V.C. Program Evaluation and Improvement .....	36
VI. The Learning and Working Environment .....	40
VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability .....	41
VI.B. Professionalism .....	46
VI.C. Well-Being .....	48
VI.D. Fatigue Mitigation .....	51
VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care .....	52
VI.F. Clinical Experience and Education .....	53

48  
49 Medical oncology is the internal medicine subspecialty that involves the  
50 diagnosis and management of benign and malignant neoplasms.

51  
52 **Int.C. Length of Educational Program**

53  
54 The educational program in medical oncology must be 24 months in length. (Core)\*

55  
56 **I. Oversight**

57  
58 **I.A. Sponsoring Institution**

59  
60 *The Sponsoring Institution is the organization or entity that assumes the*  
61 *ultimate financial and academic responsibility for a program of graduate*  
62 *medical education consistent with the ACGME Institutional Requirements.*

63  
64 *When the Sponsoring Institution is not a rotation site for the program, the*  
65 *most commonly utilized site of clinical activity for the program is the*  
66 *primary clinical site.*

67

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

68  
69 **I.A.1. The program must be sponsored by one ACGME-accredited**  
70 **Sponsoring Institution. (Core)**

71  
72 **I.B. Participating Sites**

73  
74 *A participating site is an organization providing educational experiences or*  
75 *educational assignments/rotations for fellows.*

76  
77 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
78 **designate a primary clinical site. (Core)**

79  
80 **I.B.1.a)** A medical oncology fellowship must function as an integral part of  
81 an ACGME-accredited program in internal medicine. (Core)

82  
83 **I.B.1.b)** The Sponsoring Institution must establish the medical oncology  
84 fellowship within a department of internal medicine or an  
85 administrative unit with a primary mission to advance internal  
86 medicine subspecialty education and patient care. (Detail)†

87  
88 **I.B.1.c)** The Sponsoring Institution must ensure that there is a reporting  
89 relationship with the program director of the internal medicine

90 residency program to ensure compliance with ACGME  
91 accreditation requirements. <sup>(Core)</sup>

92  
93 **I.B.2.** **There must be a program letter of agreement (PLA) between the**  
94 **program and each participating site that governs the relationship**  
95 **between the program and the participating site providing a required**  
96 **assignment.** <sup>(Core)</sup>

97  
98 **I.B.2.a)** **The PLA must:**

99  
100 **I.B.2.a).(1)** **be renewed at least every 10 years; and,** <sup>(Core)</sup>

101  
102 **I.B.2.a).(2)** **be approved by the designated institutional official**  
103 **(DIO).** <sup>(Core)</sup>

104  
105 **I.B.3.** **The program must monitor the clinical learning and working**  
106 **environment at all participating sites.** <sup>(Core)</sup>

107  
108 **I.B.3.a)** **At each participating site there must be one faculty member,**  
109 **designated by the program director, who is accountable for**  
110 **fellow education for that site, in collaboration with the**  
111 **program director.** <sup>(Core)</sup>

112

**Background and Intent:** While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**
- **Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows**
- **Specifying the duration and content of the educational experience**
- **Stating the policies and procedures that will govern fellow education during the assignment**

113  
114 **I.B.4.** **The program director must submit any additions or deletions of**  
115 **participating sites routinely providing an educational experience,**  
116 **required for all fellows, of one month full time equivalent (FTE) or**  
117 **more through the ACGME's Accreditation Data System (ADS).** <sup>(Core)</sup>  
118

119 I.C. The program, in partnership with its Sponsoring Institution, must engage in  
120 practices that focus on mission-driven, ongoing, systematic recruitment  
121 and retention of a diverse and inclusive workforce of residents (if present),  
122 fellows, faculty members, senior administrative staff members, and other  
123 relevant members of its academic community. <sup>(Core)</sup>  
124

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution's mission and aims. The program's annual evaluation must include an assessment of the program's efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

125 I.D. Resources

128 I.D.1. The program, in partnership with its Sponsoring Institution, must  
129 ensure the availability of adequate resources for fellow education.  
130 <sup>(Core)</sup>

132 I.D.1.a) Space and Equipment

133  
134 There must be space and equipment for the program, including  
135 meeting rooms, examination rooms, computers, visual and other  
136 educational aids, and work/study space. <sup>(Core)</sup>

138 I.D.1.b) Facilities

139  
140 I.D.1.b).(1) Inpatient and outpatient systems must be in place to  
141 prevent fellows from performing routine clerical functions,  
142 such as scheduling tests and appointments, and retrieving  
143 records and letters. <sup>(Detail)</sup>

145 I.D.1.b).(2) The sponsoring institution must provide the broad range of  
146 facilities and clinical support services required to provide  
147 comprehensive care of adult patients. <sup>(Core)</sup>

149 I.D.1.b).(3) Fellows must have access to a lounge facility during  
150 assigned duty hours. <sup>(Detail)</sup>

152 I.D.1.b).(4) When fellows are in the hospital, assigned night duty, or  
153 called in from home, they must be provided with a secure  
154 space for their belongings. <sup>(Detail)</sup>

156 I.D.1.b).(5) Radiation oncology facilities must be available. <sup>(Core)</sup>

158 I.D.1.c) Laboratory and Imaging Services

159  
160 I.D.1.c).(1) A hematology laboratory must be located at the primary  
161 clinical site. <sup>(Core)</sup>

163 I.D.1.c).(2) A specialized coagulation laboratory must be accessible.

- 164 (Core)
- 165
- 166 I.D.1.c).(3) The following must be present at the primary clinical site or
- 167 participating site(s):
- 168
- 169 I.D.1.c).(3).(a) nuclear medicine imaging; (Core)
- 170
- 171 I.D.1.c).(3).(b) cross-sectional imaging, including coaxial
- 172 tomography (CT) and magnetic resonance imaging
- 173 (MRI); and, (Core)
- 174
- 175 I.D.1.c).(3).(c) positron emission tomography (PET) scan imaging.
- 176 (Core)
- 177
- 178 I.D.1.d) Other Support Services
- 179
- 180 I.D.1.d).(1) There must be advanced pathology services, including:
- 181
- 182 I.D.1.d).(1).(a) immunopathology; (Core)
- 183
- 184 I.D.1.d).(1).(b) blood banking; and, (Core)
- 185
- 186 I.D.1.d).(1).(c) transfusion and apheresis. (Core)
- 187
- 188 I.D.1.d).(2) There must be a hematology clinical program with which
- 189 medical oncology fellows may interact. (Core)
- 190
- 191 I.D.1.e) Medical Records
- 192
- 193 Access to an electronic health record should be provided. In the
- 194 absence of an existing electronic health record, institutions must
- 195 demonstrate institutional commitment to its development, and
- 196 progress towards its implementation. (Core)
- 197
- 198 **I.D.2. The program, in partnership with its Sponsoring Institution, must**
- 199 **ensure healthy and safe learning and working environments that**
- 200 **promote fellow well-being and provide for:** (Core)
- 201
- 202 **I.D.2.a) access to food while on duty;** (Core)
- 203
- 204 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**
- 205 **and accessible for fellows with proximity appropriate for safe**
- 206 **patient care;** (Core)
- 207

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital**

overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

208  
209  
210  
211  
212

- I.D.2.c) clean and private facilities for lactation that have refrigeration capabilities, with proximity appropriate for safe patient care; (Core)

**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).**

213  
214  
215  
216  
217  
218  
219

- I.D.2.d) security and safety measures appropriate to the participating site; and, (Core)

- I.D.2.e) accommodations for fellows with disabilities consistent with the Sponsoring Institution's policy. (Core)

220  
221  
222  
223  
224

- I.D.3. Fellows must have ready access to subspecialty-specific and other appropriate reference material in print or electronic format. This must include access to electronic medical literature databases with full text capabilities. (Core)

225  
226  
227

- I.D.4. The program's educational and clinical resources must be adequate to support the number of fellows appointed to the program. (Core)

228  
229

- I.D.4.a) Patient Population

230  
231  
232

- I.D.4.a).(1) The patient population must have a variety of clinical problems and stages of diseases. (Core)

233  
234  
235

- I.D.4.a).(2) There must be patients of each gender, with a broad age range, including geriatric patients. (Core)

236  
237  
238

- I.D.4.a).(3) A sufficient number of patients must be available to enable each fellow to achieve the required educational outcomes. (Core)

239  
240  
241  
242  
243  
244  
245  
246

- I.E. *A fellowship program usually occurs in the context of many learners and other care providers and limited clinical resources. It should be structured to optimize education for all learners present.*

- I.E.1. Fellows should contribute to the education of residents in core programs, if present. (Core)

**Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and**

**fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.**

247  
248  
249  
250  
251  
252  
253  
254  
255  
256  
257  
258  
259  
260  
261  
262

**II. Personnel**

**II.A. Program Director**

**II.A.1. There must be one faculty member appointed as program director with authority and accountability for the overall program, including compliance with all applicable program requirements. <sup>(Core)</sup>**

**II.A.1.a) The Sponsoring Institution's Graduate Medical Education Committee (GMEC) must approve a change in program director. <sup>(Core)</sup>**

**II.A.1.b) Final approval of the program director resides with the Review Committee. <sup>(Core)</sup>**

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and have overall responsibility for the program. The program director's nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.**

263  
264  
265  
266  
267  
268  
269  
270  
271  
272  
273  
274  
275

**II.A.2. The program director and, as applicable, the program's leadership team, must be provided with support adequate for administration of the program based upon its size and configuration. <sup>(Core)</sup>**

**II.A.2.a) ~~At a minimum, the program director must be provided with the salary support required to devote 20-50 percent FTE of non-clinical time to the administration of the program. <sup>(Core)</sup>~~**

At a minimum, the program director must be provided with the dedicated time and support specified below for administration of the program: <sup>(Core)</sup>

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>.2</u>
<u>7-9</u>	<u>.25</u>
<u>10-12</u>	<u>.3</u>
<u>13-15</u>	<u>.35</u>
<u>16-18</u>	<u>.4</u>

276  
277  
278  
279

**II.A.2.b) Programs must appoint at least one of the subspecialty-certified core faculty members to be associate program director(s). The associate program directors(s) must be provided with support**

280  
281  
282

equal to a dedicated minimum time for administration of the program as follows: (Core)

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>0</u>
<u>7-9</u>	<u>.13</u>
<u>10-12</u>	<u>.14</u>
<u>13-15</u>	<u>.15</u>
<u>16-18</u>	<u>.16</u>

283

**Background and Intent:** To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.

The ultimate outcome of graduate medical education is excellence in fellow education and patient care.

