Osteopathic Recognition Update

Session: SES115

Presented: March 9, 2024
Conflict of Interest Disclosure

Speaker(s):
Eileen Hug, DO – Chair, Osteopathic Recognition Committee
Tiffany Moss, MBA – ACGME Executive Director

Disclosure
None of the speakers for this educational activity have relevant financial relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing health care products used by or on patients.
Introductions

Eileen Hug, DO
Chair, Osteopathic Recognition Committee

Tiffany Moss, MBA
ACGME Executive Director
Objectives

- Review Osteopathic Recognition program statistics.
- Discuss committee announcements and updates.
- Identify the top five areas of citations/areas for improvement (AFIs).
- Review the Osteopathic Recognition resources.
Program Statistics
Number of Programs with Osteopathic Recognition (by Specialty)

176 Family Medicine

259

27 Internal Medicine

5 Emergency Medicine
5 Orthopaedic Surgery
5 Surgery
5 Transitional Year
4 Obstetrics and Gynecology
4 Sports Medicine (Family Medicine)
3 Anesthesiology
3 Dermatology
3 Otolaryngology – Head and Neck Surgery
3 Pediatrics
2 Cardiovascular Disease
2 Hospice and Palliative Medicine
2 Psychiatry
1 Allergy and Immunology
1 Geriatric Medicine
1 Internal Medicine-Pediatrics (Combined)
1 Neurology
1 Neurological Surgery
1 Pediatric Sports Medicine
1 Plastic Surgery
1 Physical Medicine and Rehabilitation
1 Pulmonary Disease and Critical Care Medicine
1 Urology

All data as of: January 20, 2024

Departing Members

Thank you to the following Osteopathic Recognition Committee members with a term ending June 30, 2024:

Laura Griffin, DO
Jodie Hermann, DO
Eileen Hug, DO
Sarah James, DO
Christie Richardson, DO (Resident Member)
New Members

The following new Osteopathic Recognition Committee members will start their term July 1, 2024:

- Sarah Carroll, DO
- Jeremy Fischer, DO
- Katheryn Norris, DO
- Kyle Sherwin, DO (Resident Member)
- Ryan Zimmerman, DO
Current Osteopathic Recognition Committee Leadership (July 2023 – June 2024)

Eileen Hug, DO
Chair

James Arnold, DO
Vice Chair
New Osteopathic Recognition Committee Leadership (July 2024 – June 2025)

Joanne Baker, DO
Chair

James Arnold, DO
Vice Chair
Frequent Areas of Citations/AFIs
Top Five Areas of Citations and AFIs

• Appointment policy
• Faculty development
• Osteopathic manipulative medicine (OMM) learning activities
• Assessment of skill proficiency in osteopathic manipulative treatment (OMT)
• Final evaluation
## Appointment Policy

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>What does a program with Osteopathic Recognition need to include in its eligibility policy?</td>
<td>The committee expects that programs with Osteopathic Recognition will specify in an eligibility policy the minimum prerequisite requirements to be completed prior to entry into a designated position. Prerequisite requirements for each of the following types of applicants must be individually delineated within the policy, including:</td>
</tr>
<tr>
<td>[Recognition Requirement: II.C.-II.C.1.]</td>
<td>- graduate of a Commission on Osteopathic College Accreditation (COCA)-accredited college of osteopathic medicine (COM) who holds a DO degree</td>
</tr>
<tr>
<td></td>
<td>- graduate of a medical school in the United States or Canada, accredited by the Liaison Committee on Medical Education (LCME)</td>
</tr>
<tr>
<td></td>
<td>- graduate from a medical school outside of the United States or Canada</td>
</tr>
<tr>
<td></td>
<td>Though it is expected that graduates of a COCA-accredited COM (with a DO degree) demonstrate sufficient background and/or instruction to enter a designated osteopathic resident position, physicians who have not graduated from a COCA-accredited COM must be expected to demonstrate some level of preparation prior to entry into a designated osteopathic resident position. It is through the program’s eligibility policy that a program will demonstrate it requires an adequate level of preparation of all applicants prior to entry into a designated osteopathic resident position.</td>
</tr>
<tr>
<td></td>
<td>Additionally, the policy should:</td>
</tr>
<tr>
<td></td>
<td>- use terminology consistent with the Osteopathic Recognition Requirements (i.e., designated osteopathic resident)</td>
</tr>
<tr>
<td></td>
<td>- clearly state when a resident may be designated (i.e., upon matriculation into the program, six months after matriculation into the program, etc.)</td>
</tr>
<tr>
<td></td>
<td>- identify what is required prior to designation (i.e., prerequisite requirements)</td>
</tr>
<tr>
<td></td>
<td>- include all medical school types, including graduates of COCA-accredited COMs</td>
</tr>
</tbody>
</table>
Appointment Policy

