1                    **ACGME Program Requirements for Graduate Medical Education**  
2                    **in Pediatric Anesthesiology**

3  
4                    **Common Program Requirements (Fellowship) are in BOLD**

5  
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.  
9

**Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

10  
11 **Introduction**

12  
13 **Int.A.**        *Fellowship is advanced graduate medical education beyond a core  
14 residency program for physicians who desire to enter more specialized  
15 practice. Fellowship-trained physicians serve the public by providing  
16 subspecialty care, which may also include core medical care, acting as a  
17 community resource for expertise in their field, creating and integrating  
18 new knowledge into practice, and educating future generations of  
19 physicians. Graduate medical education values the strength that a diverse  
20 group of physicians brings to medical care.*

21  
22 *Fellows who have completed residency are able to practice independently  
23 in their core specialty. The prior medical experience and expertise of  
24 fellows distinguish them from physicians entering into residency training.  
25 The fellow's care of patients within the subspecialty is undertaken with  
26 appropriate faculty supervision and conditional independence. Faculty  
27 members serve as role models of excellence, compassion,  
28 professionalism, and scholarship. The fellow develops deep medical  
29 knowledge, patient care skills, and expertise applicable to their focused  
30 area of practice. Fellowship is an intensive program of subspecialty clinical  
31 and didactic education that focuses on the multidisciplinary care of  
32 patients. Fellowship education is often physically, emotionally, and  
33 intellectually demanding, and occurs in a variety of clinical learning  
34 environments committed to graduate medical education and the well-being  
35 of patients, residents, fellows, faculty members, students, and all members  
36 of the health care team.*

37  
38 *In addition to clinical education, many fellowship programs advance  
39 fellows' skills as physician-scientists. While the ability to create new  
40 knowledge within medicine is not exclusive to fellowship-educated  
41 physicians, the fellowship experience expands a physician's abilities to  
42 pursue hypothesis-driven scientific inquiry that results in contributions to  
43 the medical literature and patient care. Beyond the clinical subspecialty  
44 expertise achieved, fellows develop mentored relationships built on an  
45 infrastructure that promotes collaborative research.*

46  
47 **Int.B.**        **Definition of Subspecialty**

48  
49 Pediatric anesthesiology involves caring for pediatric patients in the operating  
50 rooms and other anesthetizing locations, the post-operative anesthesia care unit,  
51 and in intensive care units. Clinical education experiences include providing  
52 anesthesia both for inpatient and outpatient surgical procedures, and for non-  
53 operative procedures outside the operating rooms, as well as pre-anesthesia  
54 preparation and post-anesthesia care, pain management, and advanced life  
55 support for neonates, infants, children, and adolescents.

56  
57 **Int.C. Length of Educational Program**

58  
59 The educational program in pediatric anesthesiology must be 12 months in  
60 length. <sup>(Core)\*</sup>

61  
62 **I. Oversight**

63  
64 **I.A. Sponsoring Institution**

65  
66 *The Sponsoring Institution is the organization or entity that assumes the*  
67 *ultimate financial and academic responsibility for a program of graduate*  
68 *medical education consistent with the ACGME Institutional Requirements.*

69  
70 *When the Sponsoring Institution is not a rotation site for the program, the*  
71 *most commonly utilized site of clinical activity for the program is the*  
72 *primary clinical site.*

73

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

74

75 **I.A.1. The program must be sponsored by one ACGME-accredited**  
76 **Sponsoring Institution. <sup>(Core)</sup>**

77

78 **I.B. Participating Sites**

79

80 *A participating site is an organization providing educational experiences or*  
81 *educational assignments/rotations for fellows.*

82

83 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
84 **designate a primary clinical site. <sup>(Core)</sup>**

85

86 **I.B.1.a)** The primary clinical site must be either a general hospital or a  
87 children's hospital. <sup>(Core)</sup> [Moved from 1.A.1]

88

89 **I.B.1.a).(1)** The program should be sponsored by an institution that

90 also sponsors an Accreditation Council for Graduate  
91 Medical Education (ACGME)-accredited residency in  
92 anesthesiology. Sponsorship of the program must be in  
93 compliance with the policy detailed in section 15.00 of the  
94 ACGME Manual of Policies and Procedures. <sup>(Core)</sup> [Moved  
95 from I.A.1.a)]  
96

97 **I.B.2.** There must be a program letter of agreement (PLA) between the  
98 program and each participating site that governs the relationship  
99 between the program and the participating site providing a required  
100 assignment. <sup>(Core)</sup>  
101

102 **I.B.2.a)** The PLA must:

103  
104 **I.B.2.a).(1)** be renewed at least every 10 years; and, <sup>(Core)</sup>  
105

106 **I.B.2.a).(2)** be approved by the designated institutional official  
107 (DIO). <sup>(Core)</sup>  
108

109 **I.B.3.** The program must monitor the clinical learning and working  
110 environment at all participating sites. <sup>(Core)</sup>  
111

112 **I.B.3.a)** At each participating site there must be one faculty member,  
113 designated by the program director, who is accountable for  
114 fellow education for that site, in collaboration with the  
115 program director. <sup>(Core)</sup>  
116

**Background and Intent:** While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- Identifying the faculty members who will assume educational and supervisory responsibility for fellows
- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

117  
118 **I.B.4.** The program director must submit any additions or deletions of  
119 participating sites routinely providing an educational experience,

120 required for all fellows, of one month full time equivalent (FTE) or  
121 more through the ACGME's Accreditation Data System (ADS). <sup>(Core)</sup>  
122

123 **I.C.** The program, in partnership with its Sponsoring Institution, must engage in  
124 practices that focus on mission-driven, ongoing, systematic recruitment  
125 and retention of a diverse and inclusive workforce of residents (if present),  
126 fellows, faculty members, senior administrative staff members, and other  
127 relevant members of its academic community. <sup>(Core)</sup>  
128

**Background and Intent:** It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution's mission and aims. The program's annual evaluation must include an assessment of the program's efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

129  
130 **I.D.** Resources

131  
132 **I.D.1.** The program, in partnership with its Sponsoring Institution, must  
133 ensure the availability of adequate resources for fellow education.  
134 <sup>(Core)</sup>

135  
136 I.D.1.a) The program must have the following resources and facilities:  
137 [Moved from II.D.1]

138  
139 I.D.1.a).(1) neonatal and pediatric intensive care units; <sup>(Core)</sup> [Moved  
140 from II.D.1.a)]

141  
142 I.D.1.a).(2) an emergency department in which children of all ages can  
143 be effectively managed 24 hours a day; <sup>(Core)</sup> [Moved from  
144 II.D.1.b)]

145  
146 I.D.1.a).(3) operating rooms designed and equipped for the  
147 management of pediatric patients; <sup>(Core)</sup> [Moved from  
148 II.D.1.c)]

149  
150 I.D.1.a).(4) post-anesthesia care area designed and equipped for the  
151 management of pediatric patients; <sup>(Core)</sup> [Moved from  
152 II.D.1.d)]

153  
154 I.D.1.a).(5) monitoring and advanced life-support equipment  
155 representative of current levels of technology; <sup>(Core)</sup> [Moved  
156 from II.D.1.e)]

157  
158 I.D.1.b) clinical services that provide prompt laboratory results pertinent to  
159 the care of pediatric patients, including blood chemistries, blood  
160 gases and pH, oxygen saturation, hematocrit/hemoglobin, and  
161 clotting function; and, <sup>(Core)</sup> [Moved from II.D.1.f)]

162  
163 I.D.1.c) prompt access to consultation with other disciplines, including  
164 pediatric subspecialties of cardiology, critical care, emergency

165 medicine, neonatology, neurology, pulmonology, radiology, and  
166 surgical fields. <sup>(Core)</sup> [Moved from II.D.1.g]  
167

168 **I.D.2. The program, in partnership with its Sponsoring Institution, must**  
169 **ensure healthy and safe learning and working environments that**  
170 **promote fellow well-being and provide for:** <sup>(Core)</sup>  
171

172 **I.D.2.a) access to food while on duty;** <sup>(Core)</sup>  
173

174 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**  
175 **and accessible for fellows with proximity appropriate for safe**  
176 **patient care;** <sup>(Core)</sup>  
177

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.**

178  
179 **I.D.2.c) clean and private facilities for lactation that have refrigeration**  
180 **capabilities, with proximity appropriate for safe patient care;**  
181 <sup>(Core)</sup>  
182

**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).**

183  
184 **I.D.2.d) security and safety measures appropriate to the participating**  
185 **site; and,** <sup>(Core)</sup>  
186

187 **I.D.2.e) accommodations for fellows with disabilities consistent with**  
188 **the Sponsoring Institution's policy.** <sup>(Core)</sup>  
189

