ACGME Mission

The mission of the ACGME is to improve health care and population health by assessing and enhancing the quality of resident and fellow physicians' education through advancements in accreditation and education.

ACGME MISSION, VISION, and VALUES
The ACGME Vision

We envision a health care system in which the Quadruple Aim* has been realized. We aspire to advance a transformed system of graduate medical education with global reach that is:

• Competency-based with customized professional development and identity formation for all physicians;
• Led by inspirational faculty role models overseeing supervised, humanistic, clinical educational experiences;
• Immersed in evidence-based, data-driven, clinical learning and care environments defined by excellence in clinical care, safety, cost-effectiveness, professionalism, and diversity, equity, and inclusion;
• Located in health care delivery systems equitably meeting local and regional community needs; and,
• Graduating residents and fellows who strive for continuous mastery and altruistic professionalism throughout their careers, placing the needs of patients and their communities first.

*The Quadruple Aim simultaneously improves patient experience of care, population health, and health care provider work life, while lowering per capita cost.
Purpose of ACGME Accreditation

• Accreditation of Sponsoring Institutions and residency/fellowship programs by the ACGME is a voluntary process of evaluation and review.

• Accreditation benefits the public, protects the interests of residents and fellows, and improves the quality of teaching, learning, research, and professional practice.

• The accreditation processes are designed to evaluate, improve, and publicly recognize Sponsoring Institutions and graduate medical education programs that are in substantial compliance with standards of educational quality established by the ACGME.
ACGME Accreditation

The ACGME has a twofold purpose:

1. to establish and maintain accreditation standards that promote the educational quality of residency and fellowship education programs; and,

2. to promote residency/fellowship education that is sensitive to the quality and safety of patient care in an environment that fosters the well-being, learning, and professionalism of residents and fellows.

It is not the intent or purpose of the ACGME to establish numbers of physicians in any specialty.
ACGME Board and Review Committees

- Board sets policy and direction
- Board delegates authority to accredit programs/institutions to the review committees
- Board monitors Review/Recognition Committees
  - Monitoring Committee
- Board approves:
  - Institution/specialty/recognized requirements
  - Common program requirements
Differences Between the ACGME and the Certifying Boards

- Accredits training programs
- Develops Program Requirements for training programs
- Evaluates programs through annual data review and site visits

- Certifies *individual* physicians
- Sets the standards residents and fellows must meet to gain certification
- Works with the ACGME to ensure alignment of Program and Certification Requirements

©2023 ACGME
Review Committees

The function of Review Committees is to set accreditation (i.e., requirements) and to provide peer evaluation of Sponsoring Institutions or residency and fellowship programs.

The purpose of the evaluation is to assess whether a Sponsoring Institution or program is in substantial compliance with the applicable Institutional, Program Requirements, and to confer an accreditation status.

• Review Committees are composed of:
  • volunteer physicians
  • a resident/fellow representative
  • a non-physician public member
Review Committees

- There are 28 specialty Review Committees, including one for transitional year programs.
- The Institutional Review Committee reviews and accredits institutions that sponsor graduate medical education programs.
- Each Review Committee receives data on all accredited or applicant programs or institutions within its purview, and makes an accreditation status decision on each, annually.
Sponsoring Institutions

- Every ACGME-accredited graduate medical education program must be overseen and supported by an ACGME-accredited Sponsoring Institution.
- Each Sponsoring Institution must achieve and maintain institutional accreditation before its programs can apply for ACGME accreditation.
- Sponsoring Institutions oversee and provide assurance for the quality of the learning and working environment in all of their ACGME-accredited programs.
- Sponsoring Institutions support patient safety and quality of care at all participating sites.
ACGME Recognition

• Recognition is additional acknowledgment, supplemental to accreditation, for identified elements or categories of a Sponsoring Institution or program.

• Recognition is conferred through a voluntary process of evaluation and review based on published Recognition Requirements.

• ACGME recognition is overseen by a Recognition committee made up of volunteer experts, a representative of the public, and a resident or fellow member.

