1                   **ACGME Program Requirements for Graduate Medical Education**  
2                   **in Anesthesiology Critical Care Medicine**

3  
4                   **Common Program Requirements (Fellowship) are in BOLD**

5  
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.  
9

**Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

10  
11 **Introduction**

12  
13 **Int.A.**       *Fellowship is advanced graduate medical education beyond a core*  
14 *residency program for physicians who desire to enter more specialized*  
15 *practice.-Fellowship-trained physicians serve the public by providing*  
16 *subspecialty care, which may also include core medical care, acting as a*  
17 *community resource for expertise in their field, creating and integrating*  
18 *new knowledge into practice, and educating future generations of*  
19 *physicians. Graduate medical education values the strength that a diverse*  
20 *group of physicians brings to medical care.*

21  
22 *Fellows who have completed residency are able to practice independently*  
23 *in their core specialty. The prior medical experience and expertise of*  
24 *fellows distinguish them from physicians entering into residency training.*  
25 *The fellow's care of patients within the subspecialty is undertaken with*  
26 *appropriate faculty supervision and conditional independence. Faculty*  
27 *members serve as role models of excellence, compassion,*  
28 *professionalism, and scholarship. The fellow develops deep medical*  
29 *knowledge, patient care skills, and expertise applicable to their focused*  
30 *area of practice. Fellowship is an intensive program of subspecialty clinical*  
31 *and didactic education that focuses on the multidisciplinary care of*  
32 *patients. Fellowship education is often physically, emotionally, and*  
33 *intellectually demanding, and occurs in a variety of clinical learning*  
34 *environments committed to graduate medical education and the well-being*  
35 *of patients, residents, fellows, faculty members, students, and all members*  
36 *of the health care team.*

37  
38 *In addition to clinical education, many fellowship programs advance*  
39 *fellows' skills as physician-scientists. While the ability to create new*  
40 *knowledge within medicine is not exclusive to fellowship-educated*  
41 *physicians, the fellowship experience expands a physician's abilities to*  
42 *pursue hypothesis-driven scientific inquiry that results in contributions to*  
43 *the medical literature and patient care. Beyond the clinical subspecialty*  
44 *expertise achieved, fellows develop mentored relationships built on an*  
45 *infrastructure that promotes collaborative research.*

46  
47 **Int.B.**       **Definition of Subspecialty**

78

An anesthesiology critical care medicine fellowship provides advanced knowledge, skills, and clinical experiences in critical care medicine to foster the practice of multidisciplinary critical care, including both medical and surgical critical care medicine.

The subspecialty of anesthesiology critical care medicine is devoted to the acute and long-term care of critically-ill patients with a wide variety of medical and surgical conditions, including multiple organ system derangements. The overall goals of education in anesthesiology critical care medicine is to produce physicians capable of working in any adult critical care unit and providing for the continuum of care within the intensive care unit and other hospital units, such as transitional care units designed to provide care for critically-ill patients.

**Int.C. Length of Educational Program**

The educational program in anesthesiology critical care medicine must be 12 months in length. <sup>(Core)\*</sup>

**I. Oversight**

**I.A. Sponsoring Institution**

*The Sponsoring Institution is the organization or entity that assumes the ultimate financial and academic responsibility for a program of graduate medical education consistent with the ACGME Institutional Requirements.*

*When the Sponsoring Institution is not a rotation site for the program, the most commonly utilized site of clinical activity for the program is the primary clinical site.*

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner’s office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

79

81  
82  
83  
84  
85  
86  
87  
88  
89

**I.A.1. The program must be sponsored by one ACGME-accredited Sponsoring Institution. <sup>(Core)</sup>**

**I.B. Participating Sites**

*A participating site is an organization providing educational experiences or educational assignments/rotations for fellows.*

**I.B.1. The program, with approval of its Sponsoring Institution, must designate a primary clinical site. <sup>(Core)</sup>**

- 90  
91 I.B.1.a) The sponsoring institution must also sponsor Accreditation  
92 Council for Graduate Medical Education (ACGME)-accredited  
93 graduate education programs in anesthesiology, internal  
94 medicine, and surgery. <sup>(Core)</sup> [Moved from I.A.1]  
95  
96 I.B.1.b) When the institution sponsors more than one critical care  
97 program, it must coordinate interdisciplinary requirements to  
98 ensure that fellows meet the specific critical care medicine  
99 fellowship program requirements and criteria of their primary  
100 specialties (anesthesiology, internal medicine, surgery, or any  
101 other primary specialty that supports education and/or certification  
102 in critical care medicine). <sup>(Detail)</sup>† [Moved from I.A.2]  
103  
104 **I.B.2. There must be a program letter of agreement (PLA) between the**  
105 **program and each participating site that governs the relationship**  
106 **between the program and the participating site providing a required**  
107 **assignment.** <sup>(Core)</sup>  
108  
109 **I.B.2.a) The PLA must:**  
110  
111 **I.B.2.a).(1) be renewed at least every 10 years; and,** <sup>(Core)</sup>  
112  
113 **I.B.2.a).(2) be approved by the designated institutional official**  
114 **(DIO).** <sup>(Core)</sup>  
115  
116 **I.B.3. The program must monitor the clinical learning and working**  
117 **environment at all participating sites.** <sup>(Core)</sup>  
118  
119 **I.B.3.a) At each participating site there must be one faculty member,**  
120 **designated by the program director, who is accountable for**  
121 **fellow education for that site, in collaboration with the**  
122 **program director.** <sup>(Core)</sup>  
123

**Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.**

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**

- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

124  
125  
126

128  
129  
130  
131  
132  
133  
134  
135

**I.B.4.** The program director must submit any additions or deletions of participating sites routinely providing an educational experience, required for all fellows, of one month full time equivalent (FTE) or more through the ACGME’s Accreditation Data System (ADS). <sup>(Core)</sup>

**I.C.** The program, in partnership with its Sponsoring Institution, must engage in practices that focus on mission-driven, ongoing, systematic recruitment and retention of a diverse and inclusive workforce of residents (if present), fellows, faculty members, senior administrative staff members, and other relevant members of its academic community. <sup>(Core)</sup>

**Background and Intent:** It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

156  
157  
158  
159  
160  
161

**I.D. Resources**

**I.D.1.** The program, in partnership with its Sponsoring Institution, must ensure the availability of adequate resources for fellow education. <sup>(Core)</sup>

**I.D.1.a)** The program must have facilities and space to support the educational needs of the fellows, including meeting space, conference space, space for academic activities, and access to computers. <sup>(Core)</sup> [Moved from II.D.2]

**I.D.1.b)** Education in anesthesiology critical care medicine must occur principally in areas of the hospital commonly characterized as intensive care units (ICUs) or transitional care units, such as multidisciplinary, surgical, medical, pulmonary, coronary care, neurology, neonatal and pediatric, high-risk pregnancy, neurosurgical, trauma, and burn units. <sup>(Core)</sup> [Moved from II.D.3]

**I.D.1.c)** There must be readily available facilities to provide laboratory tests pertinent to care of critically-ill patients with multiple organ system derangements consistent with quality assurance and quality control requirements mandated by regulatory agencies and appropriate professional organizations, such as the College of American Pathologists (CAP). <sup>(Core)</sup> [Moved from II.D.4]

162 I.D.1.c).(1) Tests should include measurement of blood chemistries,  
163 blood gases and pH, culture and sensitivity, toxicology,  
164 and analysis of plasma drug concentrations. <sup>(Detail)</sup> [Moved  
165 from II.D.4.a)]

167 **I.D.1.d)** There must be facilities for routine and special radiologic imaging  
168 procedures, including interventional radiology and bedside  
169 ultrasound. <sup>(Core)</sup> [Moved from II.D.5)

171 **I.D.1.e)** Access to all radiologic studies and their interpretation must be  
172 available within the ICU environment utilizing electronic data  
173 systems such as Picture Archiving and Communication Systems  
174 (PACS). <sup>(Core)</sup> [Moved from II.D.5.a)]

176 I.D.1.e).(1) The ICU must have ultrasound equipment available to  
177 perform diagnostic assessment for procedures such as  
178 thoracentesis, paracentesis, vascular access (i.e.,  
179 peripherally-inserted central catheters, central catheter  
180 placement, and arterial cannulation), and comprehensive  
181 ultrasound evaluation, including echocardiography and  
182 focused assessment with sonography examinations (i.e.,  
183 fast scans). <sup>(Detail)</sup> [Moved from II.D.5.b)]

185 **I.D.2.** **The program, in partnership with its Sponsoring Institution, must**  
186 **ensure healthy and safe learning and working environments that**  
187 **promote fellow well-being and provide for:** <sup>(Core)</sup>

189 **I.D.2.a)** **access to food while on duty;** <sup>(Core)</sup>

191 **I.D.2.b)** **safe, quiet, clean, and private sleep/rest facilities available**  
192 **and accessible for fellows with proximity appropriate for safe**  
193 **patient care;** <sup>(Core)</sup>

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.**

195  
196 **I.D.2.c)** **clean and private facilities for lactation that have refrigeration**  
197 **capabilities, with proximity appropriate for safe patient care;**  
198 <sup>(Core)</sup>

**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients,**

such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

- 200  
201 **I.D.2.d)** security and safety measures appropriate to the participating  
202 site; and, <sup>(Core)</sup>  
203  
204 **I.D.2.e)** accommodations for fellows with disabilities consistent with  
205 the Sponsoring Institution's policy. <sup>(Core)</sup>  
206  
207 **I.D.3.** Fellows must have ready access to subspecialty-specific and other  
208 appropriate reference material in print or electronic format. This  
209 must include access to electronic medical literature databases with  
210 full text capabilities. <sup>(Core)</sup>  
211  
212 **I.D.4.** The program's educational and clinical resources must be adequate  
213 to support the number of fellows appointed to the program. <sup>(Core)</sup>  
214  
215 **I.D.4.a)** The patient population available to the program must include a  
216 wide variety of clinical problems necessary for the development of  
217 broad-based clinical expertise in clinical care, the development of  
218 judgment required for a specialist across medical and surgical  
219 critical care medicine, and the opportunity to coordinate care  
220 across specialties. <sup>(Core)</sup> [Moved from II.D.1]  
221  
222 **I.D.4.b)** The patient population should include both adult and pediatric  
223 patients representing a wide variety of clinical problems, including  
224 congenital medical and surgical conditions. <sup>(Detail)</sup> [Moved from  
225 II.D.1.a)]  
226  
227 **I.D.4.c)** There must be an average daily census of at least five patients  
228 per fellow during assignments to critical care units. <sup>(Detail)</sup> [Moved  
229 from II.D.3.a)]  
230  
231 **I.E.** ***A fellowship program usually occurs in the context of many learners and  
232 other care providers and limited clinical resources. It should be structured  
233 to optimize education for all learners present.***  
234  
235 **I.E.1.** **Fellows should contribute to the education of residents in core  
236 programs, if present.** <sup>(Core)</sup>  
237  
238 **I.E.2.** The presence of other learners or staff members in the program must not  
239 interfere with the fellows' education. <sup>(Detail)</sup> [Moved from III.B.1.a)]  
240  
241 **I.E.3.** The program should collaborate with the core anesthesiology program  
242 director to clearly define and differentiate the lines of responsibility and  
243 clinical competencies expected of the anesthesiology core residents and  
244 the critical care fellows; <sup>(Detail)</sup> [Moved from II.A.3.h)]  
245  
246 **I.E.4.** The program should ensure that the fellowship is coordinated with and  
247 does not compromise any of the requirements of the core residency in

248  
249

anesthesiology, and, <sup>(Detail)</sup> [Moved from II.A.3.i)]

**Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.**

264  
265

**II. Personnel**

**II.A. Program Director**

**II.A.1. There must be one faculty member appointed as program director with authority and accountability for the overall program, including compliance with all applicable program requirements. <sup>(Core)</sup>**

**II.A.1.a) The Sponsoring Institution's Graduate Medical Education Committee (GMEC) must approve a change in program director. <sup>(Core)</sup>**

**II.A.1.b) Final approval of the program director resides with the Review Committee. <sup>(Core)</sup>**

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and made responsible for the program. This individual will have dedicated time for the leadership of the fellowship, and it is this individual's responsibility to communicate with the fellows, faculty members, DIO, GMEC, and the ACGME. The program director's nomination is reviewed and approved by the GMEC. Final approval of program directors resides with the Review Committee.**

282  
283  
284

**II.A.2. The program director must be provided with support adequate for administration of the program based upon its size and configuration. <sup>(Core)</sup>**

**[The Review Committee must further specify]**

[The Review Committee's specification will be included in an upcoming focused revision to the Anesthesiology Critical Care Medicine Program Requirements]

**II.A.3. Qualifications of the program director:**

**II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, <sup>(Core)</sup>**

**II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Anesthesiology ~~or by the American Osteopathic Board of~~**

325  
326

\_\_\_\_\_, or subspecialty qualifications that are acceptable to the Review Committee. <sup>(Core)</sup>

[Note that while the Common Program Requirements deem certification by a certifying board of the American Osteopathic Association (AOA) acceptable, there is no AOA board that offers certification in this subspecialty]

**II.A.3.b).(1)**                    ~~The program director~~ must have privileges to practice critical care medicine and procedures relevant to the practice of critical care medicine. <sup>(Core)</sup> [Moved from II.A.2.c).(1)]

**II.A.3.b).(2)**                    must have current appointment as a faculty member in the Department of Anesthesiology; <sup>(Core)</sup> [Moved from II.A.2.d)]

**II.A.3.b).(3)**                    must demonstrated ongoing academic achievements with appropriate dissemination, including publications in peer-reviewed journals, the development of educational programs, or the conduct of research; and, <sup>(Core)</sup> [Moved from II.A.2.e]

**II.A.3.b).(4)**                    must have post-residency or fellowship experience in the care of critically-ill patients. <sup>(Core)</sup> [Moved from II.A.2.f)]

**II.A.4.                    Program Director Responsibilities**

**The program director must have responsibility, authority, and accountability for: administration and operations; teaching and scholarly activity; fellow recruitment and selection, evaluation, and promotion of fellows, and disciplinary action; supervision of fellows; and fellow education in the context of patient care. <sup>(Core)</sup>**

**II.A.4.a)                    The program director must:**

**II.A.4.a).(1)                    be a role model of professionalism; <sup>(Core)</sup>**

**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.**

**II.A.4.a).(2)                    design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; <sup>(Core)</sup>**

327

**Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.**

328  
329  
330  
331  
332

**II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; (Core)**

**Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.**

333

346  
347  
348  
349  
350

**II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; (Core)**

**II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; (Core)**

**II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; (Core)**

**II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; (Core)**

**Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.**

**There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.**

352  
353  
354  
355  
356  
357

**II.A.4.a).(8) submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; (Core)**

**II.A.4.a).(9) provide applicants who are offered an interview with information related to the applicant's eligibility for the relevant subspecialty board examination(s); (Core)**

- 358  
359 **II.A.4.a).(10)** provide a learning and working environment in which  
360 fellows have the opportunity to raise concerns and  
361 provide feedback in a confidential manner as  
362 appropriate, without fear of intimidation or retaliation;  
363 (Core)  
364  
365 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring  
366 Institution's policies and procedures related to  
367 grievances and due process; (Core)  
368  
369 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring  
370 Institution's policies and procedures for due process  
371 when action is taken to suspend or dismiss, not to  
372 promote, or not to renew the appointment of a fellow;  
373 (Core)  
374

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.**

- 375  
376 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring  
377 Institution's policies and procedures on employment  
378 and non-discrimination; (Core)  
379  
380 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-  
381 competition guarantee or restrictive covenant.  
382 (Core)  
383  
384 **II.A.4.a).(14)** document verification of program completion for all  
385 graduating fellows within 30 days; (Core)  
386  
387 **II.A.4.a).(15)** provide verification of an individual fellow's  
388 completion upon the fellow's request, within 30 days;  
389 and, (Core)  
390

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

- 391  
392 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
393 Institution's DIO before submitting information or  
394 requests to the ACGME, as required in the Institutional  
395 Requirements and outlined in the ACGME Program  
396 Director's Guide to the Common Program  
397 Requirements. (Core)  
398

399 **II.A.4.a).(17)** devote a minimum of 50 percent of his or her time to  
400 clinical, educational, administrative, and academic  
401 activities in critical care medicine; <sup>(Core)</sup> [Moved from  
402 II.A.3.e)]  
403

404 **II.A.4.a).(18)** with input from the faculty, prepare and comply with written  
405 goals for the program; <sup>(Detail)</sup> [Moved from II.A.3.f)]  
406

407 **II.B. Faculty**

408  
409 *Faculty members are a foundational element of graduate medical education*  
410 *– faculty members teach fellows how to care for patients. Faculty members*  
411 *provide an important bridge allowing fellows to grow and become practice*  
412 *ready, ensuring that patients receive the highest quality of care. They are*  
413 *role models for future generations of physicians by demonstrating*  
414 *compassion, commitment to excellence in teaching and patient care,*  
415 *professionalism, and a dedication to lifelong learning. Faculty members*  
416 *experience the pride and joy of fostering the growth and development of*  
417 *future colleagues. The care they provide is enhanced by the opportunity to*  
418 *teach. By employing a scholarly approach to patient care, faculty members,*  
419 *through the graduate medical education system, improve the health of the*  
420 *individual and the population.*  
421

422 *Faculty members ensure that patients receive the level of care expected*  
423 *from a specialist in the field. They recognize and respond to the needs of*  
424 *the patients, fellows, community, and institution. Faculty members provide*  
425 *appropriate levels of supervision to promote patient safety. Faculty*  
426 *members create an effective learning environment by acting in a*  
427 *professional manner and attending to the well-being of the fellows and*  
428 *themselves.*  
429

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment or salary support.**

430  
431 **II.B.1. For each participating site, there must be a sufficient number of**  
432 **faculty members with competence to instruct and supervise all**  
433 **fellows at that location. <sup>(Core)</sup>**  
434

435 **II.B.1.a)** Faculty members with education and certification in other  
436 specialties, including diagnostic radiology, emergency medicine,  
437 internal medicine and its subspecialties, neurological surgery,  
438 neurology, obstetrics and gynecology, pathology, pediatrics, and  
439 surgery and its subspecialties, should participate in the program.  
440 <sup>(Detail)</sup> [Moved from II.B.7]  
441

442 **II.B.1.b)** A critical care faculty member who is an anesthesiologist (program  
443 director or other) must function as the medical director or co-  
444 medical director of one or more of the critical care units in which  
445 the majority of fellows’ clinical education is required to take place.  
446 <sup>(Core)</sup> [Moved from II.B.8]

447  
448  
449  
450  
451  
452  
453  
454

**II.B.2. Faculty members must:**

**II.B.2.a) be role models of professionalism;** <sup>(Core)</sup>

**II.B.2.b) demonstrate commitment to the delivery of safe, quality, cost-effective, patient-centered care;** <sup>(Core)</sup>

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

455  
456  
457  
458  
459  
460  
461  
462  
463  
464  
465  
466  
467  
468  
469  
470  
471  
472  
473  
474  
475

**II.B.2.c) demonstrate a strong interest in the education of fellows;** <sup>(Core)</sup>

**II.B.2.d) devote sufficient time to the educational program to fulfill their supervisory and teaching responsibilities;** <sup>(Core)</sup>

**II.B.2.e) administer and maintain an educational environment conducive to educating fellows;** <sup>(Core)</sup>

**II.B.2.f) regularly participate in organized clinical discussions, rounds, journal clubs, and conferences; and,** <sup>(Core)</sup>

**II.B.2.g) pursue faculty development designed to enhance their skills at least annually.** <sup>(Core)</sup>

**II.B.2.h) ~~Each faculty member participating in the fellowship must demonstrate ongoing academic achievements appropriate to anesthesiology critical care medicine, including publications, the development of the educational program, or the conduct of research.~~** <sup>(Core)</sup> [Moved from II.B.6]

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

476  
477  
478  
479  
480  
481  
482  
483  
484

**II.B.3. Faculty Qualifications**

**II.B.3.a) Faculty members must have appropriate qualifications in their field and hold appropriate institutional appointments.** <sup>(Core)</sup>

**II.B.3.b) Subspecialty physician faculty members must:**

485 **II.B.3.b).(1)** have current certification in the subspecialty by the  
486 **American Board of Anesthesiology or the American**  
487 **Osteopathic Board of \_\_\_\_\_, or possess qualifications**  
488 **judged acceptable to the Review Committee.** (Core)

489  
490 [Note that while the Common Program Requirements  
491 deem certification by a certifying board of the American  
492 Osteopathic Association (AOA) acceptable, there is no  
493 AOA board that offers certification in this subspecialty]

495 **II.B.3.b).(1).(a)** Other qualifications that are acceptable to the  
496 Review Committee include certification in critical  
497 care medicine or its affiliated subspecialties by a  
498 member medical or surgical board of the American  
499 Board of Medical Specialties (ABMS) or a certifying  
500 board of the American Osteopathic Association  
501 (AOA). (Core) [Moved from II.B.3.a)]

503 **II.B.3.c)** Any non-physician faculty members who participate in  
504 fellowship program education must be approved by the  
505 program director. (Core)

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

507  
508 **II.B.3.d)** Any other specialty physician faculty members must have  
509 current certification in their specialty by the appropriate  
510 American Board of Medical Specialties (ABMS) member  
511 board or American Osteopathic Association (AOA) certifying  
512 board, or possess qualifications judged acceptable to the  
513 Review Committee. (Core)

514  
515 **II.B.4.** **Core Faculty**  
516  
517 Core faculty members must have a significant role in the education  
518 and supervision of fellows and must devote a significant portion of  
519 their entire effort to fellow education and/or administration, and  
520 must, as a component of their activities, teach, evaluate, and provide  
521 formative feedback to fellows. (Core)

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum and in assessing fellows' progress toward achievement of competence in the subspecialty. Core faculty members should be selected for their**

**broad knowledge of and involvement in the program, permitting them to effectively evaluate the program, including completion of the annual ACGME Faculty Survey.**

523  
524 **II.B.4.a) Core faculty members must be designated by the program**  
525 **director. (Core)**  
526

527 **II.B.4.b) Core faculty members must complete the annual ACGME**  
528 **Faculty Survey. (Core)**  
529

530 **II.B.4.c) The ~~core physician~~ faculty must include at least two FTE**  
531 **anesthesiologists with certification in critical care medicine or**  
532 **equivalent credentials. (Core) [Moved from II.B.5]**  
533

534 **II.B.4.c).(1) For programs with four or more fellows, there must be at**  
535 **least one FTE-faculty member for every two fellows. (Core)**  
536 **[Moved from II.B.5.a]**  
537

538 **II.C. Program Coordinator**  
539

540 **II.C.1. There must be a program coordinator. (Core)**  
541

542 **II.C.2. The program coordinator must be provided with support adequate**  
543 **for administration of the program based upon its size and**  
544 **configuration. (Core)**  
545

**Background and Intent: Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison with learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

**The program coordinator is a member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management. Program coordinators are expected to develop unique knowledge of the ACGME and Program Requirements, policies, and procedures. Program coordinators assist the program director in accreditation efforts, educational programming, and support of fellows.**

**Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.**

546  
547 **II.D. Other Program Personnel**  
548

549 **The program, in partnership with its Sponsoring Institution, must jointly**  
550 **ensure the availability of necessary personnel for the effective**  
551 **administration of the program. (Core)**  
552

553 **II.D.1. Health care personnel, including nurses with qualifications and**  
554 **experience in critical care medicine, critical care nurse practitioners when**

555 available, pharmacists, respiratory therapists, nutritionists, and case  
556 managers, must participate in the care of patients to optimize the  
557 multidisciplinary nature of the program. <sup>(Detail)</sup> [Moved from II.C.1]  
558

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

559  
560 **III. Fellow Appointments**

561  
562 **III.A. Eligibility Criteria**

563  
564 **III.A.1. Eligibility Requirements – Fellowship Programs**

565  
566 **All required clinical education for entry into ACGME-accredited**  
567 **fellowship programs must be completed in an ACGME-accredited**  
568 **residency program, an AOA-approved residency program, a**  
569 **program with ACGME International (ACGME-I) Advanced Specialty**  
570 **Accreditation, or a Royal College of Physicians and Surgeons of**  
571 **Canada (RCPSC)-accredited or College of Family Physicians of**  
572 **Canada (CFPC)-accredited residency program located in Canada.**  
573 <sup>(Core)</sup>  
574

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

575  
576 **III.A.1.a) Fellowship programs must receive verification of each**  
577 **entering fellow’s level of competence in the required field,**  
578 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**  
579 **Milestones evaluations from the core residency program. <sup>(Core)</sup>**  
580

581 **III.A.1.b)** Prior to appointment to the program, fellows must have completed  
582 an ~~ACGME- or RCPSC-accredited~~ acceptable residency  
583 described in III.A.1. above in anesthesiology or emergency  
584 medicine; or at least three clinical years in an ~~ACGME- or~~  
585 ~~RCPSC-accredited~~ acceptable residency described in III.A.1.  
586 above in neurological surgery, obstetrics and gynecology,  
587 orthopaedic surgery, otolaryngology, surgery, thoracic surgery,  
588 vascular surgery, or urology. <sup>(Core)</sup> [Moved from III.A.]  
589

590 **III.A.1.c) Fellow Eligibility Exception**

591  
592 **The Review Committee for Anesthesiology will allow the**  
593 **following exception to the fellowship eligibility requirements:**  
594

595 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**  
596 **an exceptionally qualified international graduate**  
597 **applicant who does not satisfy the eligibility**

- 598 requirements listed in III.A.1., but who does meet all of  
 599 the following additional qualifications and conditions:  
 600 (Core)  
 601  
 602 **III.A.1.c).(1).(a)** evaluation by the program director and  
 603 fellowship selection committee of the  
 604 applicant's suitability to enter the program,  
 605 based on prior training and review of the  
 606 summative evaluations of training in the core  
 607 specialty; and, (Core)  
 608  
 609 **III.A.1.c).(1).(b)** review and approval of the applicant's  
 610 exceptional qualifications by the GMEC; and,  
 611 (Core)  
 612  
 613 **III.A.1.c).(1).(c)** verification of Educational Commission for  
 614 Foreign Medical Graduates (ECFMG)  
 615 certification. (Core)  
 616  
 617 **III.A.1.c).(2)** Applicants accepted through this exception must have  
 618 an evaluation of their performance by the Clinical  
 619 Competency Committee within 12 weeks of  
 620 matriculation. (Core)  
 621

**Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.**

- 622  
 623 **III.B.** The program director must not appoint more fellows than approved by the  
 624 Review Committee. (Core)  
 625  
 626 **III.B.1.** All complement increases must be approved by the Review  
 627 Committee. (Core)  
 628  
 629 **III.C.** Fellow Transfers  
 630

631 The program must obtain verification of previous educational experiences  
632 and a summative competency-based performance evaluation prior to  
633 acceptance of a transferring fellow, and Milestones evaluations upon  
634 matriculation. <sup>(Core)</sup>

635  
636 **IV. Educational Program**

637  
638 *The ACGME accreditation system is designed to encourage excellence and*  
639 *innovation in graduate medical education regardless of the organizational*  
640 *affiliation, size, or location of the program.*

641  
642 *The educational program must support the development of knowledgeable, skillful*  
643 *physicians who provide compassionate care.*

644  
645 *In addition, the program is expected to define its specific program aims consistent*  
646 *with the overall mission of its Sponsoring Institution, the needs of the community*  
647 *it serves and that its graduates will serve, and the distinctive capabilities of*  
648 *physicians it intends to graduate. While programs must demonstrate substantial*  
649 *compliance with the Common and subspecialty-specific Program Requirements, it*  
650 *is recognized that within this framework, programs may place different emphasis*  
651 *on research, leadership, public health, etc. It is expected that the program aims*  
652 *will reflect the nuanced program-specific goals for it and its graduates; for*  
653 *example, it is expected that a program aiming to prepare physician-scientists will*  
654 *have a different curriculum from one focusing on community health.*

655  
656 **IV.A. The curriculum must contain the following educational components:** <sup>(Core)</sup>

657  
658 **IV.A.1. a set of program aims consistent with the Sponsoring Institution's**  
659 **mission, the needs of the community it serves, and the desired**  
660 **distinctive capabilities of its graduates;** <sup>(Core)</sup>

661  
662 **IV.A.1.a) The program's aims must be made available to program**  
663 **applicants, fellows, and faculty members.** <sup>(Core)</sup>

664  
665 **IV.A.2. competency-based goals and objectives for each educational**  
666 **experience designed to promote progress on a trajectory to**  
667 **autonomous practice in their subspecialty. These must be**  
668 **distributed, reviewed, and available to fellows and faculty members;**  
669 <sup>(Core)</sup>

670  
671 **IV.A.2.a) All educational components of the program should be related to**  
672 **the program goals.** <sup>(Core)</sup> [Moved from IV.A.1.a)]

673  
674 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**  
675 **responsibility for patient management, and graded supervision in**  
676 **their subspecialty;** <sup>(Core)</sup>

677

<p><b>Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility</b></p>
---

independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

678  
679  
680  
681

**IV.A.4. structured educational activities beyond direct patient care; and, (Core)**

**Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.**

682  
683  
684  
685  
686  
687

**IV.A.5. advancement of fellows' knowledge of ethical principles foundational to medical professionalism. (Core)**

**IV.B. ACGME Competencies**

**Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.**

688  
689  
690  
691  
692  
693  
694  
695  
696  
697  
698

**IV.B.1. The program must integrate the following ACGME Competencies into the curriculum: (Core)**

**IV.B.1.a) Professionalism**

**Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. (Core)**

**IV.B.1.b) Patient Care and Procedural Skills**

**Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs*. 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

699  
700  
701

**IV.B.1.b).(1) Fellows must be able to provide patient care that is compassionate, appropriate, and effective for the**

702		<b>treatment of health problems and the promotion of</b>
703		<b>health.</b> <small>(Core)</small>
704		
705	IV.B.1.b).(1).(a)	<u>Fellows</u> must demonstrate competence in providing
706		clinical care and consultation, under the direction
707		and supervision of faculty members, by evaluating
708		a patient's medical condition, determining the need
709		for critical care services, and, as appropriate
710		formulating a plan of care, including:
711		<small>(Outcome)(Core)</small> Moved from IV.A.2.a).(1).(a)]

736		<small>(Outcome)(Core)</small> [Moved from
737		IV.A.2.a).(1).(a).(vi)]
738		
739	IV.B.1.b).(1).(a).(vii)	diagnosis and treatment of hepatic
740		dysfunction; <small>(Outcome)(Core)</small> [Moved from
741		IV.A.2.a).(1).(a).(vii).
742		
743	IV.B.1.b).(1).(a).(viii)	evaluation and management of central and
744		peripheral nervous system dysfunction;
745		<small>(Outcome)(Core)</small> [Moved from
746		IV.A.2.a).(1).(a).(viii)]
747		
748	IV.B.1.b).(1).(a).(ix)	management of life threatening medical
749		illness, to include oncologic, dermatologic,
750		and endocrinologic illnesses; <small>(Outcome)(Core)</small>
751		[Moved from IV.A.2.a).(1).(ix)]
752		

753	IV.B.1.b).(1).(a).(x)	indications for and interpretation of
754		laboratory results; <sup>(Outcome)(Core)</sup> [Moved from
755		IV.A.2.a).(1).(a).(x)]
756		
757	IV.B.1.b).(1).(a).(xi)	psychiatric implications of critical illness;
758		<sup>(Outcome)(Core)</sup> [Moved from
759		IV.A.2.a).(1).(a).(xi)]
760		
761	IV.B.1.b).(1).(a).(xii)	palliative and end-of-life care; <sup>(Outcome)(Core)</sup>
762		[Moved from IV.A.2.a).(1).(a).(xii)]
763		
764	IV.B.1.b).(1).(a).(xiii)	routine incorporation of standards of care
765		and established guidelines or procedures
766		for patient safety and error reduction; and,
767		<sup>(Outcome)(Core)</sup> [Moved from
768		IV.A.2.a).(1).(a).(xiii)]
769		
770	IV.B.1.b).(1).(a).(xiv)	demonstration of patient management and
771		psychomotor (procedural) skills required for
772		the practice of the subspecialty. <sup>(Outcome)(Core)</sup>
773		[Moved from IV.A.2.a).(1).(a).(xiv)]
774		
775	IV.B.1.b).(1).(b)	<u>Fellows</u> must demonstrate competence in
776		coordinating care across medical specialties, as
777		appropriate, to communicate patient status, plans
778		of care, and long-term needs of the patient to other
779		health care providers, and to collaborate in the
780		management of the critically-ill patient. <sup>(Outcome)(Core)</sup>
781		[Moved from IV.A.2.a).(1).(b)]
782		
783	IV.B.1.b).(1).(c)	Fellows must demonstrate competence in: [Moved
784		from IV.A.2.e)]
785		
786	IV.B.1.b).(1).(c).(i)	compassion, integrity, and respect for
787		others; <sup>(Outcome)(Core)</sup> [Moved from
788		IV.A.2.e).(1)]
789		
790	IV.B.1.b).(1).(c).(ii)	responsiveness to patient needs;
791		<sup>(Outcome)(Core)</sup> [Moved from IV.A.2.e).(2)]
792		
793	IV.B.1.b).(1).(c).(iii)	respect for patient privacy and autonomy;
794		<sup>(Outcome)(Core)</sup> [Moved from IV.A.2.e).(3)]
795		
796	IV.B.1.b).(1).(c).(iv)	accountability to patients, society, and the
797		profession; <sup>(Outcome)(Core)</sup> [Moved from
798		IV.A.2.e).(4)]
799		
800	IV.B.1.b).(1).(c).(v)	sensitivity and responsiveness to a diverse
801		patient population, including diversity in
802		gender, age, culture, race, religion,
803		disabilities, and sexual orientation; and,