190 **I.D.3. Fellows must have ready access to subspecialty-specific and other**  
191 **appropriate reference material in print or electronic format. This**  
192 **must include access to electronic medical literature databases with**  
193 **full text capabilities.** <sup>(Core)</sup>  
194

195 **I.D.4. The program's educational and clinical resources must be adequate**  
196 **to support the number of fellows appointed to the program.** <sup>(Core)</sup>  
197

198 I.E. ***A fellowship program usually occurs in the context of many learners and***  
199 ***other care providers and limited clinical resources. It should be structured***  
200 ***to optimize education for all learners present.***

202 I.E.1. **Fellows should contribute to the education of residents in core**  
203 **programs, if present. <sup>(Core)</sup>**

205 I.E.2. **The presence of other learners or staff members must not interfere with**  
206 **the appointed fellows' education. <sup>(Core)</sup> [Moved from III.B.2]**

**Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.**

208  
209 **II. Personnel**

211 **II.A. Program Director**

213 **II.A.1. There must be one faculty member appointed as program director**  
214 **with authority and accountability for the overall program, including**  
215 **compliance with all applicable program requirements. <sup>(Core)</sup>**

217 **II.A.1.a) The Sponsoring Institution's Graduate Medical Education**  
218 **Committee (GMEC) must approve a change in program**  
219 **director. <sup>(Core)</sup>**

221 **II.A.1.b) Final approval of the program director resides with the**  
222 **Review Committee. <sup>(Core)</sup>**

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and made responsible for the program. This individual will have dedicated time for the leadership of the fellowship, and it is this individual's responsibility to communicate with the fellows, faculty members, DIO, GMEC, and the ACGME. The program director's nomination is reviewed and approved by the GMEC. Final approval of program directors resides with the Review Committee.**

224  
225 **II.A.2. The program director must be provided with support adequate for**  
226 **administration of the program based upon its size and configuration.**  
227 **<sup>(Core)</sup>**

228  
229 **[The Review Committee must further specify]**

230  
231 **[The Review Committee's specification will be included in an upcoming**  
232 **focused revision to the Pediatric Anesthesiology Program Requirements]**

233  
234 **II.A.3. Qualifications of the program director:**

- 235  
236 **II.A.3.a)** **must include subspecialty expertise and qualifications**  
237 **acceptable to the Review Committee; and,** <sup>(Core)</sup>  
238  
239 **II.A.3.b)** **must include current certification in the subspecialty for**  
240 **which they are the program director by the American Board**  
241 **of Anesthesiology or by the American Osteopathic Board of**  
242 **Anesthesiology, or subspecialty qualifications that are**  
243 **acceptable to the Review Committee.** <sup>(Core)</sup>  
244  
245 **II.A.3.c)** **must have post-fellowship experience in pediatric anesthesiology;**  
246 <sup>(Detail)†</sup> **[Moved from II.A.2.d)]**  
247  
248 **II.A.3.d)** **must have current appointment as a member of the**  
249 **anesthesiology faculty at the primary clinical site; and,** <sup>(Core)</sup> **[Moved**  
250 **from II.A.2.e)]**  
251  
252 **II.A.3.e)** **must demonstrated ongoing academic achievements appropriate**  
253 **to pediatric anesthesiology, including publications, the**  
254 **development of educational programs, or the conduct of research.**  
255 <sup>(Core)</sup> **[Moved from II.A.2.f)]**  
256

257 **II.A.4. Program Director Responsibilities**

258  
259 **The program director must have responsibility, authority, and**  
260 **accountability for: administration and operations; teaching and**  
261 **scholarly activity; fellow recruitment and selection, evaluation, and**  
262 **promotion of fellows, and disciplinary action; supervision of fellows;**  
263 **and fellow education in the context of patient care.** <sup>(Core)</sup>  
264

265 **II.A.4.a) The program director must:**

266  
267 **II.A.4.a).(1) be a role model of professionalism;** <sup>(Core)</sup>  
268

**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.**

269  
270 **II.A.4.a).(2) design and conduct the program in a fashion**  
271 **consistent with the needs of the community, the**  
272 **mission(s) of the Sponsoring Institution, and the**  
273 **mission(s) of the program;** <sup>(Core)</sup>  
274

**Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social**

determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

275  
276  
277  
278  
279

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; <sup>(Core)</sup>

**Background and Intent:** The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

280  
281  
282  
283  
284  
285  
286  
287  
288  
289  
290  
291  
292  
293  
294  
295  
296  
297

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; <sup>(Core)</sup>

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; <sup>(Core)</sup>

**Background and Intent:** The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

298  
299  
300  
301  
302  
303  
304  
305  
306  
307  
308

- II.A.4.a).(8) submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; <sup>(Core)</sup>

- II.A.4.a).(9) provide applicants who are offered an interview with information related to the applicant's eligibility for the relevant subspecialty board examination(s); <sup>(Core)</sup>

- II.A.4.a).(10) provide a learning and working environment in which fellows have the opportunity to raise concerns and provide feedback in a confidential manner as

- 309 appropriate, without fear of intimidation or retaliation;  
 310 (Core)  
 311  
 312 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring  
 313 Institution's policies and procedures related to  
 314 grievances and due process; (Core)  
 315  
 316 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring  
 317 Institution's policies and procedures for due process  
 318 when action is taken to suspend or dismiss, not to  
 319 promote, or not to renew the appointment of a fellow;  
 320 (Core)  
 321

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.**

- 322  
 323 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring  
 324 Institution's policies and procedures on employment  
 325 and non-discrimination; (Core)  
 326  
 327 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-  
 328 competition guarantee or restrictive covenant.  
 329 (Core)  
 330  
 331 **II.A.4.a).(14)** document verification of program completion for all  
 332 graduating fellows within 30 days; (Core)  
 333  
 334 **II.A.4.a).(15)** provide verification of an individual fellow's  
 335 completion upon the fellow's request, within 30 days;  
 336 and, (Core)  
 337

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

- 338  
 339 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
 340 Institution's DIO before submitting information or  
 341 requests to the ACGME, as required in the Institutional  
 342 Requirements and outlined in the ACGME Program  
 343 Director's Guide to the Common Program  
 344 Requirements. (Core)  
 345  
 346 **II.A.4.a).(17)** devote at least 50 percent of his or her clinical,  
 347 educational, administrative, and academic time to pediatric  
 348 anesthesiology; (Core) [Moved from II.A.3.e)]  
 349

350 **II.B. Faculty**

351  
352 *Faculty members are a foundational element of graduate medical education*  
353 *– faculty members teach fellows how to care for patients. Faculty members*  
354 *provide an important bridge allowing fellows to grow and become practice*  
355 *ready, ensuring that patients receive the highest quality of care. They are*  
356 *role models for future generations of physicians by demonstrating*  
357 *compassion, commitment to excellence in teaching and patient care,*  
358 *professionalism, and a dedication to lifelong learning. Faculty members*  
359 *experience the pride and joy of fostering the growth and development of*  
360 *future colleagues. The care they provide is enhanced by the opportunity to*  
361 *teach. By employing a scholarly approach to patient care, faculty members,*  
362 *through the graduate medical education system, improve the health of the*  
363 *individual and the population.*

364  
365 *Faculty members ensure that patients receive the level of care expected*  
366 *from a specialist in the field. They recognize and respond to the needs of*  
367 *the patients, fellows, community, and institution. Faculty members provide*  
368 *appropriate levels of supervision to promote patient safety. Faculty*  
369 *members create an effective learning environment by acting in a*  
370 *professional manner and attending to the well-being of the fellows and*  
371 *themselves.*

372  
**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment or salary support.**

373  
374 **II.B.1. For each participating site, there must be a sufficient number of**  
375 **faculty members with competence to instruct and supervise all**  
376 **fellows at that location. <sup>(Core)</sup>**

377  
378 **II.B.2. Faculty members must:**

379  
380 **II.B.2.a) be role models of professionalism; <sup>(Core)</sup>**

381  
382 **II.B.2.b) demonstrate commitment to the delivery of safe, quality,**  
383 **cost-effective, patient-centered care; <sup>(Core)</sup>**

384  
**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

385  
386 **II.B.2.c) demonstrate a strong interest in the education of fellows; <sup>(Core)</sup>**

387  
388 **II.B.2.d) devote sufficient time to the educational program to fulfill**  
389 **their supervisory and teaching responsibilities; <sup>(Core)</sup>**

390  
391 **II.B.2.e) administer and maintain an educational environment**  
392 **conducive to educating fellows; <sup>(Core)</sup>**

