6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.

9  
10 **Introduction**

11  
12 **Int.A. Residency and fellowship programs are essential dimensions of the**  
13 **transformation of the medical student to the independent practitioner along**  
14 **the continuum of medical education. They are physically, emotionally, and**  
15 **intellectually demanding, and require longitudinally-concentrated effort on**  
16 **the part of the resident or fellow.**

17  
18 **The specialty education of physicians to practice independently is**  
19 **experiential, and necessarily occurs within the context of the health care**  
20 **delivery system. Developing the skills, knowledge, and attitudes leading to**  
21 **proficiency in all the domains of clinical competency requires the resident**  
22 **and fellow physician to assume personal responsibility for the care of**  
23 **individual patients. For the resident and fellow, the essential learning**  
24 **activity is interaction with patients under the guidance and supervision of**  
25 **faculty members who give value, context, and meaning to those**  
26 **interactions. As residents and fellows gain experience and demonstrate**  
27 **growth in their ability to care for patients, they assume roles that permit**  
28 **them to exercise those skills with greater independence. This concept--**  
29 **graded and progressive responsibility--is one of the core tenets of**  
30 **American graduate medical education. Supervision in the setting of**  
31 **graduate medical education has the goals of assuring the provision of safe**  
32 **and effective care to the individual patient; assuring each resident's and**  
33 **fellow's development of the skills, knowledge, and attitudes required to**  
34 **enter the unsupervised practice of medicine; and establishing a foundation**  
35 **for continued professional growth.**

36  
37 **Int.B. A surgical oncologist is a well-qualified surgeon who has obtained additional**  
38 **education and experience in the multidisciplinary approach to the prevention,**  
39 **diagnosis, treatment, and rehabilitation of cancer patients, and who devotes a**  
40 **major portion of his or her professional practice to these activities and to cancer**  
41 **research. Surgical oncologists interact with other oncologic disciplines and**  
42 **provide leadership to the surgical, medical, and lay communities in matters**  
43 **pertaining to cancer.**

44  
45 **Int.C. The educational program in complex general surgical oncology must be 24**  
46 **months in length. (Core)\***

47  
48 **I. Institutions**

49  
50 **I.A. Sponsoring Institution**  
51

52 **One sponsoring institution must assume ultimate responsibility for the**  
53 **program, as described in the Institutional Requirements, and this**  
54 **responsibility extends to fellow assignments at all participating sites.** (Core)  
55

56 **The sponsoring institution and the program must ensure that the program**  
57 **director has sufficient protected time and financial support for his or her**  
58 **educational and administrative responsibilities to the program.** (Core)  
59

60 ~~I.A.1. The complex general surgical oncology program must be affiliated with an~~  
61 ~~ACGME-accredited general surgery program. Sponsorship of the~~  
62 ~~program must be in compliance with the policy detailed in section 15.00 of~~  
63 ~~the ACGME Manual of Policies and Procedures.~~ (Core)  
64

65 I.A.2. The complex general surgical oncology program must be affiliated with an  
66 ACGME-accredited medical oncology program. (Core)  
67

## 68 **I.B. Participating Sites**

69  
70 **I.B.1. There must be a program letter of agreement (PLA) between the**  
71 **program and each participating site providing a required**  
72 **assignment. The PLA must be renewed at least every five years.** (Core)  
73

74 **The PLA should:**

75  
76 **I.B.1.a) identify the faculty who will assume both educational and**  
77 **supervisory responsibilities for fellows;** (Detail)  
78

79 **I.B.1.b) specify their responsibilities for teaching, supervision, and**  
80 **formal evaluation of fellows, as specified later in this**  
81 **document;** (Detail)  
82

83 **I.B.1.c) specify the duration and content of the educational**  
84 **experience; and,** (Detail)  
85

86 **I.B.1.d) state the policies and procedures that will govern fellow**  
87 **education during the assignment.** (Detail)  
88

89 **I.B.2. The program director must submit any additions or deletions of**  
90 **participating sites routinely providing an educational experience,**  
91 **required for all fellows, of one month full time equivalent (FTE) or**  
92 **more through the Accreditation Council for Graduate Medical**  
93 **Education (ACGME) Accreditation Data System (ADS).** (Core)  
94

95 I.B.3. Sites that are integrated with the sponsoring institution must have an  
96 integration agreement specifying that the program director must: (Detail)  
97

98 I.B.3.a) appoint the members of the faculty at the integrated site; (Detail)  
99

100 I.B.3.b) appoint the chief or director of the teaching service at the  
101 integrated site; (Detail)

104  
105 I.B.3.d) determine all rotations and assignments for both fellows and  
106 faculty supervisors. <sup>(Detail)</sup>  
107  
108 I.B.4. Integrated sites should be in close geographic proximity to allow all  
109 fellows to attend joint conferences, basic science lectures, and morbidity  
110 and mortality reviews regularly and in a central location. <sup>(Detail)</sup>  
111  
112 I.B.5. The Review Committee must approve all integrated sites in advance.
