

**ACGME Program Requirements for  
Graduate Medical Education  
in Nephrology**

ACGME-approved Focused Revision: February 7, 2022; effective July 1, 2022

## Contents

Introduction .....	3
Int.A. Preamble .....	3
Int.B. Definition of Subspecialty .....	3
Int.C. Length of Educational Program .....	4
I. Oversight .....	4
I.A. Sponsoring Institution .....	4
I.B. Participating Sites .....	4
I.C. Recruitment .....	6
I.D. Resources .....	6
I.E. Other Learners and Other Care Providers .....	9
II. Personnel .....	9
II.A. Program Director .....	9
II.B. Faculty .....	14
II.C. Program Coordinator .....	17
II.D. Other Program Personnel .....	18
III. Fellow Appointments .....	18
III.A. Eligibility Criteria .....	18
III.B. Number of Fellows .....	20
III.C. Fellow Transfers .....	20
IV. Educational Program .....	20
IV.A. Curriculum Components .....	21
IV.B. ACGME Competencies .....	22
IV.C. Curriculum Organization and Fellow Experiences .....	27
IV.D. Scholarship .....	30
V. Evaluation .....	32
V.A. Fellow Evaluation .....	32
V.B. Faculty Evaluation .....	36
V.C. Program Evaluation and Improvement .....	37
VI. The Learning and Working Environment .....	40
VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability .....	41
VI.B. Professionalism .....	47
VI.C. Well-Being .....	48
VI.D. Fatigue Mitigation .....	52
VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care .....	52
VI.F. Clinical Experience and Education .....	53

48  
49 Nephrology is the subspecialty of internal medicine that focuses on the diagnosis  
50 and treatment of diseases of the kidney.

51  
52 **Int.C. Length of Educational Program**

53  
54 The educational program in nephrology must be 24 months in length. (Core)\*

55  
56 **I. Oversight**

57  
58 **I.A. Sponsoring Institution**

59  
60 *The Sponsoring Institution is the organization or entity that assumes the*  
61 *ultimate financial and academic responsibility for a program of graduate*  
62 *medical education consistent with the ACGME Institutional Requirements.*

63  
64 *When the Sponsoring Institution is not a rotation site for the program, the*  
65 *most commonly utilized site of clinical activity for the program is the*  
66 *primary clinical site.*

67  

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

68  
69 **I.A.1. The program must be sponsored by one ACGME-accredited**  
70 **Sponsoring Institution. (Core)**

71  
72 **I.B. Participating Sites**

73  
74 *A participating site is an organization providing educational experiences or*  
75 *educational assignments/rotations for fellows.*

76  
77 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
78 **designate a primary clinical site. (Core)**

79  
80 **I.B.1.a)** The nephrology fellowship must function as an integral part of an  
81 ACGME-accredited program in internal medicine. (Core)

82  
83 **I.B.1.b)** The sponsoring institution must establish the nephrology  
84 fellowship within a department of internal medicine or an  
85 administrative unit whose primary mission is the advancement of  
86 internal medicine subspecialty education and patient care. (Detail)†

87  
88 **I.B.1.c)** The Sponsoring Institution must ensure that there is a reporting  
89 relationship with the program director of the parent internal

90 medicine residency program to ensure compliance with ACGME  
91 accreditation requirements. <sup>(Core)</sup>

92  
93 **I.B.2. There must be a program letter of agreement (PLA) between the**  
94 **program and each participating site that governs the relationship**  
95 **between the program and the participating site providing a required**  
96 **assignment. <sup>(Core)</sup>**

97  
98 **I.B.2.a) The PLA must:**

99  
100 **I.B.2.a).(1) be renewed at least every 10 years; and, <sup>(Core)</sup>**

101  
102 **I.B.2.a).(2) be approved by the designated institutional official**  
103 **(DIO). <sup>(Core)</sup>**

104  
105 **I.B.3. The program must monitor the clinical learning and working**  
106 **environment at all participating sites. <sup>(Core)</sup>**

107  
108 **I.B.3.a) At each participating site there must be one faculty member,**  
109 **designated by the program director, who is accountable for**  
110 **fellow education for that site, in collaboration with the**  
111 **program director. <sup>(Core)</sup>**

112

**Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.**

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**
- **Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows**
- **Specifying the duration and content of the educational experience**
- **Stating the policies and procedures that will govern fellow education during the assignment**

113  
114 **I.B.4. The program director must submit any additions or deletions of**  
115 **participating sites routinely providing an educational experience,**  
116 **required for all fellows, of one month full time equivalent (FTE) or**  
117 **more through the ACGME's Accreditation Data System (ADS). <sup>(Core)</sup>**  
118

119 **I.C. The program, in partnership with its Sponsoring Institution, must engage in**  
120 **practices that focus on mission-driven, ongoing, systematic recruitment**  
121 **and retention of a diverse and inclusive workforce of residents (if present),**  
122 **fellows, faculty members, senior administrative staff members, and other**  
123 **relevant members of its academic community.** <sup>(Core)</sup>  
124

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

125  
126 **I.D. Resources**  
127

128 **I.D.1. The program, in partnership with its Sponsoring Institution, must**  
129 **ensure the availability of adequate resources for fellow education.**  
130 <sup>(Core)</sup>  
131

132 I.D.1.a) Space and Equipment  
133

134 There must be space and equipment for the program, including  
135 meeting rooms, examination rooms, computers, visual and other  
136 educational aids, and work/study space. <sup>(Core)</sup>  
137

138 I.D.1.b) Facilities  
139

140 I.D.1.b).(1) Inpatient and outpatient systems must be in place to  
141 prevent fellows from performing routine clerical functions,  
142 such as scheduling tests and appointments, and retrieving  
143 records and letters. <sup>(Detail)</sup>  
144

145 I.D.1.b).(2) The sponsoring institution must provide the broad range of  
146 facilities and clinical support services required to provide  
147 comprehensive care of adult patients. <sup>(Core)</sup>  
148

149 I.D.1.b).(3) Fellows must have access to a lounge facility during  
150 assigned duty hours. <sup>(Detail)</sup>  
151

152 I.D.1.b).(4) When fellows are in the hospital, assigned night duty, or  
153 called in from home, they must be provided with a secure  
154 space for their belongings. <sup>(Detail)</sup>  
155

156 I.D.1.c) Laboratory Services  
157

158 I.D.1.c).(1) The following must be available at the primary clinical site  
159 or at participating sites:  
160

161 I.D.1.c).(1).(a) biochemistry and serologic laboratories; and, <sup>(Core)</sup>  
162

163 I.D.1.c).(1).(b) imaging services, including ultrasound,

164 computerized tomography, magnetic resonance  
165 imaging, and a diagnostic radionuclide laboratory.  
166 (Core)

167  
168 I.D.1.d) Other Support Services

169  
170 I.D.1.d).(1) There must be surgical and pathological support available  
171 for the modern practice of nephrology, including an active  
172 renal transplant service. (Core)

173  
174 I.D.1.d).(2) Surgery for vascular and peritoneal dialysis access must  
175 be available. (Core)

176  
177 I.D.1.d).(3) The primary clinical site must be approved to perform renal  
178 transplantation, or must have a formal written agreement  
179 with such an institution, ensuring that nephrology fellows  
180 receive the requisite experience with renal transplantation.  
181 (Core)

182  
183 I.D.1.d).(4) Electron and immunofluorescence microscopy, and other  
184 special studies for the preparation and evaluation of renal  
185 biopsy material must be available. (Core)

186  
187 I.D.1.d).(5) The program must provide acute and chronic  
188 hemodialysis, continuous renal replacement therapy,  
189 peritoneal dialysis, and renal biopsy. (Core)

190  
191 I.D.1.e) Medical Records

192  
193 Access to an electronic health record should be provided. In the  
194 absence of an existing electronic health record, institutions must  
195 demonstrate institutional commitment to its development and  
196 progress toward its implementation. (Core)

197  
198 **I.D.2. The program, in partnership with its Sponsoring Institution, must**  
199 **ensure healthy and safe learning and working environments that**  
200 **promote fellow well-being and provide for:** (Core)

201  
202 **I.D.2.a) access to food while on duty;** (Core)

203  
204 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**  
205 **and accessible for fellows with proximity appropriate for safe**  
206 **patient care;** (Core)

207

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital**

**overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.**

208  
209  
210  
211  
212

- I.D.2.c) clean and private facilities for lactation that have refrigeration capabilities, with proximity appropriate for safe patient care;**  
(Core)

**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).**

213  
214  
215  
216  
217  
218  
219

- I.D.2.d) security and safety measures appropriate to the participating site; and,** (Core)

- I.D.2.e) accommodations for fellows with disabilities consistent with the Sponsoring Institution's policy.** (Core)

220  
221  
222  
223  
224

- I.D.3. Fellows must have ready access to subspecialty-specific and other appropriate reference material in print or electronic format. This must include access to electronic medical literature databases with full text capabilities.** (Core)

225  
226  
227

- I.D.4. The program's educational and clinical resources must be adequate to support the number of fellows appointed to the program.** (Core)

228  
229

- I.D.4.a) Patient Population**

230  
231  
232

- I.D.4.a).(1) The patient population must have a variety of clinical problems and stages of diseases.** (Core)

233  
234  
235  
236  
237  
238  
239

- I.D.4.a).(1).(a) The program should be of sufficient size to ensure fellows' adequate exposure to patients with acute kidney injury, and chronic dialysis both hemodialysis and peritoneal dialysis including patients who utilize home dialysis treatment modalities, in order to ensure adequate education and experience in chronic dialysis.** (Detail)

240  
241  
242  
243

- I.D.4.a).(2) There must be patients of each gender, with a broad age range, including geriatric patients.** (Core)

244  
245  
246  
247

- I.D.4.a).(3) A sufficient number of patients must be available to enable each fellow to achieve the required educational outcomes.** (Core)

248 I.D.4.a).(3).(a) Each fellow must see at least 10 new renal  
249 transplant patients during the course of his or her  
250 fellowship. <sup>(Detail)</sup>

251  
252 **I.E. *A fellowship program usually occurs in the context of many learners and***  
253 ***other care providers and limited clinical resources. It should be structured***  
254 ***to optimize education for all learners present.***

255  
256 **I.E.1. Fellows should contribute to the education of residents in core**  
257 **programs, if present. <sup>(Core)</sup>**

**Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.**

259  
260 **II. Personnel**

261  
262 **II.A. Program Director**

263  
264 **II.A.1. There must be one faculty member appointed as program director**  
265 **with authority and accountability for the overall program, including**  
266 **compliance with all applicable program requirements. <sup>(Core)</sup>**

