Nuclear Medicine

Professional Description
A nuclear medicine specialist employs the properties of radioactive atoms and molecules in the diagnosis and treatment of disease and in research. Radiation detection and imaging instrument systems are used to detect disease as it changes the function and metabolism of normal cells, tissues, and organs. A wide variety of diseases can be found in this way, usually before the structure of the organ involved by the disease can be seen to be abnormal by any other techniques. Early detection of coronary artery disease (including acute heart attack); early cancer detection and evaluation of the effect of tumor treatment; diagnosis of infection and inflammation anywhere in the body; and early detection of blood clot in the lungs are all possible with these techniques. Unique forms of radioactive molecules can attack and kill cancer cells (eg, lymphoma, thyroid cancer) or can relieve the severe pain of cancer that has spread to bone.

The nuclear medicine specialist has special knowledge in the biologic effects of radiation exposure, the fundamentals of the physical sciences, and the principles and operation of radiation detection and imaging instrument systems.

Prerequisites; Length of Training
Prior to entering a nuclear medicine program, residents must have completed 1 year of broad clinical education in an accredited program in the US or Canada. Nuclear medicine programs are 3 years (as of July 1, 2007).

Subspecialties
No subspecialty programs accredited by the Accreditation Council for Graduate Medical Education; no subspecialty certificates offered by the American Board of Nuclear Medicine.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Nuclear Medicine Programs
Number of accredited programs 54

Program Data
Length of accredited training 3
Minimum number of prior years of GME required 1
Offers graduate year 1 positions, available immediately upon medical school completion No
Average number of interviews for program year 1 positions 6.7
Percent new program directors, 2009-2010 academic year (Source: ACGME) 14.3%

Residents/Fellows
Total number of active residents/fellows 134
Average number of residents/fellows per program 0.0
Average percent female 38.6%
Average percent international medical graduate (IMG) 56.7%

Program Faculty
Average number of full-time physician faculty 5.4
Average number of part-time physician faculty 0.9
Average percent female full-time physician faculty 21.7%
Average ratio of full-time physician faculty to resident/fellow 1.2

Work Schedule (Program Year 1)
Average hours on duty per week 46.8
Average maximum consecutive hours on duty 14.0
Average days off duty per week 1.6
Moonlighting allowed within institution 44.4%
Night float system 5.6%
Offers awareness and management of fatigue in residents/fellows 83.3%

Educational Setting (Program Year 1)
Average hours/week of regularly scheduled lectures/conferences 7.2
Average percent of training in hospital outpatient clinics 43.8%
Average percent of training in nonhospital ambulatory care community settings 83.3%

Educational Benefits
Program to assess/enhance medical professionalism 66.7%
Debt management/financial counseling 44.4%
Formal program to develop teaching skills 72.2%
Formal mentoring program 27.8%
Formal program to foster interdisciplinary teamwork 22.2%
Continuous quality improvement training 83.3%
International experience 11.1%
Resident/fellow retreats 11.1%
Off-campus electives 38.9%
Hospice/home care experience 0.0%
Cultural competence awareness 55.6%
Instruction in medical Spanish or other non-English language 11.1%
Alternative/complementary medicine curriculum 6.6%
Training in identifying and reporting of domestic violence/abuse 18.7%
MPH/MBA or PhD training 11.1%
Research rotation 44.4%

Educational Features
Offers additional training or educational experience beyond accredited length 18.2%
Offers a primary care track 5.6%
Offers a rural track 0.0%
Offers a women’s health track 0.0%
Offers a hospitalist track 0.0%
Offers a research track/nonaccredited fellowship 16.7%
Offers an other track 5.6%

Resident Evaluation
Yearly specialty in-service examination required 91.5%
Patient surveys 55.6%
Portfolio system 61.1%
360-degree evaluations 94.4%
Objective structured clinical examinations (OSCE) 11.1%

Program Evaluation
Program graduation rates 77.8%
Board certification rates 94.4%
In-training examinations 94.4%
Performance-based assessments 22.2%

Employment Policies and Benefits
Part-time/shared positions 0.0%
On-site child care 33.3%
Subsidized child care 0.0%
Allowance/stipend for professional expenses 94.4%
Leave for educational meetings/conferences 75.3%
Moving allowance 0.0%
Housing stipend 5.6%
On-call meal allowance 66.7%
Free parking 55.6%
PDAs 5.6%
Placement assistance upon completion of program 27.8%
Cross coverage in case of illness/disability 72.2%

Compensation and Leave (Graduate Year 1)
Average resident/fellow compensation $48,632
Average number weeks of vacation 3.5
Sick days (paid) 16.6
Maximum number of paid days for family/medical leave 35
Maximum number of unpaid days for family/medical leave 73

Major Medical Benefits
Major medical insurance for residents 100.0%
Major medical insurance for dependents 88.9%
Outpatient mental health insurance 83.3%
Inpatient mental health insurance 83.3%
Group life insurance 83.3%
Dental insurance 94.4%
Disability insurance 83.3%
Disability insurance for occupationally acquired HIV 66.7%
Medical insurance coverage begins when starting program 100.0%

Obstetrics and Gynecology

Professional Description
An obstetrician-gynecologist possesses special knowledge, skills, and professional capabilities in the medical and surgical care of the female reproductive system and associated disorders. This physician serves as a consultant to other physicians, and as a primary physician for women.

Prerequisites; Length of Training
No prerequisites required; length of ACGME-accredited programs is 4 years.

Subspecialties
Subspecialty programs accredited by the ACGME
- Hospice and palliative medicine

Subspecialty programs accredited by the American Board of Obstetrics and Gynecology
- Female pelvic medicine and reconstructive surgery
- Gynecologic oncology
- Maternal-fetal medicine
- Reproductive endocrinology/infertility

American Board of Obstetrics and Gynecology subspecialty certificates
- Critical care medicine
- Gynecologic oncology
- Hospice and palliative medicine
- Maternal-fetal medicine
- Reproductive endocrinology/infertility

Data
Unless otherwise noted, all data are for 2010.

Table 1. Obstetrics and Gynecology Programs
Number of accredited programs 243

Program Data
Length of accredited training 4
Minimum number of prior years of GME required 0
Offers graduate year 1 positions, available immediately upon medical school completion Yes
Average number of interviews for program year 1 positions 63.6
Percent new program directors, 2009-2010 academic year (Source: ACGME) 17.4%

Residents/Fellows
Total number of active residents/fellows 4,701
Average number of residents/fellows per program 0.0
Average percent female 81.3%
Average percent international medical graduate (IMG) 15.2%

Program Faculty
Average number of full-time physician faculty 21.4
Average number of part-time physician faculty 6.5
Average percent female full-time physician faculty 47.3%
Average ratio of full-time physician faculty to resident/fellow 0.9

Table 2. Data for Obstetrics and Gynecology Programs Listed in FREIDA
Number of programs providing data 190

Work Schedule (Program Year 1)
Average hours on duty per week 71.0
Average maximum consecutive hours on duty 26.0
Average days off duty per week 1.3
Moonlighting allowed within institution 24.7%
Night float system 91.1%
Offers awareness and management of fatigue in residents/fellows 98.9%

Educational Setting (Program Year 1)
Average hours/week of regularly scheduled lectures/conferences 5.6
Average percent of training in hospital outpatient clinics 27.8%
Average percent of training in nonhospital ambulatory care community settings 11.4%

Educational Benefits
Program to assess/enhance medical professionalism 92.1%
Debt management/financial counseling 77.9%
Formal program to develop teaching skills 88.9%
Formal mentoring program 85.3%
Formal program to foster interdisciplinary teamwork 51.1%
Continuous quality improvement training 95.6%
International experience 35.3%
Resident/fellow retreats 75.3%
Off-campus electives 77.9%
Hospice/home care experience 20.0%
Cultural competence awareness 91.1%
Instruction in medical Spanish or other non-English language 28.9%
Alternative/complementary medicine curriculum 35.3%
Training in identifying and reporting of domestic violence/abuse 95.6%
MPH/MBA or PhD training 13.2%
Research rotation 37.4%

Educational Features
Offers additional training or educational experience beyond accredited length 1.5%
Offers a primary care track 22.6%
Offers a rural track 2.1%
Offers a women’s health track 38.9%
Offers a hospitalist track 2.6%
Offers a research track/nonaccredited fellowship 6.3%
Offers an other track 3.2%

Resident Evaluation
Yearly specialty in-service examination required 100.0%
Patient surveys 90.0%
Portfolio system 84.7%
360-degree evaluations 100.0%
Objective structured clinical examinations (OSCE) 42.6%

Program Evaluation
Program graduation rates 84.2%
Board certification rates 100.0%
In-training examinations 99.5%
Performance-based assessments 62.6%

Employment Policies and Benefits
Part-time/shared positions 1.1%

Critical Care Medicine
Professional Description
An obstetrician-gynecologist who specializes in critical care medicine diagnoses, treats, and supports female patients with multiple organ dysfunction. This specialist may have administrative responsibilities for intensive care units and may also facilitate and coordinate patient care among the primary physician, the critical care staff, and other specialists.

Prerequisites; Length of Training
To earn the certificate in Obstetrics and Gynecology with Added Qualification in Critical Care from the ABOG, the applicant must have completed a program of no less than 1 year in length that fulfills the requirements of the American Board of Surgery for Surgical Critical Care or the American Board of Anesthesiology for Critical Care Medicine.

For more information

Hospice and Palliative Medicine
See page 180.

Maternal-Fetal Medicine
Professional Description
An obstetrician-gynecologist who provides consultation and cares for patients with complications of pregnancy. This specialist has advanced obstetrical, medical, and surgical knowledge of
complications of pregnancy and their effect on both the mother and the fetus. He/she also possesses expertise in the most current diagnostic and treatment modalities used in the care of patients with complicated pregnancies.

Prerequisites; Length of Training
Completion of an ACGME-accredited obstetrics-gynecology program is required. Length of ABOG-accredited maternal-fetal medicine programs is 3 years.

**Professional Description**

An ophthalmologist has the knowledge and professional skills needed to provide comprehensive eye and vision care. Ophthalmologists are medically trained to diagnose, monitor, and medically or surgically treat all ocular and visual disorders. This includes problems affecting the eye and its component structures, the eyelids, the orbit, and the visual pathways. In so doing, an ophthalmologist prescribes vision services, including glasses and contact lenses.

**Prerequisites; Length of Training**

One year of education in an accredited program is required prior to entry. Ophthalmology programs are 3 years.

**Subspecialties**

No subspecialty programs accredited by the Accreditation Council for Graduate Medical Education; no subspecialty certificates offered by the American Board of Ophthalmology.

**Data**

Unless otherwise noted, all data are for 2010.

### Table 1. Ophthalmology Programs

### Table 2. Data for Ophthalmology Programs Listed in FREIDA

| Number of programs providing data | 41 |
| Work Schedule (Program Year 1) | Average hours on duty per week | 51.3 |
| Average maximum consecutive hours on duty | 19.2 |
| Average days off duty per week | 1.6 |
| Moonlighting allowed within institution | 29.3% |
| Night float system | 4.9% |
| Offers awareness and management of fatigue in residents/fellows | 95.1% |
| Educational Setting (Program Year 1) | Average hours/week of regularly scheduled lectures/conferences | 6.5 |
| Average percent of training in hospital outpatient clinics | 88.5% |
| Average percent of training in nonhospital ambulatory care community settings | 10.5% |
| Educational Benefits | Program to assess/enhance medical professionalism | 80.5% |
| Debt management/financial counseling | 70.7% |
| Formal program to develop teaching skills | 78.0% |
| Formal mentoring program | 58.5% |
| Formal program to foster interdisciplinary teamwork | 24.4% |
| Continuous quality improvement training | 95.1% |
| International experience | 36.6% |
| Resident/fellow retreats | 24.4% |
| Off-campus electives | 34.1% |
| Hospice/home care experience | 2.4% |
| Cultural competence awareness | 68.3% |
| Instruction in medical Spanish or other non-English language | 12.2% |
| Alternative/complementary medicine curriculum | 14.6% |
| Training in identifying and reporting of domestic violence/abuse | 41.5% |
| MPH/MBA or PhD training | 9.8% |
| Research rotation | 22.0% |

### Educational Features

- Offers additional training or educational experience beyond accredited length | 7.3% |
- Offers a primary care track | 12.2% |
- Offers a rural track | 0.0% |
- Offers a women’s health track | 0.0% |
- Offers a hospitalist track | 2.4% |
- Offers a research track/nonaccredited fellowship | 17.1% |
- Offers an other track | 4.9% |

### Resident Evaluation

- Yearly specialty in-service examination required | 97.1% |
- Patient surveys | 65.9% |

Orthopaedic Surgery

Professional Description
An orthopaedic surgeon is trained to use surgical, medical, or physical means to restore the form and function of the extremities, spine, and associated structures.

