park Avenue**

### Infectious Disease (Internal Medicine)
Michigan State University Program  
East Lansing, MI  
Program ID: 146-25-31-203

Newark Beth Israel Medical Center Program  
Newark, NJ  
Program ID: 146-83-21-204

### Internal Medicine
Drexel University College of Medicine/St Peter’s University Hospital Program  
New Brunswick, NJ  
Program ID: 140-33-21-531

Christ Hospital Program  
Cincinnati, OH  
Program ID: 140-35-11-331

Mercy Health Partners/St Vincent Mercy Medical Center Program  
Toledo, OH  
Program ID: 140-88-12-533

### Interventional Cardiology (Internal Medicine)
UC Davis Health System  
Sacramento, CA  
Program ID: 152-05-31-140

University of Kansas Medical Center Program  
Kansas City, KS  
Program ID: 152-19-31-148

University of Mississippi Medical Center Program  
Jackson, MS  
Program ID: 152-27-13-145

### Neurology
Albert Einstein College of Medicine at Beth Israel Medical Center Program  
New York, NY  
Program ID: 180-35-13-156

### Neuromuscular Medicine (Neurology)
University of Colorado Program  
Denver, CO  
Program ID: 183-16-31-044

### Neuropathology (Pathology)
Oregon Health & Science University Program  
Portland, OR  
Program ID: 315-40-83-094

Methodist Hospital (Houston) Program  
Houston, TX  
Program ID: 315-48-22-095

### Neuroradiology (Radiology-Diagnostic)
Medical University of South Carolina Program  
Charleston, SC  
Program ID: 423-46-12-187

### Neurosurgery
Cedars-Sinai Medical Center Program  
Los Angeles, CA  
Program ID: 188-05-13-124

Methodist Hospital (Houston) Program  
Houston, TX  
Program ID: 188-48-12-123

### New Programs
University of Texas Health Science Center at San Antonio Program  
San Antonio, TX  
Program ID: 180-48-21-085

### New/Withdrawn Programs
Graduate Medical Education Directory 2006-2007  
723
New Programs

Nuclear Radiology
(Radiology-Diagnostic)
Louisiana State University Program
New Orleans, LA
Program ID: 425-31-13-07

Case Western Reserve
University/University Hospitals of
Cleveland Program
Cleveland, OH
Program ID: 425-38-12-068

Obstetrics and Gynecology
TriHealth (Bethesda and Good Samaritan Hospitals) Program
Cincinnati, OH
Program ID: 220-38-11-228

University of Texas Medical Branch (Austin) Program
Austin, TX
Program ID: 220-48-12-360

Ophthalmology
Sinai Hospital of Baltimore Program
Baltimore, MD
Program ID: 249-23-12-179

Orthopaedic Sports Medicine (Orthopaedic Surgery)
Kaiser Permanente Southern California (Los Angeles) Program
El Cajon, CA
Program ID: 268-05-31-003

Steadman Hawkins (Denver) Clinic Program
Denver, CO
Program ID: 268-07-12-004

Tufts-New England Medical Center Program
Boston, MA
Program ID: 268-24-31-059

William Beaumont Hospital Program
Royal Oak, MI
Program ID: 268-05-13-006

Orthopaedic Trauma (Orthopaedic Surgery)
University of Missouri at Kansas City Program
Kansas City, MO
Program ID: 269-28-31-011

Pain Medicine (Neurology)
Louisiana State University Program
New Orleans, LA
Program ID: 181-21-12-005

Memorial Sloan-Kettering Cancer Center Program
New York, NY
Program ID: 181-35-31-004

Pain Medicine (Physical Medicine and Rehabilitation)
University of Colorado Program
Aurora, CO
Program ID: 341-07-13-011

Louisiana State University Program
New Orleans, LA
Program ID: 341-21-31-013

Temple University Hospital Program
Newark, DE
Program ID: 341-41-12-010

Pathology-Anatomic and Clinical
Methodist Hospital (Houston) Program
Houston, TX
Program ID: 300-48-23-420

Pediatric Anesthesiology
(Dentistry)
Duke University Hospital Program
Durham, NC
Program ID: 042-36-31-058

Pediatric Cardiology (Pediatrics)
University of Tennessee Program
Memphis, TN
Program ID: 325-47-21-078