267  
268 **II.A.1.a) The Sponsoring Institution's Graduate Medical Education**  
269 **Committee (GMEC) must approve a change in program**  
270 **director. <sup>(Core)</sup>**

271  
272 **II.A.1.b) Final approval of the program director resides with the**  
273 **Review Committee. <sup>(Core)</sup>**

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and have overall responsibility for the program. The program director's nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.**

275  
276 **II.A.2. The program director and, as applicable, the program's leadership**  
277 **team, must be provided with support adequate for administration of**  
278 **the program based upon its size and configuration. <sup>(Core)</sup>**

279  
280 **II.A.2.a) ~~At a minimum, the program director must be provided with the~~**  
281 **~~salary support required to devote 25-50 percent FTE of non-~~**  
282 **~~clinical time to the administration of the program. <sup>(Detail)</sup>~~**

283

284  
285  
286  
287

At a minimum, the program director must be provided with the dedicated time and support specified below for administration of the program: (Core)

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>.2</u>
<u>7-9</u>	<u>.25</u>
<u>10-12</u>	<u>.3</u>
<u>13-15</u>	<u>.35</u>
<u>16-18</u>	<u>.4</u>
<u>19-21</u>	<u>.45</u>
<u>&gt;21</u>	<u>.5</u>

288  
289  
290  
291  
292  
293  
294

II.A.2.b)

Programs must appoint at least one of the subspecialty-certified core faculty members to be associate program director(s). The associate program directors(s) must be provided with support equal to a dedicated minimum time for administration of the program as follows: (Core)

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>0</u>
<u>7-9</u>	<u>.13</u>
<u>10-12</u>	<u>.14</u>
<u>13-15</u>	<u>.15</u>
<u>16-18</u>	<u>.16</u>
<u>19-21</u>	<u>.17</u>
<u>22-24</u>	<u>.18</u>
<u>25-27</u>	<u>.24</u>

295

**Background and Intent: To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.**

**The ultimate outcome of graduate medical education is excellence in fellow education and patient care.**

**The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.**

**Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.**

296

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 30 percent FTE support for the Program Director and at least 14 percent FTE support for the associate program director(s). Because an associate program director is also a core faculty member, the minimum dedicated time requirements for associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE. Further, the Review Committee allows the minimum required FTE support to be shared among multiple associate program directors, as delegated by and at the discretion of the program director.

297

298

**II.A.3. Qualifications of the program director:**

299

300

**II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, <sup>(Core)</sup>**

301

302

303

**II.A.3.a).(1)**

The program director must have administrative experience and at least three years of participation as an active faculty member in an ACGME-accredited internal medicine residency or nephrology fellowship. <sup>(Core)</sup>

304

305

306

307

308

**II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Internal Medicine (ABIM) or by the American Osteopathic Board of Internal Medicine, or subspecialty qualifications that are acceptable to the Review Committee. <sup>(Core)</sup>**

309

310

311

312

313

314

**II.A.3.b).(1)**

The Review Committee only accepts current ABIM or AOBIM certification in nephrology. <sup>(Core)</sup>

315

316

317

**II.A.4. Program Director Responsibilities**

318

319

**The program director must have responsibility, authority, and accountability for: administration and operations; teaching and scholarly activity; fellow recruitment and selection, evaluation, and promotion of fellows, and disciplinary action; supervision of fellows; and fellow education in the context of patient care. <sup>(Core)</sup>**

320

321

322

323

324

325

**II.A.4.a) The program director must:**

326

327

**II.A.4.a).(1) be a role model of professionalism; <sup>(Core)</sup>**

328

**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As**

fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

329  
330  
331  
332  
333  
334

- II.A.4.a).(2) design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; <sup>(Core)</sup>

**Background and Intent:** The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

335  
336  
337  
338  
339

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; <sup>(Core)</sup>

**Background and Intent:** The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

340  
341  
342  
343  
344  
345  
346  
347  
348  
349  
350  
351  
352  
353  
354  
355  
356  
357

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; <sup>(Core)</sup>

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; <sup>(Core)</sup>

**Background and Intent:** The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role

**modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.**

**There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.**

- 358  
359  
360  
361  
362  
363  
364

374  
375  
376  
377  
378  
379  
380  
381
- II.A.4.a).(8)** submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; <sup>(Core)</sup>
- II.A.4.a).(9)** provide applicants who are offered an interview with information related to the applicant’s eligibility for the relevant subspecialty board examination(s); <sup>(Core)</sup>
- II.A.4.a).(10)** provide a learning and working environment in which fellows have the opportunity to raise concerns and provide feedback in a confidential manner as appropriate, without fear of intimidation or retaliation; <sup>(Core)</sup>
- II.A.4.a).(11)** ensure the program’s compliance with the Sponsoring Institution’s policies and procedures related to grievances and due process; <sup>(Core)</sup>
- II.A.4.a).(12)** ensure the program’s compliance with the Sponsoring Institution’s policies and procedures for due process when action is taken to suspend or dismiss, not to promote, or not to renew the appointment of a fellow; <sup>(Core)</sup>

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution’s policies and procedures, and will ensure they are followed by the program’s leadership, faculty members, support personnel, and fellows.**

396  
397
- II.A.4.a).(13)** ensure the program’s compliance with the Sponsoring Institution’s policies and procedures on employment and non-discrimination; <sup>(Core)</sup>
- II.A.4.a).(13).(a)** Fellows must not be required to sign a non-competition guarantee or restrictive covenant. <sup>(Core)</sup>
- II.A.4.a).(14)** document verification of program completion for all graduating fellows within 30 days; <sup>(Core)</sup>
- II.A.4.a).(15)** provide verification of an individual fellow’s completion upon the fellow’s request, within 30 days; and, <sup>(Core)</sup>

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

398  
399 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
400 Institution’s DIO before submitting information or  
401 requests to the ACGME, as required in the Institutional  
402 Requirements and outlined in the ACGME Program  
403 Director’s Guide to the Common Program  
404 Requirements. <sup>(Core)</sup>  
405

406 **II.B. Faculty**  
407  
408 *Faculty members are a foundational element of graduate medical education*  
409 *– faculty members teach fellows how to care for patients. Faculty members*  
410 *provide an important bridge allowing fellows to grow and become practice*  
411 *ready, ensuring that patients receive the highest quality of care. They are*  
412 *role models for future generations of physicians by demonstrating*  
413 *compassion, commitment to excellence in teaching and patient care,*  
414 *professionalism, and a dedication to lifelong learning. Faculty members*  
415 *experience the pride and joy of fostering the growth and development of*  
416 *future colleagues. The care they provide is enhanced by the opportunity to*  
417 *teach. By employing a scholarly approach to patient care, faculty members,*  
418 *through the graduate medical education system, improve the health of the*  
419 *individual and the population.*

420  
421 *Faculty members ensure that patients receive the level of care expected*  
422 *from a specialist in the field. They recognize and respond to the needs of*  
423 *the patients, fellows, community, and institution. Faculty members provide*  
424 *appropriate levels of supervision to promote patient safety. Faculty*  
425 *members create an effective learning environment by acting in a*  
426 *professional manner and attending to the well-being of the fellows and*  
427 *themselves.*  
428

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.**

429  
430 **II.B.1.** For each participating site, there must be a sufficient number of  
431 faculty members with competence to instruct and supervise all  
432 fellows at that location. <sup>(Core)</sup>  
433

434 **II.B.2.** Faculty members must:

435  
436 **II.B.2.a)** be role models of professionalism; <sup>(Core)</sup>  
437

438 **II.B.2.b)** demonstrate commitment to the delivery of safe, quality,  
439 cost-effective, patient-centered care; <sup>(Core)</sup>

440

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

441

**II.B.2.c) demonstrate a strong interest in the education of fellows; (Core)**

442

**II.B.2.d) devote sufficient time to the educational program to fulfill their supervisory and teaching responsibilities; (Core)**

443

444

445

446

**II.B.2.e) administer and maintain an educational environment conducive to educating fellows; (Core)**

447

448

449

**II.B.2.f) regularly participate in organized clinical discussions, rounds, journal clubs, and conferences; and, (Core)**

450

451

452

**II.B.2.g) pursue faculty development designed to enhance their skills at least annually. (Core)**

453

454

455

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

456

**II.B.3. Faculty Qualifications**

457

458

**II.B.3.a) Faculty members must have appropriate qualifications in their field and hold appropriate institutional appointments. (Core)**

459

460

461

462

**II.B.3.b) Subspecialty physician faculty members must:**

463

464

**II.B.3.b).(1) have current certification in the subspecialty by the American Board of Internal Medicine or the American Osteopathic Board of Internal Medicine, or possess qualifications judged acceptable to the Review Committee. (Core)**

465

466

467

468

469

470

**II.B.3.c) Any non-physician faculty members who participate in fellowship program education must be approved by the program director. (Core)**

471

472

473

474

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows'**

knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.

475  
476 **II.B.3.d)** Any other specialty physician faculty members must have  
477 current certification in their specialty by the appropriate  
478 American Board of Medical Specialties (ABMS) member  
479 board or American Osteopathic Association (AOA) certifying  
480 board, or possess qualifications judged acceptable to the  
481 Review Committee. <sup>(Core)</sup>  
482

483 **II.B.4. Core Faculty**  
484  
485 Core faculty members must have a significant role in the education  
486 and supervision of fellows and must devote a significant portion of  
487 their entire effort to fellow education and/or administration, and  
488 must, as a component of their activities, teach, evaluate, and provide  
489 formative feedback to fellows. <sup>(Core)</sup>  
490

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.**

491  
492 **II.B.4.a)** Core faculty members must be designated by the program  
493 director. <sup>(Core)</sup>  
494

495 **II.B.4.b)** Core faculty members must complete the annual ACGME  
496 Faculty Survey. <sup>(Core)</sup>  
497

498 **II.B.4.c)** In addition to the program director, there must be at least two core  
499 faculty members certified in nephrology by the ABIM or the  
500 AOBIM. <sup>(Core)</sup>  
501

502 **II.B.4.d)** For programs approved for more than four fellows, there must be  
503 at least one core faculty member certified in nephrology by the  
504 ABIM or the AOBIM for every 1.5 fellows. <sup>(Core)</sup>  
505

506 II.B.4.e) At a minimum, the required core faculty members, in aggregate  
 507 and excluding members of the program leadership, must be  
 508 provided with support equal to an average dedicated minimum of  
 509 .1 FTE for educational and administrative responsibilities that do  
 510 not involve direct patient care. <sup>(Core)</sup>  
 511

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have a minimum of eight ABIM- or AOBIM- subspecialty-certified faculty members and an FTE of 10 percent each. Because an associate program director is also a core faculty member, the minimum dedicated time requirements for associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE.