An orthopaedic surgeon is involved with the care of patients whose musculoskeletal problems include congenital deformities, trauma, infections, tumors, metabolic disturbances of the musculoskeletal system, deformities, injuries, and degenerative diseases of the spine, hands, feet, knee, hip, shoulder, and elbow in children and adults. An orthopaedic surgeon is also concerned with primary and secondary muscular problems and the effects of central or peripheral nervous system lesions of the musculoskeletal system.

Prerequisites; Length of Training
No previous GME is required; length of accredited programs is 5 years.

Subspecialties
Subspecialty programs accredited by the ACGME
- Adult reconstructive orthopaedics
- Foot and ankle orthopaedics
- Hand surgery
- Musculoskeletal oncology
- Orthopaedic sports medicine
- Orthopaedic surgery of the spine
- Orthopaedic trauma
- Pediatric orthopaedics

American Board of Orthopaedic Surgery subspecialty certificates
- Orthopaedic sports medicine
- Surgery of the hand

Data
Unless otherwise noted, all data are for 2010.

Adult Reconstructive Orthopaedics

Professional Description
Adult reconstructive orthopaedics includes the in-depth study, prevention, and reconstructive treatment of musculoskeletal diseases, disorders, and sequelae of injuries using medical, physical, and surgical methods in patients 17 years and older. An educational program in adult reconstructive orthopaedics may include the care of arthritis and related disorders in many anatomic regions or be limited to areas such as the hip, knee, shoulder, elbow, or ankle and foot.

Prerequisites; Length of Training
Completion of an accredited residency is required. Length of ACGME-accredited programs is 1 year.

Foot and Ankle Orthopaedics

Professional Description
Foot and ankle orthopaedics is a subspecialty of orthopaedic surgery, which includes the in-depth study, prevention, and treatment of musculoskeletal diseases, disorders, and sequelae of injuries in this anatomic region using medical, physical, and surgical methods.
Hand Surgery

Professional Description
A hand orthopaedic specialist is trained to use surgical, medical, and physical means to preserve, investigate, and restore all structures of the upper extremity, which directly affect the form and function of the hand and wrist.

Prerequisites; Length of Training
Completion of an accredited general surgery, orthopaedic surgery, or plastic surgery residency in the US or Canada is required. Length of ACGME-accredited programs is 1 year.

Musculoskeletal Oncology

Professional Description
Musculoskeletal oncology is focused on the diagnosis and treatment of children and adults with benign and malignant tumors of bone and connective soft tissues. The field also includes the diagnosis, treatment, and palliative care of patients with metastatic carcinoma to the skeleton. Musculoskeletal oncologists work in concert with experts from musculoskeletal radiology, pathology, medical and pediatric oncology, radiotherapy, and surgery to care for patients with sarcomas of bone and soft tissue.

Prerequisites; Length of Training
Completion of an accredited residency is required. Length of ACGME-accredited programs is 1 year.

Orthopaedic Sports Medicine

Professional Description
An orthopaedic surgeon trained in sports medicine provides appropriate care for all structures of the musculoskeletal system directly affected by participation in sporting activity. A sports medicine surgeon is proficient in areas including conditioning, training, and fitness; athletic performance and the impact of dietary supplements, pharmaceuticals, and nutrition on performance and health; coordination of care within the team setting and utilizing other health care professionals; field evaluation and management; and soft tissue biomechanics injury, healing and repair. The specialist understands treatment options, both surgical and nonsurgical, as they relate to sports specific injuries and competition. Knowledge in understanding the principles and techniques of rehabilitation, athletic equipment, and orthotic devices enables the specialist to prevent and manage athletic injuries.

Prerequisites; Length of Training
Completion of an accredited residency is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Orthopaedic Surgery
Pediatric Orthopaedics
Otolaryngology

Professional Description
An otolaryngologist-head and neck surgeon provides comprehensive medical and surgical care for patients with diseases and disorders, and which affect the ears, nose, throat, respiratory, and upper alimentary systems, and related structures of the head and neck. An otolaryngologist diagnoses and provides medical and/or surgical therapy or prevention of diseases, allergies, neoplasms, deformities, disorders, and/or injuries of the ears, nose, sinuses, throat, respiratory and upper alimentary systems, face, jaws, and the other head and neck systems. Head and neck oncology, facial plastic and reconstructive surgery, and the treatment of disorders of hearing and voice are fundamental areas of expertise.

Prerequisites; Length of Training
No previous GME is required; length of accredited programs is 5 years.

Subspecialties
Subspecialty programs accredited by the ACGME
- Neurotology
- Pediatric otolaryngology
- Sleep medicine

American Board of Otolaryngology subspecialty certificates
- Neurotology
- Pediatric otolaryngology
- Plastic surgery within the head and neck
- Sleep medicine

Data
Unless otherwise noted, all data are for 2010.

### Program Faculty

| Average number of full-time physician faculty | 14.9 |
| Average number of part-time physician faculty | 2.2 |
| Average percent female full-time physician faculty | 17.1% |
| Average ratio of full-time physician faculty to resident/fellow | 0.9 |

### Table 2. Data for Otolaryngology Programs Listed in FREIDA

| Number of programs providing data | 52 |
| Work Schedule (Program Year 1)    |     |
| Average hours on duty per week   | 68.0 |
| Average maximum consecutive hours on duty | 26.0 |
| Average days off duty per week   | 1.3 |

Moonlighting allowed within institution | 28.8% |
Night float system | 23.1% |
Offers awareness and management of fatigue in residents/fellows | 92.3% |

### Educational Setting (Program Year 1)

| Average hours/week of regularly scheduled lectures/conferences | 5.3 |
| Average percent of training in hospital outpatient clinics | 33.7% |
| Average percent of training in nonhospital ambulatory care community settings | 7.8% |

### Educational Benefits

Program to assess/enhance medical professionalism | 82.7% |
Debt management/financial counseling | 59.6% |
Formal program to develop teaching skills | 80.8% |
Formal mentoring program | 61.5% |
Formal program to foster interdisciplinary teamwork | 36.5% |
Continuous quality improvement training | 94.2% |
International experience | 23.1% |
Resident/fellow retreats | 50.0% |
Off-campus electives | 40.4% |
Hospice/home care experience | 13.5% |
Cultural competence awareness | 69.2% |
Instruction in medical Spanish or other non-English language | 19.2% |
Alternative/complementary medicine curriculum | 23.1% |
Training in identifying and reporting of domestic violence/abuse | 42.3% |
MPH/MBA or PhD training | 17.3% |
Research rotation | 94.2% |

### Educational Features

Offers additional training or educational experience beyond accredited length | 16.0% |
Offers a primary care track | 5.8% |
Offers a rural track | 1.9% |
Offers a women's health track | 1.9% |
Offers a hospitalist track | 3.8% |
Offers a research track/nonaccredited fellowship | 17.3% |
Offers an other track | 7.7% |

### Resident Evaluation

Yearly specialty in-service examination required | 100.0% |
Patient surveys | 55.8% |
Portfolio system | 65.4% |
360-degree evaluations | 98.1% |
Objective structured clinical examinations (OSCE) | 23.1% |

### Program Evaluation

Program graduation rates | 84.6% |
Board certification rates | 100.0% |
In-training examinations | 100.0% |
Performance-based assessments | 44.2% |

### Employment Policies and Benefits

Part-time/shared positions | 0.0% |
On-site child care | 34.6% |
Subsidized child care | 1.9% |
Allowance/stipend for professional expenses | 98.1% |
Leave for educational meetings/conferences | 94.7% |
Moving allowance | 5.8% |
Housing stipend | 7.7% |
On-call meal allowance | 80.8% |
Free parking | 61.5% |
PDAs | 15.4% |
Placement assistance upon completion of program | 21.2% |
Cross coverage in case of illness/disability 90.4%

Compensation and Leave (Graduate Year 1)
Average resident/fellow compensation $47,556
Average number weeks of vacation 3.3
Sick days (paid) 27.2
Maximum number of paid days for family/medical leave 40
Maximum number of unpaid days for family/medical leave 63

Major Medical Benefits
Major medical insurance for residents 100.0%
Major medical insurance for dependents 94.2%
Outpatient mental health insurance 94.2%
Inpatient mental health insurance 94.2%
Group life insurance 96.2%
Dental insurance 88.5%
Disability insurance 92.3%
Disability insurance for occupationally acquired HIV 84.6%
Medical insurance coverage begins when starting program 92.3%

Neurotology
Professional Description
An otolaryngologist who treats diseases of the ear and temporal bone, including disorders of hearing and balance. The additional training in otology and neurotology emphasizes the study of embryology, anatomy, physiology, epidemiology, pathophysiology, pathology, genetics, immunology, microbiology, and the etiology of diseases of the ear and temporal bone.

The neurotologist should have command of the core knowledge and understanding of:
• The basic medical sciences relevant to the temporal bone, lateral skull base, and related structures; the communication sciences, including knowledge of audiology, endocrinology, and neurology as they relate to the temporal bone, lateral skull base, and related structures
• Advanced diagnostic expertise and advanced medical and surgical management skills for the care of diseases and disorders of the petrous apex, infratemporal fossa, internal auditory canals, cranial nerves, and lateral skull base (including the occipital bone, sphenoid bone, temporal bone, mesial aspect of the dura and intradural management), in conjunction with neurological surgery

A neurotologist has acquired expertise in the medical and surgical management of diseases and disorders of the temporal bone, lateral skull base, and related structures beyond that inherent to the practice of otolaryngology-head and neck surgery.

Source: American Board of Otolaryngology

Prerequisites; Length of Training
Completion of an accredited otolaryngology residency is required. Length of ACGME-accredited programs is 2 years.

For more information
American Neurotology Society
www.otology-neurotology.org/ANS/ans-main.html

Pediatric Otolaryngology
Professional Description
A pediatric otolaryngologist specializes in the management of infants and children with disorders that include congenital and acquired conditions involving the aerodigestive tract, nose and paranasal sinuses, the ear, and other areas of the head and neck.
The pediatric otolaryngologist has special skills in diagnosing, treating, and managing childhood disorders of voice, speech, language, and hearing.

**Prerequisites; Length of Training**
Completion of an accredited otolaryngology residency is required. Length of ACGME-accredited programs is 1 year (as of July 1, 2006).

**Data**
Unless otherwise noted, all data are for 2010.

Plastic Surgery within the Head and Neck

Professional Description
An otorhinolaryngologist with additional training in plastic and reconstructive techniques, including cutaneous head and neck oncology, reconstruction of maxillofacial trauma, soft tissue repair, and neural surgery. The field is diverse and involves a wide age range of patients, from the newborn to the aged. While both cosmetic and reconstructive surgery are practiced, there are additional procedures which interface with them.

Pain Medicine

Note: In 2007, ACGME-accredited pain medicine programs under anesthesiology, neurology, physical medicine and rehabilitation, and psychiatry were combined into a multidisciplinary pain medicine subspecialty.

Professional Description
A psychiatrist who provides a high level of care, either as a primary physician or consultant, for patients experiencing problems with acute, chronic, or cancer pain in both hospital and ambulatory settings. Patient care needs may also be coordinated with other specialists.