• Sponsoring Institutions or programs with ACGME recognition must be accredited by the ACGME.
Types of Recognition

- The ACGME offers Osteopathic Recognition to accredited programs that provide requisite education in Osteopathic Principles and Practice.
- The ACGME offers Recognition of Sponsoring Institutions that have non-standard training (NST) programs. NST programs provide clinical training for foreign national physicians in advanced subspecialty programs for which there is no ACGME accreditation or American Board of Medical Specialties (ABMS) member board certification.
Psychiatry Review Committee Members

- Suzanne Sampang, MD* (Chair)
- Brigitte Bailey, MD (Vice Chair)
- Joan Anzia, MD*
- Adam Brenner, MD
- Tracee Elizabeth Bryant Hall, MPH (Public Member)
- Catherine Crone, MD
- Peter Daniolos, MD
- Richard L. Frierson, MD
- Erick Hung, MD
- Furhut Janssen, DO
- John Mark Kinzie, MD
- Maria Lapid, MD

- Tanya Lopez, MS (Ex-officio-AMA)
- Jeffrey M. Lyness, MD (Ex-officio-ABPN)
- Vishal Madaan, MD (Ex-officio-APA)
- Robert McCarron, DO
- Jonathan Nahmias, MD (Resident Member)
- Julie A. Niedermier, MD
- Jason Ouimette (Ex-officio-AOA)
- Ismene L. Petrakis, MD
- Donna M. Sudak, MD
- John Q. Young, MD*
- Art Walaszek, MD

*Term ends June 30, 2023
RC members are not allowed to discuss RC activities, accreditation decisions
Incoming RC-Psychiatry Members

- Sandra Batsel-Thomas, MD  
  University of Kentucky – Lexington, KY

- Sheldon Benjamin, MD  
  UMass Chan Medical School – Worcester, MA

- Judith L. Lewis, MD  
  University of Vermont Medical Center – Burlington, VT

Terms begin: July 1, 2023

Key Components of NAS (Next Accreditation System)

- Continuous accreditation model
- Annual submission of core program data
- Annual program review of core program data
- Scheduled (self-study) visits every ten years
- Focused site visits at any time only for specific issues
- Full site visits at any time for multiple or broad issues
Annual Data Elements

- Resident/Fellow Survey
- Clinical Experience (Duty hours)
- ABPN Pass Rate
- Faculty Survey
- ABPN/ AOBNP Faculty Certification
- Scholarly Activity
- Attrition/Changes/Ratio
- Subspecialty Performance
- Omission of Data
The Steps to Continuous Accreditation

Program Application
Once an application is submitted, a site visit will be scheduled for core programs or placed on the next meeting for subspecialty programs.

Initial Site Visit
A site visit will occur within 2 years of initial accreditation for all programs.

Annual Data Review
After a program achieves Continued Accreditation, data elements are reviewed on an annual basis.

Self-study | 10-year Site Visit
A full site visit occurring every 10 years for each accredited Sponsoring Institution and program is preceded by a comprehensive Self-Study process.
Citations identify areas of non-compliance

- Linked to specific requirements
- Program responses required in ADS
- Citations are given and removed by Review Committee (not by staff)
Areas for Improvement (AFI)

- “General concerns”
- May be given or removed by staff (RC rules) or members
- May or may not be specifically linked to a requirement: General concerns in RS, for example
- Do not require written response in ADS
- Expectation that AFIs will be monitored locally
  *PD and GMEC will work to resolve*
- AFIs will be tracked by RC, but only show up in the next review if the program is triggered again
# 2021-2022 Frequent Citations and AFIs

## Psychiatry/Psychiatry Subspecialties

<table>
<thead>
<tr>

</tbody>
</table>
Along with an accreditation decision, the RC may…

- Commend exemplary performance or innovations
- Identify areas for improvement (AFIs)
- Issue citations or extend existing citations
- Resolve previous citations
- Increase or reduce resident complement
Communicating Results back to the Program(s)

- Within 5 business days following the RC meeting
- Email notifications are sent to the PD(s), DIO, and PC containing accreditation status decisions

- Up to 60 days following the RC meeting
- Letters of Notification (LONs) are posted to ADS
- PD(s), DIO, and PC are notified via email that LON is available
- LONs attached to email notifications for all programs

5 Days

60 days
Discussion Topics

Common Program Requirements (CPRs) and Psychiatry Program Requirements
Programs are accountable to both Common Program Requirements and the applicable specialty-specific Program Requirements.

The Common Program Requirements are a basic set of standards (requirements) for education, training, and preparation of physicians applicable to all programs regardless of specialty or subspecialty.

The Program Requirements set the context within clinical learning environments for development of the skills, knowledge, and attitudes necessary to take personal responsibility for the individual care of patients.