512  
 513 **II.C. Program Coordinator**

514  
 515 **II.C.1. There must be a program coordinator.** <sup>(Core)</sup>  
 516

517 **II.C.2. The program coordinator must be provided with support adequate**  
 518 **for administration of the program based upon its size and**  
 519 **configuration.** <sup>(Core)</sup>  
 520

521 II.C.2.a) At a minimum, the program coordinator must be provided with the  
 522 dedicated time and support specified below for administration of  
 523 the program. Additional administrative support must be provided  
 524 based on the program size as follows: <sup>(Core)</sup>  
 525

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE Required for Coordinator Support</u>	<u>Additional Aggregate FTE Required for Administration of the Program</u>
<u>1-3</u>	<u>.3</u>	<u>0</u>
<u>4-6</u>	<u>.3</u>	<u>.2</u>
<u>7-9</u>	<u>.3</u>	<u>.38</u>
<u>10-12</u>	<u>.3</u>	<u>.44</u>
<u>13-15</u>	<u>.3</u>	<u>.50</u>
<u>16-18</u>	<u>.3</u>	<u>.56</u>
<u>19-21</u>	<u>.3</u>	<u>.62</u>
<u>22-24</u>	<u>.3</u>	<u>.68</u>
<u>25-27</u>	<u>.3</u>	<u>.74</u>

526 **Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.**

**Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

527

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 74 percent FTE administrative support: 30 percent FTE for the program coordinator; and an additional 44 percent FTE aggregate support. This additional support may be for the program coordinator only or divided among the program coordinator and one or more other administrative personnel. The Review Committee has not specified how the FTE should be distributed to allow programs, in partnership with their Sponsoring Institution, to allocate the FTE as they see fit.

528

## II.D. Other Program Personnel

529

530

531

The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>

532

533

534

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

535

II.D.1. There must be services available from other health care professionals, including dietitians, language interpreters, nurses, occupational therapists, physical therapists, and social workers. <sup>(Detail)</sup>

536

537

538

539

II.D.2. There must be a close working relationship with dietary and/or nutrition services and social services, as well as with specialists in diagnostic radiology, general surgery, obstetrics and gynecology, pathology, psychiatry, and urology. <sup>(Detail)</sup>

540

541

542

543

544

II.D.3. There must be appropriate and timely consultation from other specialties. <sup>(Detail)</sup>

545

546

547

## III. Fellow Appointments

548

549

### III.A. Eligibility Criteria

550

551

552 **III.A.1. Eligibility Requirements – Fellowship Programs**

553  
554 **All required clinical education for entry into ACGME-accredited**  
555 **fellowship programs must be completed in an ACGME-accredited**  
556 **residency program, an AOA-approved residency program, a**  
557 **program with ACGME International (ACGME-I) Advanced Specialty**  
558 **Accreditation, or a Royal College of Physicians and Surgeons of**  
559 **Canada (RCPSC)-accredited or College of Family Physicians of**  
560 **Canada (CFPC)-accredited residency program located in Canada.**  
561 (Core)  
562

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

563  
564 **III.A.1.a) Fellowship programs must receive verification of each**  
565 **entering fellow’s level of competence in the required field,**  
566 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**  
567 **Milestones evaluations from the core residency program. (Core)**  
568

569 **III.A.1.b)** Prior to appointment in the fellowship, fellows should have  
570 completed an internal medicine program that satisfies the  
571 requirements in III.A.1. (Core)  
572

573 **III.A.1.b).(1)** Fellows who did not complete an internal medicine  
574 program that satisfies the requirements in III.A.1. must  
575 have completed at least three years of internal medicine  
576 education prior to starting the fellowship as well as met all  
577 of the criteria in the “Fellow Eligibility Exception” section  
578 below. (Core)  
579

580 **III.A.1.c) Fellow Eligibility Exception**

581  
582 **The Review Committee for Internal Medicine will allow the**  
583 **following exception to the fellowship eligibility requirements:**  
584

585 **III.A.1.c).(1)** **An ACGME-accredited fellowship program may accept**  
586 **an exceptionally qualified international graduate**  
587 **applicant who does not satisfy the eligibility**  
588 **requirements listed in III.A.1., but who does meet all of**  
589 **the following additional qualifications and conditions:**  
590 (Core)  
591

592 **III.A.1.c).(1).(a)** **evaluation by the program director and**  
593 **fellowship selection committee of the**  
594 **applicant’s suitability to enter the program,**  
595 **based on prior training and review of the**  
596 **summative evaluations of training in the core**  
597 **specialty; and, (Core)**  
598

- 599 III.A.1.c).(1).(b) review and approval of the applicant's  
600 exceptional qualifications by the GMEC; and,  
601 (Core)  
602  
603 III.A.1.c).(1).(c) verification of Educational Commission for  
604 Foreign Medical Graduates (ECFMG)  
605 certification. (Core)  
606  
607 III.A.1.c).(2) Applicants accepted through this exception must have  
608 an evaluation of their performance by the Clinical  
609 Competency Committee within 12 weeks of  
610 matriculation. (Core)  
611

**Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.**

- 612  
613 III.B. The program director must not appoint more fellows than approved by the  
614 Review Committee. (Core)  
615  
616 III.B.1. All complement increases must be approved by the Review  
617 Committee. (Core)  
618  
619 III.B.2. The number of available fellow positions in the program must be at least  
620 one per year. (Detail)  
621  
622 III.C. Fellow Transfers  
623  
624 The program must obtain verification of previous educational experiences  
625 and a summative competency-based performance evaluation prior to  
626 acceptance of a transferring fellow, and Milestones evaluations upon  
627 matriculation. (Core)  
628  
629 IV. Educational Program  
630  
631 *The ACGME accreditation system is designed to encourage excellence and*  
632 *innovation in graduate medical education regardless of the organizational*  
633 *affiliation, size, or location of the program.*

634  
635 ***The educational program must support the development of knowledgeable, skillful***  
636 ***physicians who provide compassionate care.***

637  
638 ***In addition, the program is expected to define its specific program aims consistent***  
639 ***with the overall mission of its Sponsoring Institution, the needs of the community***  
640 ***it serves and that its graduates will serve, and the distinctive capabilities of***  
641 ***physicians it intends to graduate. While programs must demonstrate substantial***  
642 ***compliance with the Common and subspecialty-specific Program Requirements, it***  
643 ***is recognized that within this framework, programs may place different emphasis***  
644 ***on research, leadership, public health, etc. It is expected that the program aims***  
645 ***will reflect the nuanced program-specific goals for it and its graduates; for***  
646 ***example, it is expected that a program aiming to prepare physician-scientists will***  
647 ***have a different curriculum from one focusing on community health.***

648  
649 **IV.A. The curriculum must contain the following educational components: (Core)**

650  
651 **IV.A.1. a set of program aims consistent with the Sponsoring Institution’s**  
652 **mission, the needs of the community it serves, and the desired**  
653 **distinctive capabilities of its graduates; (Core)**

654  
655 **IV.A.1.a) The program’s aims must be made available to program**  
656 **applicants, fellows, and faculty members. (Core)**

657  
658 **IV.A.2. competency-based goals and objectives for each educational**  
659 **experience designed to promote progress on a trajectory to**  
660 **autonomous practice in their subspecialty. These must be**  
661 **distributed, reviewed, and available to fellows and faculty members;**  
662 **(Core)**

663  
664 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**  
665 **responsibility for patient management, and graded supervision in**  
666 **their subspecialty; (Core)**

**Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.**

668  
669 **IV.A.4. structured educational activities beyond direct patient care; and,**  
670 **(Core)**

**Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.**

671  
672

673 **IV.A.5.** advancement of fellows' knowledge of ethical principles  
674 foundational to medical professionalism. <sup>(Core)</sup>

675  
676 **IV.B.** **ACGME Competencies**  
677

**Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.**

678  
679 **IV.B.1.** The program must integrate the following ACGME Competencies  
680 into the curriculum: <sup>(Core)</sup>

681  
682 **IV.B.1.a)** **Professionalism**

683  
684 Fellows must demonstrate a commitment to professionalism  
685 and an adherence to ethical principles. <sup>(Core)</sup>

686  
687 **IV.B.1.b)** **Patient Care and Procedural Skills**  
688

**Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality*. *Health Affairs*. 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

689  
690 **IV.B.1.b).(1)** **Fellows must be able to provide patient care that is**  
691 **compassionate, appropriate, and effective for the**  
692 **treatment of health problems and the promotion of**  
693 **health.** <sup>(Core)</sup>

694  
695 **IV.B.1.b).(1).(a)** Fellows must demonstrate competence in the  
696 practice of health promotion, disease prevention,  
697 diagnosis, care, and treatment of men and women  
698 from adolescence to old age, during health and all  
699 stages of illness; <sup>(Core)</sup>

700  
701 **IV.B.1.b).(1).(b)** Fellows must demonstrate competence in the  
702 evaluation and management of:

703  
704 **IV.B.1.b).(1).(b).(i)** acute kidney injury; <sup>(Core)</sup>  
705

706	IV.B.1.b).(1).(b).(ii)	chronic kidney disease; <sup>(Core)</sup>
707		
708	IV.B.1.b).(1).(b).(iii)	disorders of fluid, electrolyte, and acid-base regulation; <sup>(Core)</sup>
709		
710		
711	IV.B.1.b).(1).(b).(iv)	disorders of mineral metabolism, including nephrolithiasis and renal osteodystrophy; <sup>(Core)</sup>
712		
713		
714		
715	IV.B.1.b).(1).(b).(v)	drug dosing adjustments and nephrotoxicity associated with alterations in drug metabolism and pharmacokinetics in renal disease; <sup>(Core)</sup>
716		
717		
718		
719		
720	IV.B.1.b).(1).(b).(vi)	end-stage renal disease; <sup>(Core)</sup>
721		
722	IV.B.1.b).(1).(b).(vii)	genetic and inherited renal disorders, including inherited diseases of transport, cystic diseases, and other congenital disorders; <sup>(Core)</sup>
723		
724		
725		
726		
727	IV.B.1.b).(1).(b).(viii)	geriatric aspects of nephrology; <sup>(Core)</sup>
728		
729	IV.B.1.b).(1).(b).(ix)	glomerular and vascular diseases, including the glomerulonephritides, diabetic nephropathy, and atheroembolic renal disease; <sup>(Core)</sup>
730		
731		
732		
733		
734	IV.B.1.b).(1).(b).(x)	hypertensive disorders; <sup>(Core)</sup>
735		
736	IV.B.1.b).(1).(b).(xi)	renal disorders of pregnancy; <sup>(Core)</sup>
737		
738	IV.B.1.b).(1).(b).(xii)	tubulointerstitial renal diseases; and, <sup>(Core)</sup>
739		
740	IV.B.1.b).(1).(b).(xiii)	urinary tract infections. <sup>(Core)</sup>
741		
742	IV.B.1.b).(1).(c)	Fellows must demonstrate competence in the evaluation and management of renal transplant patients; and, <sup>(Core)</sup>
743		
744		
745		
746	<b>IV.B.1.b).(2)</b>	<b>Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. <sup>(Core)</sup></b>
747		
748		
749		
750	IV.B.1.b).(2).(a)	Fellows must demonstrate competence in dialysis therapy; and, <sup>(Core)</sup>
751		
752		
753	IV.B.1.b).(2).(b)	Fellows must demonstrate competence in the performance of the following procedures:
754		
755		
756	IV.B.1.b).(2).(b).(i)	acute and chronic hemodialysis; <sup>(Core)</sup>

