1                    **ACGME Program Requirements for Graduate Medical Education**  
2                    **in Pediatric Anesthesiology**

3  
4                    **Common Program Requirements (Fellowship) are in BOLD**

5  
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.  
9

**Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

10  
11 **Introduction**

12  
13 **Int.A.**        *Fellowship is advanced graduate medical education beyond a core*  
14 *residency program for physicians who desire to enter more specialized*  
15 *practice. Fellowship-trained physicians serve the public by providing*  
16 *subspecialty care, which may also include core medical care, acting as a*  
17 *community resource for expertise in their field, creating and integrating*  
18 *new knowledge into practice, and educating future generations of*  
19 *physicians. Graduate medical education values the strength that a diverse*  
20 *group of physicians brings to medical care.*

21  
22 *Fellows who have completed residency are able to practice independently*  
23 *in their core specialty. The prior medical experience and expertise of*  
24 *fellows distinguish them from physicians entering into residency training.*  
25 *The fellow's care of patients within the subspecialty is undertaken with*  
26 *appropriate faculty supervision and conditional independence. Faculty*  
27 *members serve as role models of excellence, compassion,*  
28 *professionalism, and scholarship. The fellow develops deep medical*  
29 *knowledge, patient care skills, and expertise applicable to their focused*  
30 *area of practice. Fellowship is an intensive program of subspecialty clinical*  
31 *and didactic education that focuses on the multidisciplinary care of*  
32 *patients. Fellowship education is often physically, emotionally, and*  
33 *intellectually demanding, and occurs in a variety of clinical learning*  
34 *environments committed to graduate medical education and the well-being*  
35 *of patients, residents, fellows, faculty members, students, and all members*  
36 *of the health care team.*

37  
38 *In addition to clinical education, many fellowship programs advance*  
39 *fellows' skills as physician-scientists. While the ability to create new*  
40 *knowledge within medicine is not exclusive to fellowship-educated*  
41 *physicians, the fellowship experience expands a physician's abilities to*  
42 *pursue hypothesis-driven scientific inquiry that results in contributions to*  
43 *the medical literature and patient care. Beyond the clinical subspecialty*  
44 *expertise achieved, fellows develop mentored relationships built on an*  
45 *infrastructure that promotes collaborative research.*

46  
47 **Int.B.**        **Definition of Subspecialty**

48 Pediatric anesthesiology involves caring for pediatric patients in the operating  
49 rooms and other anesthetizing locations, the post-operative anesthesia care unit,  
50 and in intensive care units. Clinical education experiences include providing  
51 anesthesia both for inpatient and outpatient surgical procedures, and for non-  
52 operative procedures outside the operating rooms, as well as pre-anesthesia  
53 preparation and post-anesthesia care, pain management, and advanced life  
54 support for neonates, infants, children, and adolescents.  
55

56  
57 **Int.C. Length of Educational Program**

58  
59 The educational program in pediatric anesthesiology must be 12 months in  
60 length. <sup>(Core)\*</sup>

61  
62 **I. Oversight**

63  
64 **I.A. Sponsoring Institution**

65  
66 *The Sponsoring Institution is the organization or entity that assumes the*  
67 *ultimate financial and academic responsibility for a program of graduate*  
68 *medical education consistent with the ACGME Institutional Requirements.*

69  
70 *When the Sponsoring Institution is not a rotation site for the program, the*  
71 *most commonly utilized site of clinical activity for the program is the*  
72 *primary clinical site.*  
73

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

74  
75 **I.A.1. The program must be sponsored by one ACGME-accredited**  
76 **Sponsoring Institution. <sup>(Core)</sup>**

77  
78 **I.B. Participating Sites**

79  
80 *A participating site is an organization providing educational experiences or*  
81 *educational assignments/rotations for fellows.*

82  
83 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
84 **designate a primary clinical site. <sup>(Core)</sup>**

85  
86 **I.B.1.a)** The primary clinical site must be either a general hospital or a  
87 children's hospital. <sup>(Core)</sup>

88  
89 **I.B.1.b)** The program should be sponsored by an institution that also

sponsors an Accreditation Council for Graduate Medical Education (ACGME)-accredited residency in anesthesiology. (Core)

**I.B.2.** There must be a program letter of agreement (PLA) between the program and each participating site that governs the relationship between the program and the participating site providing a required assignment. (Core)

**I.B.2.a)** The PLA must:

**I.B.2.a).(1)** be renewed at least every 10 years; and, (Core)

**I.B.2.a).(2)** be approved by the designated institutional official (DIO). (Core)

**I.B.3.** The program must monitor the clinical learning and working environment at all participating sites. (Core)

**I.B.3.a)** At each participating site there must be one faculty member, designated by the program director, who is accountable for fellow education for that site, in collaboration with the program director. (Core)

**Background and Intent:** While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- Identifying the faculty members who will assume educational and supervisory responsibility for fellows
- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

**I.B.4.** The program director must submit any additions or deletions of participating sites routinely providing an educational experience, required for all fellows, of one month full time equivalent (FTE) or more through the ACGME's Accreditation Data System (ADS). (Core)

119 **I.C.**            **The program, in partnership with its Sponsoring Institution, must engage in**  
120 **practices that focus on mission-driven, ongoing, systematic recruitment**  
121 **and retention of a diverse and inclusive workforce of residents (if present),**  
122 **fellows, faculty members, senior administrative staff members, and other**  
123 **relevant members of its academic community.** <sup>(Core)</sup>  
124

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

125  
126 **I.D.**            **Resources**

127  
128 **I.D.1.**            **The program, in partnership with its Sponsoring Institution, must**  
129 **ensure the availability of adequate resources for fellow education.**  
130 <sup>(Core)</sup>

131  
132 I.D.1.a)                            The program must have the following resources and facilities:

133  
134 I.D.1.a).(1)                            neonatal and pediatric intensive care units; <sup>(Core)</sup>

135  
136 I.D.1.a).(2)                            an emergency department in which children of all ages can  
137 be effectively managed 24 hours a day; <sup>(Core)</sup>

138  
139 I.D.1.a).(3)                            operating rooms designed and equipped for the  
140 management of pediatric patients; <sup>(Core)</sup>

141  
142 I.D.1.a).(4)                            post-anesthesia care area designed and equipped for the  
143 management of pediatric patients; <sup>(Core)</sup>

144  
145 I.D.1.a).(5)                            monitoring and advanced life-support equipment  
146 representative of current levels of technology; <sup>(Core)</sup>

147  
148 I.D.1.a).(6)                            clinical services that provide prompt laboratory results  
149 pertinent to the care of pediatric patients, including blood  
150 chemistries, blood gases and pH, oxygen saturation,  
151 hematocrit/hemoglobin, and clotting function; and, <sup>(Core)</sup>

152  
153 I.D.1.a).(7)                            prompt access to consultation with other disciplines,  
154 including pediatric subspecialties of cardiology, critical  
155 care, emergency medicine, neonatology, neurology,  
156 pulmonology, radiology, and surgical fields. <sup>(Core)</sup>

157  
158 **I.D.2.**            **The program, in partnership with its Sponsoring Institution, must**  
159 **ensure healthy and safe learning and working environments that**  
160 **promote fellow well-being and provide for:** <sup>(Core)</sup>

161  
162 **I.D.2.a)**                            **access to food while on duty;** <sup>(Core)</sup>  
163

164 I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available  
165 and accessible for fellows with proximity appropriate for safe  
166 patient care; (Core)  
167

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.**

168 I.D.2.c) clean and private facilities for lactation that have refrigeration  
169 capabilities, with proximity appropriate for safe patient care;  
170 (Core)  
171  
172

**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).**

173 I.D.2.d) security and safety measures appropriate to the participating  
174 site; and, (Core)  
175  
176

177 I.D.2.e) accommodations for fellows with disabilities consistent with  
178 the Sponsoring Institution's policy. (Core)  
179

180 I.D.3. Fellows must have ready access to subspecialty-specific and other  
181 appropriate reference material in print or electronic format. This  
182 must include access to electronic medical literature databases with  
183 full text capabilities. (Core)  
184

185 I.D.4. The program's educational and clinical resources must be adequate  
186 to support the number of fellows appointed to the program. (Core)  
187

188 I.E. *A fellowship program usually occurs in the context of many learners and  
189 other care providers and limited clinical resources. It should be structured  
190 to optimize education for all learners present.*  
191

192 I.E.1. Fellows should contribute to the education of residents in core  
193 programs, if present. (Core)  
194

195 I.E.2. The presence of other learners or staff members must not interfere with  
196 the appointed fellows' education. (Core)  
197

**Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.**

198

200  
201  
202  
203  
204  
205  
206  
207  
208  
209  
210  
211  
212  
213

**II. Personnel**

**II.A. Program Director**

**II.A.1. There must be one faculty member appointed as program director with authority and accountability for the overall program, including compliance with all applicable program requirements. (Core)**

**II.A.1.a) The Sponsoring Institution's Graduate Medical Education Committee (GMEC) must approve a change in program director. (Core)**

**II.A.1.b) Final approval of the program director resides with the Review Committee. (Core)**

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and made responsible for the program. This individual will have dedicated time for the leadership of the fellowship, and it is this individual's responsibility to communicate with the fellows, faculty members, DIO, GMEC, and the ACGME. The program director's nomination is reviewed and approved by the GMEC. Final approval of program directors resides with the Review Committee.**

218  
219  
220  
221  
222  
223

**II.A.2. The program director must be provided with support adequate for administration of the program based upon its size and configuration. (Core)**

**II.A.2.a) At a minimum, the program director must be provided with the salary support required to devote 10 percent FTE of non-clinical time to the administration of the program. Additional support must be provided based on program size as follows: (Core)**

