1 **ACGME Program Requirements for Graduate Medical Education**
2 **in Maternal-Fetal Medicine**

3
4 **Common Program Requirements (Fellowship) are in BOLD**

5
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that
7 section. These philosophic statements are not program requirements and are therefore not
8 citable.
9

Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.

10
11 **Introduction**

12
13 **Int.A.** *Fellowship is advanced graduate medical education beyond a core*
14 *residency program for physicians who desire to enter more specialized*
15 *practice. Fellowship-trained physicians serve the public by providing*
16 *subspecialty care, which may also include core medical care, acting as a*
17 *community resource for expertise in their field, creating and integrating*
18 *new knowledge into practice, and educating future generations of*
19 *physicians. Graduate medical education values the strength that a diverse*
20 *group of physicians brings to medical care.*

21
22 *Fellows who have completed residency are able to practice independently*
23 *in their core specialty. The prior medical experience and expertise of*
24 *fellows distinguish them from physicians entering into residency training.*
25 *The fellow's care of patients within the subspecialty is undertaken with*
26 *appropriate faculty supervision and conditional independence. Faculty*
27 *members serve as role models of excellence, compassion,*
28 *professionalism, and scholarship. The fellow develops deep medical*
29 *knowledge, patient care skills, and expertise applicable to their focused*
30 *area of practice. Fellowship is an intensive program of subspecialty clinical*
31 *and didactic education that focuses on the multidisciplinary care of*
32 *patients. Fellowship education is often physically, emotionally, and*
33 *intellectually demanding, and occurs in a variety of clinical learning*
34 *environments committed to graduate medical education and the well-being*
35 *of patients, residents, fellows, faculty members, students, and all members*
36 *of the health care team.*

37
38 *In addition to clinical education, many fellowship programs advance*
39 *fellows' skills as physician-scientists. While the ability to create new*
40 *knowledge within medicine is not exclusive to fellowship-educated*
41 *physicians, the fellowship experience expands a physician's abilities to*
42 *pursue hypothesis-driven scientific inquiry that results in contributions to*
43 *the medical literature and patient care. Beyond the clinical subspecialty*
44 *expertise achieved, fellows develop mentored relationships built on an*
45 *infrastructure that promotes collaborative research.*

46
47 **Int.B.** **Definition of Subspecialty**

48
49 A maternal-fetal medicine subspecialist is an obstetrician/gynecologist who, by
50 virtue of additional education, cares for and/or provides consultation for women
51 with complications of pregnancy and is expected to: have advanced knowledge
52 of obstetrical, medical, and surgical complications of pregnancy and their effects
53 on the mother and fetus; be skilled in the areas of prenatal ultrasound and
54 prenatal diagnosis; have clinical competence in maternal-fetal medicine and be
55 able to function as a consultant to obstetricians/gynecologists and other
56 physicians for women with complicated pregnancies; have advanced knowledge
57 of newborn adaptation; and have advanced knowledge in the arena of basic,
58 translational, and clinical research in maternal-fetal medicine in order to advance
59 the discipline and remain current in a rapidly changing field.

60
61 **Int.C. Length of Educational Program**

62
63 The educational program in maternal-fetal medicine must be 36 months in length.
64 (Core)*

65
66 **I. Oversight**

67
68 **I.A. Sponsoring Institution**

69
70 *The Sponsoring Institution is the organization or entity that assumes the*
71 *ultimate financial and academic responsibility for a program of graduate*
72 *medical education consistent with the ACGME Institutional Requirements.*

73
74 *When the Sponsoring Institution is not a rotation site for the program, the*
75 *most commonly utilized site of clinical activity for the program is the*
76 *primary clinical site.*

77
Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.

78
79 **I.A.1. The program must be sponsored by one ACGME-accredited**
80 **Sponsoring Institution. (Core)**

81
82 **I.B. Participating Sites**

83
84 *A participating site is an organization providing educational experiences or*
85 *educational assignments/rotations for fellows.*

86
87 **I.B.1. The program, with approval of its Sponsoring Institution, must**
88 **designate a primary clinical site. (Core)**

89

- 90 I.B.1.a) The Sponsoring Institution must also sponsor an ACGME-
91 accredited residency program in obstetrics and gynecology. (Core)
92
- 93 I.B.1.a).(1) The program must function as an integral part of an
94 ACGME-accredited residency program in obstetrics and
95 gynecology. (Core)
96
- 97 I.B.1.a).(2) The program and the residency must complement and
98 enrich one another. (Core)
99
- 100 **I.B.2. There must be a program letter of agreement (PLA) between the**
101 **program and each participating site that governs the relationship**
102 **between the program and the participating site providing a required**
103 **assignment. (Core)**
104
- 105 **I.B.2.a) The PLA must:**
106
- 107 **I.B.2.a).(1) be renewed at least every 10 years; and, (Core)**
108
- 109 **I.B.2.a).(2) be approved by the designated institutional official**
110 **(DIO). (Core)**
111
- 112 **I.B.3. The program must monitor the clinical learning and working**
113 **environment at all participating sites. (Core)**
114
- 115 **I.B.3.a) At each participating site there must be one faculty member,**
116 **designated by the program director, who is accountable for**
117 **fellow education for that site, in collaboration with the**
118 **program director. (Core)**
119

Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**
- **Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows**
- **Specifying the duration and content of the educational experience**
- **Stating the policies and procedures that will govern fellow education during the assignment**

120
121 **I.B.4.** **The program director must submit any additions or deletions of**
122 **participating sites routinely providing an educational experience,**
123 **required for all fellows, of one month full time equivalent (FTE) or**
124 **more through the ACGME’s Accreditation Data System (ADS). (Core)**
125

126 **I.C.** **The program, in partnership with its Sponsoring Institution, must engage in**
127 **practices that focus on mission-driven, ongoing, systematic recruitment**
128 **and retention of a diverse and inclusive workforce of residents (if present),**
129 **fellows, faculty members, senior administrative staff members, and other**
130 **relevant members of its academic community. (Core)**
131

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

132
133 **I.D.** **Resources**

134
135 **I.D.1.** **The program, in partnership with its Sponsoring Institution, must**
136 **ensure the availability of adequate resources for fellow education.**
137 **(Core)**

138
139 I.D.1.a) Inpatient facilities including operating rooms, recovery room(s),
140 intensive care unit(s), blood bank(s), diagnostic laboratories, and
141 imaging services, must be available on a regularly scheduled
142 basis and always on an emergency basis. (Core)

143
144 I.D.1.b) There must be designated inpatient and outpatient facilities, and
145 support personnel for the care of the mother, fetus, and neonate.
146 (Core)

147
148 These must include:

149
150 I.D.1.b).(1) ultrasound diagnostic imaging and prenatal diagnosis; (Core)

151
152 I.D.1.b).(2) an adequately equipped labor and delivery unit; (Core)

153
154 I.D.1.b).(3) antepartum and postpartum inpatient units; (Core)

155
156 I.D.1.b).(4) Level III or IV nursery with all necessary personnel and
157 support services for the care of the neonate with
158 complications; and, (Core)

159
160 I.D.1.b).(5) an Intensive Care Unit (ICU) that cares for pregnant
161 women in consultation with maternal-fetal medicine faculty
162 physicians. (Core)
163

- 164 I.D.1.c) Research infrastructure must be adequate in scope, equipment,
165 statistical support, and personnel to conduct research training.
166 (Core)
- 167
- 168 I.D.1.d) Individual patient medical records must be readily available for
169 patient care, clinical research, and quality improvement projects.
170 (Core)
- 171
- 172 I.D.1.e) Fellows must have access to consultative services in the major
173 medical and surgical disciplines. (Core)
- 174
- 175 **I.D.2. The program, in partnership with its Sponsoring Institution, must**
176 **ensure healthy and safe learning and working environments that**
177 **promote fellow well-being and provide for:** (Core)
- 178
- 179 **I.D.2.a) access to food while on duty;** (Core)
- 180
- 181 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**
182 **and accessible for fellows with proximity appropriate for safe**
183 **patient care;** (Core)
- 184

Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

- 185
- 186 **I.D.2.c) clean and private facilities for lactation that have refrigeration**
187 **capabilities, with proximity appropriate for safe patient care;**
188 (Core)
- 189

Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

- 190
- 191 **I.D.2.d) security and safety measures appropriate to the participating**
192 **site; and,** (Core)
- 193
- 194 **I.D.2.e) accommodations for fellows with disabilities consistent with**
195 **the Sponsoring Institution's policy.** (Core)
- 196
- 197 **I.D.3. Fellows must have ready access to subspecialty-specific and other**
198 **appropriate reference material in print or electronic format. This**

199 must include access to electronic medical literature databases with
200 full text capabilities. (Core)

201
202 **I.D.4. The program's educational and clinical resources must be adequate**
203 **to support the number of fellows appointed to the program.** (Core)

204
205 I.D.4.a) The number and variety of patients must be sufficient to provide
206 fellows with adequate experiences in the comprehensive
207 management of maternal-fetal medicine to meet the educational
208 objectives of the program. (Core)

209
210 I.D.4.a).(1) There must be a sufficient number and variety of
211 obstetrical complications, as well as medical and surgical
212 complications of pregnancy, to provide appropriate clinical
213 training to fellows. (Core)

214
215 I.D.4.a).(2) Minimum number of deliveries:

216
217 I.D.4.a).(2).(a) There must be a minimum of 1,500 deliveries per
218 year at the program's primary clinical site for
219 programs with one fellow per PGY level. (Core)

220
221 I.D.4.a).(2).(b) There should be a minimum of 3,000 deliveries per
222 year at the program's primary clinical site for
223 programs with two or more fellows per PGY level.
224 (Core)

225
226 **I.E. A fellowship program usually occurs in the context of many learners and**
227 **other care providers and limited clinical resources. It should be structured**
228 **to optimize education for all learners present.**

229
230 **I.E.1. Fellows should contribute to the education of residents in core**
231 **programs, if present.** (Core)

232
233 I.E.1.a) There must be adequate patient volume and diversity to educate
234 the approved number of fellows without adversely impacting the
235 education of residents in the obstetrics and gynecology residency.
236 (Core)

237
238 I.E.1.b) The educational opportunities for the fellows and residents in
239 obstetrics and gynecology must be separate and clearly
240 delineated. (Core)

241
242 I.E.2. The program director must monitor the impact of other learners on the
243 experience of the fellows. (Core)

244

Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of

other providers and learners, and that fellows' education does not compromise core residents' education.