Key parts:

• Specify medical school graduates that accepted
• Clearly identify what is required of a resident (based on medical school) prior to matriculation
• State when residents matriculate into designated positions in the program (e.g., at matriculation into the program, within the first six months of the program)
Faculty Development

I.B.4. Osteopathic faculty members must:

I.B.4.a) annually participate in a structured faculty development program that includes OPP; (Core)

I.B.4.a).(1) This program must include ongoing education addressing evaluation and assessment in competency-based medical education. (Core)
Faculty Development

IV.B.2. The program must:

IV.B.2.c) ensure the annual availability of structured faculty development for osteopathic faculty members that includes OPP and ongoing education addressing evaluation and assessment in competency-based medical education. (Core)
# Faculty Development

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>What does the committee consider “faculty development”?</td>
<td>The Committee views faculty development as a structured program of regularly scheduled development activities designed to enhance the effectiveness of teaching, administration, leadership, scholarship, and the clinical and behavioral components of the osteopathic faculty members’ performance. It is important to note that the faculty development program should include an integration of OPP throughout the scheduled activities.</td>
</tr>
<tr>
<td>[Recognition Requirements: I.B.4.-I.B.4.a).(1)]</td>
<td>A faculty development program may be offered using local resources.</td>
</tr>
<tr>
<td>How frequently should faculty development that integrates OPP occur?</td>
<td>It is suggested that faculty development integrating OPP occur at least annually and should incorporate evaluation and assessment of competence in medical education.</td>
</tr>
<tr>
<td>[Recognition Requirements: I.B.4.-I.B.4.a).(1), IV.B.2.c]</td>
<td></td>
</tr>
<tr>
<td>Does attendance at a conference or meeting where AOA CME credit is earned</td>
<td>Conferences and meetings where AOA CME credit or ACCME CME credit are earned do not necessarily qualify as faculty development; the conference or meeting must meet the definition of osteopathic faculty development as previously specified to qualify.</td>
</tr>
<tr>
<td>qualify as faculty development?</td>
<td></td>
</tr>
</tbody>
</table>
Faculty Development

- Must be provided to all osteopathic faculty members and not just core osteopathic faculty members
- Must incorporate Osteopathic Principles and Practice (OPP) and occur annually
- Faculty members must attend an actual session that incorporates OPP and not just a meeting coordinated by an osteopathic organization
- Does not need to be a session that is CME eligible
Faculty Development

• A session that is eligible for American Osteopathic Association (AOA) CME does not automatically satisfy the requirement
• Program and Sponsoring Institution are responsible for providing and ensuring completion
IV.A. Experiences

Programs must:

IV.A.4. provide learning activities to advance the procedural skills acquisition in OMM for both designated osteopathic residents and osteopathic faculty members; (Core)
• Programs and Sponsoring Institutions are responsible for providing and ensuring completion
• Must be a live, in-person, and hands-on activity
• Watching a video does not satisfy this requirement
• Must occur annually
## Assessment of Skill Proficiency in OMT

