

Specialty-Specific Program Requirements: Core Faculty Dedicated Time

Effective as of July 1, 2026

Some Review Committees have decided to defer issuing citations on new core faculty dedicated time Program Requirements until a later date. Those specialties for which implementation is delayed are indicated in the table below.

Common Program Requirements are in bold

Specialty/Subspecialty Name	Program Requirement Language
Allergy and Immunology	-
Anesthesiology	-
Adult Cardiothoracic Anesthesiology Anesthesiology Critical Care Medicine Obstetric Anesthesiology Pediatric Anesthesiology Pediatric Cardiac Anesthesiology Regional Anesthesiology and Acute Pain Medicine	-
Colon and Rectal Surgery	-
Dermatology	-
Micrographic Surgery and Dermatologic Oncology Pediatric Dermatology	-
Diagnostic Radiology	-
Interventional Radiology	-
Abdominal Radiology	-

Specialty/Subspecialty Name	Program Requirement Language
<p style="text-align: center;">Musculoskeletal Radiology</p> <p style="text-align: center;">Neuroradiology</p> <p style="text-align: center;">Nuclear Radiology</p> <p style="text-align: center;">Pediatric Radiology</p>	
Emergency Medicine	2.11.c. At a minimum, each required core faculty member, excluding program leadership, must be provided with support equal to a dedicated minimum of 10 percent FTE for educational and administrative responsibilities that do not involve direct patient care. (Core)
Emergency Medical Services	-
Family Medicine	<p>2.11.b. There must be at least one core family medicine physician faculty member, in addition to the program director, for every six residents in programs with 12 or fewer residents, and one core family medicine physician faculty member, in addition to the program director, for every four residents in programs with more than 12 residents. (Core)</p> <p>2.11.c. Core faculty members in programs with an approved complement of 13 or more residents should devote at least 60 percent time (at least 24 hours per week, or 1200 hours per year) to the program, exclusive of patient care without residents. ^(Detail)</p> <p>2.11.d. Core faculty members in programs with an approved complement of 12 or fewer residents should devote at least 40 percent time (at least 16 hours per week or 800 hours per year) to the program, exclusive of patient care without residents. ^(Detail)</p> <p>2.11.e. Core faculty members should devote the majority of this professional effort to teaching, administration, scholarly activity, and supervising resident patient care within the program. ^(Detail)</p> <p>Background and Intent: The core faculty time requirements address the role and responsibilities of core faculty members, including both clinical and non-clinical activities, and the corresponding time to meet those responsibilities. The requirements do not address how this is accomplished, and do not mandate dedicated or protected time for these activities. Programs, in partnership with their Sponsoring Institutions, will determine how compliance with the requirements is achieved.</p>
Internal Medicine	2.11.b. In addition to the program director and associate program director(s), programs must

Specialty/Subspecialty Name	Program Requirement Language
	<p>2.11.c. At a minimum, the required core faculty members, in aggregate and excluding program leadership, must be provided with support equal to an average dedicated minimum of 0.1 FTE for educational and administrative responsibilities that do not involve direct patient care. ^(Core)</p>

Specialty-Specific Background and Intent: The Review Committee specified the minimum required number of internal medicine physician core faculty members, but did not specify how the aggregate FTE support should be distributed to allow programs, in partnership with their sponsoring institution, to allocate the support as they see fit. For instance, a program with an approved complement of 36 residents is required to have a minimum of four internal medicine physician core faculty members and a minimum aggregate FTE of 40 percent. The program could choose to operationalize this as four internal medicine physician faculty members each

with 10 percent FTE support, but it could also have eight members each with five percent FTE support, or one member with twenty percent FTE and four members with five percent each.

The duties of the program director, associate program director(s), and internal medicine core faculty members are separate and distinct. As such, the minimum required internal medicine core faculty members are in addition to the program director and the associate program director(s). One individual cannot “count” as both an associate program director and internal medicine core faculty member.

The requirement related to support for core internal medicine faculty members is intended to ensure these faculty members have sufficient protected time to meet the following educational responsibilities:

- Membership on the Clinical Competency Committee
- Participation in the annual program review as Chair or member of the Program Evaluation Committee
- Implementation and analysis of the outcome of action plans developed by the Program Evaluation Committee
- Significant participation in recruitment and selection
- Advising, mentoring, and coaching residents (co-creating,

Subspecialty-Specific Background and Intent: The Review Committee created the table below to summarize the total minimum FTE for program director, associate program director(s), and core faculty members needed based on approved complement. The table also clarifies the minimum number of core faculty members necessary based on program size. Two examples are provided.

- A two-fellow program needs a program director and a minimum of one subspecialty core faculty member (who is also the associate program director) and a total minimum FTE of 30 percent. This total minimum FTE is a sum of the minimum of 20 percent for the program director and an aggregate of 10 percent for the associate program director/other core faculty member.
- An eight-fellow program needs a program director and a minimum of four subspecialty core faculty members (at least one being the associate program director) and a total minimum FTE of 58 percent. The total minimum FTE is a sum of the minimum of 25 percent/FTE for the program director, an aggregate of 13 percent/FTE for the associate program director(s), and an aggregate of 20 percent/FTE for the remaining core faculty members.

As long as the program meets the requirements for the minimum FTE for the program director, the minimum number of core faculty members, and the aggregate FTE for core faculty members and associate program director(s), programs may exercise flexibility in how the aggregate FTE for core faculty members and associate program director(s) is distributed. For instance, in the two-fellow program example, the program can allocate the aggregate 10 percent/FTE in whatever manner the program and institutional leadership feel works best.