804		(Outcome)(Core) [Moved from IV.A.2.e).(5)]
805		
806	IV.B.1.b).(1).(c).(vi)	compliance with institutional, departmental, and program policies. (Outcome)(Core) [Moved from IV.A.2.e).(6)]
807		
808		
809		
810	IV.B.1.b).(1).(d)	Fellows must demonstrate competence in: [Moved from IV.A.2.f)]
811		
812		
813	IV.B.1.b).(1).(d).(i)	working in interprofessional teams to enhance patient safety and improve patient care quality; (Outcome)(Core) [Moved from IV.A.2.f).(1)]
814		
815		
816		
817		
818	IV.B.1.b).(1).(d).(ii)	identifying system errors and potential errors (near misses), and assisting in the implementation of potential system solutions; and, (Outcome)(Core) [Moved from IV.A.2.f).(2)]
819		
820		
821		
822		
823		
824	IV.B.1.b).(1).(d).(iii)	administrative and management skills related to delivery of critical care services, resource utilization, and triage of critically-ill patients. (Outcome)(Core) [Moved from IV.A.2.f).(3)]
825		
826		
827		
828		
829		
830	IV.B.1.b).(2)	<b>Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice.</b> (Core)
831		
832		
833		
834	IV.B.1.b).(2).(a)	<u>Fellows</u> must demonstrate proficiency in procedural skills and sound clinical judgment in the care of patients with complex medical and surgical conditions, including: (Outcome)(Core) [Moved from IV.A.2.a).(2).(a)]
835		
836		
837		
838		
839		
840	IV.B.1.b).(2).(a).(i)	airway maintenance and management, to include fiberoptic approaches to the airway for both diagnostic and therapeutic purposes; (Outcome)(Core) [Moved from IV.A.2.a).(2).(a).(i)]
841		
842		
843		
844		
845		
846	IV.B.1.b).(2).(a).(ii)	indications for and placement of percutaneous tracheostomies; (Outcome)(Core)
847		
848		
849	IV.B.1.b).(2).(a).(iii)	invasive and non-invasive ventilatory support; (Outcome)(Core)
850		
851		
852	IV.B.1.b).(2).(a).(iv)	techniques for and therapeutic treatment of conditions requiring thoracentesis and/or tube thoracotomy when indicated;
853		
854		

855		(Outcome)(Core) [Moved from
856		IV.A.2.a).(2).(a).(iv)]
857		
858	IV.B.1.b).(2).(a).(v)	diagnosis and pharmacologic and
859		mechanical support of circulation,
860		myocardial function, and shock; (Outcome)(Core)
861		[Moved from IV.A.2.a).(2).(a).(v)]
862		
863	IV.B.1.b).(2).(a).(vi)	cardiopulmonary resuscitation (CPR);
864		(Outcome)(Core) [Moved from
865		IV.A.2.a).(2).(a).(vi)]
866		
867	IV.B.1.b).(2).(a).(vi).(a)	Fellows must be certified in
868		advanced cardiovascular life support
869		(ACLS) throughout their
870		anesthesiology critical care medicine
871		education. (Outcome)(Core) [Moved from
872		IV.A.2.a).(2).(a).(vi).(a)]
873		
874	IV.B.1.b).(2).(a).(vii)	placement and management of arterial,
875		central venous, and pulmonary arterial
876		catheters; (Outcome)(Core) [Moved from
877		IV.A.2.a).(2).(a).(vii)]
878		
879	IV.B.1.b).(2).(a).(viii)	emergent and therapeutic placement of
880		pacemakers; (Outcome)(Core) [Moved from
881		IV.A.2.a).(2).(a).(viii)]
882		
883	IV.B.1.b).(2).(a).(ix)	fluid resuscitation and management of
884		massive blood loss; (Outcome)(Core) [Moved
885		from IV.A.2.a).(2).(a).(ix)]
886		
887	IV.B.1.b).(2).(a).(x)	prescribing enteral and total parenteral
888		nutrition; (Outcome)(Core) [Moved from
889		IV.A.2.a).(2).(a).(x)]
890		
891	IV.B.1.b).(2).(a).(xi)	ultrasonography for transthoracic (TTE) and
892		transesophageal (TEE) echocardiography,
893		facilitation of invasive catheter placement,
894		and diagnostic studies and therapeutic
895		interventions relevant to the critically-ill
896		patient; and, (Outcome)(Core) [Moved from
897		IV.A.2.a).(2).(a).(xi)]
898		
899	IV.B.1.b).(2).(a).(xii)	pain management, sedation, and anxiolysis
900		for the critically-ill patient. (Outcome)(Core)
901		[Moved from IV.A.2.a).(2).(a).(xii)]
902		
903	<b>IV.B.1.c)</b>	<b>Medical Knowledge</b>
904		

905		<b>Fellows must demonstrate knowledge of established and</b>
906		<b>evolving biomedical, clinical, epidemiological and social-</b>
907		<b>behavioral sciences, as well as the application of this</b>
908		<b>knowledge to patient care.</b> <small>(Core)</small>
909		
910	IV.B.1.c).(1)	<u>Fellows</u> must demonstrate knowledge of those areas
911		appropriate for a subspecialist in anesthesiology critical
912		care medicine, including: <small>(Outcome)(Core)</small> [Moved from
913		IV.A.2.b).(1)]
914		
915	IV.B.1.c).(1).(a)	resuscitation; <small>(Outcome)(Core)</small> [Moved from
916		IV.A.2.b).(1).(a)]
917		
918	IV.B.1.c).(1).(b)	cardiovascular physiology, pathology,
919		pathophysiology, and therapy; <small>(Outcome)(Core)</small> [Moved
920		from IV.A.2.b).(1).(b)]
921		
922	IV.B.1.c).(1).(c)	respiratory physiology, pathology, pathophysiology,
923		and therapy; <small>(Outcome)(Core)</small> [Moved from
924		IV.A.2.b).(1).(c)]
925		
926	IV.B.1.c).(1).(d)	renal physiology, pathology, pathophysiology, and
927		therapy; <small>(Outcome)(Core)</small> [Moved from IV.A.2.b).(1).(d)]
928		
929	IV.B.1.c).(1).(e)	central and peripheral nervous system physiology,
930		pathology, pathophysiology, and therapy;
931		<small>(Outcome)(Core)</small> [Moved from IV.A.2.b).(1).(e)]
932		
933	IV.B.1.c).(1).(f)	pain management, sedation, and anxiolysis for
934		critically-ill patients; <small>(Outcome)(Core)</small> [Moved from
935		IV.A.2.b).(1).(f)]
936		
937	IV.B.1.c).(1).(g)	recognition and management of altered states of
938		consciousness, to include delirium; <small>(Outcome)(Core)</small>
939		[Moved from IV.A.2.b).(1).(g)]
940		
941	IV.B.1.c).(1).(h)	metabolic and endocrine effects of critical illness;
942		<small>(Outcome)(Core)</small> [Moved from IV.A.2.b).(1).(h)]
943		
944	IV.B.1.c).(1).(i)	infectious disease physiology, pathology,
945		pathophysiology, and therapy; <small>(Outcome)(Core)</small> [Moved
946		from IV.A.2.b).(1).(i)]
947		
948	IV.B.1.c).(1).(j)	primary hematologic disorders and hematologic
949		disorders secondary to critical illness; <small>(Outcome)(Core)</small>
950		[Moved from IV.A.2.b).(1).(j)]
951		
952	IV.B.1.c).(1).(k)	transfusion therapy; <small>(Outcome)(Core)</small> [Moved from
953		IV.A.2.b).(1).(k)]
954		
955	IV.B.1.c).(1).(l)	gastrointestinal, genitourinary, obstetric, and

956		gynecologic disorders; <sup>(Outcome)(Core)</sup> [Moved from
957		IV.A.2.b).(1).(l)]
958		
959	IV.B.1.c).(1).(m)	trauma, to include burn management; <sup>(Outcome)(Core)</sup>
960		[Moved from IV.A.2.b).(1).(m)]
961		
962	IV.B.1.c).(1).(n)	monitoring equipment for the care of critically-ill
963		patients and basic concepts of bioengineering, to
964		include the principles of ultrasound, Doppler, and
965		other medical imaging techniques relevant to
966		critical care medicine; <sup>(Outcome)(Core)</sup> [Moved from
967		IV.A.2.b).(1).(n)]
968		
969	IV.B.1.c).(1).(o)	life-threatening pediatric conditions; <sup>(Outcome)(Core)</sup>
970		[Moved from IV.A.2.b).(1).(o)]
971		
972	IV.B.1.c).(1).(p)	palliative and end-of-life care; <sup>(Outcome)(Core)</sup> [Moved
973		from IV.A.2.b).(1).(p)]
974		
975	IV.B.1.c).(1).(q)	pharmacokinetics and dynamics, to include drug
976		metabolism and excretion in critical illness;
977		<sup>(Outcome)(Core)</sup> [Moved from IV.A.2.b).(1).(q)]
978		
979	IV.B.1.c).(1).(r)	coordination of transport and triage of critically-ill
980		patients; <sup>(Outcome)(Core)</sup> [Moved from IV.A.2.b).(1).(r)]
981		
982	IV.B.1.c).(1).(s)	coordination of care for the patient with multisystem
983		failure requiring evaluation and management by a
984		diverse group of providers; <sup>(Outcome)(Core)</sup> [Moved from
985		IV.A.2.b).(1).(s)]
986		
987	IV.B.1.c).(1).(t)	administrative and management principles, to
988		include triage, resource utilization, and rationing of
989		limited resources; <sup>(Outcome)(Core)</sup> [Moved from
990		IV.A.2.b).(1).(t)]
991		
992	IV.B.1.c).(1).(u)	understanding about the value and use of critical
993		care electronic health records and integration with
994		other medical record systems; <sup>(Outcome)(Core)</sup> [Moved
995		from IV.A.2.b).(1).(u)]
996		
997	IV.B.1.c).(1).(v)	medical informatics and biostatistics relevant to
998		critical care medicine; <sup>(Outcome)(Core)</sup> [Moved from
999		IV.A.2.b).(1).(v)]
1000		
1001	IV.B.1.c).(1).(w)	effective interpersonal and communication skills
1002		with patients, family members, and other health
1003		care providers; <sup>(Outcome)(Core)</sup> [Moved from
1004		IV.A.2.b).(1).(w)]
1005		
1006	IV.B.1.c).(1).(x)	cost-effective care; <sup>(Outcome)(Core)</sup> [Moved from

1007		IV.A.2.b).(1).(x)]
1008		
1009	IV.B.1.c).(1).(y)	ethics and legal issues related to the care of
1010		critically-ill patients, to include surrogate decision-
1011		making, advance directives, and management of
1012		disagreements between providers and patients
1013		regarding resource use; <sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1014		IV.A.2.b).(1).(y)]
1015		
1016	IV.B.1.c).(1).(z)	psychiatric implications of critical illness; and,
1017		<sup>(Outcome)</sup> <u>(Core)</u> [Moved from IV.A.2.b).(1).(z)]
1018		
1019	IV.B.1.c).(1).(aa)	ICU management, to include: <sup>(Outcome)</sup> <u>(Core)</u> [Moved
1020		from IV.A.2.b).(1).(aa)]
1021		
1022	IV.B.1.c).(1).(aa).(i)	development and implementation of policies
1023		and procedures related to ICU
1024		administration (admission, discharge, etc.);
1025		<sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1026		IV.A.2.b).(1).(aa).(i)]
1027		
1028	IV.B.1.c).(1).(aa).(ii)	development and implementation of
1029		evidence-based approaches to clinical care
1030		and clinical guidelines to optimize patient
1031		outcomes and minimize needless variations
1032		in care delivery; <sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1033		IV.A.2.b).(1).(aa).(ii)]
1034		
1035	IV.B.1.c).(1).(aa).(iii)	regulatory requirements that apply to critical
1036		care units, including those of The Joint
1037		Commission and other regulatory agencies;
1038		<sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1039		IV.A.2.b).(1).(aa).(iii)]
1040		
1041	IV.B.1.c).(1).(aa).(iv)	financial aspects of ICU management and
1042		the implications for allocation of institutional
1043		resources and overall costs of care;
1044		<sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1045		IV.A.2.b).(1).(aa).(iv)]
1046		
1047	IV.B.1.c).(1).(aa).(v)	resource utilization, including personnel
1048		management and staffing patterns;
1049		<sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1050		IV.A.2.b).(1).(aa).(v)]
1051		
1052	IV.B.1.c).(1).(aa).(vi)	patient triage and coordination of care with
1053		other hospital units (acute care, transitional
1054		care, post-anesthesia care unit, etc.);
1055		<sup>(Outcome)</sup> <u>(Core)</u> [Moved from
1056		IV.A.2.b).(1).(aa).(vi)]
1057		

