A new set of One-Year Fellowship Common Program Requirements, closely aligned with the Common Program Requirements (Fellowship), has been developed. Review Committees are currently meeting to make decisions as to which version each one-year subspecialty will use (One-Year Fellowship Common Program Requirements or Common Program Requirements (Fellowship)). Additionally, several two-year subspecialties currently use the One-Year Common Program Requirements and are eligible to be grandfathered in to use the One-Year Fellowship Common Program Requirements.

This table will be updated as Review Committees make their decisions. All decisions will be finalized no later than May 1, 2019. The One-Year Fellowship Common Program Requirements will be effective July 1, 2019.