757		
758	IV.B.1.b).(2).(b).(ii)	continuous renal replacement therapy; (Core)
759		
760	IV.B.1.b).(2).(b).(iii)	percutaneous biopsy of both autologous and transplanted kidneys; (Core)
761		
762		
763	IV.B.1.b).(2).(b).(iv)	peritoneal dialysis; (Core)
764		
765	IV.B.1.b).(2).(b).(v)	placement of temporary vascular access for hemodialysis and related procedures; and, (Core)
766		
767		
768		
769	IV.B.1.b).(2).(b).(vi)	urinalysis. (Core)
770		
771	<b>IV.B.1.c)</b>	<b>Medical Knowledge</b>
772		
773		<b>Fellows must demonstrate knowledge of established and evolving biomedical, clinical, epidemiological and social-behavioral sciences, as well as the application of this knowledge to patient care. (Core)</b>
774		
775		
776		
777		
778	IV.B.1.c).(1)	Fellows must demonstrate knowledge of the scientific method of problem solving and evidence-based decision making; (Core)
779		
780		
781		
782	IV.B.1.c).(2)	Fellows must demonstrate knowledge of indications, contraindications, limitations, complications, techniques, and interpretation of results of those diagnostic and therapeutic procedures integral to the discipline, including the appropriate indications for and use of screening tests/procedures; (Core)
783		
784		
785		
786		
787		
788		
789	IV.B.1.c).(3)	Fellows must demonstrate knowledge of:
790		
791	IV.B.1.c).(3).(a)	clinical pharmacology, including drug metabolism, pharmacokinetics, and the effects of drugs on renal structure and function; (Core)
792		
793		
794		
795	IV.B.1.c).(3).(b)	dialysis and extracorporeal therapy, including: (Core)
796		
797	IV.B.1.c).(3).(b).(i)	the indication for each mode of dialysis; (Core)
798		
799	IV.B.1.c).(3).(b).(ii)	dialysis modes and their relation to metabolism; (Core)
800		
801		
802	IV.B.1.c).(3).(b).(iii)	dialysis water treatment, delivery systems, and reuse of artificial kidneys; (Core)
803		
804		
805	IV.B.1.c).(3).(b).(iv)	the kinetic principles of hemodialysis and peritoneal dialysis; (Core)
806		
807		

808	IV.B.1.c).(3).(b).(v)	the principles of dialysis access (acute and chronic vascular and peritoneal), including indications, techniques, and complications;
809		(Core)
810		
811		
812		
813	IV.B.1.c).(3).(b).(vi)	the short- and long-term complications of each mode of dialysis and its management;
814		(Core)
815		
816		
817	IV.B.1.c).(3).(b).(vii)	the artificial membranes used in hemodialysis and biocompatibility; and,
818		(Core)
819		
820	IV.B.1.c).(3).(b).(viii)	urea kinetics and protein catabolic rate.
821		(Core)
822	IV.B.1.c).(3).(c)	normal and abnormal blood pressure regulation.
823		(Core)
824		
825	IV.B.1.c).(3).(d)	normal and disordered fluid, electrolyte and acid-base metabolism;
826		(Core)
827		
828	IV.B.1.c).(3).(e)	normal mineral metabolism and its alteration in renal diseases, metabolic bone disease, and nephrolithiasis;
829		(Core)
830		
831		
832	IV.B.1.c).(3).(f)	nutritional aspects of renal disorders;
833		(Core)
834	IV.B.1.c).(3).(g)	immunologic aspects of renal disease;
835		(Core)
836	IV.B.1.c).(3).(h)	indications for and interpretations of radiologic tests of the kidney and urinary tract;
837		(Core)
838		
839	IV.B.1.c).(3).(i)	pathogenesis, natural history, and management of congenital and acquired diseases of the kidney and urinary tract, and renal diseases associated with systemic disorders;
840		(Core)
841		
842		
843		
844	IV.B.1.c).(3).(j)	renal anatomy, physiology, and pathology;
845		(Core)
846	IV.B.1.c).(3).(k)	renal transplantation, including;
847		(Core)
848	IV.B.1.c).(3).(k).(i)	biology of transplantation rejection;
849		(Core)
850	IV.B.1.c).(3).(k).(ii)	indications and contraindications for renal transplantation;
851		(Core)
852		
853	IV.B.1.c).(3).(k).(iii)	principles of transplant recipient evaluation and selection;
854		(Core)
855		
856	IV.B.1.c).(3).(k).(iv)	principles of evaluation of transplant donors, both living and cadaveric, including histocompatibility testing;
857		(Core)
858		

859		
860	IV.B.1.c).(3).(k).(v)	principles of organ harvesting, preservation, and sharing; <sup>(Core)</sup>
861		
862		
863	IV.B.1.c).(3).(k).(vi)	psychosocial aspects of organ donation and transplantation; and, <sup>(Core)</sup>
864		
865		
866	IV.B.1.c).(3).(k).(vii)	the pathogenesis and management of acute renal allograft dysfunction. <sup>(Core)</sup>
867		
868		
869	IV.B.1.c).(3).(l)	management of renal disorders in non-renal organ transplantation; <sup>(Core)</sup>
870		
871		
872	IV.B.1.c).(3).(m)	geriatric medicine, including: <sup>(Core)</sup>
873		
874	IV.B.1.c).(3).(m).(i)	physiology and pathology of the aging kidney; and, <sup>(Core)</sup>
875		
876		
877	IV.B.1.c).(3).(m).(ii)	drug dosing and renal toxicity in elderly patients. <sup>(Core)</sup>
878		
879		
880	IV.B.1.c).(3).(n)	the principles and practice of hemodialysis and peritoneal dialysis; <sup>(Core)</sup>
881		
882		
883	IV.B.1.c).(3).(o)	the technology of hemodialysis and peritoneal dialysis; <sup>(Core)</sup>
884		
885		
886	IV.B.1.c).(3).(p)	the pharmacology of commonly used medications and their kinetic and dosage alteration with hemodialysis and peritoneal dialysis; and, <sup>(Core)</sup>
887		
888		
889		
890	IV.B.1.c).(3).(q)	the psychosocial and ethical issues of dialysis. <sup>(Core)</sup>

891

892 **IV.B.1.d) Practice-based Learning and Improvement**

893

894 **Fellows must demonstrate the ability to investigate and evaluate their care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning. <sup>(Core)</sup>**

895

896

897

898

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

899

900 **IV.B.1.e) Interpersonal and Communication Skills**

901

- 902 **Fellows must demonstrate interpersonal and communication**  
 903 **skills that result in the effective exchange of information and**  
 904 **collaboration with patients, their families, and health**  
 905 **professionals.** <sup>(Core)</sup>  
 906
- 907 **IV.B.1.f) Systems-based Practice**  
 908
- 909 **Fellows must demonstrate an awareness of and**  
 910 **responsiveness to the larger context and system of health**  
 911 **care, including the social determinants of health, as well as**  
 912 **the ability to call effectively on other resources to provide**  
 913 **optimal health care.** <sup>(Core)</sup>  
 914
- 915 **IV.C. Curriculum Organization and Fellow Experiences**  
 916
- 917 **IV.C.1. The curriculum must be structured to optimize fellow educational**  
 918 **experiences, the length of these experiences, and supervisory**  
 919 **continuity.** <sup>(Core)</sup>  
 920
- 921 **IV.C.1.a)** Assignment of rotations must be structured to minimize the  
 922 frequency of rotational transitions, and rotations must be of  
 923 sufficient length to provide a quality educational experience,  
 924 defined by continuity of patient care, ongoing supervision,  
 925 longitudinal relationships with faculty members, and meaningful  
 926 assessment and feedback. <sup>(Core)</sup>  
 927
- 928 **IV.C.1.b)** Clinical experiences should be structured to facilitate learning in a  
 929 manner that allows fellows to function as part of an effective  
 930 interprofessional team that works together towards the shared  
 931 goals of patient safety and quality improvement. <sup>(Core)</sup>  
 932
- 933 **IV.C.2. The program must provide instruction and experience in pain**  
 934 **management if applicable for the subspecialty, including recognition**  
 935 **of the signs of addiction.** <sup>(Core)</sup>  
 936
- 937 **IV.C.3.** A minimum of 12 months must be devoted to clinical experience. <sup>(Core)</sup>  
 938
- 939 **IV.C.3.a)** Fellows should have at least four months of experience with  
 940 dialysis therapies, both hemodialysis and peritoneal dialysis. <sup>(Detail)</sup>  
 941
- 942 **IV.C.3.b)** Fellows must have at least two months of clinical experience on  
 943 an active renal transplant service. <sup>(Detail)</sup>  
 944
- 945 **IV.C.4.** Fellows must participate in training using simulation. <sup>(Detail)</sup>  
 946
- 947 **IV.C.5. Experience with Continuity Ambulatory Patients**  
 948
- 949 **IV.C.5.a)** Fellows must have continuity ambulatory clinic experience that  
 950 exposes them to the breadth and depth of the subspecialty. <sup>(Core)</sup>  
 951
- 952 **IV.C.5.b)** This experience should average one half-day each week. <sup>(Detail)</sup>