The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.

Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.

284

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 30 percent FTE support for the Program Director and at least 14 percent FTE support for the associate program director(s). Because an associate program director is also a core faculty member, the minimum dedicated time requirements for associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE. Further, the Review Committee allows the minimum required FTE support to be shared among multiple associate program directors, as delegated by and at the discretion of the program director.

285  
286  
287  
288

**II.A.3. Qualifications of the program director:**

**II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, (Core)**

289  
290 II.A.3.a).(1) The program director must have administrative experience  
291 and at least three years of participation as an active faculty  
292 member in an ACGME-accredited internal medicine  
293 residency or medical oncology fellowship. (Core)  
294

295 **II.A.3.b)** **must include current certification in the subspecialty for**  
296 **which they are the program director by the American Board**  
297 **of Internal Medicine (ABIM) or by the American Osteopathic**  
298 **Board of Internal Medicine (AOBIM), or subspecialty**  
299 **qualifications that are acceptable to the Review Committee.**  
300 (Core)  
301

302 II.A.3.b).(1) The Review Committee only accepts current ABIM or  
303 AOBIM certification in medical oncology. (Core)  
304

305 **II.A.4. Program Director Responsibilities**  
306

307 **The program director must have responsibility, authority, and**  
308 **accountability for: administration and operations; teaching and**  
309 **scholarly activity; fellow recruitment and selection, evaluation, and**  
310 **promotion of fellows, and disciplinary action; supervision of fellows;**  
311 **and fellow education in the context of patient care.** (Core)  
312

313 **II.A.4.a) The program director must:**  
314

315 **II.A.4.a).(1) be a role model of professionalism;** (Core)  
316

**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.**

317  
318 **II.A.4.a).(2) design and conduct the program in a fashion**  
319 **consistent with the needs of the community, the**  
320 **mission(s) of the Sponsoring Institution, and the**  
321 **mission(s) of the program;** (Core)  
322

**Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.**

323

324 **II.A.4.a).(3)** administer and maintain a learning environment  
325 conducive to educating the fellows in each of the  
326 **ACGME Competency domains;** <sup>(Core)</sup>  
327

**Background and Intent:** The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

328  
329 **II.A.4.a).(4)** develop and oversee a process to evaluate candidates  
330 prior to approval as program faculty members for  
331 participation in the fellowship program education and  
332 at least annually thereafter, as outlined in V.B.; <sup>(Core)</sup>  
333

334 **II.A.4.a).(5)** have the authority to approve program faculty  
335 members for participation in the fellowship program  
336 education at all sites; <sup>(Core)</sup>  
337

338 **II.A.4.a).(6)** have the authority to remove program faculty  
339 members from participation in the fellowship program  
340 education at all sites; <sup>(Core)</sup>  
341

342 **II.A.4.a).(7)** have the authority to remove fellows from supervising  
343 interactions and/or learning environments that do not  
344 meet the standards of the program; <sup>(Core)</sup>  
345

**Background and Intent:** The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

346  
347 **II.A.4.a).(8)** submit accurate and complete information required  
348 and requested by the DIO, GMEC, and ACGME; <sup>(Core)</sup>  
349

350 **II.A.4.a).(9)** provide applicants who are offered an interview with  
351 information related to the applicant's eligibility for the  
352 relevant subspecialty board examination(s); <sup>(Core)</sup>  
353

354 **II.A.4.a).(10)** provide a learning and working environment in which  
355 fellows have the opportunity to raise concerns and  
356 provide feedback in a confidential manner as  
357 appropriate, without fear of intimidation or retaliation;  
358 <sup>(Core)</sup>  
359

- 360 **II.A.4.a).(11)** ensure the program’s compliance with the Sponsoring  
 361 Institution’s policies and procedures related to  
 362 grievances and due process; <sup>(Core)</sup>  
 363
- 364 **II.A.4.a).(12)** ensure the program’s compliance with the Sponsoring  
 365 Institution’s policies and procedures for due process  
 366 when action is taken to suspend or dismiss, not to  
 367 promote, or not to renew the appointment of a fellow;  
 368 <sup>(Core)</sup>  
 369

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution’s policies and procedures, and will ensure they are followed by the program’s leadership, faculty members, support personnel, and fellows.**

- 370
- 371 **II.A.4.a).(13)** ensure the program’s compliance with the Sponsoring  
 372 Institution’s policies and procedures on employment  
 373 and non-discrimination; <sup>(Core)</sup>  
 374
- 375 **II.A.4.a).(13).(a)** **Fellows must not be required to sign a non-**  
 376 **competition guarantee or restrictive covenant.**  
 377 <sup>(Core)</sup>  
 378
- 379 **II.A.4.a).(14)** document verification of program completion for all  
 380 graduating fellows within 30 days; <sup>(Core)</sup>  
 381
- 382 **II.A.4.a).(15)** provide verification of an individual fellow’s  
 383 completion upon the fellow’s request, within 30 days;  
 384 and, <sup>(Core)</sup>  
 385

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

- 386
- 387 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
 388 Institution’s DIO before submitting information or  
 389 requests to the ACGME, as required in the Institutional  
 390 Requirements and outlined in the ACGME Program  
 391 Director’s Guide to the Common Program  
 392 Requirements. <sup>(Core)</sup>  
 393
- 394 **II.B. Faculty**
- 395
- 396 *Faculty members are a foundational element of graduate medical education*  
 397 *– faculty members teach fellows how to care for patients. Faculty members*  
 398 *provide an important bridge allowing fellows to grow and become practice*  
 399 *ready, ensuring that patients receive the highest quality of care. They are*  
 400 *role models for future generations of physicians by demonstrating*

401 *compassion, commitment to excellence in teaching and patient care,*  
402 *professionalism, and a dedication to lifelong learning. Faculty members*  
403 *experience the pride and joy of fostering the growth and development of*  
404 *future colleagues. The care they provide is enhanced by the opportunity to*  
405 *teach. By employing a scholarly approach to patient care, faculty members,*  
406 *through the graduate medical education system, improve the health of the*  
407 *individual and the population.*

408  
409 *Faculty members ensure that patients receive the level of care expected*  
410 *from a specialist in the field. They recognize and respond to the needs of*  
411 *the patients, fellows, community, and institution. Faculty members provide*  
412 *appropriate levels of supervision to promote patient safety. Faculty*  
413 *members create an effective learning environment by acting in a*  
414 *professional manner and attending to the well-being of the fellows and*  
415 *themselves.*  
416

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.**

417  
418 **II.B.1.** For each participating site, there must be a sufficient number of  
419 faculty members with competence to instruct and supervise all  
420 fellows at that location. <sup>(Core)</sup>  
421

422 **II.B.2.** Faculty members must:

423  
424 **II.B.2.a)** be role models of professionalism; <sup>(Core)</sup>  
425

426 **II.B.2.b)** demonstrate commitment to the delivery of safe, quality,  
427 cost-effective, patient-centered care; <sup>(Core)</sup>  
428

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

429  
430 **II.B.2.c)** demonstrate a strong interest in the education of fellows; <sup>(Core)</sup>  
431

432 **II.B.2.d)** devote sufficient time to the educational program to fulfill  
433 their supervisory and teaching responsibilities; <sup>(Core)</sup>  
434

435 **II.B.2.e)** administer and maintain an educational environment  
436 conducive to educating fellows; <sup>(Core)</sup>  
437

438 **II.B.2.f)** regularly participate in organized clinical discussions,  
439 rounds, journal clubs, and conferences; and, <sup>(Core)</sup>  
440

441 **II.B.2.g)** pursue faculty development designed to enhance their skills  
442 at least annually. <sup>(Core)</sup>  
443

444

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

445

446 **II.B.3. Faculty Qualifications**

447

448 **II.B.3.a) Faculty members must have appropriate qualifications in**  
449 **their field and hold appropriate institutional appointments.**  
450 **(Core)**

451

452 **II.B.3.b) Subspecialty physician faculty members must:**

453

454 **II.B.3.b).(1) have current certification in the subspecialty by the**  
455 **American Board of Internal Medicine or the American**  
456 **Osteopathic Board of Internal Medicine, or possess**  
457 **qualifications judged acceptable to the Review**  
458 **Committee. (Core)**

459

460 **II.B.3.c) Any non-physician faculty members who participate in**  
461 **fellowship program education must be approved by the**  
462 **program director. (Core)**

463

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

464

465 **II.B.3.d) Any other specialty physician faculty members must have**  
466 **current certification in their specialty by the appropriate**  
467 **American Board of Medical Specialties (ABMS) member**  
468 **board or American Osteopathic Association (AOA) certifying**  
469 **board, or possess qualifications judged acceptable to the**  
470 **Review Committee. (Core)**

471

472 **II.B.3.d).(1) Faculty members who are ABIM- or AOBIM-certified in**  
473 **endocrinology, gastroenterology, hematology, infectious**  
474 **disease, nephrology, and pulmonary disease should be**  
475 **available to participate in the education of fellows. (Core)**

476

477 **II.B.4. Core Faculty**

478

479 Core faculty members must have a significant role in the education  
480 and supervision of fellows and must devote a significant portion of  
481 their entire effort to fellow education and/or administration, and  
482 must, as a component of their activities, teach, evaluate, and provide  
483 formative feedback to fellows. <sup>(Core)</sup>  
484

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.**

- 485  
486 **II.B.4.a) Core faculty members must be designated by the program**  
487 **director.** <sup>(Core)</sup>  
488  
489 **II.B.4.b) Core faculty members must complete the annual ACGME**  
490 **Faculty Survey.** <sup>(Core)</sup>  
491  
492 **II.B.4.c)** In addition to the program director, there must be at least two core  
493 faculty members certified in medical oncology by the ABIM or the  
494 AOBIM. <sup>(Core)</sup>  
495

**Subspecialty Background and Intent: The program must have a minimum number of ABIM- or AOBIM-certified medical oncology faculty members who devote significant time to teaching, supervising, and advising residents, and working closely with the program director. One way the medical oncology-certified faculty members can demonstrate they are devoting a significant portion of their effort to resident education is by dedicating an average of 10 hours per week to the program.**

- 496  
497 **II.B.4.d)** For programs approved for more than four fellows, there must be  
498 at least one core faculty member certified in medical oncology by  
499 the ABIM or the AOBIM for every 1.5 fellows. <sup>(Core)</sup>  
500  
501 **II.B.4.e)** At a minimum, the required core faculty members, in aggregate  
502 and excluding members of the program leadership, must be  
503 provided with support equal to an average dedicated minimum of  
504 .1 FTE for educational and administrative responsibilities that do  
505 not involve direct patient care. <sup>(Core)</sup>  
506  
507 **II.C. Program Coordinator**

