1                   **ACGME Program Requirements for Graduate Medical Education**  
2   **in Pulmonary Disease**

3  
4                   **Common Program Requirements (Fellowship) are in BOLD**

5  
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.  
9

**Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

10  
11 **Introduction**

12  
13 **Int.A.**       *Fellowship is advanced graduate medical education beyond a core*  
14 *residency program for physicians who desire to enter more specialized*  
15 *practice. Fellowship-trained physicians serve the public by providing*  
16 *subspecialty care, which may also include core medical care, acting as a*  
17 *community resource for expertise in their field, creating and integrating*  
18 *new knowledge into practice, and educating future generations of*  
19 *physicians. Graduate medical education values the strength that a diverse*  
20 *group of physicians brings to medical care.*

21  
22 *Fellows who have completed residency are able to practice independently*  
23 *in their core specialty. The prior medical experience and expertise of*  
24 *fellows distinguish them from physicians entering into residency training.*  
25 *The fellow’s care of patients within the subspecialty is undertaken with*  
26 *appropriate faculty supervision and conditional independence. Faculty*  
27 *members serve as role models of excellence, compassion,*  
28 *professionalism, and scholarship. The fellow develops deep medical*  
29 *knowledge, patient care skills, and expertise applicable to their focused*  
30 *area of practice. Fellowship is an intensive program of subspecialty clinical*  
31 *and didactic education that focuses on the multidisciplinary care of*  
32 *patients. Fellowship education is often physically, emotionally, and*  
33 *intellectually demanding, and occurs in a variety of clinical learning*  
34 *environments committed to graduate medical education and the well-being*  
35 *of patients, residents, fellows, faculty members, students, and all members*  
36 *of the health care team.*

37  
38 *In addition to clinical education, many fellowship programs advance*  
39 *fellows’ skills as physician-scientists. While the ability to create new*  
40 *knowledge within medicine is not exclusive to fellowship-educated*  
41 *physicians, the fellowship experience expands a physician’s abilities to*  
42 *pursue hypothesis-driven scientific inquiry that results in contributions to*  
43 *the medical literature and patient care. Beyond the clinical subspecialty*  
44 *expertise achieved, fellows develop mentored relationships built on an*  
45 *infrastructure that promotes collaborative research.*

46  
47 **Int.B.**       **Definition of Subspecialty**

48  
49 Pulmonary medicine is the subspecialty of internal medicine that focuses on the  
50 diagnosis and management of disorders of the respiratory system, including the  
51 lungs, upper airways, thoracic cavity, and chest wall.  
52

53 **Int.C. Length of Educational Program**

54  
55 The educational program in pulmonary disease must be 24 months in length.  
56 (Core)\*  
57

58 **I. Oversight**

59  
60 **I.A. Sponsoring Institution**

61  
62 *The Sponsoring Institution is the organization or entity that assumes the*  
63 *ultimate financial and academic responsibility for a program of graduate*  
64 *medical education consistent with the ACGME Institutional Requirements.*  
65

66 *When the Sponsoring Institution is not a rotation site for the program, the*  
67 *most commonly utilized site of clinical activity for the program is the*  
68 *primary clinical site.*  
69

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

70  
71 **I.A.1. The program must be sponsored by one ACGME-accredited**  
72 **Sponsoring Institution. (Core)**  
73

74 **I.B. Participating Sites**

75  
76 *A participating site is an organization providing educational experiences or*  
77 *educational assignments/rotations for fellows.*  
78

79 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
80 **designate a primary clinical site. (Core)**  
81

82 I.B.1.a) The pulmonary disease fellowship must function as an integral  
83 part of an ACGME-accredited residency in internal medicine. (Core)

84 I.B.1.b) The Sponsoring Institution must establish the pulmonary disease  
85 fellowship within a department of internal medicine or an  
86 administrative unit whose primary mission is the advancement of  
87 internal medicine subspecialty education and patient care. (Detail)†  
88  
89

- 90 I.B.1.c) The Sponsoring Institution must ensure that there is a reporting  
 91 relationship with the program director of the parent internal  
 92 medicine residency program to ensure compliance with ACGME  
 93 accreditation requirements. <sup>(Core)</sup>  
 94
- 95 **I.B.2. There must be a program letter of agreement (PLA) between the  
 96 program and each participating site that governs the relationship  
 97 between the program and the participating site providing a required  
 98 assignment. <sup>(Core)</sup>**  
 99
- 100 **I.B.2.a) The PLA must:**
- 101
- 102 **I.B.2.a).(1) be renewed at least every 10 years; and, <sup>(Core)</sup>**
- 103
- 104 **I.B.2.a).(2) be approved by the designated institutional official  
 105 (DIO). <sup>(Core)</sup>**  
 106
- 107 **I.B.3. The program must monitor the clinical learning and working  
 108 environment at all participating sites. <sup>(Core)</sup>**  
 109
- 110 **I.B.3.a) At each participating site there must be one faculty member,  
 111 designated by the program director, who is accountable for  
 112 fellow education for that site, in collaboration with the  
 113 program director. <sup>(Core)</sup>**  
 114

**Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.**

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**
- **Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows**
- **Specifying the duration and content of the educational experience**
- **Stating the policies and procedures that will govern fellow education during the assignment**

- 115
- 116 **I.B.4. The program director must submit any additions or deletions of  
 117 participating sites routinely providing an educational experience,  
 118 required for all fellows, of one month full time equivalent (FTE) or  
 119 more through the ACGME's Accreditation Data System (ADS). <sup>(Core)</sup>**

120  
121 **I.C. The program, in partnership with its Sponsoring Institution, must engage in**  
122 **practices that focus on mission-driven, ongoing, systematic recruitment**  
123 **and retention of a diverse and inclusive workforce of residents (if present),**  
124 **fellows, faculty members, senior administrative staff members, and other**  
125 **relevant members of its academic community.** <sup>(Core)</sup>  
126

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

127  
128 **I.D. Resources**

129  
130 **I.D.1. The program, in partnership with its Sponsoring Institution, must**  
131 **ensure the availability of adequate resources for fellow education.**  
132 <sup>(Core)</sup>

133  
134 I.D.1.a) Space and Equipment

135  
136 There must be space and equipment for the program, including  
137 meeting rooms, examination rooms, computers, visual and other  
138 educational aids, and work/study space. <sup>(Core)</sup>

139  
140 I.D.1.b) Facilities

141  
142 I.D.1.b).(1) Inpatient and outpatient systems must be in place to  
143 prevent fellows from performing routine clerical functions,  
144 such as scheduling tests and appointments, and retrieving  
145 records and letters. <sup>(Detail)</sup>

146  
147 I.D.1.b).(2) The Sponsoring Institution must provide the broad range of  
148 facilities and clinical support services required to provide  
149 comprehensive care of adult patients. <sup>(Core)</sup>

150  
151 I.D.1.b).(3) Fellows must have access to a lounge facility during  
152 assigned duty hours. <sup>(Detail)</sup>

153  
154 I.D.1.b).(4) When fellows are in the hospital, assigned night duty, or  
155 called in from home, they must be provided with a secure  
156 space for their belongings. <sup>(Detail)</sup>

157  
158 I.D.1.b).(5) A pulmonary function testing laboratory must be available.  
159 <sup>(Core)</sup>

160  
161 I.D.1.b).(6) A bronchoscopy suite, including appropriate space and  
162 staffing for pulmonary procedure must be available. <sup>(Core)</sup>

163  
164 I.D.1.b).(7) Critical care, post-operative care, and respiratory care

- 165 services must be available. <sup>(Core)</sup>
- 166
- 167 I.D.1.c) Laboratory and Imaging Services
- 168
- 169 The following must be available at the primary clinical site:
- 170
- 171 I.D.1.c).(1) a supporting laboratory to provide complete and prompt
- 172 laboratory evaluation; <sup>(Core)</sup>
- 173
- 174 I.D.1.c).(2) timely bedside imaging services for patients in the critical
- 175 care units; and, <sup>(Core)</sup>
- 176
- 177 I.D.1.c).(3) computed tomography (CT) imaging, including CT
- 178 angiography <sup>(Core)</sup>
- 179
- 180 I.D.1.d) Other Support Services
- 181
- 182 The following must be available:
- 183
- 184 I.D.1.d).(1) pathology services, including exfoliate cytology; <sup>(Core)</sup>.
- 185
- 186 I.D.1.d).(2) a thoracic surgery service; <sup>(Core)</sup>
- 187
- 188 I.D.1.d).(3) a laboratory for sleep-related breathing disorders; and, <sup>(Core)</sup>
- 189
- 190 I.D.1.d).(4) other services, including radiology, pathology,
- 191 microbiology, laboratory medicine, occupational medicine,
- 192 immunology, physical medicine and rehabilitation,
- 193 otolaryngology, and anesthesiology. <sup>(Core)</sup>
- 194
- 195 I.D.1.e) Medical Records
- 196
- 197 Access to an electronic health record should be provided. In the
- 198 absence of an existing electronic health record, institutions must
- 199 demonstrate institutional commitment to its development and
- 200 progress toward its implementation. <sup>(Core)</sup>
- 201
- 202 **I.D.2. The program, in partnership with its Sponsoring Institution, must**
- 203 **ensure healthy and safe learning and working environments that**
- 204 **promote fellow well-being and provide for:** <sup>(Core)</sup>
- 205
- 206 **I.D.2.a) access to food while on duty;** <sup>(Core)</sup>
- 207
- 208 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**
- 209 **and accessible for fellows with proximity appropriate for safe**
- 210 **patient care;** <sup>(Core)</sup>
- 211