Prerequisites; Length of Training
A minimum of 4 years of prior GME is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Pain Medicine Programs
| Number of accredited programs | 91 |

Program Data
| Length of accredited training | 1 |
| Minimum number of prior years of GME required | 3/4 |
| Offers graduate year 1 positions, available immediately upon medical school completion | No |
| Average number of interviews for program year 1 positions | 16.1 |
| Percent new program directors, 2009-2010 academic year (Source: ACGME) | 19.8% |

Residents/Fellows
| Total number of active residents/fellows | 229 |
| Average number of residents/fellows per program | 0.0 |
| Average percent female | 21.8% |
| Average percent international medical graduate (IMG) | 18.7% |

Program Faculty
| Average number of full-time physician faculty | 7.2 |
| Average number of part-time physician faculty | 1.2 |
| Average percent female full-time physician faculty | 24.0% |
| Average ratio of full-time physician faculty to resident/fellow | 1.2 |

Table 2. Data for Pain Medicine Programs Listed in FREIDA
| Number of programs providing data | 47 |

Work Schedule (Program Year 1)
| Average hours on duty per week | 49.9 |
| Average maximum consecutive hours on duty | 17.3 |
| Average days off duty per week | 1.8 |
| Moonlighting allowed within institution | 61.7% |
| Night float system | 2.1% |
| Offers awareness and management of fatigue in residents/fellows | 93.6% |

Educational Setting (Program Year 1)
| Average hours/week of regularly scheduled lectures/conferences | 3.5 |
| Average percent of training in hospital outpatient clinics | 82.9% |
| Average percent of training in nonhospital ambulatory care community settings | 13.9% |

Educational Benefits
| Program to assess/enhance medical professionalism | 87.2% |
| Debt management/financial counseling | 46.8% |
| Formal program to develop teaching skills | 74.5% |
| Formal mentoring program | 63.8% |
| Formal program to foster interdisciplinary teamwork | 51.1% |
| Continuous quality improvement training | 93.6% |
| International experience | 14.9% |
| Resident/fellow retreats | 36.3% |
| Off-campus electives | 46.3% |
| Hospice/home care experience | 48.9% |
| Cultural competence awareness | 68.1% |
| Instruction in medical Spanish or other non-English language | 19.1% |
| Alternative/complementary medicine curriculum | 74.5% |
| Training in identifying and reporting of domestic violence/abuse | 29.8% |
| MPH/MBA or PhD training | 6.4% |
| Research rotation | 6.4% |

Educational Features
| Offers additional training or educational experience beyond accredited length | 13.3% |
| Offers a primary care track | 0.0% |
| Offers a rural track | 0.0% |
| Offers a women’s health track | 0.0% |
| Offers a hospitalist track | 4.3% |
| Offers a research track/nonaccredited fellowship | 4.3% |
| Offers an other track | 6.4% |

Resident Evaluation
| Yearly specialty in-service examination required | 33.3% |
| Patient surveys | 68.1% |
| Portfolio system | 48.9% |
| 360-degree evaluations | 93.6% |
| Objective structured clinical examinations (OSCE) | 23.4% |

Program Evaluation
| Program graduation rates | 87.2% |
| Board certification rates | 95.7% |
| In-training examinations | 25.5% |
| Performance-based assessments | 36.2% |

Employment Policies and Benefits
| Part-time/shared positions | 4.3% |
| On-site child care | 34.0% |
| Subsidized child care | 4.3% |
| Allowance/stipend for professional expenses | 95.7% |
| Leave for educational meetings/conferences | 93.0% |
| Moving allowance | 2.1% |
| Housing stipend | 0.0% |
| On-call meal allowance | 59.6% |
| Free parking | 51.1% |
| PDAs | 8.5% |
| Placement assistance upon completion of program | 29.8% |
| Cross coverage in case of illness/disability | 76.6% |

Compensation and Leave (Graduate Year 1)
| Average resident/fellow compensation | $55,415 |
| Average number weeks of vacation | 3.5 |
| Sick days (paid) | 25.5 |
| Maximum number of paid days for family/medical leave | 39 |
| Maximum number of unpaid days for family/medical leave | 37 |

Major Medical Benefits
| Major medical insurance for residents | 100.0% |
| Major medical insurance for dependents | 93.6% |
| Outpatient mental health insurance | 91.5% |
| Inpatient mental health insurance | 69.4% |
| Group life insurance | 97.9% |
Dental insurance 85.1%
Disability insurance 85.1%
Disability insurance for occupationally acquired HIV 72.3%
Medical insurance coverage begins when starting program 95.7%

Pathology

Professional Description
A pathologist deals with the causes and nature of disease and contributes to diagnosis, prognosis, and treatment through knowledge gained by the laboratory application of the biologic, chemical, and physical sciences. A pathologist uses information gathered from microscopic examination of tissue specimens, cells, and body fluids, and from clinical laboratory tests on body fluids and secretions to diagnose, exclude, and monitor the causes, processes, and/or nature of diseases.

Prerequisites; Length of Training
No previous GME is required; length of accredited programs is either 3 years or 4 years.

Subspecialties
Subspecialty programs accredited by the ACGME
• Selective pathology
• Blood banking/transfusion medicine
• Chemical pathology
• Cytopathology
• Dermatopathology
• Forensic pathology
• Hematology
• Medical microbiology
• Molecular genetic pathology
• Neuropathology
• Pediatric pathology

American Board of Pathology subspecialty certificates
• Blood banking/transfusion medicine
• Chemical pathology
• Cytopathology
• Dermatopathology
• Forensic pathology
• Hematology
• Medical microbiology
• Molecular genetic pathology
• Neuropathology
• Pediatric pathology

Data
Unless otherwise noted, all data are for 2010.

Blood Banking/Transfusion Medicine

Professional Description
A physician who specializes in blood banking/transfusion medicine, and is responsible for the maintenance of an adequate blood supply, blood donor and patient-recipient safety, and appropriate blood utilization. Pretransfusion compatibility testing and antibody testing assure that blood transfusions, when indicated, are as safe as possible. This physician directs the preparation and safe use of specially prepared blood components, including red blood cells, white blood cells, platelets, plasma constituents, and marrow or stem cells for transplantation.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

### Chemical Pathology

**Professional Description**

A chemical pathologist is an expert in the biochemistry of the human body in relation to the understanding of the cause and progression of disease. This physician functions as a clinical consultant in the diagnosis and treatment of human disease. Chemical pathology entails the application of biochemical data to the detection, confirmation, or monitoring of disease.

**Prerequisites; Length of Training**

Completion of an ACGME-accredited residency in anatomic pathology and clinical pathology, anatomic pathology, or clinical pathology is required. Length of ACGME-accredited programs is 1 year.

### Cytopathology

**Professional Description**

A cytopathologist is an anatomic pathologist trained in the diagnosis of human disease by means of the study of cells obtained from body secretions and fluids, by scraping, washing, or sponging the surface of a lesion, or by the aspiration of a tumor mass or body organ with a fine needle. A major aspect of a cytopathologist’s practice is the interpretation of Papanicolaou-stained smears of cells from the female reproductive systems, the Pap test. However, the cytopathologist’s expertise is applied to the diagnosis of cells from all systems and areas of the body. He/she is a consultant to all medical specialists.
Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Medical Microbiology

Professional Description
A medical microbiologist is an expert in the isolation and identification of microbial agents that cause infectious disease. Viruses, bacteria, and fungi, as well as parasites, are identified, and where possible, tested for susceptibility to appropriate antimicrobial agents.

Prerequisites; Length of Training
Completion of an ACGME-accredited residency in anatomic pathology and clinical pathology, anatomic pathology, or clinical pathology, or completion of an ACGME-accredited residency in another primary medical specialty and completion of an ACGME-accredited fellowship in infectious disease. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Medical Microbiology Programs
Number of accredited programs 12

Table 2. Data for Medical Microbiology Programs Listed in FREIDA
Number of programs providing data 5

Work Schedule (Program Year 1)
Average hours on duty per week 40.0
Average maximum consecutive hours on duty 10.5
Average days off duty per week 2.0
Moonlighting allowed within institution 40.0%
Night float system 0.0%
Offers awareness and management of fatigue in residents/fellows 80.0%

Educational Setting (Program Year 1)
Average hours/week of regularly scheduled lectures/conferences 5.2
Average percent of training in hospital outpatient clinics 22.9%
Average percent of training in nonhospital ambulatory care community settings 37.5%

Educational Benefits
Program to assess/enhance medical professionalism 100.0%
Debt management/financial counseling 20.0%
Formal program to develop teaching skills 80.0%
Formal mentoring program 80.0%
Formal program to foster interdisciplinary teamwork 60.0%

Molecular Genetic Pathology

**Professional Description**
A molecular genetic pathologist is expert in the principles, theory, and technologies of molecular biology and molecular genetics. This expertise is used to make or confirm diagnoses of Mendelian genetic disorders, disorders of human development, and infectious diseases and malignancies, and to assess the natural history of those disorders. A molecular genetic pathologist provides information about gene structure, function, and alteration and applies laboratory techniques for diagnosis, treatment, and prognosis for individuals with related disorders.

**Prerequisites; Length of Training**
Completion of a 4-year ACGME-accredited program in pathology or medical genetics is required. Length of ACGME-accredited molecular genetic pathology programs is 1 year.

**Neuropathology**

**Professional Description**
A neuropathologist is expert in the diagnosis of diseases of the nervous system and skeletal muscles and functions as a consultant primarily to neurologists and neurosurgeons. The neuropathologist is knowledgeable in the infirmities of humans as they affect the nervous and neuromuscular systems, be they degenerative, infectious, metabolic, immunologic, neoplastic, vascular, or physical in nature.

**Prerequisites; Length of Training**
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 2 years.

**Data**
Unless otherwise noted, all data are for 2010.

***Table 1. Neuropathology Programs***

| Number of accredited programs | 34 |

***Program Data***

| Length of accredited training | 2 |
| Minimum number of prior years of GME required | 3 |
| Offers graduate year 1 positions, available immediately upon medical school completion | No |
| Average number of interviews for program year 1 positions | 1.9 |
| Percent new program directors, 2009-2010 academic year (Source: ACGME) | 12.1% |

***Residents/Fellows***

| Total number of active residents/fellows | 36 |
| Average number of residents/fellows per program | 0.0 |
| Average percent female | 45.7% |
| Average percent international medical graduate (IMG) | 34.3% |

***Program Faculty***

| Average number of full-time physician faculty | 5.0 |
| Average number of part-time physician faculty | 0.4 |
| Average percent female full-time physician faculty | 29.2% |
| Average ratio of full-time physician faculty to resident/fellow | 2.6 |

***Table 2. Data for Neuropathology Programs Listed in FREIDA***

| Number of programs providing data | 19 |

***Work Schedule (Program Year 1)***

| Average hours on duty per week | 45.7 |
| Average maximum consecutive hours on duty | 14.0 |
| Average days off duty per week | 1.8 |
| Moonlighting allowed within institution | 36.8% |
| Night float system | 0.0% |
| Offers awareness and management of fatigue in residents/fellows | 94.7% |
Educational Setting (Program Year 1)
Average hours/week of regularly scheduled lectures/conferences 9.0
Average percent of training in hospital outpatient clinics
Average percent of training in nonhospital ambulatory care community settings

Educational Benefits
Program to assess/enhance medical professionalism 68.4%
Debt management/financial counseling 47.4%
Formal program to develop teaching skills 63.2%
Formal mentoring program 57.9%
Formal program to foster interdisciplinary teamwork 15.8%
Continuous quality improvement training 84.2%
International experience 15.8%
Resident/fellow retreats 42.1%
On-campus electives 73.7%
Hospice/home care experience 10.5%
Cultural competence awareness 68.4%
Instruction in medical Spanish or other non-English language 21.1%
Alternative/complementary medicine curriculum 5.3%
Training in identifying and reporting of domestic violence/abuse 21.1%
MPH/MBA or PhD training 21.1%
Research rotation 63.2%

Educational Features
Offers additional training or educational experience beyond accredited length 18.6%
Offers a primary care track 0.0%
Offers a rural track 0.0%
Offers a women's health track 0.0%
Offers a hospitalist track 0.0%
Offers a research track/nonaccredited fellowship 31.6%
Offers an other track 5.3%

Resident Evaluation
Yearly specialty in-service examination required 38.5%
Patient surveys 5.3%
Portfolio system 42.1%
360-degree evaluations 94.7%
Objective structured clinical examinations (OSCE) 5.3%

Program Evaluation
Program graduation rates 78.9%
Board certification rates 100.0%
In-training examinations 42.1%
Performance-based assessments 31.6%

Employment Policies and Benefits
Part-time/shared positions 5.3%
On-site child care 57.9%
Subsidized child care 10.5%
Allowance/stipend for professional expenses 94.7%
Leave for educational meetings/conferences 68.4%
Moving allowance 5.3%
Housing stipend 5.3%
On-call meal allowance 52.6%
Free parking 42.1%
PDAs 0.0%
Placement assistance upon completion of program 28.3%
Cross coverage in case of illness/disability 73.7%

Compensation and Leave (Graduate Year 1)
Average resident/fellow compensation $53,074
Average number weeks of vacation 4.2
Sick days (paid) 24.7
Maximum number of paid days for family/medical leave 36
Maximum number of unpaid days for family/medical leave 43

Major Medical Benefits
Major medical insurance for residents 100.0%
Major medical insurance for dependents 100.0%
Outpatient mental health insurance 94.7%
Inpatient mental health insurance 94.7%
Group life insurance 94.7%
Dental insurance 100.0%
Disability insurance 78.9%
Disability insurance for occupationally acquired HIV 63.2%
Medical insurance coverage begins when starting program 94.7%

Pediatric Pathology
Professional Description
A pediatric pathologist is an expert in the laboratory diagnosis of diseases that occur during fetal growth, infancy, and child development. The practice requires a strong foundation in general pathology and substantial understanding of normal growth and development, along with extensive knowledge of pediatric medicine.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 2 years.