508  
509 **II.C.1. There must be a program coordinator. (Core)**

510  
511 **II.C.2. The program coordinator must be provided with support adequate**  
512 **for administration of the program based upon its size and**  
513 **configuration. (Core)**

514  
515 **II.C.2.a) At a minimum, the program coordinator must be provided with the**  
516 **dedicated time and support specified below for administration of**  
517 **the program. Additional administrative support must be provided**  
518 **based on the program size as follows: (Core)**

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE Required for Coordinator Support</u>	<u>Additional Aggregate FTE Required for Administration of the Program</u>
<u>1-3</u>	<u>.3</u>	<u>0</u>
<u>4-6</u>	<u>.3</u>	<u>.2</u>
<u>7-9</u>	<u>.3</u>	<u>.38</u>
<u>10-12</u>	<u>.3</u>	<u>.44</u>
<u>13-15</u>	<u>.3</u>	<u>.50</u>
<u>16-18</u>	<u>.3</u>	<u>.56</u>

520 **Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.**

**Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

**The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of fellows.**

**Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.**

521  
522 **II.D. Other Program Personnel**

523  
524 **The program, in partnership with its Sponsoring Institution, must jointly**  
525 **ensure the availability of necessary personnel for the effective**  
526 **administration of the program. (Core)**

527

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

528

- 529 II.D.1. There must be services available from other health care professionals,  
530 including dietitians, language interpreters, nurses, occupational  
531 therapists, physical therapists, and social workers. <sup>(Detail)</sup>
- 532
- 533 II.D.2. The fellowship must have access to surgeons in general surgery and  
534 surgical specialties, including those with special interest in oncology. <sup>(Detail)</sup>
- 535
- 536 II.D.3. The fellowship must have access to other clinical specialists, including  
537 specialists in dermatology, gynecology, neurological surgery, neurology,  
538 orthopaedic surgery, otolaryngology, and urology. <sup>(Detail)</sup>
- 539
- 540 II.D.4. There must be appropriate and timely consultation from other specialties.  
541 <sup>(Core)</sup>
- 542
- 543 II.D.5. Expertise in the following disciplines should be available to the program to  
544 provide multidisciplinary patient care and fellow education:
- 545
- 546 II.D.5.a) genetic counseling; <sup>(Detail)</sup>
- 547
- 548 II.D.5.b) hospice and palliative care; <sup>(Detail)</sup>
- 549
- 550 II.D.5.c) oncologic nursing; <sup>(Detail)</sup>
- 551
- 552 II.D.5.d) pain management; <sup>(Detail)</sup>
- 553
- 554 II.D.5.e) psychiatry; and, <sup>(Detail)</sup>
- 555
- 556 II.D.5.f) rehabilitation medicine. <sup>(Detail)</sup>

557

558 **III. Fellow Appointments**

559

560 **III.A. Eligibility Criteria**

561

562 **III.A.1. Eligibility Requirements – Fellowship Programs**

563

564 **All required clinical education for entry into ACGME-accredited**  
 565 **fellowship programs must be completed in an ACGME-accredited**  
 566 **residency program, an AOA-approved residency program, a**  
 567 **program with ACGME International (ACGME-I) Advanced Specialty**  
 568 **Accreditation, or a Royal College of Physicians and Surgeons of**  
 569 **Canada (RCPSC)-accredited or College of Family Physicians of**  
 570 **Canada (CFPC)-accredited residency program located in Canada.**  
 571 <sup>(Core)</sup>

572

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

- 573  
574 **III.A.1.a) Fellowship programs must receive verification of each**  
575 **entering fellow’s level of competence in the required field,**  
576 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**  
577 **Milestones evaluations from the core residency program. (Core)**  
578
- 579 **III.A.1.b) Prior to appointment in the fellowship, fellows should have**  
580 **completed an internal medicine program that satisfies the**  
581 **requirements in III.A.1. (Core)**  
582
- 583 **III.A.1.b).(1) Fellows who did not complete an internal medicine**  
584 **program that satisfies the requirements in III.A.1. must**  
585 **have completed at least three years of internal medicine**  
586 **education prior to starting the fellowship as well as met all**  
587 **of the criteria in the “Fellow Eligibility Exception” section**  
588 **below. (Core)**  
589
- 590 **III.A.1.c) Fellow Eligibility Exception**  
591  
592 **The Review Committee for Internal Medicine will allow the**  
593 **following exception to the fellowship eligibility requirements:**  
594
- 595 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**  
596 **an exceptionally qualified international graduate**  
597 **applicant who does not satisfy the eligibility**  
598 **requirements listed in III.A.1., but who does meet all of**  
599 **the following additional qualifications and conditions:**  
600 **(Core)**  
601
- 602 **III.A.1.c).(1).(a) evaluation by the program director and**  
603 **fellowship selection committee of the**  
604 **applicant’s suitability to enter the program,**  
605 **based on prior training and review of the**  
606 **summative evaluations of training in the core**  
607 **specialty; and, (Core)**  
608
- 609 **III.A.1.c).(1).(b) review and approval of the applicant’s**  
610 **exceptional qualifications by the GMEC; and,**  
611 **(Core)**  
612
- 613 **III.A.1.c).(1).(c) verification of Educational Commission for**  
614 **Foreign Medical Graduates (ECFMG)**  
615 **certification. (Core)**  
616
- 617 **III.A.1.c).(2) Applicants accepted through this exception must have**  
618 **an evaluation of their performance by the Clinical**  
619 **Competency Committee within 12 weeks of**  
620 **matriculation. (Core)**

**Background and Intent:** An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.

In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.

**III.B. The program director must not appoint more fellows than approved by the Review Committee. (Core)**

**III.B.1. All complement increases must be approved by the Review Committee. (Core)**

**III.B.2. The number of available fellow positions in the program must be at least one per year. (Detail)**

**III.C. Fellow Transfers**

**The program must obtain verification of previous educational experiences and a summative competency-based performance evaluation prior to acceptance of a transferring fellow, and Milestones evaluations upon matriculation. (Core)**

**IV. Educational Program**

***The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.***

***The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.***

***In addition, the program is expected to define its specific program aims consistent with the overall mission of its Sponsoring Institution, the needs of the community it serves and that its graduates will serve, and the distinctive capabilities of physicians it intends to graduate. While programs must demonstrate substantial compliance with the Common and subspecialty-specific Program Requirements, it is recognized that within this framework, programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for***

656 *example, it is expected that a program aiming to prepare physician-scientists will*  
657 *have a different curriculum from one focusing on community health.*

658  
659 **IV.A. The curriculum must contain the following educational components:** <sup>(Core)</sup>  
660

661 **IV.A.1. a set of program aims consistent with the Sponsoring Institution’s**  
662 **mission, the needs of the community it serves, and the desired**  
663 **distinctive capabilities of its graduates;** <sup>(Core)</sup>  
664

665 **IV.A.1.a) The program’s aims must be made available to program**  
666 **applicants, fellows, and faculty members.** <sup>(Core)</sup>  
667

668 **IV.A.2. competency-based goals and objectives for each educational**  
669 **experience designed to promote progress on a trajectory to**  
670 **autonomous practice in their subspecialty. These must be**  
671 **distributed, reviewed, and available to fellows and faculty members;**  
672 <sup>(Core)</sup>  
673

674 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**  
675 **responsibility for patient management, and graded supervision in**  
676 **their subspecialty;** <sup>(Core)</sup>  
677

**Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.**

678  
679 **IV.A.4. structured educational activities beyond direct patient care; and,**  
680 <sup>(Core)</sup>  
681

**Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.**

682  
683 **IV.A.5. advancement of fellows’ knowledge of ethical principles**  
684 **foundational to medical professionalism.** <sup>(Core)</sup>  
685

686 **IV.B. ACGME Competencies**  
687

**Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus**

**in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.**

688  
689  
690  
691  
692  
693  
694  
695  
696  
697  
698

**IV.B.1. The program must integrate the following ACGME Competencies into the curriculum: <sup>(Core)</sup>**

**IV.B.1.a) Professionalism**

**Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. <sup>(Core)</sup>**

**IV.B.1.b) Patient Care and Procedural Skills**

**Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs*. 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

766		
767		
768	IV.B.1.b).(1).(c).(v)	management of the neutropenic and the immunocompromised patient; and, (Core)
769		
770		
771	IV.B.1.b).(1).(c).(vi)	palliative care, including hospice and home care; (Core)
772		
773		
774	<b>IV.B.1.b).(2)</b>	<b>Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. (Core)</b>
775		
776		

777		
778	IV.B.1.b).(2).(a)	Fellows must demonstrate competence in the:
779		
780	IV.B.1.b).(2).(a).(i)	assessment of tumor burden and response
781		as measured by physical and radiologic
782		exam, and tumor markers; <sup>(Core)</sup>
783		
784	IV.B.1.b).(2).(a).(ii)	assessment of tumor imaging by CT, MRI,
785		PET scanning, and nuclear imaging
786		techniques; <sup>(Core)</sup>
787		
788	IV.B.1.b).(2).(a).(iii)	correlation of clinical information with
789		cytology, histology, and immunodiagnostic
790		imaging techniques; <sup>(Core)</sup>
791		
792	IV.B.1.b).(2).(a).(iv)	indications and application of imaging
793		techniques in patients with neoplastic and
794		blood disorders; <sup>(Core)</sup>
795		
796	IV.B.1.b).(2).(a).(v)	performance of bone marrow aspirates; <sup>(Core)</sup>
797		
798	IV.B.1.b).(2).(a).(vi)	assessment and interpretation of complete
799		blood count; <sup>(Core)</sup>
800		
801	<del>IV.B.1.b).(2).(a).(vii)</del>	<del>interpretation of peripheral blood smears;</del>
802		<del><sup>(Core)</sup></del>
803		
804	IV.B.1.b).(2).(a).(viii)	rehabilitation and psychosocial care of
805		patients with cancer; <sup>(Core)</sup>
806		
807	IV.B.1.b).(2).(a).(ix)	specific cancer prevention and screening for
808		high-risk individuals, including competency
809		in genetic testing; <sup>(Core)</sup>
810		
811	IV.B.1.b).(2).(a).(x)	treatment and diagnosis of recognition and
812		management of paraneoplastic disorders;
813		<sup>(Core)</sup>
814		
815	IV.B.1.b).(2).(a).(xi)	use of systemic therapies through all
816		therapeutic routes; <sup>(Core)</sup>
817		
818	IV.B.1.b).(2).(a).(xii)	use of chemotherapeutic drugs, biologic
819		products, and growth factors, their
820		mechanisms of action, pharmacokinetics,
821		clinical indications, and limitations, including
822		their effects, toxicity, and interactions; <sup>(Core)</sup>
823		
824	IV.B.1.b).(2).(a).(xiii)	use of hematologic, infectious disease, and
825		nutrition support; and, <sup>(Core)</sup>
826		

