1 **ACGME Program Requirements for Graduate Medical Education**
2 **in Critical Care Medicine**

3
4 **Common Program Requirements (Fellowship) are in BOLD**

5
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that
7 section. These philosophic statements are not program requirements and are therefore not
8 citable.
9

Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.

10
11 **Introduction**

12
13 **Int.A.** *Fellowship is advanced graduate medical education beyond a core*
14 *residency program for physicians who desire to enter more specialized*
15 *practice. Fellowship-trained physicians serve the public by providing*
16 *subspecialty care, which may also include core medical care, acting as a*
17 *community resource for expertise in their field, creating and integrating*
18 *new knowledge into practice, and educating future generations of*
19 *physicians. Graduate medical education values the strength that a diverse*
20 *group of physicians brings to medical care.*

21
22 *Fellows who have completed residency are able to practice independently*
23 *in their core specialty. The prior medical experience and expertise of*
24 *fellows distinguish them from physicians entering into residency training.*
25 *The fellow's care of patients within the subspecialty is undertaken with*
26 *appropriate faculty supervision and conditional independence. Faculty*
27 *members serve as role models of excellence, compassion,*
28 *professionalism, and scholarship. The fellow develops deep medical*
29 *knowledge, patient care skills, and expertise applicable to their focused*
30 *area of practice. Fellowship is an intensive program of subspecialty clinical*
31 *and didactic education that focuses on the multidisciplinary care of*
32 *patients. Fellowship education is often physically, emotionally, and*
33 *intellectually demanding, and occurs in a variety of clinical learning*
34 *environments committed to graduate medical education and the well-being*
35 *of patients, residents, fellows, faculty members, students, and all members*
36 *of the health care team.*

37
38 *In addition to clinical education, many fellowship programs advance*
39 *fellows' skills as physician-scientists. While the ability to create new*
40 *knowledge within medicine is not exclusive to fellowship-educated*
41 *physicians, the fellowship experience expands a physician's abilities to*
42 *pursue hypothesis-driven scientific inquiry that results in contributions to*
43 *the medical literature and patient care. Beyond the clinical subspecialty*
44 *expertise achieved, fellows develop mentored relationships built on an*
45 *infrastructure that promotes collaborative research.*

46
47 **Int.B.** **Definition of Subspecialty**

48 Critical care medicine is ~~concerned with the~~ internal medicine subspecialty that
49 focuses on the diagnosis, management, and prevention of complications in
50 patients who are severely ill and who usually require intensive monitoring and/or
51 organ system support. ~~Critical care medicine fellowships provide advanced~~
52 ~~education to allow a fellow to acquire competency in the subspecialty with~~
53 ~~sufficient expertise to act as a primary intensivist or independent consultant.~~
54

55 **Int.C. Length of Educational Program**

56
57 The educational program in critical care medicine must be 24 months in length.
58 (Core)*

59
60 **I. Oversight**

61
62 **I.A. Sponsoring Institution**

63
64 *The Sponsoring Institution is the organization or entity that assumes the*
65 *ultimate financial and academic responsibility for a program of graduate*
66 *medical education consistent with the ACGME Institutional Requirements.*

67
68 *When the Sponsoring Institution is not a rotation site for the program, the*
69 *most commonly utilized site of clinical activity for the program is the*
70 *primary clinical site.*
71

Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.

72
73 **I.A.1. The program must be sponsored by one ACGME-accredited**
74 **Sponsoring Institution. (Core)***

75
76 **I.B. Participating Sites**

77
78 *A participating site is an organization providing educational experiences or*
79 *educational assignments/rotations for fellows.*
80

81 **I.B.1. The program, with approval of its Sponsoring Institution, must**
82 **designate a primary clinical site. (Core)**

83
84 **I.B.1.a)** A critical care medicine fellowship must function as an integral
85 part of an ACGME-accredited residency in internal medicine. (Core)

86
87 **I.B.1.b)** Located at the primary clinical site, there should be at least three
88 ACGME-accredited subspecialty programs from the following
89 disciplines: in cardiovascular disease, gastroenterology, infectious

- 90 diseases, nephrology, or pulmonary disease. ^(Detail)
- 91
- 92 I.B.1.c) ~~The sponsoring institution should sponsor an ACGME-accredited~~
- 93 ~~residency program in general surgery.~~ ^(Detail)
- 94
- 95 I.B.1.d) The Sponsoring Institution must establish the critical care
- 96 medicine fellowship within a department of internal medicine or an
- 97 administrative unit whose primary mission is the advancement of
- 98 internal medicine subspecialty education and patient care. ^(Detail)
- 99
- 100 I.B.1.e) The Sponsoring Institution must ensure that there is a reporting
- 101 relationship with the program director of the internal medicine
- 102 residency program to ensure compliance with ACGME
- 103 accreditation requirements. ^(Core)
- 104
- 105 **I.B.2. There must be a program letter of agreement (PLA) between the**
- 106 **program and each participating site that governs the relationship**
- 107 **between the program and the participating site providing a required**
- 108 **assignment.** ^(Core)
- 109
- 110 **I.B.2.a) The PLA must:**
- 111
- 112 **I.B.2.a).(1) be renewed at least every 10 years; and,** ^(Core)
- 113
- 114 **I.B.2.a).(2) be approved by the designated institutional official**
- 115 **(DIO).** ^(Core)
- 116
- 117 **I.B.3. The program must monitor the clinical learning and working**
- 118 **environment at all participating sites.** ^(Core)
- 119
- 120 **I.B.3.a) At each participating site there must be one faculty member,**
- 121 **designated by the program director, who is accountable for**
- 122 **fellow education for that site, in collaboration with the**
- 123 **program director.** ^(Core)
- 124

Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**

- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

125

128
129
130
131
132
133
134
135
136

I.B.4. The program director must submit any additions or deletions of participating sites routinely providing an educational experience, required for all fellows, of one month full time equivalent (FTE) or more through the ACGME’s Accreditation Data System (ADS). ^(Core)

I.C. The program, in partnership with its Sponsoring Institution, must engage in practices that focus on mission-driven, ongoing, systematic recruitment and retention of a diverse and inclusive workforce of residents (if present), fellows, faculty members, senior administrative staff members, and other relevant members of its academic community. ^(Core)

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

163

I.D. Resources

I.D.1. The program, in partnership with its Sponsoring Institution, must ensure the availability of adequate resources for fellow education. ^(Core)

I.D.1.a) Space and Equipment

There must be space and equipment for the program, including meeting rooms, examination rooms, computers, visual and other educational aids, and work/study space. ^(Core)

I.D.1.b) Facilities

I.D.1.b).(1) Inpatient and outpatient systems must be in place to prevent fellows from performing routine clerical functions, such as scheduling tests and appointments, and retrieving records and letters. ^(Detail)

I.D.1.b).(2) The sponsoring institution must provide the broad range of facilities and clinical support services required to provide comprehensive care of adult patients. ^(Core)

I.D.1.b).(3) Fellows must have access to a lounge facility during assigned duty hours. ^(Detail)