The Program Requirements facilitate an environment in which residents and fellows can interact with patients under the guidance and supervision of qualified faculty members who give value, context, and meaning to those interactions.
Changes to CPR and Psychiatry Specialty Specific Program Requirements

PR II.A.2.a) Program Director

Program leadership, in aggregate, must be provided with support equal to a dedicated minimum time specified below for administration of the program. This may be time spent by the program director only or divided between the program director and one or more associate (or assistant) program directors.}

<td>0.7</td>
</tr>
</tbody>
</table>
Program Coordinators

- The minimum FTE for the coordinator specified in the requirements should be devoted entirely to administrative responsibilities for the accredited program.
- If a specialty’s program requirements specify a full-time coordinator, the program may not assign any additional responsibilities including, but not limited to, supporting non-accredited programs, or other departmental administrative responsibilities.
- We encourage programs to focus on allocating time between ACGME-required program administration and other duties required by the institution, so that these individuals are not overburdened.
Major Revision of Psychiatry Program Requirements

• The Review Committee for Psychiatry is preparing to begin a major revision of the Program Requirements for the subspecialties of addiction psychiatry, child and adolescent psychiatry, consultation-liaison psychiatry, forensic psychiatry, and geriatric psychiatry for an effective date of July 2024.

• The requirements addressing dedicated time and support for program leadership, program coordinators, and core faculty members were recently revised based on guidance from the ACGME Board of Directors, following a public comment period in the fall of 2021. Therefore, those requirements will not be modified during the upcoming major revision and are not subject to public comment at this time.

• Additionally, changes to the ACGME Common Program Requirements are not within the purview of the Review Committee and, therefore, comments related to Common Program Requirements, indicated by bold font in the Requirements documents, should not be submitted and will not be considered.

• The 45-day public comment period will occur in the Spring of 2023
ACGME Task Force on Burden Reduction formed to reduce administrative burden on program leaders, core faculty members, and program coordinators.

ACGME asked the GME community for novel ideas to address challenges in delivering exceptional educational experience for residents and fellows.

Going forward, focused revisions may be considered at scheduled intervals between major revisions, which will typically be every three years.

- On rare occasions, revisions may be considered between these scheduled intervals.
New Common Program Requirements Background and Intent

• The Common Program Requirement Background and Intent sections under requirements II.A.2. and II.C.2. have been updated to align with the Common Program FAQ regarding program leadership and program coordinator time.

• These updates are reflected in the Residency, Fellowship, One-Year Fellowship, and Post-Doctoral Education versions of the Common Program Requirements effective July 1, 2023, available under Future Effective Date on the Common Program Requirement page.
Burden Reduction: Faculty Board Certification

- Effective July 1, 2022, the ACGME began using data obtained from the American Board of Medical Specialties and American Osteopathic Association for faculty certification.

- These data will be populated into the Faculty Roster in the Accreditation Data System (ADS) and used during program review and in accreditation and recognition site visit materials. This change is intended to reduce programs’ data entry burden.

- Programs will no longer be required to manually enter faculty members’ ABMS/AOA board certification data in ADS.

- Physician faculty members will be matched to the datasets based on National Provider Identifier (NPI) number, as well as name, date of birth, and medical school graduation year.

- Faculty members who are newly entered into ADS will have their certification information matched and populated within 24 hours. If a faculty member’s certification information is missing or inaccurate, programs will be able to provide the ACGME with the correct details in the faculty member’s profile. For faculty members who are certified by another body, or are not certified, programs will continue to manually provide that information.
New ACGME Resident/Fellow and Faculty Surveys

- Program Directors will not be requested to complete the Faculty Survey
- Core faculty member in specialty programs (physician and non-physicians) will be requested to complete the Faculty Survey
- All faculty members in subspecialty programs (physicians and non-physicians) will be scheduled to participate in the Faculty Survey
Discussion Topics

Board Certification Requirements
Section V: Evaluation

• Board Certification
  • Program Director should encourage graduates to take applicable ABMS or AOA certification examination-replaces all existing specialty-specific take rate requirements

• Board pass rate (addresses both written and oral exams):
  • Aggregate pass rate of program graduates taking the examination for the first time must be above the fifth percentile
  • Based on three years of data for specialty using an annual exam, and six years of data for specialties using a biennial exam
  • Any program whose graduates over the time period specified in the requirement have achieved an 80 percent pass rate will have met this requirement, no matter the percentile rank of the program. (Outcome)
  • Programs must report (in ADS) board certification rates annually for the cohort of residents that graduated seven years earlier
5th percentile defined by the bottom 5% of program pass rates

- Calculate the 5th percentile separately for each specialty, board, and exam type combination
  - Include all programs with any data that are beyond Initial Accreditation
  - 5th percentile calculated for programs in NAS using most recent 3-year average
Discussion Topics

Leaves of Absence
Institutional Requirements – Guiding Principles
Vacation and Leaves of Absence