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
</table>
| What are examples of acceptable formats for the assessment of skill proficiency in OMT? | An acceptable assessment of skill proficiency in OMT would consist of an assessment process that includes direct observation of patient encounters with feedback through a standardized evaluation form. The following assessment formats are examples that are acceptable to the Committee, so long as they are accompanied by feedback through a standardized evaluation form:  
  - Mock Practical Board Examination  
  - Objective Structured Clinical Evaluation (OSCE)  
  - Standardized OMT Skill Observation and Evaluation  
  - Mini-Clinical Evaluation Exercise (CEX)  
  The assessment of skill proficiency in OMT should cover a range of OMT techniques, as applicable to the specialty/subspecialty. |
| How frequently does the Committee expect programs to administer an assessment of skill proficiency in OMT? | The frequency of administration of an assessment of skill proficiency in OMT will be dependent on the assessment process defined by the program. If the program utilizes a single comprehensive assessment of skill proficiency in OMT, such as a mock practical board examination, it would be acceptable for the assessment to occur once during the program. If the program utilizes an assessment that is comprised of a series of longitudinal assessments (e.g., standardized OMT skill observation and evaluation) that equate to a comprehensive assessment of skill proficiency, then the assessment will need to occur multiple times during the program as defined by the program’s established assessment process. |
Assessment of Skill Proficiency in OMT

• Program must develop an assessment process that includes direct observation of patient encounters with feedback through a standardized evaluation form
• Examples of the acceptable standardized evaluation forms: mock practical board examination, objective structured clinical examination (OSCE), mini-CEX
• Should cover a range of OMT techniques, as applicable to the specialty/subspecialty
Final Evaluation

V.A.3.c) The final evaluation must:

V.A.3.c).(2) document the resident’s performance related to the application of OPP in each of the ACGME Competencies during the final period of education; and, (Core)

V.A.3.c).(3) verify that the designated osteopathic resident has demonstrated the knowledge, skills, and behaviors necessary to enter autonomous practice and to apply OPP to patient care. (Core)

V.A.3.c).(3).(a) Transitional and preliminary year programs are not required to include verification that designated osteopathic residents have demonstrated sufficient competence to apply OPP to patient care, upon entering practice, without direct supervision. (Detail)
Final Evaluation

A section may be added to the program’s existing final evaluation that includes an assessment of the application of OPP in patient care and procedural skills, medical knowledge, practice-based learning and improvement, interpersonal and communication skills, professionalism, and systems-based practice. The application of OPP must be assessed for each competency area individually. The format of this evaluation section may vary.

Example:

<table>
<thead>
<tr>
<th>Competency</th>
<th>Description</th>
<th>At expected level for graduation</th>
<th>Below expected level for graduation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patient Care and Procedural Skills</td>
<td>Resident integrates OPP into patient care and applies OMT as indicated.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Medical Knowledge</td>
<td>Resident demonstrates application of OPP in the domain of medical knowledge.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Practice-based Learning and Improvement</td>
<td>Resident integrates OPP into practice-based learning and improvement.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Interpersonal and Communication Skills</td>
<td>Resident demonstrates appropriate interpersonal and communication skills in the application of OPP.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Professionalism</td>
<td>Resident demonstrates professionalism in their application of OPP.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Systems-based Practice</td>
<td>Resident integrates OPP into their systems-based practice.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Final Evaluation

• Must include a concise evaluation of each of the ACGME Competencies
  o Six ACGME Core Competencies: Professionalism, Patient Care and Procedural Skills, Medical Knowledge, Practice-based Learning and Improvement, Interpersonal and Communication Skills, Systems-based Practice.
  o OPP/OMM is not an ACGME Competency. OPP/OMM must be integrated into the Competencies.

• Must not be the Milestones or a Milestones summary report.
Final Evaluation

• Final verification statement must be exactly as it appears in the Osteopathic Recognition Requirements:
  “demonstrated the knowledge, skills, and behaviors necessary to enter autonomous practice and to apply OPP to patient care.”