953		
954	IV.C.5.c)	This experience must include an appropriate distribution of
955		patients of each gender and a diversity of ages, <sup>(Core)</sup>
956		
957		This should be accomplished through either:
958		
959	IV.C.5.c).(1)	a continuity clinic which provides fellows the opportunity to
960		learn the course of disease; or, <sup>(Detail)</sup>
961		
962	IV.C.5.c).(2)	selected blocks of at least six months which address
963		specific areas of nephrology. <sup>(Detail)</sup>
964		
965	IV.C.5.d)	Each fellow should, on average, be responsible for four to eight
966		patients during each half-day session. <sup>(Detail)</sup>
967		
968	IV.C.5.e)	The continuing ambulatory patient care experience should not be
969		interrupted by more than one month, excluding a fellow's vacation.
970		<sup>(Detail)</sup>
971		
972	IV.C.5.f)	Fellows should be informed of the status of their continuity
973		patients when such patients are hospitalized, as clinically
974		appropriate. <sup>(Detail)</sup>
975		
976	IV.C.6.	Clinical experience must include supervised involvement in dialysis
977		therapy, including: <sup>(Core)</sup>
978		
979	IV.C.6.a)	assessment of hemodialysis and peritoneal dialysis efficiency;
980		<sup>(Detail)</sup>
981		
982	IV.C.6.b)	the complications of hemodialysis and peritoneal dialysis; <sup>(Detail)</sup>
983		
984	IV.C.6.c)	determining special nutritional requirements of patients
985		undergoing hemodialysis and peritoneal dialysis; <sup>(Detail)</sup>
986		
987	IV.C.6.d)	end-of-life care and pain management for patients undergoing
988		chronic hemodialysis and peritoneal dialysis; <sup>(Detail)</sup>
989		
990	IV.C.6.e)	evaluation of end-stage renal disease patients for peritoneal
991		dialysis and hemodialysis, and their instruction regarding these
992		treatment options; <sup>(Detail)</sup>
993		
994	IV.C.6.f)	evaluation and management of medical complications in patients
995		during and between hemodialysis and peritoneal dialyses; <sup>(Detail)</sup>
996		
997	IV.C.6.g)	evaluation and selection of patients for acute hemodialysis or
998		continuous renal replacement therapies; <sup>(Detail)</sup>
999		
1000	IV.C.6.h)	long-term follow-up of patients undergoing chronic hemodialysis
1001		and peritoneal dialysis; <sup>(Detail)</sup>
1002		
1003	IV.C.6.i)	modification of drug dosage during hemodialysis and peritoneal

1004		dialysis; and, <sup>(Detail)</sup>
1005		
1006	IV.C.6.j)	writing a hemodialysis and peritoneal dialysis prescription and how to assess dialysis adequacy. <sup>(Detail)</sup>
1007		
1008		
1009	IV.C.7.	Clinical experience must include supervised involvement in pre- and post- transplant care, including: <sup>(Core)</sup>
1010		
1011		
1012	IV.C.7.a)	clinical and laboratory diagnosis of all forms of rejection; <sup>(Detail)</sup>
1013		
1014	IV.C.7.b)	evaluation and selection of transplant candidates; <sup>(Detail)</sup>
1015		
1016	IV.C.7.c)	immediate postoperative management of transplant recipients, including administration of immunosuppressants to a minimum of 10 new renal transplant recipients; <sup>(Detail)</sup>
1017		
1018		
1019		
1020	IV.C.7.d)	management in the ambulatory setting for at least three months of at least 20 patients per fellow; <sup>(Detail)</sup>
1021		
1022		
1023	IV.C.7.e)	management in the intensive care unit setting for patients with renal disorder; <sup>(Detail)</sup>
1024		
1025		
1026	IV.C.7.f)	medical management of rejection, including use of immunosuppressive drugs and other agents; <sup>(Detail)</sup>
1027		
1028		
1029	IV.C.7.g)	preoperative evaluation and preparation of transplant recipients and donors; <sup>(Detail)</sup>
1030		
1031		
1032	IV.C.7.h)	psychosocial and ethical issues of renal transplantation; and, <sup>(Detail)</sup>
1033		
1034	IV.C.7.i)	recognition and medical management of the surgical and nonsurgical complications of transplantations. <sup>(Detail)</sup>
1035		
1036		
1037	IV.C.8.	Procedures and Technical Skills
1038		
1039	IV.C.8.a)	Direct supervision of procedures performed by each fellow must occur until proficiency has been acquired and documented by the program director. <sup>(Core)</sup>
1040		
1041		
1042		
1043	IV.C.8.b)	Faculty members must teach and supervise the fellows in the performance and interpretation of procedures, which must be documented in each fellow's record, including indications, outcomes, diagnoses, and supervisor(s). <sup>(Core)</sup>
1044		
1045		
1046		
1047		
1048	IV.C.8.c)	Fellows must have formal instruction regarding indications for and in interpretation of the results of:
1049		
1050		
1051	IV.C.8.c).(1)	balloon angioplasty of vascular access and other procedures utilized in the maintenance of chronic vascular access patency; <sup>(Core)</sup>
1052		
1053		
1054		

1055	IV.C.8.c).(2)	management of peritoneal catheters; (Core)
1056		
1057	IV.C.8.c).(3)	radiology of vascular access; (Core)
1058		
1059	IV.C.8.c).(4)	renal imaging; and (Core)
1060		
1061	IV.C.8.c).(5)	therapeutic plasmapheresis. (Core)
1062		
1063	IV.C.8.d)	Fellows must have experience in the role of a nephrology consultant in both the inpatient and outpatient settings. (Core)
1064		
1065		
1066	IV.C.9.	The core curriculum must include a didactic program based upon the core knowledge content in the subspecialty area. (Core)
1067		
1068		
1069	IV.C.9.a)	The program must afford each fellow an opportunity to review topics covered in conferences that he or she was unable to attend. (Detail)
1070		
1071		
1072		
1073	IV.C.9.b)	Fellows must participate in clinical case conferences, journal clubs, research conference, and morbidity and mortality or quality improvement conferences. (Detail)
1074		
1075		
1076		
1077	IV.C.9.c)	All core conferences must have at least one faculty member present, and must be scheduled as to ensure peer-peer and peer-faculty interaction. (Detail)
1078		
1079		
1080		
1081	IV.C.10.	Patient-based teaching must include direct interaction between fellows and faculty members, bedside teaching, discussion of pathophysiology, and the use of current evidence in diagnostic and therapeutic decisions. (Core)
1082		
1083		
1084		
1085		
1086		The teaching must be:
1087		
1088	IV.C.10.a)	formally conducted on all inpatient, outpatient, and consultative services; and, (Detail)
1089		
1090		
1091	IV.C.10.b)	conducted with a frequency and duration that ensures a meaningful and continuous teaching relationship between the assigned supervising faculty member(s) and fellows. (Detail)
1092		
1093		
1094		
1095	IV.C.11.	Fellows must receive instruction in practice management relevant to nephrology. (Detail)
1096		
1097		
1098	<b>IV.D.</b>	<b>Scholarship</b>
1099		
1100		<b><i>Medicine is both an art and a science. The physician is a humanistic scientist who cares for patients. This requires the ability to think critically, evaluate the literature, appropriately assimilate new knowledge, and practice lifelong learning. The program and faculty must create an environment that fosters the acquisition of such skills through fellow participation in scholarly activities as defined in the subspecialty-specific</i></b>
1101		
1102		
1103		
1104		
1105		

1106 **Program Requirements. Scholarly activities may include discovery,**  
1107 **integration, application, and teaching.**

1108  
1109 **The ACGME recognizes the diversity of fellowships and anticipates that**  
1110 **programs prepare physicians for a variety of roles, including clinicians,**  
1111 **scientists, and educators. It is expected that the program’s scholarship will**  
1112 **reflect its mission(s) and aims, and the needs of the community it serves.**  
1113 **For example, some programs may concentrate their scholarly activity on**  
1114 **quality improvement, population health, and/or teaching, while other**  
1115 **programs might choose to utilize more classic forms of biomedical**  
1116 **research as the focus for scholarship.**

1117  
1118 **IV.D.1. Program Responsibilities**

1119  
1120 **IV.D.1.a) The program must demonstrate evidence of scholarly**  
1121 **activities, consistent with its mission(s) and aims. (Core)**

1122  
1123 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**  
1124 **must allocate adequate resources to facilitate fellow and**  
1125 **faculty involvement in scholarly activities. (Core)**

1126  
1127 **IV.D.2. Faculty Scholarly Activity**

1128  
1129 **IV.D.2.a) Among their scholarly activity, programs must demonstrate**  
1130 **accomplishments in at least three of the following domains:**  
1131 **(Core)**

- 1132
- 1133 • **Research in basic science, education, translational**
  - 1134 **science, patient care, or population health**
  - 1135 • **Peer-reviewed grants**
  - 1136 • **Quality improvement and/or patient safety initiatives**
  - 1137 • **Systematic reviews, meta-analyses, review articles,**
  - 1138 **chapters in medical textbooks, or case reports**
  - 1139 • **Creation of curricula, evaluation tools, didactic**
  - 1140 **educational activities, or electronic educational**
  - 1141 **materials**
  - 1142 • **Contribution to professional committees, educational**
  - 1143 **organizations, or editorial boards**
  - 1144 • **Innovations in education**

1145  
1146 **IV.D.2.b) The program must demonstrate dissemination of scholarly**  
1147 **activity within and external to the program by the following**  
1148 **methods:**

**Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the**

creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

- 1150  
1151 **IV.D.2.b).(1)** faculty participation in grand rounds, posters,  
1152 workshops, quality improvement presentations,  
1153 podium presentations, grant leadership, non-peer-  
1154 reviewed print/electronic resources, articles or  
1155 publications, book chapters, textbooks, webinars,  
1156 service on professional committees, or serving as a  
1157 journal reviewer, journal editorial board member, or  
1158 editor. <sup>(Outcome)‡</sup>  
1159
- 1160 **IV.D.2.b).(1).(a)** At least 50 percent of the core faculty members  
1161 who are certified in nephrology by the ABIM or  
1162 AOBIM (see II.B.4.c.-d.) must annually engage in a  
1163 variety of scholarly activities, as listed in  
1164 IV.D.2.b).(1). <sup>(Core)</sup>  
1165
- 1166 **IV.D.3. Fellow Scholarly Activity**  
1167
- 1168 **IV.D.3.a)** While in the program, at least 50 percent of a program's fellows  
1169 must engage in more than one of the following scholarly activities:  
1170 participation in grand rounds; posters; workshops; quality  
1171 improvement presentations; podium presentations; grant  
1172 leadership; non-peer-reviewed print/electronic resources; articles  
1173 or publications; book chapters; textbooks; webinars; service on  
1174 professional committees; or serving as a journal reviewer, journal  
1175 editorial board member, or editor. <sup>(Outcome)</sup>  
1176
- 1177 **V. Evaluation**  
1178
- 1179 **V.A. Fellow Evaluation**  
1180
- 1181 **V.A.1. Feedback and Evaluation**  
1182