- Address medical, parental, and caregiver leave
- Six weeks of paid leave once during program, with one week additional vacation time in same year
- Health insurance available during leave
- Equitable treatment of residents under leave policies (e.g., call responsibilities, promotion/renewal)
- Flexibility of scheduling, time off utilization, and fellowship start dates
- Policies widely available for prospective residents
- Policies consistent with board requirements
- Address extended leaves or multiple episodes of leave
### Institutional Requirements

#### IV.H. Vacation and Leaves of Absence

**IV.H.1.** The Sponsoring Institution must have a policy for vacation and leaves of absence, consistent with applicable laws. This policy must:

- **Core**

<table>
<thead>
<tr>
<th><strong>IV.H.1.a)</strong></th>
<th>provide residents/fellows with a minimum of six weeks of approved medical, parental, and caregiver leave(s) of absence for qualifying reasons that are consistent with applicable laws at least once and at any time during an ACGME-accredited program, starting the day the resident/fellow is required to report.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th><strong>IV.H.1.b)</strong></th>
<th>provide residents/fellows with at least the equivalent of 100 percent of their salary for the first six weeks of the first approved medical, parental, or caregiver leave(s) of absence taken.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th><strong>IV.H.1.c)</strong></th>
<th>provide residents/fellows with a minimum of one week of paid time off reserved for use outside of the first six weeks of the first approved medical, parental, or caregiver leave(s) of absence taken.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th><strong>IV.H.1.d)</strong></th>
<th>ensure the continuation of health and disability insurance benefits for residents/fellows and their eligible dependents during any approved medical, parental, or caregiver leave(s) of absence.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th><strong>IV.H.1.e)</strong></th>
<th>describe the process for submitting and approving requests for leaves of absence.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th><strong>IV.H.1.f)</strong></th>
<th>be available for review by residents/fellows at all times; and</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th><strong>IV.H.1.g)</strong></th>
<th>This policy must ensure that each of its ACGME-accredited programs provides its residents/fellows with accurate information regarding the impact of an extended leave of absence upon the criteria for satisfactory completion of the program and upon a resident’s/fellow’s eligibility to participate in examinations by the relevant certifying board(s).</th>
</tr>
</thead>

<tbody>
<tr>
<td>Institutional GME Policies and Procedures</td>
<td>Required elements of institutional policies for vacations and leaves of absence pertain to both continuous and intermittent leaves of absence.</td>
</tr>
<tr>
<td>Do institutional policies for resident/fellow leaves of absence address needs for continuous or intermittent leaves of absence?</td>
<td></td>
</tr>
<tr>
<td>[Institutional Requirement: IV.H.1.1]</td>
<td></td>
</tr>
<tr>
<td>Can vacation and other pay sources be used to support residents/fellows’ salary during leaves of absence?</td>
<td>Sponsoring Institutions may use vacation and other pay sources to provide paid time off during leaves of absence, provided that doing so is consistent with institutional policy and applicable laws, and that one week of paid time off is reserved for use outside of the first six weeks of leave. The IRC will not cite Sponsoring Institutions for new elements of vacation and leave policies described in Institutional Requirements IV.H.1.a-f) before July 1, 2023.</td>
</tr>
<tr>
<td>[Institutional Requirement: IV.H.1.b-c]</td>
<td></td>
</tr>
<tr>
<td>Is there a timeframe within which residents/fellows must use the week of paid time off that is reserved for use outside of the first six weeks of the first approved medical, parental, or caregiver leave(s) of absence taken?</td>
<td>The reserved one week of paid time off (outside the first six weeks of approved medical, parental, and caregiver leaves of absence) is to be available within the appointment year(s) in which the leave is taken. It is not required that this reserved week carry over into subsequent years of an individual’s educational program. The IRC will not cite Sponsoring Institutions for elements of vacation and leave policies described in Institutional Requirements IV.H.1.a-f) before July 1, 2023.</td>
</tr>
</tbody>
</table>
Institutional Requirements

• Any questions regarding these requirements direct to Dr. Gerald Wicklam, Executive Director of the Institutional Review Committee (IRC).
Medically Underserved Areas and Populations

Medically Underserved Areas/Populations and GME

Consistent with its mission to improve health care and population health, the ACGME seeks to enhance physician workforce development in communities that face physician shortages in various specialties.

As part of this effort, the ACGME developed a framework to encourage the development of graduate medical education (GME) that will result in enhanced access to and availability of health care in medically underserved areas (MUAs) and medically underserved populations (MUPs). Medically underserved areas and populations (MUAs/Ps) are places or communities in which groups of people have unmet health or health care needs.

This framework outlines initial actions addressing graduate medical education in MUAs/Ps.