164	I.D.1.b).(4)	When fellows are in the hospital, assigned night duty, or called in from home, they must be provided with a secure space for their belongings. ^(Detail)
165		
166		
167		
168	I.D.1.b).(5)	There must be facilities to care for patients with acute myocardial infarction, severe trauma, shock, recent open heart surgery, recent major thoracic or abdominal surgery, and severe neurologic and neurosurgical conditions. ^(Core)
169		
170		
171		
172		
173	I.D.1.c)	Laboratory Services
174		
175		The following must be available at the primary clinical site:
176		
177	I.D.1.c).(1)	a supporting laboratory that provides complete and prompt laboratory evaluation; ^(Core)
178		
179		
180	I.D.1.c).(2)	timely bedside imaging services for patients in the critical care units; and, ^(Core)
181		
182		
183	I.D.1.c).(3)	computed tomography (CT) imaging, including CT angiography. ^(Core)
184		
185		
186	I.D.1.d)	Other Support Services
187		
188		The following must be available:
189		
190	I.D.1.d).(1)	an active open heart surgery program; ^(Core)
191		
192	I.D.1.d).(2)	an active emergency service; ^(Core)
193		
194	I.D.1.d).(3)	post-operative care and respiratory care services; ^(Core)
195		
196	I.D.1.d).(4)	nutritional support services; ^(Core)
197		
198	I.D.1.d).(5)	equipment necessary to care for critically ill patients; and, ^(Core)
199		
200		
201	I.D.1.d).(6)	critical care unit(s) located in a designated area within the hospital, and constructed and designed specifically for the care of critically ill patients. ^(Core)
202		
203		
204		
205	I.D.1.d).(6).(a)	Whether operating in separate locations or in combined facilities, the program must provide the equivalent of a medical intensive care unit (MICU), a surgical intensive care unit (SICU), and a coronary intensive care unit (CICU). ^(Detail)
206		
207		
208		
209		
210		
211	I.D.1.d).(6).(b)	The MICU or its equivalent must be at the primary clinical site, and should be the focus of a teaching service. ^(Core)
212		
213		
214		

215 I.D.1.d).(7) Other services should be available, including
216 anesthesiology, laboratory medicine, and, radiology. ^(Detail)

217
218 I.D.1.e) Medical Records
219
220 Access to an electronic health record should be provided. In the
221 absence of an existing electronic health record, institutions must
222 demonstrate institutional commitment to its development and
223 progress toward its implementation. ^(Core)

224
225 **I.D.2. The program, in partnership with its Sponsoring Institution, must**
226 **ensure healthy and safe learning and working environments that**
227 **promote fellow well-being and provide for:** ^(Core)

228
229 **I.D.2.a) access to food while on duty;** ^(Core)

230
231 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**
232 **and accessible for fellows with proximity appropriate for safe**
233 **patient care;** ^(Core)

234

Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

235
236 **I.D.2.c) clean and private facilities for lactation that have refrigeration**
237 **capabilities, with proximity appropriate for safe patient care;**
238 ^(Core)

Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

240
241 **I.D.2.d) security and safety measures appropriate to the participating**
242 **site; and,** ^(Core)

243
244 **I.D.2.e) accommodations for fellows with disabilities consistent with**
245 **the Sponsoring Institution's policy.** ^(Core)

246
247 **I.D.3. Fellows must have ready access to subspecialty-specific and other**
248 **appropriate reference material in print or electronic format. This**

249 must include access to electronic medical literature databases with
250 full text capabilities. ^(Core)

251
252 **I.D.4. The program’s educational and clinical resources must be adequate**
253 **to support the number of fellows appointed to the program.** ^(Core)

254
255 I.D.4.a) Patient Population

256
257 I.D.4.a).(1) The patient population must have a variety of clinical
258 problems and stages of diseases. ^(Core)

259
260 I.D.4.a).(1).(a) Because critical care medicine is multidisciplinary in
261 nature, the program must provide opportunities to
262 manage adult patients with a wide variety of serious
263 illnesses and injuries requiring treatment in a critical
264 care setting. ^(Detail)

265
266 I.D.4.a).(2) There must be patients of each gender, with a broad age
267 range, including geriatric patients. ^(Core)

268
269 I.D.4.a).(3) A sufficient number of patients must be available to enable
270 each fellow to achieve the required educational outcomes.
271 ^(Core)

272
273 I.D.4.b) There must be an average daily census of at least five patients
274 per fellow during assignments to critical care units. ^(Detail)

275
276 **I.E. A fellowship program usually occurs in the context of many learners and**
277 **other care providers and limited clinical resources. It should be structured**
278 **to optimize education for all learners present.**

279
280 **I.E.1. Fellows should contribute to the education of residents in core**
281 **programs, if present.** ^(Core)

Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows’ education is not compromised by the presence of other providers and learners, and that fellows’ education does not compromise core residents’ education.

283
284 **II. Personnel**

285
286 **II.A. Program Director**

287
288 **II.A.1. There must be one faculty member appointed as program director**
289 **with authority and accountability for the overall program, including**
290 **compliance with all applicable program requirements.** ^(Core)

291

292 II.A.1.a) The Sponsoring Institution's Graduate Medical Education
293 Committee (GMEC) must approve a change in program
294 director. ^(Core)
295

296 II.A.1.b) Final approval of the program director resides with the
297 Review Committee. ^(Core)
298

Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and made responsible for the program. This individual will have dedicated time for the leadership of the fellowship, and it is this individual's responsibility to communicate with the fellows, faculty members, DIO, GMEC, and the ACGME. The program director's nomination is reviewed and approved by the GMEC. Final approval of program directors resides with the Review Committee.

299
300 II.A.2. The program director must be provided with support adequate for
301 administration of the program based upon its size and configuration.
302 ^(Core)
303

304 II.A.2.a) At a minimum, the program director must be provided with the
305 salary support required to devote 20-50 percent FTE of non-
306 clinical time to the administration of the program. ^(Core)
307

308 II.A.2.b) ~~The program director must not be required to generate clinical or~~
309 ~~other income to provide this administrative support.~~ ^(Core)
310

311 II.A.2.c) ~~This support should be 25 to 50 percent of the program director's~~
312 ~~salary, or protected time, depending on the size of the program.~~
313 ^(Detail)
314

Background and Intent: Twenty percent FTE is defined as one day per week.

"Administrative time" is defined as non-clinical time spent meeting the responsibilities of the program director as detailed in requirements II.A.4.-II.A.4.a).(16).

The requirement does not address the source of funding required to provide the specified salary support.

315
316 II.A.3. Qualifications of the program director:
317

318 II.A.3.a) must include subspecialty expertise and qualifications
319 acceptable to the Review Committee; and, ^(Core)
320

321 II.A.3.a).(1) The program director must have administrative experience
322 and at least five three years of participation as an active
323 faculty member in an ACGME-accredited internal medicine
324 residency or critical care medicine fellowship. ^(Detail Core)
325

326 II.A.3.b) must include current certification in the subspecialty for
327 which they are the program director by the American Board
328 of Internal Medicine (ABIM) or by the American Osteopathic

329 **Board of Internal Medicine (AOBIM), or subspecialty**
330 **qualifications that are acceptable to the Review Committee.**
331 (Core)

332
333 II.A.3.b).(1) The Review Committee only accepts current ABIM or
334 AOBIM certification in critical care medicine. (Core)
335

336 **II.A.4. Program Director Responsibilities**
337

338 **The program director must have responsibility, authority, and**
339 **accountability for: administration and operations; teaching and**
340 **scholarly activity; fellow recruitment and selection, evaluation, and**
341 **promotion of fellows, and disciplinary action; supervision of fellows;**
342 **and fellow education in the context of patient care.** (Core)
343

344 **II.A.4.a) The program director must:**

345
346 **II.A.4.a).(1) be a role model of professionalism;** (Core)
347

Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

348
349 **II.A.4.a).(2) design and conduct the program in a fashion**
350 **consistent with the needs of the community, the**
351 **mission(s) of the Sponsoring Institution, and the**
352 **mission(s) of the program;** (Core)
353

Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

354
355 **II.A.4.a).(3) administer and maintain a learning environment**
356 **conducive to educating the fellows in each of the**
357 **ACGME Competency domains;** (Core)
358

Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

359

- 360 II.A.4.a).(4) develop and oversee a process to evaluate candidates
 361 prior to approval as program faculty members for
 362 participation in the fellowship program education and
 363 at least annually thereafter, as outlined in V.B.; (Core)
 364
- 365 II.A.4.a).(5) have the authority to approve program faculty
 366 members for participation in the fellowship program
 367 education at all sites; (Core)
 368
- 369 II.A.4.a).(6) have the authority to remove program faculty
 370 members from participation in the fellowship program
 371 education at all sites; (Core)
 372
- 373 II.A.4.a).(7) have the authority to remove fellows from supervising
 374 interactions and/or learning environments that do not
 375 meet the standards of the program; (Core)
 376

Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

- 377
- 378 II.A.4.a).(8) submit accurate and complete information required
 379 and requested by the DIO, GMEC, and ACGME; (Core)
 380
- 381 II.A.4.a).(9) provide applicants who are offered an interview with
 382 information related to the applicant's eligibility for the
 383 relevant subspecialty board examination(s); (Core)
 384
- 385 II.A.4.a).(10) provide a learning and working environment in which
 386 fellows have the opportunity to raise concerns and
 387 provide feedback in a confidential manner as
 388 appropriate, without fear of intimidation or retaliation;
 389 (Core)
 390
- 391 II.A.4.a).(11) ensure the program's compliance with the Sponsoring
 392 Institution's policies and procedures related to
 393 grievances and due process; (Core)
 394
- 395 II.A.4.a).(12) ensure the program's compliance with the Sponsoring
 396 Institution's policies and procedures for due process
 397 when action is taken to suspend or dismiss, not to
 398 promote, or not to renew the appointment of a fellow;
 399 (Core)
 400

Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring

Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.

- 401
402 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring
403 Institution's policies and procedures on employment
404 and non-discrimination; ^(Core)
405
406 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-
407 competition guarantee or restrictive covenant.
408 ^(Core)
409
410 **II.A.4.a).(14)** document verification of program completion for all
411 graduating fellows within 30 days; ^(Core)
412
413 **II.A.4.a).(15)** provide verification of an individual fellow's
414 completion upon the fellow's request, within 30 days;
415 and, ^(Core)
416

Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.

- 417
418 **II.A.4.a).(16)** obtain review and approval of the Sponsoring
419 Institution's DIO before submitting information or
420 requests to the ACGME, as required in the Institutional
421 Requirements and outlined in the ACGME Program

423 Requirements. ^(Core)
424

425 **II.B. Faculty**

426
427 *Faculty members are a foundational element of graduate medical education*
428 *– faculty members teach fellows how to care for patients. Faculty members*
429 *provide an important bridge allowing fellows to grow and become practice*
430 *ready, ensuring that patients receive the highest quality of care. They are*
431 *role models for future generations of physicians by demonstrating*
432 *compassion, commitment to excellence in teaching and patient care,*
433 *professionalism, and a dedication to lifelong learning. Faculty members*
434 *experience the pride and joy of fostering the growth and development of*
435 *future colleagues. The care they provide is enhanced by the opportunity to*
436 *teach. By employing a scholarly approach to patient care, faculty members,*
437 *through the graduate medical education system, improve the health of the*
438 *individual and the population.*

439
440 *Faculty members ensure that patients receive the level of care expected*
441 *from a specialist in the field. They recognize and respond to the needs of*
442 *the patients, fellows, community, and institution. Faculty members provide*
443 *appropriate levels of supervision to promote patient safety. Faculty*

444 *members create an effective learning environment by acting in a*
445 *professional manner and attending to the well-being of the fellows and*
446 *themselves.*
447

Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment or salary support.

- 448
449 **II.B.1.** For each participating site, there must be a sufficient number of
450 faculty members with competence to instruct and supervise all
451 fellows at that location. ^(Core)
452
453 **II.B.2.** Faculty members must:
454
455 **II.B.2.a)** be role models of professionalism; ^(Core)
456
457 **II.B.2.b)** demonstrate commitment to the delivery of safe, quality,
458 cost-effective, patient-centered care; ^(Core)
459

Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.

- 460
461 **II.B.2.c)** demonstrate a strong interest in the education of fellows; ^(Core)
462
463 **II.B.2.d)** devote sufficient time to the educational program to fulfill
464 their supervisory and teaching responsibilities; ^(Core)
465
466 **II.B.2.e)** administer and maintain an educational environment
467 conducive to educating fellows; ^(Core)
468
469 **II.B.2.f)** regularly participate in organized clinical discussions,
470 rounds, journal clubs, and conferences; and, ^(Core)
471
472 **II.B.2.g)** pursue faculty development designed to enhance their skills
473 at least annually. ^(Core)
474

Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.

- 475
476 **II.B.3.** Faculty Qualifications
477

478 **II.B.3.a)** **Faculty members must have appropriate qualifications in**
479 **their field and hold appropriate institutional appointments.**
480 **(Core)**

481
482 **II.B.3.b)** **Subspecialty physician faculty members must:**

483
484 **II.B.3.b).(1)** **have current certification in the subspecialty by the**
485 **American Board of Internal Medicine or the American**
486 **Osteopathic Board of Internal Medicine, or possess**
487 **qualifications judged acceptable to the Review**
488 **Committee. (Core)**

489
490 **II.B.3.c)** **Any non-physician faculty members who participate in**
491 **fellowship program education must be approved by the**
492 **program director. (Core)**
493

Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.

494
495 **II.B.3.d)** **Any other specialty physician faculty members must have**
496 **current certification in their specialty by the appropriate**
497 **American Board of Medical Specialties (ABMS) member**
498 **board or American Osteopathic Association (AOA) certifying**
499 **board, or possess qualifications judged acceptable to the**
500 **Review Committee. (Core)**

501
502 **II.B.3.d).(1)** **ABIM- or AOBIM-certified clinical faculty members in**
503 **cardiology, gastroenterology, hematology, infectious**
504 **disease, nephrology, oncology, and pulmonary disease,**
505 **must participate in the program. (Core)**
506

507 **II.B.3.d).(2)** **Faculty from anesthesiology, cardiovascular surgery,**
508 **emergency medicine, neurology, neurosurgery, obstetrics**
509 **and gynecology, orthopaedic surgery, surgery, thoracic**
510 **surgery, urology, and vascular surgery should be available**
511 **to participate in the education of fellows. (Core)**
512

513 **II.B.4.** **Core Faculty**

514
515 **Core faculty members must have a significant role in the education**
516 **and supervision of fellows and must devote a significant portion of**
517 **their entire effort to fellow education and/or administration, and**
518 **must, as a component of their activities, teach, evaluate, and provide**
519 **formative feedback to fellows. (Core)**
520

Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum and in assessing fellows' progress toward achievement of competence in the subspecialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program, including completion of the annual ACGME Faculty Survey.

- 521
522 **II.B.4.a) Core faculty members must be designated by the program**
523 **director.** (Core)
524
525 **II.B.4.b) Core faculty members must complete the annual ACGME**
526 **Faculty Survey.** (Core)
527
528 **II.B.4.c) In addition to the program director, there must be at least two core**
529 **faculty members certified in critical care medicine by the ABIM or**
530 **the AOBIM.** (Core)
531
532 **II.B.4.d) In programs approved for more than three fellows, there must be**
533 **at least one core faculty member certified in critical care medicine**
534 **by the ABIM or the AOBIM for every 1.5 fellows.** (Core)
535

Specialty Background and Intent: The program must have a minimum number of ABIM- or AOBIM-certified critical care medicine faculty members who devote significant time to teaching, supervising, and advising residents, and working closely with the program director. One way the critical care medicine-certified faculty members can demonstrate they are devoting a significant portion of their effort to resident education is by dedicating an average of 10 hours per week to the program.