827 IV.B.1.b).(2).(a).(xiv) use of multiagent chemotherapeutic  
828 protocols and combined modality therapy of  
829 neoplastic disorders. (Core)  
830

831 **IV.B.1.c) Medical Knowledge**

832  
833 **Fellows must demonstrate knowledge of established and**  
834 **evolving biomedical, clinical, epidemiological and social-**  
835 **behavioral sciences, as well as the application of this**  
836 **knowledge to patient care. (Core)**  
837

838 IV.B.1.c).(1) Fellows must demonstrate knowledge of the scientific  
839 method of problem solving and evidence-based decision  
840 making. (Core)  
841

842 IV.B.1.c).(2) Fellows must demonstrate knowledge of indications,  
843 contraindications, limitations, complications, techniques,  
844 and interpretation of results of those diagnostic and  
845 therapeutic procedures integral to the discipline, including  
846 the appropriate indication for and use of screening  
847 tests/procedure. (Core)  
848

849 IV.B.1.c).(3) Fellows must demonstrate knowledge of pathogenesis,  
850 diagnosis, and treatment of disease, including: (Core)  
851

852 IV.B.1.c).(3).(a) basic molecular and pathophysiologic mechanisms,  
853 diagnosis, and therapy of diseases of the blood,  
854 including anemias, diseases of white blood cells  
855 and stem cells, and disorders of hemostasis and  
856 thrombosis; and, (Core)  
857

858 IV.B.1.c).(3).(b) etiology, epidemiology, natural history, diagnosis,  
859 pathology, staging, and management of neoplastic  
860 diseases of the blood, blood-forming organs, and  
861 lymphatic tissues. (Core)  
862

863 IV.B.1.c).(4) Fellows must demonstrate knowledge of genetics and  
864 developmental biology, including: (Core)  
865

866 IV.B.1.c).(4).(a) molecular genetics; (Core)  
867

868 IV.B.1.c).(4).(b) the nature of oncogenes and their products; and,  
869 (Core)

870 IV.B.1.c).(4).(c) cytogenetics. (Core)  
871

872  
873 IV.B.1.c).(5) Fellows must demonstrate knowledge of physiology and  
874 pathophysiology, including: (Core)  
875

876 IV.B.1.c).(5).(a) basic and clinical pharmacology, pharmacokinetics,  
877 and toxicity; (Core)

878		
879	IV.B.1.c).(5).(b)	cell and molecular biology; <sup>(Core)</sup>
880		
881	IV.B.1.c).(5).(c)	hematopoiesis; <sup>(Core)</sup>
882		
883	IV.B.1.c).(5).(d)	molecular mechanisms of hematopoietic and
884		lymphopoietic malignancies; <sup>(Core)</sup>
885		
886	IV.B.1.c).(5).(e)	pathophysiology and patterns of tumor metastases;
887		<sup>(Core)</sup>
888		
889	IV.B.1.c).(5).(f)	principles of oncogenesis; and, <sup>(Core)</sup>
890		
891	IV.B.1.c).(5).(g)	tumor immunology. <sup>(Core)</sup>
892		
893	IV.B.1.c).(6)	Fellows must demonstrate knowledge of:
894		
895	IV.B.1.c).(6).(a)	clinical epidemiology and biostatistics, including
896		clinical study and experimental protocol design,
897		data collection, and analysis; <sup>(Core)</sup>
898		
899	IV.B.1.c).(6).(b)	the basic principles of laboratory and clinical
900		testing, quality control, quality assurance, and
901		proficiency standards; <sup>(Core)</sup>
902		
903	IV.B.1.c).(6).(c)	immune markers, immunophenotyping, flow
904		cytometry, cytochemical studies, and cytogenetic
905		and DNA analysis of neoplastic disorders; <sup>(Core)</sup>
906		
907	IV.B.1.c).(6).(d)	malignant and hematologic complications of organ
908		transplantation; <sup>(Core)</sup>
909		
910	IV.B.1.c).(6).(e)	gene therapy; and, <sup>(Core)</sup>
911		
912	IV.B.1.c).(6).(f)	functional characteristics, indications, risks, and
913		process of using indwelling venous access devices.
914		<sup>(Core)</sup>
915		
916	IV.B.1.c).(7)	Fellows must demonstrate knowledge of principles of,
917		indications for, and limitations of:
918		
919	IV.B.1.c).(7).(a)	surgery in the treatment of cancer; and, <sup>(Core)</sup>
920		
921	IV.B.1.c).(7).(b)	radiation therapy in the treatment of cancer. <sup>(Core)</sup>
922		
923	IV.B.1.c).(8)	Fellows must demonstrate knowledge of principles of,
924		indications for, and complications of autologous and
925		allogeneic bone marrow or peripheral blood stem cell
926		transplantation. <sup>(Core)</sup>
927		
928	IV.B.1.c).(9)	Fellows must demonstrate knowledge of principles of,

929 indications for, and complications of peripheral stem cell  
 930 harvests. <sup>(Core)</sup>  
 931  
 932 IV.B.1.c).(10) Fellows must demonstrate knowledge of the management  
 933 of post-transplant complications. <sup>(Core)</sup>  
 934  
 935 IV.B.1.c).(11) Fellows must demonstrate knowledge of the indications  
 936 for, complications of, and risks and limitations associated  
 937 with:  
 938  
 939 IV.B.1.c).(11).(a) thoracentesis; <sup>(Core)</sup>  
 940  
 941 IV.B.1.c).(11).(b) paracentesis; <sup>(Core)</sup>  
 942  
 943 IV.B.1.c).(11).(c) skin biopsies; and, <sup>(Core)</sup>  
 944  
 945 IV.B.1.c).(11).(d) lesion biopsies. <sup>(Core)</sup>  
 946  
 947 IV.B.1.c).(12) Fellows must demonstrate knowledge of the mechanisms  
 948 of action, pharmacokinetics, clinical indications for, and  
 949 limitations of chemotherapeutic drugs, biologic products,  
 950 and growth factors, including their effects, toxicity, and  
 951 interactions. <sup>(Core)</sup>  
 952

953 **IV.B.1.d) Practice-based Learning and Improvement**

954  
 955 **Fellows must demonstrate the ability to investigate and**  
 956 **evaluate their care of patients, to appraise and assimilate**  
 957 **scientific evidence, and to continuously improve patient care**  
 958 **based on constant self-evaluation and lifelong learning.** <sup>(Core)</sup>  
 959

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

960  
 961 **IV.B.1.e) Interpersonal and Communication Skills**  
 962  
 963 **Fellows must demonstrate interpersonal and communication**  
 964 **skills that result in the effective exchange of information and**  
 965 **collaboration with patients, their families, and health**  
 966 **professionals.** <sup>(Core)</sup>  
 967  
 968 **IV.B.1.f) Systems-based Practice**  
 969  
 970 **Fellows must demonstrate an awareness of and**  
 971 **responsiveness to the larger context and system of health**

972		<b>care, including the social determinants of health, as well as</b>
973		<b>the ability to call effectively on other resources to provide</b>
974		<b>optimal health care.</b> (Core)
975		
976	<b>IV.C.</b>	<b>Curriculum Organization and Fellow Experiences</b>
977		
978	<b>IV.C.1.</b>	<b>The curriculum must be structured to optimize fellow educational</b>
979		<b>experiences, the length of these experiences, and supervisory</b>
980		<b>continuity.</b> (Core)
981		
982	IV.C.1.a)	Assignment of rotations must be structured to minimize the
983		frequency of rotational transitions, and rotations must be of
984		sufficient length to provide a quality educational experience,
985		defined by continuity of patient care, ongoing supervision,
986		longitudinal relationships with faculty members, and meaningful
987		assessment and feedback. (Core)
988		
989	IV.C.1.b)	Clinical experiences should be structured to facilitate learning in a
990		manner that allows fellows to function as part of an effective
991		interprofessional team that works together towards the shared
992		goals of patient safety and quality improvement. (Core)
993		
994	<b>IV.C.2.</b>	<b>The program must provide instruction and experience in pain</b>
995		<b>management if applicable for the subspecialty, including recognition</b>
996		<b>of the signs of addiction.</b> (Core)
997		
998	IV.C.3.	A minimum of 12 months must be devoted to clinical experience. (Core)
999		
1000	IV.C.3.a)	At least 50% of the clinical experience must occur in the outpatient
1001		setting. (Core)
1002		
1003	IV.C.3.b)	The program must provide at least one month of clinical
1004		experience in autologous and allogeneic bone marrow
1005		transplantation. (Core)
1006		
1007	IV.C.4.	Fellows must participate in training using simulation. (Detail)
1008		
1009	IV.C.5.	Inpatient assignments should be of sufficient duration to permit continuing
1010		care of a majority of the patients throughout their hospitalization. (Detail)
1011		
1012	IV.C.6.	Fellows must participate in multidisciplinary case management or tumor
1013		board conferences and in protocol studies. (Core)
1014		
1015	IV.C.7.	Experience with Continuity Ambulatory Patients
1016		
1017	IV.C.7.a)	Fellows must have continuity ambulatory clinic experience that
1018		exposes them to the breadth and depth of the subspecialty. (Core)
1019		
1020	IV.C.7.b)	This experience should average one half-day each week. (Detail)
1021		
1022	IV.C.7.c)	This experience must include an appropriate distribution of