Selective Pathology
Professional Description
Selective pathology programs are typically sponsored by institutions that provide unique educational resources in a specialized area of pathology.

Length of Training
Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Selective Pathology Programs
| Number of accredited programs | 64 |
### Program Data
- **Length of accredited training**: 1
- **Minimum number of prior years of GME required**: 3
- **Offers graduate year 1 positions, available immediately upon medical school completion**: No
- **Average number of interviews for program year 1 positions**: 7.1
- **Percent new program directors, 2009-2010 academic year (Source: ACGME)**: 5.3%

### Residents/Fellows
- **Total number of active residents/fellows**: 104
- **Average percent female**: 60.6%
- **Average percent international medical graduate (IMG)**: 44.2%

### Program Faculty
- **Average number of full-time physician faculty**: 10.7
- **Average number of part-time physician faculty**: 0.9
- **Average percent female full-time physician faculty**: 37.3%
- **Average ratio of full-time physician faculty to resident/fellow**: 2.3

### Work Schedule (Program Year 1)
- **Average hours on duty per week**: 44.6
- **Average maximum consecutive hours on duty**: 11.3
- **Monthly allowed off duty per week**: 1.9
- **Moonlighting allowed within institution**: 0.0%
- **Offers awareness and management of fatigue in residents/fellows**: 98.4%

### Educational Setting (Program Year 1)
- **Average hours/week of regularly scheduled lectures/conferences**: 5.3
- **Average percent of training in hospital outpatient clinics**: 1.8%
- **Average percent of training in nonhospital ambulatory care community settings**:

### Educational Benefits
- **Program to assess/enhance medical professionalism**: 71.4%
- **Debt management/financial counseling**: 50.0%
- **Formal program to develop teaching skills**: 79.6%
- **Formal mentoring program**: 50.0%
- **Formal program to foster interdisciplinary teamwork**: 21.4%
- **Continuous quality improvement training**: 92.9%
- **International experience**: 28.6%
- **Resident/fellow retreats**: 35.7%
- **Off-campus electives**: 67.9%
- **Hospice/home care experience**: 17.9%
- **Cultural competence awareness**: 82.1%
- **Instruction in medical Spanish or other non-English language**: 3.6%
- **Alternative/complementary medicine curriculum**: 17.9%
- **Training in identifying and reporting of domestic violence/abuse**: 39.3%
- **MPH/MBA or PhD training**: 17.9%
- **Research rotation**: 14.3%

### Educational Features
- **Offers additional training or educational experience beyond accredited length**: 14.9%
- **Offers a primary care track**: 3.6%
- **Offers a rural track**: 0.0%
- **Offers a women's health track**: 3.6%
- **Offers a hospitalist track**: 0.0%
- **Offers a research track/nonaccredited fellowship**: 21.4%
- **Offers an other track**: 10.7%

### Resident Evaluation
- **Yearly specialty in-service examination required**: 26.9%
- **Patient surveys**: 14.3%
- **Portfolio system**: 46.4%

### Compensation and Leave (Graduate Year 1)
- **Average resident/fellow compensation**: $54,126
- **Average number weeks of vacation**: 4.6
- **Sick days (paid)**: 30.3
- **Maximum number of paid days for family/medical leave**: 37
- **Maximum number of unpaid days for family/medical leave**: 22

### Major Medical Benefits
- **Major medical insurance for residents**: 100.0%
- **Major medical insurance for dependents**: 100.0%
- **Outpatient mental health insurance**: 100.0%
- **Inpatient mental health insurance**: 100.0%
- **Group life insurance**: 100.0%
- **Dental insurance**: 96.4%
- **Disability insurance**: 82.1%
- **Disability insurance for occupationally acquired HIV**: 71.4%
- **Medical insurance coverage begins when starting program**: 92.9%

Pediatrics

Professional Description
Pediatrics is a specialty that focuses on the physical, emotional, and social health of children from birth to young adulthood. Pediatric care encompasses a broad spectrum of health services ranging from preventive health care to the diagnosis and treatment of acute and chronic diseases.

Pediatrics is a discipline that deals with biological, social, and environmental influences on the developing child and with the impact of disease and dysfunction on development. Children differ anatomically, physiologically, immunologically, psychologically, developmentally, and metabolically from adults.

The pediatrician understands the constantly changing functional status of his or her patients incident to growth and development and the consequent changing standards of "normal" for age. A pediatrician is a medical specialist who is primarily concerned with the health, welfare, and development of children, and is uniquely qualified for these endeavors by virtue of interest and initial training. Maintenance of these competencies is achieved through experience, training, continuous education, self-assessment, and practice improvement.

A pediatrician is able to define accurately the child’s health status as well as to serve as a consultant and to make use of other specialists as consultants. Because the child’s welfare is heavily dependent on the home and family, the pediatrician supports efforts to create a nurturing environment. Such support includes education about healthful living and anticipatory guidance for both patients and parents.

A pediatrician participates at the community level in preventing or solving problems in child health care and publicly advocates the causes of children.

Source: American Board of Pediatrics, American Academy of Pediatrics

Prerequisites; Length of Training
No previous GME is required; length of accredited programs is 3 years.

Subspecialties
Subspecialty programs accredited by the ACGME

- Adolescent medicine
- Child abuse pediatrics
- Developmental-behavioral pediatrics
- Hospice and palliative medicine
- Neonatal-perinatal medicine
- Pediatric cardiology
- Pediatric critical care medicine
- Pediatric emergency medicine
- Pediatric endocrinology
- Pediatric gastroenterology
- Pediatric hematology/oncology
- Pediatric infectious diseases
- Pediatric nephrology
- Pediatric pulmonology
- Pediatric rheumatology
- Pediatric sports medicine
- Pediatric transplant hepatology
- Sleep medicine

American Board of Pediatrics subspecialty certificates/certificates of added qualifications

- Adolescent medicine
- Child abuse pediatrics
- Developmental-behavioral pediatrics
- Hospice and palliative medicine
- Medical toxicology
- Neonatal-perinatal medicine
- Neurodevelopmental disabilities
- Pediatric cardiology

- Pediatric nephrology
- Pediatric pulmonology
- Pediatric rheumatology
- Pediatric sports medicine
- Pediatric transplant hepatology
- Sleep medicine

Data
Unless otherwise noted, all data are for 2010.

Table 1. Pediatrics Programs

| Number of accredited programs | 198 |
| Program Data |  |
| Length of accredited training | 3 |
| Minimum number of prior years of GME required | 0 |
| Offers graduate year 1 positions, available immediately upon medical school completion | Yes |
| Average number of interviews for program year 1 positions | 143.4 |
| Percent new program directors, 2009-2010 academic year | 11.3% |

Residents/Fellows

| Total number of active residents/fellows | 7,821 |
| Average number of residents/fellows per program | 0.0 |
| Average percent female | 71.8% |
| Average percent international medical graduate (IMG) | 22.4% |

Program Faculty

| Average number of full-time physician faculty | 88.8 |
| Average number of part-time physician faculty | 16.7 |
| Average percent female full-time physician faculty | 42.2% |
| Average ratio of full-time physician faculty to resident/fellow | 1.6 |

Table 2. Data for Pediatrics Programs Listed in FREIDA

| Number of programs providing data | 164 |
| Work Schedule (Program Year 1) |  |
| Average hours on duty per week | 66.4 |
| Average maximum consecutive hours on duty | 28.3 |
| Average days off duty per week | 1.3 |
| Moonlighting allowed within institution | 63.4% |
| Night float system | 76.8% |
| Offers awareness and management of fatigue in residents/fellows | 96.4% |

Educational Setting (Program Year 1)

| Average hours/week of regularly scheduled lectures/conferences | 7.5 |
| Average percent of training in hospital outpatient clinics | 33.3% |
Average percent of training in nonhospital ambulatory care community settings 11.7%

Educational Benefits
- Program to assess/enhance medical professionalism 93.9%
- Debt management/financial counseling 80.5%
- Formal program to develop teaching skills 98.2%
- Formal mentoring program 97.6%
- Formal program to foster interdisciplinary teamwork 57.9%
- Continuous quality improvement training 97.6%
- International experience 74.4%
- Resident/fellow retreats 94.5%
- Off-campus electives 95.7%
- Hospice/home care experience 60.4%
- Cultural competence awareness 95.7%
- Instruction in medical Spanish or other non-English language 43.3%
- Alternative/complementary medicine curriculum 35.4%
- Training in identifying and reporting of domestic violence/abuse 93.9%
- MPH/MBA or PhD training 22.6%
- Research rotation 9.1%

Educational Features
- Offers additional training or educational experience beyond accredited length 14.6%
- Offers a primary care track 32.9%
- Offers a rural track 4.3%
- Offers a women’s health track 0.6%
- Offers a hospitalist track 6.7%
- Offers a research track/nonaccredited fellowship 12.2%
- Offers an other track 18.9%

Resident Evaluation
- Yearly specialty in-service examination required 98.7%
- Patient surveys 91.5%
- Portfolio system 83.6%
- 360-degree evaluations 96.3%
- Objective structured clinical examinations (OSCE) 48.2%

Program Evaluation
- Program graduation rates 93.3%
- Board certification rates 100.0%
- In-training examinations 99.4%
- Performance-based assessments 68.9%

Employment Policies and Benefits
- Part-time/shared positions 17.1%
- On-site child care 39.0%
- Subsidized child care 7.3%
- Allowance/stipend for professional expenses 95.7%
- Leave for educational meetings/conferences 70.0%
- Moving allowance 20.7%
- Housing stipend 9.1%
- On-call meal allowance 97.6%
- Free parking 71.3%
- PDAs 26.2%
- Placement assistance upon completion of program 56.1%
- Cross coverage in case of illness/disability 97.6%

Compensation and Leave (Graduate Year 1)
- Average resident/fellow compensation $48,079
- Average number weeks of vacation 3.5
- Sick days paid 16.0
- Maximum number of paid days for family/medical leave 44
- Maximum number of unpaid days for family/medical leave 72

Major Medical Benefits
- Inpatient mental health insurance 92.7%
- Group life insurance 92.7%
- Dental insurance 89.6%
- Disability insurance 95.1%
- Disability insurance for occupationally acquired HIV 77.4%
- Medical insurance coverage begins when starting program 89.0%

Adolescent Medicine

Professional Description
A pediatrician who specializes in adolescent medicine is a multidisciplinary health care specialist trained in the unique physical, psychological, and social characteristics of adolescents and their health care problems and needs.
Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

For more information

Child Abuse Pediatrics
Professional Description
Child abuse pediatrics is a subspecialty of pediatrics that educates physicians to diagnose and treat child abuse and neglect, collaborate with community agencies on child abuse prevention, provide expertise in courts of law, and participate on multidisciplinary teams investigating and managing child abuse cases.