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE</u>
<u>1-2</u>	<u>0.1</u>
<u>3</u>	<u>0.125</u>
<u>4</u>	<u>0.15</u>
<u>5</u>	<u>0.175</u>
<u>&gt;5</u>	<u>0.2</u>

224

**Background and Intent: Ten percent FTE is defined as one half day per week.**

**“Administrative time” is defined as non-clinical time spent meeting the responsibilities of the program director as detailed in requirements II.A.4.-II.A.4.a).(16).**

**The requirement does not address the source of funding required to provide the specified salary support.**

261  
262  
263

**II.A.3. Qualifications of the program director:**

**II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; <sup>(Core)</sup>**

**II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Anesthesiology or by the American Osteopathic Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; <sup>(Core)</sup>**

**II.A.3.c) must include ~~have~~ at least three years of post-fellowship experience in pediatric anesthesiology; <sup>(Detail)†</sup>**

**II.A.3.d) must include ~~have~~ current appointment as a member of the anesthesiology faculty at the primary clinical site; ~~and~~, <sup>(Core)</sup>**

**II.A.3.e) must include ~~demonstration of~~ ongoing academic achievements appropriate to ~~pediatric anesthesiology~~ the subspecialty, including publications, the development of educational programs, or the conduct of research; and, <sup>(Core)</sup>**

**II.A.3.f) must include devotion of at least 50 percent of the program director’s clinical, educational, administrative, and academic time to pediatric anesthesiology. <sup>(Core)</sup>**

**II.A.4. Program Director Responsibilities**

**The program director must have responsibility, authority, and accountability for: administration and operations; teaching and scholarly activity; fellow recruitment and selection, evaluation, and promotion of fellows, and disciplinary action; supervision of fellows; and fellow education in the context of patient care. <sup>(Core)</sup>**

**II.A.4.a) The program director must:**

**II.A.4.a).(1) be a role model of professionalism; <sup>(Core)</sup>**

**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program**

director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

264  
265  
266  
267  
268  
269

- II.A.4.a).(2) design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; <sup>(Core)</sup>

**Background and Intent:** The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

270  
271  
272  
273  
274

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; <sup>(Core)</sup>

**Background and Intent:** The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

275  
276  
277  
278  
279  
280  
281  
282  
283  
284  
285  
286  
287  
288  
289  
290  
291  
292

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; <sup>(Core)</sup>

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; <sup>(Core)</sup>

**Background and Intent:** The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

- 293  
294 **II.A.4.a).(8)** submit accurate and complete information required  
295 and requested by the DIO, GMEC, and ACGME; <sup>(Core)</sup>  
296  
297 **II.A.4.a).(9)** provide applicants who are offered an interview with  
298 information related to the applicant's eligibility for the  
299 relevant subspecialty board examination(s); <sup>(Core)</sup>  
300  
301 **II.A.4.a).(10)** provide a learning and working environment in which  
302 fellows have the opportunity to raise concerns and  
303 provide feedback in a confidential manner as  
304 appropriate, without fear of intimidation or retaliation;  
305 <sup>(Core)</sup>  
306  
307 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring  
308 Institution's policies and procedures related to  
309 grievances and due process; <sup>(Core)</sup>  
310  
311 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring  
312 Institution's policies and procedures for due process  
313 when action is taken to suspend or dismiss, not to  
314 promote, or not to renew the appointment of a fellow;  
315 <sup>(Core)</sup>  
316

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.**

- 317  
318 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring  
319 Institution's policies and procedures on employment  
320 and non-discrimination; <sup>(Core)</sup>  
321  
322 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-  
323 competition guarantee or restrictive covenant.  
324 <sup>(Core)</sup>  
325  
326 **II.A.4.a).(14)** document verification of program completion for all  
327 graduating fellows within 30 days; <sup>(Core)</sup>  
328  
329 **II.A.4.a).(15)** provide verification of an individual fellow's  
330 completion upon the fellow's request, within 30 days;  
331 and, <sup>(Core)</sup>  
332

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

333

334 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
335 Institution’s DIO before submitting information or  
336 requests to the ACGME, as required in the Institutional  
337 Requirements and outlined in the ACGME Program  
338 Director’s Guide to the Common Program  
339 Requirements. <sup>(Core)</sup>  
340

341 **II.B. Faculty**

342  
343 *Faculty members are a foundational element of graduate medical education*  
344 *– faculty members teach fellows how to care for patients. Faculty members*  
345 *provide an important bridge allowing fellows to grow and become practice*  
346 *ready, ensuring that patients receive the highest quality of care. They are*  
347 *role models for future generations of physicians by demonstrating*  
348 *compassion, commitment to excellence in teaching and patient care,*  
349 *professionalism, and a dedication to lifelong learning. Faculty members*  
350 *experience the pride and joy of fostering the growth and development of*  
351 *future colleagues. The care they provide is enhanced by the opportunity to*  
352 *teach. By employing a scholarly approach to patient care, faculty members,*  
353 *through the graduate medical education system, improve the health of the*  
354 *individual and the population.*

355  
356 *Faculty members ensure that patients receive the level of care expected*  
357 *from a specialist in the field. They recognize and respond to the needs of*  
358 *the patients, fellows, community, and institution. Faculty members provide*  
359 *appropriate levels of supervision to promote patient safety. Faculty*  
360 *members create an effective learning environment by acting in a*  
361 *professional manner and attending to the well-being of the fellows and*  
362 *themselves.*  
363

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment or salary support.**

364  
365 **II.B.1. For each participating site, there must be a sufficient number of**  
366 **faculty members with competence to instruct and supervise all**  
367 **fellows at that location. <sup>(Core)</sup>**  
368

369 **II.B.1.a)** The faculty must include at least one individual who is certified in  
370 critical care medicine by a member board of the ABMS or AOA  
371 and practices in an intensive care unit (ICU) that cares for  
372 pediatric surgical patients. <sup>(Core)</sup>  
373

374 **II.B.1.b)** Faculty members certified in critical care medicine by a member  
375 board of the ABMS or AOA must be available for consultation and  
376 collaborative management of critically-ill patients. <sup>(Core)</sup>  
377

378 **II.B.2. Faculty members must:**

379  
380 **II.B.2.a) be role models of professionalism; <sup>(Core)</sup>**  
381

382 **II.B.2.b)** demonstrate commitment to the delivery of safe, quality,  
383 cost-effective, patient-centered care; <sup>(Core)</sup>  
384

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

385  
386 **II.B.2.c)** demonstrate a strong interest in the education of fellows; <sup>(Core)</sup>  
387

388 **II.B.2.d)** devote sufficient time to the educational program to fulfill  
389 their supervisory and teaching responsibilities; <sup>(Core)</sup>  
390

391 **II.B.2.e)** administer and maintain an educational environment  
392 conducive to educating fellows; <sup>(Core)</sup>  
393

394 **II.B.2.f)** regularly participate in organized clinical discussions,  
395 rounds, journal clubs, and conferences; and, <sup>(Core)</sup>  
396

397 **II.B.2.g)** pursue faculty development designed to enhance their skills  
398 at least annually. <sup>(Core)</sup>  
399

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

400  
401 **II.B.3.** Faculty Qualifications  
402

403 **II.B.3.a)** Faculty members must have appropriate qualifications in  
404 their field and hold appropriate institutional appointments.  
405 <sup>(Core)</sup>  
406

407 **II.B.3.b)** Subspecialty physician faculty members must:  
408

409 **II.B.3.b).(1)** have current certification in the subspecialty by the  
410 American Board of Anesthesiology or the American  
411 Osteopathic Board of Anesthesiology, or possess  
412 qualifications judged acceptable to the Review  
413 Committee. <sup>(Core)</sup>  
414

415 ~~II.B.3.b).(2)~~ ~~have post-residency experience or fellowship education in~~  
416 ~~pediatric anesthesiology.~~ <sup>(Core)</sup>  
417

418 **II.B.3.c)** Any non-physician faculty members who participate in  
419 fellowship program education must be approved by the  
420 program director. <sup>(Core)</sup>

421

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

422  
423  
424  
425  
426  
427  
428  
429  
430  
431  
432  
433  
434  
435  
436  
437

**II.B.3.d) Any other specialty physician faculty members must have current certification in their specialty by the appropriate American Board of Medical Specialties (ABMS) member board or American Osteopathic Association (AOA) certifying board, or possess qualifications judged acceptable to the Review Committee. (Core)**

**II.B.4. Core Faculty**

**Core faculty members must have a significant role in the education and supervision of fellows and must devote a significant portion of their entire effort to fellow education and/or administration, and must, as a component of their activities, teach, evaluate, and provide formative feedback to fellows. (Core)**

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum and in assessing fellows' progress toward achievement of competence in the subspecialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program, including completion of the annual ACGME Faculty Survey.**

438  
439  
440  
441  
442  
443  
444  
445  
446  
447  
448  
449  
450  
451  
452  
453  
454  
455  
456  
457

**II.B.4.a) Core faculty members must be designated by the program director. (Core)**

**II.B.4.b) Core faculty members must complete the annual ACGME Faculty Survey. (Core)**

**II.B.4.c) There must be at least three core physician program-faculty members, including the program director. (Core)**

**II.B.4.c).(1) For programs with four or more fellows, a ratio of at least one faculty member to one fellow must be maintained. (Core)**

**II.C. Program Coordinator**

**II.C.1. There must be a program coordinator. (Core)**

**II.C.2. The program coordinator must be provided with support adequate for administration of the program based upon its size and configuration. (Core)**

458  
459 II.C.2.a)  
460  
461  
462

At a minimum, the program coordinator must be supported at 20 percent FTE for administration of the program. Additional support must be provided based on program size as follows: <sup>(Core)</sup>