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities.**

Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

212  
213  
214  
215  
216

- I.D.2.c) clean and private facilities for lactation that have refrigeration capabilities, with proximity appropriate for safe patient care; (Core)

Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

217  
218  
219  
220

- I.D.2.d) security and safety measures appropriate to the participating site; and, (Core)

221  
222  
223

- I.D.2.e) accommodations for fellows with disabilities consistent with the Sponsoring Institution's policy. (Core)

224  
225  
226  
227  
228

- I.D.3. Fellows must have ready access to subspecialty-specific and other appropriate reference material in print or electronic format. This must include access to electronic medical literature databases with full text capabilities. (Core)

229  
230  
231

- I.D.4. The program's educational and clinical resources must be adequate to support the number of fellows appointed to the program. (Core)

232  
233

- I.D.4.a) Patient Population

234  
235  
236

- I.D.4.a).(1) The patient population must have a variety of clinical problems and stages of diseases. (Core)

237  
238  
239

- I.D.4.a).(2) There must be patients of each gender, with a broad age range, including geriatric patients. (Core)

240  
241  
242

- I.D.4.a).(3) A sufficient number of patients must be available to enable each fellow to achieve the required educational outcomes. (Core)

243  
244  
245  
246

- I.D.4.a).(4) There must be an average daily census of at least five patients per fellow during assignments to critical care units. (Detail)

247  
248  
249  
250

- I.E. *A fellowship program usually occurs in the context of many learners and other care providers and limited clinical resources. It should be structured to optimize education for all learners present.*

251  
 252 I.E.1. Fellows should contribute to the education of residents in core  
 253 programs, if present. <sup>(Core)</sup>  
 254

**Background and Intent:** The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.

255  
 256 II. Personnel

257  
 258 II.A. Program Director

259  
 260 II.A.1. There must be one faculty member appointed as program director  
 261 with authority and accountability for the overall program, including  
 262 compliance with all applicable program requirements. <sup>(Core)</sup>  
 263

264 II.A.1.a) The Sponsoring Institution's Graduate Medical Education  
 265 Committee (GMEC) must approve a change in program  
 266 director. <sup>(Core)</sup>  
 267

268 II.A.1.b) Final approval of the program director resides with the  
 269 Review Committee. <sup>(Core)</sup>  
 270

**Background and Intent:** While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and have overall responsibility for the program. The program director's nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.

271  
 272 II.A.2. The program director and, as applicable, the program's leadership  
 273 team, must be provided with support adequate for administration of  
 274 the program based upon its size and configuration. <sup>(Core)</sup>  
 275

276 II.A.2.a) At a minimum, the program director must be provided with the  
 277 salary support required to devote 20-50 percent FTE of non-  
 278 clinical time to the administration of the program. <sup>(Core)</sup>  
 279

280 At a minimum, the program director must be provided with the  
 281 dedicated time and support specified below for administration of  
 282 the program: <sup>(Core)</sup>  
 283

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>.2</u>
<u>7-9</u>	<u>.25</u>
<u>10-12</u>	<u>.3</u>

<u>13-15</u>	<u>.35</u>
--------------	------------

284  
285 II.A.2.b)  
286  
287  
288  
289  
290

Programs must appoint at least one of the subspecialty-certified core faculty members to be associate program director(s). The associate program directors(s) must be provided with support equal to a dedicated minimum time for administration of the program as follows: (Core)

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>0</u>
<u>7-9</u>	<u>.13</u>
<u>10-12</u>	<u>.14</u>
<u>13-15</u>	<u>.15</u>

291

**Background and Intent: To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.**

**The ultimate outcome of graduate medical education is excellence in fellow education and patient care.**

**The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.**

**Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.**

292

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 30 percent FTE support for the Program Director and at least 14 percent FTE support for the associate program director(s). Because an associate program director is also a core faculty member, the minimum dedicated time requirements for associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE. Further, the Review Committee allows the minimum required FTE support to be shared among multiple associate program directors, as delegated by and at the discretion of the program director.