1058 IV.B.1.c).(1).(aa).(vii) quality of care, patient safety initiatives, and  
1059 patient and family satisfaction; and,  
1060 (Outcome)(Core) [Moved from  
1061 IV.A.2.b).(1).(aa).(vii)]

1062  
1063 IV.B.1.c).(1).(aa).(viii) risk stratification and outcome  
1064 measurement, such as Acute Physiology  
1065 and Chronic Health Evaluation (APACHE)  
1066 and other scoring systems. (Outcome)(Core)  
1067 [Moved from IV.A.2.b).(1).(aa).(viii)]  
1068

1069 **IV.B.1.d) Practice-based Learning and Improvement**  
1070  
1071 **Fellows must demonstrate the ability to investigate and**  
1072 **evaluate their care of patients, to appraise and assimilate**  
1073 **scientific evidence, and to continuously improve patient care**  
1074 **based on constant self-evaluation and lifelong learning. (Core)**  
1075

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

1076  
1077 **IV.B.1.e) Interpersonal and Communication Skills**  
1078  
1079 **Fellows must demonstrate interpersonal and communication**  
1080 **skills that result in the effective exchange of information and**  
1081 **collaboration with patients, their families, and health**  
1082 **professionals. (Core)**  
1083

1084 **IV.B.1.f) Systems-based Practice**  
1085  
1086 **Fellows must demonstrate an awareness of and**  
1087 **responsiveness to the larger context and system of health**  
1088 **care, including the social determinants of health, as well as**  
1089 **the ability to call effectively on other resources to provide**  
1090 **optimal health care. (Core)**  
1091

1092 **IV.C. Curriculum Organization and Fellow Experiences**

1093  
1094 **IV.C.1. The curriculum must be structured to optimize fellow educational**  
1095 **experiences, the length of these experiences, and supervisory**  
1096 **continuity. (Core)**  
1097

1098 **[The Review Committee must further specify]**  
1099

1100		[The Review Committee's specification will be included in the upcoming
1101		focused revision to the Critical Care Anesthesiology Program
1102		Requirements]
1103		
1104	<b>IV.C.2.</b>	<b>The program must provide instruction and experience in pain</b>
1105		<b>management if applicable for the subspecialty, including recognition</b>
1106		<b>of the signs of addiction.</b> <sup>(Core)</sup>
1107		
1108	<b>IV.C.3.</b>	At least nine of the 12 months of education must be spent in the care of
1109		critically-ill patients in ICUs or transitional care units. <sup>(Core)</sup> [Moved from
1110		IV.A.3.a)]
1111		
1112	<b>IV.C.3.a)</b>	The remainder of the time must be spent in elective clinical
1113		activities, research, or scholarly activity relevant to critical care.
1114		<sup>(Core)</sup> [Moved from IV.A.3.a).(1)]
1115		
1116	<b>IV.C.3.b)</b>	Rotations outside the institution in which the program is based,
1117		including ICU rotations and electives, should not exceed four
1118		months. <sup>(Detail)</sup> [Moved from IV.A.3.a).(2)]
1119		
1120	IV.C.4.	<u>The program should</u> ensure that the program has written policies
1121		regarding substance abuse, fatigue, and duty hour expectations; <sup>(Detail)</sup>
1122		[Moved from II.A.3.g)]
1123		
1124	IV.C.5.	<u>The program should</u> provide clinical supervision and teach fellows in one
1125		or more of the critical care units. <sup>(Detail)</sup> [Moved from II.A.3.j)]
1126		
1127	IV.C.6.	The program must provide educational programs and direct experience in
1128		administrative and management aspects of critical care medicine, as well
1129		as education about research methodology and interpretation of findings in
1130		published literature. <sup>(Core)</sup> [Moved from IV.A.3.b)]
1131		
1132	IV.C.7.	Educational sessions and subspecialty conferences must be conducted
1133		on a regular basis. <sup>(Core)</sup> [Moved from IV.A.3.c)]
1134		
1135	<b>IV.C.7.a)</b>	Conferences should include formal seminars, clinical and basic
1136		science instruction, and review of all morbidity and mortality
1137		relevant to the subspecialty services. <sup>(Detail)</sup> [Moved from
1138		IV.A.3.c).(1)]
1139		
1140	<b>IV.C.7.b)</b>	Fellows must be involved in the planning, development, and
1141		execution of subspecialty educational sessions. <sup>(Detail)</sup> [Moved from
1142		IV.A.3.c).(2)]
1143		
1144	IV.C.8.	Fellows must participate in conferences and educational sessions of both
1145		the core anesthesiology residency and the fellowship program. <sup>(Core)</sup>
1146		[Moved from IV.A.3.d)]
1147		
1148	<b>IV.C.8.a)</b>	Fellows should attend all multidisciplinary conferences, with
1149		particular attention given to those conferences relevant to
1150		anesthesiology critical care medicine. <sup>(Detail)</sup> [Moved from

- 1151 IV.A.3.d).(1)]
- 1152
- 1153 **IV.C.8.b)** Documentation of fellow participation in these conferences must
- 1154 be maintained. <sup>(Detail)</sup> [Moved from IV.A.3.d).(2)]
- 1155
- 1156 **IV.C.9.** The program's curriculum must be designed in order for fellows to
- 1157 demonstrate:
- 1158
- 1159 **IV.C.9.a)** ~~demonstrate~~ the acquisition of the skills and habits of self-
- 1160 assessment and reflection. <sup>(Outcome)‡</sup> [Moved from IV.A.2.c).(3)]
- 1161
- 1162 **IV.C.9.b)** effective communication skills with patients and their families or
- 1163 surrogates, including acquisition of informed consent,
- 1164 communication about prognosis and likelihood of recovery, and
- 1165 disclosure of complications and errors and their management;
- 1166 <sup>(Outcome)</sup> [Moved from IV.A.2.d).(1)]
- 1167
- 1168 **IV.C.9.c)** teaching, including the preparation and presentation of
- 1169 educational material for patients, residents, medical students, and

- 1201 **IV.D.1. Program Responsibilities**

1202  
 1203 **IV.D.1.a)** **The program must demonstrate evidence of scholarly**  
 1204 **activities, consistent with its mission(s) and aims. <sup>(Core)</sup>**  
 1205  
 1206 **IV.D.1.b)** **The program in partnership with its Sponsoring Institution,**  
 1207 **must allocate adequate resources to facilitate fellow and**  
 1208 **faculty involvement in scholarly activities. <sup>(Core)</sup>**  
 1209  
 1210 **IV.D.1.b).(1)** **The program must provide instruction in the fundamentals**  
 1211 **of research design and conduct, and the interpretation and**  
 1212 **presentation of data. <sup>(Detail)</sup> [Moved from IV.B.1]**  
 1213

1214 **IV.D.2. Faculty Scholarly Activity**  
 1215

1216 **IV.D.2.a)** **Among their scholarly activity, programs must demonstrate**  
 1217 **accomplishments in at least three of the following domains:**  
 1218 **<sup>(Core)</sup>**

- **Research in basic science, education, translational science, patient care, or population health**
- **Peer-reviewed grants**
- **Quality improvement and/or patient safety initiatives**
- **Systematic reviews, meta-analyses, review articles, chapters in medical textbooks, or case reports**
- **Creation of curricula, evaluation tools, didactic educational activities, or electronic educational materials**
- **Contribution to professional committees, educational organizations, or editorial boards**
- **Innovations in education**

1233 **IV.D.2.b)** **The program must demonstrate dissemination of scholarly**  
 1234 **activity within and external to the program by the following**  
 1235 **methods:**  
 1236

**Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.**

1237  
 1238 **IV.D.2.b).(1)** **faculty participation in grand rounds, posters,**  
 1239 **workshops, quality improvement presentations,**  
 1240 **podium presentations, grant leadership, non-peer-**  
 1241 **reviewed print/electronic resources, articles or**  
 1242 **publications, book chapters, textbooks, webinars,**

1243 service on professional committees, or serving as a  
1244 journal reviewer, journal editorial board member, or  
1245 editor; <sup>(Outcome)</sup>

1246  
1247 IV.D.2.b).(2) peer-reviewed publication. <sup>(Outcome)</sup>  
1248

1249 IV.D.3. Fellow Scholarly Activity

1251 IV.D.3.a) During the program, fellows must participate in at least one clinical  
1252 or other research project related to critical care medicine. <sup>(Core)</sup>  
1253 [Moved from IV.B.2]

1254  
1255 IV.D.3.b) Results of each project must be disseminated through publication  
1256 or presentation at local, regional, national, or international  
1257 meetings. <sup>(Detail)</sup> [Moved from IV.B.2.a)]  
1258

1259 V. Evaluation

1260  
1261 V.A. Fellow Evaluation

1262  
1263 V.A.1. Feedback and Evaluation  
1264

**Background and Intent: Feedback is ongoing information provided regarding aspects of one's performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

**Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

1265

1266	<b>V.A.1.a)</b>	<b>Faculty members must directly observe, evaluate, and frequently provide feedback on fellow performance during each rotation or similar educational assignment. <sup>(Core)</sup></b>
1267		
1268		
1269		
1270	V.A.1.a).(1)	<del>Faculty members must evaluate each fellow's progress and competence no less often than quarterly. <sup>(Core)</sup> [Moved from V.A.2.a).(1)]</del>
1271		
1272		
1273		
1274	V.A.1.a).(2)	<del>Written feedback based on these evaluations must be provided to each fellow. <sup>(Core)</sup> [Moved from V.A.2.a).(2)]</del>
1275		
1276		
1277	V.A.1.a).(3)	These evaluations should include assessment of intellectual abilities, manual skills, attitudes, and interpersonal relationships, as well as specific tasks of patient management, decision-making skills, and critical analysis of clinical situations. <sup>(Detail)</sup> [Moved from V.A.2.a).(3)]
1278		
1279		
1280		
1281		
1282		
1283		
1284	<del>V.A.1.a).(4)</del>	<del>Each fellow must achieve an overall satisfactory evaluation after completion of 12 months of education. <sup>(Core)</sup> [Moved from V.A.2.a).(4)]</del>
1285		
1286		
1287		
1288	<del>V.A.1.a).(4).(a)</del>	<del>Remediation efforts must be undertaken when deficiencies are identified. <sup>(Core)</sup> [Moved from V.A.2.a).(4).(a)]</del>
1289		
1290		
1291		
1292	I.A.1.a).(1)	<u>The program must</u> review fellow procedure logs quarterly. <sup>(Detail)</sup> [Moved from V.A.2.b).(4)]
1293		
1294		

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

1295		
1296	<b>V.A.1.b)</b>	<b>Evaluation must be documented at the completion of the assignment. <sup>(Core)</sup></b>
1297		
1298		
1299	<b>V.A.1.b).(1)</b>	<b>For block rotations of greater than three months in duration, evaluation must be documented at least every three months. <sup>(Core)</sup></b>
1300		
1301		
1302		
1303	<b>V.A.1.b).(2)</b>	<b>Longitudinal experiences such as continuity clinic in the context of other clinical responsibilities must be evaluated at least every three months and at completion. <sup>(Core)</sup></b>
1304		
1305		
1306		
1307		
1308	<b>V.A.1.c)</b>	<b>The program must provide an objective performance evaluation based on the Competencies and the subspecialty-specific Milestones, and must: <sup>(Core)</sup></b>
1309		
1310		