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE Coordinator(s) Required</u>
<u>2</u>	<u>0.22</u>
<u>3</u>	<u>0.24</u>
<u>4</u>	<u>0.26</u>
<u>5</u>	<u>0.28</u>
<u>6</u>	<u>0.30</u>
<u>7</u>	<u>0.32</u>
<u>8</u>	<u>0.34</u>
<u>9</u>	<u>0.36</u>
<u>10</u>	<u>0.38</u>
<u>11</u>	<u>0.40</u>
<u>12</u>	<u>0.42</u>
<u>13</u>	<u>0.44</u>
<u>&gt;13</u>	<u>Additional 0.02 FTE per fellow</u>

463

**Background and Intent: Twenty percent FTE is defined as one day per week.**

**The requirement does not address the source of funding required to provide the specified salary support.**

**Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison with learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

**The program coordinator is a member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management. Program coordinators are expected to develop unique knowledge of the ACGME and Program Requirements, policies, and procedures. Program coordinators assist the program director in accreditation efforts, educational programming, and support of fellows.**

**Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.**

481  
482

**II.D. Other Program Personnel**

The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>

- II.D.1. Individuals with special training and/or experience in pediatric critical care, congenital cardiac disease, and acute and chronic pain in children must be available. <sup>(Core)</sup>
- II.D.2. Health care personnel, such as advanced practice nurses, pharmacists, and psychologists experienced with pediatric patients, if available, must participate in the care of patients to optimize the multidisciplinary nature of the program. <sup>(Core)</sup>
- II.D.3. ~~Allied health staff members and other support personnel with appropriate subspecialty expertise must be available to support the program.~~ <sup>(Detail)</sup>

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

495  
496  
497  
498

**III. Fellow Appointments**

**III.A. Eligibility Criteria**

**III.A.1. Eligibility Requirements – Fellowship Programs**

All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada.

<sup>(Core)</sup>

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

499  
500  
501  
502  
503  
504

- III.A.1.a) Fellowship programs must receive verification of each entering fellow's level of competence in the required field, upon matriculation, using ACGME, ACGME-I, or CanMEDS Milestones evaluations from the core residency program. <sup>(Core)</sup>

- 505 III.A.1.b) Prior to appointment in the program, fellows must have  
 506 successfully completed a residency in anesthesiology that  
 507 satisfies the requirements in III.A.1. (Core)  
 508
- 509 III.A.1.c) **Fellow Eligibility Exception**  
 510  
 511 **The Review Committee for Anesthesiology will allow the**  
 512 **following exception to the fellowship eligibility requirements:**  
 513
- 514 III.A.1.c).(1) **An ACGME-accredited fellowship program may accept**  
 515 **an exceptionally qualified international graduate**  
 516 **applicant who does not satisfy the eligibility**  
 517 **requirements listed in III.A.1., but who does meet all of**  
 518 **the following additional qualifications and conditions:**  
 519 (Core)  
 520
- 521 III.A.1.c).(1).(a) **evaluation by the program director and**  
 522 **fellowship selection committee of the**  
 523 **applicant’s suitability to enter the program,**  
 524 **based on prior training and review of the**  
 525 **summative evaluations of training in the core**  
 526 **specialty; and, (Core)**  
 527
- 528 III.A.1.c).(1).(b) **review and approval of the applicant’s**  
 529 **exceptional qualifications by the GMEC; and,**  
 530 (Core)  
 531
- 532 III.A.1.c).(1).(c) **verification of Educational Commission for**  
 533 **Foreign Medical Graduates (ECFMG)**  
 534 **certification. (Core)**  
 535
- 536 III.A.1.c).(2) **Applicants accepted through this exception must have**  
 537 **an evaluation of their performance by the Clinical**  
 538 **Competency Committee within 12 weeks of**  
 539 **matriculation. (Core)**  
 540

**Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed**

as per policies for fellows already established by the program in partnership with the Sponsoring Institution.

541  
542 **III.B. The program director must not appoint more fellows than approved by the**  
543 **Review Committee. (Core)**  
544

545 **III.B.1. All complement increases must be approved by the Review**  
546 **Committee. (Core)**  
547

548 **III.C. Fellow Transfers**  
549

550 **The program must obtain verification of previous educational experiences**  
551 **and a summative competency-based performance evaluation prior to**  
552 **acceptance of a transferring fellow, and Milestones evaluations upon**  
553 **matriculation. (Core)**  
554

555 **IV. Educational Program**  
556

557 ***The ACGME accreditation system is designed to encourage excellence and***  
558 ***innovation in graduate medical education regardless of the organizational***  
559 ***affiliation, size, or location of the program.***  
560

561 ***The educational program must support the development of knowledgeable, skillful***  
562 ***physicians who provide compassionate care.***  
563

564 ***In addition, the program is expected to define its specific program aims consistent***  
565 ***with the overall mission of its Sponsoring Institution, the needs of the community***  
566 ***it serves and that its graduates will serve, and the distinctive capabilities of***  
567 ***physicians it intends to graduate. While programs must demonstrate substantial***  
568 ***compliance with the Common and subspecialty-specific Program Requirements, it***  
569 ***is recognized that within this framework, programs may place different emphasis***  
570 ***on research, leadership, public health, etc. It is expected that the program aims***  
571 ***will reflect the nuanced program-specific goals for it and its graduates; for***  
572 ***example, it is expected that a program aiming to prepare physician-scientists will***  
573 ***have a different curriculum from one focusing on community health.***  
574

575 **IV.A. The curriculum must contain the following educational components: (Core)**  
576

577 **IV.A.1. a set of program aims consistent with the Sponsoring Institution's**  
578 **mission, the needs of the community it serves, and the desired**  
579 **distinctive capabilities of its graduates; (Core)**  
580

581 **IV.A.1.a) The program's aims must be made available to program**  
582 **applicants, fellows, and faculty members. (Core)**  
583

584 **IV.A.2. competency-based goals and objectives for each educational**  
585 **experience designed to promote progress on a trajectory to**  
586 **autonomous practice in their subspecialty. These must be**  
587 **distributed, reviewed, and available to fellows and faculty members;**  
588 **(Core)**  
589

590 IV.A.3. delineation of fellow responsibilities for patient care, progressive  
591 responsibility for patient management, and graded supervision in  
592 their subspecialty; <sup>(Core)</sup>  
593

**Background and Intent:** These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

594  
595 IV.A.4. structured educational activities beyond direct patient care; and,  
596 <sup>(Core)</sup>  
597

**Background and Intent:** Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

598  
599 IV.A.5. advancement of fellows' knowledge of ethical principles  
600 foundational to medical professionalism. <sup>(Core)</sup>  
601

602 IV.B. ACGME Competencies  
603

**Background and Intent:** The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

604  
605 IV.B.1. The program must integrate the following ACGME Competencies  
606 into the curriculum: <sup>(Core)</sup>  
607

608 IV.B.1.a) Professionalism

609  
610 Fellows must demonstrate a commitment to professionalism  
611 and an adherence to ethical principles. <sup>(Core)</sup>  
612

613 IV.B.1.b) Patient Care and Procedural Skills  
614

**Background and Intent:** Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs. 2008; 27(3):759-769.*) In addition, there

**should be a focus on improving the clinician’s well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

615		
616	<b>IV.B.1.b).(1)</b>	<b>Fellows must be able to provide patient care that is</b>
617		<b>compassionate, appropriate, and effective for the</b>
618		<b>treatment of health problems and the promotion of</b>
619		<b>health.</b> <small>(Core)</small>
620		
621	IV.B.1.b).(1).(a)	Fellows must demonstrate the ability to provide
622		clinical consultation for both medical and surgical
623		pediatric patients under the direction of faculty
624		members, including assessment of the
625		appropriateness of a patient’s preparation for
626		surgery. <small>(Core)</small>
627		
628	IV.B.1.b).(1).(b)	Fellows must demonstrate competence in patient
629		management and peri-operative care of neonates,
630		infants, children, and adolescents, including: <small>(Core)</small>
631		
632	IV.B.1.b).(1).(b).(i)	pre-operative assessment; <small>(Core)</small>
633		
634	IV.B.1.b).(1).(b).(ii)	pharmacologic support of the circulation;
635		<small>(Core)</small>
636		
637	IV.B.1.b).(1).(b).(iii)	management of both normal peri-operative
638		fluid therapy and massive fluid and/or blood
639		loss; <small>(Core)</small>
640		
641	IV.B.1.b).(1).(b).(iv)	interpretation of laboratory results; <small>(Core)</small>
642		
643	IV.B.1.b).(1).(b).(v)	post-anesthetic assessment and
644		management of routine and medically
645		challenging pediatric patients; <small>(Core)</small>
646		
647	IV.B.1.b).(1).(b).(vi)	recognition, prevention, and treatment of
648		pain in medical and surgical pediatric
649		patients; <small>(Core)</small>
650		
651	IV.B.1.b).(1).(b).(vii)	recognition and treatment of peri-operative
652		vital organ dysfunction, including in the
653		post-anesthesia care unit; <small>(Core)</small>
654		
655	IV.B.1.b).(1).(b).(viii)	diagnosis and peri-operative management
656		of congenital and acquired disorders; and,
657		<small>(Core)</small>
658		
659	IV.B.1.b).(1).(b).(ix)	participation in the care of critically-ill