257
258
259
260

II. Personnel

II.A. Program Director

II.A.1. There must be one faculty member appointed as program director with authority and accountability for the overall program, including compliance with all applicable program requirements. ^(Core)

II.A.1.a) The Sponsoring Institution's Graduate Medical Education Committee (GMEC) must approve a change in program director. ^(Core)

II.A.1.b) Final approval of the program director resides with the Review Committee. ^(Core)

Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and made responsible for the program. This individual will have dedicated time for the leadership of the fellowship, and it is this individual's responsibility to communicate with the fellows, faculty members, DIO, GMEC, and the ACGME. The program director's nomination is reviewed and approved by the GMEC. Final approval of program directors resides with the Review Committee.

261
262
263
264
265
266
267
268
269

II.A.2. The program director must be provided with support adequate for administration of the program based upon its size and configuration. ^(Core)

II.A.2.a) At a minimum, the program director must be provided with the salary support required to devote 20 percent FTE of non-clinical time to the administration of the program. ^(Core)

Background and Intent: Twenty percent FTE is defined as one day per week.
"Administrative time" is defined as non-clinical time spent meeting the responsibilities of the program director as detailed in requirements II.A.4.-II.A.4.a).(16).
The requirement does not address the source of funding required to provide the specified salary support.

270
271
272
273
274
275
276
277
278

II.A.3. Qualifications of the program director:

II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; ^(Core)

II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Obstetrics and Gynecology, or by the American Osteopathic

279 **Board of Obstetrics and Gynecology, or subspecialty**
280 **qualifications that are acceptable to the Review Committee;**
281 **(Core)**

282
283 II.A.3.c) must include five years of experience as a maternal-fetal medicine
284 physician following completion of a maternal-fetal medicine
285 fellowship, or possess qualifications that are acceptable to the
286 Review Committee; ^(Core)
287

Specialty-Specific Background and Intent: The Committee believes five years of experience as a maternal-fetal medicine physician provides a new program director with the clinical, educational, research, and administrative background needed to effectively lead a program. The Committee will consider a candidate for program director who has fewer than five years of experience provided the faculty member demonstrates clinical and scholarly expertise in maternal-fetal medicine, is exceptionally well-prepared and positioned to take on this leadership position, and has mentorship and support by at least one faculty member that can be documented.

288
289 II.A.3.d) must include active care of patients in the subspecialty; and, ^(Core)
290

291 II.A.3.e) must include demonstration of clinical and scholarly expertise in
292 maternal fetal medicine by publication of original research in peer-
293 reviewed journals within the past three years; and at least one of
294 the following within the past three years: ^(Core)
295

296 II.A.3.e).(1) extramural peer-reviewed funding; ^(Core)
297

298 II.A.3.e).(2) invited or research presentation(s) at
299 regional/national/international scientific or faculty
300 development meeting(s) (primary presenter, co-presenter,
301 co-investigator, or senior author); and, ^(Core)
302

303 II.A.3.e).(3) participation in national or international committees or
304 educational organizations. ^(Core)
305

306 **II.A.4. Program Director Responsibilities**
307

308 **The program director must have responsibility, authority, and**
309 **accountability for: administration and operations; teaching and**
310 **scholarly activity; fellow recruitment and selection, evaluation, and**
311 **promotion of fellows, and disciplinary action; supervision of fellows;**
312 **and fellow education in the context of patient care.** ^(Core)
313

314 **II.A.4.a) The program director must:**

315
316 **II.A.4.a).(1) be a role model of professionalism;** ^(Core)
317

Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality

patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

318
319
320
321
322
323

- II.A.4.a).(2) design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; ^(Core)

Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

324
325
326
327
328

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; ^(Core)

Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

329
330

337
338
339
340
341
342
343
344
345
346

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; ^(Core)

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; ^(Core)

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; ^(Core)

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; ^(Core)

Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

365
366
367
368
369
370

- II.A.4.a).(8)** submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; ^(Core)
- II.A.4.a).(9)** provide applicants who are offered an interview with information related to the applicant's eligibility for the relevant subspecialty board examination(s); ^(Core)
- II.A.4.a).(10)** provide a learning and working environment in which fellows have the opportunity to raise concerns and provide feedback in a confidential manner as appropriate, without fear of intimidation or retaliation; ^(Core)
- II.A.4.a).(11)** ensure the program's compliance with the Sponsoring Institution's policies and procedures related to grievances and due process; ^(Core)
- II.A.4.a).(12)** ensure the program's compliance with the Sponsoring Institution's policies and procedures for due process when action is taken to suspend or dismiss, not to promote, or not to renew the appointment of a fellow; ^(Core)

Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.

371
372

374
375
376
377
378
379
380
381
382
383
384
385
386

- II.A.4.a).(13)** ensure the program's compliance with the Sponsoring Institution's policies and procedures on employment and non-discrimination; ^(Core)
- II.A.4.a).(13).(a)** **Fellows must not be required to sign a non-competition guarantee or restrictive covenant.** ^(Core)
- II.A.4.a).(14)** document verification of program completion for all graduating fellows within 30 days; ^(Core)
- II.A.4.a).(15)** provide verification of an individual fellow's completion upon the fellow's request, within 30 days; and, ^(Core)

Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who

have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.

II.A.4.a).(16)

obtain review and approval of the Sponsoring Institution’s DIO before submitting information or requests to the ACGME, as required in the Institutional Requirements and outlined in the ACGME Program Director’s Guide to the Common Program Requirements. ^(Core)

II.B. Faculty

Faculty members are a foundational element of graduate medical education – faculty members teach fellows how to care for patients. Faculty members provide an important bridge allowing fellows to grow and become practice ready, ensuring that patients receive the highest quality of care. They are role models for future generations of physicians by demonstrating compassion, commitment to excellence in teaching and patient care, professionalism, and a dedication to lifelong learning. Faculty members experience the pride and joy of fostering the growth and development of future colleagues. The care they provide is enhanced by the opportunity to teach. By employing a scholarly approach to patient care, faculty members, through the graduate medical education system, improve the health of the individual and the population.

Faculty members ensure that patients receive the level of care expected from a specialist in the field. They recognize and respond to the needs of the patients, fellows, community, and institution. Faculty members provide appropriate levels of supervision to promote patient safety. Faculty members create an effective learning environment by acting in a professional manner and attending to the well-being of the fellows and themselves.

Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment or salary support.

418
419
420
421
422
423
424
425
426
427
428
429

II.B.1.

For each participating site, there must be a sufficient number of faculty members with competence to instruct and supervise all fellows at that location. ^(Core)

II.B.2.

Faculty members must:

II.B.2.a)

be role models of professionalism; ^(Core)

II.B.2.b)

demonstrate commitment to the delivery of safe, quality, cost-effective, patient-centered care; ^(Core)

Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed

during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.

- 430
431 **II.B.2.c)** demonstrate a strong interest in the education of fellows; ^(Core)
432
433 **II.B.2.d)** devote sufficient time to the educational program to fulfill
434 their supervisory and teaching responsibilities; ^(Core)
435
436 **II.B.2.e)** administer and maintain an educational environment
437 conducive to educating fellows; ^(Core)
438
439 **II.B.2.f)** regularly participate in organized clinical discussions,
440 rounds, journal clubs, and conferences; and, ^(Core)
441
442 **II.B.2.g)** pursue faculty development designed to enhance their skills
443 at least annually. ^(Core)
444

Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.

- 445
446 **II.B.3. Faculty Qualifications**
447
448 **II.B.3.a)** Faculty members must have appropriate qualifications in
449 their field and hold appropriate institutional appointments.
450 ^(Core)
451
452 **II.B.3.b)** Subspecialty physician faculty members must:
453
454 **II.B.3.b).(1)** have current certification in the subspecialty by the
455 **American Board of Obstetrics and Gynecology, or the**
456 **American Osteopathic Board of Obstetrics and**
457 **Gynecology, or possess qualifications judged**
458 **acceptable to the Review Committee.** ^(Core)
459
460 **II.B.3.c)** Any non-physician faculty members who participate in
461 fellowship program education must be approved by the
462 program director. ^(Core)
463

Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to

the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.