- 536
537 **II.C. Program Coordinator**
538
539 **II.C.1. There must be a program coordinator.** (Core)
540
541 **II.C.2. The program coordinator must be provided with support adequate**
542 **for administration of the program based upon its size and**
543 **configuration.** (Core)
544

Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison with learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management. Program coordinators are expected to develop unique knowledge of the ACGME and Program Requirements, policies, and procedures. Program

coordinators assist the program director in accreditation efforts, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

545
546
547
548
549
550
551

II.D. Other Program Personnel

The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. ^(Core)

Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.

552
553
554
555

569
570
571
572
573
574
575
576
577

III.A.1. Eligibility Requirements – Fellowship Programs

All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada. ^(Core)

Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).

578

- 579 **III.A.1.a)** **Fellowship programs must receive verification of each**
580 **entering fellow’s level of competence in the required field,**
581 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**
582 **Milestones evaluations from the core residency program.** ^(Core)
583
- 584 **III.A.1.b)** **Prerequisite Postgraduate Clinical Education**
585
- 586 **III.A.1.b).(1)** **To be eligible for appointment at the F1 level, fellows**
587 **should have completed an ACGME-, AOA-, ACGME-I, or**
588 **RCPSC-accredited internal medicine or emergency**
589 **medicine program.** ^(Core)
590
- 591 **III.A.1.b).(2)** **To be eligible for appointment at the F2 level, fellows must**
592 **have completed a two- or three-year ACGME-, AOA-,**
593 **ACGME-I, or RCPSC-accredited internal medicine**
594 **subspecialty fellowship.** ^(Core)
595
- 596 **III.A.1.b).(3)** **Fellows from ACGME-, AOA-, ACGME-I, or RCPSC-**
597 **accredited emergency medicine programs should have**
598 **completed at least six months of direct patient care**
599 **experience in internal medicine, of which at least three**
600 **months must have been in a medical intensive care unit.**
601 ^(Core)
602
- 603 **III.A.1.b).(4)** **Fellows from non-ACGME-, AOA, ACGME-I, or RCPSC-**
604 **accredited internal medicine or emergency medicine**
605 **programs must have completed at least three years of**
606 **internal medicine education prior to starting the fellowship.**
607 ^(Core)
608
- 609 **III.A.1.c)** **Fellow Eligibility Exception**
610
- 611 **The Review Committee for Internal Medicine will allow the**
612 **following exception to the fellowship eligibility requirements:**
613
- 614 **III.A.1.c).(1)** **An ACGME-accredited fellowship program may accept**
615 **an exceptionally qualified international graduate**
616 **applicant who does not satisfy the eligibility**
617 **requirements listed in III.A.1., but who does meet all of**
618 **the following additional qualifications and conditions:**
619 ^(Core)
620
- 621 **III.A.1.c).(1).(a)** **evaluation by the program director and**
622 **fellowship selection committee of the**
623 **applicant’s suitability to enter the program,**
624 **based on prior training and review of the**
625 **summative evaluations of training in the core**
626 **specialty; and,** ^(Core)
627

- 628 III.A.1.c).(1).(b) review and approval of the applicant's
 629 exceptional qualifications by the GMEC; and,
 630 (Core)
 631
 632 III.A.1.c).(1).(c) verification of Educational Commission for
 633 Foreign Medical Graduates (ECFMG)
 634 certification. (Core)
 635
 636 III.A.1.c).(2) Applicants accepted through this exception must have
 637 an evaluation of their performance by the Clinical
 638 Competency Committee within 12 weeks of
 639 matriculation. (Core)
 640

Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.

In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.

- 641
 642 III.B. The program director must not appoint more fellows than approved by the
 643 Review Committee. (Core)
 644

- 645 III.B.1. All complement increases must be approved by the Review
 646 Committee. (Core)
 647

- 648 III.C. Fellow Transfers
 649
 650 The program must obtain verification of previous educational experiences
 651 and a summative competency-based performance evaluation prior to
 652 acceptance of a transferring fellow, and Milestones evaluations upon
 653 matriculation. (Core)
 654

655 IV. Educational Program

656
 657 *The ACGME accreditation system is designed to encourage excellence and*
 658 *innovation in graduate medical education regardless of the organizational*
 659 *affiliation, size, or location of the program.*
 660

661 *The educational program must support the development of knowledgeable, skillful*
 662 *physicians who provide compassionate care.*

701

In addition, the program is expected to define its specific program aims consistent with the overall mission of its Sponsoring Institution, the needs of the community it serves and that its graduates will serve, and the distinctive capabilities of physicians it intends to graduate. While programs must demonstrate substantial compliance with the Common and subspecialty-specific Program Requirements, it is recognized that within this framework, programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.

IV.A. The curriculum must contain the following educational components: (Core)

IV.A.1. a set of program aims consistent with the Sponsoring Institution’s mission, the needs of the community it serves, and the desired distinctive capabilities of its graduates; (Core)

IV.A.1.a) The program’s aims must be made available to program applicants, fellows, and faculty members. (Core)

IV.A.2. competency-based goals and objectives for each educational experience designed to promote progress on a trajectory to autonomous practice in their subspecialty. These must be distributed, reviewed, and available to fellows and faculty members; (Core)

IV.A.3. delineation of fellow responsibilities for patient care, progressive responsibility for patient management, and graded supervision in their subspecialty; (Core)

Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

IV.A.4. structured educational activities beyond direct patient care; and, (Core)

Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

IV.A.5. advancement of fellows’ knowledge of ethical principles foundational to medical professionalism. (Core)

702 IV.B. ACGME Competencies
703

Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

704
705 IV.B.1. The program must integrate the following ACGME Competencies
706 into the curriculum: ^(Core)

707
708 IV.B.1.a) Professionalism

709
710 Fellows must demonstrate a commitment to professionalism
711 and an adherence to ethical principles. ^(Core)

712
713 IV.B.1.b) Patient Care and Procedural Skills

714
Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs.* 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.

715
716 IV.B.1.b).(1) Fellows must be able to provide patient care that is
717 compassionate, appropriate, and effective for the
718 treatment of health problems and the promotion of
719 health. ^(Core)

720
721 IV.B.1.b).(1).(a) Fellows must demonstrate competence in the
722 practice of health promotion, disease prevention,
723 diagnosis, care, and treatment of patients of each
724 gender, from adolescence to old age, during health
725 and all stages of illness; and, ^(Core)

726
727 IV.B.1.b).(1).(b) Fellows must demonstrate competence in the
728 prevention, evaluation, and management of
729 patients with:

730
731 IV.B.1.b).(1).(b).(i) acute lung injury, including radiation,
732 inhalation, and trauma; ^(Core)

733
734 IV.B.1.b).(1).(b).(ii) acute metabolic disturbances, including

735		overdosages and intoxication syndromes; (Core)

 1180 national specialty meetings. ^(Detail)
 1181

1182 **V. Evaluation**

1183
 1184 **V.A. Fellow Evaluation**

1185
 1186 **V.A.1. Feedback and Evaluation**
 1187

Background and Intent: Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- **fellows identify their strengths and weaknesses and target areas that need work**
- **program directors and faculty members recognize where fellows are struggling and address problems immediately**

Summative evaluation is *evaluating a fellow’s learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.

1188
 1189 **V.A.1.a) Faculty members must directly observe, evaluate, and**
 1190 **frequently provide feedback on fellow performance during**
 1191 **each rotation or similar educational assignment. ^(Core)**

1192
 1193 V.A.1.a).(1) The faculty must discuss this evaluation with each fellow at
 1194 the completion of each assignment. ^(Core)

1195
 1196 V.A.1.a).(2) Assessment of procedural competence should include a
 1197 formal evaluation process and not be based solely on a
 1198 minimum number of procedures performed. ^(Detail)

1199

Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.