Pediatric Critical Care Medicine (Pediatrics)
UMDNJ-Robert Wood Johnson Medical School Program
New Brunswick, NJ
Program ID: 323-33-12-060

Pediatric Emergency Medicine (Emergency Medicine)
Medical College of Georgia Program
Augusta, GA
Program ID: 114-12-12-014

Pediatric Emergency Medicine (Pediatrics)
University of Arkansas for Medical Sciences Program
Little Rock, AR
Program ID: 324-04-13-052

Pediatric Endocrinology (Pediatrics)
University of Florida Health Science Center/Jacksonville at Wolfson Children's Hospital Program
Jacksonville, FL
Program ID: 326-11-31-085

University of South Florida Program
St. Petersburg, FL
Program ID: 326-11-31-083

Baystate Medical Center/Tufts University School of Medicine Program
Springfield, MA
Program ID: 326-24-12-084

Pediatric Hematology/Oncology (Pediatrics)
Virginia Commonwealth University
Health System Program
Richmond, VA
Program ID: 327-51-21-080

Pediatric Pulmonology (Pediatrics)
Vanderbilt University Program
Nashville, TN
Program ID: 330-47-31-059

Pediatric Radiology
(Radiology-Diagnostic)
Alfred I duPont Hospital for Children Program
Wilmington, DE
Program ID: 424-09-31-057

Massachusetts General Hospital/Harvard Medical School Program
Boston, MA
Program ID: 424-24-12-058

University of Missouri-Columbia Program
Columbia, MO
Program ID: 424-28-31-059

University of Nebraska Medical Center College of Medicine Program
Omaha, NE
Program ID: 424-30-13-061

Oregon Health & Science University Program
Portland, OR
Program ID: 424-40-21-060

Pediatric Rehabilitation Medicine (Physical Medicine and Rehabilitation)
McGaw Medical Center of Northwestern University Program
Chicago, IL
Program ID: 346-16-21-003

University of Kansas Medical Center Program
Kansas City, MO
Program ID: 346-28-13-004

Pediatric Rheumatology (Pediatrics)
Case Western Reserve University/University Hospitals of Cleveland Program
Cleveland, OH
Program ID: 381-38-12-031

Pediatric Sports Medicine (Pediatrics)
Cincinnati Children's Hospital Medical Center/University of Cincinnati College of Medicine Program
Cincinnati, OH
Program ID: 333-38-12-019

Withdrown Programs

The accreditation of the following programs was withdrawn or voluntarily withdrawn with an effective date between January 1 and December 31, 2005.

**Addiction Psychiatry (Psychiatry)**
University of Oklahoma Health Sciences Center Program
Oklahoma City, OK
Program ID: 401-39-31-040

**University of Texas Health Science Center at San Antonio Program**
San Antonio, TX
Program ID: 401-48-21-008

**Allergy and Immunology**
SUNY at Stony Brook Program
Stony Brook, NY
Program ID: 605-36-21-089

**Anesthesiology**
University of Tennessee Program
Memphis, TN
Program ID: 046-17-21-145

**Texas Tech University (El Paso) Program**
El Paso, TX
Program ID: 048-66-21-187

**Blood Banking/Transfusion Medicine (Pathology)**
Hartford Hospital Program
Hartford, CT
Program ID: 305-66-21-070

**Louisiana State University Program**
New Orleans, LA
Program ID: 305-21-21-063

**Child and Adolescent Psychiatry (Psychiatry)**
University of Tennessee Program
Memphis, TN
Program ID: 045-47-21-120

**Child Neurology (Neurology)**
Jackson Memorial Hospital/Jackson Health System Program
Miami, FL
Program ID: 185-11-21-005

**Loyola University Program**
Maywood, IL
Program ID: 185-16-21-045

**Mount Sinai School of Medicine Program**
New York, NY
Program ID: 185-35-21-046

**West Virginia University Program**
Morgantown, WV
Program ID: 185-55-11-068

**Clinical Neurophysiology (Neurology)**
Medical University of South Carolina Program
Charleston, SC
Program ID: 187-45-21-020

**Critical Care Medicine (Anesthesiology)**
University of California (Irvine) Program
Long Beach, CA
Program ID: 045-05-21-011