• The old verification language must no longer be used:
  “verify that the designated osteopathic resident has demonstrated sufficient competence to apply OPP to patient care, upon entering practice, without direct supervision.”

• Form must include the signature of the Director of Osteopathic Education
Citation Responses

- Responses must address the concern/issue noted in the citation text and note how the program is addressing it. The program must detail what changes have been made and whether the issue has been resolved. If it is not resolved, then the response should detail the steps taken and when it is anticipated to be resolved.

- Citation responses must be provided annually in the Accreditation Data System (ADS).

- Responses will be reviewed by the Osteopathic Recognition Committee at the program’s next review. (Note: Programs on Initial Recognition will be asked to provide a response to a citation during several ADS Annual Updates prior to review by the Committee.)
Areas for Improvement (AFIs)

- Identified on the Letter of Notification
- Not currently identified in ADS like citations because they do not require a formal response
- Programs are expected to address the issues noted in the AFIs
- Osteopathic Recognition Letters of Notification must be reviewed as part of the Annual Program Evaluation, which includes citations and AFIs
Updates
2023 National Milestones Report

Link: https://www.acgme.org/globalassets/pdfs/milestones/1174-acgme-milestones-report-2023-final.pdf
What's New for 2023

This year’s report introduces box plots for the programs that use the Osteopathic Recognition Milestones. Osteopathic Recognition emerged from a collaborative agreement among the ACGME, American Osteopathic Association (AOA), and American Association of Colleges of Osteopathic Medicine (AACOM) as part of the transition to a single GME accreditation system. Launched in 2015, Osteopathic Recognition is available to ACGME-accredited programs that integrate Osteopathic Principles and Practice into the program’s curriculum and demonstrate substantial compliance with the ACGME Osteopathic Recognition Requirements. The Osteopathic Recognition Milestones were first published in August 2015. The Osteopathic Recognition Committee (previously called the Osteopathic Principles Committee) first conferred Osteopathic Recognition in November 2015, allowing recognized programs to designate osteopathic residents/fellows and report Osteopathic Recognition Milestones in the ACGME Accreditation Data System (ADS). The 2.0 version of these Milestones was published in August 2021, with implementation in July 2022. See the Osteopathic Recognition section of the ACGME website for more resources.

Specialties that had a program(s) with Osteopathic Recognition during the 2022-2023 academic year:

- Anesthesiology
- Dermatology
- Diagnostic Radiology
- Emergency Medicine
- Family Medicine
- Internal Medicine
- Neurological Surgery
- Neurology
- Obstetrics and Gynecology
- Orthopaedic Surgery
- Otolaryngology – Head and Neck Surgery
- Pediatrics
- Physical Medicine and Rehabilitation
- Plastic Surgery
- Psychiatry
- Surgery
- Urology
- Internal Medicine · Pediatrics

</tr>
</tbody>
</table>

This specialty has designated osteopathic residents in a program with Osteopathic Recognition, which required reporting of the following Osteopathic Recognition Milestones.

1. Patient Care - Osteopathic Recognition - Patient Care 1: Osteopathic Principles and Practice (OPP) for Patient Care

2. Patient Care - Osteopathic Recognition - Patient Care 2: Osteopathic Evaluation and Treatment

Letters of Notification

In addition to reviewing and acknowledging, Associate Program Directors (APDs), Core Faculty (as designated by the PD -- APDs may be included), and others involved in the resident’s education in the required curricular areas, such as behavioral health, ortho, geriatrics, derm, etc.