464
465 **II.B.3.d)** **Any other specialty physician faculty members must have**
466 **current certification in their specialty by the appropriate**
467 **American Board of Medical Specialties (ABMS) member**
468 **board or American Osteopathic Association (AOA) certifying**
469 **board, or possess qualifications judged acceptable to the**
470 **Review Committee.** ^(Core)

471
472 **II.B.3.d).(1)** In addition to the members of the core faculty, there must
473 be faculty members, in the following specialty areas, who
474 participate in the care of patients and are involved in the
475 education of fellows:

476
477 **II.B.3.d).(1).(a)** critical care medicine; ^(Core)

478
479 **II.B.3.d).(1).(b)** genetics; ^(Core)

480
481 **II.B.3.d).(1).(c)** infectious diseases; ^(Core)

482
483 **II.B.3.d).(1).(d)** neonatology; ^(Core)

484
485 **II.B.3.d).(1).(e)** obstetrical anesthesiology; and, ^(Core)

486
487 **II.B.3.d).(1).(f)** perinatal pathology. ^(Core)

488
489 **II.B.3.d).(2)** There must be evidence of mutually complementary active
490 and continuing interaction between these disciplines and
491 fellows. ^(Core)

492
493 **II.B.4. Core Faculty**

494
495 **Core faculty members must have a significant role in the education**
496 **and supervision of fellows and must devote a significant portion of**
497 **their entire effort to fellow education and/or administration, and**
498 **must, as a component of their activities, teach, evaluate, and provide**
499 **formative feedback to fellows.** ^(Core)

500
Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum and in assessing fellows' progress toward achievement of competence in the subspecialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program, including completion of the annual ACGME Faculty Survey.

501
502 **II.B.4.a)** **Core faculty members must be designated by the program**
503 **director.** ^(Core)

504
505 **II.B.4.b)** **Core faculty members must complete the annual ACGME**
506 **Faculty Survey.** ^(Core)

- 507
508 II.B.4.c) In addition to the program director, there must be at least one core
509 physician faculty member who is certified in maternal-fetal
510 medicine by the American Board of Obstetrics and Gynecology or
511 the American Osteopathic Board of Obstetrics and Gynecology, or
512 has credentials acceptable to the Review Committee. ^(Core)
513
514 II.B.4.d) In addition to the program director, there must be at least one core
515 faculty member who is qualified and available to serve as a
516 research mentor to the fellows. ^(Core)
517
518 **II.C. Program Coordinator**
519
520 **II.C.1. There must be a program coordinator. ^(Core)**
521
522 **II.C.2. The program coordinator must be provided with support adequate**
523 **for administration of the program based upon its size and**
524 **configuration. ^(Core)**
525

Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison with learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management. Program coordinators are expected to develop unique knowledge of the ACGME and Program Requirements, policies, and procedures. Program coordinators assist the program director in accreditation efforts, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

- 526
527 **II.D. Other Program Personnel**
528
529 **The program, in partnership with its Sponsoring Institution, must jointly**
530 **ensure the availability of necessary personnel for the effective**
531 **administration of the program. ^(Core)**
532

Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.

533
534 **III. Fellow Appointments**
535
536 **III.A. Eligibility Criteria**

537
538 **III.A.1. Eligibility Requirements – Fellowship Programs**
539

540 **All required clinical education for entry into ACGME-accredited**
541 **fellowship programs must be completed in an ACGME-accredited**
542 **residency program, an AOA-approved residency program, a**
543 **program with ACGME International (ACGME-I) Advanced Specialty**
544 **Accreditation, or a Royal College of Physicians and Surgeons of**
545 **Canada (RCPSC)-accredited or College of Family Physicians of**
546 **Canada (CFPC)-accredited residency program located in Canada.**
547 **(Core)**
548

Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).

549
550 **III.A.1.a) Fellowship programs must receive verification of each**
551 **entering fellow’s level of competence in the required field,**
552 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**
553 **Milestones evaluations from the core residency program. (Core)**
554

555 **III.A.1.b) A fellow must have satisfactorily completed a program in**
556 **obstetrics and gynecology that satisfies III.A.1. (Core)**
557

558 **III.A.1.c) Fellow Eligibility Exception**
559

560 **The Review Committee for Obstetrics and Gynecology will allow**
561 **the following exception to the fellowship eligibility**
562 **requirements:**
563

564 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**
565 **an exceptionally qualified international graduate**
566 **applicant who does not satisfy the eligibility**
567 **requirements listed in III.A.1., but who does meet all of**
568 **the following additional qualifications and conditions:**
569 **(Core)**
570

571 **III.A.1.c).(1).(a) evaluation by the program director and**
572 **fellowship selection committee of the**
573 **applicant’s suitability to enter the program,**
574 **based on prior training and review of the**
575 **summative evaluations of training in the core**
576 **specialty; and, (Core)**
577

578 **III.A.1.c).(1).(b) review and approval of the applicant’s**
579 **exceptional qualifications by the GMEC; and,**
580 **(Core)**

- 581
582 III.A.1.c).(1).(c) verification of Educational Commission for
583 Foreign Medical Graduates (ECFMG)
584 certification. ^(Core)
585
586 III.A.1.c).(2) Applicants accepted through this exception must have
587 an evaluation of their performance by the Clinical
588 Competency Committee within 12 weeks of
589 matriculation. ^(Core)
590

Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.

In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.

- 591
592 III.B. The program director must not appoint more fellows than approved by the
593 Review Committee. ^(Core)
594
595 III.B.1. All complement increases must be approved by the Review
596 Committee. ^(Core)
597
598 III.B.1.a) There must be a minimum of two fellows in the program at all
599 times. ^(Core)
600

- 601 III.C. Fellow Transfers
602
603 The program must obtain verification of previous educational experiences
604 and a summative competency-based performance evaluation prior to
605 acceptance of a transferring fellow, and Milestones evaluations upon
606 matriculation. ^(Core)
607

608 IV. Educational Program
609

610 *The ACGME accreditation system is designed to encourage excellence and*
611 *innovation in graduate medical education regardless of the organizational*
612 *affiliation, size, or location of the program.*
613

614 *The educational program must support the development of knowledgeable, skillful*
615 *physicians who provide compassionate care.*

616
617 *In addition, the program is expected to define its specific program aims consistent*
618 *with the overall mission of its Sponsoring Institution, the needs of the community*
619 *it serves and that its graduates will serve, and the distinctive capabilities of*
620 *physicians it intends to graduate. While programs must demonstrate substantial*
621 *compliance with the Common and subspecialty-specific Program Requirements, it*
622 *is recognized that within this framework, programs may place different emphasis*
623 *on research, leadership, public health, etc. It is expected that the program aims*
624 *will reflect the nuanced program-specific goals for it and its graduates; for*
625 *example, it is expected that a program aiming to prepare physician-scientists will*
626 *have a different curriculum from one focusing on community health.*
627

628 **IV.A. The curriculum must contain the following educational components:** (Core)
629

630 **IV.A.1. a set of program aims consistent with the Sponsoring Institution’s**
631 **mission, the needs of the community it serves, and the desired**
632 **distinctive capabilities of its graduates;** (Core)
633

634 **IV.A.1.a) The program’s aims must be made available to program**
635 **applicants, fellows, and faculty members.** (Core)
636

637 **IV.A.2. competency-based goals and objectives for each educational**
638 **experience designed to promote progress on a trajectory to**
639 **autonomous practice in their subspecialty. These must be**
640 **distributed, reviewed, and available to fellows and faculty members;**
641 (Core)
642

643 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**
644 **responsibility for patient management, and graded supervision in**
645 **their subspecialty;** (Core)
646

Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

647
648 **IV.A.4. structured educational activities beyond direct patient care; and,**
649 (Core)
650

Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

651
652 **IV.A.5. advancement of fellows’ knowledge of ethical principles**
653 **foundational to medical professionalism.** (Core)
654

655 **IV.B. ACGME Competencies**
656

Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

657
658 **IV.B.1. The program must integrate the following ACGME Competencies**
659 **into the curriculum: ^(Core)**

660
661 **IV.B.1.a) Professionalism**

662
663 **Fellows must demonstrate a commitment to professionalism**
664 **and an adherence to ethical principles. ^(Core)**

665
666 **IV.B.1.b) Patient Care and Procedural Skills**
667

Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs. 2008; 27(3):759-769.*) In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.

668
669 **IV.B.1.b).(1) Fellows must be able to provide patient care that is**
670 **compassionate, appropriate, and effective for the**
671 **treatment of health problems and the promotion of**
672 **health. ^(Core)**

673
674 **IV.B.1.b).(1).(a) Fellows must demonstrate competence in the**
675 **management of complicated pregnancies,**
676 **including: ^(Core)**

677
678 **IV.B.1.b).(1).(a).(i) care for and/or collaboration with other**
679 **specialists surrounding the care of patients**
680 **requiring Cesarean hysterectomy; ^(Core)**

681
682 **IV.B.1.b).(1).(a).(ii) care of pregnant women with medical co-**
683 **morbidities; ^(Core)**

684
685 **IV.B.1.b).(1).(a).(iii) critical care of pregnant women; ^(Core)**

686
687 **IV.B.1.b).(1).(a).(iv) fetal evaluation; ^(Core)**

| | | |

813 **IV.B.1.d)**

Practice-based Learning and Improvement

Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning. ^(Core)

Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.

The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.