- 1311  
 1312 V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers,  
 1313 patients, self, and other professional staff members);  
 1314 and, <sup>(Core)</sup>  
 1315  
 1316 V.A.1.c).(2) provide that information to the Clinical Competency  
 1317 Committee for its synthesis of progressive fellow  
 1318 performance and improvement toward unsupervised  
 1319 practice. <sup>(Core)</sup>  
 1320

**Background and Intent:** The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

- 1321  
 1322 V.A.1.d) The program director or their designee, with input from the  
 1323 Clinical Competency Committee, must:  
 1324  
 1325 V.A.1.d).(1) meet with and review with each fellow their  
 1326 documented semi-annual evaluation of performance,  
 1327 including progress along the subspecialty-specific  
 1328 Milestones. <sup>(Core)</sup>  
 1329  
 1330 V.A.1.d).(2) assist fellows in developing individualized learning  
 1331 plans to capitalize on their strengths and identify areas  
 1332 for growth; and, <sup>(Core)</sup>  
 1333  
 1334 V.A.1.d).(3) develop plans for fellows failing to progress, following  
 1335 institutional policies and procedures. <sup>(Core)</sup>  
 1336

**Background and Intent:** Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow

**progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.**

- 1337  
1338 **V.A.1.e)** At least annually, there must be a summative evaluation of  
1339 each fellow that includes their readiness to progress to the  
1340 next year of the program, if applicable. <sup>(Core)</sup>  
1341
- 1342 **V.A.1.f)** The evaluations of a fellow's performance must be accessible  
1343 for review by the fellow. <sup>(Core)</sup>  
1344
- 1345 **V.A.2.** Final Evaluation  
1346
- 1347 **V.A.2.a)** The program director must provide a final evaluation for each  
1348 fellow upon completion of the program. <sup>(Core)</sup>  
1349
- 1350 **V.A.2.a).(1)** The subspecialty-specific Milestones, and when  
1351 applicable the subspecialty-specific Case Logs, must  
1352 be used as tools to ensure fellows are able to engage  
1353 in autonomous practice upon completion of the  
1354 program. <sup>(Core)</sup>  
1355
- 1356 **V.A.2.a).(2)** The final evaluation must:  
1357
- 1358 **V.A.2.a).(2).(a)** become part of the fellow's permanent record  
1359 maintained by the institution, and must be  
1360 accessible for review by the fellow in  
1361 accordance with institutional policy; <sup>(Core)</sup>  
1362
- 1363 **V.A.2.a).(2).(b)** verify that the fellow has demonstrated the  
1364 knowledge, skills, and behaviors necessary to  
1365 enter autonomous practice; <sup>(Core)</sup>  
1366
- 1367 **V.A.2.a).(2).(c)** consider recommendations from the Clinical  
1368 Competency Committee; and, <sup>(Core)</sup>  
1369
- 1370 **V.A.2.a).(2).(d)** be shared with the fellow upon completion of  
1371 the program. <sup>(Core)</sup>  
1372
- 1373 **V.A.3.** A Clinical Competency Committee must be appointed by the  
1374 program director. <sup>(Core)</sup>  
1375
- 1376 **V.A.3.a)** At a minimum the Clinical Competency Committee must  
1377 include three members, at least one of whom is a core faculty  
1378 member. Members must be faculty members from the same  
1379 program or other programs, or other health professionals  
1380 who have extensive contact and experience with the  
1381 program's fellows. <sup>(Core)</sup>  
1382
- 1383 **V.A.3.b)** The Clinical Competency Committee must:  
1384

- 1385 V.A.3.b).(1) review all fellow evaluations at least semi-annually;  
 1386 (Core)  
 1387  
 1388 V.A.3.b).(2) determine each fellow’s progress on achievement of  
 1389 the subspecialty-specific Milestones; and, (Core)  
 1390  
 1391 V.A.3.b).(3) meet prior to the fellows’ semi-annual evaluations and  
 1392 advise the program director regarding each fellow’s  
 1393 progress. (Core)  
 1394  
 1395 V.B. Faculty Evaluation  
 1396  
 1397 V.B.1. The program must have a process to evaluate each faculty  
 1398 member’s performance as it relates to the educational program at  
 1399 least annually. (Core)  
 1400

**Background and Intent:** The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program’s faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1401  
 1402 V.B.1.a) This evaluation must include a review of the faculty member’s  
 1403 clinical teaching abilities, engagement with the educational  
 1404 program, participation in faculty development related to their  
 1405 skills as an educator, clinical performance, professionalism,  
 1406 and scholarly activities. (Core)  
 1407  
 1408 V.B.1.b) This evaluation must include written, confidential evaluations  
 1409 by the fellows. (Core)  
 1410  
 1411 V.B.1.c) ~~Written, confidential evaluations of critical care medicine faculty~~  
 1412 ~~member performance by each fellow must take place at least once~~  
 1413 ~~a year. (Detail) [Moved from V.B.3]~~  
 1414  
 1415 V.B.2. Faculty members must receive feedback on their evaluations at least  
 1416 annually. (Core)

1417  
1418 **V.B.3. Results of the faculty educational evaluations should be**  
1419 **incorporated into program-wide faculty development plans. (Core)**  
1420

**Background and Intent: The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.**

1421  
1422 **V.C. Program Evaluation and Improvement**  
1423

1424 **V.C.1. The program director must appoint the Program Evaluation**  
1425 **Committee to conduct and document the Annual Program**  
1426 **Evaluation as part of the program’s continuous improvement**  
1427 **process. (Core)**  
1428

1429 **V.C.1.a) The Program Evaluation Committee must be composed of at**  
1430 **least two program faculty members, at least one of whom is a**  
1431 **core faculty member, and at least one fellow. (Core)**  
1432

1433 **V.C.1.b) Program Evaluation Committee responsibilities must include:**  
1434

1435 **V.C.1.b).(1) acting as an advisor to the program director, through**  
1436 **program oversight; (Core)**  
1437

1438 **V.C.1.b).(2) review of the program’s self-determined goals and**  
1439 **progress toward meeting them; (Core)**  
1440

1441 **V.C.1.b).(3) guiding ongoing program improvement, including**  
1442 **development of new goals, based upon outcomes;**  
1443 **and, (Core)**  
1444

1445 **V.C.1.b).(4) review of the current operating environment to identify**  
1446 **strengths, challenges, opportunities, and threats as**  
1447 **related to the program’s mission and aims. (Core)**  
1448

**Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.**

1449  
1450 **V.C.1.c) The Program Evaluation Committee should consider the**  
1451 **following elements in its assessment of the program:**  
1452

1453 **V.C.1.c).(1) curriculum; (Core)**  
1454

1455	<b>V.C.1.c).(2)</b>	<b>outcomes from prior Annual Program Evaluation(s);</b>
1456		<b>(Core)</b>
1457

1502		<b>improvement, and threats. (Core)</b>
1503		
1504	<b>V.C.1.e)</b>	<b>The annual review, including the action plan, must:</b>
1505		

- 1506 V.C.1.e).(1) be distributed to and discussed with the members of  
 1507 the teaching faculty and the fellows; and, <sup>(Core)</sup>  
 1508  
 1509 V.C.1.e).(2) be submitted to the DIO. <sup>(Core)</sup>  
 1510  
 1511 V.C.2. The program must participate in a Self-Study prior to its 10-Year  
 1512 Accreditation Site Visit. <sup>(Core)</sup>  
 1513  
 1514 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.  
 1515 <sup>(Core)</sup>  
 1516

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**

- 1517  
 1518 V.C.3. *One goal of ACGME-accredited education is to educate physicians*  
 1519 *who seek and achieve board certification. One measure of the*  
 1520 *effectiveness of the educational program is the ultimate pass rate.*  
 1521  
 1522 *The program director should encourage all eligible program*  
 1523 *graduates to take the certifying examination offered by the*  
 1524 *applicable American Board of Medical Specialties (ABMS) member*  
 1525 *board or American Osteopathic Association (AOA) certifying board.*  
 1526  
 1527 V.C.3.a) For subspecialties in which the ABMS member board and/or  
 1528 AOA certifying board offer(s) an annual written exam, in the  
 1529 preceding three years, the program’s aggregate pass rate of  
 1530 those taking the examination for the first time must be higher  
 1531 than the bottom fifth percentile of programs in that  
 1532 subspecialty. <sup>(Outcome)</sup>  
 1533  
 1534 V.C.3.b) For subspecialties in which the ABMS member board and/or  
 1535 AOA certifying board offer(s) a biennial written exam, in the  
 1536 preceding six years, the program’s aggregate pass rate of  
 1537 those taking the examination for the first time must be higher  
 1538 than the bottom fifth percentile of programs in that  
 1539 subspecialty. <sup>(Outcome)</sup>  
 1540  
 1541 V.C.3.c) For subspecialties in which the ABMS member board and/or  
 1542 AOA certifying board offer(s) an annual oral exam, in the  
 1543 preceding three years, the program’s aggregate pass rate of  
 1544 those taking the examination for the first time must be higher

- 1545 than the bottom fifth percentile of programs in that  
 1546 subspecialty. <sup>(Outcome)</sup>  
 1547  
 1548 **V.C.3.d)** For subspecialties in which the ABMS member board and/or  
 1549 AOA certifying board offer(s) a biennial oral exam, in the  
 1550 preceding six years, the program’s aggregate pass rate of  
 1551 those taking the examination for the first time must be higher  
 1552 than the bottom fifth percentile of programs in that  
 1553 subspecialty. <sup>(Outcome)</sup>  
 1554  
 1555 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program  
 1556 whose graduates over the time period specified in the  
 1557 requirement have achieved an 80 percent pass rate will have  
 1558 met this requirement, no matter the percentile rank of the  
 1559 program for pass rate in that subspecialty. <sup>(Outcome)</sup>  
 1560

**Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.**

**There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.**

- 1561  
 1562 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1563 annually for the cohort of board-eligible fellows that  
 1564 graduated seven years earlier. <sup>(Core)</sup>  
 1565

**Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.**

**The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates’ performance on board certification examinations.**

**In the future, the ACGME may establish parameters related to ultimate board certification rates.**

- 1566  
 1567 **V.C.3.g)** At least 70 percent of a program’s graduates from the most recent  
 1568 five-year period who take the American Board of Anesthesiology  
 1569 Critical Care Medicine certifying examination for the first time must  
 1570 pass. <sup>(Outcome)</sup> [Moved from V.C.2.d).(1)]  
 1571

1572 VI. The Learning and Working Environment

1573

1574 *Fellowship education must occur in the context of a learning and working*  
1575 *environment that emphasizes the following principles:*

1576

1577 • *Excellence in the safety and quality of care rendered to patients by fellows*  
1578 *today*

1579

1580 • *Excellence in the safety and quality of care rendered to patients by today's*  
1581 *fellows in their future practice*

1582

1583 • *Excellence in professionalism through faculty modeling of:*

1584

1585 ○ *the effacement of self-interest in a humanistic environment that supports*  
1586 *the professional development of physicians*

1587

1588 ○ *the joy of curiosity, problem-solving, intellectual rigor, and discovery*

1589

1590 • *Commitment to the well-being of the students, residents, fellows, faculty*  
1591 *members, and all members of the health care team*

1592

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

1593

1594 VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability

1595

1596 VI.A.1. Patient Safety and Quality Improvement

1597

1598 ***All physicians share responsibility for promoting patient safety and***  
1599 ***enhancing quality of patient care. Graduate medical education must***  
1600 ***prepare fellows to provide the highest level of clinical care with***  
1601 ***continuous focus on the safety, individual needs, and humanity of***  
1602 ***their patients. It is the right of each patient to be cared for by fellows***  
1603 ***who are appropriately supervised; possess the requisite knowledge,***  
1604 ***skills, and abilities; understand the limits of their knowledge and***  
1605 ***experience; and seek assistance as required to provide optimal***  
1606 ***patient care.***