- 393  
394 **II.B.2.f)** regularly participate in organized clinical discussions,  
395 rounds, journal clubs, and conferences; and, <sup>(Core)</sup>  
396  
397 **II.B.2.g)** pursue faculty development designed to enhance their skills  
398 at least annually. <sup>(Core)</sup>  
399  
400 **II.B.2.h)** ~~The members of the physician faculty must demonstrate ongoing~~  
401 ~~academic achievements appropriate to the subspecialty, including~~  
402 ~~publications, the development of the educational program, or the~~  
403 ~~conduct of research.~~ <sup>(Core)</sup> [Moved from II.B.6]  
404

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

- 405  
406 **II.B.3. Faculty Qualifications**  
407  
408 **II.B.3.a)** Faculty members must have appropriate qualifications in  
409 their field and hold appropriate institutional appointments.  
410 <sup>(Core)</sup>  
411  
412 **II.B.3.b)** Subspecialty physician faculty members must:  
413  
414 **II.B.3.b).(1)** have current certification in the subspecialty by the  
415 American Board of Anesthesiology or the American  
416 Osteopathic Board of Anesthesiology, or possess  
417 qualifications judged acceptable to the Review  
418 Committee. <sup>(Core)</sup>  
419  
420 **II.B.3.b).(2)** ~~The members of the physician faculty must have post-~~  
421 ~~residency experience or fellowship education in pediatric~~  
422 ~~anesthesiology.~~ <sup>(Core)</sup> [Moved from II.B.5]  
423  
424 **II.B.3.c)** Any non-physician faculty members who participate in  
425 fellowship program education must be approved by the  
426 program director. <sup>(Core)</sup>  
427

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

428

429 **II.B.3.d)** Any other specialty physician faculty members must have  
430 current certification in their specialty by the appropriate  
431 American Board of Medical Specialties (ABMS) member  
432 board or American Osteopathic Association (AOA) certifying  
433 board, or possess qualifications judged acceptable to the  
434 Review Committee. <sup>(Core)</sup>  
435

436 **II.B.4. Core Faculty**

437  
438 Core faculty members must have a significant role in the education  
439 and supervision of fellows and must devote a significant portion of  
440 their entire effort to fellow education and/or administration, and  
441 must, as a component of their activities, teach, evaluate, and provide  
442 formative feedback to fellows. <sup>(Core)</sup>  
443

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum and in assessing fellows' progress toward achievement of competence in the subspecialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program, including completion of the annual ACGME Faculty Survey.**

444  
445 **II.B.4.a)** Core faculty members must be designated by the program  
446 director. <sup>(Core)</sup>  
447

448 **II.B.4.b)** Core faculty members must complete the annual ACGME  
449 Faculty Survey. <sup>(Core)</sup>  
450

451 **II.B.4.b).(1)** There must be at least three core program faculty  
452 members, ~~equal to or greater than two FTE,~~ including the  
453 program director. <sup>(Core)</sup> [Moved from II.B.1.a)]  
454

455 **II.C. Program Coordinator**

456  
457 **II.C.1.** There must be a program coordinator. <sup>(Core)</sup>  
458

459 **II.C.2.** The program coordinator must be provided with support adequate  
460 for administration of the program based upon its size and  
461 configuration. <sup>(Core)</sup>  
462

**Background and Intent: Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison with learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

**The program coordinator is a member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management. Program coordinators are expected to develop unique knowledge of the ACGME and Program Requirements, policies, and procedures. Program**

**coordinators assist the program director in accreditation efforts, educational programming, and support of fellows.**

**Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.**

463  
464  
465  
466  
467  
468  
469  
470  
471  
472  
473

**II.D. Other Program Personnel**

**The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>**

- II.D.1. Allied health staff members and other support personnel with appropriate subspecialty expertise must be available to support the program. <sup>(Detail)</sup>  
[Moved from II.C.1]

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

474  
475  
476  
477  
478  
479

488  
489

**III. Fellow Appointments**

**III.A. Eligibility Criteria**

**III.A.1. Eligibility Requirements – Fellowship Programs**

**All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada. <sup>(Core)</sup>**

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

490  
491  
492  
493  
494  
495  
496  
497

- III.A.1.a) Fellowship programs must receive verification of each entering fellow's level of competence in the required field, upon matriculation, using ACGME, ACGME-I, or CanMEDS Milestones evaluations from the core residency program. <sup>(Core)</sup>

- III.A.1.b) Prior to appointment in the program, fellows must have successfully completed an ~~ACGME~~ or ~~RCPSC~~ accredited

498 residency in anesthesiology that satisfies the requirements in  
499 III.A.1. <sup>(Core)</sup> [Moved from III.A]

500  
501 **III.A.1.c) Fellow Eligibility Exception**

502  
503 **The Review Committee for Anesthesiology will allow the**  
504 **following exception to the fellowship eligibility requirements:**  
505

506 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**  
507 **an exceptionally qualified international graduate**  
508 **applicant who does not satisfy the eligibility**  
509 **requirements listed in III.A.1., but who does meet all of**  
510 **the following additional qualifications and conditions:**  
511 <sup>(Core)</sup>

512  
513 **III.A.1.c).(1).(a) evaluation by the program director and**  
514 **fellowship selection committee of the**  
515 **applicant's suitability to enter the program,**  
516 **based on prior training and review of the**  
517 **summative evaluations of training in the core**  
518 **specialty; and,** <sup>(Core)</sup>

519  
520 **III.A.1.c).(1).(b) review and approval of the applicant's**  
521 **exceptional qualifications by the GMEC; and,**  
522 <sup>(Core)</sup>

523  
524 **III.A.1.c).(1).(c) verification of Educational Commission for**  
525 **Foreign Medical Graduates (ECFMG)**  
526 **certification.** <sup>(Core)</sup>

527  
528 **III.A.1.c).(2) Applicants accepted through this exception must have**  
529 **an evaluation of their performance by the Clinical**  
530 **Competency Committee within 12 weeks of**  
531 **matriculation.** <sup>(Core)</sup>  
532

**Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.**

533  
534 **III.B.** The program director must not appoint more fellows than approved by the  
535 Review Committee. *(Core)*

536  
537 **III.B.1.** All complement increases must be approved by the Review  
538 Committee. *(Core)*

539  
540 **III.C.** Fellow Transfers  
541  
542 The program must obtain verification of previous educational experiences  
543 and a summative competency-based performance evaluation prior to  
544 acceptance of a transferring fellow, and Milestones evaluations upon  
545 matriculation. *(Core)*

546  
547 **IV.** Educational Program

548  
549 *The ACGME accreditation system is designed to encourage excellence and*  
550 *innovation in graduate medical education regardless of the organizational*  
551 *affiliation, size, or location of the program.*

552  
553 *The educational program must support the development of knowledgeable, skillful*  
554 *physicians who provide compassionate care.*

555  
556 *In addition, the program is expected to define its specific program aims consistent*  
557 *with the overall mission of its Sponsoring Institution, the needs of the community*  
558 *it serves and that its graduates will serve, and the distinctive capabilities of*  
559 *physicians it intends to graduate. While programs must demonstrate substantial*  
560 *compliance with the Common and subspecialty-specific Program Requirements, it*  
561 *is recognized that within this framework, programs may place different emphasis*  
562 *on research, leadership, public health, etc. It is expected that the program aims*  
563 *will reflect the nuanced program-specific goals for it and its graduates; for*  
564 *example, it is expected that a program aiming to prepare physician-scientists will*  
565 *have a different curriculum from one focusing on community health.*

566  
567 **IV.A.** The curriculum must contain the following educational components: *(Core)*

568  
569 **IV.A.1.** a set of program aims consistent with the Sponsoring Institution's  
570 mission, the needs of the community it serves, and the desired  
571 distinctive capabilities of its graduates; *(Core)*

572  
573 **IV.A.1.a)** The program's aims must be made available to program  
574 applicants, fellows, and faculty members. *(Core)*

575  
576 **IV.A.2.** competency-based goals and objectives for each educational  
577 experience designed to promote progress on a trajectory to  
578 autonomous practice in their subspecialty. These must be  
579 distributed, reviewed, and available to fellows and faculty members;  
580 *(Core)*

581

582 IV.A.3. delineation of fellow responsibilities for patient care, progressive  
583 responsibility for patient management, and graded supervision in  
584 their subspecialty; <sup>(Core)</sup>  
585

**Background and Intent:** These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

586  
587 IV.A.4. structured educational activities beyond direct patient care; and,  
588 <sup>(Core)</sup>  
589

**Background and Intent:** Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

590  
591 IV.A.5. advancement of fellows' knowledge of ethical principles  
592 foundational to medical professionalism. <sup>(Core)</sup>  
593

594 IV.B. ACGME Competencies  
595

**Background and Intent:** The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

596  
597 IV.B.1. The program must integrate the following ACGME Competencies  
598 into the curriculum: <sup>(Core)</sup>  
599

600 IV.B.1.a) Professionalism

601  
602 Fellows must demonstrate a commitment to professionalism  
603 and an adherence to ethical principles. <sup>(Core)</sup>  
604

605 IV.B.1.b) Patient Care and Procedural Skills  
606

**Background and Intent:** Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs. 2008; 27(3):759-769.*) In addition, there

should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.