293

294 **II.A.3. Qualifications of the program director:**  
295  
296 **II.A.3.a) must include subspecialty expertise and qualifications**  
297 **acceptable to the Review Committee; and, (Core)**  
298  
299 **II.A.3.a).(1)** The program director must have administrative experience  
300 and at least three years of participation as an active faculty  
301 member in an ACGME-accredited internal medicine  
302 residency or pulmonary disease fellowship. (Core)  
303  
304 **II.A.3.b) must include current certification in the subspecialty for**  
305 **which they are the program director by the American Board**  
306 **of Internal Medicine (ABIM) or by the American Osteopathic**  
307 **Board of Internal Medicine (AOBIM), or subspecialty**  
308 **qualifications that are acceptable to the Review Committee.**  
309 (Core)

310  
311 **II.A.3.b).(1)** The Review Committee only accepts current ABIM or  
312 AOBIM certification in pulmonary disease. (Core)  
313

314 **II.A.4. Program Director Responsibilities**

315  
316 **The program director must have responsibility, authority, and**  
317 **accountability for: administration and operations; teaching and**  
318 **scholarly activity; fellow recruitment and selection, evaluation, and**  
319 **promotion of fellows, and disciplinary action; supervision of fellows;**  
320 **and fellow education in the context of patient care. (Core)**  
321

322 **II.A.4.a) The program director must:**

323  
324 **II.A.4.a).(1) be a role model of professionalism; (Core)**  
325

**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.**

326  
327 **II.A.4.a).(2) design and conduct the program in a fashion**  
328 **consistent with the needs of the community, the**  
329 **mission(s) of the Sponsoring Institution, and the**  
330 **mission(s) of the program; (Core)**  
331

**Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design**

and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

332  
333  
334  
335  
336

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; <sup>(Core)</sup>

**Background and Intent:** The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

337  
338  
339  
340  
341  
342  
343  
344  
345  
346  
347  
348  
349  
350  
351  
352  
353  
354

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; <sup>(Core)</sup>

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; <sup>(Core)</sup>

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; <sup>(Core)</sup>

**Background and Intent:** The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

356  
357  
358  
359  
360  
361  
362  
363  
364  
365

- II.A.4.a).(8) submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; <sup>(Core)</sup>

- II.A.4.a).(9) provide applicants who are offered an interview with information related to the applicant's eligibility for the relevant subspecialty board examination(s); <sup>(Core)</sup>

- II.A.4.a).(10) provide a learning and working environment in which fellows have the opportunity to raise concerns and provide feedback in a confidential manner as

- 366 appropriate, without fear of intimidation or retaliation;  
 367 (Core)  
 368  
 369 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring  
 370 Institution's policies and procedures related to  
 371 grievances and due process; (Core)  
 372  
 373 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring  
 374 Institution's policies and procedures for due process  
 375 when action is taken to suspend or dismiss, not to  
 376 promote, or not to renew the appointment of a fellow;  
 377 (Core)  
 378

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.**

- 379  
 380 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring  
 381 Institution's policies and procedures on employment  
 382 and non-discrimination; (Core)  
 383  
 384 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-  
 385 competition guarantee or restrictive covenant.  
 386 (Core)  
 387  
 388 **II.A.4.a).(14)** document verification of program completion for all  
 389 graduating fellows within 30 days; (Core)  
 390  
 391 **II.A.4.a).(15)** provide verification of an individual fellow's  
 392 completion upon the fellow's request, within 30 days;  
 393 and, (Core)  
 394

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

- 395  
 396 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
 397 Institution's DIO before submitting information or  
 398 requests to the ACGME, as required in the Institutional  
 399 Requirements and outlined in the ACGME Program  
 400 Director's Guide to the Common Program  
 401 Requirements. (Core)  
 402  
 403 **II.B. Faculty**  
 404  
 405 *Faculty members are a foundational element of graduate medical education*  
 406 *– faculty members teach fellows how to care for patients. Faculty members*

407 *provide an important bridge allowing fellows to grow and become practice*  
408 *ready, ensuring that patients receive the highest quality of care. They are*  
409 *role models for future generations of physicians by demonstrating*  
410 *compassion, commitment to excellence in teaching and patient care,*  
411 *professionalism, and a dedication to lifelong learning. Faculty members*  
412 *experience the pride and joy of fostering the growth and development of*  
413 *future colleagues. The care they provide is enhanced by the opportunity to*  
414 *teach. By employing a scholarly approach to patient care, faculty members,*  
415 *through the graduate medical education system, improve the health of the*  
416 *individual and the population.*

417  
418 *Faculty members ensure that patients receive the level of care expected*  
419 *from a specialist in the field. They recognize and respond to the needs of*  
420 *the patients, fellows, community, and institution. Faculty members provide*  
421 *appropriate levels of supervision to promote patient safety. Faculty*  
422 *members create an effective learning environment by acting in a*  
423 *professional manner and attending to the well-being of the fellows and*  
424 *themselves.*  
425

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.**

426  
427 **II.B.1.** For each participating site, there must be a sufficient number of  
428 faculty members with competence to instruct and supervise all  
429 fellows at that location. <sup>(Core)</sup>  
430

431 **II.B.2.** Faculty members must:

432  
433 **II.B.2.a)** be role models of professionalism; <sup>(Core)</sup>  
434