**Background and Intent: Feedback is ongoing information provided regarding aspects of one's performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

**Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

- 1183  
1184 **V.A.1.a) Faculty members must directly observe, evaluate, and**  
1185 **frequently provide feedback on fellow performance during**  
1186 **each rotation or similar educational assignment. <sup>(Core)</sup>**  
1187  
1188 V.A.1.a).(1) The faculty must discuss this evaluation with each fellow at  
1189 the completion of each assignment. <sup>(Core)</sup>  
1190  
1191 V.A.1.a).(2) Assessment of procedural competence should include a  
1192 formal evaluation process and not be based solely on a  
1193 minimum number of procedures performed. <sup>(Detail)</sup>  
1194

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

- 1195  
1196 **V.A.1.b) Evaluation must be documented at the completion of the**  
1197 **assignment. <sup>(Core)</sup>**  
1198  
1199 **V.A.1.b).(1) For block rotations of greater than three months in**  
1200 **duration, evaluation must be documented at least**  
1201 **every three months. <sup>(Core)</sup>**  
1202  
1203 **V.A.1.b).(2) Longitudinal experiences such as continuity clinic in**  
1204 **the context of other clinical responsibilities must be**  
1205 **evaluated at least every three months and at**  
1206 **completion. <sup>(Core)</sup>**  
1207  
1208 **V.A.1.c) The program must provide an objective performance**  
1209 **evaluation based on the Competencies and the subspecialty-**  
1210 **specific Milestones, and must: <sup>(Core)</sup>**  
1211  
1212 **V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers,**  
1213 **patients, self, and other professional staff members);**  
1214 **and, <sup>(Core)</sup>**

1215  
1216 V.A.1.c).(2) provide that information to the Clinical Competency  
1217 Committee for its synthesis of progressive fellow  
1218 performance and improvement toward unsupervised  
1219 practice. (Core)  
1220

**Background and Intent:** The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

1221  
1222 V.A.1.d) The program director or their designee, with input from the  
1223 Clinical Competency Committee, must:

1224  
1225 V.A.1.d).(1) meet with and review with each fellow their  
1226 documented semi-annual evaluation of performance,  
1227 including progress along the subspecialty-specific  
1228 Milestones. (Core)

1229  
1230 V.A.1.d).(2) assist fellows in developing individualized learning  
1231 plans to capitalize on their strengths and identify areas  
1232 for growth; and, (Core)

1233  
1234 V.A.1.d).(3) develop plans for fellows failing to progress, following  
1235 institutional policies and procedures. (Core)  
1236

**Background and Intent:** Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

1237

1238	<b>V.A.1.e)</b>	<b>At least annually, there must be a summative evaluation of each fellow that includes their readiness to progress to the next year of the program, if applicable. (Core)</b>

1286		
1287		

- 1288 **V.A.3.b).(2)** determine each fellow’s progress on achievement of  
 1289 the subspecialty-specific Milestones; and, <sup>(Core)</sup>  
 1290  
 1291 **V.A.3.b).(3)** meet prior to the fellows’ semi-annual evaluations and  
 1292 advise the program director regarding each fellow’s  
 1293 progress. <sup>(Core)</sup>  
 1294  
 1295 **V.B. Faculty Evaluation**  
 1296  
 1297 **V.B.1.** The program must have a process to evaluate each faculty  
 1298 member’s performance as it relates to the educational program at  
 1299 least annually. <sup>(Core)</sup>  
 1300

**Background and Intent:** The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program’s faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1301  
 1302 **V.B.1.a)** This evaluation must include a review of the faculty member’s  
 1303 clinical teaching abilities, engagement with the educational  
 1304 program, participation in faculty development related to their  
 1305 skills as an educator, clinical performance, professionalism,  
 1306 and scholarly activities. <sup>(Core)</sup>  
 1307  
 1308 **V.B.1.b)** This evaluation must include written, confidential evaluations  
 1309 by the fellows. <sup>(Core)</sup>  
 1310  
 1311 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
 1312 annually. <sup>(Core)</sup>  
 1313  
 1314 **V.B.3.** Results of the faculty educational evaluations should be  
 1315 incorporated into program-wide faculty development plans. <sup>(Core)</sup>  
 1316

**Background and Intent:** The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the

**program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.**

- 1317  
1318 **V.C. Program Evaluation and Improvement**  
1319  
1320 **V.C.1. The program director must appoint the Program Evaluation**  
1321 **Committee to conduct and document the Annual Program**  
1322 **Evaluation as part of the program's continuous improvement**  
1323 **process. (Core)**  
1324  
1325 **V.C.1.a) The Program Evaluation Committee must be composed of at**  
1326 **least two program faculty members, at least one of whom is a**  
1327 **core faculty member, and at least one fellow. (Core)**  
1328  
1329 **V.C.1.b) Program Evaluation Committee responsibilities must include:**  
1330  
1331 **V.C.1.b).(1) acting as an advisor to the program director, through**  
1332 **program oversight; (Core)**  
1333  
1334 **V.C.1.b).(2) review of the program's self-determined goals and**  
1335 **progress toward meeting them; (Core)**  
1336  
1337 **V.C.1.b).(3) guiding ongoing program improvement, including**  
1338 **development of new goals, based upon outcomes;**  
1339 **and, (Core)**  
1340  
1341 **V.C.1.b).(4) review of the current operating environment to identify**  
1342 **strengths, challenges, opportunities, and threats as**  
1343 **related to the program's mission and aims. (Core)**  
1344

**Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program's progress toward achievement of its goals and aims.**

- 1345  
1346 **V.C.1.c) The Program Evaluation Committee should consider the**  
1347 **following elements in its assessment of the program:**  
1348

1409		

1410

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**

1448

- V.C.3.** *One goal of ACGME-accredited education is to educate physicians who seek and achieve board certification. One measure of the effectiveness of the educational program is the ultimate pass rate.*
- The program director should encourage all eligible program graduates to take the certifying examination offered by the applicable American Board of Medical Specialties (ABMS) member board or American Osteopathic Association (AOA) certifying board.*
- V.C.3.a)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) an annual written exam, in the preceding three years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)
- V.C.3.b)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) a biennial written exam, in the preceding six years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)
- V.C.3.c)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) an annual oral exam, in the preceding three years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)
- V.C.3.d)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) a biennial oral exam, in the preceding six years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)

1449 V.C.3.e) For each of the exams referenced in V.C.3.a)-d), any program  
1450 whose graduates over the time period specified in the  
1451 requirement have achieved an 80 percent pass rate will have  
1452 met this requirement, no matter the percentile rank of the  
1453 program for pass rate in that subspecialty. <sup>(Outcome)</sup>  
1454

**Background and Intent:** Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

1455  
1456 V.C.3.f) Programs must report, in ADS, board certification status  
1457 annually for the cohort of board-eligible fellows that  
1458 graduated seven years earlier. <sup>(Core)</sup>  
1459

**Background and Intent:** It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

1460  
1461 VI. The Learning and Working Environment

1462  
1463 *Fellowship education must occur in the context of a learning and working*  
1464 *environment that emphasizes the following principles:*

- 1465
- 1466 • *Excellence in the safety and quality of care rendered to patients by fellows*  
1467 *today*
- 1468
- 1469 • *Excellence in the safety and quality of care rendered to patients by today's*  
1470 *fellows in their future practice*
- 1471
- 1472 • *Excellence in professionalism through faculty modeling of:*  
1473

- 1474 ○ *the effacement of self-interest in a humanistic environment that supports*
- 1475 *the professional development of physicians*
- 1476
- 1477 ○ *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- 1478
- 1479 • *Commitment to the well-being of the students, residents, fellows, faculty*
- 1480 *members, and all members of the health care team*
- 1481

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program’s accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

- 1482
- 1483 **VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability**
- 1484
- 1485 **VI.A.1. Patient Safety and Quality Improvement**
- 1486
- 1487 *All physicians share responsibility for promoting patient safety and*
- 1488 *enhancing quality of patient care. Graduate medical education must*
- 1489 *prepare fellows to provide the highest level of clinical care with*
- 1490 *continuous focus on the safety, individual needs, and humanity of*
- 1491 *their patients. It is the right of each patient to be cared for by fellows*
- 1492 *who are appropriately supervised; possess the requisite knowledge,*
- 1493 *skills, and abilities; understand the limits of their knowledge and*
- 1494 *experience; and seek assistance as required to provide optimal*
- 1495 *patient care.*
- 1496
- 1497 *Fellows must demonstrate the ability to analyze the care they*
- 1498 *provide, understand their roles within health care teams, and play an*
- 1499 *active role in system improvement processes. Graduating fellows*

1500 *will apply these skills to critique their future unsupervised practice*  
1501 *and effect quality improvement measures.*

1502  
1503 *It is necessary for fellows and faculty members to consistently work*  
1504 *in a well-coordinated manner with other health care professionals to*  
1505 *achieve organizational patient safety goals.*  
1506

1507 **VI.A.1.a) Patient Safety**

1508  
1509 **VI.A.1.a).(1) Culture of Safety**

1510  
1511 *A culture of safety requires continuous identification*  
1512 *of vulnerabilities and a willingness to transparently*  
1513 *deal with them. An effective organization has formal*  
1514 *mechanisms to assess the knowledge, skills, and*  
1515 *attitudes of its personnel toward safety in order to*  
1516 *identify areas for improvement.*  
1517

1518 **VI.A.1.a).(1).(a)** The program, its faculty, residents, and fellows  
1519 must actively participate in patient safety  
1520 systems and contribute to a culture of safety.  
1521 (Core)

1522  
1523 **VI.A.1.a).(1).(b)** The program must have a structure that  
1524 promotes safe, interprofessional, team-based  
1525 care. (Core)

1526  
1527 **VI.A.1.a).(2) Education on Patient Safety**

1528  
1529 Programs must provide formal educational activities  
1530 that promote patient safety-related goals, tools, and  
1531 techniques. (Core)  
1532

**Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.**

1533  
1534 **VI.A.1.a).(3) Patient Safety Events**

1535  
1536 *Reporting, investigation, and follow-up of adverse*  
1537 *events, near misses, and unsafe conditions are pivotal*  
1538 *mechanisms for improving patient safety, and are*  
1539 *essential for the success of any patient safety*  
1540 *program. Feedback and experiential learning are*  
1541 *essential to developing true competence in the ability*  
1542 *to identify causes and institute sustainable systems-*  
1543 *based changes to ameliorate patient safety*  
1544 *vulnerabilities.*  
1545