The goal of education in this subspecialty is to prepare a physician to diagnose and manage acute and chronic manifestations of child abuse, act as a competent physician in a multidisciplinary field, and become familiar with administrative, legislative, and policy issues in child abuse.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

Elk Grove Village, IL 60007
(847) 434-4000
(847) 434-8000 Fax
www.aap.org

Developmental-Behavioral Pediatrics
Professional Description
A developmental-behavioral pediatrician is specially trained to foster understanding and promotion of optimal development of children and families through research, education, clinical care, and advocacy efforts. This assists in the prevention, diagnosis, and management of developmental difficulties and problematic behaviors in children, and in family dysfunctions that compromise children’s development.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

Hospice and Palliative Medicine
See page 180.

Medical Toxicology
Professional Description
A pediatrician who focuses on the evaluation and management of patients with accidental or intentional poisoning through exposure to prescription and non-prescription medications, drugs of abuse, household or industrial toxins, and environmental toxins.

Important areas of medical toxicology include acute pediatric and adult drug ingestion; drug abuse, addiction, and withdrawal; chemical poisoning exposure and toxicity; hazardous materials exposure and toxicity; and occupational toxicology.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited medical toxicology programs is 2 years.

For more information

Neonatal-Perinatal Medicine
Professional Description
A pediatrician who is the principal care provider for sick newborn infants. Clinical expertise is used for direct patient care and consulting with obstetrical colleagues to plan for the care of mothers who have high-risk pregnancies.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

Data
Unless otherwise noted, all data are for 2010.

Neurodevelopmental Disabilities

Professional Description
A pediatrician who treats children having developmental delays or learning disorders, including those associated with visual and hearing impairment, mental retardation, cerebral palsy, spina bifida, autism, and other chronic neurologic conditions. This specialist provides medical consultation and education and assumes leadership in the interdisciplinary management of children with neurodevelopmental disorders. They may also focus on the early identification and diagnosis of neurodevelopmental disabilities in infants and young children, as well as on changes that occur as the child with developmental disabilities grows.

Prerequisites; Length of Training
Completion of 2 years of an accredited pediatrics program in the US or Canada is required. Length of ACGME-accredited programs is 4 years.
Pediatric Cardiology

Professional Description
A pediatric cardiologist provides comprehensive care to patients with cardiovascular problems. This specialist is skilled in selecting, performing, and evaluating the structural and functional assessment of the heart and blood vessels, and in the clinical evaluation of cardiovascular disease.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Pediatric Cardiology Programs

Inpatient mental health insurance 95.2%
Group life insurance 95.2%
Dental insurance 85.7%
Disability insurance 100.0%
Pediatric Critical Care Medicine

Professional Description
A pediatrician whose expertise is in advanced life support for children from the term or near-term neonate to the adolescent. This competence extends to the critical care management of life-threatening organ system failure from any cause in both medical and surgical patients and to the support of vital physiological functions. This specialist may have administrative responsibilities for intensive care units and also facilitate patient care among other specialists.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

Data
Unless otherwise noted, all data are for 2010.

Pediatric Endocrinology

Professional Description
A pediatrician who provides expert care to infants, children and adolescents who have diseases that result from an abnormality in the endocrine glands (glands that secrete hormones). These diseases include diabetes mellitus, growth failure, unusual size for age, early or late pubertal development, birth defects, the genital region, and disorders of the thyroid, adrenal, and pituitary glands.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 3 years.

Data
Unless otherwise noted, all data are for 2010.

Pediatric Sports Medicine
Professional Description
A pediatrician responsible for continuous care in the field of sports medicine, not only for the enhancement of health and fitness, but also for the prevention of injury and illness. A sports medicine physician must have knowledge and experience in the promotion of wellness and the prevention of injury. Knowledge about special areas of medicine such as exercise physiology, biomechanics, nutrition, psychology, physical rehabilitation, epidemiology, physical evaluation, injuries (treatment and prevention and referral practice), and the role of exercise in promoting a healthy lifestyle are essential to the practice of sports medicine. The sports medicine physician requires special education to provide the knowledge to improve the health care of the individual engaged in physical exercise (sports) whether as an individual or as part of a team.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 1 year.

**Physical Medicine and Rehabilitation**

**Professional Description**
A physician certified in physical medicine and rehabilitation is often called a physiatrist. The primary goal of the physiatrist for his patients is to achieve maximal restoration of physical, psychological, social, and vocational function through comprehensive rehabilitation. Pain management is often an important part of the role of the physiatrist. For diagnosis and evaluation, a physiatrist may include electromyography to supplement the standard history, physical, X-ray, and laboratory examinations. The physiatrist has expertise in the appropriate use of therapeutic exercise, prosthetics (artificial limbs), orthotics, and mechanical and electrical devices.

**Prerequisites; Length of Training**
No previous GME is required when entering an accredited 4-year program that includes 12 months of fundamental clinical skills in areas other than physical medicine and rehabilitation; 1 year of previous GME (eg, Transitional Year) is required when entering a 3-year program.

**Subspecialties**
Subspecialty programs accredited by the ACGME
- Hospice and palliative medicine
- Neuromuscular medicine
- Pain medicine
- Pediatric rehabilitation medicine
- Spinal cord injury medicine
- Sports medicine
  
  *In 2007, ACGME-accredited pain medicine programs under anesthesiology, neurology, physical medicine and rehabilitation, and psychiatry were combined into a multidisciplinary pain medicine subspecialty.

American Board of Physical Medicine and Rehabilitation subspecialty certificates
- Hospice and palliative medicine
- Neuromuscular medicine
- Pain medicine
- Pediatric rehabilitation medicine
- Spinal cord injury medicine
- Sports medicine

**Data**
Unless otherwise noted, all data are for 2010.

Hospice and Palliative Medicine
See page 180.

Neuromuscular Medicine

Professional Description
A physiatrist, who specializes in neuromuscular medicine, possesses specialized knowledge in the science, clinical evaluation, and management of these disorders. This encompasses the knowledge of the pathology, diagnosis, and treatment of these disorders at a level that is significantly beyond the training and knowledge expected of a general physiatrist.

Neuromuscular medicine includes the evaluation and treatment of a wide range of diseases, including motor neuron disease, myopathy/neuromuscular transmission disorders, peripheral neuropathy, cranial/spinal single and multiple mononeuropathies, polyneuropathy (infectious/inflammatory), inherited neuropathy, polyneuropathy (ischemia/physical agents/toxins), and polyneuropathy/systemic disease.

Prerequisites; Length of Training
Successful completion of an ACGME-accredited program in either adult or pediatric neurology or physical medicine and rehabilitation; programs accredited by the Royal College of Physicians and Surgeons (Canada) are also accepted. Length of ACGME-accredited programs is 1 year.

For more information

Pain Medicine
See description on p. 525.

Pediatric Rehabilitation Medicine

Professional Description
A physiatrist who utilizes an interdisciplinary approach and addresses the prevention, diagnosis, treatment, and management of congenital and childhood onset physical impairments including related or secondary medical, physical, functional, psychosocial, and vocational limitations or conditions, with an understanding of the life course of disability.

This physician is trained in the identification of functional capabilities and selection of the best of rehabilitation intervention strategies, with an understanding of the continuum of care.

Prerequisites; Length of Training
A minimum of 4 years of prior GME is required. Length of ACGME-accredited programs is 2 years (or 1 year for trainees who have completed ACGME-approved combined or consecutive programs in both physical medicine and rehabilitation and pediatrics).
Spinal Cord Injury Medicine

Professional Description
A physician who addresses the prevention, diagnosis, treatment, and management of traumatic spinal cord injury and nontraumatic etiologies of spinal cord dysfunction by working in an interdisciplinary manner. Care is provided to patients of all ages on a lifelong basis and covers related medical, physical, psychological, and vocational disabilities and complications.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required in a specialty relevant to spinal cord injury medicine, such as anesthesiology, emergency medicine, family medicine, internal medicine, neurological surgery, neurology, orthopaedic surgery, pediatrics, physical medicine and rehabilitation, plastic surgery, surgery, or urology. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Sports Medicine
Professional Description
A physiatrist with special knowledge in sports medicine is responsible for continuous care in the field of sports medicine, not only for the enhancement of health and fitness, but also for the prevention and management of injury and illness. A sports medicine physician has knowledge and experience in the promotion of wellness and the role of exercise in promoting a healthy lifestyle. Knowledge of exercise physiology, biomechanics, nutrition, psychology, physical rehabilitation, and epidemiology is essential to the practice of sports medicine.

Prerequisites; Length of Training
Completion of an ACGME-accredited residency is required; length of accredited programs is 1 year.

Plastic Surgery

Professional Description
Plastic surgery deals with the repair, reconstruction, or replacement of physical defects of form or function involving the skin, musculoskeletal system, cranioaxialfacial structures, hand, extremities, breast and trunk, external genitalia, or cosmetic enhancement of these areas of the body. Cosmetic surgery is an essential component of plastic surgery. The plastic surgeon uses cosmetic surgical principles both to improve overall appearance and to optimize the outcome of reconstructive procedures.

Special knowledge and skill in the design and surgery of grafts, flaps, free tissue transfer and replantation is necessary. Competence in the management of complex wounds, the use of implantable materials, and in tumor surgery is required. Plastic surgeons have been prominent in the development of innovative techniques such as microvascular and cranioaxialfacial surgery, liposuction, and tissue transfer. Anatomy, physiology, pathology, and other basic sciences are fundamental to the specialty.

Competency in plastic surgery implies an amalgam of basic medical and surgical knowledge, operative judgment, technical expertise, ethical behavior, and interpersonal skills to achieve problem resolution and patient satisfaction.

Source: American Board of Plastic Surgery

Prerequisites; Length of Training
Accredited plastic surgery programs are either independent (3 years length) or integrated (6 years). Prerequisites for the independent programs are 1) a minimum of 3 years clinical education with progressive responsibility in a general surgery program; 2) completion of a neurological surgery, orthopaedic surgery, otolaryngology, or urology residency; or 3) completion of an educational program in oral and maxillofacial surgery approved by the American Dental Association (for individuals holding the DMD/MD or DDS/MD degree).

Subspecialties
Subspecialty programs accredited by the ACGME
- Craniofacial surgery
- Hand surgery

American Board of Plastic Surgery subspecialty certificates
- Plastic surgery within the head and neck
- Surgery of the hand

Data
Unless otherwise noted, all data are for 2010.

| Average hours/week of regularly scheduled lectures/conferences | 6.7|
| Average percent of training in hospital outpatient clinics | 19.4%|
| Average percent of training in nonhospital ambulatory care community settings | 13.9%|
| Educational Benefits             |    |
| Program to assess/enhance medical professionalism | 77.1%|
| Debt management/fiscal counseling | 65.7%|
| Formal program to develop teaching skills | 82.9%|
| Formal mentoring program | 48.8%|
| Formal program to foster interdisciplinary teamwork | 22.9%|
| Continuous quality improvement training | 88.6%|
| International experience | 40.0%|
| Resident/fellow retreats | 31.4%|
| Off-campus electives | 40.0%|
| Hospice/home care experience | 0.0%|
| Cultural competence awareness | 68.6%|
| Instruction in medical Spanish or other non-English language | 8.6%|
| Alternative/complementary medicine curriculum | 2.9%|
| Training in identifying and reporting of domestic violence/abuse | 42.9%|
| MPH/MBA or PhD training | 5.7%|
| Research rotation | 34.3%|
| Educational Features             |    |
| Offers additional training or educational experience beyond accredited length | 12.6%|
| Offers a primary care track | 5.7%|
| Offers a rural track | 0.0%|
| Offers a women's health track | 5.7%|
| Offers a hospitalist track | 0.0%|
| Offers a research track/nonaccredited fellowship | 11.4%|
| Offers an other track | 5.7%|

Program Evaluation
Yearly specialty in-service examination required | 98.1%|
Patient surveys | 40.0%|
Portfolio system | 45.7%|
360-degree evaluations | 94.3%|
Objective structured clinical examinations (OSCE) | 11.4%|

Residents Evaluation
| Yearly specialty in-service examination required | 98.1%|
| Patient surveys | 40.0%|
| Portfolio system | 45.7%|
| 360-degree evaluations | 94.3%|
| Objective structured clinical examinations (OSCE) | 11.4%|

Program Evaluation
| Program graduation rates | 85.7%|
| Board certification rates | 100.0%|
| In-training examinations | 100.0%|
Performance-based assessments: 60.0%

Employment Policies and Benefits:
- Part-time/shared positions: 0.0%
- On-site child care: 42.9%
- Subsidized child care: 2.9%
- Allowance/stipend for professional expenses: 100.0%
- Leave for educational meetings/conferences: 84.7%
- Moving allowance: 11.4%
- Housing stipend: 5.7%
- On-call meal allowance: 82.9%
- Free parking: 85.7%
- PDAs: 11.4%
- Placement assistance upon completion of program: 20.0%
- Cross coverage in case of illness/disability: 68.6%

Compensation and Leave (Graduate Year 1):
- Average resident/fellow compensation: $54,636
- Average number weeks of vacation: 5.9
- Sick days (paid): 30.3
- Maximum number of paid days for family/medical leave: 36
- Maximum number of unpaid days for family/medical leave: 70

Major Medical Benefits:
- Major medical insurance for residents: 100.0%
- Major medical insurance for dependents: 97.1%
- Outpatient mental health insurance: 91.4%
- Inpatient mental health insurance: 88.6%
- Group life insurance: 97.1%
- Dental insurance: 85.7%
- Disability insurance: 82.9%
- Disability insurance for occupationally acquired HIV: 65.7%
- Medical insurance coverage begins when starting program: 97.1%

Craniofacial Surgery (Plastic Surgery within the Head and Neck)

Professional Description
A plastic surgeon with additional training in plastic and reconstructive procedures within the head, face, neck, and associated structures, including cutaneous head and neck oncology and...
reconstruction, management of maxillofacial trauma, soft tissue repair, and neural surgery.