- 820
 821 **IV.B.1.e)** **Interpersonal and Communication Skills**
 822
 823 **Fellows must demonstrate interpersonal and communication**
 824 **skills that result in the effective exchange of information and**
 825 **collaboration with patients, their families, and health**
 826 **professionals. ^(Core)**
 827
 828 **IV.B.1.f)** **Systems-based Practice**
 829
 830 **Fellows must demonstrate an awareness of and**
 831 **responsiveness to the larger context and system of health**
 832 **care, including the social determinants of health, as well as**

- 833 **the ability to call effectively on other resources to provide**
834 **optimal health care.** (Core)
835
- 836 **IV.C. Curriculum Organization and Fellow Experiences**
837
- 838 **IV.C.1. The curriculum must be structured to optimize fellow educational**
839 **experiences, the length of these experiences, and supervisory**
840 **continuity.** (Core)
841
- 842 IV.C.1.a) Clinical experiences in maternal-fetal medicine must prioritize
843 continuity of patient care, ongoing supervision, longitudinal
844 relationships with faculty members, and meaningful assessment
845 and feedback. (Core)
846
- 847 **IV.C.2. The program must provide instruction and experience in pain**
848 **management if applicable for the subspecialty, including recognition**
849 **of the signs of addiction.** (Core)
850
- 851 IV.C.3. A program must provide regularly scheduled didactic instruction in both
852 basic science and the clinical aspects of maternal-fetal medicine. (Core)
853
- 854 IV.C.3.a) These sessions must be a minimum of one hour per week
855 (averaged over four weeks), directed specifically to the fellows,
856 conducted at a fellowship level, and presented by on-site faculty
857 members a majority of the time. (Core)
858
- 859 IV.C.3.b) Fellows' schedules and responsibilities should be structured to
860 allow attendance at all of these sessions. (Core)
861
- 862 IV.C.4. Fellows must participate in multidisciplinary inter-professional
863 conferences devoted to care of the at-risk mother, fetus, and newborn.
864 (Core)
865
- 866 IV.C.5. The program must ensure the education for each fellow is allocated as
867 follows:
868
- 869 IV.C.5.a) a minimum of ~~12-18~~ months of core clinical maternal-fetal
870 medicine, including: (Core)
871
- 872 IV.C.5.a).(1) a minimum of three months of ultrasound which may
873 consist of either block time or a longitudinal experience of
874 dedicated assignments over time (e.g., half-day clinics)
875 that total three months; (Core)
876
- 877 IV.C.5.a).(2) a minimum of two months of outpatient maternal-fetal
878 medicine which may consist of either block time or a
879 longitudinal experience of dedicated assignments over
880 time (e.g., half-day clinics) that total two months; (Core)
881
- 882 IV.C.5.a).(3) a minimum of two months of genetics and genomics, which
883 may consist of either block time or a longitudinal

- 884 experience of dedicated assignments over time (e.g., half-
885 day clinics) that total two months; (Core)
886
887 IV.C.5.a).(4) a minimum of two months, divided into a minimum of two-
888 week blocks, in a supervisory position of a Labor and
889 Delivery Unit; and, (Core)
890
891 IV.C.5.a).(4).(a) Night and weekend in-house call shifts throughout
892 the fellowship must not apply towards this time
893 requirement. (Core)
894
895 IV.C.5.a).(5) a minimum one-month block in an adult medical or surgical
896 ICU as a participant in patient care. (Core)
897
898 IV.C.5.a).(5).(a) Maternal-fetal medicine or obstetrics and
899 gynecology duties, including night and weekend in-
900 house call, must not be required of fellows during
901 this ICU month. (Core)
902
903 IV.C.5.b) a minimum of 12 months of protected time for research; and, (Core)
904
905 IV.C.5.b).(1) Research rotations must be in monthly blocks. (Core)
906
907 IV.C.5.b).(2) If fellows are assigned to clinical duties during research
908 months, this experience must be limited to four hours per
909 week (averaged over a four-week period). (Core)
910
911 IV.C.5.b).(2).(a) If clinical activities are in the core specialty, the
912 clinical time must be counted as independent
913 practice as outlined in IV.E.-IV.E.1.a). (Core)
914
915 IV.C.5.c) up to ~~nine~~ six months of elective time, consistent with the program
916 aims and at the discretion of the program director. (Core)
917

IV.D. Scholarship

Medicine is both an art and a science. The physician is a humanistic scientist who cares for patients. This requires the ability to think critically, evaluate the literature, appropriately assimilate new knowledge, and practice lifelong learning. The program and faculty must create an environment that fosters the acquisition of such skills through fellow participation in scholarly activities as defined in the subspecialty-specific Program Requirements. Scholarly activities may include discovery, integration, application, and teaching.

The ACGME recognizes the diversity of fellowships and anticipates that programs prepare physicians for a variety of roles, including clinicians, scientists, and educators. It is expected that the program's scholarship will reflect its mission(s) and aims, and the needs of the community it serves. For example, some programs may concentrate their scholarly activity on quality improvement, population health, and/or teaching, while other

935 *programs might choose to utilize more classic forms of biomedical*
936 *research as the focus for scholarship.*

937
938 **IV.D.1. Program Responsibilities**

939
940 **IV.D.1.a) The program must demonstrate evidence of scholarly**
941 **activities, consistent with its mission(s) and aims. ^(Core)**

942
943 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**
944 **must allocate adequate resources to facilitate fellow and**
945 **faculty involvement in scholarly activities. ^(Core)**

946
947 **IV.D.2. Faculty Scholarly Activity**

948
949 **IV.D.2.a) Among their scholarly activity, programs must demonstrate**
950 **accomplishments in at least three of the following domains:**
951 **^(Core)**

- 952
- 953 • **Research in basic science, education, translational**
 - 954 **science, patient care, or population health**
 - 955 • **Peer-reviewed grants**
 - 956 • **Quality improvement and/or patient safety initiatives**
 - 957 • **Systematic reviews, meta-analyses, review articles,**
 - 958 **chapters in medical textbooks, or case reports**
 - 959 • **Creation of curricula, evaluation tools, didactic**
 - 960 **educational activities, or electronic educational**
 - 961 **materials**
 - 962 • **Contribution to professional committees, educational**
 - 963 **organizations, or editorial boards**
 - 964 • **Innovations in education**

965
966 **IV.D.2.b) The program must demonstrate dissemination of scholarly**
967 **activity within and external to the program by the following**
968 **methods:**

Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program's effectiveness in the creation of an environment of inquiry that advances the fellows' scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

970
971 **IV.D.2.b).(1) faculty participation in grand rounds, posters,**
972 **workshops, quality improvement presentations,**
973 **podium presentations, grant leadership, non-peer-**
974 **reviewed print/electronic resources, articles or**
975 **publications, book chapters, textbooks, webinars,**

| | | |
|------|----------------------|---|
| 976 | | service on professional committees, or serving as a |
| 977 | | journal reviewer, journal editorial board member, or |
| 978 | | editor; (Outcome)‡ |
| 979 | | |
| 980 | IV.D.2.b).(2) | peer-reviewed publication. (Outcome) |
| 981 | | |
| 982 | IV.D.3. | Fellow Scholarly Activity |
| 983 | | |
| 984 | IV.D.3.a) | The appointed faculty research mentor must review with fellows |
| 985 | | the research curriculum and thesis resources, timeline, and |
| 986 | | expectations. (Core) |
| 987 | | |
| 988 | IV.D.3.b) | The research curriculum must include: |
| 989 | | |
| 990 | IV.D.3.b).(1) | structured delivery of education in grant writing, research |
| 991 | | design, research methodology, and data analysis; (Core) |
| 992 | | |
| 993 | IV.D.3.b).(2) | opportunities for structured basic, translational, and/or |
| 994 | | clinical research; (Core) |
| 995 | | |
| 996 | IV.D.3.b).(3) | enhancement of the fellows' understanding of the latest |
| 997 | | scientific techniques and encouragement of interaction |
| 998 | | with other scientists; (Core) |
| 999 | | |
| 1000 | IV.D.3.b).(4) | the opportunity for the fellows to present their academic |
| 1001 | | contributions to the maternal-fetal medicine community; |
| 1002 | | and, (Core) |
| 1003 | | |
| 1004 | IV.D.3.b).(5) | preparation of the fellows to obtain research funding and |
| 1005 | | academic positions. (Core) |
| 1006 | | |
| 1007 | IV.D.3.c) | Scholarly Paper (Thesis) |
| 1008 | | |
| 1009 | | The program must ensure that each fellow completes a thesis and |
| 1010 | | defends it during the fellowship program. (Core) |
| 1011 | | |
| 1012 | IV.D.3.c).(1) | Under the direction of a faculty mentor, each fellow must |
| 1013 | | complete a comprehensive written scholarly paper (thesis) |
| 1014 | | during the program that demonstrates the following: (Core) |
| 1015 | | |
| 1016 | IV.D.3.c).(1).(a) | utilization of appropriate research design, |
| 1017 | | methodology, and analysis; (Core) |
| 1018 | | |
| 1019 | IV.D.3.c).(1).(b) | collection and statistical analysis of information |
| 1020 | | obtained from a structured basic, translational, |
| 1021 | | and/or clinical research setting; and, (Core) |
| 1022 | | |
| 1023 | IV.D.3.c).(1).(c) | synthesis of the scientific literature, hypothesis |
| 1024 | | testing, and description of findings and results. (Core) |
| 1025 | | |
| 1026 | IV.D.3.d) | Prior to completion of the fellowship, each fellow must have: |