1607  
1608 ***Fellows must demonstrate the ability to analyze the care they***  
1609 ***provide, understand their roles within health care teams, and play an***  
1610 ***active role in system improvement processes. Graduating fellows***  
1611 ***will apply these skills to critique their future unsupervised practice***  
1612 ***and effect quality improvement measures.***

1613  
1614 ***It is necessary for fellows and faculty members to consistently work***  
1615 ***in a well-coordinated manner with other health care professionals to***  
1616 ***achieve organizational patient safety goals.***

1617  
1618 **VI.A.1.a) Patient Safety**

1619  
1620 **VI.A.1.a).(1) Culture of Safety**

1621  
1622 ***A culture of safety requires continuous identification***  
1623 ***of vulnerabilities and a willingness to transparently***  
1624 ***deal with them. An effective organization has formal***  
1625 ***mechanisms to assess the knowledge, skills, and***  
1626 ***attitudes of its personnel toward safety in order to***  
1627 ***identify areas for improvement.***

1628  
1629 **VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows**  
1630 **must actively participate in patient safety**  
1631 **systems and contribute to a culture of safety.**  
1632 **(Core)**

1633  
1634 **VI.A.1.a).(1).(b) The program must have a structure that**  
1635 **promotes safe, interprofessional, team-based**  
1636 **care. (Core)**

1637  
1638 **VI.A.1.a).(2) Education on Patient Safety**

1639  
1640 **Programs must provide formal educational activities**  
1641 **that promote patient safety-related goals, tools, and**  
1642 **techniques. (Core)**

1643  

<b>Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.</b>
---

1644  
1645 **VI.A.1.a).(3) Patient Safety Events**

1646

1647 **Reporting, investigation, and follow-up of adverse**  
1648 **events, near misses, and unsafe conditions are pivotal**  
1649 **mechanisms for improving patient safety, and are**  
1650 **essential for the success of any patient safety**  
1651 **program. Feedback and experiential learning are**  
1652 **essential to developing true competence in the ability**  
1653 **to identify causes and institute sustainable systems-**  
1654 **based changes to ameliorate patient safety**  
1655 **vulnerabilities.**

1656  
1657 **VI.A.1.a).(3).(a)** Residents, fellows, faculty members, and other  
1658 clinical staff members must:

1659  
1660 **VI.A.1.a).(3).(a).(i)** know their responsibilities in reporting  
1661 patient safety events at the clinical site;  
1662 (Core)

1663  
1664 **VI.A.1.a).(3).(a).(ii)** know how to report patient safety  
1665 events, including near misses, at the  
1666 clinical site; and, (Core)

1667  
1668 **VI.A.1.a).(3).(a).(iii)** be provided with summary information  
1669 of their institution's patient safety  
1670 reports. (Core)

1671  
1672 **VI.A.1.a).(3).(b)** Fellows must participate as team members in  
1673 real and/or simulated interprofessional clinical  
1674 patient safety activities, such as root cause  
1675 analyses or other activities that include  
1676 analysis, as well as formulation and  
1677 implementation of actions. (Core)

1678  
1679 **VI.A.1.a).(4)** Fellow Education and Experience in Disclosure of  
1680 Adverse Events

1681  
1682 **Patient-centered care requires patients, and when**  
1683 **appropriate families, to be apprised of clinical**  
1684 **situations that affect them, including adverse events.**  
1685 **This is an important skill for faculty physicians to**  
1686 **model, and for fellows to develop and apply.**

1687  
1688 **VI.A.1.a).(4).(a)** All fellows must receive training in how to  
1689 disclose adverse events to patients and  
1690 families. (Core)

1691  
1692 **VI.A.1.a).(4).(b)** Fellows should have the opportunity to  
1693 participate in the disclosure of patient safety  
1694 events, real or simulated. (Detail)

1695  
1696 **VI.A.1.b)** Quality Improvement

1698	VI.A.1.b).(1)	<b>Education in Quality Improvement</b>
1699		
1700		<i>A cohesive model of health care includes quality-</i>
1701		<i>related goals, tools, and techniques that are necessary</i>
1702		<i>in order for health care professionals to achieve</i>
1703		<i>quality improvement goals.</i>
1704		
1705	VI.A.1.b).(1).(a)	<b>Fellows must receive training and experience in</b>
1706		<b>quality improvement processes, including an</b>
1707		<b>understanding of health care disparities. <sup>(Core)</sup></b>
1708		
1709	VI.A.1.b).(2)	<b>Quality Metrics</b>
1710		
1711		<i>Access to data is essential to prioritizing activities for</i>
1712		<i>care improvement and evaluating success of</i>
1713		<i>improvement efforts.</i>
1714		
1715	VI.A.1.b).(2).(a)	<b>Fellows and faculty members must receive data</b>
1716		<b>on quality metrics and benchmarks related to</b>
1717		<b>their patient populations. <sup>(Core)</sup></b>
1718		
1719	VI.A.1.b).(3)	<b>Engagement in Quality Improvement Activities</b>
1720		
1721		<i>Experiential learning is essential to developing the</i>
1722		<i>ability to identify and institute sustainable systems-</i>
1723		<i>based changes to improve patient care.</i>
1724		
1725	VI.A.1.b).(3).(a)	<b>Fellows must have the opportunity to</b>
1726		<b>participate in interprofessional quality</b>
1727		<b>improvement activities. <sup>(Core)</sup></b>
1728		
1729	VI.A.1.b).(3).(a).(i)	<b>This should include activities aimed at</b>
1730		<b>reducing health care disparities. <sup>(Detail)</sup></b>
1731		
1732	VI.A.2.	<b>Supervision and Accountability</b>
1733		
1734	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for</i>
1735		<i>the care of the patient, every physician shares in the</i>
1736		<i>responsibility and accountability for their efforts in the</i>
1737		<i>provision of care. Effective programs, in partnership with</i>
1738		<i>their Sponsoring Institutions, define, widely communicate,</i>
1739		<i>and monitor a structured chain of responsibility and</i>
1740		<i>accountability as it relates to the supervision of all patient</i>
1741		<i>care.</i>
1742		
1743		<i>Supervision in the setting of graduate medical education</i>
1744		<i>provides safe and effective care to patients; ensures each</i>
1745		<i>fellow's development of the skills, knowledge, and attitudes</i>
1746		<i>required to enter the unsupervised practice of medicine; and</i>
1747		<i>establishes a foundation for continued professional growth.</i>
1748		

1749	<b>VI.A.2.a).(1)</b>	<b>Each patient must have an identifiable and</b>
1750		<b>appropriately-credentialed and privileged attending</b>
1751		<b>physician (or licensed independent practitioner as</b>
1752		<b>specified by the applicable Review Committee) who is</b>
1753		<b>responsible and accountable for the patient’s care.</b>
1754		<b>(Core)</b>
1755		
1756	<b>VI.A.2.a).(1).(a)</b>	<b>This information must be available to fellows,</b>
1757		<b>faculty members, other members of the health</b>
1758		<b>care team, and patients. (Core)</b>
1759		
1760	<b>VI.A.2.a).(1).(b)</b>	<b>Fellows and faculty members must inform each</b>
1761		<b>patient of their respective roles in that patient’s</b>
1762		<b>care when providing direct patient care. (Core)</b>
1763		
1764	<b>VI.A.2.b)</b>	<b><i>Supervision may be exercised through a variety of methods.</i></b>
1765		<b><i>For many aspects of patient care, the supervising physician</i></b>
1766		<b><i>may be a more advanced fellow. Other portions of care</i></b>
1767		<b><i>provided by the fellow can be adequately supervised by the</i></b>
1768		<b><i>immediate availability of the supervising faculty member or</i></b>
1769		<b><i>fellow, either on site or by means of telephonic and/or</i></b>
1770		<b><i>electronic modalities. Some activities require the physical</i></b>
1771		<b><i>presence of the supervising faculty member. In some</i></b>
1772		<b><i>circumstances, supervision may include post-hoc review of</i></b>
1773		<b><i>fellow-delivered care with feedback.</i></b>
1774		
1775	<b>VI.A.2.b).(1)</b>	<b>The program must demonstrate that the appropriate</b>
1776		<b>level of supervision in place for all fellows is based on</b>
1777		<b>each fellow’s level of training and ability, as well as</b>
1778		<b>patient complexity and acuity. Supervision may be</b>
1779		<b>exercised through a variety of methods, as appropriate</b>
1780		<b>to the situation. (Core)</b>
1781		
1782	<b>VI.A.2.c)</b>	<b>Levels of Supervision</b>
1783		
1784		<b>To promote oversight of fellow supervision while providing</b>
1785		<b>for graded authority and responsibility, the program must use</b>
1786		<b>the following classification of supervision: (Core)</b>
1787		
1788	<b>VI.A.2.c).(1)</b>	<b>Direct Supervision – the supervising physician is</b>
1789		<b>physically present with the fellow and patient. (Core)</b>
1790		
1791	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision:</b>
1792		
1793	<b>VI.A.2.c).(2).(a)</b>	<b>with Direct Supervision immediately available –</b>
1794		<b>the supervising physician is physically within</b>
1795		<b>the hospital or other site of patient care, and is</b>
1796		<b>immediately available to provide Direct</b>
1797		<b>Supervision. (Core)</b>
1798		

- 1799 VI.A.2.c).(2).(b) with Direct Supervision available – the  
 1800 supervising physician is not physically present  
 1801 within the hospital or other site of patient care,  
 1802 but is immediately available by means of  
 1803 telephonic and/or electronic modalities, and is  
 1804 available to provide Direct Supervision. <sup>(Core)</sup>  
 1805
- 1806 VI.A.2.c).(3) Oversight – the supervising physician is available to  
 1807 provide review of procedures/encounters with  
 1808 feedback provided after care is delivered. <sup>(Core)</sup>  
 1809
- 1810 VI.A.2.d) The privilege of progressive authority and responsibility,  
 1811 conditional independence, and a supervisory role in patient  
 1812 care delegated to each fellow must be assigned by the  
 1813 program director and faculty members. <sup>(Core)</sup>  
 1814
- 1815 VI.A.2.d).(1) The program director must evaluate each fellow’s  
 1816 abilities based on specific criteria, guided by the  
 1817 Milestones. <sup>(Core)</sup>  
 1818
- 1819 VI.A.2.d).(2) Faculty members functioning as supervising  
 1820 physicians must delegate portions of care to fellows  
 1821 based on the needs of the patient and the skills of  
 1822 each fellow. <sup>(Core)</sup>  
 1823
- 1824 VI.A.2.d).(3) Fellows should serve in a supervisory role to junior  
 1825 fellows and residents in recognition of their progress  
 1826 toward independence, based on the needs of each  
 1827 patient and the skills of the individual resident or  
 1828 fellow. <sup>(Detail)</sup>  
 1829
- 1830 VI.A.2.e) Programs must set guidelines for circumstances and events  
 1831 in which fellows must communicate with the supervising  
 1832 faculty member(s). <sup>(Core)</sup>  
 1833
- 1834 VI.A.2.e).(1) Each fellow must know the limits of their scope of  
 1835 authority, and the circumstances under which the  
 1836 fellow is permitted to act with conditional  
 1837 independence. <sup>(Outcome)</sup>  
 1838

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

- 1839
- 1840 VI.A.2.f) Faculty supervision assignments must be of sufficient  
 1841 duration to assess the knowledge and skills of each fellow  
 1842 and to delegate to the fellow the appropriate level of patient  
 1843 care authority and responsibility. <sup>(Core)</sup>  
 1844
- 1845 VI.B. Professionalism  
 1846