The field is diverse and involves a wide age range of patients, from the newborn to the aged. While both cosmetic and reconstructive surgery are practiced, there are many additional procedures that interface with them. Cosmetic procedures include otoplasty; surgery of the aging face (brow lift, blepharoplasty, face lift); rhinoplasty; facial implants (cheek, nasal, and chin); facial resurfacing; and liposuction/lipoplasty. Reconstructive procedures performed include maxillofacial trauma; skin grafts and flaps; repair of congenital facial defects (hemangiomata, cleft lip and palate, nasal abnormalities); reconstruction of the jaws and other facial bones; reanimation/rehabilitation of the paralyzed face; nerve repair; periorbital surgery; and biomedical implant insertion. Areas of research in this field include materials biocompatibility; wound healing adjuncts; skin repair/regeneration; and bone reconstruction.

Prerequisites; Length of Training
Completion of a 6-year plastic surgery program or other appropriate surgery training is required. Length of ACGME-accredited programs is 1 year.

Hand Surgery
Professional Description
A plastic surgeon with additional training in the investigation, preservation, and restoration—using medical, surgical, and rehabilitative means—of all structures of the upper extremity directly affecting the form and function of the hand and wrist.

Prerequisites; Length of Training
Completion of an ACGME-accredited general surgery, orthopaedic surgery, or plastic surgery program is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

**Preventive Medicine**

**Professional Description**
A preventive medicine specialist focuses on the health of individuals and defined populations to protect, promote, and maintain health and well-being and to prevent disease, disability, and premature death. The distinctive components of preventive medicine include:
- Biostatistics and the application of biostatistical principles and methodology
- Epidemiology and its application to population-based medicine and research
- Health services management and administration, including developing, assessing, and assuring health policies; planning, implementing, directing, budgeting, and evaluating population health and disease management programs; and utilizing legislative and regulatory processes to enhance health
- Control of environmental factors that may adversely affect health
- Clinical preventive medicine activities, including measures to promote health and prevent the occurrence, progression, and disabling effects of disease and injury
- Assessment of social, cultural, and behavioral influences on health

A preventive medicine physician may be a specialist in general preventive medicine, public health, occupational medicine, or aerospace medicine. This specialist works with large population groups as well as with individual patients to promote health and understand the risks of disease, injury, disability, and death, seeking to modify and eliminate these risks.

**Prerequisites; Length of Training**
Accredited programs are either 1, 2, or 3 years in length.

**Specialty Areas**
Programs in specialty areas accredited by the ACGME
- Aerospace medicine
- Occupational medicine
- Public health and general preventive medicine

American Board of Preventive Medicine specialty area certificates
- Aerospace medicine
- Occupational medicine
- Public health and general preventive medicine

**Subspecialties**
Subspecialty programs accredited by the ACGME
- Medical toxicology
- Undersea and hyperbaric medicine

American Board of Preventive Medicine subspecialty certificates
- Medical toxicology
- Undersea and hyperbaric medicine

**Data**
Unless otherwise noted, all data are for 2010.

| Table 1. Preventive Medicine Programs Listed in FREIDA |
|----------------|------------------|
| Number of accredited programs | 72 |

**Program Data**
- Length of accredited training: 1/2/3
- Minimum number of prior years of GME required: 1/0
- Offers graduate year 1 positions, available immediately upon medical school completion: Some
- Average number of interviews for program year 1 positions: 6.8
- Percent new program directors, 2009-2010 academic year: 17.1%

**Residents/Fellows**
- Total number of active residents/fellows: 224
- Average number of residents/fellows per program: 0.0
- Average percent female: 58.5%
- Average percent international medical graduate (IMG): 13.8%
- Average number of full-time physician faculty: 9.1
- Average number of part-time physician faculty: 4.1
- Average percent female full-time physician faculty: 34.4%
- Average ratio of full-time physician faculty to resident/fellow: 1.4

**Table 2. Data for Preventive Medicine Programs Listed in FREIDA**
Number of programs providing data: 20

**Work Schedule (Program Year 1)**
- Average hours on duty per week: 44.4
- Average maximum consecutive hours on duty: 12.5
- Average days off duty per week: 2.0
- Moonlighting allowed within institution: 75.0%
- Night float system: 5.0%
- Offers awareness and management of fatigue in residents/fellows: 90.0%

**Educational Setting (Program Year 1)**
- Average hours/week of regularly scheduled lectures/conferences: 9.6
- Average percent of training in hospital outpatient clinics: 15.6%
- Average percent of training in nonhospital ambulatory care community settings: 24.8%

**Educational Benefits**
- Program to assess/enhance medical professionalism: 90.0%
- Debt management/financial counseling: 30.0%
- Formal program to develop teaching skills: 50.0%
- Formal mentoring program: 45.0%
- Formal program to foster interdisciplinary teamwork: 35.0%
- Continuous quality improvement training: 75.0%
- International experience: 30.0%
- Resident/fellow retreats: 35.0%
- Off-campus electives: 100.0%
- Hospice/home care experience: 15.0%
- Cultural competence awareness: 80.0%
- Instruction in medical Spanish or other non-English language: 5.0%
- Alternative/complementary medicine curriculum: 30.0%
- Training in identifying and reporting of domestic violence/abuse: 35.0%
- MPH/MBA or PhD training: 95.0%
- Research rotation: 65.0%

**Educational Features**
- Offers additional training or educational experience beyond accredited length: 16.1%
- Offers a primary care track: 10.0%
Aerospace Medicine

Professional Description

The focus of aerospace medicine is on the determination and maintenance of the health, safety, and performance of persons involved in air and space travel. Aerospace medicine, as a broad field of endeavor, offers dynamic challenges and opportunities for physicians, nurses, physiologists, bioenvironmental engineers, industrial hygienists, environmental health practitioners, human factors specialists, psychologists, and other professionals. Those in the field are dedicated to enhancing health, promoting safety, and improving performance of individuals who work or travel in unusual environments. The environments of space and aviation provide significant challenges, such as microgravity, radiation exposure, G-forces, emergency ejection injuries, and hypoxic conditions, for those embarking in their exploration. Areas of interest range from space and atmospheric flight to underwater activities, and the environments that are studied cover a wide spectrum, extending from the "micro-environments" of space or diving suits to those of "Spaceship Earth."

Occupational Medicine

Professional Description

Occupational and environmental medicine is perhaps the most wide ranging of all medical specialties. It is the medical specialty devoted to the prevention and management of occupational and environmental injury, illness and disability, and promotion of health and productivity of workers, their families, and communities.

Occupational medicine was previously identified as “industrial medicine.” This term was used when heavy industry (eg, lumbering, automobile manufacturing, mining, railroads, steel manufacturers,
etc.) employed physicians to provide acute medical and surgical care for employees. By 1945, medical programs had spread to business organizations with a predominance of clerical and service employees. Large banks, insurance companies, mercantile establishments, etc, could not be described as industrial. Therefore, the broader designation of “occupational medicine” came into common use.

Today, the complexity and pervasiveness of modern industrial processes afford occupational and environmental medicine physicians the opportunity to address work site and environmental concerns and such community health and policy issues as atmospheric pollution, product safety, health promotion, and benefits value management. The term “environmental medicine” has also recently been used to describe this growing, challenging, modern medical specialty. Environmental medicine has been defined as the branch of medical science that addresses the impact of chemical and physical stressors on individuals and groups. Both occupational and environmental medicine use similar skills and focus on the recognition and prevention of hazardous exposures.

Public Health and General Preventive Medicine

Professional Description
A public health physician helps guide a community, agency, health organization, medical office, or program in pursuit of group or community health goals. This includes physicians who plan, provide, and administer public health and preventive medicine services in public, private, or voluntary settings.

The public health practitioner:
- Performs epidemiological investigations of acute and chronic diseases and injuries
- Uses appropriate statistical techniques in the design of studies and interpretation of findings relative to disease interventions performed on individuals and in monitoring and experimental protocols
- Plans, administers, and evaluates programs to promote health and prevent disease in medical practice settings and in public health agencies
- Designs, performs, and evaluates clinical trials
- Applies clinical interventions in the general population
- Assesses health risk factors in individual persons and groups and prescribes appropriate interventions
- Assesses and ameliorates the impact of environmental and occupational risk factors on individual persons and on groups
- Assesses the clinical and public health program needs of populations, eg, workers, communities, and military groups

Medical Toxicology

Professional Description
A specialist who is an expert in evaluating and managing patients with accidental or intentional poisoning through exposure to prescription and nonprescription medications, drugs of abuse, household or industrial toxins, and environmental toxins. Important areas of medical toxicology include acute pediatric and adult drug ingestion; drug abuse, addiction, and withdrawal; chemical poisoning exposure and toxicity; hazardous materials exposure and toxicity; and occupational toxicology.

Prerequisites; Length of Training
Completion of an ACGME-accredited residency is required; length of accredited programs is 2 years.

For more information
American College of Medical Toxicology
10645 N Tatum Boulevard, Suite 200-111
Phoenix, AZ 85028

Undersea and Hyperbaric Medicine

Professional Description
A specialist who treats decompression illness and diving accident cases and uses hyperbaric oxygen therapy to treat conditions such as carbon monoxide poisoning, gas gangrene, nonhealing wounds, tissue damage from radiation and burns, and bone infections. This specialist also serves as consultant to other physicians in all aspects of hyperbaric chamber operations, and assesses risks and applies appropriate standards to prevent disease and disability in divers and other persons working in altered atmospheric conditions.

Prerequisites; Length of Training
Completion of an ACGME-accredited residency is required; length of accredited programs is 1 year.

Psychiatry

Professional Description
A psychiatrist specializes in the prevention, diagnosis, and treatment of mental, addictive, and emotional disorders such as schizophrenia and other psychotic disorders, mood disorders, anxiety disorders, substance-related disorders, sexual and gender identity disorders, and adjustment disorders. The psychiatrist is able to understand the biologic, psychologic, and social components of illness, and therefore is uniquely prepared to treat the whole person. A psychiatrist is qualified to order diagnostic laboratory tests and to prescribe medications, evaluate and treat psychologic and interpersonal problems, and intervene with families who are coping with stress, crises, and other problems in living.

Prerequisites; Length of Training
No previous GME is required. ACGME-accredited programs are 4 years.
Physicians may also enter programs at the GY2 level only after successfully completing one of the following:
• One clinical year of training in an ACGME-accredited internal medicine, family medicine, or pediatrics program
• An ACGME-accredited transitional year program
• One year of an ACGME-accredited residency in a clinical specialty requiring comprehensive and continuous patient care
For physicians entering at the GY2 level, the GY1 year may be credited toward the 48-month requirement.