607

779 **IV.B.1.d)**

**Practice-based Learning and Improvement**

**Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.** <sup>(Core)</sup>

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

786  
787 **IV.B.1.e)**

**Interpersonal and Communication Skills**

**Fellows must demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families, and health professionals.** <sup>(Core)</sup>

794 **IV.B.1.f)**

**Systems-based Practice**

796 **Fellows must demonstrate an awareness of and**  
797 **responsiveness to the larger context and system of health**  
798 **care, including the social determinants of health, as well as**  
799 **the ability to call effectively on other resources to provide**  
800 **optimal health care.** <sup>(Core)</sup>

801  
802 **IV.C. Curriculum Organization and Fellow Experiences**

803  
804 **IV.C.1. The curriculum must be structured to optimize fellow educational**  
805 **experiences, the length of these experiences, and supervisory**  
806 **continuity.** <sup>(Core)</sup>

807  
808 **[The Review Committee must further specify]**

809  
810 [The Review Committee's specification will be included in the upcoming  
811 focused revision to the Pediatric Anesthesiology Program Requirements]

812  
813 **IV.C.2. The program must provide instruction and experience in pain**  
814 **management if applicable for the subspecialty, including recognition**  
815 **of the signs of addiction.** <sup>(Core)</sup>

816  
817 **IV.C.3. A minimum of nine months should be devoted to required clinical**  
818 **experiences. The remaining time may be spent engaging in research or**  
819 **on elective rotations.** <sup>(Core)</sup> [Moved from IV.A.3.a)]

820  
821 **IV.C.3.a) The total time in rotations outside the primary clinical site should**  
822 **not exceed four months.** <sup>(Detail)</sup> [Moved from IV.A.3.a).(1)]

823  
824 **IV.C.4. The program must have ensure that the program has a specialty-specific**  
825 **written policy regarding substance abuse; and,** <sup>(Core)</sup> [Moved from  
826 **II.A.3.g)]**

827  
828 **IV.C.5. The program must prepare, review periodically, and, if necessary, revise**  
829 **a written outline of the educational goals of the program with respect to**  
830 **the knowledge, skills, and other attributes of fellows at each level of**  
831 **education, and for each major rotation or other program assignment;** <sup>(Detail)</sup>  
832 **[Moved from II.A.3.f)]**

833  
834 **IV.C.6. The curriculum must include a didactic program based upon the core**  
835 **knowledge content in the subspecialty area.** <sup>(Core)</sup> [Moved from IV.A.3.b)]

836  
837 **IV.C.6.a) Conferences may include peer-review case conferences and/or**  
838 **morbidity and mortality conferences, multidisciplinary conferences,**  
839 **and departmental grand rounds.** <sup>(Detail)</sup> [Moved from IV.A.3.b).(1)]

840  
841 **IV.C.6.b) Multidisciplinary conferences and case presentations should**  
842 **involve faculty members from other specialties.** <sup>(Detail)</sup> [Moved from  
843 **IV.A.3.b).(2)]**

844  
845 **IV.C.6.c) Faculty members and fellows should be actively involved in**  
846 **planning and conducting conferences.** <sup>(Detail)</sup> [Moved from

847		IV.A.3.b).(3)]

896	IV.C.8.	<u>The curriculum must be designed in order for fellows to:</u>
897		

- 898 IV.C.8.a) work in interprofessional teams to enhance patient safety and  
 899 improve patient care quality; <sup>(Outcome)</sup> [Moved from IV.A.2.f).(1)]  
 900  
 901 IV.C.8.b) identify system errors and assist in the implementation of potential  
 902 system solutions; and, <sup>(Outcome)</sup> [Moved from IV.A.2.f).(2)]  
 903  
 904 IV.C.8.c) be involved in continuous quality improvement, utilization review,  
 905 and risk management. <sup>(Outcome)</sup> [Moved from IV.A.2.f).(3)]  
 906

907 **IV.D. Scholarship**

908  
 909 ***Medicine is both an art and a science. The physician is a humanistic***  
 910 ***scientist who cares for patients. This requires the ability to think critically,***  
 911 ***evaluate the literature, appropriately assimilate new knowledge, and***  
 912 ***practice lifelong learning. The program and faculty must create an***  
 913 ***environment that fosters the acquisition of such skills through fellow***  
 914 ***participation in scholarly activities as defined in the subspecialty-specific***  
 915 ***Program Requirements. Scholarly activities may include discovery,***  
 916 ***integration, application, and teaching.***

917  
 918 ***The ACGME recognizes the diversity of fellowships and anticipates that***  
 919 ***programs prepare physicians for a variety of roles, including clinicians,***  
 920 ***scientists, and educators. It is expected that the program's scholarship will***  
 921 ***reflect its mission(s) and aims, and the needs of the community it serves.***  
 922 ***For example, some programs may concentrate their scholarly activity on***  
 923 ***quality improvement, population health, and/or teaching, while other***  
 924 ***programs might choose to utilize more classic forms of biomedical***  
 925 ***research as the focus for scholarship.***  
 926

927 **IV.D.1. Program Responsibilities**

928  
 929 **IV.D.1.a) The program must demonstrate evidence of scholarly**  
 930 **activities, consistent with its mission(s) and aims. <sup>(Core)</sup>**  
 931

932 IV.D.1.a).(1) The program must provide instruction in the fundamentals  
 933 of research design and conduct, and the interpretation and  
 934 presentation of data. <sup>(Core)</sup> [Moved from IV.B.1]  
 935

936 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**  
 937 **must allocate adequate resources to facilitate fellow and**  
 938 **faculty involvement in scholarly activities. <sup>(Core)</sup>**  
 939

940 **IV.D.2. Faculty Scholarly Activity**

941  
 942 **IV.D.2.a) Among their scholarly activity, programs must demonstrate**  
 943 **accomplishments in at least three of the following domains:**  
 944 **<sup>(Core)</sup>**

- 945
- 946 • **Research in basic science, education, translational**
- 947 **science, patient care, or population health**
- 948 • **Peer-reviewed grants**

- 949 • Quality improvement and/or patient safety initiatives
- 950 • Systematic reviews, meta-analyses, review articles,
- 951 chapters in medical textbooks, or case reports
- 952 • Creation of curricula, evaluation tools, didactic
- 953 educational activities, or electronic educational
- 954 materials
- 955 • Contribution to professional committees, educational
- 956 organizations, or editorial boards
- 957 • Innovations in education
- 958

959 **IV.D.2.b)** The program must demonstrate dissemination of scholarly  
 960 activity within and external to the program by the following  
 961 methods:  
 962

**Background and Intent:** For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

963  
 964 **IV.D.2.b).(1)** faculty participation in grand rounds, posters,  
 965 workshops, quality improvement presentations,  
 966 podium presentations, grant leadership, non-peer-  
 967 reviewed print/electronic resources, articles or  
 968 publications, book chapters, textbooks, webinars,  
 969 service on professional committees, or serving as a  
 970 journal reviewer, journal editorial board member, or  
 971 editor; (Outcome)‡

972  
 973 **IV.D.2.b).(2)** peer-reviewed publication. (Outcome)

974  
 975 **IV.D.3. Fellow Scholarly Activity**

976  
 977 **IV.D.3.a)** Each fellow must complete a scholarly project, the results of which  
 978 must be disseminated through a variety of means, including  
 979 publication or presentation at local, regional, national, or  
 980 international meetings. (Core) [Moved from IV.B.2]

981  
 982 **V. Evaluation**

983  
 984 **V.A. Fellow Evaluation**

985  
 986 **V.A.1. Feedback and Evaluation**

**Background and Intent:** Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to

provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.