</table>
Letters of Notification

- No longer attached to the notification emails
- Programs may only obtain notification letters in ADS
- This includes accreditation and recognition letters from Review and Recognition Committees, as well as Field Activities’ site visit notification letters
Director of Osteopathic Education ADS Login

- Directors of Osteopathic Education must have a login for ADS
- Logins are not automatically provided when a Director of Osteopathic Education is appointed to the role in ADS
- The program director or a program coordinator will click the “grant access” button next to the Director of Osteopathic Education’s name in the ADS Leadership table, which prompts ADS to email the Director of Osteopathic Education login information
- Directions are found in the Application Instructions for Osteopathic Recognition document (p. 5) in the Osteopathic Recognition section of the ACGME website
# ADS Login for the Director of Osteopathic Education

</tbody>
</table>
Requirement Formatting Change (Coming Soon)

- All ACGME Requirements (Institutional, Program, and Recognition) will be re-formatted.
- Requirement references will no longer include Roman numerals.
- Requirement references will more closely resemble the numbering convention used by the Commission on Osteopathic College Accreditation (COCA) and Liaison Committee on Medical Education (LCME), which uses numbers with decimal points (e.g., 1.0, 1.1, 1.2) and bulleted lists.
- The re-numbered and re-formatting documents will not be effective until the 2025-2026 academic year, but they will be posted for review in the next academic year.
## Committee Meeting Dates

</table>
2023 Survey Administration

• Two new overall experience questions were added to the Osteopathic Recognition portion of the Resident Survey.
• National Osteopathic Recognition survey results were added directly into program survey reports.
2024 Survey Administration

- No changes will be made to the Osteopathic Recognition survey questions.
- Multi-year Osteopathic Recognition survey reports will be available for programs that had fewer than four survey respondents during the prior administration of the survey.
Committee Usage of Survey Report

• The Osteopathic Recognition Resident Survey Report is used as a screening tool to identify if a program may be having problems.

• Programs are strongly encouraged to communicate to the Committee through the osteopathic Major Changes box in ADS any actions taken by the program to address negative survey responses.
Osteopathic Recognition Site Visits
Osteopathic Recognition Field Representatives

Laura Hempstead, DO
Gretta Gross, DO
Pamela Royston, PhD
Osteopathic Recognition Site Visits

• Conducted by subset of Field Representatives with expertise in OPP and/or Osteopathic Recognition
• Only covers program’s compliance with Osteopathic Recognition Requirements and not the Program Requirements
• May be conducted virtually or in person
• Document review for the site visit will require the program to upload requested documents in ADS on the Uploads tab
• Reports viewable only by the Osteopathic Recognition Committee during a program review when a recognition status is being conferred and compliance with requirements is being determined
Osteopathic Recognition
10-year Site Visit

• Conducted 10 years after a program achieves Continued Recognition
• Full Osteopathic Recognition site visit
Reminders
Osteopathic Role Descriptions

- Maintained for all osteopathic faculty members in ADS
- Reviewed during each ADS Annual Update and any time there is change in the role of Director of Osteopathic Education
- Clearly identify the physician's role in the program – Director of Osteopathic Education, core osteopathic faculty member, or osteopathic faculty member
- State how a faculty member contributes to program (e.g., supervises residents in the continuity clinic, organizes OMT workshops), which should not be a copy/paste of the requirements
- Must not include a faculty member’s qualifications for the role
State Medical Licensure

• Osteopathic faculty members must have up-to-date state licensure information maintained in their ADS faculty profiles
• State medical licensure does not auto-populate in ADS
• Programs must annually review faculty members’ licensure information during the ADS Annual Update and prior to a site visit to ensure expiration dates are accurate
Osteopathic Faculty Board Certification

- AOA and American Board of Medical Specialties (ABMS) board certification auto-populates in each faculty member’s ADS profile.
- Newly added faculty members will have their certification populated overnight.
- Programs are required to verify that certification auto-populates.
- Programs should not be concerned with the certification “status” or “duration type” if they have active certification.
- Programs are required to manually enter missing board certification and identify if a faculty member is board eligible. *(Note: Osteopathic faculty members must be board certified. Board eligible is not accepted.)*
### ABMS Certification

Last updated: 12/7/2023

The following information was imported from ABMS and is read only.