435 **II.B.2.b)** demonstrate commitment to the delivery of safe, quality,  
436 cost-effective, patient-centered care; <sup>(Core)</sup>  
437

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

438  
439 **II.B.2.c)** demonstrate a strong interest in the education of fellows; <sup>(Core)</sup>  
440

441 **II.B.2.d)** devote sufficient time to the educational program to fulfill  
442 their supervisory and teaching responsibilities; <sup>(Core)</sup>  
443

444 **II.B.2.e)** administer and maintain an educational environment  
445 conducive to educating fellows; <sup>(Core)</sup>  
446

447 **II.B.2.f)** regularly participate in organized clinical discussions,  
448 rounds, journal clubs, and conferences; and, <sup>(Core)</sup>  
449

450 **II.B.2.g) pursue faculty development designed to enhance their skills**  
451 **at least annually. (Core)**  
452

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

453  
454 **II.B.3. Faculty Qualifications**  
455

456 **II.B.3.a) Faculty members must have appropriate qualifications in**  
457 **their field and hold appropriate institutional appointments.**  
458 **(Core)**

459  
460 **II.B.3.b) Subspecialty physician faculty members must:**

461  
462 **II.B.3.b).(1) have current certification in the subspecialty by the**  
463 **American Board of Internal Medicine or the American**  
464 **Osteopathic Board of Internal Medicine, or possess**  
465 **qualifications judged acceptable to the Review**  
466 **Committee. (Core)**

467  
468 **II.B.3.c) Any non-physician faculty members who participate in**  
469 **fellowship program education must be approved by the**  
470 **program director. (Core)**  
471

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

472  
473 **II.B.3.d) Any other specialty physician faculty members must have**  
474 **current certification in their specialty by the appropriate**  
475 **American Board of Medical Specialties (ABMS) member**  
476 **board or American Osteopathic Association (AOA) certifying**  
477 **board, or possess qualifications judged acceptable to the**  
478 **Review Committee. (Core)**

479  
480 **II.B.4. Core Faculty**

481  
482 **Core faculty members must have a significant role in the education**  
483 **and supervision of fellows and must devote a significant portion of**  
484 **their entire effort to fellow education and/or administration, and**

485  
486  
487

must, as a component of their activities, teach, evaluate, and provide formative feedback to fellows. <sup>(Core)</sup>

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.**

502  
503  
504  
505  
506  
507  
508

- II.B.4.a) Core faculty members must be designated by the program director. <sup>(Core)</sup>
- II.B.4.b) Core faculty members must complete the annual ACGME Faculty Survey. <sup>(Core)</sup>
- II.B.4.c) In addition to the program director, there must be at least two core faculty members certified in pulmonary disease by the ABIM or the AOBIM. <sup>(Core)</sup>
- II.B.4.d) In programs approved for more than four fellows, there must be at least one core faculty member certified in pulmonary disease by the ABIM or the AOBIM for every 1.5 fellows. <sup>(Core)</sup>
- II.B.4.e) At a minimum, the required core faculty members, in aggregate and excluding members of the program leadership, must be provided with support equal to an average dedicated minimum of .1 FTE for educational and administrative responsibilities that do not involve direct patient care. <sup>(Core)</sup>

~~Specialty Background and Intent: The program must have a minimum number of ABIM- or AOBIM-certified pulmonary disease faculty members who devote significant time to teaching, supervising, and advising residents, and working closely with the program director. One way the pulmonary disease-certified faculty members can demonstrate they are devoting a significant portion of their effort to resident education is by dedicating an average of 10 hours per week to the program.~~

509

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have a minimum of eight ABIM- or AOBIM- subspecialty-certified faculty members and an FTE of 10 percent each. Because an associate program director is also a core faculty member, the minimum dedicated time requirements for

associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE.

**II.C. Program Coordinator**

**II.C.1. There must be a program coordinator. (Core)**

**II.C.2. The program coordinator must be provided with support adequate for administration of the program based upon its size and configuration. (Core)**

II.C.2.a) At a minimum, the program coordinator must be provided with the dedicated time and support specified below for administration of the program. Additional administrative support must be provided based on the program size as follows: (Core)

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE Required for Coordinator Support</u>	<u>Additional Aggregate FTE Required for Administration of the Program</u>
<u>1-3</u>	<u>.3</u>	<u>0</u>
<u>4-6</u>	<u>.3</u>	<u>.2</u>
<u>7-9</u>	<u>.3</u>	<u>.38</u>
<u>10-12</u>	<u>.3</u>	<u>.44</u>
<u>13-15</u>	<u>.3</u>	<u>.50</u>

524

**Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.**

**Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

**The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of fellows.**

**Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.**

525

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 74 percent FTE administrative support: 30 percent FTE for the program coordinator; and an additional 44 percent FTE aggregate support. This additional support may be for the program coordinator only or divided among the program coordinator and one or more other administrative personnel. The Review Committee has not specified how the FTE should be distributed to allow programs, in partnership with their Sponsoring Institution, to allocate the FTE as they see fit.