Subspecialties
Subspecialty programs accredited by the ACGME
• Addiction psychiatry
• Child and adolescent psychiatry
• Forensic psychiatry
• Geriatric psychiatry
• Hospice and palliative medicine
• Pain medicine
• Psychosomatic medicine
• Sleep medicine
American Board of Psychiatry and Neurology subspecialty certificates
• Addiction psychiatry
• Child and adolescent psychiatry
• Epilepsy
• Forensic psychiatry
• Geriatric psychiatry
• Hospice and palliative medicine
• Pain medicine
• Psychosomatic medicine
• Sleep medicine

Child and Adolescent Psychiatry
Professional Description
A psychiatrist with additional training in the diagnosis and treatment of developmental, behavioral, emotional, and mental disorders of childhood and adolescence.

Prerequisites; Length of Training
A minimum of 3 years of prior GME is required. Length of ACGME-accredited programs is 2 years.

Data
Unless otherwise noted, all data are for 2010.
**Program Data**
- Length of accredited training: 2
- Minimum number of prior years of GME required: 3
- Offers graduate year 1 positions, available immediately upon medical school completion: No
- Average number of interviews for program year 1 positions: 12.8
- Percent new program directors, 2009-2010 academic year: 11.3%

**Residents/Fellows**
- Total number of active residents/fellows: 725
- Average number of residents/fellows per program: 0.0
- Average percent female: 60.1%
- Average percent international medical graduate (IMG): 30.1%

**Program Faculty**
- Average number of full-time physician faculty: 9.2
- Average number of part-time physician faculty: 3.7
- Average percent female full-time physician faculty: 46.8%
- Average ratio of full-time physician faculty to resident/fellow: 0.9

**Table 2. Data for Child and Adolescent Psychiatry Programs Listed in FREIDA**
- Number of programs providing data: 69

**Work Schedule (Program Year 1)**
- Average hours on duty per week: 44.4
- Average maximum consecutive hours on duty: 15.9
- Average days off duty per week: 1.8
- Moonlighting allowed within institution: 87.0%
- Night float system: 4.3%
- Offers awareness and management of fatigue in residents/fellows: 92.8%

**Educational Setting (Program Year 1)**
- Average hours/week of regularly scheduled lectures/conferences: 6.7
- Average percent of training in hospital outpatient clinics: 28.7%
- Average percent of training in nonhospital ambulatory care community settings: 20.7%

**Educational Benefits**
- Program to assess/enhance medical professionalism: 84.1%
- Debt management/financial counseling: 42.0%
- Formal program to develop teaching skills: 91.3%
- Formal mentoring program: 69.6%
- Formal program to foster interdisciplinary teamwork: 49.3%
- Continuous quality improvement training: 92.8%
- International experience: 14.5%
- Resident/fellow retreats: 79.7%
- Off-campus electives: 88.4%
- Hospice/home care experience: 8.7%
- Cultural competence awareness: 97.1%
- Instruction in medical Spanish or other non-English language: 18.8%
- Alternative/complementary medicine curriculum: 30.4%
- Training in identifying and reporting of domestic violence/abuse: 87.0%
- MPH/MBA or PhD training: 20.3%
- Research rotation: 36.2%

**Educational Features**
- Offers additional training or educational experience beyond accredited length: 6.2%
- Offers a primary care track: 7.2%
- Offers a rural track: 7.2%
- Offers a women’s health track: 0.0%
- Offers a hospitalist track: 0.0%
- Offers a research track/nonaccredited fellowship: 20.3%
- Offers an other track: 17.4%

**Resident Evaluation**
- Yearly specialty in-service examination required: 96.3%
- Patient surveys: 52.2%

**Portfolio system**: 50.7%
**360-degree evaluations**: 88.4%
**Objective structured clinical examinations (OSCE)**: 43.5%

**Program Evaluation**
- Program graduation rates: 92.8%
- Board certification rates: 94.2%
- In-training examinations: 95.7%
- Performance-based assessments: 63.8%

**Employment Policies and Benefits**
- Part-time/shared positions: 39.1%
- On-site child care: 37.7%
- Subsidized child care: 7.2%
- Allowance/stipend for professional expenses: 88.4%
- Leave for educational meetings/conferences: 87.1%
- Moving allowance: 4.3%
- Housing stipend: 1.4%
- On-call meal allowance: 55.1%
- Free parking: 55.1%
- PDAs: 4.3%
- Placement assistance upon completion of program: 29.0%
- Cross coverage in case of illness/disability: 91.3%

**Compensation and Leave (Graduate Year 1)**
- Average resident/fellow compensation: $53,456
- Average number weeks of vacation: 3.6
- Sick days (paid): 18.5
- Maximum number of paid days for familyomedical leave: 35
- Maximum number of unpaid days for familymedical leave: 54

**Major Medical Benefits**
- Major medical insurance for residents: 98.6%
- Major medical insurance for dependents: 95.7%
- Outpatient mental health insurance: 97.1%
- Inpatient mental health insurance: 97.1%
- Group life insurance: 92.8%
- Dental insurance: 87.0%
- Disability insurance: 91.3%
- Disability insurance for occupationally acquired HIV: 72.5%
- Medical insurance coverage begins when starting program: 88.4%

724 Graduate Medical Education Directory 2011-2012
Psycosomatic Medicine

Professional Description
A psychiatrist who specializes in the diagnosis and treatment of psychiatric disorders and symptoms in complex medically ill patients. This subspecialty includes treatment of patients with acute or chronic medical, neurological, obstetrical, or surgical illness in which psychiatric illness affects their medical care and/or quality of life. Examples are HIV infection, organ transplantation, heart disease, renal failure, cancer, stroke, traumatic brain injury, high-risk pregnancy, and chronic obstructive pulmonary disease, among others. Patients also may be those who have a psychiatric disorder that is the direct consequence of a primary medical condition, or a somatoform disorder or psychological factors affecting a general medical condition. Psychiatrists specializing in psychosomatic medicine provide consultation-liaison services in general medical hospitals, attend on medical psychiatry inpatient units, and provide collaborative care in primary care and other outpatient settings.

Prerequisites; Length of Training
A minimum of 4 years of prior GME is required. Length of ACGME-accredited programs is 1 year.

Radiation Oncology

Professional Description
A radiologist who deals with the therapeutic applications of radiant energy and its modifiers and the study and management of disease, especially malignant tumors.

Prerequisites; Length of Training
Resident education in radiation oncology includes 5 years of accredited, clinically oriented GME, of which 4 years must be in radiation oncology. GY1 training must be spent in internal medicine, family medicine, obstetrics/gynecology, surgery or surgical specialties, pediatrics, a year of categorical radiation oncology, or a transitional year program. ACGME-accredited programs in radiation oncology are 4 years.

Subspecialties
Subspecialty programs accredited by the ACGME
- Hospice and palliative medicine

American Board of Radiology subspecialty certificates
- Hospice and palliative medicine

Data
Unless otherwise noted, all data are for 2010.

Residents/Fellows
| Total number of active residents/follows | 582 |
| Average number of residents/fellows per program | 0.0 |
| Average percent female | 33.2% |
| Average percent international medical graduate (IMG) | 2.9% |

Program Faculty
| Average number of full-time physician faculty | 10.2 |
| Average number of part-time physician faculty | 0.6 |
| Average percent female full-time physician faculty | 26.0% |
| Average ratio of full-time physician faculty to resident/fellow | 1.0 |

Table 2. Data for Radiation Oncology Programs Listed in FREIDA
| Number of programs providing data | 38 |
| Work Schedule (Program Year 1) | |
| Average hours on duty per week | 49.5 |
| Average maximum consecutive hours on duty | 13.1 |
| Average days off duty per week | 1.9 |
| Moonlighting allowed within institution | 36.8% |
| Night float system | 0.0% |
| Offers awareness and management of fatigue in residents/fellows | 92.1% |

Educational Setting (Program Year 1)
| Average hours/week of regularly scheduled lectures/conferences | 8.9 |
| Average percent of training in hospital outpatient clinics | 87.7% |
| Average percent of training in nonhospital ambulatory care community settings | 5.0% |

Educational Benefits
| Program to assess/enhance medical professionalism | 73.7% |
| Debt management/financial counseling | 39.5% |
| Formal program to develop teaching skills | 68.4% |
| Formal mentoring program | 44.7% |
| Formal program to foster interdisciplinary teamwork | 36.8% |
| Continuous quality improvement training | 89.5% |
| International experience | 15.8% |
| Resident/fellow retreats | 34.2% |
| Off-campus electives | 78.9% |
| Cultural competence awareness | 76.3% |
| Hospice/home care experience | 13.2% |
| Alternative/complementary medicine curriculum | 15.8% |
| Training in identifying and reporting of domestic violence/abuse | 42.1% |
| MPH/MBA or PhD training | 26.3% |
| Research rotation | 63.2% |

Educational Features
| Offers additional training or educational experience beyond accredited length | 4.5% |
| Offers a primary care track | 2.6% |
| Offers a rural track | 2.6% |
| Offers a women’s health track | 2.6% |
| Offers a hospitalist track | 2.6% |
| Offers a research track/nonaccredited fellowship | 21.1% |
| Offers an other track | 12.2% |

Resident Evaluation
| Yearly specialty in-service examination required | 96.9% |
| Patient surveys | 39.5% |
| Portfolio system | 34.2% |
| 360-degree evaluations | 94.7% |
| Objective structured clinical examinations (OSCE) | 7.9% |

Program Evaluation
| Program graduation rates | 84.2% |
| Board certification rates | 97.4% |
| In-training examinations | 94.7% |
| Performance-based assessments | 34.2% |

Employment Policies and Benefits
| Part-time/shared positions | 0.0% |
| On-site child care | 26.3% |
| Subsidized child care | 5.3% |
| Allowance/stipend for professional expenses | 97.4% |
| Leave for educational meetings/conferences | 85.7% |
| Moving allowance | 2.6% |
| Housing stipend | 2.6% |
| On-call meal allowance | 44.7% |
| Free parking | 44.7% |
| PAs | 21.1% |
| Placement assistance upon completion of program | 15.8% |
| Cross coverage in case of illness/disability | 81.6% |

Compensation and Leave (Graduate Year 1)
| Average resident/fellow compensation | $49,120 |
| Average number weeks of vacation | 6.0 |
| Sick days (paid) | 21.9 |
| Maximum number of paid days for family/medical leave | 39 |
| Maximum number of unpaid days for family/medical leave | 53 |

Graduate Medical Education Directory 2011-2012 769
Major Medical Benefits

Major medical insurance for residents 97.4%
Major medical insurance for dependents 97.4%
Outpatient mental health insurance 92.1%
Inpatient mental health insurance 92.1%
Group life insurance 89.5%
Dental insurance 92.1%
Disability insurance 89.5%
Disability insurance for occupationally acquired HIV 76.3%
Medical insurance coverage begins when starting program 92.1%

Radiology-Diagnostic

Professional Description
A radiologist utilizes radiologic methodologies to diagnose and treat disease. Physicians practicing in the field of radiology most often specialize in radiology, diagnostic radiology, radiation oncology, or radiologic physics.

A diagnostic radiologist utilizes X-ray, radionuclides, ultrasound, and electromagnetic radiation to diagnose and treat disease.

Prerequisites; Length of Training
Resident education in diagnostic radiology includes 5 years of clinically oriented GME, of which 4 years must be in diagnostic radiology. The clinical year must consist of ACGME, RCPSC, or equivalent accredited training in internal medicine, pediatrics, surgery or surgical specialties, obstetrics and gynecology, neurology, family medicine, emergency medicine, or any combination of these, or an ACGME- or equivalent accredited transitional year. ACGME-accredited programs in diagnostic radiology are 4 years.

Subspecialties
Subspecialty programs accredited by the ACGME
- Abdominal radiology
- Endovascular surgical neuroradiology
- Musculoskeletal radiology
- Neuroradiology
- Nuclear radiology
- Pediatric radiology
- Vascular and interventional radiology

American Board of Radiology subspecialty certificates
- Hospice and palliative medicine
- Neuroradiology
- Nuclear radiology
- Pediatric radiology
- Vascular and interventional radiology

Data
Unless otherwise noted, all data are for 2010.