988  
989  
990  
991  
992  
993  
994  
995  
996  
997  
998  
999

**V.A.1.a) Faculty members must directly observe, evaluate, and frequently provide feedback on fellow performance during each rotation or similar educational assignment. <sup>(Core)</sup>**

V.A.1.a).(1) Faculty members must provide evaluations of fellows' progress and competence at least once every six months. <sup>(Core)</sup> [Moved from V.A.2.a).(1)]

V.A.1.a).(2) Semiannual evaluation must include review of fellows' procedure logs. <sup>(Core)</sup> [Moved from V.A.2.b).(3).(a)]

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

1000  
1001  
1002  
1003  
1004  
1005  
1006

**V.A.1.b) Evaluation must be documented at the completion of the assignment. <sup>(Core)</sup>**

V.A.1.b).(1) For block rotations of greater than three months in duration, evaluation must be documented at least every three months. <sup>(Core)</sup>

- 1007  
1008 **V.A.1.b).(2)** Longitudinal experiences such as continuity clinic in  
1009 the context of other clinical responsibilities must be  
1010 evaluated at least every three months and at  
1011 completion. <sup>(Core)</sup>  
1012
- 1013 **V.A.1.c)** The program must provide an objective performance  
1014 evaluation based on the Competencies and the subspecialty-  
1015 specific Milestones, and must: <sup>(Core)</sup>  
1016
- 1017 **V.A.1.c).(1)** use multiple evaluators (e.g., faculty members, peers,  
1018 patients, self, and other professional staff members);  
1019 and, <sup>(Core)</sup>  
1020
- 1021 **V.A.1.c).(2)** provide that information to the Clinical Competency  
1022 Committee for its synthesis of progressive fellow  
1023 performance and improvement toward unsupervised  
1024 practice. <sup>(Core)</sup>  
1025

**Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.**

- 1026  
1027 **V.A.1.d)** The program director or their designee, with input from the  
1028 Clinical Competency Committee, must:  
1029
- 1030 **V.A.1.d).(1)** meet with and review with each fellow their  
1031 documented semi-annual evaluation of performance,  
1032 including progress along the subspecialty-specific  
1033 Milestones. <sup>(Core)</sup>  
1034
- 1035 **V.A.1.d).(2)** assist fellows in developing individualized learning  
1036 plans to capitalize on their strengths and identify areas  
1037 for growth; and, <sup>(Core)</sup>  
1038
- 1039 **V.A.1.d).(3)** develop plans for fellows failing to progress, following  
1040 institutional policies and procedures. <sup>(Core)</sup>  
1041

**Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in**

knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

1080
- V.A.1.e)** At least annually, there must be a summative evaluation of each fellow that includes their readiness to progress to the next year of the program, if applicable. <sup>(Core)</sup>
- V.A.1.f)** The evaluations of a fellow's performance must be accessible for review by the fellow. <sup>(Core)</sup>
- V.A.2.** Final Evaluation
- V.A.2.a)** The program director must provide a final evaluation for each fellow upon completion of the program. <sup>(Core)</sup>
- V.A.2.a).(1)** The subspecialty-specific Milestones, and when applicable the subspecialty-specific Case Logs, must be used as tools to ensure fellows are able to engage in autonomous practice upon completion of the program. <sup>(Core)</sup>
- V.A.2.a).(2)** The final evaluation must:
- V.A.2.a).(2).(a)** become part of the fellow's permanent record maintained by the institution, and must be accessible for review by the fellow in accordance with institutional policy; <sup>(Core)</sup>
- V.A.2.a).(2).(b)** verify that the fellow has demonstrated the knowledge, skills, and behaviors necessary to enter autonomous practice; <sup>(Core)</sup>
- V.A.2.a).(2).(c)** consider recommendations from the Clinical Competency Committee; and, <sup>(Core)</sup>
- V.A.2.a).(2).(d)** be shared with the fellow upon completion of the program. <sup>(Core)</sup>
- V.A.3.** A Clinical Competency Committee must be appointed by the program director. <sup>(Core)</sup>

1081 V.A.3.a) At a minimum the Clinical Competency Committee must  
1082 include three members, at least one of whom is a core faculty  
1083 member. Members must be faculty members from the same  
1084 program or other programs, or other health professionals  
1085 who have extensive contact and experience with the  
1086 program's fellows. (Core)  
1087

1088 V.A.3.b) The Clinical Competency Committee must:

1089  
1090 V.A.3.b).(1) review all fellow evaluations at least semi-annually;  
1091 (Core)

1092  
1093 V.A.3.b).(2) determine each fellow's progress on achievement of  
1094 the subspecialty-specific Milestones; and, (Core)

1095  
1096 V.A.3.b).(3) meet prior to the fellows' semi-annual evaluations and  
1097 advise the program director regarding each fellow's  
1098 progress. (Core)  
1099

1100 V.B. Faculty Evaluation

1101  
1102 V.B.1. The program must have a process to evaluate each faculty  
1103 member's performance as it relates to the educational program at  
1104 least annually. (Core)  
1105

**Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.**

1106  
1107 V.B.1.a) This evaluation must include a review of the faculty member's  
1108 clinical teaching abilities, engagement with the educational  
1109 program, participation in faculty development related to their  
1110 skills as an educator, clinical performance, professionalism,  
1111 and scholarly activities. (Core)  
1112

- 1113 **V.B.1.b)** **This evaluation must include written, confidential evaluations**  
 1114 **by the fellows. (Core)**  
 1115  
 1116 **V.B.1.c)** **There must be annual written evaluations of faculty members by**  
 1117 **the fellows. (Core) [Moved from V.B.3]**  
 1118  
 1119 **V.B.2.** **Faculty members must receive feedback on their evaluations at least**  
 1120 **annually. (Core)**  
 1121  
 1122 **V.B.3.** **Results of the faculty educational evaluations should be**  
 1123 **incorporated into program-wide faculty development plans. (Core)**  
 1124

**Background and Intent: The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.**

- 1125  
 1126 **V.C.** **Program Evaluation and Improvement**  
 1127  
 1128 **V.C.1.** **The program director must appoint the Program Evaluation**  
 1129 **Committee to conduct and document the Annual Program**  
 1130 **Evaluation as part of the program’s continuous improvement**  
 1131 **process. (Core)**  
 1132

 1219 **Accreditation Site Visit.** <sup>(Core)</sup>  
 1220  
 1221 **V.C.2.a)** **A summary of the Self-Study must be submitted to the DIO.**  
 1222 <sup>(Core)</sup>  
 1223

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**

- 1224  
 1225 **V.C.3.** ***One goal of ACGME-accredited education is to educate physicians***  
 1226 ***who seek and achieve board certification. One measure of the***  
 1227 ***effectiveness of the educational program is the ultimate pass rate.***  
 1228  
 1229 ***The program director should encourage all eligible program***  
 1230 ***graduates to take the certifying examination offered by the***  
 1231 ***applicable American Board of Medical Specialties (ABMS) member***  
 1232 ***board or American Osteopathic Association (AOA) certifying board.***  
 1233  
 1234 **V.C.3.a)** **For subspecialties in which the ABMS member board and/or**  
 1235 **AOA certifying board offer(s) an annual written exam, in the**  
 1236 **preceding three years, the program’s aggregate pass rate of**  
 1237 **those taking the examination for the first time must be higher**  
 1238 **than the bottom fifth percentile of programs in that**  
 1239 **subspecialty.** <sup>(Outcome)</sup>  
 1240

- 1241 **V.C.3.b)** For subspecialties in which the ABMS member board and/or  
 1242 AOA certifying board offer(s) a biennial written exam, in the  
 1243 preceding six years, the program’s aggregate pass rate of  
 1244 those taking the examination for the first time must be higher  
 1245 than the bottom fifth percentile of programs in that  
 1246 subspecialty. *(Outcome)*  
 1247
- 1248 **V.C.3.c)** For subspecialties in which the ABMS member board and/or  
 1249 AOA certifying board offer(s) an annual oral exam, in the  
 1250 preceding three years, the program’s aggregate pass rate of  
 1251 those taking the examination for the first time must be higher  
 1252 than the bottom fifth percentile of programs in that  
 1253 subspecialty. *(Outcome)*  
 1254
- 1255 **V.C.3.d)** For subspecialties in which the ABMS member board and/or  
 1256 AOA certifying board offer(s) a biennial oral exam, in the  
 1257 preceding six years, the program’s aggregate pass rate of  
 1258 those taking the examination for the first time must be higher  
 1259 than the bottom fifth percentile of programs in that  
 1260 subspecialty. *(Outcome)*  
 1261
- 1262 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program  
 1263 whose graduates over the time period specified in the  
 1264 requirement have achieved an 80 percent pass rate will have  
 1265 met this requirement, no matter the percentile rank of the  
 1266 program for pass rate in that subspecialty. *(Outcome)*  
 1267

**Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.**

**There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.**

- 1268
- 1269 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1270 annually for the cohort of board-eligible fellows that  
 1271 graduated seven years earlier. *(Core)*  
 1272

**Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.**

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

V.C.3.g) ~~At least 70 percent of a program's graduates from the most recently defined five-year period who take the American Board of Anesthesiology pediatric anesthesiology certifying examination should pass.~~<sup>(Outcome)</sup> [Moved from V.C.2.e.(1)]