1546 **VI.A.1.a).(3).(a)** Residents, fellows, faculty members, and other  
1547 clinical staff members must:  
1548

1549	<b>VI.A.1.a).(3).(a).(i)</b>	<b>know their responsibilities in reporting patient safety events at the clinical site;</b>
1550		<b>(Core)</b>
1551		
1552		
1553	<b>VI.A.1.a).(3).(a).(ii)</b>	<b>know how to report patient safety events, including near misses, at the clinical site; and,</b>
1554		<b>(Core)</b>
1555		
1556

1631		
1632		<b><i>Supervision in the setting of graduate medical education provides safe and effective care to patients; ensures each fellow's development of the skills, knowledge, and attitudes required to enter the unsupervised practice of medicine; and establishes a foundation for continued professional growth.</i></b>
1633		
1634		
1635		
1636		
1637		
1638	<b>VI.A.2.a).(1)</b>	<b>Each patient must have an identifiable and appropriately-credentialed and privileged attending physician (or licensed independent practitioner as specified by the applicable Review Committee) who is responsible and accountable for the patient's care. <sup>(Core)</sup></b>
1639		
1640		
1641		
1642		
1643		
1644		
1645	<b>VI.A.2.a).(1).(a)</b>	<b>This information must be available to fellows, faculty members, other members of the health care team, and patients. <sup>(Core)</sup></b>
1646		
1647		
1648		

1649 VI.A.2.a).(1).(b) Fellows and faculty members must inform each  
1650 patient of their respective roles in that patient's  
1651 care when providing direct patient care. <sup>(Core)</sup>  
1652

1653 VI.A.2.b) *Supervision may be exercised through a variety of methods.*  
1654 *For many aspects of patient care, the supervising physician*  
1655 *may be a more advanced fellow. Other portions of care*  
1656 *provided by the fellow can be adequately supervised by the*  
1657 *appropriate availability of the supervising faculty member or*  
1658 *fellow, either on site or by means of telecommunication*  
1659 *technology. Some activities require the physical presence of*  
1660 *the supervising faculty member. In some circumstances,*  
1661 *supervision may include post-hoc review of fellow-delivered*  
1662 *care with feedback.*  
1663

**Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of fellow patient interactions, education and training locations, and fellow skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a fellow gains more experience, even with the same patient condition or procedure. All fellows have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.**

1664  
1665 VI.A.2.b).(1) The program must demonstrate that the appropriate  
1666 level of supervision in place for all fellows is based on  
1667 each fellow's level of training and ability, as well as  
1668 patient complexity and acuity. Supervision may be  
1669 exercised through a variety of methods, as appropriate  
1670 to the situation. <sup>(Core)</sup>  
1671

1672 VI.A.2.b).(2) The program must define when physical presence of a  
1673 supervising physician is required. <sup>(Core)</sup>  
1674

1675 VI.A.2.c) Levels of Supervision  
1676  
1677 To promote appropriate fellow supervision while providing  
1678 for graded authority and responsibility, the program must use  
1679 the following classification of supervision: <sup>(Core)</sup>  
1680

1681 VI.A.2.c).(1) Direct Supervision:

1682  
1683 VI.A.2.c).(1).(a) the supervising physician is physically present  
1684 with the fellow during the key portions of the  
1685 patient interaction; or, <sup>(Core)</sup>  
1686

1687 VI.A.2.c).(1).(b) the supervising physician and/or patient is not  
1688 physically present with the fellow and the  
1689 supervising physician is concurrently

1690		monitoring the patient care through appropriate
1691		telecommunication technology. <sup>(Core)</sup>
1692		
1693	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision: the supervising physician is not</b>
1694		<b>providing physical or concurrent visual or audio</b>
1695		<b>supervision but is immediately available to the fellow</b>
1696		<b>for guidance and is available to provide appropriate</b>
1697		<b>direct supervision.</b> <sup>(Core)</sup>
1698		
1699	<b>VI.A.2.c).(3)</b>	<b>Oversight – the supervising physician is available to</b>
1700		<b>provide review of procedures/encounters with</b>
1701		<b>feedback provided after care is delivered.</b> <sup>(Core)</sup>
1702		
1703	<b>VI.A.2.d)</b>	<b>The privilege of progressive authority and responsibility,</b>
1704		<b>conditional independence, and a supervisory role in patient</b>
1705		<b>care delegated to each fellow must be assigned by the</b>
1706		<b>program director and faculty members.</b> <sup>(Core)</sup>
1707		
1708	<b>VI.A.2.d).(1)</b>	<b>The program director must evaluate each fellow’s</b>
1709		<b>abilities based on specific criteria, guided by the</b>
1710		<b>Milestones.</b> <sup>(Core)</sup>
1711		
1712	<b>VI.A.2.d).(2)</b>	<b>Faculty members functioning as supervising</b>
1713		<b>physicians must delegate portions of care to fellows</b>
1714		<b>based on the needs of the patient and the skills of</b>
1715		<b>each fellow.</b> <sup>(Core)</sup>
1716		
1717	<b>VI.A.2.d).(3)</b>	<b>Fellows should serve in a supervisory role to junior</b>
1718		<b>fellows and residents in recognition of their progress</b>
1719		<b>toward independence, based on the needs of each</b>
1720		<b>patient and the skills of the individual resident or</b>
1721		<b>fellow.</b> <sup>(Detail)</sup>
1722		
1723	<b>VI.A.2.e)</b>	<b>Programs must set guidelines for circumstances and events</b>
1724		<b>in which fellows must communicate with the supervising</b>
1725		<b>faculty member(s).</b> <sup>(Core)</sup>
1726		
1727	<b>VI.A.2.e).(1)</b>	<b>Each fellow must know the limits of their scope of</b>
1728		<b>authority, and the circumstances under which the</b>
1729		<b>fellow is permitted to act with conditional</b>
1730		<b>independence.</b> <sup>(Outcome)</sup>
1731		

<p><b>Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.</b></p>
---

1732		
1733	<b>VI.A.2.f)</b>	<b>Faculty supervision assignments must be of sufficient</b>
1734		<b>duration to assess the knowledge and skills of each fellow</b>
1735		<b>and to delegate to the fellow the appropriate level of patient</b>
1736		<b>care authority and responsibility.</b> <sup>(Core)</sup>
1737		

- 1738 **VI.B. Professionalism**  
 1739  
 1740 **VI.B.1. Programs, in partnership with their Sponsoring Institutions, must**  
 1741 **educate fellows and faculty members concerning the professional**  
 1742 **responsibilities of physicians, including their obligation to be**  
 1743 **appropriately rested and fit to provide the care required by their**  
 1744 **patients. <sup>(Core)</sup>**  
 1745  
 1746 **VI.B.2. The learning objectives of the program must:**  
 1747  
 1748 **VI.B.2.a) be accomplished through an appropriate blend of supervised**  
 1749 **patient care responsibilities, clinical teaching, and didactic**  
 1750 **educational events; <sup>(Core)</sup>**  
 1751  
 1752 **VI.B.2.b) be accomplished without excessive reliance on fellows to**  
 1753 **fulfill non-physician obligations; and, <sup>(Core)</sup>**  
 1754

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.**

- 1755  
 1756 **VI.B.2.c) ensure manageable patient care responsibilities. <sup>(Core)</sup>**  
 1757

**Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.**

- 1758  
 1759 **VI.B.3. The program director, in partnership with the Sponsoring Institution,**  
 1760 **must provide a culture of professionalism that supports patient**  
 1761 **safety and personal responsibility. <sup>(Core)</sup>**  
 1762  
 1763 **VI.B.4. Fellows and faculty members must demonstrate an understanding**  
 1764 **of their personal role in the:**  
 1765  
 1766 **VI.B.4.a) provision of patient- and family-centered care; <sup>(Outcome)</sup>**  
 1767  
 1768 **VI.B.4.b) safety and welfare of patients entrusted to their care,**  
 1769 **including the ability to report unsafe conditions and adverse**  
 1770 **events; <sup>(Outcome)</sup>**

1771

**Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.**

1772

1773

1774

**VI.B.4.c) assurance of their fitness for work, including: (Outcome)**

**Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.**

1775

1776

1777

1778

**VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, (Outcome)**

1779

1780

1781

1782

**VI.B.4.c).(2) recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)**

1783

1784

**VI.B.4.d) commitment to lifelong learning; (Outcome)**

1785

1786

1787

**VI.B.4.e) monitoring of their patient care performance improvement indicators; and, (Outcome)**

1788

1789

**VI.B.4.f) accurate reporting of clinical and educational work hours, patient outcomes, and clinical experience data. (Outcome)**

1790

1791

1792

1793

1794

1795

1796

**VI.B.5. All fellows and faculty members must demonstrate responsiveness to patient needs that supersedes self-interest. This includes the recognition that under certain circumstances, the best interests of the patient may be served by transitioning that patient's care to another qualified and rested provider. (Outcome)**

1797

1798

1799

1800

1801

1802

**VI.B.6. Programs, in partnership with their Sponsoring Institutions, must provide a professional, equitable, respectful, and civil environment that is free from discrimination, sexual and other forms of harassment, mistreatment, abuse, or coercion of students, fellows, faculty, and staff. (Core)**

1803

1804

1805

1806

1807

**VI.B.7. Programs, in partnership with their Sponsoring Institutions, should have a process for education of fellows and faculty regarding unprofessional behavior and a confidential process for reporting, investigating, and addressing such concerns. (Core)**

1808

1809

1810

1811

**VI.C. Well-Being**

***Psychological, emotional, and physical well-being are critical in the development of the competent, caring, and resilient physician and require***

1812 *proactive attention to life inside and outside of medicine. Well-being*  
1813 *requires that physicians retain the joy in medicine while managing their*  
1814 *own real-life stresses. Self-care and responsibility to support other*  
1815 *members of the health care team are important components of*  
1816 *professionalism; they are also skills that must be modeled, learned, and*  
1817 *nurtured in the context of other aspects of fellowship training.*

1818  
1819 *Fellows and faculty members are at risk for burnout and depression.*  
1820 *Programs, in partnership with their Sponsoring Institutions, have the same*  
1821 *responsibility to address well-being as other aspects of resident*  
1822 *competence. Physicians and all members of the health care team share*  
1823 *responsibility for the well-being of each other. For example, a culture which*  
1824 *encourages covering for colleagues after an illness without the expectation*  
1825 *of reciprocity reflects the ideal of professionalism. A positive culture in a*  
1826 *clinical learning environment models constructive behaviors, and prepares*  
1827 *fellows with the skills and attitudes needed to thrive throughout their*  
1828 *careers.*

1829

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website: [www.acgme.org/physicianwellbeing](http://www.acgme.org/physicianwellbeing).