660		pediatric patients in a neonatal and/or
661		pediatric intensive care unit. <sup>(Core)</sup>
662		
663	<b>IV.B.1.b).(2)</b>	<b>Fellows must be able to perform all medical,</b>
664		<b>diagnostic, and surgical procedures considered</b>
665		<b>essential for the area of practice.</b> <sup>(Core)</sup>
666		
667	IV.B.1.b).(2).(a)	Fellows must manage pediatric patients requiring
668		general anesthesia for elective and emergent
669		surgery for a wide variety of surgical conditions,
670		including neonatal surgical emergencies,
671		cardiopulmonary bypass, and congenital disorders,
672		including: <sup>(Core)</sup>
673		
674	IV.B.1.b).(2).(a).(i)	techniques for administering regional
675		anesthesia for inpatient and ambulatory
676		surgery; <sup>(Core)</sup>
677		
678	IV.B.1.b).(2).(a).(ii)	sedation or anesthesia outside the
679		operating rooms, including for those
680		patients undergoing procedures; <sup>(Core)</sup>
681		
682	IV.B.1.b).(2).(a).(iii)	cardiopulmonary resuscitation (CPR) and
683		advanced life support; <sup>(Core)</sup>
684		
685	IV.B.1.b).(2).(a).(iv)	management of normal and abnormal
686		airways; <sup>(Core)</sup>
687		
688	IV.B.1.b).(2).(a).(v)	mechanical ventilation; <sup>(Core)</sup>
689		
690	IV.B.1.b).(2).(a).(vi)	temperature regulation; and, <sup>(Core)</sup>
691		
692	IV.B.1.b).(2).(a).(vii)	placement of venous and arterial catheters.
693		<sup>(Core)</sup>
694		
695	IV.B.1.b).(2).(b)	Fellows must maintain certification as providers of
696		pediatric advanced life support (PALS). <sup>(Core)</sup>
697		
698	<b>IV.B.1.c)</b>	<b>Medical Knowledge</b>
699		
700		<b>Fellows must demonstrate knowledge of established and</b>
701		<b>evolving biomedical, clinical, epidemiological and social-</b>
702		<b>behavioral sciences, as well as the application of this</b>
703		<b>knowledge to patient care.</b> <sup>(Core)</sup>
704		
705	IV.B.1.c).(1)	Fellows must demonstrate knowledge of:
706		
707	IV.B.1.c).(1).(a)	neonatal physiology and pharmacology; <sup>(Core)</sup>
708		
709	IV.B.1.c).(1).(b)	effects of anesthetics on the developing brain; <sup>(Core)</sup>
710		

711	IV.B.1.c).(1).(c)	CPR; (Core)

**Practice-based Learning and Improvement**

**Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate**

761  
762  
763

scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning. <sup>(Core)</sup>

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

- IV.B.1.e) Interpersonal and Communication Skills**

Fellows must demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families, and health professionals. <sup>(Core)</sup>
- IV.B.1.f) Systems-based Practice**

Fellows must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the social determinants of health, as well as the ability to call effectively on other resources to provide optimal health care. <sup>(Core)</sup>
- IV.C. Curriculum Organization and Fellow Experiences**
  - IV.C.1. The curriculum must be structured to optimize fellow educational experiences, the length of these experiences, and supervisory continuity. <sup>(Core)</sup>**
    - Clinical experiences should be structured to facilitate learning in a manner that allows residents to function as part of an effective interprofessional team that works together longitudinally with shared goals of patient safety and quality improvement. <sup>(Core)</sup>
  - IV.C.2. The program must provide instruction and experience in pain management if applicable for the subspecialty, including recognition of the signs of addiction. <sup>(Core)</sup>**
  - IV.C.3. A minimum of nine months should be devoted to required clinical experiences. The remaining time may be spent engaging in research or on elective rotations. <sup>(Core)</sup>**
    - IV.C.3.a) The total time in rotations outside the primary clinical site should not exceed four months. <sup>(Detail)</sup>**
  - IV.C.4. The program must have a specialty-specific written policy regarding substance abuse. <sup>(Core)</sup>**

- 804  
805 IV.C.5. The program must prepare, review periodically, and, if necessary, revise  
806 a written outline of the educational goals of the program with respect to  
807 the knowledge, skills, and other attributes of fellows at each level of  
808 education, and for each major rotation or other program assignment; <sup>(Detail)</sup>  
809
- 810 IV.C.6. The curriculum must include a didactic program based upon the core  
811 knowledge content in the subspecialty area. <sup>(Core)</sup>  
812
- 813 IV.C.6.a) Conferences may include peer-review case conferences and/or  
814 morbidity and mortality conferences, multidisciplinary conferences,  
815 and departmental grand rounds. <sup>(Detail)</sup>  
816
- 817 IV.C.6.b) Multidisciplinary conferences and case presentations should  
818 involve faculty members from other specialties. <sup>(Detail)</sup>  
819
- 820 IV.C.6.c) Faculty members and fellows should be actively involved in  
821 planning and conducting conferences. <sup>(Detail)</sup>  
822
- 823 IV.C.7. The curriculum must be designed in order for fellows to demonstrate:  
824
- 825 IV.C.7.a) development of self-assessment and reflection skills and habits;  
826 <sup>(Outcome)(Core)</sup>  
827
- 828 IV.C.7.b) effective communication skills in acquisition of informed consent,  
829 description, and management of the patient care plan, and  
830 disclosure and management of complications/errors; <sup>(Outcome)(Core)</sup>  
831
- 832 IV.C.7.c) the ability to effectively teach other resident physicians, medical  
833 students, and other health care professionals the principles of  
834 pediatric anesthesiology, including management of patients  
835 requiring sedation outside the operating rooms, pain  
836 management, and life support; <sup>(Outcome)(Core)</sup>  
837
- 838 IV.C.7.d) competence in providing psychological support to patients and  
839 their families; and, <sup>(Outcome)(Core)</sup>  
840
- 841 IV.C.7.e) a commitment to carrying out professional responsibilities and an  
842 adherence to ethical principles. <sup>(Outcome)(Core)</sup>  
843
- 844 This must include:  
845
- 846 IV.C.7.e).(1) compassion, integrity, and respect for others; <sup>(Outcome)(Core)</sup>  
847
- 848 IV.C.7.e).(2) responsiveness to patient needs; <sup>(Outcome)(Core)</sup>  
849
- 850 IV.C.7.e).(3) respect for patient privacy and autonomy; <sup>(Outcome)(Core)</sup>  
851
- 852 IV.C.7.e).(4) accountability to patients, society, and the profession;  
853 <sup>(Outcome)(Core)</sup>  
854

- 855 IV.C.7.e).(5) sensitivity and responsiveness to a diverse patient  
856 population, including diversity in gender, age, culture, race,  
857 religion, disabilities, and sexual orientation; and,  
858 ~~(Outcome)(Core)~~  
859
- 860 IV.C.7.e).(6) compliance with institutional, departmental, and program  
861 policies. ~~(Outcome)(Core)~~  
862
- 863 IV.C.8. The curriculum must be designed in order for fellows to:  
864
- 865 IV.C.8.a) work in interprofessional teams to enhance patient safety and  
866 improve patient care quality; ~~(Outcome)(Core)~~  
867
- 868 IV.C.8.b) identify system errors and assist in the implementation of potential  
869 system solutions; and, ~~(Outcome)(Core)~~  
870
- 871 IV.C.8.c) be involved in continuous quality improvement, utilization review,  
872 and risk management. ~~(Outcome)(Core)~~  
873
- 874 **IV.D. Scholarship**  
875
- 876 ***Medicine is both an art and a science. The physician is a humanistic***  
877 ***scientist who cares for patients. This requires the ability to think critically,***  
878 ***evaluate the literature, appropriately assimilate new knowledge, and***  
879 ***practice lifelong learning. The program and faculty must create an***  
880 ***environment that fosters the acquisition of such skills through fellow***  
881 ***participation in scholarly activities as defined in the subspecialty-specific***  
882 ***Program Requirements. Scholarly activities may include discovery,***  
883 ***integration, application, and teaching.***  
884
- 885 ***The ACGME recognizes the diversity of fellowships and anticipates that***  
886 ***programs prepare physicians for a variety of roles, including clinicians,***  
887 ***scientists, and educators. It is expected that the program's scholarship will***  
888 ***reflect its mission(s) and aims, and the needs of the community it serves.***  
889 ***For example, some programs may concentrate their scholarly activity on***  
890 ***quality improvement, population health, and/or teaching, while other***

892 ***research as the focus for scholarship.***  
893
- 894 **IV.D.1. Program Responsibilities**  
895
- 896 **IV.D.1.a) The program must demonstrate evidence of scholarly**  
897 **activities, consistent with its mission(s) and aims. <sup>(Core)</sup>**  
898
- 899 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**  
900 **must allocate adequate resources to facilitate fellow and**  
901 **faculty involvement in scholarly activities. <sup>(Core)</sup>**  
902
- 903 IV.D.1.b).(1) The program must provide instruction in the fundamentals  
904 of research design and conduct, and the interpretation and  
905 presentation of data. <sup>(Core)</sup> [Moved from IV.D.1.a).(1)]

906  
907 IV.D.1.b).(2) The faculty must establish and maintain an environment of  
908 inquiry and scholarship with an active research  
909 component. (Core)

910  
911 **IV.D.2. Faculty Scholarly Activity**

912  
913 **IV.D.2.a) Among their scholarly activity, programs must demonstrate**  
914 **accomplishments in at least three of the following domains:**  
915 (Core)

- 916 • Research in basic science, education, translational
- 917 science, patient care, or population health
- 918 • Peer-reviewed grants
- 919 • Quality improvement and/or patient safety initiatives
- 920 • Systematic reviews, meta-analyses, review articles,
- 921 chapters in medical textbooks, or case reports
- 922 • Creation of curricula, evaluation tools, didactic
- 923 educational activities, or electronic educational
- 924 materials
- 925 • Contribution to professional committees, educational
- 926 organizations, or editorial boards
- 927 • Innovations in education