**Wayne State University/Detroit Medical Center (Sinai Hospital) Program**
Detroit, MI
Program ID: 045-25-31-019

Section V

Graduate Medical Education Teaching Institutions

Section V lists hospitals and organizations that sponsor graduate medical education (GME) programs or participate in GME. Sponsoring institutions assume final responsibility for a GME program. Most GME programs are sponsored by specific clinical departments within a hospital, another health care institution such as a medical school, or an educational consortium. Major participating institutions include hospitals or other sites recognized by at least one residency review committee as providing a major portion of required GME. Hospitals and other institutions that provide rotations of less than one-sixth of the program length or less than a total of 6 months are not listed in the Directory.

All institutions that sponsor GME programs or participate in GME are listed in alphabetical order by state and city. Each listing includes the institution name, address, and identification code. Also provided are codes of medical schools affiliated with each institution (where applicable) and abbreviations for the specialty and subspecialty programs affiliated with each institution. (A key for specialty and subspecialty abbreviation codes is provided on the inside back cover of this Directory).

Candidates seeking a residency should refer to the list of programs in Section III. Applications for a residency position should be addressed to the program director rather than to an institution.

Relationships Between Hospitals and Medical Schools (Medical School Affiliation)

Hospitals that sponsor an accredited program are not required to have a formal relationship with a medical school. Where such a relationship exists, the affiliation is identified by the dean of the medical school as M (major), G (graduate only), or L (limited). The medical school associated with the code number in this listing is identified in Appendix D.

Major affiliation (M) signifies that an institution is an important part of the teaching program of the medical school and is a major unit in the clinical clerkship program. Major teaching institutions provide clerkship experience in two or more of the major specialties: internal medicine, surgery, pediatrics, and obstetrics-gynecology. An institution responsible for most of the teaching in a single specialty, such as psychiatry or pediatrics, may also be considered a major affiliation. In a major teaching institution, medical students serve clinical clerkships regularly on inpatient services, under the direct supervision of medical school faculty. A major teaching institution may or may not be used for medical school residencies.

Graduate affiliation (G) indicates that the institution is affiliated with the medical school only for its graduate programs and that one or more of the following arrangements is in effect:

1. House staff of the GME programs are selected by officials of a medical school department or by a joint committee of the institution teaching staff and medical school faculty.
2. Medical school faculty (other than the institution's attending staff) are regularly scheduled to participate in the teaching programs of the institution. No graduate affiliation is indicated if medical school faculty participation at the institution is limited to an occasional lecture or consultation visit, or if the institution's residents attend medical school teaching conferences only as visitors.
3. A contractual arrangement (with or without financial commitment) specifies the medical school participation in the organization and supervision of the GME program in the institution.
4. There is some degree of exchange of residents between this institution and the principal teaching institution of the medical school.

Limited affiliation (L) signifies that the institution is affiliated with the medical school's teaching program only for brief and/or unique rotations of students or residents.

Combined Specialty Programs

Combined training consists of a coherent educational experience in two or more closely related specialty or subspecialty programs. The educational plan for combined training is approved by the board of each of the specialties to assure that resident physicians completing combined training are eligible for board certification in each of the component specialties. Each specialty or subspecialty program is separately accredited by the Accreditation Council for Graduate Medical Education (ACGME) through its respective Residency Review Committee (RRC). The duration of combined training is longer than any one of its component specialty programs standing alone, and shorter than all of its component specialty programs together.

Applicants to combined specialty programs are encouraged to review requirements for admission to the certification process of each board, listed in Appendix B.

Diagnostic Radiology/Nuclear Medicine/Nuclear Radiology

The American Board of Radiology (ABR) and the American Board of Nuclear Medicine (ABNM) offer dual certification for candidates who have satisfactorily completed a combined total of 6 years of suitable accredited training in programs approved by both boards and successfully passed the certifying examination of both boards.

To be eligible for dual certification, a resident must obtain residency training in diagnostic radiology and nuclear medicine that must include a) a preparatory clinical year in an ACGME-accredited program and b) 4 years of education in an ACGME-accredited diagnostic radiology program that includes 6 months of nuclear medicine training, followed by c) 1 year of education in a combined nuclear medicine and nuclear radiology program. Certifying examinations of each board cannot be taken until all required years of training in both specialties are satisfactorily completed.

