### ACGME Program Requirements for Graduate Medical Education in Nephrology

#### Summary and Impact of Focused Requirement Revisions

<table>
<thead>
<tr>
<th>Requirement: II.B.4.c)-d)</th>
<th>Requirement Revision (significant change only):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>In addition to the program director, there must be at least two core faculty members certified in nephrology by the ABIM or the AOBIM. <em>(Core)</em></td>
</tr>
<tr>
<td></td>
<td>For programs approved for more than four fellows, there must be at least one core faculty member certified in nephrology by the ABIM or the AOBIM for every 1.5 fellows. <em>(Core)</em></td>
</tr>
</tbody>
</table>

1. Describe the Review Committee’s rationale for this revision:

   The Committee is supplementing the “Core Faculty” section of the Common Program Requirements with its long-standing requirements that there be a minimum number of faculty members who are certified in the subspecialty.

2. How will the proposed requirement or revision improve resident/fellow education, patient safety, and/or patient care quality?

   This will not affect resident/fellow education, patient safety, and/or patient care quality.

3. How will the proposed requirement or revision impact continuity of patient care?

   This will not affect continuity of patient care.

4. Will the proposed requirement or revision necessitate additional institutional resources (e.g., facilities, organization of other services, addition of faculty members, financial support; volume and variety of patients), if so, how?

   This will not necessitate additional institutional resources.

5. How will the proposed revision impact other accredited programs?

   This will not affect other accredited programs.