928  
929  
930 **IV.D.2.b) The program must demonstrate dissemination of scholarly**  
931 **activity within and external to the program by the following**  
932 **methods:**

**Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.**

934  
935 **IV.D.2.b).(1) faculty participation in grand rounds, posters,**  
936 **workshops, quality improvement presentations,**  
937 **podium presentations, grant leadership, non-peer-**  
938 **reviewed print/electronic resources, articles or**  
939 **publications, book chapters, textbooks, webinars,**  
940 **service on professional committees, or serving as a**  
941 **journal reviewer, journal editorial board member, or**  
942 **editor;** (Outcome)‡

943  
944 **IV.D.2.b).(2) peer-reviewed publication.** (Outcome)

945  
946 **IV.D.3. Fellow Scholarly Activity**

- 947  
 948 IV.D.3.a) Each All fellows must conduct or be substantially involved in a  
 949 scholarly project related to the subspecialty that is suitable for  
 950 publication. ~~complete a scholarly project,~~ (Core)  
 951  
 952 IV.D.3.a).(1) The results of ~~which such projects~~ must be disseminated  
 953 through a variety of means, including publication or  
 954 presentation at local, regional, national, or international  
 955 meetings. (Core)  
 956  
 957 IV.D.3.a).(2) Fellows must have a faculty mentor overseeing the project.  
 958 (Core)  
 959  
 960 **V. Evaluation**  
 961  
 962 **V.A. Fellow Evaluation**  
 963  
 964 **V.A.1. Feedback and Evaluation**  
 965

**Background and Intent: Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- **fellows identify their strengths and weaknesses and target areas that need work**
- **program directors and faculty members recognize where fellows are struggling and address problems immediately**

**Summative evaluation is *evaluating a fellow’s learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

- 966  
 967 V.A.1.a) **Faculty members must directly observe, evaluate, and**  
 968 **frequently provide feedback on fellow performance during**  
 969 **each rotation or similar educational assignment. (Core)**  
 970

- 971 V.A.1.a).(1) Faculty members must provide evaluations of fellows' progress and competence at least once every six months. (Core)
- 972
- 973
- 974
- 975 V.A.1.a).(2) Semiannual evaluation must include review of fellows' procedure logs. (Core)
- 976
- 977

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

- 978
- 979 V.A.1.b) Evaluation must be documented at the completion of the assignment. (Core)
- 980
- 981
- 982 V.A.1.b).(1) For block rotations of greater than three months in duration, evaluation must be documented at least every three months. (Core)
- 983
- 984
- 985
- 986 V.A.1.b).(2) Longitudinal experiences such as continuity clinic in the context of other clinical responsibilities must be evaluated at least every three months and at completion. (Core)
- 987
- 988
- 989
- 990
- 991 V.A.1.c) The program must provide an objective performance evaluation based on the Competencies and the subspecialty-specific Milestones, and must: (Core)
- 992
- 993
- 994
- 995 V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers, patients, self, and other professional staff members); and, (Core)
- 996
- 997
- 998
- 999 V.A.1.c).(2) provide that information to the Clinical Competency Committee for its synthesis of progressive fellow performance and improvement toward unsupervised practice. (Core)
- 1000
- 1001
- 1002
- 1003

**Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.**

1004

- 1005 **V.A.1.d)** **The program director or their designee, with input from the**  
 1006 **Clinical Competency Committee, must:**  
 1007  
 1008 **V.A.1.d).(1)** **meet with and review with each fellow their**  
 1009 **documented semi-annual evaluation of performance,**  
 1010 **including progress along the subspecialty-specific**  
 1011 **Milestones. (Core)**  
 1012  
 1013 **V.A.1.d).(2)** **assist fellows in developing individualized learning**  
 1014 **plans to capitalize on their strengths and identify areas**  
 1015 **for growth; and, (Core)**  
 1016  
 1017 **V.A.1.d).(3)** **develop plans for fellows failing to progress, following**  
 1018 **institutional policies and procedures. (Core)**  
 1019

**Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.**

**Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.**

- 1020  
 1021 **V.A.1.e)** **At least annually, there must be a summative evaluation of**  
 1022 **each fellow that includes their readiness to progress to the**  
 1023 **next year of the program, if applicable. (Core)**  
 1024  
 1025 **V.A.1.f)** **The evaluations of a fellow's performance must be accessible**  
 1026 **for review by the fellow. (Core)**  
 1027  
 1028 **V.A.2.** **Final Evaluation**  
 1029  
 1030 **V.A.2.a)** **The program director must provide a final evaluation for each**  
 1031 **fellow upon completion of the program. (Core)**  
 1032  
 1033 **V.A.2.a).(1)** **The subspecialty-specific Milestones, and when**  
 1034 **applicable the subspecialty-specific Case Logs, must**  
 1035 **be used as tools to ensure fellows are able to engage**  
 1036 **in autonomous practice upon completion of the**  
 1037 **program. (Core)**  
 1038

- 1039 V.A.2.a).(2) The final evaluation must:  
 1040  
 1041 V.A.2.a).(2).(a) become part of the fellow’s permanent record  
 1042 maintained by the institution, and must be  
 1043 accessible for review by the fellow in  
 1044 accordance with institutional policy; <sup>(Core)</sup>  
 1045  
 1046 V.A.2.a).(2).(b) verify that the fellow has demonstrated the  
 1047 knowledge, skills, and behaviors necessary to  
 1048 enter autonomous practice; <sup>(Core)</sup>  
 1049  
 1050 V.A.2.a).(2).(c) consider recommendations from the Clinical  
 1051 Competency Committee; and, <sup>(Core)</sup>  
 1052  
 1053 V.A.2.a).(2).(d) be shared with the fellow upon completion of  
 1054 the program. <sup>(Core)</sup>  
 1055  
 1056 V.A.3. A Clinical Competency Committee must be appointed by the  
 1057 program director. <sup>(Core)</sup>  
 1058  
 1059 V.A.3.a) At a minimum the Clinical Competency Committee must  
 1060 include three members, at least one of whom is a core faculty  
 1061 member. Members must be faculty members from the same  
 1062 program or other programs, or other health professionals  
 1063 who have extensive contact and experience with the  
 1064 program’s fellows. <sup>(Core)</sup>  
 1065  
 1066 V.A.3.b) The Clinical Competency Committee must:  
 1067  
 1068 V.A.3.b).(1) review all fellow evaluations at least semi-annually;  
 1069 <sup>(Core)</sup>  
 1070  
 1071 V.A.3.b).(2) determine each fellow’s progress on achievement of  
 1072 the subspecialty-specific Milestones; and, <sup>(Core)</sup>  
 1073  
 1074 V.A.3.b).(3) meet prior to the fellows’ semi-annual evaluations and  
 1075 advise the program director regarding each fellow’s  
 1076 progress. <sup>(Core)</sup>  
 1077  
 1078 V.B. Faculty Evaluation  
 1079  
 1080 V.B.1. The program must have a process to evaluate each faculty  
 1081 member’s performance as it relates to the educational program at  
 1082 least annually. <sup>(Core)</sup>  
 1083

**Background and Intent:** The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work

opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1084  
1085 **V.B.1.a)** This evaluation must include a review of the faculty member's  
1086 clinical teaching abilities, engagement with the educational  
1087 program, participation in faculty development related to their  
1088 skills as an educator, clinical performance, professionalism,  
1089 and scholarly activities. (Core)  
1090  
1091 **V.B.1.b)** This evaluation must include written, confidential evaluations  
1092 by the fellows. (Core)  
1093  
1094 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
1095 annually. (Core)  
1096  
1097 **V.B.3.** Results of the faculty educational evaluations should be  
1098 incorporated into program-wide faculty development plans. (Core)  
1099

**Background and Intent:** The quality of the faculty's teaching and clinical care is a determinant of the quality of the program and the quality of the fellows' future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1100  
1101 **V.C. Program Evaluation and Improvement**  
1102  
1103 **V.C.1.** The program director must appoint the Program Evaluation  
1104 Committee to conduct and document the Annual Program  
1105 Evaluation as part of the program's continuous improvement  
1106 process. (Core)  
1107  
1108 **V.C.1.a)** The Program Evaluation Committee must be composed of at  
1109 least two program faculty members, at least one of whom is a  
1110 core faculty member, and at least one fellow. (Core)  
1111  
1112 **V.C.1.b)** Program Evaluation Committee responsibilities must include:  
1113  
1114 **V.C.1.b).(1)** acting as an advisor to the program director, through  
1115 program oversight; (Core)

- 1116  
 1117 **V.C.1.b).(2)** review of the program’s self-determined goals and  
 1118 progress toward meeting them; <sup>(Core)</sup>  
 1119  
 1120 **V.C.1.b).(3)** guiding ongoing program improvement, including  
 1121 development of new goals, based upon outcomes;  
 1122 and, <sup>(Core)</sup>  
 1123  
 1124 **V.C.1.b).(4)** review of the current operating environment to identify  
 1125 strengths, challenges, opportunities, and threats as  
 1126 related to the program’s mission and aims. <sup>(Core)</sup>  
 1127

**Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.**

- 1128  
 1129 **V.C.1.c)** The Program Evaluation Committee should consider the  
 1130 following elements in its assessment of the program:  
 1131  
 1132 **V.C.1.c).(1)** curriculum; <sup>(Core)</sup>  
 1133  
 1134 **V.C.1.c).(2)** outcomes from prior Annual Program Evaluation(s);  
 1135 <sup>(Core)</sup>  
 1136  
 1137 **V.C.1.c).(3)** ACGME letters of notification, including citations,  
 1138 Areas for Improvement, and comments; <sup>(Core)</sup>  
 1139

