

Minimum Case Numbers

Review Committee for Colon and Rectal Surgery

SURGICAL MANAGEMENT		Min #
Anorectal Procedures		
Abscess procedures		5
Condyloma/high resolution anoscopy procedures		5
Fistula procedures		20
- Complex repairs		10
Fecal incontinence procedures		2
Fissure procedures		4
- Internal sphincterotomy		2
Hemorrhoid procedures		20
- Excisional hemorrhoidectomy		10
Pilonidal procedures		5
Transanal excision		5
TOTAL Anorectal Procedures		88
Abdominal/Pelvic Procedures		
Segmental colectomy		50
Minimally invasive resections		30
Low anterior resection		20
Abdominoperineal resection		5
Ileal anal pouch procedures		3
Prolapse procedures		6
- Perineal		2
Stoma procedures		20
- Stoma complications (fistula, hernia, prolapse, retraction, stenosis)		5
TOTAL Abdominal/Pelvic Procedures		141
Anoscopy/Endoscopy Procedures		
Anoscopy / proctoscopy		30
Colonoscopy		140
- Interventional		30
TOTAL Anoscopy/Endoscopy Procedures		200

DISEASE MANAGEMENT		Min #
Anorectal/Pelvic Floor and Functional GI Disorders		
Anal fissure		5
Anal fistula		10
Condyloma		2
Hemorrhoids		5

Pelvic floor evaluation (anorectal manometry, rectal compliance, balloon expulsion, PNTML, ultrasound, defecography) AND functional GI disorders (constipation, incontinence, rectocele, pelvic pain, diarrhea)	15
Pilonidal	2
TOTAL Anorectal/Pelvic Floor and Functional GI Disorders Diagnoses	39
Abdominal/Pelvic	
Carcinoma of the colon	15
Carcinoma of the rectum	25
- Rectal cancer dissections	15
Genetic neoplasia	3
Diverticular disease	15
Crohn's disease	20
Ulcerative colitis	15
Ileal anal pouch management (bleeding, fistula, leak, neoplasia, obstruction, pouchitis, prolapse, stricture, volvulus)	3
Rectal prolapse	10
TOTAL Abdominal/Pelvic	121