Specialties/Programs
Abdominal Radiology

Professional Description
Abdominal radiology constitutes the application and interpretation of conventional radiology, computed tomography, ultrasonography, magnetic resonance (MR) imaging, nuclear medicine, fluoroscopy, and interventional methods customarily included within the specialty of diagnostic radiology as they apply to diseases involving the gastrointestinal tract, genitourinary tract, and the intraperitoneal and extra peritoneal abdominal organs.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited diagnostic radiology residency, or other training judged suitable by the program director, is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Endovascular Surgical Neuroradiology

Professional Description
Endovascular surgical neuroradiology is a subspecialty that uses catheter technology, radiologic imaging, and clinical expertise to diagnose and treat diseases of the central nervous system. Practitioners have training and experience in:

• Signs and symptoms of disorders amenable to diagnosis and treatment by endovascular surgical neuroradiology techniques
• Neurological examinations to evaluate patients with neurological disorders
• Pathophysiology and natural history of these disorders
• Indications and contraindications to endovascular surgical neuroradiology procedures
• Clinical and technical aspects of endovascular surgical neuroradiology procedures
• Medical and surgical alternatives
• Preoperative and postoperative management of endovascular patients
• Neurointensive care management
• Fundamentals of imaging physics and radiation biology
• Interpretation of radiographic studies pertinent to the practice

Prerequisites; Length of Training
A minimum of 4 years of prior GME is required. Length of ACGME-accredited programs is 1 year.

Musculoskeletal Radiology

Professional Description
Musculoskeletal radiologists use imaging examinations and procedures to analyze disorders of the musculoskeletal system, including bones, joints, and soft tissues. The imaging methods and procedures include, but are not necessarily limited to, routine radiography, computed tomography, ultrasonography, radionuclide scintigraphy, magnetic resonance, arthrography, and image-guided percutaneous biopsy techniques.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited diagnostic radiology residency, or other training judged suitable by the program director, is required. Length of ACGME-accredited programs is 1 year.

Neuroradiology

Professional Description
A radiologist who diagnoses and treats diseases utilizing imaging procedures as they relate to the brain, spine and spinal cord, head, neck, and organs of special sense in adults and children.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited diagnostic radiology residency, or other training judged suitable by the program director, is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Nuclear Radiology
Professional Description
A radiologist involved in the analysis and imaging of radionuclides and radiolabeled substances in vitro and in vivo for diagnosis, and the administration of radionuclides and radiolabeled substances for the treatment of disease.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited diagnostic radiology residency, or other training judged suitable by the program director, is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Nuclear Radiology Programs
Number of accredited programs 21
Program Data
Length of accredited training 1
Minimum number of prior years of GME required No

Pediatric Radiology
Professional Description
A pediatric radiologist is proficient in all forms of diagnostic imaging as it pertains to treating diseases in the newborn, infant, child, and adolescent. This specialist has knowledge of both imaging and interventional procedures related to the care and management of diseases of children. A pediatric radiologist must be highly knowledgeable of all organ systems as they relate to growth and development, congenital malformations, diseases peculiar to infants and children, and diseases that begin in childhood but cause substantial residual impairment in adulthood.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited diagnostic radiology residency, or other training judged suitable by the program director, is required. Length of ACGME-accredited programs is 1 year.

Data
Unless otherwise noted, all data are for 2010.

Table 1. Pediatric Radiology Programs

Sleep Medicine

Professional Description
Sleep medicine is a multidisciplinary subspecialty of family medicine, internal medicine, psychiatry, pediatrics, neurology, and otolaryngology.

Sleep medicine is a discipline of medical practice in which sleep disorders are assessed, monitored, treated, and prevented by using a combination of techniques (clinical evaluation, physiologic testing, imaging, and intervention) and medication. Specialists in sleep medicine are expected to:

- Participate in an interdisciplinary care of patients of all ages that incorporates aspects of psychiatry, neurology, internal medicine, epidemiology, surgery, pediatrics and basic science
- Acquire detailed knowledge of the sleep and respiratory control centers, physiology, and neurobiology underlying sleep and wakefulness
- Diagnose and manage sleep disorder patients in outpatient and inpatient settings

Surgery-General

Professional Description

1. The scope of general surgery

   General surgery is a discipline that requires knowledge of and familiarity with a broad spectrum of diseases that may require surgical treatment. By necessity, the breadth and depth of this knowledge will vary by disease category. In most areas, the surgeon will be expected to be competent in diagnosing and treating the full spectrum of disease. However, there are some types of disease in which comprehensive knowledge and experience is not gained in the course of a standard surgical residency. In these areas, the surgeon will be able to recognize and treat a select group of conditions within a disease category.

2. The required residency experience for initial certification in general surgery

   Residency training in general surgery requires experience in all of the following content areas:
   - Alimentary tract
   - Abdomen and its contents
   - Breast, skin and soft tissue
   - Endocrine system
   - Organ transplantation
   - Pediatric surgery
   - Surgical critical care
   - Surgical oncology (including head and neck surgery)
   - Trauma/burns and acute care surgery
   - Vascular surgery

   General surgery as a field comprises, but is not limited to, the performance of operations. Additional expected knowledge and experience in the above areas includes:
   - Clinical knowledge, including epidemiology, anatomy, physiology, clinical presentation, and pathology (including neoplasia).
   - Knowledge of the scientific foundations, including wound healing; infection; fluid management; shock and resuscitation; immunology; antibiotic usage; metabolism; and use of enteral and parenteral nutrition.
   - Experience and skill in the clinical evaluation and management, or stabilization and referral of patients with surgical diseases. This includes appropriate use and interpretation of radiologic imaging; indications for surgery and non-surgical treatment; preoperative, operative and postoperative care; and management of comorbidities and complications.

3. The following disciplines have training programs related to, but separate from, general surgery. As the primary surgical practitioner in many circumstances, the certified general surgeon is required to be familiar with diseases and operative techniques in these areas. The certified general surgeon will have experience during training that will allow for diagnosis and management of a select group of conditions in these areas. However, comprehensive knowledge and management of conditions in these areas generally requires additional training.
   - Organ Transplantation
   - Pediatric Surgery
   - Thoracic Surgery
   - Vascular Surgery

4. In addition, the certified general surgeon is expected to be able to recognize and provide early management and appropriate referral for urgent and emergent problems in the surgical fields of:
   - Gynecology
   - Urology
   - Neurosurgery
   - Orthopaedics and Hand Surgery

5. The certified general surgeon is also expected to have knowledge and skills in the management and team-based interdisciplinary care of the following specific patient groups:
   - Terminally ill patients, to include palliative care and the management of pain, weight loss and cachexia in patients with malignant and chronic conditions.
   - Morbidly obese patients, to include metabolic derangements, weight-loss surgery and the counseling of patients and families.
   - Geriatric surgical patients, to include operative and nonoperative care, management of comorbid chronic diseases, and the counseling of patients and families.
   - Culturally diverse groups of patients.

Source: American Board of Surgery

Prerequisites; Length of Training

No prior GME is required. ACGME-accredited programs in general surgery are 5 years.

Subspecialties

Subspecialty programs accredited by the ACGME

- Advanced surgical oncology
- Hand surgery
- Hospice and palliative medicine
- Pediatric surgery
- Surgical critical care
- Vascular surgery

Other American Board of Surgery specialty certificates

- Vascular surgery

American Board of Surgery subspecialty certificates

- Hospice and palliative medicine
- Pediatric surgery
- Surgery of the hand
- Surgical critical care

Surgery residency performance data for board certification examinations

The American Board of Surgery has posted online the 5-year average pass rate of first-time examinees for all ACGME-accredited surgery residency programs on the Surgery Qualifying and Surgery Certifying Examinations, as well as a combined first-time pass rate for both examinations. These data are intended for medical students who are interested in surgical residencies, as one factor that may be relevant in choosing which programs to pursue.

Data

Unless otherwise noted, all data are for 2010.

Hand Surgery

Professional Description
A surgeon with expertise in the investigation, preservation, and restoration by medical, surgical, and rehabilitative means of all structures of the upper extremity directly affecting the form and function of the hand and wrist.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited general surgery, orthopaedic surgery, or plastic surgery residency program is required. Length of ACGME-accredited programs is 1 year.

Hospice and Palliative Medicine
See page 180.

Pediatric Surgery

Professional Description
Pediatric surgery is defined as the diagnostic, preoperative, operative, and postoperative surgical management of congenital and acquired abnormalities and diseases, be they developmental, inflammatory, neoplastic, or traumatic, in the neonatal and pediatric age groups. The scope of this discipline is considered to be essentially the same as general surgery, focused especially in infancy, but to include older children with those conditions customarily treated in children's hospitals and pediatric surgical divisions of large general hospitals.

Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited general surgery residency is required. Length of ACGME-accredited programs is 2 years.

Data
Unless otherwise noted, all data are for 2010.

Surgical Critical Care

Professional Description
Surgical critical care is a specialty of surgery and a primary component of general surgery related to the care of patients with acute, life-threatening, or potentially life-threatening surgical conditions. Surgical critical care not only incorporates knowledge and skills of nonoperative techniques for supportive care for critically ill patients but also a broad understanding of the relationship between critical surgical illness and surgical procedures. Although much of this knowledge and skills is common to critical care specialists from a variety of medical disciplines, the diplomate in surgical critical care has specialized expertise relating both to the physiologic responses to tissue injury from trauma, burns, operation, infections, acute inflammation, or ischemia and to the ways these responses interact with other disease processes.

Specialists in surgical critical care possess advanced knowledge and skills that enable them to provide comprehensive care to critically ill patients from all surgical specialties and in all age groups. Care for the critically ill surgical patient may take place in a variety of settings, eg, prehospital situations, the emergency department, the operating room, and intensive care units. Because the care of such patients involves skill in a number of disciplines, as well as an understanding of surgery, the specialist in surgical critical care must have a broad knowledge base and expertise concerning the biology of the critically ill surgical patient and the support of organ system function.
Prerequisites; Length of Training
Satisfactory completion of an ACGME- or RCPSC-accredited general surgery residency is required. Length of ACGME-accredited programs is 1 year, and may be completed while in residency.

Data
Unless otherwise noted, all data are for 2010.

Vascular Surgery
Professional Description
Vascular surgery encompasses the diagnosis and management of disorders of the arterial, venous, and lymphatic systems, exclusive of the intracranial vessels and the heart. In addition to experience
with dissection and control of blood vessels that general surgery trainees gain, diplomas in vascular surgery, by virtue of additional training, should have significant experience with all aspects of treating patients with all types of vascular disease, including diagnosis, medical treatment, and reconstructive vascular surgical and endovascular techniques. Specialists in vascular surgery should possess the advanced knowledge and skills to provide comprehensive care to patients with vascular disease, understand the needs of these patients, teach this information to others, provide leadership within their organizations, conduct or participate in research in vascular disorders, and demonstrate self-assessment of their outcomes.

The vascular surgeon must have advanced knowledge and experience with the management of vascular problems, including:

1. All elements of clinical evaluation; noninvasive testing including plethysmography, duplex ultrasonography, magnetic resonance imaging, CT scans, angiography, and other diagnostic tests as they are utilized in the diagnosis of vascular disease.

3. Indications and techniques relating to open operative treatment of vascular disorders, to include the entire spectrum of interventions used to treat vascular disorders including occlusive, aneurysmal, and inflammatory disease involving the arteries and veins of the body except the intracranial vessels and vessels intrinsic to the heart. This includes the cerebrovascular system including intrathoracic arch branches but exclusive of the intracranial vessels, and also includes the entire descending thoracic and abdominal aorta, the venous system of the chest and abdomen, the visceral and renal arteries, and the arteries and veins of the pelvis and upper and lower extremities.

4. Indications and techniques relating to endovascular interventions including balloon angioplasty and/or stenting of all vessels (excluding the intracranial and coronary arteries), aortic and peripheral artery endovascular stent graft placement, thrombolysis, and other adjuncts for vascular reconstructions.

5. The perioperative critical care of the vascular surgery patient.

Prerequisites; Length of Training

Satisfactory completion of an ACGME- or BCSC-accredited general surgery program is required to enter ACGME-accredited programs of 2 years. For the integrated model, which incorporates the core surgical education, the length is 5 years.

Data

Unless otherwise noted, all data are for 2010.