 1176  
 1177 V.C.1.d) The Program Evaluation Committee must evaluate the  
 1178 program's mission and aims, strengths, areas for  
 1179 improvement, and threats. <sup>(Core)</sup>  
 1180  
 1181 V.C.1.e) The annual review, including the action plan, must:  
 1182  
 1183 V.C.1.e).(1) be distributed to and discussed with the members of  
 1184 the teaching faculty and the fellows; and, <sup>(Core)</sup>  
 1185  
 1186 V.C.1.e).(2) be submitted to the DIO. <sup>(Core)</sup>  
 1187  
 1188 V.C.2. The program must participate in a Self-Study prior to its 10-Year  
 1189 Accreditation Site Visit. <sup>(Core)</sup>  
 1190  
 1191 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.  
 1192 <sup>(Core)</sup>  
 1193

**Background and Intent:** Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

- 1194  
 1195 V.C.3. *One goal of ACGME-accredited education is to educate physicians*  
 1196 *who seek and achieve board certification. One measure of the*  
 1197 *effectiveness of the educational program is the ultimate pass rate.*  
 1198  
 1199 *The program director should encourage all eligible program*  
 1200 *graduates to take the certifying examination offered by the*

- 1201 *applicable American Board of Medical Specialties (ABMS) member*  
 1202 *board or American Osteopathic Association (AOA) certifying board.*  
 1203
- 1204 **V.C.3.a)** For subspecialties in which the ABMS member board and/or  
 1205 AOA certifying board offer(s) an annual written exam, in the  
 1206 preceding three years, the program’s aggregate pass rate of  
 1207 those taking the examination for the first time must be higher  
 1208 than the bottom fifth percentile of programs in that  
 1209 subspecialty. <sup>(Outcome)</sup>  
 1210
- 1211 **V.C.3.b)** For subspecialties in which the ABMS member board and/or  
 1212 AOA certifying board offer(s) a biennial written exam, in the  
 1213 preceding six years, the program’s aggregate pass rate of  
 1214 those taking the examination for the first time must be higher  
 1215 than the bottom fifth percentile of programs in that  
 1216 subspecialty. <sup>(Outcome)</sup>  
 1217
- 1218 **V.C.3.c)** For subspecialties in which the ABMS member board and/or  
 1219 AOA certifying board offer(s) an annual oral exam, in the  
 1220 preceding three years, the program’s aggregate pass rate of  
 1221 those taking the examination for the first time must be higher  
 1222 than the bottom fifth percentile of programs in that  
 1223 subspecialty. <sup>(Outcome)</sup>  
 1224
- 1225 **V.C.3.d)** For subspecialties in which the ABMS member board and/or  
 1226 AOA certifying board offer(s) a biennial oral exam, in the  
 1227 preceding six years, the program’s aggregate pass rate of  
 1228 those taking the examination for the first time must be higher  
 1229 than the bottom fifth percentile of programs in that  
 1230 subspecialty. <sup>(Outcome)</sup>  
 1231
- 1232 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program  
 1233 whose graduates over the time period specified in the  
 1234 requirement have achieved an 80 percent pass rate will have  
 1235 met this requirement, no matter the percentile rank of the  
 1236 program for pass rate in that subspecialty. <sup>(Outcome)</sup>  
 1237

**Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.**

**There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.**

- 1238  
 1239 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1240 annually for the cohort of board-eligible fellows that  
 1241 graduated seven years earlier. <sup>(Core)</sup>

**Background and Intent:** It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

1243

1244

## VI. The Learning and Working Environment

1245

1246

*Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:*

1247

1248

1249

- *Excellence in the safety and quality of care rendered to patients by fellows today*

1250

1251

1252

- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*

1253

1254

1255

- *Excellence in professionalism through faculty modeling of:*

1256

1257

- *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*

1258

1259

1260

- *the joy of curiosity, problem-solving, intellectual rigor, and discovery*

1261

1262

- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

1263

1264

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

1304  
1305

**VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability**

**VI.A.1. Patient Safety and Quality Improvement**

*All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.*

*Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.*

*It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.*

**VI.A.1.a) Patient Safety**

**VI.A.1.a).(1) Culture of Safety**

*A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.*

**VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety.**  
(Core)

1306 VI.A.1.a).(1).(b) The program must have a structure that  
1307 promotes safe, interprofessional, team-based  
1308 care. <sup>(Core)</sup>  
1309

1310 VI.A.1.a).(2) Education on Patient Safety  
1311  
1312 Programs must provide formal educational activities  
1313 that promote patient safety-related goals, tools, and  
1314 techniques. <sup>(Core)</sup>  
1315

**Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.**

1316  
1317 VI.A.1.a).(3) Patient Safety Events  
1318  
1319 *Reporting, investigation, and follow-up of adverse*  
1320 *events, near misses, and unsafe conditions are pivotal*  
1321 *mechanisms for improving patient safety, and are*  
1322 *essential for the success of any patient safety*  
1323 *program. Feedback and experiential learning are*  
1324 *essential to developing true competence in the ability*  
1325 *to identify causes and institute sustainable systems-*  
1326 *based changes to ameliorate patient safety*  
1327 *vulnerabilities.*  
1328

1329 VI.A.1.a).(3).(a) Residents, fellows, faculty members, and other  
1330 clinical staff members must:

1331  
1332 VI.A.1.a).(3).(a).(i) know their responsibilities in reporting  
1333 patient safety events at the clinical site;  
1334 <sup>(Core)</sup>  
1335

1336 VI.A.1.a).(3).(a).(ii) know how to report patient safety  
1337 events, including near misses, at the  
1338 clinical site; and, <sup>(Core)</sup>  
1339

1340 VI.A.1.a).(3).(a).(iii) be provided with summary information  
1341 of their institution's patient safety  
1342 reports. <sup>(Core)</sup>  
1343

1344 VI.A.1.a).(3).(b) Fellows must participate as team members in  
1345 real and/or simulated interprofessional clinical  
1346 patient safety activities, such as root cause  
1347 analyses or other activities that include  
1348 analysis, as well as formulation and  
1349 implementation of actions. <sup>(Core)</sup>  
1350

1351 VI.A.1.a).(4) Fellow Education and Experience in Disclosure of  
1352 Adverse Events  
1353

1354 *Patient-centered care requires patients, and when*  
1355 *appropriate families, to be apprised of clinical*  
1356 *situations that affect them, including adverse events.*  
1357 *This is an important skill for faculty physicians to*  
1358 *model, and for fellows to develop and apply.*

1360 VI.A.1.a).(4).(a) All fellows must receive training in how to  
1361 disclose adverse events to patients and  
1362 families. <sup>(Core)</sup>

1363  
1364 VI.A.1.a).(4).(b) Fellows should have the opportunity to  
1365 participate in the disclosure of patient safety  
1366 events, real or simulated. <sup>(Detail)</sup>

1367  
1368 VI.A.1.b) Quality Improvement

1369  
1370 VI.A.1.b).(1) Education in Quality Improvement

1371  
1372 *A cohesive model of health care includes quality-*  
1373 *related goals, tools, and techniques that are necessary*  
1374 *in order for health care professionals to achieve*  
1375 *quality improvement goals.*

1376  
1377 VI.A.1.b).(1).(a) Fellows must receive training and experience in  
1378 quality improvement processes, including an  
1379 understanding of health care disparities. <sup>(Core)</sup>

1380  
1381 VI.A.1.b).(2) Quality Metrics

1382  
1383 *Access to data is essential to prioritizing activities for*  
1384 *care improvement and evaluating success of*  
1385 *improvement efforts.*

1386  
1387 VI.A.1.b).(2).(a) Fellows and faculty members must receive data  
1388 on quality metrics and benchmarks related to  
1389 their patient populations. <sup>(Core)</sup>

1390  
1391 VI.A.1.b).(3) Engagement in Quality Improvement Activities

1392  
1393 *Experiential learning is essential to developing the*  
1394 *ability to identify and institute sustainable systems-*  
1395 *based changes to improve patient care.*

1396  
1397 VI.A.1.b).(3).(a) Fellows must have the opportunity to  
1398 participate in interprofessional quality  
1399 improvement activities. <sup>(Core)</sup>

1400  
1401 VI.A.1.b).(3).(a).(i) This should include activities aimed at  
1402 reducing health care disparities. <sup>(Detail)</sup>

1403  
1404 VI.A.2. Supervision and Accountability

- 1405  
1406 **VI.A.2.a)** *Although the attending physician is ultimately responsible for*  
1407 *the care of the patient, every physician shares in the*  
1408 *responsibility and accountability for their efforts in the*  
1409 *provision of care. Effective programs, in partnership with*  
1410 *their Sponsoring Institutions, define, widely communicate,*  
1411 *and monitor a structured chain of responsibility and*  
1412 *accountability as it relates to the supervision of all patient*  
1413 *care.*
- 1414  
1415 *Supervision in the setting of graduate medical education*  
1416 *provides safe and effective care to patients; ensures each*  
1417 *fellow's development of the skills, knowledge, and attitudes*  
1418 *required to enter the unsupervised practice of medicine; and*  
1419 *establishes a foundation for continued professional growth.*  
1420
- 1421 **VI.A.2.a).(1)** Each patient must have an identifiable and  
1422 appropriately-credentialed and privileged attending  
1423 physician (or licensed independent practitioner as  
1424 specified by the applicable Review Committee) who is  
1425 responsible and accountable for the patient's care.  
1426 (Core)
- 1427
- 1428 **VI.A.2.a).(1).(a)** This information must be available to fellows,  
1429 faculty members, other members of the health  
1430 care team, and patients. (Core)
- 1431
- 1432 **VI.A.2.a).(1).(b)** Fellows and faculty members must inform each  
1433 patient of their respective roles in that patient's  
1434 care when providing direct patient care. (Core)
- 1435
- 1436 **VI.A.2.b)** *Supervision may be exercised through a variety of methods.*  
1437 *For many aspects of patient care, the supervising physician*  
1438 *may be a more advanced fellow. Other portions of care*  
1439 *provided by the fellow can be adequately supervised by the*  
1440 *appropriate availability of the supervising faculty member or*  
1441 *fellow, either on site or by means of telecommunication*  
1442 *technology. Some activities require the physical presence of*  
1443 *the supervising faculty member. In some circumstances,*  
1444 *supervision may include post-hoc review of fellow-delivered*  
1445 *care with feedback.*  
1446

**Background and Intent:** There are circumstances where direct supervision without physical presence does not fulfill the requirements of the specific Review Committee. Review Committees will further specify what is meant by direct supervision without physical presence in specialties where allowed. "Physically present" is defined as follows: The teaching physician is located in the same room (or partitioned or curtained area, if the room is subdivided to accommodate multiple patients) as the patient and/or performs a face-to-face service.