Subspecialty-Specific Background and Intent: The Review Committee created the table below to summarize the total minimum FTE for program director, associate program director(s), and core faculty members needed based on approved complement. The table also clarifies the minimum number of core faculty members necessary based on program size. Two examples are provided.

- A two-fellow program needs a program director and a minimum of two subspecialty core faculty members (at least one being the associate program director) and a total minimum FTE of 35 percent. This total minimum FTE is a sum of the minimum of 20 percent for the program director and an aggregate of 15 percent for the associate program director and the other core faculty members.
- An eight-fellow program needs a program director and a minimum of four subspecialty core faculty members (at least one being the associate program director) and a total minimum FTE of 58 percent. The total minimum FTE is a sum of the minimum of 25 percent/FTE for the program director, an aggregate of 13 percent/FTE for the associate program director(s), and an aggregate of 20 percent/FTE for the remaining core faculty members.

As long as the program meets the requirements for the minimum FTE for the program director, the minimum number of core faculty members, and the aggregate FTE for core faculty members and associate program director(s), programs may exercise flexibility in how the aggregate FTE for core faculty members and associate program directors(s) is distributed. For instance, in the two-fellow program example, the program can allocate the aggregate 15 percent/FTE as 10 percent/FTE for the associate program director/ core faculty member and five percent for the remaining core faculty member, or in whatever manner the program and institutional leadership feel works best.

<p>Subspecialty-Specific Background and Intent: The Review Committee created the table below to</p>																					

Specialty/Subspecialty Name	Program Requirement Language
	<p>summarize the total minimum FTE for program director, associate program director(s), and core faculty members needed based on approved complement. The table also clarifies the minimum number of core faculty members necessary based on program size. Two examples are provided.</p> <ul style="list-style-type: none"> • A two-fellow program needs a program director and a minimum of two subspecialty core faculty members (at least one being the associate program director) and a total minimum FTE of 35 percent. This total minimum FTE is a sum of the minimum of 20 percent for the program director and an aggregate of 15 percent for the associate program director and the other core faculty members. • An eight-fellow program needs a program director and a minimum of four subspecialty core faculty members (at least one being the associate program director) and a total minimum FTE of 58 percent. The total minimum FTE is a sum of the minimum of 25 percent/FTE for the program director, an aggregate of 13 percent/FTE for the associate program director(s), and an aggregate of 20 percent/FTE for the remaining core faculty members. <p>As long as the program meets the requirements for the minimum FTE for the program director, the minimum number of core faculty members, and the aggregate FTE for core faculty members and associate program director(s), programs may exercise flexibility in how the aggregate FTE for core faculty members and associate program directors(s) is distributed. For instance, in the two-fellow program example, the program can allocate the aggregate 15 percent/FTE as 10 percent/FTE for the associate program director/ core faculty member and five percent for the remaining core faculty member, or in whatever manner the program and institutional leadership feel works best.</p>

	<p>Subspecialty-Specific Background and Intent: The Review Committee created the table below to summarize the total minimum FTE for program director, associate program director(s), and core faculty members needed based on approved complement. The table also clarifies the minimum number of core faculty members necessary based on program size. Two examples are provided.</p> <ul style="list-style-type: none"> • A two-fellow program needs a program director and a minimum of one core faculty member in addiction medicine (who is also the associate program director), and a total minimum FTE of 30 percent. This total minimum FTE is a sum of the minimum of 20 percent for the program director and an aggregate of 10 percent for the associate program director/other core faculty member. • An eight-fellow program needs a program director and a minimum of four addiction medicine core faculty members in addiction medicine(at least one being the associate program director), and a total minimum FTE of 58 percent. The total minimum FTE is a sum of the minimum of 25 percent/FTE for the program director, an aggregate of 13 percent/FTE for the associate program director(s), and an aggregate of 20 percent/FTE for the remaining core faculty members. <p>As long as the program meets the requirements for the minimum FTE for the program director, the minimum number of core faculty members in addiction medicine and the aggregate FTE for core faculty members and associate program director(s), programs may exercise flexibility in how the aggregate FTE for core faculty members and associate program director(s) is distributed. For instance, in the two-fellow program example, the program can allocate the aggregate 10 percent/FTE in whatever manner the program and institutional leadership feel works best.</p>

Internal Medicine-Pediatrics	2.11.d. -At a minimum, the required core faculty members, in aggregate and excluding program leadership, must be provided with support equal to an average dedicated minimum of .1 FTE for educational and administrative responsibilities that do not involve direct patient care. ^(Core)																																																													

Specialty/Subspecialty Name	Program Requirement Language
(Combined program for Internal Medicine and Pediatrics)	Specialty-Specific Background and Intent: The Review Committees specified the minimum required number of core faculty members but did not specify how the aggregate FTE support should be distributed to allow programs, in partnership with their Sponsoring Institution, to allocate the support as they see fit. For instance, a program with an approved complement of 32 residents is required to have a minimum of four core faculty members, two internal medicine physician and two pediatrician core faculty members, and a minimum aggregate FTE of 40 percent. The program could choose to operationalize this as two internal medicine physician and two pediatrician faculty members each with 10 percent FTE support, but it could also have four internal medicine physician and four pediatrician faculty eight members each with five percent FTE support.