1200

1201 **V.A.1.b)** Evaluation must be documented at the completion of the
1202 assignment. ^(Core)

1203

1204 **V.A.1.b).(1)** For block rotations of greater than three months in
1205 duration, evaluation must be documented at least
1206 every three months. ^(Core)

1207

1208 **V.A.1.b).(2)** Longitudinal experiences such as continuity clinic in
1209 the context of other clinical responsibilities must be
1210 evaluated at least every three months and at
1211 completion. ^(Core)

1212

1213 **V.A.1.c)** The program must provide an objective performance
1214 evaluation based on the Competencies and the subspecialty-
1215 specific Milestones, and must: ^(Core)

1216

1217 **V.A.1.c).(1)** use multiple evaluators (e.g., faculty members, peers,
1218 patients, self, and other professional staff members);
1219 and, ^(Core)

1220

1221 **V.A.1.c).(2)** provide that information to the Clinical Competency
1222 Committee for its synthesis of progressive fellow
1223 performance and improvement toward unsupervised
1224 practice. ^(Core)

1225

Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

1226

1227 **V.A.1.d)** The program director or their designee, with input from the
1228 Clinical Competency Committee, must:

1229

1230 **V.A.1.d).(1)** meet with and review with each fellow their
1231 documented semi-annual evaluation of performance,
1232 including progress along the subspecialty-specific
1233 Milestones. ^(Core)

- 1234
1235 V.A.1.d).(2) assist fellows in developing individualized learning
1236 plans to capitalize on their strengths and identify areas
1237 for growth; and, ^(Core)
1238
1239 V.A.1.d).(3) develop plans for fellows failing to progress, following
1240 institutional policies and procedures. ^(Core)
1241

Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

- 1242
1243 V.A.1.e) At least annually, there must be a summative evaluation of
1244 each fellow that includes their readiness to progress to the
1245 next year of the program, if applicable. ^(Core)
1246
1247 V.A.1.f) The evaluations of a fellow's performance must be accessible
1248 for review by the fellow. ^(Core)
1249
1250 V.A.2. Final Evaluation
1251
1252 V.A.2.a) The program director must provide a final evaluation for each
1253 fellow upon completion of the program. ^(Core)
1254
1255 V.A.2.a).(1) The subspecialty-specific Milestones, and when
1256 applicable the subspecialty-specific Case Logs, must
1257 be used as tools to ensure fellows are able to engage
1258 in autonomous practice upon completion of the
1259 program. ^(Core)
1260
1261 V.A.2.a).(2) The final evaluation must:
1262
1263 V.A.2.a).(2).(a) become part of the fellow's permanent record
1264 maintained by the institution, and must be
1265 accessible for review by the fellow in
1266 accordance with institutional policy; ^(Core)
1267

- 1268 V.A.2.a).(2).(b) verify that the fellow has demonstrated the
 1269 knowledge, skills, and behaviors necessary to
 1270 enter autonomous practice; ^(Core)
 1271
- 1272 V.A.2.a).(2).(c) consider recommendations from the Clinical
 1273 Competency Committee; and, ^(Core)
 1274
- 1275 V.A.2.a).(2).(d) be shared with the fellow upon completion of
 1276 the program. ^(Core)
 1277
- 1278 V.A.3. A Clinical Competency Committee must be appointed by the
 1279 program director. ^(Core)
 1280
- 1281 V.A.3.a) At a minimum the Clinical Competency Committee must
 1282 include three members, at least one of whom is a core faculty
 1283 member. Members must be faculty members from the same
 1284 program or other programs, or other health professionals
 1285 who have extensive contact and experience with the
 1286 program's fellows. ^(Core)
 1287
- 1288 V.A.3.b) The Clinical Competency Committee must:
- 1289
- 1290 V.A.3.b).(1) review all fellow evaluations at least semi-annually;
 1291 ^(Core)
 1292
- 1293 V.A.3.b).(2) determine each fellow's progress on achievement of
 1294 the subspecialty-specific Milestones; and, ^(Core)
 1295
- 1296 V.A.3.b).(3) meet prior to the fellows' semi-annual evaluations and
 1297 advise the program director regarding each fellow's
 1298 progress. ^(Core)
 1299
- 1300 V.B. Faculty Evaluation
- 1301
- 1302 V.B.1. The program must have a process to evaluate each faculty
 1303 member's performance as it relates to the educational program at
 1304 least annually. ^(Core)
 1305

Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should

have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

1315
1316
1317
1318
1319
1320
1321
- V.B.1.a)** This evaluation must include a review of the faculty member’s clinical teaching abilities, engagement with the educational program, participation in faculty development related to their skills as an educator, clinical performance, professionalism, and scholarly activities. ^(Core)
- V.B.1.b)** This evaluation must include written, confidential evaluations by the fellows. ^(Core)
- V.B.2.** Faculty members must receive feedback on their evaluations at least annually. ^(Core)
- V.B.3.** Results of the faculty educational evaluations should be incorporated into program-wide faculty development plans. ^(Core)

Background and Intent: The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

1344
- V.C. Program Evaluation and Improvement**
- V.C.1.** The program director must appoint the Program Evaluation Committee to conduct and document the Annual Program Evaluation as part of the program’s continuous improvement process. ^(Core)
- V.C.1.a)** The Program Evaluation Committee must be composed of at least two program faculty members, at least one of whom is a core faculty member, and at least one fellow. ^(Core)
- V.C.1.b)** Program Evaluation Committee responsibilities must include:
- V.C.1.b).(1)** acting as an advisor to the program director, through program oversight; ^(Core)
- V.C.1.b).(2)** review of the program’s self-determined goals and progress toward meeting them; ^(Core)
- V.C.1.b).(3)** guiding ongoing program improvement, including development of new goals, based upon outcomes; and, ^(Core)

1345
1346 **V.C.1.b).(4)** review of the current operating environment to identify
1347 strengths, challenges, opportunities, and threats as
1348 related to the program's mission and aims. ^(Core)
1349

Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program's progress toward achievement of its goals and aims.

1350
1351 **V.C.1.c)** The Program Evaluation Committee should consider the
1352 following elements in its assessment of the program:
1353
1354 **V.C.1.c).(1)** curriculum; ^(Core)
1355
1356 **V.C.1.c).(2)** outcomes from prior Annual Program Evaluation(s);

- 1398
- 1399 V.C.1.d) The Program Evaluation Committee must evaluate the
- 1400 program's mission and aims, strengths, areas for
- 1401 improvement, and threats. (Core)
- 1402
- 1403 V.C.1.e) The annual review, including the action plan, must:
- 1404
- 1405 V.C.1.e).(1) be distributed to and discussed with the members of
- 1406 the teaching faculty and the fellows; and, (Core)
- 1407
- 1408 V.C.1.e).(2) be submitted to the DIO. (Core)
- 1409
- 1410 V.C.2. The program must participate in a Self-Study prior to its 10-Year
- 1411 Accreditation Site Visit. (Core)
- 1412
- 1413 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.
- 1414 (Core)
- 1415
- Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**
- 1416
- 1417 V.C.3. *One goal of ACGME-accredited education is to educate physicians*
- 1418 *who seek and achieve board certification. One measure of the*
- 1419 *effectiveness of the educational program is the ultimate pass rate.*
- 1420
- 1421 *The program director should encourage all eligible program*
- 1422 *graduates to take the certifying examination offered by the*
- 1423 *applicable American Board of Medical Specialties (ABMS) member*
- 1424 *board or American Osteopathic Association (AOA) certifying board.*
- 1425
- 1426 V.C.3.a) For subspecialties in which the ABMS member board and/or
- 1427 AOA certifying board offer(s) an annual written exam, in the
- 1428 preceding three years, the program's aggregate pass rate of
- 1429 those taking the examination for the first time must be higher