1447

1448	<b>VI.A.2.b).(1)</b>	<b>The program must demonstrate that the appropriate level of supervision in place for all fellows is based on each fellow’s level of training and ability, as well as patient complexity and acuity. Supervision may be exercised through a variety of methods, as appropriate to the situation. (Core)</b>
1449		
1450		
1451		
1452		
1453		
1454		
1455	<b>VI.A.2.b).(1).(a)</b>	<b>The program must prepare and implement a supervision policy that specifies resident, fellow, and faculty member responsibility. (Core)</b>
1456		
1457		
1458		
1459	<b>VI.A.2.b).(2)</b>	<b>The program must define when physical presence of a supervising physician is required. (Core)</b>
1460		
1461		
1462	<b>VI.A.2.c)</b>	<b>Levels of Supervision</b>
1463		
1464		<b>To promote appropriate fellow supervision while providing for graded authority and responsibility, the program must use the following classification of supervision: (Core)</b>
1465		
1466		
1467		
1468	<b>VI.A.2.c).(1)</b>	<b>Direct Supervision:</b>
1469		
1470	<b>VI.A.2.c).(1).(a)</b>	<b>the supervising physician is physically present with the fellow during the key portions of the patient interaction. (Core)</b>
1471		
1472		
1473		
1474	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision: the supervising physician is not providing physical or concurrent visual or audio supervision but is immediately available to the fellow for guidance and is available to provide appropriate direct supervision. (Core)</b>
1475		
1476		
1477		
1478		
1479		
1480	<b>VI.A.2.c).(3)</b>	<b>Oversight – the supervising physician is available to provide review of procedures/encounters with feedback provided after care is delivered. (Core)</b>
1481		
1482		
1483		
1484	<b>VI.A.2.d)</b>	<b>The privilege of progressive authority and responsibility, conditional independence, and a supervisory role in patient care delegated to each fellow must be assigned by the program director and faculty members. (Core)</b>
1485		
1486		
1487		
1488		
1489	<b>VI.A.2.d).(1)</b>	<b>The program director must evaluate each fellow’s abilities based on specific criteria, guided by the Milestones. (Core)</b>
1490		
1491		
1492		
1493	<b>VI.A.2.d).(2)</b>	<b>Faculty members functioning as supervising physicians must delegate portions of care to fellows based on the needs of the patient and the skills of each fellow. (Core)</b>
1494		
1495		
1496		
1497		

1498 VI.A.2.d).(3) Fellows should serve in a supervisory role to junior  
1499 fellows and residents in recognition of their progress  
1500 toward independence, based on the needs of each  
1501 patient and the skills of the individual resident or  
1502 fellow. (Detail)  
1503

1504 VI.A.2.e) Programs must set guidelines for circumstances and events  
1505 in which fellows must communicate with the supervising  
1506 faculty member(s). (Core)  
1507

1508 VI.A.2.e).(1) Each fellow must know the limits of their scope of  
1509 authority, and the circumstances under which the  
1510 fellow is permitted to act with conditional  
1511 independence. (Outcome)  
1512

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

1513  
1514 VI.A.2.f) Faculty supervision assignments must be of sufficient  
1515 duration to assess the knowledge and skills of each fellow  
1516 and to delegate to the fellow the appropriate level of patient  
1517 care authority and responsibility. (Core)  
1518

1519 VI.B. Professionalism

1520  
1521 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must  
1522 educate fellows and faculty members concerning the professional  
1523 responsibilities of physicians, including their obligation to be  
1524 appropriately rested and fit to provide the care required by their  
1525 patients. (Core)  
1526

1527 VI.B.2. The learning objectives of the program must:

1528  
1529 VI.B.2.a) be accomplished through an appropriate blend of supervised  
1530 patient care responsibilities, clinical teaching, and didactic  
1531 educational events; (Core)  
1532

1533 VI.B.2.b) be accomplished without excessive reliance on fellows to  
1534 fulfill non-physician obligations; and, (Core)  
1535

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these**

things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1536  
1537  
1538

VI.B.2.c) ensure manageable patient care responsibilities. (Core)

**Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.**

VI.B.3. The program director, in partnership with the Sponsoring Institution, must provide a culture of professionalism that supports patient safety and personal responsibility. (Core)

VI.B.4. Fellows and faculty members must demonstrate an understanding of their personal role in the:

VI.B.4.a) provision of patient- and family-centered care; (Outcome)

VI.B.4.b) safety and welfare of patients entrusted to their care, including the ability to report unsafe conditions and adverse events; (Outcome)

**Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.**

1553  
1554  
1555

VI.B.4.c) assurance of their fitness for work, including: (Outcome)

**Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.**

1560  
1561  
1562  
1563  
1564  
1565  
1566  
1567

VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, (Outcome)

VI.B.4.c).(2) recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)

VI.B.4.d) commitment to lifelong learning; (Outcome)

VI.B.4.e) monitoring of their patient care performance improvement indicators; and, (Outcome)

1568  
1569 VI.B.4.f) accurate reporting of clinical and educational work hours,  
1570 patient outcomes, and clinical experience data. (Outcome)

1571  
1572 VI.B.5. All fellows and faculty members must demonstrate responsiveness  
1573 to patient needs that supersedes self-interest. This includes the  
1574 recognition that under certain circumstances, the best interests of  
1575 the patient may be served by transitioning that patient's care to  
1576 another qualified and rested provider. (Outcome)

1577  
1578 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must  
1579 provide a professional, equitable, respectful, and civil environment  
1580 that is free from discrimination, sexual and other forms of  
1581 harassment, mistreatment, abuse, or coercion of students, fellows,  
1582 faculty, and staff. (Core)

1583  
1584 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should  
1585 have a process for education of fellows and faculty regarding  
1586 unprofessional behavior and a confidential process for reporting,  
1587 investigating, and addressing such concerns. (Core)

1588  
1589 VI.C. Well-Being

1590  
1591 *Psychological, emotional, and physical well-being are critical in the*  
1592 *development of the competent, caring, and resilient physician and require*  
1593 *proactive attention to life inside and outside of medicine. Well-being*  
1594 *requires that physicians retain the joy in medicine while managing their*  
1595 *own real life stresses. Self-care and responsibility to support other*  
1596 *members of the health care team are important components of*  
1597 *professionalism; they are also skills that must be modeled, learned, and*  
1598 *nurtured in the context of other aspects of fellowship training.*

1599  
1600 *Fellows and faculty members are at risk for burnout and depression.*  
1601 *Programs, in partnership with their Sponsoring Institutions, have the same*  
1602 *responsibility to address well-being as other aspects of resident*  
1603 *competence. Physicians and all members of the health care team share*  
1604 *responsibility for the well-being of each other. For example, a culture which*  
1605 *encourages covering for colleagues after an illness without the expectation*  
1606 *of reciprocity reflects the ideal of professionalism. A positive culture in a*  
1607 *clinical learning environment models constructive behaviors, and prepares*  
1608 *fellows with the skills and attitudes needed to thrive throughout their*  
1609 *careers.*

1610

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

1625  
1626  
1627
- VI.C.1. The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:**
- VI.C.1.a) efforts to enhance the meaning that each fellow finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; <sup>(Core)</sup>**
- VI.C.1.b) attention to scheduling, work intensity, and work compression that impacts fellow well-being; <sup>(Core)</sup>**
- VI.C.1.c) evaluating workplace safety data and addressing the safety of fellows and faculty members; <sup>(Core)</sup>**

**Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.**

- 1628  
1629  
1630  
1631
- VI.C.1.d) policies and programs that encourage optimal fellow and faculty member well-being; and, <sup>(Core)</sup>**

**Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.**

- 1632  
1633  
1634  
1635  
1636  
1637
- VI.C.1.d).(1) Fellows must be given the opportunity to attend medical, mental health, and dental care appointments, including those scheduled during their working hours. <sup>(Core)</sup>**

**Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.**

- 1638  
1639  
1640
- VI.C.1.e) attention to fellow and faculty member burnout, depression, and substance abuse. The program, in partnership with its**

1641 Sponsoring Institution, must educate faculty members and  
1642 fellows in identification of the symptoms of burnout,  
1643 depression, and substance abuse, including means to assist  
1644 those who experience these conditions. Fellows and faculty  
1645 members must also be educated to recognize those  
1646 symptoms in themselves and how to seek appropriate care.  
1647 The program, in partnership with its Sponsoring Institution,  
1648 must: <sup>(Core)</sup>  
1649

**Background and Intent:** Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance abuse. Materials and more information are available on the Physician Well-being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).

