

Accessing the ACGME Resident/Fellow Survey

Follow the steps below to access the ACGME Resident/Fellow Survey. Programs are responsible for informing residents/fellows they are scheduled to participate in this survey; the ACGME itself does not notify residents/fellows. Not all programs are scheduled to participate at the same time; scheduling is staggered between January and April of each academic year.

- 1. The Resident/Fellow Survey can be accessed on a mobile device or computer through a secure link emailed to the resident/fellow by the program.**
 - Be advised that all ACGME data systems support updated versions of the following Internet browsers: Mozilla Firefox, Google Chrome, Apple Safari, Microsoft Edge, or Internet Explorer (*Version 11 and above*).
- 2. Access the survey via the secure link sent from donotreply@acgme.org.**
 - Programs are responsible for sending initial notifications to their survey takers that contain the secure link to their individual survey. To receive an email reminder at any time during the survey window, use the [Receive Survey Reminder](https://www.acgme.org/Surveys/Security/ForgotLogin) (<https://www.acgme.org/Surveys/Security/ForgotLogin>) feature. Survey takers will be prompted to enter the email address on file within their current program and the 10-digit ACGME program code.
- 3. All deadlines are final. Access to the survey will close once the deadline has passed. No submissions will be accepted after the survey window closes.**

Email questions, comments, or concerns about the ACGME Resident/Fellow Survey to ResSurvey@acgme.org.