## VI. The Learning and Working Environment

***Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:***

- ***Excellence in the safety and quality of care rendered to patients by fellows today***
- ***Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice***
- ***Excellence in professionalism through faculty modeling of:***
  - ***the effacement of self-interest in a humanistic environment that supports the professional development of physicians***
  - ***the joy of curiosity, problem-solving, intellectual rigor, and discovery***
- ***Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team***

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they

strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

**VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability**

**VI.A.1. Patient Safety and Quality Improvement**

*All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.*

*Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.*

*It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.*

**VI.A.1.a) Patient Safety**

**VI.A.1.a).(1) Culture of Safety**

*A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.*

**VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety. (Core)**

**VI.A.1.a).(1).(b) The program must have a structure that promotes safe, interprofessional, team-based care. (Core)**

1345 VI.A.1.a).(2) Education on Patient Safety  
1346  
1347 Programs must provide formal educational activities  
1348 that promote patient safety-related goals, tools, and  
1349 techniques. <sup>(Core)</sup>  
1350

**Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.**

1351  
1352 VI.A.1.a).(3) Patient Safety Events  
1353  
1354 *Reporting, investigation, and follow-up of adverse*  
1355 *events, near misses, and unsafe conditions are pivotal*  
1356 *mechanisms for improving patient safety, and are*  
1357 *essential for the success of any patient safety*  
1358 *program. Feedback and experiential learning are*  
1359 *essential to developing true competence in the ability*  
1360 *to identify causes and institute sustainable systems-*  
1361 *based changes to ameliorate patient safety*  
1362 *vulnerabilities.*  
1363

1364 VI.A.1.a).(3).(a) Residents, fellows, faculty members, and other  
1365 clinical staff members must:

1366  
1367 VI.A.1.a).(3).(a).(i) know their responsibilities in reporting  
1368 patient safety events at the clinical site;  
1369 <sup>(Core)</sup>

1370  
1371 VI.A.1.a).(3).(a).(ii) know how to report patient safety  
1372 events, including near misses, at the  
1373 clinical site; and, <sup>(Core)</sup>  
1374

1375 VI.A.1.a).(3).(a).(iii) be provided with summary information  
1376 of their institution's patient safety  
1377 reports. <sup>(Core)</sup>  
1378

1379 VI.A.1.a).(3).(b) Fellows must participate as team members in  
1380 real and/or simulated interprofessional clinical  
1381 patient safety activities, such as root cause  
1382 analyses or other activities that include  
1383 analysis, as well as formulation and  
1384 implementation of actions. <sup>(Core)</sup>  
1385

1386 VI.A.1.a).(4) Fellow Education and Experience in Disclosure of  
1387 Adverse Events  
1388  
1389 *Patient-centered care requires patients, and when*  
1390 *appropriate families, to be apprised of clinical*  
1391 *situations that affect them, including adverse events.*  
1392 *This is an important skill for faculty physicians to*  
1393 *model, and for fellows to develop and apply.*

1394		
1395	VI.A.1.a).(4).(a)	All fellows must receive training in how to disclose adverse events to patients and families. <sup>(Core)</sup>
1396		
1397		
1398		
1399	VI.A.1.a).(4).(b)	Fellows should have the opportunity to participate in the disclosure of patient safety events, real or simulated. <sup>(Detail)</sup>

1437		
1438		
1439	VI.A.2.	Supervision and Accountability
1440		
1441	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for the care of the patient, every physician shares in the responsibility and accountability for their efforts in the provision of care. Effective programs, in partnership with</i>
1442		
1443		
1444		

1445 *their Sponsoring Institutions, define, widely communicate,*  
1446 *and monitor a structured chain of responsibility and*  
1447 *accountability as it relates to the supervision of all patient*  
1448 *care.*

1449  
1450 *Supervision in the setting of graduate medical education*  
1451 *provides safe and effective care to patients; ensures each*  
1452 *fellow's development of the skills, knowledge, and attitudes*  
1453 *required to enter the unsupervised practice of medicine; and*  
1454 *establishes a foundation for continued professional growth.*

1455  
1456 **VI.A.2.a).(1)** Each patient must have an identifiable and  
1457 appropriately-credentialed and privileged attending  
1458 physician (or licensed independent practitioner as  
1459 specified by the applicable Review Committee) who is  
1460 responsible and accountable for the patient's care.  
1461 (Core)

1462  
1463 **VI.A.2.a).(1).(a)** This information must be available to fellows,  
1464 faculty members, other members of the health  
1465 care team, and patients. (Core)

1466  
1467 **VI.A.2.a).(1).(b)** Fellows and faculty members must inform each  
1468 patient of their respective roles in that patient's  
1469 care when providing direct patient care. (Core)

1470  
1471 **VI.A.2.b)** *Supervision may be exercised through a variety of methods.*  
1472 *For many aspects of patient care, the supervising physician*  
1473 *may be a more advanced fellow. Other portions of care*  
1474 *provided by the fellow can be adequately supervised by the*  
1475 *immediate availability of the supervising faculty member or*  
1476 *fellow, either on site or by means of telephonic and/or*  
1477 *electronic modalities. Some activities require the physical*  
1478 *presence of the supervising faculty member. In some*  
1479 *circumstances, supervision may include post-hoc review of*  
1480 *fellow-delivered care with feedback.*

1481  
1482 **VI.A.2.b).(1)** The program must demonstrate that the appropriate  
1483 level of supervision in place for all fellows is based on  
1484 each fellow's level of training and ability, as well as  
1485 patient complexity and acuity. Supervision may be  
1486 exercised through a variety of methods, as appropriate  
1487 to the situation. (Core)

1488  
1489 **VI.A.2.b).(2)** The program must prepare and implement a supervision  
1490 policy that specifies resident, fellow, and faculty member  
1491 responsibility. (Core) [Moved from II.A.3.h)]

1492  
1493 **VI.A.2.c)** **Levels of Supervision**

1494

1495		<b>To promote oversight of fellow supervision while providing</b>
1496		<b>for graded authority and responsibility, the program must use</b>
1497		<b>the following classification of supervision:</b> <sup>(Core)</sup>
1498		
1499	<b>VI.A.2.c).(1)</b>	<b>Direct Supervision – the supervising physician is</b>
1500		<b>physically present with the fellow and patient.</b> <sup>(Core)</sup>
1501		
1502	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision:</b>
1503		
1504	<b>VI.A.2.c).(2).(a)</b>	<b>with Direct Supervision immediately available –</b>
1505		<b>the supervising physician is physically within</b>
1506		<b>the hospital or other site of patient care, and is</b>

1523		<b>care delegated to each fellow must be assigned by the</b>
1524		<b>program director and faculty members.</b> <sup>(Core)</sup>
1525		
1526	<b>VI.A.2.d).(1)</b>	<b>The program director must evaluate each fellow’s</b>
1527		<b>abilities based on specific criteria, guided by the</b>
1528		<b>Milestones.</b> <sup>(Core)</sup>
1529		
1530	<b>VI.A.2.d).(2)</b>	<b>Faculty members functioning as supervising</b>
1531		<b>physicians must delegate portions of care to fellows</b>
1532		<b>based on the needs of the patient and the skills of</b>
1533		<b>each fellow.</b> <sup>(Core)</sup>
1534		
1535	<b>VI.A.2.d).(3)</b>	<b>Fellows should serve in a supervisory role to junior</b>
1536		<b>fellows and residents in recognition of their progress</b>
1537		<b>toward independence, based on the needs of each</b>
1538		<b>patient and the skills of the individual resident or</b>
1539		<b>fellow.</b> <sup>(Detail)</sup>
1540		
1541	<b>VI.A.2.e)</b>	<b>Programs must set guidelines for circumstances and events</b>
1542		<b>in which fellows must communicate with the supervising</b>
1543		<b>faculty member(s).</b> <sup>(Core)</sup>
1544		

1545 VI.A.2.e).(1) Each fellow must know the limits of their scope of  
1546 authority, and the circumstances under which the  
1547 fellow is permitted to act with conditional  
1548 independence. <sup>(Outcome)</sup>  
1549

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

1550  
1551 VI.A.2.f) Faculty supervision assignments must be of sufficient  
1552 duration to assess the knowledge and skills of each fellow  
1553 and to delegate to the fellow the appropriate level of patient  
1554 care authority and responsibility. <sup>(Core)</sup>  
1555

1556 VI.B. Professionalism

1557  
1558 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must  
1559 educate fellows and faculty members concerning the professional  
1560 responsibilities of physicians, including their obligation to be  
1561 appropriately rested and fit to provide the care required by their  
1562 patients. <sup>(Core)</sup>  
1563

1564 VI.B.2. The learning objectives of the program must:

1565  
1566 VI.B.2.a) be accomplished through an appropriate blend of supervised  
1567 patient care responsibilities, clinical teaching, and didactic  
1568 educational events; <sup>(Core)</sup>  
1569