1650  
1651 VI.C.1.e).(1) encourage fellows and faculty members to alert the  
1652 program director or other designated personnel or  
1653 programs when they are concerned that another  
1654 fellow, resident, or faculty member may be displaying  
1655 signs of burnout, depression, substance abuse,  
1656 suicidal ideation, or potential for violence; <sup>(Core)</sup>  
1657

**Background and Intent:** Individuals experiencing burnout, depression, substance abuse, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1658  
1659 VI.C.1.e).(2) provide access to appropriate tools for self-screening;  
1660 and, <sup>(Core)</sup>  
1661  
1662 VI.C.1.e).(3) provide access to confidential, affordable mental  
1663 health assessment, counseling, and treatment,  
1664 including access to urgent and emergent care 24  
1665 hours a day, seven days a week. <sup>(Core)</sup>  
1666

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this

requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1691  
1692  
1693  
1694  
1695

**VI.D. Fatigue Mitigation**

**VI.D.1. Programs must:**

**VI.D.1.a)** educate all faculty members and fellows to recognize the signs of fatigue and sleep deprivation; <sup>(Core)</sup>

**VI.D.1.b)** educate all faculty members and fellows in alertness management and fatigue mitigation processes; and, <sup>(Core)</sup>

**VI.D.1.c)** encourage fellows to use fatigue mitigation processes to manage the potential negative effects of fatigue on patient care and learning. <sup>(Detail)</sup>

**Background and Intent:** Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall

asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

- 1696  
1697 **VI.D.2.** Each program must ensure continuity of patient care, consistent  
1698 with the program's policies and procedures referenced in VI.C.2–  
1699 VI.C.2.b), in the event that a fellow may be unable to perform their  
1700 patient care responsibilities due to excessive fatigue. <sup>(Core)</sup>  
1701  
1702 **VI.D.3.** The program, in partnership with its Sponsoring Institution, must  
1703 ensure adequate sleep facilities and safe transportation options for  
1704 fellows who may be too fatigued to safely return home. <sup>(Core)</sup>  
1705  
1706 **VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care**  
1707  
1708 **VI.E.1. Clinical Responsibilities**  
1709  
1710 The clinical responsibilities for each fellow must be based on PGY  
1711 level, patient safety, fellow ability, severity and complexity of patient  
1712 illness/condition, and available support services. <sup>(Core)</sup>  
1713

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.**

- 1714  
1715 **VI.E.2. Teamwork**  
1716  
1717 **Fellows must care for patients in an environment that maximizes**  
1718 **communication. This must include the opportunity to work as a**  
1719 **member of effective interprofessional teams that are appropriate to**  
1720 **the delivery of care in the subspecialty and larger health system.**  
1721 <sup>(Core)</sup>  
1722  
1723 **VI.E.2.a)** Interprofessional teams may include non-physician health care  
1724 professionals, such as medical assistants, specialized nurses, and  
1725 technicians. <sup>(Detail)</sup>  
1726  
1727 **VI.E.3. Transitions of Care**  
1728  
1729 **VI.E.3.a)** Programs must design clinical assignments to optimize  
1730 transitions in patient care, including their safety, frequency,  
1731 and structure. <sup>(Core)</sup>  
1732  
1733 **VI.E.3.b)** Programs, in partnership with their Sponsoring Institutions,  
1734 must ensure and monitor effective, structured hand-over

- 1735 processes to facilitate both continuity of care and patient  
 1736 safety. <sup>(Core)</sup>  
 1737  
 1738 VI.E.3.c) Programs must ensure that fellows are competent in  
 1739 communicating with team members in the hand-over process.  
 1740 <sup>(Outcome)</sup>  
 1741  
 1742 VI.E.3.d) Programs and clinical sites must maintain and communicate  
 1743 schedules of attending physicians and fellows currently  
 1744 responsible for care. <sup>(Core)</sup>  
 1745  
 1746 VI.E.3.e) Each program must ensure continuity of patient care,  
 1747 consistent with the program’s policies and procedures  
 1748 referenced in VI.C.2-VI.C.2.b), in the event that a fellow may  
 1749 be unable to perform their patient care responsibilities due to  
 1750 excessive fatigue or illness, or family emergency. <sup>(Core)</sup>  
 1751  
 1752 VI.F. Clinical Experience and Education  
 1753  
 1754 *Programs, in partnership with their Sponsoring Institutions, must design*  
 1755 *an effective program structure that is configured to provide fellows with*  
 1756 *educational and clinical experience opportunities, as well as reasonable*  
 1757 *opportunities for rest and personal activities.*  
 1758

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

- 1759  
 1760 VI.F.1. Maximum Hours of Clinical and Educational Work per Week  
 1761  
 1762 Clinical and educational work hours must be limited to no more than  
 1763 80 hours per week, averaged over a four-week period, inclusive of all  
 1764 in-house clinical and educational activities, clinical work done from  
 1765 home, and all moonlighting. <sup>(Core)</sup>  
 1766

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

**Scheduling**  
 While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed

the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

### *Oversight*

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

### *Work from Home*

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

- 1768 VI.F.2. Mandatory Time Free of Clinical Work and Education  
1769  
1770 VI.F.2.a) The program must design an effective program structure that  
1771 is configured to provide fellows with educational  
1772 opportunities, as well as reasonable opportunities for rest  
1773 and personal well-being. <sup>(Core)</sup>  
1774  
1775 VI.F.2.b) Fellows should have eight hours off between scheduled  
1776 clinical work and education periods. <sup>(Detail)</sup>  
1777  
1778 VI.F.2.b).(1) There may be circumstances when fellows choose to  
1779 stay to care for their patients or return to the hospital  
1780 with fewer than eight hours free of clinical experience  
1781 and education. This must occur within the context of  
1782 the 80-hour and the one-day-off-in-seven  
1783 requirements. <sup>(Detail)</sup>  
1784

**Background and Intent:** While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

- 1785  
1786 VI.F.2.c) Fellows must have at least 14 hours free of clinical work and  
1787 education after 24 hours of in-house call. <sup>(Core)</sup>  
1788

**Background and Intent:** Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

- 1789  
1790 VI.F.2.d) Fellows must be scheduled for a minimum of one day in  
1791 seven free of clinical work and required education (when  
1792 averaged over four weeks). At-home call cannot be assigned  
1793 on these free days. <sup>(Core)</sup>  
1794

**Background and Intent:** The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes

fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as “one (1) continuous 24-hour period free from all administrative, clinical, and educational activities.”

**VI.F.3. Maximum Clinical Work and Education Period Length**

**VI.F.3.a) Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments. (Core)**

**VI.F.3.a).(1) Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education. (Core)**

**VI.F.3.a).(1).(a) Additional patient care responsibilities must not be assigned to a fellow during this time. (Core)**

**Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.**

**VI.F.4. Clinical and Educational Work Hour Exceptions**

**VI.F.4.a) In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:**

**VI.F.4.a).(1) to continue to provide care to a single severely ill or unstable patient; (Detail)**

**VI.F.4.a).(2) humanistic attention to the needs of a patient or family; or, (Detail)**

**VI.F.4.a).(3) to attend unique educational events. (Detail)**

**VI.F.4.b) These additional hours of care or education will be counted toward the 80-hour weekly limit. (Detail)**

**Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and**

that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

**VI.F.4.c)**                      **A Review Committee may grant rotation-specific exceptions for up to 10 percent or a maximum of 88 clinical and educational work hours to individual programs based on a sound educational rationale.**

The Review Committee for Anesthesiology will not consider requests for exceptions to the 80-hour limit to the residents' work week.

**VI.F.4.c).(1)**                      **In preparing a request for an exception, the program director must follow the clinical and educational work hour exception policy from the *ACGME Manual of Policies and Procedures*. <sup>(Core)</sup>**

**VI.F.4.c).(2)**                      **Prior to submitting the request to the Review Committee, the program director must obtain approval from the Sponsoring Institution's GMEC and DIO. <sup>(Core)</sup>**

**Background and Intent: The provision for exceptions for up to 88 hours per week has been modified to specify that exceptions may be granted for specific rotations if the program can justify the increase based on criteria specified by the Review Committee. As in the past, Review Committees may opt not to permit exceptions. The underlying philosophy for this requirement is that while it is expected that all fellows should be able to train within an 80-hour work week, it is recognized that some programs may include rotations with alternate structures based on the nature of the specialty. DIO/GMEC approval is required before the request will be considered by the Review Committee.**

**VI.F.5.                      Moonlighting**

**VI.F.5.a)**                      **Moonlighting must not interfere with the ability of the fellow to achieve the goals and objectives of the educational program, and must not interfere with the fellow's fitness for work nor compromise patient safety. <sup>(Core)</sup>**

**VI.F.5.b)**                      **Time spent by fellows in internal and external moonlighting (as defined in the ACGME Glossary of Terms) must be counted toward the 80-hour maximum weekly limit. <sup>(Core)</sup>**

**Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).**

**Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.**

**VI.F.7. Maximum In-House On-Call Frequency**  
**Fellows must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period). (Core)**

**VI.F.8. At-Home Call**

**VI.F.8.a) Time spent on patient care activities by fellows on at-home call must count toward the 80-hour maximum weekly limit. The frequency of at-home call is not subject to the every-third-night limitation, but must satisfy the requirement for one day in seven free of clinical work and education, when averaged over four weeks. (Core)**

**VI.F.8.a).(1) At-home call must not be so frequent or taxing as to preclude rest or reasonable personal time for each fellow. (Core)**

**VI.F.8.b) Fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. (Detail)**

**Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day’s case, studying, or research activities do not count toward the 80-hour weekly limit.**

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**

**\*Core Requirements:** Statements that define structure, resource, or process elements essential to every graduate medical educational program.

**†Detail Requirements:** Statements that describe a specific structure, resource, or process, for achieving compliance with a Core Requirement. Programs and sponsoring institutions in substantial compliance with the Outcome Requirements may utilize alternative or innovative approaches to meet Core Requirements.