Internal Medicine/Dermatology

The American Board of Internal Medicine and the American Board of Dermatology offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Internal Medicine/Emergency Medicine

The American Board of Internal Medicine and the American Board of Emergency Medicine offer dual certification for candidates who have completed at least 2½ years of suitable accredited training in each specialty. A combined residency consists of 5 years of balanced education in the two disciplines. It is strongly recommended that the participating residencies be in the same academic health center.

To be eligible for dual certification, the resident must satisfactorily complete 60 months of combined education, which must be verified by the directors of both programs. The certifying examinations cannot be taken until at least 5 years are completed.

**Internal Medicine/Emergency Medicine/Critical Care Medicine**

The American Board of Internal Medicine and the American Board of Emergency Medicine offer triple certification for candidates who complete a 6-year (72-month) integrated, coherent program of combined training in internal medicine, emergency medicine, and critical care medicine, approved by both boards.

Upon successful completion and verification of the first 5 years of this program, candidates may apply to take the certification examinations in internal medicine and emergency medicine. To meet eligibility for certification in critical care medicine, the candidate must: (1) have satisfactorily completed the 6-year combined program; (2) be certified by the American Board of Internal Medicine; and (3) have met the certification requirements of the American Board of Emergency Medicine.

---

**Internal Medicine/Family Medicine**

The American Board of Internal Medicine and the American Board of Family Medicine offer dual certification for candidates who have satisfactorily completed 4 years of combined training in programs approved by both boards.

To be eligible for dual certification, combined residency training in internal medicine and family medicine must include at least 48 months of balanced education in the two disciplines and be verified by the training director(s) of the program. The written certifying examinations cannot be taken until all required years in both specialties are completed.

Internal Medicine/Medical Genetics
The American Board of Internal Medicine and the American Board of Medical Genetics have approved a pathway leading to admissibility to the certification processes in internal medicine and medical genetics to candidates who have satisfactorily completed 5 years of combined training in internal medicine and medical genetics in an approved training track, beginning with a GYI in internal medicine. Such training, which must be verified by the program directors of both specialties, is intended to provide educational and practical experiences in each discipline that are equivalent to those in the training programs of the parent specialties.

This combined residency training must be conducted in the same institution and its affiliated hospitals. There should be no interruption in training.

Internal Medicine/Neurology
The American Board of Internal Medicine and the American Board of Psychiatry and Neurology offer dual certification for candidates who have completed 5 years of combined training suitable to both boards. A combined residency in internal medicine and neurology must include at least 5 years of coherent education integral to residencies in the two disciplines. It is strongly recommended that the participating residencies be in the same institution.

To meet eligibility for dual certification, the resident must satisfactorily complete 60 months of training, which must be verified by the directors of both programs. The written certifying examinations cannot be taken until all required years in both specialties are satisfactorily completed.

---

**Internal Medicine/Nuclear Medicine**

The American Board of Internal Medicine and the American Board of Nuclear Medicine offer a training pathway for candidates who have completed 4 years of combined accredited training in internal medicine and nuclear medicine leading to admissibility to certification in both specialties. To meet eligibility for dual certification, the resident must satisfactorily complete 48 months of combined training that is verified by the directors of both training programs. It is strongly recommended that combined training occur in the same institution. Residents will be eligible for admission to the written certifying examination in internal medicine after successfully completing the R-3 year of training and for the nuclear medicine examination after the R-4 year.
Internal Medicine/Pediatrics

The American Board of Internal Medicine and the American Board of Pediatrics offer dual certification in internal medicine and pediatrics. A combined residency must include at least 2 years in each specialty, for a total of 4 years of coherent training integral to residencies in the two disciplines. The participating residencies should be in the same academic health center. Continuity clinics in each specialty should be provided throughout the 4 years.

To meet eligibility requirements for dual certification, the resident must satisfactorily complete 48 months of combined education, and clinical competence in both specialties must be verified by the directors of both programs. The certifying examinations cannot be taken until all required years in both specialties are satisfactorily completed.