1570 VI.B.2.b) be accomplished without excessive reliance on fellows to  
1571 fulfill non-physician obligations; and, <sup>(Core)</sup>  
1572

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.**

1573  
1574 VI.B.2.c) ensure manageable patient care responsibilities. <sup>(Core)</sup>  
1575

**Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully**

**assess how the assignment of patient care responsibilities can affect work compression.**

- 1576  
1577 **VI.B.3.**                    **The program director, in partnership with the Sponsoring Institution,**  
1578 **must provide a culture of professionalism that supports patient**  
1579 **safety and personal responsibility.** <sup>(Core)</sup>  
1580  
1581 **VI.B.4.**                    **Fellows and faculty members must demonstrate an understanding**  
1582 **of their personal role in the:**  
1583  
1584 **VI.B.4.a)**                    **provision of patient- and family-centered care;** <sup>(Outcome)</sup>  
1585  
1586 **VI.B.4.b)**                    **safety and welfare of patients entrusted to their care,**  
1587 **including the ability to report unsafe conditions and adverse**  
1588 **events;** <sup>(Outcome)</sup>  
1589

**Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.**

- 1590  
1591 **VI.B.4.c)**                    **assurance of their fitness for work, including;** <sup>(Outcome)</sup>  
1592

**Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.**

- 1593  
1594 **VI.B.4.c).(1)**                    **management of their time before, during, and after**  
1595 **clinical assignments; and,** <sup>(Outcome)</sup>  
1596  
1597 **VI.B.4.c).(2)**                    **recognition of impairment, including from illness,**  
1598 **fatigue, and substance use, in themselves, their peers,**  
1599 **and other members of the health care team.** <sup>(Outcome)</sup>  
1600  
1601 **VI.B.4.d)**                    **commitment to lifelong learning;** <sup>(Outcome)</sup>  
1602  
1603 **VI.B.4.e)**                    **monitoring of their patient care performance improvement**  
1604 **indicators; and,** <sup>(Outcome)</sup>  
1605  
1606 **VI.B.4.f)**                    **accurate reporting of clinical and educational work hours,**  
1607 **patient outcomes, and clinical experience data.** <sup>(Outcome)</sup>  
1608  
1609 **VI.B.5.**                    **All fellows and faculty members must demonstrate responsiveness**  
1610 **to patient needs that supersedes self-interest. This includes the**  
1611 **recognition that under certain circumstances, the best interests of**  
1612 **the patient may be served by transitioning that patient's care to**  
1613 **another qualified and rested provider.** <sup>(Outcome)</sup>  
1614

1615 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must  
1616 provide a professional, equitable, respectful, and civil environment  
1617 that is free from discrimination, sexual and other forms of  
1618 harassment, mistreatment, abuse, or coercion of students, fellows,  
1619 faculty, and staff. <sup>(Core)</sup>  
1620

1621 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should  
1622 have a process for education of fellows and faculty regarding  
1623 unprofessional behavior and a confidential process for reporting,  
1624 investigating, and addressing such concerns. <sup>(Core)</sup>  
1625

1626 VI.C. Well-Being  
1627

1628 *Psychological, emotional, and physical well-being are critical in the*  
1629 *development of the competent, caring, and resilient physician and require*  
1630 *proactive attention to life inside and outside of medicine. Well-being*  
1631 *requires that physicians retain the joy in medicine while managing their*  
1632 *own real life stresses. Self-care and responsibility to support other*  
1633 *members of the health care team are important components of*  
1634 *professionalism; they are also skills that must be modeled, learned, and*  
1635 *nurtured in the context of other aspects of fellowship training.*  
1636

1637 *Fellows and faculty members are at risk for burnout and depression.*  
1638 *Programs, in partnership with their Sponsoring Institutions, have the same*  
1639 *responsibility to address well-being as other aspects of resident*  
1640 *competence. Physicians and all members of the health care team share*  
1641 *responsibility for the well-being of each other. For example, a culture which*  
1642 *encourages covering for colleagues after an illness without the expectation*  
1643 *of reciprocity reflects the ideal of professionalism. A positive culture in a*  
1644 *clinical learning environment models constructive behaviors, and prepares*  
1645 *fellows with the skills and attitudes needed to thrive throughout their*  
1646 *careers.*  
1647

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

1648 VI.C.1. The responsibility of the program, in partnership with the  
1649 Sponsoring Institution, to address well-being must include:  
1650  
1651

- 1652 VI.C.1.a) efforts to enhance the meaning that each fellow finds in the  
 1653 experience of being a physician, including protecting time  
 1654 with patients, minimizing non-physician obligations,  
 1655 providing administrative support, promoting progressive  
 1656 autonomy and flexibility, and enhancing professional  
 1657 relationships; <sup>(Core)</sup>  
 1658
- 1659 VI.C.1.b) attention to scheduling, work intensity, and work  
 1660 compression that impacts fellow well-being; <sup>(Core)</sup>  
 1661
- 1662 VI.C.1.c) evaluating workplace safety data and addressing the safety of  
 1663 fellows and faculty members; <sup>(Core)</sup>  
 1664

**Background and Intent:** This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

- 1665 VI.C.1.d) policies and programs that encourage optimal fellow and  
 1666 faculty member well-being; and, <sup>(Core)</sup>  
 1667  
 1668

**Background and Intent:** Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

- 1669 VI.C.1.d).(1) Fellows must be given the opportunity to attend  
 1670 medical, mental health, and dental care appointments,  
 1671 including those scheduled during their working hours.  
 1672 <sup>(Core)</sup>  
 1673  
 1674

**Background and Intent:** The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

- 1675 VI.C.1.e) attention to fellow and faculty member burnout, depression,  
 1676 and substance abuse. The program, in partnership with its  
 1677 Sponsoring Institution, must educate faculty members and  
 1678 fellows in identification of the symptoms of burnout,  
 1679 depression, and substance abuse, including means to assist  
 1680 those who experience these conditions. Fellows and faculty  
 1681 members must also be educated to recognize those  
 1682 symptoms in themselves and how to seek appropriate care.  
 1683 The program, in partnership with its Sponsoring Institution,  
 1684 must: <sup>(Core)</sup>  
 1685  
 1686

**Background and Intent:** Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance abuse. Materials and more information are available on the Physician Well-being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).

1687  
1688  
1689  
1690  
1691  
1692  
1693  
1694

**VI.C.1.e).(1)** encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, substance abuse, suicidal ideation, or potential for violence; <sup>(Core)</sup>

**Background and Intent:** Individuals experiencing burnout, depression, substance abuse, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1695  
1696  
1697  
1698  
1699  
1700  
1701  
1702  
1703

**VI.C.1.e).(2)** provide access to appropriate tools for self-screening; and, <sup>(Core)</sup>

**VI.C.1.e).(3)** provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. <sup>(Core)</sup>

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1704  
1705  
1706  
1707

**VI.C.2.** There are circumstances in which fellows may be unable to attend work, including but not limited to fatigue, illness, family emergencies, and parental leave. Each program must allow an

1708 appropriate length of absence for fellows unable to perform their  
1709 patient care responsibilities. <sup>(Core)</sup>

1710  
1711 **VI.C.2.a)** The program must have policies and procedures in place to  
1712 ensure coverage of patient care. <sup>(Core)</sup>

1713  
1714 **VI.C.2.b)** These policies must be implemented without fear of negative  
1715 consequences for the fellow who is or was unable to provide  
1716 the clinical work. <sup>(Core)</sup>

1717

**Background and Intent: Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.**

1718

1719 **VI.D. Fatigue Mitigation**

1720

1721 **VI.D.1. Programs must:**

1722

1723 **VI.D.1.a)** educate all faculty members and fellows to recognize the  
1724 signs of fatigue and sleep deprivation; <sup>(Core)</sup>

1725

1726 **VI.D.1.b)** educate all faculty members and fellows in alertness  
1727 management and fatigue mitigation processes; and, <sup>(Core)</sup>

1728

1729 **VI.D.1.c)** encourage fellows to use fatigue mitigation processes to  
1730 manage the potential negative effects of fatigue on patient  
1731 care and learning. <sup>(Detail)</sup>

1732

**Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.**

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.**

1733

1734 **VI.D.2.** Each program must ensure continuity of patient care, consistent  
1735 with the program's policies and procedures referenced in VI.C.2–  
1736 VI.C.2.b), in the event that a fellow may be unable to perform their  
1737 patient care responsibilities due to excessive fatigue. <sup>(Core)</sup>

1738

1739 **VI.D.3.** The program, in partnership with its Sponsoring Institution, must  
1740 ensure adequate sleep facilities and safe transportation options for  
1741 fellows who may be too fatigued to safely return home. <sup>(Core)</sup>  
1742