<table>
<thead>
<tr>
<th>Board Name</th>
<th>Certification Name</th>
<th>Status</th>
<th>Duration Type</th>
<th>Initial Date</th>
<th>End Date</th>

<td>No Date Present</td>
</tr>
</tbody>
</table>

- Data imported monthly from ABMS. Date of last import listed above.
- Data is matched to each faculty using name, National Provider ID (NPI), date of birth and medical school graduation year.
  - If the information provided by the program is entered incorrectly, no ABMS match will occur or the match may be inaccurate.
- If faculty recently obtained new certification or updated their certification status, the ABMS information may not appear until the next monthly import.
- If a faculty member is new to the ACGME database, ABMS certification data will appear here within 24 hours.

Manual Entry of Board Certification

Only complete this section if the faculty member has additional certifications, is board eligible, is not certified or ABMS/AOA data above is inaccurate or missing.

Certification Type: 
Duration Type: 
Initial Year: 
Other Certification: 

Options for Certification Type:
- ABMS data import is missing/has inaccurate data
- AOA data import is missing/has inaccurate data
- RCPS(C)
- Other Certifying Body
- Not Certified
- ABMS Board Eligible
- AOA Board Eligible
Missing Faculty Member Board Certification

- Programs must investigate why a faculty member’s certification is not auto-populating
- Verify through public certification websites that the certification is active (Doc Info: https://www.docinfo.org/#/search/query)
- Verify that all information in the faculty member’s profile is accurate (NPI number, medical school and residency graduation dates, etc.)
- Ensure the faculty member’s name in ADS matches NPI profile and board certification

Guide for Osteopathic Recognition
Osteopathic Recognition Committee

This guidance document identifies the information that programs with Osteopathic Recognition must review and update during their assigned ADS Annual Update window each year to ensure it is current and accurate. The Osteopathic Recognition Committee will use the information provided by programs in ADS in making recognition decisions.

Note: The report generated for the Annual Update on the Overview tab in ADS will not include information from ADS that is specific to Osteopathic Recognition. It is critical that programs review the Osteopathic Recognition Summary report discussed at the end of this document to ensure all recognition information is reviewed and updated if necessary.

The following areas of ADS should be reviewed and updated, as appropriate, during a program’s Annual Update window:

- **Major Changes – Osteopathic Components**
  A dedicated field in the Major Changes section of ADS allows for a brief update on any significant changes to the osteopathic components of the program since the last academic year. Programs are encouraged to comment on such program changes that may include the osteopathic curriculum and osteopathic leadership (Director of Osteopathic Education, osteopathic faculty members, etc.). Programs that received an Osteopathic Resident Survey report that included areas of non-compliance are encouraged to comment on how the program is addressing those areas. If the program was impacted by the COVID-19 pandemic and temporary changes to the osteopathic curriculum were necessary, the program is encouraged to comment on those changes.

- **Response to Osteopathic Recognition Citations (if applicable)**
  Programs with active Osteopathic Recognition citations must annually provide a response or an updated response for each in the Citation section of ADS.

- **Block Diagram**
  The program should review its block diagram, maintained in ADS, to ensure it accurately indicates where and when the following osteopathic experiences are integrated into the curriculum: osteopathic education/experience in the clinical setting, osteopathic clinic (either osteopathic manipulative treatment (OMT) clinic or integrated specialty clinic), and osteopathic didactics/labs. Programs should refer to the Block Diagram Guide for Programs with Osteopathic Recognition, located in the Block Diagram section of ADS and on the Osteopathic Recognition page of the ACGME website, for additional instructions. As the program’s osteopathic curriculum changes, those changes must be reflected appropriately on the block diagram. Temporary changes to the osteopathic curriculum, such as any resulting from the COVID-19 pandemic, should not be reflected on the block diagram.
Programs with Osteopathic Recognition are responsible for reviewing and updating recognition-related information provided in ADS during the program's assigned ADS Annual Update window to ensure it is up-to-date and accurate. This guidance document will identify the information that programs with Osteopathic Recognition must review and update during their assigned ADS Annual Update window.