1023		patients of each gender and a diversity of ages, (Core)
1024		
1025		This should be accomplished through either:
1026		
1027	IV.C.7.c).(1)	a continuity clinic which provides fellows the opportunity to
1028		learn the course of disease; or, (Detail)
1029		
1030	IV.C.7.c).(2)	selected blocks of at least six months which address
1031		specific areas of oncologic disorders. (Detail)
1032		
1033	IV.C.7.d)	Each fellow should, on average, be responsible for four to eight
1034		patients during each half-day session. (Detail)
1035		
1036	IV.C.7.e)	The continuity patient care experience should not be interrupted
1037		by more than one month, excluding a fellow's vacation. (Detail)
1038		
1039	IV.C.7.f)	Fellows should be informed of the status of their continuity
1040		patients when such patients are hospitalized, as clinically
1041		appropriate. (Detail)
1042		
1043	IV.C.8.	Procedures and Technical Skills
1044		
1045	IV.C.8.a)	Direct supervision of procedures performed by each fellow must
1046		occur until proficiency has been acquired and documented by the
1047		program director. (Core)
1048		
1049	IV.C.8.b)	Faculty members must teach and supervise the fellows in the
1050		performance and interpretation of procedures, which must be
1051		documented in each fellow's record, including indications,
1052		outcomes, diagnoses, and supervisor(s). (Core)
1053		
1054	IV.C.8.c)	It is suggested that fellows have the opportunity to develop
1055		competence in performing thoracentesis, paracentesis, and skin
1056		and lesion biopsies. (Detail)
1057		
1058	IV.C.8.d)	Additional training and experiences should be made available for
1059		those fellows who request the need to perform specified
1060		procedures in their post-training careers (e.g., training to achieve
1061		competence in: interpretation of bone marrow aspirates; lumbar
1062		punctures for diagnosis and/or administration of intrathecal
1063		chemotherapy; administering therapeutics through Ommaya
1064		reservoirs, etc.). (Detail)
1065		
1066	IV.C.9.	The core curriculum must include a didactic program based upon the core
1067		knowledge content in the subspecialty area. (Core)
1068		
1069	IV.C.9.a)	The program must afford each fellow an opportunity to review
1070		topics covered in conferences that he or she was unable to attend.
1071		(Detail)
1072		
1073	IV.C.9.b)	Fellows must participate in clinical case conferences, journal

1074		clubs, research conferences, and morbidity and mortality or quality
1075		improvement conferences. <sup>(Detail)</sup>
1076		
1077	IV.C.9.c)	All core conferences must have at least one faculty member
1078		present, and must be scheduled as to ensure peer-peer and peer-
1079		faculty interaction. <sup>(Detail)</sup>
1080		
1081	IV.C.10.	Patient-based teaching must include direct interaction between fellows
1082		and faculty members, bedside teaching, discussion of pathophysiology,
1083		and the use of current evidence in diagnostic and therapeutic decisions.
1084		<sup>(Core)</sup>
1085		
1086		The teaching must be:
1087		
1088	IV.C.10.a)	formally conducted on all inpatient, outpatient, and consultative
1089		services; and, <sup>(Detail)</sup>
1090		
1091	IV.C.10.b)	conducted with a frequency and duration that ensures a
1092		meaningful and continuous teaching relationship between the
1093		assigned supervising faculty member(s) and fellows. <sup>(Detail)</sup>
1094		
1095	IV.C.11.	Fellows must receive instruction in practice management relevant to
1096		medical oncology. <sup>(Detail)</sup>
1097		
1098	<b>IV.D.</b>	<b>Scholarship</b>
1099		
1100		<b><i>Medicine is both an art and a science. The physician is a humanistic</i></b>
1101		<b><i>scientist who cares for patients. This requires the ability to think critically,</i></b>
1102		<b><i>evaluate the literature, appropriately assimilate new knowledge, and</i></b>
1103		<b><i>practice lifelong learning. The program and faculty must create an</i></b>
1104		<b><i>environment that fosters the acquisition of such skills through fellow</i></b>
1105		<b><i>participation in scholarly activities as defined in the subspecialty-specific</i></b>
1106		<b><i>Program Requirements. Scholarly activities may include discovery,</i></b>
1107		<b><i>integration, application, and teaching.</i></b>
1108		
1109		<b><i>The ACGME recognizes the diversity of fellowships and anticipates that</i></b>
1110		<b><i>programs prepare physicians for a variety of roles, including clinicians,</i></b>
1111		<b><i>scientists, and educators. It is expected that the program's scholarship will</i></b>
1112		<b><i>reflect its mission(s) and aims, and the needs of the community it serves.</i></b>
1113		<b><i>For example, some programs may concentrate their scholarly activity on</i></b>
1114		<b><i>quality improvement, population health, and/or teaching, while other</i></b>
1115		<b><i>programs might choose to utilize more classic forms of biomedical</i></b>
1116		<b><i>research as the focus for scholarship.</i></b>
1117		
1118	<b>IV.D.1.</b>	<b>Program Responsibilities</b>
1119		
1120	<b>IV.D.1.a)</b>	<b>The program must demonstrate evidence of scholarly</b>
1121		<b>activities, consistent with its mission(s) and aims. <sup>(Core)</sup></b>
1122		

1123 **IV.D.1.b)** The program in partnership with its Sponsoring Institution,  
1124 must allocate adequate resources to facilitate fellow and  
1125 faculty involvement in scholarly activities. (Core)

1126  
1127 **IV.D.2. Faculty Scholarly Activity**

1128  
1129 **IV.D.2.a)** Among their scholarly activity, programs must demonstrate  
1130 accomplishments in at least three of the following domains:  
1131 (Core)

- Research in basic science, education, translational science, patient care, or population health
- Peer-reviewed grants
- Quality improvement and/or patient safety initiatives
- Systematic reviews, meta-analyses, review articles, chapters in medical textbooks, or case reports
- Creation of curricula, evaluation tools, didactic educational activities, or electronic educational materials
- Contribution to professional committees, educational organizations, or editorial boards
- Innovations in education

1132  
1133  
1134  
1135  
1136  
1137  
1138  
1139  
1140  
1141  
1142  
1143  
1144  
1145  
1146 **IV.D.2.b)** The program must demonstrate dissemination of scholarly  
1147 activity within and external to the program by the following  
1148 methods:  
1149

**Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.**

1150  
1151 **IV.D.2.b).(1)** faculty participation in grand rounds, posters,  
1152 workshops, quality improvement presentations,  
1153 podium presentations, grant leadership, non-peer-  
1154 reviewed print/electronic resources, articles or  
1155 publications, book chapters, textbooks, webinars,  
1156 service on professional committees, or serving as a  
1157 journal reviewer, journal editorial board member, or  
1158 editor; (Outcome)‡

1159  
1160 **IV.D.2.b).(1).(a)** At least 50 percent of the core faculty members  
1161 who are certified in medical oncology by the ABIM  
1162 or AOBIM (See Program Requirements II.B.4.c)-d))  
1163 must annually engage in a variety of scholarly

1164		activities, as listed in Program Requirement
1165		IV.D.2.b).(1). <sup>(Core)</sup>
1166		
1167	<b>IV.D.3.</b>	<b>Fellow Scholarly Activity</b>
1168		
1169	IV.D.3.a)	While in the program, at least 50 percent of a program's fellows
1170		must have engaged in more than one of the following scholarly
1171		activities: participation in grand rounds, posters, workshops,
1172		quality improvement presentations, podium presentations, grant
1173		leadership, non-peer-reviewed print/electronic resources, articles
1174		or publications, book chapters, textbooks, webinars, service on
1175		professional committees, or serving as a journal reviewer, journal
1176		editorial board member, or editor. <sup>(Outcome)</sup>
1177		
1178	<b>V.</b>	<b>Evaluation</b>
1179		
1180	<b>V.A.</b>	<b>Fellow Evaluation</b>
1181		
1182	<b>V.A.1.</b>	<b>Feedback and Evaluation</b>
1183		

**Background and Intent: Feedback is ongoing information provided regarding aspects of one's performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- **fellows identify their strengths and weaknesses and target areas that need work**
- **program directors and faculty members recognize where fellows are struggling and address problems immediately**

**Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

1184		
1185	<b>V.A.1.a)</b>	<b>Faculty members must directly observe, evaluate, and</b>
1186		<b>frequently provide feedback on fellow performance during</b>
1187		<b>each rotation or similar educational assignment. <sup>(Core)</sup></b>

- 1188  
 1189 V.A.1.a).(1) The faculty must discuss this evaluation with each fellow at  
 1190 the completion of each assignment. <sup>(Core)</sup>  
 1191  
 1192 V.A.1.a).(2) Assessment of procedural competence should include a  
 1193 formal evaluation process and not be based solely on a  
 1194 minimum number of procedures performed. <sup>(Detail)</sup>  
 1195

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

- 1196  
 1197 V.A.1.b) Evaluation must be documented at the completion of the  
 1198 assignment. <sup>(Core)</sup>  
 1199  
 1200 V.A.1.b).(1) For block rotations of greater than three months in  
 1201 duration, evaluation must be documented at least  
 1202 every three months. <sup>(Core)</sup>  
 1203  
 1204 V.A.1.b).(2) Longitudinal experiences such as continuity clinic in  
 1205 the context of other clinical responsibilities must be  
 1206 evaluated at least every three months and at  
 1207 completion. <sup>(Core)</sup>  
 1208  
 1209 V.A.1.c) The program must provide an objective performance  
 1210 evaluation based on the Competencies and the subspecialty-  
 1211 specific Milestones, and must: <sup>(Core)</sup>  
 1212  
 1213 V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers,  
 1214 patients, self, and other professional staff members);  
 1215 and, <sup>(Core)</sup>  
 1216  
 1217 V.A.1.c).(2) provide that information to the Clinical Competency  
 1218 Committee for its synthesis of progressive fellow  
 1219 performance and improvement toward unsupervised  
 1220 practice. <sup>(Core)</sup>  
 1221

**Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.**

1222

- 1223 **V.A.1.d)** The program director or their designee, with input from the  
 1224 Clinical Competency Committee, must:  
 1225  
 1226 **V.A.1.d).(1)** meet with and review with each fellow their  
 1227 documented semi-annual evaluation of performance,  
 1228 including progress along the subspecialty-specific  
 1229 Milestones. <sup>(Core)</sup>  
 1230  
 1231 **V.A.1.d).(2)** assist fellows in developing individualized learning  
 1232 plans to capitalize on their strengths and identify areas  
 1233 for growth; and, <sup>(Core)</sup>  
 1234  
 1235 **V.A.1.d).(3)** develop plans for fellows failing to progress, following  
 1236 institutional policies and procedures. <sup>(Core)</sup>  
 1237

**Background and Intent:** Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

- 1238  
 1239 **V.A.1.e)** At least annually, there must be a summative evaluation of  
 1240 each fellow that includes their readiness to progress to the  
 1241 next year of the program, if applicable. <sup>(Core)</sup>  
 1242  
 1243 **V.A.1.f)** The evaluations of a fellow's performance must be accessible  
 1244 for review by the fellow. <sup>(Core)</sup>  
 1245  
 1246 **V.A.2.** Final Evaluation  
 1247  
 1248 **V.A.2.a)** The program director must provide a final evaluation for each  
 1249 fellow upon completion of the program. <sup>(Core)</sup>  
 1250  
 1251 **V.A.2.a).(1)** The subspecialty-specific Milestones, and when  
 1252 applicable the subspecialty-specific Case Logs, must  
 1253 be used as tools to ensure fellows are able to engage  
 1254 in autonomous practice upon completion of the  
 1255 program. <sup>(Core)</sup>  
 1256