The ACGME also created a repository for well-being materials, assessments, presentations, and more on the [Well-Being Tools and Resources page](#) in Learn at ACGME for programs seeking to develop or strengthen their own well-being initiatives. There are many activities that programs can implement now to assess and support physician well-being. These include the distribution and analysis of culture of safety surveys, ensuring the availability of counseling services, and paying attention to the safety of the entire health care team.

1830

1831 **VI.C.1.** The responsibility of the program, in partnership with the  
1832 Sponsoring Institution, to address well-being must include:

1833

1834 **VI.C.1.a)** efforts to enhance the meaning that each fellow finds in the  
1835 experience of being a physician, including protecting time  
1836 with patients, minimizing non-physician obligations,  
1837 providing administrative support, promoting progressive  
1838 autonomy and flexibility, and enhancing professional  
1839 relationships; <sup>(Core)</sup>

1840

1841 **VI.C.1.b)** attention to scheduling, work intensity, and work  
1842 compression that impacts fellow well-being; <sup>(Core)</sup>

1843

1844 **VI.C.1.c)** evaluating workplace safety data and addressing the safety of  
1845 fellows and faculty members; <sup>(Core)</sup>

1846

**Background and Intent:** This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1847  
1848  
1849  
1850

**VI.C.1.d) policies and programs that encourage optimal fellow and faculty member well-being; and, <sup>(Core)</sup>**

**Background and Intent:** Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1851  
1852  
1853  
1854  
1855  
1856

**VI.C.1.d).(1) Fellows must be given the opportunity to attend medical, mental health, and dental care appointments, including those scheduled during their working hours. <sup>(Core)</sup>**

**Background and Intent:** The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

1857

1865  
1866  
1867  
1868

**VI.C.1.e) attention to fellow and faculty member burnout, depression, and substance use disorder. The program, in partnership with its Sponsoring Institution, must educate faculty members and fellows in identification of the symptoms of burnout, depression, and substance use disorder, including means to assist those who experience these conditions. Fellows and faculty members must also be educated to recognize those symptoms in themselves and how to seek appropriate care. The program, in partnership with its Sponsoring Institution, must: <sup>(Core)</sup>**

**Background and Intent:** Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorder. Materials and more information are available in Learn at ACGME (<https://dl.acgme.org/pages/well-being-tools-resources>).

1869  
1870  
1871  
1872  
1873  
1874  
1875  
1876  
1877

**VI.C.1.e).(1) encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, a substance use disorder, suicidal ideation, or potential for violence; <sup>(Core)</sup>**

**Background and Intent:** Individuals experiencing burnout, depression, substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1878  
1879  
1880  
1881  
1882  
1883  
1884  
1885  
1886

- VI.C.1.e).(2) provide access to appropriate tools for self-screening; and, <sup>(Core)</sup>
- VI.C.1.e).(3) provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. <sup>(Core)</sup>

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1887  
1888  
1889  
1890  
1891  
1892  
1893  
1894  
1895  
1896  
1897  
1898  
1899  
1900

- VI.C.2. There are circumstances in which fellows may be unable to attend work, including but not limited to fatigue, illness, family emergencies, and parental leave. Each program must allow an appropriate length of absence for fellows unable to perform their patient care responsibilities. <sup>(Core)</sup>
- VI.C.2.a) The program must have policies and procedures in place to ensure coverage of patient care. <sup>(Core)</sup>
- VI.C.2.b) These policies must be implemented without fear of negative consequences for the fellow who is or was unable to provide the clinical work. <sup>(Core)</sup>

**Background and Intent:** Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

- 1901  
 1902 **VI.D. Fatigue Mitigation**  
 1903  
 1904 **VI.D.1. Programs must:**  
 1905  
 1906 **VI.D.1.a) educate all faculty members and fellows to recognize the**  
 1907 **signs of fatigue and sleep deprivation; <sup>(Core)</sup>**  
 1908  
 1909 **VI.D.1.b) educate all faculty members and fellows in alertness**  
 1910 **management and fatigue mitigation processes; and, <sup>(Core)</sup>**  
 1911  
 1912 **VI.D.1.c) encourage fellows to use fatigue mitigation processes to**  
 1913 **manage the potential negative effects of fatigue on patient**  
 1914 **care and learning. <sup>(Detail)</sup>**  
 1915

**Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.**

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.**

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty**

members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

- VI.E.2. Teamwork**
- Fellows must care for patients in an environment that maximizes communication. This must include the opportunity to work as a member of effective interprofessional teams that are appropriate to the delivery of care in the subspecialty and larger health system.  
(Core)
- VI.E.3. Transitions of Care**
- VI.E.3.a)** Programs must design clinical assignments to optimize transitions in patient care, including their safety, frequency, and structure. (Core)
- VI.E.3.b)** Programs, in partnership with their Sponsoring Institutions, must ensure and monitor effective, structured hand-over processes to facilitate both continuity of care and patient safety. (Core)
- VI.E.3.c)** Programs must ensure that fellows are competent in communicating with team members in the hand-over process. (Outcome)
- VI.E.3.d)** Programs and clinical sites must maintain and communicate schedules of attending physicians and fellows currently responsible for care. (Core)
- VI.E.3.e)** Each program must ensure continuity of patient care, consistent with the program’s policies and procedures referenced in VI.C.2-VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue or illness, or family emergency. (Core)
- VI.F. Clinical Experience and Education**
- Programs, in partnership with their Sponsoring Institutions, must design an effective program structure that is configured to provide fellows with educational and clinical experience opportunities, as well as reasonable opportunities for rest and personal activities.*

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been

made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

1979  
1980  
1981  
1982

**VI.F.1. Maximum Hours of Clinical and Educational Work per Week**

Clinical and educational work hours must be limited to no more than 80 hours per week, averaged over a four-week period, inclusive of all in-house clinical and educational activities, clinical work done from home, and all moonlighting. <sup>(Core)</sup>

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

***Scheduling***

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the

following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

- VI.F.2. Mandatory Time Free of Clinical Work and Education**
- VI.F.2.a)** The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>
- VI.F.2.b)** Fellows should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>
- VI.F.2.b).(1)** There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. <sup>(Detail)</sup>

**Background and Intent:** While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

2001  
2002 VI.F.2.c) Fellows must have at least 14 hours free of clinical work and  
2003 education after 24 hours of in-house call. (Core)  
2004

**Background and Intent:** Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

2005  
2006 VI.F.2.d) Fellows must be scheduled for a minimum of one day in  
2007 seven free of clinical work and required education (when  
2008 averaged over four weeks). At-home call cannot be assigned  
2009 on these free days. (Core)  
2010

**Background and Intent:** The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

2011  
2012 VI.F.3. Maximum Clinical Work and Education Period Length  
2013

2014 VI.F.3.a) Clinical and educational work periods for fellows must not  
2015 exceed 24 hours of continuous scheduled clinical  
2016 assignments. (Core)  
2017

2018 VI.F.3.a).(1) Up to four hours of additional time may be used for  
2019 activities related to patient safety, such as providing  
2020 effective transitions of care, and/or fellow education.  
2021 (Core)  
2022

2023 VI.F.3.a).(1).(a) Additional patient care responsibilities must not  
2024 be assigned to a fellow during this time. (Core)  
2025

**Background and Intent:** The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

2026  
2027 VI.F.4. Clinical and Educational Work Hour Exceptions

- 2028  
2029 **VI.F.4.a)** In rare circumstances, after handing off all other  
2030 responsibilities, a fellow, on their own initiative, may elect to  
2031 remain or return to the clinical site in the following  
2032 circumstances:  
2033
- 2034 **VI.F.4.a).(1)** to continue to provide care to a single severely ill or  
2035 unstable patient; <sup>(Detail)</sup>  
2036
- 2037 **VI.F.4.a).(2)** humanistic attention to the needs of a patient or  
2038 family; or, <sup>(Detail)</sup>  
2039
- 2040 **VI.F.4.a).(3)** to attend unique educational events. <sup>(Detail)</sup>  
2041
- 2042 **VI.F.4.b)** These additional hours of care or education will be counted  
2043 toward the 80-hour weekly limit. <sup>(Detail)</sup>  
2044

**Background and Intent:** This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

- 2045  
2046 **VI.F.4.c)** A Review Committee may grant rotation-specific exceptions  
2047 for up to 10 percent or a maximum of 88 clinical and  
2048 educational work hours to individual programs based on a  
2049 sound educational rationale.  
2050
- 2051 The Review Committee for Internal Medicine will not consider  
2052 requests for exceptions to the 80-hour limit to the fellows' work  
2053 week.  
2054
- 2055 **VI.F.5. Moonlighting**
- 2056
- 2057 **VI.F.5.a)** Moonlighting must not interfere with the ability of the fellow  
2058 to achieve the goals and objectives of the educational  
2059 program, and must not interfere with the fellow's fitness for  
2060 work nor compromise patient safety. <sup>(Core)</sup>  
2061
- 2062 **VI.F.5.b)** Time spent by fellows in internal and external moonlighting  
2063 (as defined in the ACGME Glossary of Terms) must be  
2064 counted toward the 80-hour maximum weekly limit. <sup>(Core)</sup>  
2065

**Background and Intent:** For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

2070  
2071

**VI.F.6. In-House Night Float**

**Night float must occur within the context of the 80-hour and one-day-off-in-seven requirements. <sup>(Core)</sup>**

**Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.**

2072  
2073  
2074  
2075  
2076  
2077

**VI.F.7. Maximum In-House On-Call Frequency**

**Fellows must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period). <sup>(Core)</sup>**

2078  
2079  
2080

VI.F.7.a) Internal Medicine fellowships must not average in-house call over a four-week period. <sup>(Core)</sup>

2081  
2082

**VI.F.8. At-Home Call**

2083  
2084  
2085  
2086  
2087  
2088

VI.F.8.a) **Time spent on patient care activities by fellows on at-home call must count toward the 80-hour maximum weekly limit. The frequency of at-home call is not subject to the every-third-night limitation, but must satisfy the requirement for one day in seven free of clinical work and education, when averaged over four weeks. <sup>(Core)</sup>**

2089  
2090  
2091  
2092  
2093

VI.F.8.a).(1) **At-home call must not be so frequent or taxing as to preclude rest or reasonable personal time for each fellow. <sup>(Core)</sup>**

2094  
2095  
2096  
2097  
2098

VI.F.8.b) **Fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. <sup>(Detail)</sup>**

**Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.**

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**

2099