- 1027
 1028 IV.D.3.d).(1) a thesis that meets the certification standards set by the
 1029 American Board of Obstetrics and Gynecology or
 1030 American Osteopathic Board of Obstetrics and
 1031 Gynecology; ^(Core)
 1032
 1033 IV.D.3.d).(2) completed work on the thesis and submitted a written
 1034 manuscript to the program director; ^(Core)
 1035
 1036 IV.D.3.d).(3) defended the thesis to the program director and research
 1037 mentor, and other members of the division at the discretion
 1038 of the program director; and, ^(Core)
 1039
 1040 IV.D.3.d).(4) a formal written assessment of the thesis defense. ^(Outcome)
 1041
 1042 IV.D.3.e) A copy of the manuscript and the thesis defense documentation
 1043 must be available upon request. ^(Core)
 1044
 1045 **IV.E. *Fellowship programs may assign fellows to engage in the independent***
 1046 ***practice of their core specialty during their fellowship program.***
 1047
 1048 **IV.E.1. If programs permit their fellows to utilize the independent practice**
 1049 **option, it must not exceed 20 percent of their time per week or 10**
 1050 **weeks of an academic year. ^(Core)**
 1051
 1052 IV.E.1.a) No more than four hours per week of independent practice,
 1053 averaged over a four-week period, may occur on a weekday
 1054 during regular office hours. ^(Core)
 1055

Background and Intent: Fellows who have previously completed residency programs have demonstrated sufficient competence to enter autonomous practice within their core specialty. This option is designed to enhance fellows' maturation and competence in their core specialty. This enables fellows to occupy a dual role in the health system: as learners in their subspecialty, and as credentialed practitioners in their core specialty. Hours worked in independent practice during fellowship still fall under the clinical and educational work hour limits. See Program Director Guide for more details.

1056
 1057 Specialty-Specific Background and Intent: Independent practice in general obstetrics is
 1058 beneficial to maternal-fetal medicine fellows and may occur as outlined but must not
 1059 substantially interfere with fellows' subspecialty education. Independent practice assigned by
 1060 the program is distinct from moonlighting, which is voluntary. Information regarding moonlighting
 1061 can be found in VI.F.5.-VI.F.5.b) and the ACGME Glossary of Terms, available on the ACGME
 1062 website. Programs are reminded that both independent practice and moonlighting hours must
 1063 adhere to the work hour requirements outlined in VI.F.-VI.F.8.b).
 1064
 1065 During research months, no more than four hours of a fellow's time per week, averaged over a
 1066 four-week period, may be devoted to clinical activities during regular office hours, including both
 1067 assigned independent practice in general obstetrics and assigned maternal-fetal medicine
 1068 clinical activities. Specifically, the total time of all clinical activities during regular office hours
 1069 must not exceed four hours per week (averaged over a four-week period).
 1070

1071
1072
1073
1074
1075
1076
1077
1078

Regular office hours are defined as Monday through Friday, 8:00 a.m. to 5:00 p.m.

V. Evaluation

V.A. Fellow Evaluation

V.A.1. Feedback and Evaluation

Background and Intent: Feedback is ongoing information provided regarding aspects of one's performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.

1079
1080
1081
1082
1083

V.A.1.a) Faculty members must directly observe, evaluate, and frequently provide feedback on fellow performance during each rotation or similar educational assignment. ^(Core)

Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.

1084
1085
1086
1087

V.A.1.b) Evaluation must be documented at the completion of the assignment. ^(Core)

- 1088 **V.A.1.b).(1)** For block rotations of greater than three months in
 1089 duration, evaluation must be documented at least
 1090 every three months. ^(Core)
 1091
- 1092 **V.A.1.b).(2)** Longitudinal experiences such as continuity clinic in
 1093 the context of other clinical responsibilities must be
 1094 evaluated at least every three months and at
 1095 completion. ^(Core)
 1096
- 1097 **V.A.1.c)** The program must provide an objective performance
 1098 evaluation based on the Competencies and the subspecialty-
 1099 specific Milestones, and must: ^(Core)
 1100
- 1101 **V.A.1.c).(1)** use multiple evaluators (e.g., faculty members, peers,
 1102 patients, self, and other professional staff members);
 1103 and, ^(Core)
 1104
- 1105 **V.A.1.c).(2)** provide that information to the Clinical Competency
 1106 Committee for its synthesis of progressive fellow
 1107 performance and improvement toward unsupervised
 1108 practice. ^(Core)
 1109

Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

- 1110
- 1111 **V.A.1.d)** The program director or their designee, with input from the
 1112 Clinical Competency Committee, must:
 1113
- 1114 **V.A.1.d).(1)** meet with and review with each fellow their
 1115 documented semi-annual evaluation of performance,
 1116 including progress along the subspecialty-specific
 1117 Milestones. ^(Core)
 1118
- 1119 **V.A.1.d).(1).(a)** The review must include fellow progress towards
 1120 thesis completion. ^(Core)
 1121
- 1122 **V.A.1.d).(2)** assist fellows in developing individualized learning
 1123 plans to capitalize on their strengths and identify areas
 1124 for growth; and, ^(Core)
 1125
- 1126 **V.A.1.d).(3)** develop plans for fellows failing to progress, following
 1127 institutional policies and procedures. ^(Core)
 1128

Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

- 1129
1130 **V.A.1.e)** **At least annually, there must be a summative evaluation of**
1131 **each fellow that includes their readiness to progress to the**
1132 **next year of the program, if applicable. (Core)**
1133
1134 **V.A.1.f)** **The evaluations of a fellow's performance must be accessible**
1135 **for review by the fellow. (Core)**
1136
1137 **V.A.2.** **Final Evaluation**
1138
1139 **V.A.2.a)** **The program director must provide a final evaluation for each**
1140 **fellow upon completion of the program. (Core)**
1141
1142 **V.A.2.a).(1)** **The subspecialty-specific Milestones, and when**
1143 **applicable the subspecialty-specific Case Logs, must**
1144 **be used as tools to ensure fellows are able to engage**
1145 **in autonomous practice upon completion of the**
1146 **program. (Core)**
1147
1148 **V.A.2.a).(2)** **The final evaluation must:**
1149
1150 **V.A.2.a).(2).(a)** **become part of the fellow's permanent record**
1151 **maintained by the institution, and must be**
1152 **accessible for review by the fellow in**
1153 **accordance with institutional policy; (Core)**
1154
1155 **V.A.2.a).(2).(b)** **verify that the fellow has demonstrated the**
1156 **knowledge, skills, and behaviors necessary to**
1157 **enter autonomous practice; (Core)**
1158
1159 **V.A.2.a).(2).(c)** **consider recommendations from the Clinical**
1160 **Competency Committee; and, (Core)**
1161

- 1162 **V.A.2.a).(2).(d)** be shared with the fellow upon completion of
- 1163 the program. ^(Core)
- 1164
- 1165 **V.A.3.** **A Clinical Competency Committee must be appointed by the**
- 1166 **program director.** ^(Core)
- 1167
- 1168 **V.A.3.a)** **At a minimum the Clinical Competency Committee must**
- 1169 **include three members, at least one of whom is a core faculty**
- 1170 **member. Members must be faculty members from the same**
- 1171 **program or other programs, or other health professionals**
- 1172 **who have extensive contact and experience with the**
- 1173 **program’s fellows.** ^(Core)
- 1174
- 1175 **V.A.3.b)** **The Clinical Competency Committee must:**
- 1176
- 1177 **V.A.3.b).(1)** **review all fellow evaluations at least semi-annually;**
- 1178 ^(Core)
- 1179
- 1180 **V.A.3.b).(2)** **determine each fellow’s progress on achievement of**
- 1181 **the subspecialty-specific Milestones; and,** ^(Core)
- 1182
- 1183 **V.A.3.b).(3)** **meet prior to the fellows’ semi-annual evaluations and**
- 1184 **advise the program director regarding each fellow’s**
- 1185 **progress.** ^(Core)
- 1186
- 1187 **V.B. Faculty Evaluation**
- 1188
- 1189 **V.B.1.** **The program must have a process to evaluate each faculty**
- 1190 **member’s performance as it relates to the educational program at**
- 1191 **least annually.** ^(Core)
- 1192

Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program’s faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

1193

- 1194 **V.B.1.a)** This evaluation must include a review of the faculty member’s
 1195 clinical teaching abilities, engagement with the educational
 1196 program, participation in faculty development related to their
 1197 skills as an educator, clinical performance, professionalism,
 1198 and scholarly activities. ^(Core)
 1199
- 1200 **V.B.1.b)** This evaluation must include written, confidential evaluations
 1201 by the fellows. ^(Core)
 1202
- 1203 **V.B.2.** Faculty members must receive feedback on their evaluations at least
 1204 annually. ^(Core)
 1205
- 1206 **V.B.3.** Results of the faculty educational evaluations should be
 1207 incorporated into program-wide faculty development plans. ^(Core)
 1208

Background and Intent: The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1209
- 1210 **V.C. Program Evaluation and Improvement**
- 1211
- 1212 **V.C.1.** The program director must appoint the Program Evaluation
 1213 Committee to conduct and document the Annual Program
 1214 Evaluation as part of the program’s continuous improvement
 1215 process. ^(Core)
 1216
- 1217 **V.C.1.a)** The Program Evaluation Committee must be composed of at
 1218 least two program faculty members, at least one of whom is a
 1219 core faculty member, and at least one fellow. ^(Core)
 1220
- 1221 **V.C.1.b)** Program Evaluation Committee responsibilities must include:
- 1222
- 1223 **V.C.1.b).(1)** acting as an advisor to the program director, through
 1224 program oversight; ^(Core)
 1225
- 1226 **V.C.1.b).(2)** review of the program’s self-determined goals and
 1227 progress toward meeting them; ^(Core)
 1228
- 1229 **V.C.1.b).(3)** guiding ongoing program improvement, including
 1230 development of new goals, based upon outcomes;
 1231 and, ^(Core)
 1232
- 1233 **V.C.1.b).(4)** review of the current operating environment to identify
 1234 strengths, challenges, opportunities, and threats as
 1235 related to the program’s mission and aims. ^(Core)
 1236

Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual

Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program's progress toward achievement of its goals and aims.