526

528  
529  
530  
531  
532

**II.D. Other Program Personnel**

**The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>**

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

554  
555

II.D.1. There must be services available from other health care professionals, including dietitians, language interpreters, nurses, occupational therapists, physical therapists, and social workers. <sup>(Detail)</sup>

II.D.2. There must be appropriate and timely consultation from other specialties. <sup>(Detail)</sup>

**III. Fellow Appointments**

**III.A. Eligibility Criteria**

**III.A.1. Eligibility Requirements – Fellowship Programs**

**All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada. <sup>(Core)</sup>**

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

556  
557  
558  
559  
560

**III.A.1.a) Fellowship programs must receive verification of each entering fellow’s level of competence in the required field, upon matriculation, using ACGME, ACGME-I, or CanMEDS Milestones evaluations from the core residency program. <sup>(Core)</sup>**

561  
562 III.A.1.b) Prior to appointment in the fellowship, fellows should have  
563 completed an internal medicine program that satisfies the  
564 requirements in III.A.1. <sup>(Core)</sup>  
565  
566 III.A.1.b).(1) Fellows who did not complete an internal medicine  
567 program that satisfies the requirements in III.A.1. must  
568 have completed at least three years of internal medicine  
569 education prior to starting the fellowship as well as met all  
570 of the criteria in the “Fellow Eligibility Exception” section  
571 below. <sup>(Core)</sup>  
572  
573 **III.A.1.c) Fellow Eligibility Exception**  
574  
575 **The Review Committee for Internal Medicine will allow the**  
576 **following exception to the fellowship eligibility requirements:**  
577  
578 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**  
579 **an exceptionally qualified international graduate**  
580 **applicant who does not satisfy the eligibility**  
581 **requirements listed in III.A.1., but who does meet all of**  
582 **the following additional qualifications and conditions:**  
583 <sup>(Core)</sup>  
584  
585 **III.A.1.c).(1).(a) evaluation by the program director and**  
586 **fellowship selection committee of the**  
587 **applicant’s suitability to enter the program,**  
588 **based on prior training and review of the**  
589 **summative evaluations of training in the core**  
590 **specialty; and, <sup>(Core)</sup>**  
591  
592 **III.A.1.c).(1).(b) review and approval of the applicant’s**  
593 **exceptional qualifications by the GMEC; and,**  
594 <sup>(Core)</sup>  
595  
596 **III.A.1.c).(1).(c) verification of Educational Commission for**  
597 **Foreign Medical Graduates (ECFMG)**  
598 **certification. <sup>(Core)</sup>**  
599  
600 **III.A.1.c).(2) Applicants accepted through this exception must have**  
601 **an evaluation of their performance by the Clinical**  
602 **Competency Committee within 12 weeks of**  
603 **matriculation. <sup>(Core)</sup>**  
604

<p><b>Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or</b></p>
---

**(c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.**

**III.B. The program director must not appoint more fellows than approved by the Review Committee. <sup>(Core)</sup>**

**III.B.1. All complement increases must be approved by the Review Committee. <sup>(Core)</sup>**

**III.B.2. The number of available fellow positions in the program must be at least one per year. <sup>(Detail)</sup>**

**III.C. Fellow Transfers**

**The program must obtain verification of previous educational experiences and a summative competency-based performance evaluation prior to acceptance of a transferring fellow, and Milestones evaluations upon matriculation. <sup>(Core)</sup>**

**IV. Educational Program**

***The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.***

***The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.***

***In addition, the program is expected to define its specific program aims consistent with the overall mission of its Sponsoring Institution, the needs of the community it serves and that its graduates will serve, and the distinctive capabilities of physicians it intends to graduate. While programs must demonstrate substantial compliance with the Common and subspecialty-specific Program Requirements, it is recognized that within this framework, programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.***

**IV.A. The curriculum must contain the following educational components: <sup>(Core)</sup>**

**IV.A.1. a set of program aims consistent with the Sponsoring Institution's mission, the needs of the community it serves, and the desired distinctive capabilities of its graduates; <sup>(Core)</sup>**

- 647  
648 **IV.A.1.a) The program's aims must be made available to program**  
649 **applicants, fellows, and faculty members.** (Core)  
650  
651 **IV.A.2. competency-based goals and objectives for each educational**  
652 **experience designed to promote progress on a trajectory to**  
653 **autonomous practice in their subspecialty. These must be**  
654 **distributed, reviewed, and available to fellows and faculty members;**  
655 (Core)  
656  
657 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**  
658 **responsibility for patient management, and graded supervision in**  
659 **their subspecialty;** (Core)  
660

**Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.**

- 661  
662 **IV.A.4. structured educational activities beyond direct patient care; and,**  
663 (Core)  
664

**Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.**

- 665  
666 **IV.A.5. advancement of fellows' knowledge of ethical principles**  
667 **foundational to medical professionalism.** (Core)  
668  
669 **IV.B. ACGME Competencies**  
670

**Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.**

- 671  
672 **IV.B.1. The program must integrate the following ACGME Competencies**  
673 **into the curriculum:** (Core)  
674  
675 **IV.B.1.a) Professionalism**  
676

677 Fellows must demonstrate a commitment to professionalism  
678 and an adherence to ethical principles. <sup>(Core)</sup>  
679

680 **IV.B.1.b) Patient Care and Procedural Skills**  
681

**Background and Intent:** Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality*. *Health Affairs*. 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

682  
683 **IV.B.1.b).(1)** **Fellows must be able to provide patient care that is**  
684 **compassionate, appropriate, and effective for the**  
685 **treatment of health problems and the promotion of**  
686 **health.** <sup>(Core)</sup>  
687

688 IV.B.1.b).(1).(a) Fellows must demonstrate competence in the  
689 practice of health promotion, disease prevention,  
690 diagnosis, care, and treatment of patients of each  
691 gender, from adolescence to old age, during health  
692 and all stages of illness; and, <sup>(Core)</sup>  
693

694 IV.B.1.b).(1).(b) Fellows must demonstrate competence in  
695 prevention, evaluation, and management of  
696 patients with:  
697

698 IV.B.1.b).(1).(b).(i) acute lung injury, including radiation,  
699 inhalation, and trauma; <sup>(Core)</sup>  
700

863		
864	IV.B.1.c).(4).(b).(iii)	pulmonary physiology and pathophysiology
865		in systemic diseases; and, (Detail)
866		
867	IV.B.1.c).(4).(b).(iv)	biochemistry and physiology, including cell
868		and molecular biology and immunology, as
869		they relate to pulmonary disease. (Detail)

- 870  
 871 IV.B.1.c).(4).(c) indications, complications, and outcomes of lung  
 872 transplantation; <sup>(Core)</sup>  
 873  
 874 IV.B.1.c).(4).(d) recognition and management of the critically-ill from  
 875 disasters, <sup>(Core)</sup>  
 876  
 877 IV.B.1.c).(4).(d).(i) including those disasters caused by  
 878 chemical and biological agents; <sup>(Detail)</sup>  
 879  
 880 IV.B.1.c).(4).(e) the psychosocial and emotional effects of critical  
 881 illness on patients and their families; and, <sup>(Core)</sup>  
 882  
 883 IV.B.1.c).(4).(f) the ethical, economic and legal aspects of critical  
 884 illness. <sup>(Core)</sup>  
 885

886 **IV.B.1.d) Practice-based Learning and Improvement**

887  
 888 **Fellows must demonstrate the ability to investigate and**  
 889 **evaluate their care of patients, to appraise and assimilate**  
 890 **scientific evidence, and to continuously improve patient care**  
 891 **based on constant self-evaluation and lifelong learning.** <sup>(Core)</sup>  
 892

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

- 893  
 894 **IV.B.1.e) Interpersonal and Communication Skills**  
 895  
 896 **Fellows must demonstrate interpersonal and communication**  
 897 **skills that result in the effective exchange of information and**  
 898 **collaboration with patients, their families, and health**  
 899 **professionals.** <sup>(Core)</sup>  
 900  
 901 **IV.B.1.f) Systems-based Practice**  
 902  
 903 **Fellows must demonstrate an awareness of and**  
 904 **responsiveness to the larger context and system of health**  
 905 **care, including the social determinants of health, as well as**  
 906 **the ability to call effectively on other resources to provide**  
 907 **optimal health care.** <sup>(Core)</sup>  
 908  
 909 **IV.C. Curriculum Organization and Fellow Experiences**  
 910