I. ENHANCING ACGME SUPPORT
- Establish advisory group for MUAs/Ps and GME
- Enhance systems and data collection to identify and measure GME in MUAs/Ps
- Develop learning activities related to MUAS/Ps

II. ENGAGING WITH ACGME REVIEW PROCESSES
- Collaborate with ACGME committees to implement framework
- Align accreditation with external regulations and processes
- Monitor progress toward establishing new GME in MUAs/Ps

III. FACILITATING EFFECTIVE INSTITUTIONAL OVERSIGHT AND ADMINISTRATION
- Consider various successful institutional models
- Streamline accreditation application processes
- Describe learning and working environment infrastructure

IV. UNDERSTANDING ACGME COMPLIANCE CHALLENGES
- Important considerations for GME in MUAs/Ps
  - Curriculum
  - Educational experiences
  - Program participation
  - Program personnel
  - Continuity
  - Retention
  - Supervision
  - Evaluation

Quick Links
- Medically Underserved Areas and Populations

Relevant Presentations in Learn at ACGME
- MUAs/P: Partnerships to Establish and Sustain Rural GME
Medically Underserved Areas and Populations

The following processes are available to obtain ACGME RTP designation:

• Permanent complement increase and identification of new rural site(s) for an existing program

• Application for a new program*

*New programs may share resources and overlapping resident/fellow experiences with an already existing ACGME-accredited program. Requests for RTP designation during the program application process may identify and existing program as a Rural Track Related Program (definition available on the website – muap@acgme.org).

Site Visit

Accreditation and recognition site visits are conducted in person or using remote technology. Sponsoring Institutions and programs will be notified of the modality for their site visit.

Department of Accreditation, Recognition, and Field Activities

The accreditation and recognition process for Sponsoring Institutions and programs includes site visits to assess compliance with the applicable Institutional and Program Requirements. All accreditation and recognition site visits for Sponsoring Institutions and programs are performed by Accreditation Field Representatives who are employed by the ACGME.

Below are responses to general questions about the accreditation and recognition site visit process. Specific questions or topics not covered in these FAQs should be addressed to the ACGME Field Activities staff members or the staff of the relevant Review or Recognition Committee.

Refer to the Quick Links on the right-hand side of this page for more information about accreditation and recognition site visits.

Frequently Asked Questions (FAQs) Related to the Accreditation and Recognition Site Visit

Click on the topics below to view related questions and answers.

**About the Accreditation and Recognition Site Visit**
This section answers questions related to the purpose of a site visit, who conducts the site visit, different types of site visits, blackout dates, and changing the date of a site visit.

**Preparing for an Accreditation and/or Recognition Site Visit**
This section answers questions related to scheduling a site visit, who should be present for a site visit, resident and fellow interviews, and updating the Accreditation Data System (ADS).

Clinician Educator Milestones

The Clinician Educator Milestones are a joint effort of the ACGME, the Accreditation Council for Continuing Medical Education, the Association of American Medical Colleges, and the American Association of Colleges of Osteopathic Medicine. This series of subcompetencies is designed to aid in the development and improvement of teaching and learning skills across the continuum of medical education.

*The Clinician Educator Milestones are not an ACGME accreditation requirement and are not intended to become one in the future.*

The Clinician Educator Milestones provide a framework for assessment of educational skills of faculty members who teach residents and fellows. Faculty members can use these milestones for their own self-assessment as educators, or with a trusted peer to provide feedback and assessment. The ultimate goal of these milestones is to provide faculty members with tools to help them with lifelong growth and development as educators. They are designed for:

- Educators
- Educational scholars
- Educational leaders (administrators, program directors)

There are 20 subcompetencies, each covering a different area of professional development. Each serves as a stand-alone assessment of a specific teaching skill or method. Individuals may choose to focus on one or more of the milestones, but do not need to assess against all the milestones.

**Who will benefit from the Clinician Educator Milestones?**
Facility members, resident and fellow learners, and ultimately, patients will benefit from the growth and professional development faculty members gain.

The Clinician Educator Milestones can provide a framework for organizations to support development of teaching, scholarship, and leadership, while providing opportunities for educators’ lifelong learning and growth.
Milestones 2.0 Update

Celebrating the completion of Milestones 2.0 for all specialties this spring!

Multi-year Milestones Program Evaluation will begin this fall. Many opportunities to share your thoughts via focus groups, surveys, and interviews. Watch the Milestones Engagement page and the weekly ACGME Communications email.
Milestones Resources

Resources are added and updated throughout the year.

Current resources include:

- CCC Guidebook
- Assessment Guidebook
- DOCC and TEAM Assessment Tools
- Clinician Educator Milestones
- Resident and Fellow Guidebook