- 1257 **V.A.2.a).(2)** **The final evaluation must:**  
 1258  
 1259 **V.A.2.a).(2).(a)** **become part of the fellow’s permanent record**  
 1260 **maintained by the institution, and must be**  
 1261 **accessible for review by the fellow in**  
 1262 **accordance with institutional policy;** <sup>(Core)</sup>  
 1263  
 1264 **V.A.2.a).(2).(b)** **verify that the fellow has demonstrated the**  
 1265 **knowledge, skills, and behaviors necessary to**  
 1266 **enter autonomous practice;** <sup>(Core)</sup>  
 1267  
 1268 **V.A.2.a).(2).(c)** **consider recommendations from the Clinical**  
 1269 **Competency Committee; and,** <sup>(Core)</sup>  
 1270  
 1271 **V.A.2.a).(2).(d)** **be shared with the fellow upon completion of**  
 1272 **the program.** <sup>(Core)</sup>  
 1273  
 1274 **V.A.3.** **A Clinical Competency Committee must be appointed by the**  
 1275 **program director.** <sup>(Core)</sup>  
 1276  
 1277 **V.A.3.a)** **At a minimum the Clinical Competency Committee must**  
 1278 **include three members, at least one of whom is a core faculty**  
 1279 **member. Members must be faculty members from the same**  
 1280 **program or other programs, or other health professionals**  
 1281 **who have extensive contact and experience with the**  
 1282 **program’s fellows.** <sup>(Core)</sup>  
 1283  
 1284 **V.A.3.b)** **The Clinical Competency Committee must:**  
 1285  
 1286 **V.A.3.b).(1)** **review all fellow evaluations at least semi-annually;**  
 1287 <sup>(Core)</sup>  
 1288  
 1289 **V.A.3.b).(2)** **determine each fellow’s progress on achievement of**  
 1290 **the subspecialty-specific Milestones; and,** <sup>(Core)</sup>  
 1291  
 1292 **V.A.3.b).(3)** **meet prior to the fellows’ semi-annual evaluations and**  
 1293 **advise the program director regarding each fellow’s**  
 1294 **progress.** <sup>(Core)</sup>  
 1295  
 1296 **V.B. Faculty Evaluation**  
 1297  
 1298 **V.B.1.** **The program must have a process to evaluate each faculty**  
 1299 **member’s performance as it relates to the educational program at**  
 1300 **least annually.** <sup>(Core)</sup>  
 1301

**Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work**

opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1302  
 1303 **V.B.1.a)** This evaluation must include a review of the faculty member's  
 1304 clinical teaching abilities, engagement with the educational  
 1305 program, participation in faculty development related to their  
 1306 skills as an educator, clinical performance, professionalism,  
 1307 and scholarly activities. (Core)  
 1308  
 1309 **V.B.1.b)** This evaluation must include written, confidential evaluations  
 1310 by the fellows. (Core)  
 1311  
 1312 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
 1313 annually. (Core)  
 1314  
 1315 **V.B.3.** Results of the faculty educational evaluations should be  
 1316 incorporated into program-wide faculty development plans. (Core)  
 1317

**Background and Intent:** The quality of the faculty's teaching and clinical care is a determinant of the quality of the program and the quality of the fellows' future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1318  
 1319 **V.C. Program Evaluation and Improvement**  
 1320  
 1321 **V.C.1.** The program director must appoint the Program Evaluation  
 1322 Committee to conduct and document the Annual Program  
 1323 Evaluation as part of the program's continuous improvement  
 1324 process. (Core)  
 1325  
 1326 **V.C.1.a)** The Program Evaluation Committee must be composed of at  
 1327 least two program faculty members, at least one of whom is a  
 1328 core faculty member, and at least one fellow. (Core)  
 1329  
 1330 **V.C.1.b)** Program Evaluation Committee responsibilities must include:  
 1331  
 1332 **V.C.1.b).(1)** acting as an advisor to the program director, through  
 1333 program oversight; (Core)

- 1334  
1335 **V.C.1.b).(2)** review of the program’s self-determined goals and  
1336 progress toward meeting them; <sup>(Core)</sup>  
1337  
1338 **V.C.1.b).(3)** guiding ongoing program improvement, including  
1339 development of new goals, based upon outcomes;  
1340 and, <sup>(Core)</sup>  
1341  
1342 **V.C.1.b).(4)** review of the current operating environment to identify  
1343 strengths, challenges, opportunities, and threats as  
1344 related to the program’s mission and aims. <sup>(Core)</sup>  
1345

**Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.**

- 1346  
1347 **V.C.1.c)** The Program Evaluation Committee should consider the  
1348 following elements in its assessment of the program:  
1349  
1350 **V.C.1.c).(1)** curriculum; <sup>(Core)</sup>  
1351  
1352 **V.C.1.c).(2)** outcomes from prior Annual Program Evaluation(s);  
1353 <sup>(Core)</sup>  
1354  
1355 **V.C.1.c).(3)** ACGME letters of notification, including citations,  
1356 Areas for Improvement, and comments; <sup>(Core)</sup>  
1357  
1358 **V.C.1.c).(4)** quality and safety of patient care; <sup>(Core)</sup>  
1359  
1360 **V.C.1.c).(5)** aggregate fellow and faculty:  
1361  
1362 **V.C.1.c).(5).(a)** well-being; <sup>(Core)</sup>  
1363  
1364 **V.C.1.c).(5).(b)** recruitment and retention; <sup>(Core)</sup>  
1365  
1366 **V.C.1.c).(5).(c)** workforce diversity; <sup>(Core)</sup>  
1367  
1368 **V.C.1.c).(5).(d)** engagement in quality improvement and patient  
1369 safety; <sup>(Core)</sup>  
1370  
1371 **V.C.1.c).(5).(e)** scholarly activity; <sup>(Core)</sup>  
1372  
1373 **V.C.1.c).(5).(f)** ACGME Resident/Fellow and Faculty Surveys  
1374 (where applicable); and, <sup>(Core)</sup>  
1375  
1376 **V.C.1.c).(5).(g)** written evaluations of the program. <sup>(Core)</sup>  
1377  
1378 **V.C.1.c).(6)** aggregate fellow:

- 1379
- 1380 **V.C.1.c).(6).(a)** achievement of the Milestones; <sup>(Core)</sup>
- 1381
- 1382 **V.C.1.c).(6).(b)** in-training examinations (where applicable);
- 1383 <sup>(Core)</sup>
- 1384
- 1385 **V.C.1.c).(6).(c)** board pass and certification rates; and, <sup>(Core)</sup>
- 1386
- 1387 **V.C.1.c).(6).(d)** graduate performance. <sup>(Core)</sup>
- 1388
- 1389 **V.C.1.c).(7)** aggregate faculty:
- 1390
- 1391 **V.C.1.c).(7).(a)** evaluation; and, <sup>(Core)</sup>
- 1392
- 1393 **V.C.1.c).(7).(b)** professional development <sup>(Core)</sup>
- 1394
- 1395 **V.C.1.d)** The Program Evaluation Committee must evaluate the
- 1396 program's mission and aims, strengths, areas for
- 1397 improvement, and threats. <sup>(Core)</sup>
- 1398
- 1399 **V.C.1.e)** The annual review, including the action plan, must:
- 1400
- 1401 **V.C.1.e).(1)** be distributed to and discussed with the members of
- 1402 the teaching faculty and the fellows; and, <sup>(Core)</sup>
- 1403
- 1404 **V.C.1.e).(2)** be submitted to the DIO. <sup>(Core)</sup>
- 1405
- 1406 **V.C.2.** The program must participate in a Self-Study prior to its 10-Year
- 1407 Accreditation Site Visit. <sup>(Core)</sup>
- 1408
- 1409 **V.C.2.a)** A summary of the Self-Study must be submitted to the DIO.
- 1410 <sup>(Core)</sup>
- 1411

**Background and Intent:** Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

- 1412
- 1413 **V.C.3.** *One goal of ACGME-accredited education is to educate physicians*
- 1414 *who seek and achieve board certification. One measure of the*
- 1415 *effectiveness of the educational program is the ultimate pass rate.*
- 1416
- 1417 *The program director should encourage all eligible program*
- 1418 *graduates to take the certifying examination offered by the*

- 1419 *applicable American Board of Medical Specialties (ABMS) member*  
 1420 *board or American Osteopathic Association (AOA) certifying board.*  
 1421
- 1422 **V.C.3.a)** For subspecialties in which the ABMS member board and/or  
 1423 AOA certifying board offer(s) an annual written exam, in the  
 1424 preceding three years, the program’s aggregate pass rate of  
 1425 those taking the examination for the first time must be higher  
 1426 than the bottom fifth percentile of programs in that  
 1427 subspecialty. <sup>(Outcome)</sup>  
 1428
- 1429 **V.C.3.b)** For subspecialties in which the ABMS member board and/or  
 1430 AOA certifying board offer(s) a biennial written exam, in the  
 1431 preceding six years, the program’s aggregate pass rate of  
 1432 those taking the examination for the first time must be higher  
 1433 than the bottom fifth percentile of programs in that  
 1434 subspecialty. <sup>(Outcome)</sup>  
 1435
- 1436 **V.C.3.c)** For subspecialties in which the ABMS member board and/or  
 1437 AOA certifying board offer(s) an annual oral exam, in the  
 1438 preceding three years, the program’s aggregate pass rate of  
 1439 those taking the examination for the first time must be higher  
 1440 than the bottom fifth percentile of programs in that  
 1441 subspecialty. <sup>(Outcome)</sup>  
 1442
- 1443 **V.C.3.d)** For subspecialties in which the ABMS member board and/or  
 1444 AOA certifying board offer(s) a biennial oral exam, in the  
 1445 preceding six years, the program’s aggregate pass rate of  
 1446 those taking the examination for the first time must be higher  
 1447 than the bottom fifth percentile of programs in that  
 1448 subspecialty. <sup>(Outcome)</sup>  
 1449
- 1450 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program  
 1451 whose graduates over the time period specified in the  
 1452 requirement have achieved an 80 percent pass rate will have  
 1453 met this requirement, no matter the percentile rank of the  
 1454 program for pass rate in that subspecialty. <sup>(Outcome)</sup>  
 1455

**Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.**

**There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.**

- 1456  
 1457 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1458 annually for the cohort of board-eligible fellows that  
 1459 graduated seven years earlier. <sup>(Core)</sup>

**Background and Intent:** It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

## VI. The Learning and Working Environment

*Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:*

- *Excellence in the safety and quality of care rendered to patients by fellows today*
- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*
- *Excellence in professionalism through faculty modeling of:*
  - *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*
  - *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

1523

**VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability**

**VI.A.1. Patient Safety and Quality Improvement**

*All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.*

*Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.*

*It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.*

**VI.A.1.a) Patient Safety**

**VI.A.1.a).(1) Culture of Safety**

*A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.*

**VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety.**  
(Core)

1524 VI.A.1.a).(1).(b) The program must have a structure that  
1525 promotes safe, interprofessional, team-based  
1526 care. <sup>(Core)</sup>  
1527

1528 VI.A.1.a).(2) Education on Patient Safety  
1529  
1530 Programs must provide formal educational activities  
1531 that promote patient safety-related goals, tools, and  
1532 techniques. <sup>(Core)</sup>  
1533

**Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.**

1534  
1535 VI.A.1.a).(3) Patient Safety Events  
1536  
1537 *Reporting, investigation, and follow-up of adverse*  
1538 *events, near misses, and unsafe conditions are pivotal*  
1539 *mechanisms for improving patient safety, and are*  
1540 *essential for the success of any patient safety*  
1541 *program. Feedback and experiential learning are*  
1542 *essential to developing true competence in the ability*  
1543 *to identify causes and institute sustainable systems-*  
1544 *based changes to ameliorate patient safety*  
1545 *vulnerabilities.*  
1546

1547 VI.A.1.a).(3).(a) Residents, fellows, faculty members, and other  
1548 clinical staff members must:

1549  
1550 VI.A.1.a).(3).(a).(i) know their responsibilities in reporting  
1551 patient safety events at the clinical site;  
1552 <sup>(Core)</sup>  
1553

1554 VI.A.1.a).(3).(a).(ii) know how to report patient safety  
1555 events, including near misses, at the  
1556 clinical site; and, <sup>(Core)</sup>  
1557

1558 VI.A.1.a).(3).(a).(iii) be provided with summary information  
1559 of their institution's patient safety  
1560 reports. <sup>(Core)</sup>  
1561

1562 VI.A.1.a).(3).(b) Fellows must participate as team members in  
1563 real and/or simulated interprofessional clinical  
1564 patient safety activities, such as root cause  
1565 analyses or other activities that include  
1566 analysis, as well as formulation and  
1567 implementation of actions. <sup>(Core)</sup>  
1568

1569 VI.A.1.a).(4) Fellow Education and Experience in Disclosure of  
1570 Adverse Events  
1571

1572 *Patient-centered care requires patients, and when*  
1573 *appropriate families, to be apprised of clinical*  
1574 *situations that affect them, including adverse events.*  
1575 *This is an important skill for faculty physicians to*  
1576 *model, and for fellows to develop and apply.*  
1577

1578 VI.A.1.a).(4).(a) All fellows must receive training in how to  
1579 disclose adverse events to patients and  
1580 families. <sup>(Core)</sup>  
1581

1582 VI.A.1.a).(4).(b) Fellows should have the opportunity to  
1583 participate in the disclosure of patient safety  
1584 events, real or simulated. <sup>(Detail)</sup>  
1585

1586 VI.A.1.b) Quality Improvement  
1587

1588 VI.A.1.b).(1) Education in Quality Improvement  
1589

1590 *A cohesive model of health care includes quality-*  
1591 *related goals, tools, and techniques that are necessary*  
1592 *in order for health care professionals to achieve*  
1593 *quality improvement goals.*  
1594

1595 VI.A.1.b).(1).(a) Fellows must receive training and experience in  
1596 quality improvement processes, including an  
1597 understanding of health care disparities. <sup>(Core)</sup>  
1598

1599 VI.A.1.b).(2) Quality Metrics  
1600

1601 *Access to data is essential to prioritizing activities for*  
1602 *care improvement and evaluating success of*  
1603 *improvement efforts.*  
1604

1605 VI.A.1.b).(2).(a) Fellows and faculty members must receive data  
1606 on quality metrics and benchmarks related to  
1607 their patient populations. <sup>(Core)</sup>  
1608

1609 VI.A.1.b).(3) Engagement in Quality Improvement Activities  
1610

1611 *Experiential learning is essential to developing the*

1622 VI.A.2. Supervision and Accountability

1623		
1624	<b>VI.A.2.a)</b>	<b><i>Although the attending physician is ultimately responsible for the care of the patient, every physician shares in the responsibility and accountability for their efforts in the provision of care. Effective programs, in partnership with their Sponsoring Institutions, define, widely communicate, and monitor a structured chain of responsibility and accountability as it relates to the supervision of all patient care.</i></b>
1625		
1626		
1627		
1628		
1629		
1630		
1631		
1632		
1633		<b><i>Supervision in the setting of graduate medical education provides safe and effective care to patients; ensures each fellow's development of the skills, knowledge, and attitudes required to enter the unsupervised practice of medicine; and establishes a foundation for continued professional growth.</i></b>
1634		
1635		
1636		
1637		
1638		
1639	<b>VI.A.2.a).(1)</b>	<b>Each patient must have an identifiable and appropriately-credentialed and privileged attending physician (or licensed independent practitioner as specified by the applicable Review Committee) who is responsible and accountable for the patient's care.</b>
1640		<b>(Core)</b>
1641		
1642		
1643		
1644		
1645		
1646	<b>VI.A.2.a).(1).(a)</b>	<b>This information must be available to fellows, faculty members, other members of the health care team, and patients. <b>(Core)</b></b>
1647		
1648		
1649		
1650	<b>VI.A.2.a).(1).(b)</b>	<b>Fellows and faculty members must inform each patient of their respective roles in that patient's care when providing direct patient care. <b>(Core)</b></b>
1651		
1652		
1653		
1654	<b>VI.A.2.b)</b>	<b><i>Supervision may be exercised through a variety of methods. For many aspects of patient care, the supervising physician may be a more advanced fellow. Other portions of care provided by the fellow can be adequately supervised by the appropriate availability of the supervising faculty member or fellow, either on site or by means of telecommunication technology. Some activities require the physical presence of the supervising faculty member. In some circumstances, supervision may include post-hoc review of fellow-delivered care with feedback.</i></b>
1655		
1656		
1657		
1658		
1659		
1660		
1661		
1662		
1663		
1664		

**Background and Intent:** Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of fellow patient interactions, education and training locations, and fellow skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a fellow gains more experience, even with the same patient condition or procedure. All fellows have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.

1665		
1666	<b>VI.A.2.b).(1)</b>	<b>The program must demonstrate that the appropriate level of supervision in place for all fellows is based on each fellow’s level of training and ability, as well as patient complexity and acuity. Supervision may be exercised through a variety of methods, as appropriate to the situation. <sup>(Core)</sup></b>
1667		
1668		
1669		
1670		
1671		
1672

1676	<b>VI.A.2.c)</b>	<b>Levels of Supervision</b>
1677		
1678		<b>To promote appropriate fellow supervision while providing for graded authority and responsibility, the program must use the following classification of supervision: <sup>(Core)</sup></b>
1679		
1680		
1681		
1682	<b>VI.A.2.c).(1)</b>	<b>Direct Supervision:</b>
1683		
1684	<b>VI.A.2.c).(1).(a)</b>	<b>the supervising physician is physically present with the fellow during the key portions of the patient interaction; or, <sup>(Core)</sup></b>
1685		
1686		
1687		
1688	<b>VI.A.2.c).(1).(b)</b>	<b>the supervising physician and/or patient is not physically present with the fellow and the supervising physician is concurrently monitoring the patient care through appropriate telecommunication technology. <sup>(Core)</sup></b>
1689		
1690		
1691		
1692		
1693		
1694	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision: the supervising physician is not providing physical or concurrent visual or audio supervision but is immediately available to the fellow for guidance and is available to provide appropriate direct supervision. <sup>(Core)</sup></b>
1695		
1696		
1697		
1698		
1699		
1700	<b>VI.A.2.c).(3)</b>	<b>Oversight – the supervising physician is available to provide review of procedures/encounters with feedback provided after care is delivered. <sup>(Core)</sup></b>
1701		
1702		
1703		
1704	<b>VI.A.2.d)</b>	<b>The privilege of progressive authority and responsibility, conditional independence, and a supervisory role in patient care delegated to each fellow must be assigned by the program director and faculty members. <sup>(Core)</sup></b>
1705		
1706		
1707		
1708		
1709	<b>VI.A.2.d).(1)</b>	<b>The program director must evaluate each fellow’s abilities based on specific criteria, guided by the Milestones. <sup>(Core)</sup></b>
1710		
1711		
1712		
1713	<b>VI.A.2.d).(2)</b>	<b>Faculty members functioning as supervising physicians must delegate portions of care to fellows</b>
1714		

1715 based on the needs of the patient and the skills of  
1716 each fellow. <sup>(Core)</sup>

1717  
1718 **VI.A.2.d).(3)** Fellows should serve in a supervisory role to junior  
1719 fellows and residents in recognition of their progress  
1720 toward independence, based on the needs of each  
1721 patient and the skills of the individual resident or  
1722 fellow. <sup>(Detail)</sup>

1723  
1724 **VI.A.2.e)** Programs must set guidelines for circumstances and events  
1725 in which fellows must communicate with the supervising  
1726 faculty member(s). <sup>(Core)</sup>

1727  
1728 **VI.A.2.e).(1)** Each fellow must know the limits of their scope of  
1729 authority, and the circumstances under which the  
1730 fellow is permitted to act with conditional  
1731 independence. <sup>(Outcome)</sup>

1732

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

1733  
1734 **VI.A.2.f)** Faculty supervision assignments must be of sufficient  
1735 duration to assess the knowledge and skills of each fellow  
1736 and to delegate to the fellow the appropriate level of patient  
1737 care authority and responsibility. <sup>(Core)</sup>

1738  
1739 **VI.B. Professionalism**

1740  
1741 **VI.B.1.** Programs, in partnership with their Sponsoring Institutions, must  
1742 educate fellows and faculty members concerning the professional  
1743 responsibilities of physicians, including their obligation to be  
1744 appropriately rested and fit to provide the care required by their  
1745 patients. <sup>(Core)</sup>