- 1430 than the bottom fifth percentile of programs in that
 1431 subspecialty. ^(Outcome)
 1432
 1433 **V.C.3.b)** For subspecialties in which the ABMS member board and/or
 1434 AOA certifying board offer(s) a biennial written exam, in the
 1435 preceding six years, the program’s aggregate pass rate of
 1436 those taking the examination for the first time must be higher
 1437 than the bottom fifth percentile of programs in that
 1438 subspecialty. ^(Outcome)
 1439
 1440 **V.C.3.c)** For subspecialties in which the ABMS member board and/or
 1441 AOA certifying board offer(s) an annual oral exam, in the
 1442 preceding three years, the program’s aggregate pass rate of
 1443 those taking the examination for the first time must be higher
 1444 than the bottom fifth percentile of programs in that
 1445 subspecialty. ^(Outcome)
 1446
 1447 **V.C.3.d)** For subspecialties in which the ABMS member board and/or
 1448 AOA certifying board offer(s) a biennial oral exam, in the
 1449 preceding six years, the program’s aggregate pass rate of
 1450 those taking the examination for the first time must be higher
 1451 than the bottom fifth percentile of programs in that
 1452 subspecialty. ^(Outcome)
 1453
 1454 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program
 1455 whose graduates over the time period specified in the
 1456 requirement have achieved an 80 percent pass rate will have
 1457 met this requirement, no matter the percentile rank of the
 1458 program for pass rate in that subspecialty. ^(Outcome)
 1459

Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

- 1460
 1461 **V.C.3.f)** Programs must report, in ADS, board certification status
 1462 annually for the cohort of board-eligible fellows that
 1463 graduated seven years earlier. ^(Core)
 1464

Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME

will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

VI. The Learning and Working Environment

Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:

- ***Excellence in the safety and quality of care rendered to patients by fellows today***
- ***Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice***
- ***Excellence in professionalism through faculty modeling of:***
 - ***the effacement of self-interest in a humanistic environment that supports the professional development of physicians***
 - ***the joy of curiosity, problem-solving, intellectual rigor, and discovery***
- ***Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team***

Background and Intent: The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and

fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability

VI.A.1. Patient Safety and Quality Improvement

All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.

Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.

It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.

VI.A.1.a) Patient Safety

VI.A.1.a).(1) Culture of Safety

A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.

VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety. (Core)

VI.A.1.a).(1).(b) The program must have a structure that promotes safe, interprofessional, team-based care. (Core)

VI.A.1.a).(2) Education on Patient Safety

1534
1535
1536
1537

Programs must provide formal educational activities that promote patient safety-related goals, tools, and techniques. ^(Core)

Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.

1579
1580
1581

VI.A.1.a).(3)

Patient Safety Events

Reporting, investigation, and follow-up of adverse events, near misses, and unsafe conditions are pivotal mechanisms for improving patient safety, and are essential for the success of any patient safety program. Feedback and experiential learning are essential to developing true competence in the ability to identify causes and institute sustainable systems-based changes to ameliorate patient safety vulnerabilities.

VI.A.1.a).(3).(a)

Residents, fellows, faculty members, and other clinical staff members must:

VI.A.1.a).(3).(a).(i)

know their responsibilities in reporting patient safety events at the clinical site; ^(Core)

VI.A.1.a).(3).(a).(ii)

know how to report patient safety events, including near misses, at the clinical site; and, ^(Core)

VI.A.1.a).(3).(a).(iii)

be provided with summary information of their institution's patient safety reports. ^(Core)

VI.A.1.a).(3).(b)

Fellows must participate as team members in real and/or simulated interprofessional clinical patient safety activities, such as root cause analyses or other activities that include analysis, as well as formulation and implementation of actions. ^(Core)

VI.A.1.a).(4)

Fellow Education and Experience in Disclosure of Adverse Events

Patient-centered care requires patients, and when appropriate families, to be apprised of clinical situations that affect them, including adverse events. This is an important skill for faculty physicians to model, and for fellows to develop and apply.

1582	VI.A.1.a).(4).(a)	All fellows must receive training in how to disclose adverse events to patients and families. ^(Core)
1583		
1584		
1585

1623	VI.A.1.b).(3).(a).(i)	This should include activities aimed at reducing health care disparities. ^(Detail)
1624		
1625		
1626	VI.A.2.	Supervision and Accountability
1627		
1628	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for the care of the patient, every physician shares in the responsibility and accountability for their efforts in the provision of care. Effective programs, in partnership with their Sponsoring Institutions, define, widely communicate,</i>
1629		
1630		
1631		
1632		

1633 *and monitor a structured chain of responsibility and*
1634 *accountability as it relates to the supervision of all patient*
1635 *care.*

1636
1637 *Supervision in the setting of graduate medical education*
1638 *provides safe and effective care to patients; ensures each*
1639 *fellow's development of the skills, knowledge, and attitudes*
1640 *required to enter the unsupervised practice of medicine; and*
1641 *establishes a foundation for continued professional growth.*

1642
1643 **VI.A.2.a).(1)** Each patient must have an identifiable and
1644 appropriately-credentialed and privileged attending
1645 physician (or licensed independent practitioner as
1646 specified by the applicable Review Committee) who is
1647 responsible and accountable for the patient's care.
1648 (Core)

1649
1650 **VI.A.2.a).(1).(a)** This information must be available to fellows,
1651 faculty members, other members of the health
1652 care team, and patients. (Core)

1653
1654 **VI.A.2.a).(1).(b)** Fellows and faculty members must inform each
1655 patient of their respective roles in that patient's
1656 care when providing direct patient care. (Core)

1657
1658 **VI.A.2.b)** *Supervision may be exercised through a variety of methods.*
1659 *For many aspects of patient care, the supervising physician*
1660 *may be a more advanced fellow. Other portions of care*
1661 *provided by the fellow can be adequately supervised by the*
1662 *appropriate availability of the supervising faculty member or*
1663 *fellow, either on site or by means of telecommunication*
1664 *technology. Some activities require the physical presence of*
1665 *the supervising faculty member. In some circumstances,*
1666 *supervision may include post-hoc review of fellow-delivered*
1667 *care with feedback.*

Background and Intent: There are circumstances where direct supervision without physical presence does not fulfill the requirements of the specific Review Committee. Review Committees will further specify what is meant by direct supervision without physical presence in specialties where allowed. "Physically present" is defined as follows: The teaching physician is located in the same room (or partitioned or curtained area, if the room is subdivided to accommodate multiple patients) as the patient and/or performs a face-to-face service.

