

Specialty and Subspecialty Block Diagram/Application Table

This table identifies each ACGME-accredited specialty, associated subspecialties, and combined formats. The highlighted subspecialties are multidisciplinary, which means they are sponsored by more than one specialty. Those seeking to apply for a new subspecialty program should contact the Review Committee staff members for an associated specialty. This table should not be used to determine graduate eligibility for subspecialty programs.

This table also identifies whether a subspecialty requires an accreditation site visit for a program application, and whether a specialty or subspecialty has a required block diagram template.

Reapplications may require a site visit prior to review by the Review Committee. Contact the applicable Review Committee staff members when submitting a reapplication.

SPECIALTY	ASSOCIATED SUBSPECIALTY	Specialty-Specific Block Diagram? Y/N	Application Site Visit Required? Y/N
Aerospace Medicine		N	Y
	Addiction Medicine	N	N
	Clinical Informatics	N	N
	Medical Toxicology	N	N
	Undersea and Hyperbaric Medicine	N	N
Allergy and Immunology		N	Y
Anesthesiology		Y	Y