- 1237
1238 **V.C.1.c) The Program Evaluation Committee should consider the**
1239 **following elements in its assessment of the program:**
1240
1241 **V.C.1.c).(1) curriculum;** ^(Core)
1242
1243 **V.C.1.c).(2) outcomes from prior Annual Program Evaluation(s);**
1244 ^(Core)
1245
1246 **V.C.1.c).(3) ACGME letters of notification, including citations,**
1247 **Areas for Improvement, and comments;** ^(Core)
1248
1249 **V.C.1.c).(4) quality and safety of patient care;** ^(Core)
1250
1251 **V.C.1.c).(5) aggregate fellow and faculty:**
1252
1253 **V.C.1.c).(5).(a) well-being;** ^(Core)
1254
1255 **V.C.1.c).(5).(b) recruitment and retention;** ^(Core)
1256
1257 **V.C.1.c).(5).(c) workforce diversity;** ^(Core)
1258
1259 **V.C.1.c).(5).(d) engagement in quality improvement and patient**
1260 **safety;** ^(Core)
1261
1262 **V.C.1.c).(5).(e) scholarly activity;** ^(Core)
1263
1264 **V.C.1.c).(5).(f) ACGME Resident/Fellow and Faculty Surveys**
1265 **(where applicable); and,** ^(Core)
1266
1267 **V.C.1.c).(5).(g) written evaluations of the program.** ^(Core)
1268
1269 **V.C.1.c).(6) aggregate fellow:**
1270
1271 **V.C.1.c).(6).(a) achievement of the Milestones;** ^(Core)
1272
1273 **V.C.1.c).(6).(b) in-training examinations (where applicable);**
1274 ^(Core)
1275
1276 **V.C.1.c).(6).(c) board pass and certification rates; and,** ^(Core)
1277
1278 **V.C.1.c).(6).(d) graduate performance.** ^(Core)
1279
1280 **V.C.1.c).(7) aggregate faculty:**
1281
1282 **V.C.1.c).(7).(a) evaluation; and,** ^(Core)
1283

- 1284 V.C.1.c).(7).(b) professional development ^(Core)
- 1285
- 1286 V.C.1.d) The Program Evaluation Committee must evaluate the
1287 program's mission and aims, strengths, areas for
1288 improvement, and threats. ^(Core)
- 1289
- 1290 V.C.1.e) The annual review, including the action plan, must:
- 1291
- 1292 V.C.1.e).(1) be distributed to and discussed with the members of
1293 the teaching faculty and the fellows; and, ^(Core)
- 1294
- 1295 V.C.1.e).(2) be submitted to the DIO. ^(Core)
- 1296
- 1297 V.C.2. The program must participate in a Self-Study prior to its 10-Year
1298 Accreditation Site Visit. ^(Core)
- 1299
- 1300 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.
1301 ^(Core)
- 1302

Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

- 1303
- 1304 V.C.3. *One goal of ACGME-accredited education is to educate physicians*
1305 *who seek and achieve board certification. One measure of the*
1306 *effectiveness of the educational program is the ultimate pass rate.*
- 1307
- 1308 *The program director should encourage all eligible program*
1309 *graduates to take the certifying examination offered by the*
1310 *applicable American Board of Medical Specialties (ABMS) member*
1311 *board or American Osteopathic Association (AOA) certifying board.*
- 1312
- 1313 V.C.3.a) For subspecialties in which the ABMS member board and/or
1314 AOA certifying board offer(s) an annual written exam, in the
1315 preceding three years, the program's aggregate pass rate of
1316 those taking the examination for the first time must be higher
1317 than the bottom fifth percentile of programs in that
1318 subspecialty. ^(Outcome)
- 1319
- 1320 V.C.3.b) For subspecialties in which the ABMS member board and/or
1321 AOA certifying board offer(s) a biennial written exam, in the
1322 preceding six years, the program's aggregate pass rate of
1323 those taking the examination for the first time must be higher

- 1324 than the bottom fifth percentile of programs in that
 1325 subspecialty. ^(Outcome)
 1326
 1327 **V.C.3.c)** For subspecialties in which the ABMS member board and/or
 1328 AOA certifying board offer(s) an annual oral exam, in the
 1329 preceding three years, the program’s aggregate pass rate of
 1330 those taking the examination for the first time must be higher
 1331 than the bottom fifth percentile of programs in that
 1332 subspecialty. ^(Outcome)
 1333
 1334 **V.C.3.d)** For subspecialties in which the ABMS member board and/or
 1335 AOA certifying board offer(s) a biennial oral exam, in the
 1336 preceding six years, the program’s aggregate pass rate of
 1337 those taking the examination for the first time must be higher
 1338 than the bottom fifth percentile of programs in that
 1339 subspecialty. ^(Outcome)
 1340
 1341 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program
 1342 whose graduates over the time period specified in the
 1343 requirement have achieved an 80 percent pass rate will have
 1344 met this requirement, no matter the percentile rank of the
 1345 program for pass rate in that subspecialty. ^(Outcome)
 1346

Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

- 1347
 1348 **V.C.3.f)** Programs must report, in ADS, board certification status
 1349 annually for the cohort of board-eligible fellows that
 1350 graduated seven years earlier. ^(Core)
 1351

Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates’ performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

VI. The Learning and Working Environment

Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:

- *Excellence in the safety and quality of care rendered to patients by fellows today*
- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*
- *Excellence in professionalism through faculty modeling of:*
 - *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*
 - *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

Background and Intent: The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

1374
1375
1376

VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability

1377 **VI.A.1. Patient Safety and Quality Improvement**
1378
1379 *All physicians share responsibility for promoting patient safety and*
1380 *enhancing quality of patient care. Graduate medical education must*
1381 *prepare fellows to provide the highest level of clinical care with*
1382 *continuous focus on the safety, individual needs, and humanity of*
1383 *their patients. It is the right of each patient to be cared for by fellows*
1384 *who are appropriately supervised; possess the requisite knowledge,*
1385 *skills, and abilities; understand the limits of their knowledge and*
1386 *experience; and seek assistance as required to provide optimal*
1387 *patient care.*
1388
1389 *Fellows must demonstrate the ability to analyze the care they*
1390 *provide, understand their roles within health care teams, and play an*
1391 *active role in system improvement processes. Graduating fellows*
1392 *will apply these skills to critique their future unsupervised practice*
1393 *and effect quality improvement measures.*
1394
1395 *It is necessary for fellows and faculty members to consistently work*
1396 *in a well-coordinated manner with other health care professionals to*
1397 *achieve organizational patient safety goals.*
1398
1399 **VI.A.1.a) Patient Safety**
1400
1401 **VI.A.1.a).(1) Culture of Safety**
1402
1403 *A culture of safety requires continuous identification*
1404 *of vulnerabilities and a willingness to transparently*
1405 *deal with them. An effective organization has formal*
1406 *mechanisms to assess the knowledge, skills, and*
1407 *attitudes of its personnel toward safety in order to*
1408 *identify areas for improvement.*
1409
1410 **VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows**
1411 **must actively participate in patient safety**
1412 **systems and contribute to a culture of safety.**
1413 **(Core)**
1414
1415 **VI.A.1.a).(1).(b) The program must have a structure that**
1416 **promotes safe, interprofessional, team-based**
1417 **care. (Core)**
1418
1419 **VI.A.1.a).(2) Education on Patient Safety**
1420
1421 **Programs must provide formal educational activities**
1422 **that promote patient safety-related goals, tools, and**
1423 **techniques. (Core)**
1424