1669
1670 **VI.A.2.b).(1)** The program must demonstrate that the appropriate
1671 level of supervision in place for all fellows is based on
1672 each fellow's level of training and ability, as well as
1673 patient complexity and acuity. Supervision may be
1674 exercised through a variety of methods, as appropriate
1675 to the situation. (Core)

1677	VI.A.2.b).(2)	The program must define when physical presence of a supervising physician is required. (Core)
1678		
1679		
1680	VI.A.2.c)	Levels of Supervision
1681		
1682		To promote appropriate fellow supervision while providing for graded authority and responsibility, the program must use the following classification of supervision: (Core)
1683		
1684		
1685		
1686	VI.A.2.c).(1)	Direct Supervision:
1687		
1688	VI.A.2.c).(1).(a)	the supervising physician is physically present with the fellow during the key portions of the patient interaction. (Core)
1689		
1690		
1691		
1692	VI.A.2.c).(2)	Indirect Supervision: the supervising physician is not providing physical or concurrent visual or audio supervision but is immediately available to the fellow for guidance and is available to provide appropriate direct supervision. (Core)
1693		
1694		
1695		
1696		
1697		
1698	VI.A.2.c).(3)	Oversight – the supervising physician is available to provide review of procedures/encounters with feedback provided after care is delivered. (Core)
1699		
1700		
1701		
1702	VI.A.2.d)	The privilege of progressive authority and responsibility, conditional independence, and a supervisory role in patient care delegated to each fellow must be assigned by the program director and faculty members. (Core)
1703		
1704		
1705		
1706		
1707	VI.A.2.d).(1)	The program director must evaluate each fellow’s abilities based on specific criteria, guided by the Milestones. (Core)
1708		
1709		
1710		
1711	VI.A.2.d).(2)	Faculty members functioning as supervising physicians must delegate portions of care to fellows based on the needs of the patient and the skills of each fellow. (Core)
1712		
1713		
1714		
1715		
1716	VI.A.2.d).(3)	Fellows should serve in a supervisory role to junior fellows and residents in recognition of their progress toward independence, based on the needs of each patient and the skills of the individual resident or fellow. (Detail)
1717		
1718		
1719		
1720		
1721		
1722	VI.A.2.e)	Programs must set guidelines for circumstances and events in which fellows must communicate with the supervising faculty member(s). (Core)
1723		
1724		
1725		
1726	VI.A.2.e).(1)	Each fellow must know the limits of their scope of authority, and the circumstances under which the
1727		

1728
1729
1730

fellow is permitted to act with conditional independence. (Outcome)

Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.

1731
1732
1733
1734

1749
1750
1751
1752
1753

VI.A.2.f) Faculty supervision assignments must be of sufficient duration to assess the knowledge and skills of each fellow and to delegate to the fellow the appropriate level of patient care authority and responsibility. (Core)

VI.B. Professionalism

VI.B.1. Programs, in partnership with their Sponsoring Institutions, must educate fellows and faculty members concerning the professional responsibilities of physicians, including their obligation to be appropriately rested and fit to provide the care required by their patients. (Core)

VI.B.2. The learning objectives of the program must:

VI.B.2.a) be accomplished through an appropriate blend of supervised patient care responsibilities, clinical teaching, and didactic educational events; (Core)

VI.B.2.b) be accomplished without excessive reliance on fellows to fulfill non-physician obligations; and, (Core)

Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1754
1755
1756

VI.B.2.c) ensure manageable patient care responsibilities. (Core)

Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1757

1758 VI.B.3. The program director, in partnership with the Sponsoring Institution,
1759 must provide a culture of professionalism that supports patient
1760 safety and personal responsibility. ^(Core)

1761
1762 VI.B.4. Fellows and faculty members must demonstrate an understanding
1763 of their personal role in the:

1764
1765 VI.B.4.a) provision of patient- and family-centered care; ^(Outcome)

1766
1767 VI.B.4.b) safety and welfare of patients entrusted to their care,
1768 including the ability to report unsafe conditions and adverse
1769 events; ^(Outcome)

1770

Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.

1771

1772 VI.B.4.c) assurance of their fitness for work, including: ^(Outcome)

1773

Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

1774

1775 VI.B.4.c).(1) management of their time before, during, and after
1776 clinical assignments; and, ^(Outcome)

1777

1778 VI.B.4.c).(2) recognition of impairment, including from illness,
1779 fatigue, and substance use, in themselves, their peers,
1780 and other members of the health care team. ^(Outcome)

1781

1782 VI.B.4.d) commitment to lifelong learning; ^(Outcome)

1783

1784 VI.B.4.e) monitoring of their patient care performance improvement
1785 indicators; and, ^(Outcome)

1786

1787 VI.B.4.f) accurate reporting of clinical and educational work hours,
1788 patient outcomes, and clinical experience data. ^(Outcome)

1789

1790 VI.B.5. All fellows and faculty members must demonstrate responsiveness
1791 to patient needs that supersedes self-interest. This includes the
1792 recognition that under certain circumstances, the best interests of
1793 the patient may be served by transitioning that patient's care to
1794 another qualified and rested provider. ^(Outcome)

1795

1796 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must
1797 provide a professional, equitable, respectful, and civil environment
1798 that is free from discrimination, sexual and other forms of

1799 harassment, mistreatment, abuse, or coercion of students, fellows,
1800 faculty, and staff. *(Core)*

1801
1802 **VI.B.7.** Programs, in partnership with their Sponsoring Institutions, should
1803 have a process for education of fellows and faculty regarding
1804 unprofessional behavior and a confidential process for reporting,
1805 investigating, and addressing such concerns. *(Core)*

1806
1807 **VI.C. Well-Being**

1827 *careers.*

Background and Intent: The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

1829
1830 **VI.C.1.** The responsibility of the program, in partnership with the
1831 Sponsoring Institution, to address well-being must include:

1832
1833 **VI.C.1.a)** efforts to enhance the meaning that each fellow finds in the
1834 experience of being a physician, including protecting time
1835 with patients, minimizing non-physician obligations,

1836 providing administrative support, promoting progressive
1837 autonomy and flexibility, and enhancing professional
1838 relationships; ^(Core)

1839
1840 VI.C.1.b) attention to scheduling, work intensity, and work
1841 compression that impacts fellow well-being; ^(Core)
1842

1843 VI.C.1.c) evaluating workplace safety data and addressing the safety of
1844 fellows and faculty members; ^(Core)
1845

Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1846
1847 VI.C.1.d) policies and programs that encourage optimal fellow and
1848 faculty member well-being; and, ^(Core)
1849

Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1850
1851 VI.C.1.d).(1) Fellows must be given the opportunity to attend
1852 medical, mental health, and dental care appointments,
1853 including those scheduled during their working hours.
1854 ^(Core)
1855

Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

1856
1857 VI.C.1.e) attention to fellow and faculty member burnout, depression,
1858 and substance abuse. The program, in partnership with its
1859 Sponsoring Institution, must educate faculty members and
1860 fellows in identification of the symptoms of burnout,
1861 depression, and substance abuse, including means to assist
1862 those who experience these conditions. Fellows and faculty
1863 members must also be educated to recognize those
1864 symptoms in themselves and how to seek appropriate care.
1865 The program, in partnership with its Sponsoring Institution,
1866 must: ^(Core)
1867

Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance abuse. Materials and more information are available on the Physician Well-

being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).

VI.C.1.e).(1) encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, substance abuse, suicidal ideation, or potential for violence; ^(Core)

Background and Intent: Individuals experiencing burnout, depression, substance abuse, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

VI.C.1.e).(2) provide access to appropriate tools for self-screening; and, ^(Core)

VI.C.1.e).(3) provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. ^(Core)

Background and Intent: The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1885

1888
1889
1890
1891

VI.C.2. There are circumstances in which fellows may be unable to attend work, including but not limited to fatigue, illness, family emergencies, and parental leave. Each program must allow an appropriate length of absence for fellows unable to perform their patient care responsibilities. ^(Core)

- 1892 VI.C.2.a) The program must have policies and procedures in place to
 1893 ensure coverage of patient care. ^(Core)
 1894
 1895 VI.C.2.b) These policies must be implemented without fear of negative
 1896 consequences for the fellow who is or was unable to provide
 1897 the clinical work. ^(Core)
 1898

Background and Intent: Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

- 1899
 1900 VI.D. Fatigue Mitigation
 1901
 1902 VI.D.1. Programs must:
 1903
 1904 VI.D.1.a) educate all faculty members and fellows to recognize the
 1905 signs of fatigue and sleep deprivation; ^(Core)
 1906
 1907 VI.D.1.b) educate all faculty members and fellows in alertness
 1908 management and fatigue mitigation processes; and, ^(Core)
 1909
 1910 VI.D.1.c) encourage fellows to use fatigue mitigation processes to
 1911 manage the potential negative effects of fatigue on patient
 1912 care and learning. ^(Detail)
 1913

Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

- 1914
 1915 VI.D.2. Each program must ensure continuity of patient care, consistent
 1916 with the program's policies and procedures referenced in VI.C.2–
 1917 VI.C.2.b), in the event that a fellow may be unable to perform their
 1918 patient care responsibilities due to excessive fatigue. ^(Core)
 1919
 1920 VI.D.3. The program, in partnership with its Sponsoring Institution, must
 1921 ensure adequate sleep facilities and safe transportation options for
 1922 fellows who may be too fatigued to safely return home. ^(Core)

1924 VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care
 1925
 1926 VI.E.1. Clinical Responsibilities
 1927
 1928 The clinical responsibilities for each fellow must be based on PGY
 1929 level, patient safety, fellow ability, severity and complexity of patient
 1930 illness/condition, and available support services. ^(Core)
 1931

Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

1932
 1933 VI.E.2. Teamwork
 1934
 1935 Fellows must care for patients in an environment that maximizes
 1936 communication. This must include the opportunity to work as a
 1937 member of effective interprofessional teams that are appropriate to
 1938 the delivery of care in the subspecialty and larger health system.
 1939 ^(Core)
 1940
 1941 VI.E.3. Transitions of Care
 1942
 1943 VI.E.3.a) Programs must design clinical assignments to optimize
 1944 transitions in patient care, including their safety, frequency,
 1945 and structure. ^(Core)
 1946
 1947 VI.E.3.b) Programs, in partnership with their Sponsoring Institutions,
 1948 must ensure and monitor effective, structured hand-over
 1949 processes to facilitate both continuity of care and patient
 1950 safety. ^(Core)
 1951

 1966 VI.F. Clinical Experience and Education

1967
1968
1969
1970
1971
1972

Programs, in partnership with their Sponsoring Institutions, must design an effective program structure that is configured to provide fellows with educational and clinical experience opportunities, as well as reasonable opportunities for rest and personal activities.

Background and Intent: In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

1980

VI.F.1. Maximum Hours of Clinical and Educational Work per Week

Clinical and educational work hours must be limited to no more than 80 hours per week, averaged over a four-week period, inclusive of all in-house clinical and educational activities, clinical work done from home, and all moonlighting. ^(Core)

Background and Intent: Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

Scheduling

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

Oversight

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

Work from Home

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

1981		
1982	VI.F.2.	Mandatory Time Free of Clinical Work and Education
1983		
1984	VI.F.2.a)	The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. ^(Core)
1985		
1986		
1987		
1988		
1989	VI.F.2.b)	Fellows should have eight hours off between scheduled clinical work and education periods. ^(Detail)
1990		
1991		
1992	VI.F.2.b).(1)	There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. ^(Detail)
1993		
1994		
1995		
1996		
1997		
1998		

Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1999
2000
2001
2002

VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. (Core)

Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

2003
2004
2005
2006
2007
2008

VI.F.2.d) Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. (Core)

Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

VI.F.3. Maximum Clinical Work and Education Period Length

VI.F.3.a) Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments. (Core)

VI.F.3.a).(1) Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education. (Core)

VI.F.3.a).(1).(a) Additional patient care responsibilities must not be assigned to a fellow during this time. (Core)

2023

Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- VI.F.4. Clinical and Educational Work Hour Exceptions**
- VI.F.4.a) In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:**
- VI.F.4.a).(1) to continue to provide care to a single severely ill or unstable patient;** (Detail)
 - VI.F.4.a).(2) humanistic attention to the needs of a patient or family; or,** (Detail)
 - VI.F.4.a).(3) to attend unique educational events.** (Detail)
- VI.F.4.b) These additional hours of care or education will be counted toward the 80-hour weekly limit.** (Detail)

Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

 2056
 2057

- VI.F.4.c) A Review Committee may grant rotation-specific exceptions for up to 10 percent or a maximum of 88 clinical and educational work hours to individual programs based on a sound educational rationale.**
- The Review Committee for Internal Medicine will not consider requests for exceptions to the 80-hour limit to the fellows' work week.
- VI.F.4.c).(1) In preparing a request for an exception, the program director must follow the clinical and educational work hour exception policy from the *ACGME Manual of Policies and Procedures*.** (Core)

2058 VI.F.4.c).(2) Prior to submitting the request to the Review
2059 Committee, the program director must obtain approval
2060 from the Sponsoring Institution's GMEC and DIO. (Core)
2061

Background and Intent: The provision for exceptions for up to 88 hours per week has been modified to specify that exceptions may be granted for specific rotations if the program can justify the increase based on criteria specified by the Review Committee. As in the past, Review Committees may opt not to permit exceptions. The underlying philosophy for this requirement is that while it is expected that all fellows should be able to train within an 80-hour work week, it is recognized that some programs may include rotations with alternate structures based on the nature of the specialty. DIO/GMEC approval is required before the request will be considered by the Review Committee.

2062
2063 VI.F.5. Moonlighting
2064
2065 VI.F.5.a) Moonlighting must not interfere with the ability of the fellow
2066 to achieve the goals and objectives of the educational
2067 program, and must not interfere with the fellow's fitness for
2068 work nor compromise patient safety. (Core)
2069
2070 VI.F.5.b) Time spent by fellows in internal and external moonlighting
2071 (as defined in the ACGME Glossary of Terms) must be
2072 counted toward the 80-hour maximum weekly limit. (Core)
2073

Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

2074
2075 VI.F.6. In-House Night Float
2076
2077 Night float must occur within the context of the 80-hour and one-
2078 day-off-in-seven requirements. (Core)
2079

Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

2080
2081 VI.F.7. Maximum In-House On-Call Frequency
2082
2083 Fellows must be scheduled for in-house call no more frequently than
2084 every third night (when averaged over a four-week period). (Core)
2085
2086 VI.F.7.a) Internal medicine fellowships must not average in-house call over
2087 a four-week period. (Core)
2088
2089 VI.F.8. At-Home Call
2090
2091 VI.F.8.a) Time spent on patient care activities by fellows on at-home
2092 call must count toward the 80-hour maximum weekly limit.
2093 The frequency of at-home call is not subject to the every-

2094 third-night limitation, but must satisfy the requirement for one
2095 day in seven free of clinical work and education, when
2096 averaged over four weeks. ^(Core)

2097
2098 VI.F.8.a).(1) At-home call must not be so frequent or taxing as to
2099 preclude rest or reasonable personal time for each
2100 fellow. ^(Core)

2101
2102 VI.F.8.b) Fellows are permitted to return to the hospital while on at-
2103 home call to provide direct care for new or established
2104 patients. These hours of inpatient patient care must be
2105 included in the 80-hour maximum weekly limit. ^(Detail)
2106

Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.

2108 ***

2109
2110 ***Core Requirements:** Statements that define structure, resource, or process elements
2111 essential to every graduate medical educational program.

2112
2113 †**Detail Requirements:** Statements that describe a specific structure, resource, or process, for
2114 achieving compliance with a Core Requirement. Programs and sponsoring institutions in
2115 substantial compliance with the Outcome Requirements may utilize alternative or innovative
2116 approaches to meet Core Requirements.

2117
2118 ‡**Outcome Requirements:** Statements that specify expected measurable or observable
2119 attributes (knowledge, abilities, skills, or attitudes) of residents or fellows at key stages of their
2120 graduate medical education.

2121
2122 **Osteopathic Recognition**

2123 For programs with or applying for Osteopathic Recognition, the Osteopathic Recognition
2124 Requirements also apply (www.acgme.org/OsteopathicRecognition).