Programs may click on the 'Print' button to review the Osteopathic Recognition information currently provided by the program in ADS.
# Osteopathic Recognition Summary

**Report Review**

## Osteopathic Recognition

**Osteopathic Recognition Status:** Continued Recognition  
**Effective Date:** January 07, 2022

## Osteopathic Recognition Summary

View a current copy of the program's Osteopathic Recognition Summary. This document contains the Osteopathic Recognition information provided by the program in ADS that is utilized by the Osteopathic Recognition Committee during the recognition reviews of the program. Additional information can be found on the ACGME Osteopathic Recognition Committee.

## Manage Designation of Residents/Osteopathic Personnel

Manage the designation of residents, faculty, and the Director of Osteopathic Education.

ADS Guidance for Appointment of a New Director of Osteopathic Education

Osteopathic Recognition Committee

If a program appoints a new physician to the role of Director of Osteopathic Education, the appointment must be reflected in the ACGME’s Accreditation Data System (ADS) at the time of appointment. Programs must not wait until the ADS Annual Update to reflect the appointment in the system. If there are concerns about the qualifications of a physician being considered for the role, contact the Executive Director of the Osteopathic Recognition Committee for guidance (contact information can be found on the Osteopathic Recognition page of the ACGME website).

Prior to appointing a new physician to the role of Director of Osteopathic Education, the program’s Faculty Roster physician profile in ADS must be updated for the newly appointed and prior Director of Osteopathic Education. Below is a checklist of updates that must be completed in ADS:

☐ Review the physician profile of the previous Director of Osteopathic Education, if still a faculty member for the program, to ensure the title entered in the “Program Specific Title” field has been updated and is no longer “Director of Osteopathic Education” or “DOE.”

☐ Ensure the newly appointed physician has been designated as an osteopathic faculty member on the program’s Faculty Roster.

☐ Consider adding “Director of Osteopathic Education” or “DOE” to the “Program Specific Title” field in the newly appointed Director of Osteopathic Education’s physician profile.

☐ Review all dates within the faculty member’s profile (i.e., date of appointment as faculty member, year started teaching, medical school graduation, residency and fellowship attendance, state licensure).

☐ Ensure the physician’s board certification information is accurately reported in the physician’s profile.

☐ Add/update the description provided for the newly appointed and prior Director of Osteopathic Education’s “Role in Program as it Relates to Osteopathic Education.” This should describe the physician’s actual roles and responsibilities related to formal osteopathic education within the program. The description should be consistent with responsibilities outlined in the Osteopathic Recognition Requirements but must not be a copy and paste of the Requirements.

☐ Add/update the “Additional Information on Qualifications Related to Osteopathic Education” field. This area should only be used for qualifications not captured elsewhere in the faculty member’s profile.

After the newly appointed Director of Osteopathic Education’s physician profile has been reviewed and updated, the role change in ADS should be completed next. This is done by clicking “Director of Osteopathic Education” under the “Recognition” tab in the “Manage

Application Instructions for Osteopathic Recognition

This instructional document was created to assist programs applying for Osteopathic Recognition, so they can better prepare for and navigate the ACGME Osteopathic Recognition application process.

APPLICATION PROCESS

ACGME-accredited programs with an accreditation status other than Probationary Accreditation can apply for Osteopathic Recognition. Newly accredited programs can apply as soon as they achieve Initial Accreditation.

There are several parts to the Osteopathic Recognition application, which includes information provided by the program in the Accreditation Data System (ADS), which is a web-based system that is accessed through a web browser, as well as specific documents that must be uploaded into the system as attachments.

Note: The entire program will apply for Osteopathic Recognition and the entire program will receive Osteopathic Recognition. The program must determine if all its residents will receive formal osteopathic education and be in designated osteopathic resident/fellow positions, or if only a portion of the residents/fellows will be in such designated positions.
# Osteopathic Recognition Application Instructions

New applications for Osteopathic Recognition must use the online application process within the Accreditation Data System (ADS). For further information, review the "Osteopathic Recognition Application Instructions."