1847 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must  
1848 educate fellows and faculty members concerning the professional  
1849 responsibilities of physicians, including their obligation to be  
1850 appropriately rested and fit to provide the care required by their  
1851 patients. <sup>(Core)</sup>  
1852

1853 VI.B.2. The learning objectives of the program must:

1854  
1855 VI.B.2.a) be accomplished through an appropriate blend of supervised  
1856 patient care responsibilities, clinical teaching, and didactic  
1857 educational events; <sup>(Core)</sup>  
1858

1859 VI.B.2.b) be accomplished without excessive reliance on fellows to  
1860 fulfill non-physician obligations; and, <sup>(Core)</sup>  
1861

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.**

1862  
1863 VI.B.2.c) ensure manageable patient care responsibilities. <sup>(Core)</sup>  
1864

**Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.**

1865  
1866 VI.B.3. The program director, in partnership with the Sponsoring Institution,  
1867 must provide a culture of professionalism that supports patient  
1868 safety and personal responsibility. <sup>(Core)</sup>  
1869

1870 VI.B.4. Fellows and faculty members must demonstrate an understanding  
1871 of their personal role in the:

1872  
1873 VI.B.4.a) provision of patient- and family-centered care; <sup>(Outcome)</sup>  
1874

1875 VI.B.4.b) safety and welfare of patients entrusted to their care,  
1876 including the ability to report unsafe conditions and adverse  
1877 events; <sup>(Outcome)</sup>  
1878

**Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.**

1879  
1880  
1881

**VI.B.4.c) assurance of their fitness for work, including: (Outcome)**

**Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.**

1882  
1883  
1884  
1885  
1886  
1887  
1888  
1889  
1890  
1891  
1892  
1893  
1894  
1895  
1896  
1897  
1898

1909  
1910  
1911  
1912  
1913  
1914  
1915  
1916  
1917  
1918  
1919

**VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, (Outcome)**

**VI.B.4.c).(2) recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)**

**VI.B.4.d) commitment to lifelong learning; (Outcome)**

**VI.B.4.e) monitoring of their patient care performance improvement indicators; and, (Outcome)**

**VI.B.4.f) accurate reporting of clinical and educational work hours, patient outcomes, and clinical experience data. (Outcome)**

**VI.B.5. All fellows and faculty members must demonstrate responsiveness to patient needs that supersedes self-interest. This includes the recognition that under certain circumstances, the best interests of the patient may be served by transitioning that patient's care to another qualified and rested provider. (Outcome)**

**VI.B.6. Programs, in partnership with their Sponsoring Institutions, must provide a professional, equitable, respectful, and civil environment that is free from discrimination, sexual and other forms of harassment, mistreatment, abuse, or coercion of students, fellows, faculty, and staff. (Core)**

**VI.B.7. Programs, in partnership with their Sponsoring Institutions, should have a process for education of fellows and faculty regarding unprofessional behavior and a confidential process for reporting, investigating, and addressing such concerns. (Core)**

**VI.C. Well-Being**

***Psychological, emotional, and physical well-being are critical in the development of the competent, caring, and resilient physician and require proactive attention to life inside and outside of medicine. Well-being***

1920  
1921  
1922

1930  
1931  
1932  
1933  
1934  
1935  
1936

*requires that physicians retain the joy in medicine while managing their own real life stresses. Self-care and responsibility to support other members of the health care team are important components of professionalism; they are also skills that must be modeled, learned, and nurtured in the context of other aspects of fellowship training.*

*Fellows and faculty members are at risk for burnout and depression. Programs, in partnership with their Sponsoring Institutions, have the same responsibility to address well-being as other aspects of resident competence. Physicians and all members of the health care team share responsibility for the well-being of each other. For example, a culture which encourages covering for colleagues after an illness without the expectation of reciprocity reflects the ideal of professionalism. A positive culture in a clinical learning environment models constructive behaviors, and prepares fellows with the skills and attitudes needed to thrive throughout their careers.*

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

**VI.C.1.e).(1) encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, substance abuse, suicidal ideation, or potential for violence; (Core)**

**Background and Intent: Individuals experiencing burnout, depression, substance abuse, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a**

negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

- 1984
- 1985 VI.C.1.e).(2) provide access to appropriate tools for self-screening;
- 1986 and, <sup>(Core)</sup>
- 1987
- 1988 VI.C.1.e).(3) provide access to confidential, affordable mental
- 1989 health assessment, counseling, and treatment,
- 1990 including access to urgent and emergent care 24
- 1991 hours a day, seven days a week. <sup>(Core)</sup>
- 1992

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

- 1993
- 1994 VI.C.2. There are circumstances in which fellows may be unable to attend
- 1995 work, including but not limited to fatigue, illness, family
- 1996 emergencies, and parental leave. Each program must allow an
- 1997 appropriate length of absence for fellows unable to perform their
- 1998 patient care responsibilities. <sup>(Core)</sup>
- 1999
- 2000 VI.C.2.a) The program must have policies and procedures in place to
- 2001 ensure coverage of patient care. <sup>(Core)</sup>
- 2002
- 2003 VI.C.2.b) These policies must be implemented without fear of negative
- 2004 consequences for the fellow who is or was unable to provide
- 2005 the clinical work. <sup>(Core)</sup>
- 2006

**Background and Intent:** Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

- 2007
- 2008 VI.D. Fatigue Mitigation
- 2009

- 2010 VI.D.1. Programs must:
- 2011
- 2012 VI.D.1.a) educate all faculty members and fellows to recognize the signs of fatigue and sleep deprivation; <sup>(Core)</sup>
- 2013
- 2014
- 2015 VI.D.1.b) educate all faculty members and fellows in alertness management and fatigue mitigation processes; and, <sup>(Core)</sup>
- 2016
- 2017
- 2018 VI.D.1.c) encourage fellows to use fatigue mitigation processes to manage the potential negative effects of fatigue on patient care and learning. <sup>(Detail)</sup>
- 2019
- 2020
- 2021

**Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.**

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.**

- 2022
- 2023 VI.D.2. Each program must ensure continuity of patient care, consistent with the program's policies and procedures referenced in VI.C.2–VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue. <sup>(Core)</sup>
- 2024
- 2025
- 2026
- 2027
- 2028 VI.D.3. The program, in partnership with its Sponsoring Institution, must ensure adequate sleep facilities and safe transportation options for fellows who may be too fatigued to safely return home. <sup>(Core)</sup>

- 2039
- 2040 VI.E.1.a) An optimal clinical workload allows fellows to complete the required case numbers, gain expertise in the required clinical components, and/or develop required competencies in patient care with a focus on learning over meeting service obligations. <sup>(Detail)</sup> [Moved from VI.E.1.a)]
- 2041
- 2042
- 2043
- 2044
- 2045

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.**

**Transitions of Care**

**VI.E.3.a)**

**Programs must design clinical assignments to optimize transitions in patient care, including their safety, frequency, and structure.** <sup>(Core)</sup>

**VI.E.3.b)**

**Programs, in partnership with their Sponsoring Institutions, must ensure and monitor effective, structured hand-over processes to facilitate both continuity of care and patient safety.** <sup>(Core)</sup>

**VI.E.3.c)**

**Programs must ensure that fellows are competent in communicating with team members in the hand-over process.** <sup>(Outcome)</sup>

**VI.E.3.d)**

**Programs and clinical sites must maintain and communicate schedules of attending physicians and fellows currently responsible for care.** <sup>(Core)</sup>

**VI.E.3.e)**

**Each program must ensure continuity of patient care, consistent with the program's policies and procedures referenced in VI.C.2-VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue or illness, or family emergency.** <sup>(Core)</sup>

**VI.F.**

**Clinical Experience and Education**

***Programs, in partnership with their Sponsoring Institutions, must design an effective program structure that is configured to provide fellows with educational and clinical experience opportunities, as well as reasonable opportunities for rest and personal activities.***

2089

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

2090  
2091  
2092  
2093  
2094  
2095  
2096  
2097

**VI.F.1. Maximum Hours of Clinical and Educational Work per Week**

Clinical and educational work hours must be limited to no more than 80 hours per week, averaged over a four-week period, inclusive of all in-house clinical and educational activities, clinical work done from home, and all moonlighting. <sup>(Core)</sup>

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

***Scheduling***

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The

requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

2115

**VI.F.2. Mandatory Time Free of Clinical Work and Education**

**VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>**

**VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>**

**VI.F.2.b).(1) There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. <sup>(Detail)</sup>**

**Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is**

also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

2116  
2117  
2118  
2119

**VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. (Core)**

**Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.**

2120  
2121  
2122  
2123  
2124  
2125

**VI.F.2.d) Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. (Core)**

**Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."**

**VI.F.3. Maximum Clinical Work and Education Period Length**

**VI.F.3.a) Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments. (Core)**

**VI.F.3.a).(1) Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education. (Core)**

**VI.F.3.a).(1).(a) Additional patient care responsibilities must not be assigned to a fellow during this time. (Core)**

**Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and**

up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- VI.F.4. Clinical and Educational Work Hour Exceptions**
- VI.F.4.a) In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:**
- VI.F.4.a).(1) to continue to provide care to a single severely ill or unstable patient; <sup>(Detail)</sup>**
- VI.F.4.a).(2) humanistic attention to the needs of a patient or family; or, <sup>(Detail)</sup>**
- VI.F.4.a).(3) to attend unique educational events. <sup>(Detail)</sup>**
- VI.F.4.b) These additional hours of care or education will be counted toward the 80-hour weekly limit. <sup>(Detail)</sup>**

**Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.**

2178

- VI.F.4.c) A Review Committee may grant rotation-specific exceptions for up to 10 percent or a maximum of 88 clinical and educational work hours to individual programs based on a sound educational rationale.**
- The Review Committee for Anesthesiology will not consider requests for exceptions to the 80-hour limit to the residents' work week.
- VI.F.4.c).(1) In preparing a request for an exception, the program director must follow the clinical and educational work hour exception policy from the *ACGME Manual of Policies and Procedures*. <sup>(Core)</sup>**
- VI.F.4.c).(2) Prior to submitting the request to the Review Committee, the program director must obtain approval from the Sponsoring Institution's GMEC and DIO. <sup>(Core)</sup>**

**Background and Intent:** The provision for exceptions for up to 88 hours per week has been modified to specify that exceptions may be granted for specific rotations if the program can justify the increase based on criteria specified by the Review Committee. As in the past, Review Committees may opt not to permit exceptions. The underlying philosophy for this requirement is that while it is expected that all fellows should be able to train within an 80-hour work week, it is recognized that some programs may include rotations with alternate structures based on the nature of the specialty. DIO/GMEC approval is required before the request will be considered by the Review Committee.

**VI.F.8.b)**

Fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. <sup>(Detail)</sup>

**Background and Intent:** This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**

\*\*\*

**\*Core Requirements:** Statements that define structure, resource, or process elements essential to every graduate medical educational program.

**†Detail Requirements:** Statements that describe a specific structure, resource, or process, for achieving compliance with a Core Requirement. Programs and sponsoring institutions in substantial compliance with the Outcome Requirements may utilize alternative or innovative approaches to meet Core Requirements.

**‡Outcome Requirements:** Statements that specify expected measurable or observable attributes (knowledge, abilities, skills, or attitudes) of residents or fellows at key stages of their graduate medical education.

**Osteopathic Recognition**

For programs with or applying for Osteopathic Recognition, the Osteopathic Recognition Requirements also apply ([www.acgme.org/OsteopathicRecognition](http://www.acgme.org/OsteopathicRecognition)).