| |
|--|
| <p>Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.</p> |

| 1476 | | |

| | | |
|------|------------------------------|--|
| 1477 | VI.A.1.b) | Quality Improvement |
| 1478 | | |
| 1479 | VI.A.1.b).(1) | Education in Quality Improvement |
| 1480 | | |
| 1481 | | <i>A cohesive model of health care includes quality-</i> |
| 1482 | | <i>related goals, tools, and techniques that are necessary</i> |
| 1483 | | <i>in order for health care professionals to achieve</i> |
| 1484 | | <i>quality improvement goals.</i> |
| 1485 | | |
| 1486 | VI.A.1.b).(1).(a) | Fellows must receive training and experience in |
| 1487 | | quality improvement processes, including an |
| 1488 | | understanding of health care disparities. ^(Core) |
| 1489 | | |
| 1490 | VI.A.1.b).(2) | Quality Metrics |
| 1491 | | |
| 1492 | | <i>Access to data is essential to prioritizing activities for</i> |
| 1493 | | <i>care improvement and evaluating success of</i> |
| 1494 | | <i>improvement efforts.</i> |
| 1495 | | |
| 1496 | VI.A.1.b).(2).(a) | Fellows and faculty members must receive data |
| 1497 | | on quality metrics and benchmarks related to |
| 1498 | | their patient populations. ^(Core) |
| 1499 | | |
| 1500 | VI.A.1.b).(3) | Engagement in Quality Improvement Activities |
| 1501 | | |
| 1502 | | <i>Experiential learning is essential to developing the</i> |
| 1503 | | <i>ability to identify and institute sustainable systems-</i> |
| 1504 | | <i>based changes to improve patient care.</i> |
| 1505 | | |
| 1506 | VI.A.1.b).(3).(a) | Fellows must have the opportunity to |
| 1507 | | participate in interprofessional quality |
| 1508 | | improvement activities. ^(Core) |
| 1509 | | |
| 1510 | VI.A.1.b).(3).(a).(i) | This should include activities aimed at |
| 1511 | | reducing health care disparities. ^(Detail) |
| 1512 | | |
| 1513 | VI.A.2. | Supervision and Accountability |
| 1514 | | |
| 1515 | VI.A.2.a) | <i>Although the attending physician is ultimately responsible for</i> |
| 1516 | | <i>the care of the patient, every physician shares in the</i> |
| 1517 | | <i>responsibility and accountability for their efforts in the</i> |
| 1518 | | <i>provision of care. Effective programs, in partnership with</i> |
| 1519 | | <i>their Sponsoring Institutions, define, widely communicate,</i> |
| 1520 | | <i>and monitor a structured chain of responsibility and</i> |
| 1521 | | <i>accountability as it relates to the supervision of all patient</i> |
| 1522 | | <i>care.</i> |
| 1523 | | |
| 1524 | | <i>Supervision in the setting of graduate medical education</i> |
| 1525 | | <i>provides safe and effective care to patients; ensures each</i> |
| 1526 | | <i>fellow's development of the skills, knowledge, and attitudes</i> |

1527 *required to enter the unsupervised practice of medicine; and*
1528 *establishes a foundation for continued professional growth.*

1529
1530 **VI.A.2.a).(1)** Each patient must have an identifiable and
1531 appropriately-credentialed and privileged attending
1532 physician (or licensed independent practitioner as
1533 specified by the applicable Review Committee) who is
1534 responsible and accountable for the patient’s care.
1535 (Core)

1536
1537 **VI.A.2.a).(1).(a)** This information must be available to fellows,
1538 faculty members, other members of the health
1539 care team, and patients. (Core)

1540
1541 **VI.A.2.a).(1).(b)** Fellows and faculty members must inform each
1542 patient of their respective roles in that patient’s
1543 care when providing direct patient care. (Core)

1544
1545 **VI.A.2.b)** *Supervision may be exercised through a variety of methods.*
1546 *For many aspects of patient care, the supervising physician*
1547 *may be a more advanced fellow. Other portions of care*
1548 *provided by the fellow can be adequately supervised by the*
1549 *appropriate availability of the supervising faculty member or*
1550 *fellow, either on site or by means of telecommunication*
1551 *technology. Some activities require the physical presence of*
1552 *the supervising faculty member. In some circumstances,*
1553 *supervision may include post-hoc review of fellow-delivered*
1554 *care with feedback.*

Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of fellow patient interactions, education and training locations, and fellow skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a fellow gains more experience, even with the same patient condition or procedure. All fellows have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.

1556
1557 **VI.A.2.b).(1)** The program must demonstrate that the appropriate
1558 level of supervision in place for all fellows is based on
1559 each fellow’s level of training and ability, as well as
1560 patient complexity and acuity. Supervision may be
1561 exercised through a variety of methods, as appropriate
1562 to the situation. (Core)

1563
1564 **VI.A.2.b).(2)** The program must define when physical presence of a
1565 supervising physician is required. (Core)

1566
1567 **VI.A.2.c)** **Levels of Supervision**
1568

1569 To promote appropriate fellow supervision while providing
1570 for graded authority and responsibility, the program must use
1571 the following classification of supervision: ^(Core)

1572
1573 **VI.A.2.c).(1) Direct Supervision:**

1574
1575 **VI.A.2.c).(1).(a) the supervising physician is physically present**
1576 **with the fellow during the key portions of the**
1577 **patient interaction; or, ^(Core)**

1578
1579 **VI.A.2.c).(1).(b) the supervising physician and/or patient is not**
1580 **physically present with the fellow and the**
1581 **supervising physician is concurrently**
1582 **monitoring the patient care through appropriate**
1583 **telecommunication technology. ^(Core)**

1584
1585 **VI.A.2.c).(1).(b).(i) The use of telecommunication technology**
1586 **for direct supervision must not be used for**
1587 **the management of labor and delivery or**
1588 **with invasive procedures. ^(Core)**

1589
1590 **VI.A.2.c).(2) Indirect Supervision: the supervising physician is not**
1591 **providing physical or concurrent visual or audio**
1592 **supervision but is immediately available to the fellow**
1593 **for guidance and is available to provide appropriate**
1594 **direct supervision. ^(Core)**

1595
1596 **VI.A.2.c).(3) Oversight – the supervising physician is available to**
1597 **provide review of procedures/encounters with**
1598 **feedback provided after care is delivered. ^(Core)**

1599
1600 **VI.A.2.d) The privilege of progressive authority and responsibility,**
1601 **conditional independence, and a supervisory role in patient**
1602 **care delegated to each fellow must be assigned by the**
1603 **program director and faculty members. ^(Core)**

1604
1605 **VI.A.2.d).(1) The program director must evaluate each fellow’s**
1606 **abilities based on specific criteria, guided by the**
1607 **Milestones. ^(Core)**

1608
1609 **VI.A.2.d).(2) Faculty members functioning as supervising**
1610 **physicians must delegate portions of care to fellows**
1611 **based on the needs of the patient and the skills of**
1612 **each fellow. ^(Core)**

1613
1614 **VI.A.2.d).(3) Fellows should serve in a supervisory role to junior**
1615 **fellows and residents in recognition of their progress**
1616 **toward independence, based on the needs of each**
1617 **patient and the skills of the individual resident or**
1618 **fellow. ^(Detail)**

1619

1620 VI.A.2.e) Programs must set guidelines for circumstances and events
1621 in which fellows must communicate with the supervising
1622 faculty member(s). ^(Core)
1623

1624 VI.A.2.e).(1) Each fellow must know the limits of their scope of
1625 authority, and the circumstances under which the
1626 fellow is permitted to act with conditional
1627 independence. ^(Outcome)
1628

Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.

1629 VI.A.2.f) Faculty supervision assignments must be of sufficient
1630 duration to assess the knowledge and skills of each fellow
1631 and to delegate to the fellow the appropriate level of patient
1632 care authority and responsibility. ^(Core)
1633

1634 VI.B. Professionalism

1635 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must
1636 educate fellows and faculty members concerning the professional
1637 responsibilities of physicians, including their obligation to be
1638 appropriately rested and fit to provide the care required by their
1639 patients. ^(Core)
1640

1641 VI.B.2. The learning objectives of the program must:

1642 VI.B.2.a) be accomplished through an appropriate blend of supervised
1643 patient care responsibilities, clinical teaching, and didactic
1644 educational events; ^(Core)
1645

1646 VI.B.2.b) be accomplished without excessive reliance on fellows to
1647 fulfill non-physician obligations; and, ^(Core)
1648

Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1649 VI.B.2.c) ensure manageable patient care responsibilities. ^(Core)
1650
1651

Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY

level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1726

Background and Intent: The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

1727

1728 VI.C.1. The responsibility of the program, in partnership with the
1729 Sponsoring Institution, to address well-being must include:

1730
1731 VI.C.1.a) efforts to enhance the meaning that each fellow finds in the
1732 experience of being a physician, including protecting time
1733 with patients, minimizing non-physician obligations,
1734 providing administrative support, promoting progressive
1735 autonomy and flexibility, and enhancing professional
1736 relationships; (Core)

1737
1738 VI.C.1.b) attention to scheduling, work intensity, and work
1739 compression that impacts fellow well-being; (Core)

1740
1741 VI.C.1.c) evaluating workplace safety data and addressing the safety of
1742 fellows and faculty members; (Core)

Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1744
1745 VI.C.1.d) policies and programs that encourage optimal fellow and
1746 faculty member well-being; and, (Core)

Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1748
1749 VI.C.1.d).(1) Fellows must be given the opportunity to attend
1750 medical, mental health, and dental care appointments,
1751 including those scheduled during their working hours.
1752 (Core)

Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

1754
1755 VI.C.1.e) attention to fellow and faculty member burnout, depression,
1756 and substance use disorder. The program, in partnership with
1757 its Sponsoring Institution, must educate faculty members and
1758 fellows in identification of the symptoms of burnout,
1759 depression, and substance use disorder, including means to
1760 assist those who experience these conditions. Fellows and
1761 faculty members must also be educated to recognize those
1762 symptoms in themselves and how to seek appropriate care.

1763
1764
1765

The program, in partnership with its Sponsoring Institution, must: ^(Core)

Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorder. Materials and more information are available on the Physician Well-being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).