1746  
1747 **VI.B.2.** The learning objectives of the program must:

1748  
1749 **VI.B.2.a)** be accomplished through an appropriate blend of supervised  
1750 patient care responsibilities, clinical teaching, and didactic  
1751 educational events; <sup>(Core)</sup>

1752  
1753 **VI.B.2.b)** be accomplished without excessive reliance on fellows to  
1754 fulfill non-physician obligations; and, <sup>(Core)</sup>

1755

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests;**

routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1756  
1757  
1758

VI.B.2.c) ensure manageable patient care responsibilities. (Core)

**Background and Intent:** The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1759

1768  
1769  
1770  
1771  
1772

VI.B.3. The program director, in partnership with the Sponsoring Institution, must provide a culture of professionalism that supports patient safety and personal responsibility. (Core)

VI.B.4. Fellows and faculty members must demonstrate an understanding of their personal role in the:

VI.B.4.a) provision of patient- and family-centered care; (Outcome)

VI.B.4.b) safety and welfare of patients entrusted to their care, including the ability to report unsafe conditions and adverse events; (Outcome)

**Background and Intent:** This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.

1773  
1774  
1775

VI.B.4.c) assurance of their fitness for work, including: (Outcome)

**Background and Intent:** This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

1776  
1777  
1778  
1779  
1780  
1781  
1782  
1783  
1784  
1785

VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, (Outcome)

VI.B.4.c).(2) recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)

VI.B.4.d) commitment to lifelong learning; (Outcome)

- 1786 VI.B.4.e) monitoring of their patient care performance improvement  
 1787 indicators; and, <sup>(Outcome)</sup>  
 1788
- 1789 VI.B.4.f) accurate reporting of clinical and educational work hours,  
 1790 patient outcomes, and clinical experience data. <sup>(Outcome)</sup>  
 1791
- 1792 VI.B.5. All fellows and faculty members must demonstrate responsiveness  
 1793 to patient needs that supersedes self-interest. This includes the  
 1794 recognition that under certain circumstances, the best interests of  
 1795 the patient may be served by transitioning that patient's care to  
 1796 another qualified and rested provider. <sup>(Outcome)</sup>  
 1797
- 1798 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must  
 1799 provide a professional, equitable, respectful, and civil environment  
 1800 that is free from discrimination, sexual and other forms of  
 1801 harassment, mistreatment, abuse, or coercion of students, fellows,  
 1802 faculty, and staff. <sup>(Core)</sup>  
 1803
- 1804 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should  
 1805 have a process for education of fellows and faculty regarding  
 1806 unprofessional behavior and a confidential process for reporting,  
 1807 investigating, and addressing such concerns. <sup>(Core)</sup>  
 1808
- 1809 VI.C. Well-Being  
 1810
- 1811 *Psychological, emotional, and physical well-being are critical in the*  
 1812 *development of the competent, caring, and resilient physician and require*  
 1813 *proactive attention to life inside and outside of medicine. Well-being*  
 1814 *requires that physicians retain the joy in medicine while managing their*  
 1815 *own real-life stresses. Self-care and responsibility to support other*  
 1816 *members of the health care team are important components of*  
 1817 *professionalism; they are also skills that must be modeled, learned, and*  
 1818 *nurtured in the context of other aspects of fellowship training.*  
 1819
- 1820 *Fellows and faculty members are at risk for burnout and depression.*  
 1821 *Programs, in partnership with their Sponsoring Institutions, have the same*  
 1822 *responsibility to address well-being as other aspects of resident*  
 1823 *competence. Physicians and all members of the health care team share*  
 1824 *responsibility for the well-being of each other. For example, a culture which*  
 1825 *encourages covering for colleagues after an illness without the expectation*  
 1826 *of reciprocity reflects the ideal of professionalism. A positive culture in a*  
 1827 *clinical learning environment models constructive behaviors, and prepares*  
 1828 *fellows with the skills and attitudes needed to thrive throughout their*  
 1829 *careers.*  
 1830

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and

collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website: [www.acgme.org/physicianwellbeing](http://www.acgme.org/physicianwellbeing).

The ACGME also created a repository for well-being materials, assessments, presentations, and more on the [Well-Being Tools and Resources page](#) in Learn at ACGME for programs seeking to develop or strengthen their own well-being initiatives. There are many activities that programs can implement now to assess and support physician well-being. These include the distribution and analysis of culture of safety surveys, ensuring the availability of counseling services, and paying attention to the safety of the entire health care team.

1831

1844  
1845  
1846  
1847

**VI.C.1. The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:**

**VI.C.1.a) efforts to enhance the meaning that each fellow finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; <sup>(Core)</sup>**

**VI.C.1.b) attention to scheduling, work intensity, and work compression that impacts fellow well-being; <sup>(Core)</sup>**

**VI.C.1.c) evaluating workplace safety data and addressing the safety of fellows and faculty members; <sup>(Core)</sup>**

**Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.**

1848  
1849  
1850  
1851

**VI.C.1.d) policies and programs that encourage optimal fellow and faculty member well-being; and, <sup>(Core)</sup>**

**Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.**

1852  
1853  
1854  
1855  
1856  
1857

**VI.C.1.d).(1) Fellows must be given the opportunity to attend medical, mental health, and dental care appointments, including those scheduled during their working hours. <sup>(Core)</sup>**

**Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with**

time away from the program as needed to access care, including appointments scheduled during their working hours.

1858

1872  
1873  
1874  
1875  
1876  
1877  
1878

**VI.C.1.e).(1)** encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, a substance use disorder, suicidal ideation, or potential for violence; <sup>(Core)</sup>

**Background and Intent:** Individuals experiencing burnout, depression, substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting

1882  
1883  
1884  
1885  
1886  
1887

**VI.C.1.e).(2)** provide access to appropriate tools for self-screening; and, <sup>(Core)</sup>

**VI.C.1.e).(3)** provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. <sup>(Core)</sup>

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

**VI.D. Fatigue Mitigation**

**VI.D.1. Programs must:**

**VI.D.1.a)** educate all faculty members and fellows to recognize the signs of fatigue and sleep deprivation; <sup>(Core)</sup>

**VI.D.1.b)** educate all faculty members and fellows in alertness management and fatigue mitigation processes; and, <sup>(Core)</sup>

**VI.D.1.c)** encourage fellows to use fatigue mitigation processes to manage the potential negative effects of fatigue on patient care and learning. <sup>(Detail)</sup>

**Background and Intent:** Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.**

1934
- VI.D.2. Each program must ensure continuity of patient care, consistent with the program’s policies and procedures referenced in VI.C.2–VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue. (Core)**
- VI.D.3. The program, in partnership with its Sponsoring Institution, must ensure adequate sleep facilities and safe transportation options for fellows who may be too fatigued to safely return home. (Core)**
- VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care**
- VI.E.1. Clinical Responsibilities**
- The clinical responsibilities for each fellow must be based on PGY level, patient safety, fellow ability, severity and complexity of patient illness/condition, and available support services. (Core)**

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.**

- 1969 VI.F. Clinical Experience and Education
- 1970
- 1971 *Programs, in partnership with their Sponsoring Institutions, must design an effective program structure that is configured to provide fellows with educational and clinical experience opportunities, as well as reasonable opportunities for rest and personal activities.*
- 1972
- 1973
- 1974
- 1975

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

- 1976
- 1977 VI.F.1. Maximum Hours of Clinical and Educational Work per Week
- 1978
- 1979 Clinical and educational work hours must be limited to no more than 80 hours per week, averaged over a four-week period, inclusive of all in-house clinical and educational activities, clinical work done from home, and all moonlighting. <sup>(Core)</sup>
- 1980
- 1981
- 1982
- 1983

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

**Scheduling**  
While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-

week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

### ***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

### ***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules

are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

**VI.F.2. Mandatory Time Free of Clinical Work and Education**

**VI.F.2.a)** The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>

**VI.F.2.b)** Fellows should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>

**VI.F.2.b).(1)** There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. <sup>(Detail)</sup>

**Background and Intent:** While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

2002  
2003  
2004  
2005

**VI.F.2.c)** Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. <sup>(Core)</sup>

**Background and Intent:** Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

2006  
2007  
2008  
2009  
2010  
2011

**VI.F.2.d)** Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. <sup>(Core)</sup>

**Background and Intent:** The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two

consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as “one (1) continuous 24-hour period free from all administrative, clinical, and educational activities.”

**VI.F.3. Maximum Clinical Work and Education Period Length**

**VI.F.3.a) Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments. <sup>(Core)</sup>**

**VI.F.3.a).(1) Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education. <sup>(Core)</sup>**

**VI.F.3.a).(1).(a) Additional patient care responsibilities must not be assigned to a fellow during this time. <sup>(Core)</sup>**

**Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.**

**VI.F.4. Clinical and Educational Work Hour Exceptions**

**VI.F.4.a) In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:**

**VI.F.4.a).(1) to continue to provide care to a single severely ill or unstable patient; <sup>(Detail)</sup>**

**VI.F.4.a).(2) humanistic attention to the needs of a patient or family; or, <sup>(Detail)</sup>**

**VI.F.4.a).(3) to attend unique educational events. <sup>(Detail)</sup>**

**VI.F.4.b) These additional hours of care or education will be counted toward the 80-hour weekly limit. <sup>(Detail)</sup>**

**Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in**

the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

2082  
2083  
2084  
2085

**VI.F.7.**                      **Maximum In-House On-Call Frequency**

**Fellows must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period). (Core)**

**VI.F.7.a)**                      **Internal Medicine fellowships must not average in-house call over a four-week period. (Core)**

**VI.F.8.**                      **At-Home Call**

**VI.F.8.a)**                      **Time spent on patient care activities by fellows on at-home call must count toward the 80-hour maximum weekly limit.**

2086 The frequency of at-home call is not subject to the every-  
2087 third-night limitation, but must satisfy the requirement for one  
2088 day in seven free of clinical work and education, when  
2089 averaged over four weeks. <sup>(Core)</sup>

2090  
2091 **VI.F.8.a).(1)** At-home call must not be so frequent or taxing as to  
2092 preclude rest or reasonable personal time for each  
2093 fellow. <sup>(Core)</sup>

2094  
2095 **VI.F.8.b)** Fellows are permitted to return to the hospital while on at-  
2096 home call to provide direct care for new or established  
2097 patients. These hours of inpatient patient care must be  
2098 included in the 80-hour maximum weekly limit. <sup>(Detail)</sup>  
2099

**Background and Intent:** This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**