804 Graduate Medical Education Directory 2006-2007
Internal Medicine/Physical Medicine and Rehabilitation

The American Board of Internal Medicine and the American Board of Physical Medicine and Rehabilitation offer dual certification for candidates who have completed at least 2½ years of suitable accredited training in each specialty. A combined residency must include at least 5 years of coherent training integral to residencies in the two disciplines. It is strongly recommended that the participating residencies be in the same institution.

To meet eligibility requirements for dual certification, the resident must satisfactorily complete 60 months of combined education, which must be verified by the directors of both programs. The written certifying examinations cannot be taken until required training in a specialty has been satisfactorily completed. The certifying examination in internal medicine cannot be taken prior to the fall of the fifth year in the combined program.

Internal Medicine/Preventive Medicine

The American Board of Internal Medicine (ABIM) and the American Board of Preventive Medicine (ABPM) offer dual certification for candidates who have completed a minimum of 4 years of accredited training in combined internal medicine/preventive medicine programs that meet the Guidelines for Combined Internal Medicine - Preventive Medicine Residency Training Programs approved by ABPM and ABIM. In addition to satisfactory completion of the combined training programs, applicants for the ABPM certifying examination must have completed the required year of preventive medicine practice to qualify.

Graduate Medical Education Directory 2006-2007
Neurology/Physical Medicine and Rehabilitation

The American Board of Psychiatry and Neurology and the American Board of Physical Medicine and Rehabilitation offer dual certification in neurology and physical medicine and rehabilitation. A combined residency must include 5 years of combined education. This combined training must follow a year in a residency program that meets the requirements for neurology and should be completed in the same institution. All required years in both specialties must be satisfactorily completed prior to admission to the certifying examinations of each board.

Neurology/Diagnostic Radiology/Neuroradiology

The American Board of Psychiatry and Neurology and the American Board of Radiology offer certification in neurology, diagnostic radiology, and neuroradiology. The combined residency must include at least 7 years of coherent training integral to all three residencies. It is recommended that the participating residencies be in the same academic health center. To meet eligibility requirements for triple certification, the resident must satisfactorily complete 84 months of combined training, which must be verified by the directors of each program. Lacking verification of acceptable clinical competence in the combined program, the resident must satisfactorily complete the standard length of residency training and all other requirements before each certifying examination may be taken. Applicants may not take the certifying examination until all required years of training have been completed. In order to be eligible for the neuroradiology exam, a resident must have completed certification in both diagnostic radiology and neurology.

Pediatrics/Dermatology

The American Board of Pediatrics and the American Board of Dermatology offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Pediatrics/Emergency Medicine

The American Board of Pediatrics and the American Board of Emergency Medicine offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Pediatrics/Medical Genetics
The American Board of Pediatrics and the American Board of Medical Genetics offer dual certification for candidates who fulfill the requirements of both boards by completing joint training in 5 years. All 5 years should be completed in the same combined program; exceptions must be approved in advance by both boards. Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Pediatrics/Physical Medicine and Rehabilitation
The American Board of Pediatrics and the American Board of Physical Medicine and Rehabilitation permit applicants interested in pediatric rehabilitation to qualify for admission to the certifying examinations of both boards by completing a 5-year combined program. All 5 years should be completed at one academic institution; exceptions must be approved in advance by both boards.

Applicants may not take the certifying examinations until all required years in both specialties have been completed.

Pediatrics/Psychiatry/Child and Adolescent Psychiatry
The American Board of Pediatrics, the American Board of Psychiatry and Neurology, and the Committee on Certification in Child and Adolescent Psychiatry have developed a committee that is overseeing training via a different format. This is a 5-year curriculum with 24 months of pediatrics, 18 months of adult psychiatry, and 18 months of child and adolescent psychiatry. Completion of the program will satisfy the training requirement for certification in all three areas. Applicants pursuing training in these programs may not take the certifying examinations until all training has been completed. Credit for training via this route may be obtained only by training in one of these programs.

Group life insurance 100.0%
Dental insurance 100.0%
Disability insurance 83.3%
Disability insurance for occupationally acquired HIV 66.7%

Psychiatry/Neurology
The American Board of Psychiatry and Neurology has established guidelines for combined training in psychiatry and neurology. A combined residency must include one postgraduate year (PGY1) of training that is acceptable to neurology plus a minimum of 5 years of combined residency training. The 5 years of residency training are usually taken at one approved institution but may be taken at no more than two approved institutions. Data