1743 **VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care**  
1744

1745 **VI.E.1. Clinical Responsibilities**  
1746

1747 The clinical responsibilities for each fellow must be based on PGY  
1748 level, patient safety, fellow ability, severity and complexity of patient  
1749 illness/condition, and available support services. <sup>(Core)</sup>  
1750

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.**

1751  
1752 **VI.E.2. Teamwork**  
1753

1754 **Fellows must care for patients in an environment that maximizes**  
1755 **communication. This must include the opportunity to work as a**  
1756 **member of effective interprofessional teams that are appropriate to**  
1757 **the delivery of care in the subspecialty and larger health system.**  
1758 <sup>(Core)</sup>  
1759

1760 **VI.E.2.a)** Interprofessional teams may include non-physician health care  
1761 professionals, such as medical assistants, specialized nurses, and  
1762 technicians. <sup>(Detail)</sup> [Moved from VI.E.2.a)]  
1763

1764 **VI.E.3. Transitions of Care**  
1765

1766 **VI.E.3.a)** **Programs must design clinical assignments to optimize**  
1767 **transitions in patient care, including their safety, frequency,**  
1768 **and structure.** <sup>(Core)</sup>  
1769

1770 **VI.E.3.b)** **Programs, in partnership with their Sponsoring Institutions,**  
1771 **must ensure and monitor effective, structured hand-over**  
1772 **processes to facilitate both continuity of care and patient**  
1773 **safety.** <sup>(Core)</sup>  
1774

1775 **VI.E.3.c)** **Programs must ensure that fellows are competent in**  
1776 **communicating with team members in the hand-over process.**  
1777 <sup>(Outcome)</sup>  
1778

1779 **VI.E.3.d)** **Programs and clinical sites must maintain and communicate**  
1780 **schedules of attending physicians and fellows currently**  
1781 **responsible for care.** <sup>(Core)</sup>

1782  
1783 VI.E.3.e) Each program must ensure continuity of patient care,  
1784 consistent with the program’s policies and procedures  
1785 referenced in VI.C.2-VI.C.2.b), in the event that a fellow may  
1786 be unable to perform their patient care responsibilities due to  
1787 excessive fatigue or illness, or family emergency. <sup>(Core)</sup>  
1788

1789 VI.F. Clinical Experience and Education

1790  
1791 *Programs, in partnership with their Sponsoring Institutions, must design*  
1792 *an effective program structure that is configured to provide fellows with*  
1793 *educational and clinical experience opportunities, as well as reasonable*  
1794 *opportunities for rest and personal activities.*  
1795

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

1796  
1797 VI.F.1. Maximum Hours of Clinical and Educational Work per Week

1798  
1799 Clinical and educational work hours must be limited to no more than  
1800 80 hours per week, averaged over a four-week period, inclusive of all  
1801 in-house clinical and educational activities, clinical work done from  
1802 home, and all moonlighting. <sup>(Core)</sup>  
1803

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

**Scheduling**

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

**Oversight**

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their

assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

#### ***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

1804  
1805  
1806  
1807  
1808  
1809  
1810  
1811  
1812  
1813  
1814

- VI.F.2. Mandatory Time Free of Clinical Work and Education**
- VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>**
- VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>**

1815 VI.F.2.b).(1) There may be circumstances when fellows choose to  
1816 stay to care for their patients or return to the hospital  
1817 with fewer than eight hours free of clinical experience  
1818 and education. This must occur within the context of  
1819 the 80-hour and the one-day-off-in-seven  
1820 requirements. <sup>(Detail)</sup>  
1821

**Background and Intent:** While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1822 VI.F.2.c) Fellows must have at least 14 hours free of clinical work and  
1823 education after 24 hours of in-house call. <sup>(Core)</sup>  
1824  
1825

**Background and Intent:** Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

1826 VI.F.2.d) Fellows must be scheduled for a minimum of one day in  
1827 seven free of clinical work and required education (when  
1828 averaged over four weeks). At-home call cannot be assigned  
1829 on these free days. <sup>(Core)</sup>  
1830  
1831

**Background and Intent:** The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

1832 VI.F.3. Maximum Clinical Work and Education Period Length

1833 VI.F.3.a) Clinical and educational work periods for fellows must not  
1834 exceed 24 hours of continuous scheduled clinical  
1835 assignments. <sup>(Core)</sup>  
1836  
1837  
1838

1839 VI.F.3.a).(1) Up to four hours of additional time may be used for  
1840 activities related to patient safety, such as providing  
1841 effective transitions of care, and/or fellow education.  
1842 (Core)

1843  
1844 VI.F.3.a).(1).(a) Additional patient care responsibilities must not  
1845 be assigned to a fellow during this time. (Core)  
1846

**Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.**

1847  
1848 VI.F.4. Clinical and Educational Work Hour Exceptions

1849 VI.F.4.a) In rare circumstances, after handing off all other  
1850 responsibilities, a fellow, on their own initiative, may elect to  
1851 remain or return to the clinical site in the following  
1852 circumstances:  
1853

1854  
1855 VI.F.4.a).(1) to continue to provide care to a single severely ill or  
1856 unstable patient; (Detail)

1857  
1858 VI.F.4.a).(2) humanistic attention to the needs of a patient or  
1859 family; or, (Detail)

1860  
1861 VI.F.4.a).(3) to attend unique educational events. (Detail)

1862  
1863 VI.F.4.b) These additional hours of care or education will be counted  
1864 toward the 80-hour weekly limit. (Detail)  
1865

**Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.**

1866  
1867 VI.F.4.c) A Review Committee may grant rotation-specific exceptions  
1868 for up to 10 percent or a maximum of 88 clinical and  
1869 educational work hours to individual programs based on a  
1870 sound educational rationale.

1871  
1872 The Review Committee for Anesthesiology will not consider  
1873 requests for exceptions to the 80-hour limit to the residents' work

1874 week.

1875

1876 **VI.F.4.c).(1)** In preparing a request for an exception, the program  
1877 director must follow the clinical and educational work  
1878 hour exception policy from the *ACGME Manual of*  
1879 *Policies and Procedures.* (Core)

1880

1881 **VI.F.4.c).(2)** Prior to submitting the request to the Review  
1882 Committee, the program director must obtain approval  
1883 from the Sponsoring Institution's GMEC and DIO. (Core)

1884

**Background and Intent:** The provision for exceptions for up to 88 hours per week has been modified to specify that exceptions may be granted for specific rotations if the program can justify the increase based on criteria specified by the Review Committee. As in the past, Review Committees may opt not to permit exceptions. The underlying philosophy for this requirement is that while it is expected that all fellows should be able to train within an 80-hour work week, it is recognized that some programs may include rotations with alternate structures based on the nature of the specialty. DIO/GMEC approval is required before the request will be considered by the Review Committee.

1885

1886 **VI.F.5. Moonlighting**

1887

1888 **VI.F.5.a)** Moonlighting must not interfere with the ability of the fellow  
1889 to achieve the goals and objectives of the educational  
1890 program, and must not interfere with the fellow's fitness for  
1891 work nor compromise patient safety. (Core)

1892

1893 **VI.F.5.b)** Time spent by fellows in internal and external moonlighting  
1894 (as defined in the ACGME Glossary of Terms) must be  
1895 counted toward the 80-hour maximum weekly limit. (Core)

1896

**Background and Intent:** For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

1897

1898 **VI.F.6. In-House Night Float**

1899

1900 Night float must occur within the context of the 80-hour and one-  
1901 day-off-in-seven requirements. (Core)

1902

**Background and Intent:** The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

1903

1904 **VI.F.7. Maximum In-House On-Call Frequency**

1905

1906 Fellows must be scheduled for in-house call no more frequently than  
1907 every third night (when averaged over a four-week period). (Core)

1908

1909 **VI.F.8. At-Home Call**

- 1910
- 1911 **VI.F.8.a)** **Time spent on patient care activities by fellows on at-home**
- 1912 **call must count toward the 80-hour maximum weekly limit.**
- 1913 **The frequency of at-home call is not subject to the every-**
- 1914 **third-night limitation, but must satisfy the requirement for one**
- 1915 **day in seven free of clinical work and education, when**
- 1916 **averaged over four weeks.** (Core)
- 1917
- 1918 **VI.F.8.a).(1)** **At-home call must not be so frequent or taxing as to**
- 1919 **preclude rest or reasonable personal time for each**
- 1920 **fellow.** (Core)
- 1921
- 1922 **VI.F.8.b)** **Fellows are permitted to return to the hospital while on at-**
- 1923 **home call to provide direct care for new or established**
- 1924 **patients. These hours of inpatient patient care must be**
- 1925 **included in the 80-hour maximum weekly limit.** (Detail)
- 1926

**Background and Intent:** This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**