1770
1771
1772
1773
1774

VI.C.1.e).(1) encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, a substance use disorder, suicidal ideation, or potential for violence;
^(Core)

Background and Intent: Individuals experiencing burnout, depression, substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1775

1777
1778
1779
1780
1781
1782
1783

VI.C.1.e).(2) provide access to appropriate tools for self-screening; and, ^(Core)

VI.C.1.e).(3) provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. ^(Core)

Background and Intent: The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1784
1785 **VI.C.2.** There are circumstances in which fellows may be unable to attend
1786 work, including but not limited to fatigue, illness, family
1787 emergencies, and parental leave. Each program must allow an
1788 appropriate length of absence for fellows unable to perform their
1789 patient care responsibilities. ^(Core)
1790

1791 **VI.C.2.a)** The program must have policies and procedures in place to
1792 ensure coverage of patient care. ^(Core)
1793

1794 **VI.C.2.b)** These policies must be implemented without fear of negative
1795 consequences for the fellow who is or was unable to provide
1796 the clinical work. ^(Core)
1797

Background and Intent: Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

1798
1799 **VI.D. Fatigue Mitigation**

1800
1801 **VI.D.1. Programs must:**

1802
1803 **VI.D.1.a)** educate all faculty members and fellows to recognize the
1804 signs of fatigue and sleep deprivation; ^(Core)
1805

1806 **VI.D.1.b)** educate all faculty members and fellows in alertness
1807 management and fatigue mitigation processes; and, ^(Core)
1808

1809 **VI.D.1.c)** encourage fellows to use fatigue mitigation processes to
1810 manage the potential negative effects of fatigue on patient
1811 care and learning. ^(Detail)
1812

Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

1813
1814 **VI.D.2.** Each program must ensure continuity of patient care, consistent
1815 with the program's policies and procedures referenced in VI.C.2–

- 1816 VI.C.2.b), in the event that a fellow may be unable to perform their
 1817 patient care responsibilities due to excessive fatigue. ^(Core)
 1818
 1819 VI.D.3. The program, in partnership with its Sponsoring Institution, must
 1820 ensure adequate sleep facilities and safe transportation options for
 1821 fellows who may be too fatigued to safely return home. ^(Core)
 1822
 1823 VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care
 1824
 1825 VI.E.1. Clinical Responsibilities
 1826
 1827 The clinical responsibilities for each fellow must be based on PGY
 1828 level, patient safety, fellow ability, severity and complexity of patient
 1829 illness/condition, and available support services. ^(Core)
 1830

Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

- 1831
 1832 VI.E.2. Teamwork
 1833
 1834 Fellows must care for patients in an environment that maximizes
 1835 communication. This must include the opportunity to work as a
 1836 member of effective interprofessional teams that are appropriate to
 1837 the delivery of care in the subspecialty and larger health system.
 1838 ^(Core)
 1839
 1840 VI.E.3. Transitions of Care
 1841
 1842 VI.E.3.a) Programs must design clinical assignments to optimize
 1843 transitions in patient care, including their safety, frequency,
 1844 and structure. ^(Core)
 1845
 1846 VI.E.3.b) Programs, in partnership with their Sponsoring Institutions,
 1847 must ensure and monitor effective, structured hand-over
 1848 processes to facilitate both continuity of care and patient
 1849 safety. ^(Core)
 1850
 1851 VI.E.3.c) Programs must ensure that fellows are competent in
 1852 communicating with team members in the hand-over process.
 1853 ^(Outcome)
 1854
 1855 VI.E.3.d) Programs and clinical sites must maintain and communicate
 1856 schedules of attending physicians and fellows currently
 1857 responsible for care. ^(Core)
 1858

1859 VI.E.3.e) Each program must ensure continuity of patient care,
1860 consistent with the program’s policies and procedures
1861 referenced in VI.C.2-VI.C.2.b), in the event that a fellow may
1862 be unable to perform their patient care responsibilities due to
1863 excessive fatigue or illness, or family emergency. ^(Core)
1864

1865 VI.F. Clinical Experience and Education

1866
1867 *Programs, in partnership with their Sponsoring Institutions, must design*
1868 *an effective program structure that is configured to provide fellows with*
1869 *educational and clinical experience opportunities, as well as reasonable*
1870 *opportunities for rest and personal activities.*
1871

Background and Intent: In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

1872
1873 VI.F.1. Maximum Hours of Clinical and Educational Work per Week

1874
1875 Clinical and educational work hours must be limited to no more than
1876 80 hours per week, averaged over a four-week period, inclusive of all
1877 in-house clinical and educational activities, clinical work done from
1878 home, and all moonlighting. ^(Core)
1879

Background and Intent: Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

Scheduling

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

Oversight

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour

maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

Work from Home

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

1880
1881
1882

1887
1888
1889
1890

- VI.F.2. Mandatory Time Free of Clinical Work and Education**
- VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. ^(Core)**
- VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. ^(Detail)**

1891 VI.F.2.b).(1) There may be circumstances when fellows choose to
1892 stay to care for their patients or return to the hospital
1893 with fewer than eight hours free of clinical experience
1894 and education. This must occur within the context of
1895 the 80-hour and the one-day-off-in-seven
1896 requirements. ^(Detail)
1897

Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1898
1899 VI.F.2.c) Fellows must have at least 14 hours free of clinical work and
1900 education after 24 hours of in-house call. ^(Core)
1901

Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

1902
1903 VI.F.2.d) Fellows must be scheduled for a minimum of one day in
1904 seven free of clinical work and required education (when
1905 averaged over four weeks). At-home call cannot be assigned
1906 on these free days. ^(Core)
1907

Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

1908
1909 VI.F.3. Maximum Clinical Work and Education Period Length

1910
1911 VI.F.3.a) Clinical and educational work periods for fellows must not
1912 exceed 24 hours of continuous scheduled clinical
1913 assignments. ^(Core)
1914

1915 VI.F.3.a).(1) Up to four hours of additional time may be used for
1916 activities related to patient safety, such as providing
1917 effective transitions of care, and/or fellow education.
1918 (Core)

1919
1920 VI.F.3.a).(1).(a) Additional patient care responsibilities must not
1921 be assigned to a fellow during this time. (Core)
1922

Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

1923
1924 VI.F.4. Clinical and Educational Work Hour Exceptions

1925
1926 VI.F.4.a) In rare circumstances, after handing off all other
1927 responsibilities, a fellow, on their own initiative, may elect to
1928 remain or return to the clinical site in the following
1929 circumstances:

1930
1931 VI.F.4.a).(1) to continue to provide care to a single severely ill or
1932 unstable patient; (Detail)

1933
1934 VI.F.4.a).(2) humanistic attention to the needs of a patient or
1935 family; or, (Detail)

1936
1937 VI.F.4.a).(3) to attend unique educational events. (Detail)

1938
1939 VI.F.4.b) These additional hours of care or education will be counted
1940 toward the 80-hour weekly limit. (Detail)
1941

Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

1942
1943 VI.F.4.c) A Review Committee may grant rotation-specific exceptions
1944 for up to 10 percent or a maximum of 88 clinical and
1945 educational work hours to individual programs based on a
1946 sound educational rationale.

1947
1948 The Review Committee will not consider requests for exceptions
1949 to the 80-hour weekly limit. (Detail)

1950
 1951 **VI.F.5. Moonlighting**
 1952
 1953 **VI.F.5.a) Moonlighting must not interfere with the ability of the fellow**
 1954 **to achieve the goals and objectives of the educational**
 1955 **program, and must not interfere with the fellow's fitness for**
 1956 **work nor compromise patient safety. (Core)**
 1957
 1958 **VI.F.5.a).(1) External moonlighting is allowed at the program director's**
 1959 **discretion.**
 1960
 1961 **VI.F.5.b) Time spent by fellows in internal and external moonlighting**
 1962 **(as defined in the ACGME Glossary of Terms) must be**
 1963 **counted toward the 80-hour maximum weekly limit. (Core)**
 1964

Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

1965
 1966 **VI.F.6. In-House Night Float**
 1967
 1968 **Night float must occur within the context of the 80-hour and one-**
 1969 **day-off-in-seven requirements. (Core)**
 1970

Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

1971
 1972 **VI.F.7. Maximum In-House On-Call Frequency**
 1973
 1974 **Fellows must be scheduled for in-house call no more frequently than**
 1975 **every third night (when averaged over a four-week period). (Core)**
 1976
 1977 **VI.F.8. At-Home Call**
 1978
 1979 **VI.F.8.a) Time spent on patient care activities by fellows on at-home**
 1980 **call must count toward the 80-hour maximum weekly limit.**
 1981 **The frequency of at-home call is not subject to the every-**
 1982 **third-night limitation, but must satisfy the requirement for one**
 1983 **day in seven free of clinical work and education, when**
 1984 **averaged over four weeks. (Core)**
 1985
 1986 **VI.F.8.a).(1) At-home call must not be so frequent or taxing as to**
 1987 **preclude rest or reasonable personal time for each**
 1988 **fellow. (Core)**
 1989
 1990 **VI.F.8.b) Fellows are permitted to return to the hospital while on at-**
 1991 **home call to provide direct care for new or established**
 1992 **patients. These hours of inpatient patient care must be**
 1993 **included in the 80-hour maximum weekly limit. (Detail)**
 1994

Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.

***Core Requirements:** Statements that define structure, resource, or process elements essential to every graduate medical educational program.

†Detail Requirements: Statements that describe a specific structure, resource, or process, for achieving compliance with a Core Requirement. Programs and sponsoring institutions in substantial compliance with the Outcome Requirements may utilize alternative or innovative approaches to meet Core Requirements.

‡Outcome Requirements: Statements that specify expected measurable or observable attributes (knowledge, abilities, skills, or attitudes) of residents or fellows at key stages of their graduate medical education.

Osteopathic Recognition

For programs with or applying for Osteopathic Recognition, the Osteopathic Recognition Requirements also apply (www.acgme.org/OsteopathicRecognition).