- 911 **IV.C.1. The curriculum must be structured to optimize fellow educational**  
912 **experiences, the length of these experiences, and supervisory**  
913 **continuity.** <sup>(Core)</sup>  
914
- 915 IV.C.1.a) Assignment of rotations must be structured to minimize the  
916 frequency of rotational transitions, and rotations must be of  
917 sufficient length to provide a quality educational experience,  
918 defined by continuity of patient care, ongoing supervision,  
919 longitudinal relationships with faculty members, and meaningful  
920 assessment and feedback. <sup>(Core)</sup>  
921
- 922 IV.C.1.b) Clinical experiences should be structured to facilitate learning in a  
923 manner that allows fellows to function as part of an effective  
924 interprofessional team that works together towards the shared  
925 goals of patient safety and quality improvement. <sup>(Core)</sup>  
926
- 927 **IV.C.2. The program must provide instruction and experience in pain**  
928 **management if applicable for the subspecialty, including recognition**  
929 **of the signs of addiction.** <sup>(Core)</sup>  
930
- 931 IV.C.3. A minimum of 12 months must be devoted to clinical experience. <sup>(Core)</sup>  
932
- 933 IV.C.3.a) At least three months must be spent in the medical intensive care  
934 unit (MICU). <sup>(Core)</sup>  
935
- 936 IV.C.3.b) At least nine months must be spent in non-critical care pulmonary  
937 disease rotations. <sup>(Core)</sup>  
938
- 939 IV.C.3.c) 18 months of clinical experience is strongly suggested. <sup>(Detail)</sup>  
940
- 941 IV.C.4. Fellows must participate in training using simulation. <sup>(Detail)</sup>  
942
- 943 IV.C.5. Fellows must have clinical experience in the evaluation and management  
944 of patients:  
945
- 946 IV.C.5.a) with genetic and developmental disorders of the respiratory  
947 system, including cystic fibrosis; and, <sup>(Core)</sup>  
948
- 949 IV.C.5.b) in pulmonary rehabilitation. <sup>(Core)</sup>  
950
- 951 IV.C.6. Fellows must have clinical experience in examination and interpretation of  
952 lung tissue for infectious agents, cytology, and histopathology. <sup>(Core)</sup>  
953
- 954 IV.C.7. Fellows must acquire knowledge regarding monitoring and supervising  
955 special services, including: <sup>(Core)</sup>  
956
- 957 IV.C.7.a) respiratory care units; <sup>(Detail)</sup>  
958
- 959 IV.C.7.b) respiratory care techniques and services; and, <sup>(Detail)</sup>  
960
- 961 IV.C.7.c) pulmonary function laboratories including quality control, quality

962		assurance and proficiency standards. (Detail)
963		
964	IV.C.8.	Fellows must be given opportunities to assume continuing responsibility
965		for both acutely- and chronically-ill patients, in order to learn both the
966		natural history of pulmonary disease, and the effectiveness of therapeutic
967		programs. (Core)
968		
969	IV.C.9.	Experience with Continuity Ambulatory Patients
970		
971	IV.C.9.a)	Fellows must have a continuity ambulatory clinic experience that
972		exposes them to the breadth and depth of the subspecialty. (Core)
973		
974	IV.C.9.b)	This experience should average one half-day each week. (Detail)
975		
976	IV.C.9.c)	This experience must include an appropriate distribution of
977		patients of each gender and a diversity of ages. (Core)
978		
979		This should be accomplished through either:
980		
981	IV.C.9.c).(1)	a continuity clinic which provides fellows the opportunity to
982		observe and learn the course of disease; or, (Detail)
983		
984	IV.C.9.c).(2)	selected blocks of at least six months which address
985		specific areas of pulmonary disease. (Detail)
986		
987	IV.C.9.d)	Each fellow should, on average, be responsible for four to eight
988		patients during each half-day session. (Detail)
989		
990	IV.C.9.e)	Up to six months may be exempted from ambulatory experiences
991		during MICU rotations, other time-intensive rotations, or vacation.
992		(Detail)
993		
994	IV.C.9.f)	Fellows should be informed of the status of their continuity
995		patients when such patients are hospitalized, as clinically
996		appropriate. (Detail)
997		
998	IV.C.10.	Procedures and Technical Skills
999		
1000	IV.C.10.a)	Direct supervision of procedures performed by each fellow must
1001		occur until proficiency has been acquired and documented by the
1002		program director. (Core)
1003		
1004	IV.C.10.b)	Faculty members must teach and supervise the fellows in the
1005		performance and interpretation of procedures, which must be
1006		documented in each fellow's record, including indications,
1007		outcomes, diagnoses, and supervisor(s). (Core)
1008		
1009	IV.C.11.	Fellows must have experience in the role of a pulmonary disease
1010		consultant in both the inpatient and outpatient settings. (Core)
1011		
1012	IV.C.12.	The core curriculum must include a didactic program based upon the core

- 1013 knowledge content in the subspecialty area. (Core)
- 1014
- 1015 IV.C.12.a) The program must afford each fellow an opportunity to review
- 1016 topics covered in conferences that he or she was unable to attend.
- 1017 (Detail)
- 1018
- 1019 IV.C.12.b) Fellows must participate in clinical case conferences, journal
- 1020 clubs, research conferences, and morbidity and mortality or quality
- 1021 improvement conferences. (Detail)
- 1022
- 1023 IV.C.12.c) All core conferences must have at least one faculty member
- 1024 present, and must be scheduled as to ensure peer-peer and peer-
- 1025 faculty interaction. (Detail)
- 1026
- 1027 IV.C.13. Patient-based teaching must include direct interaction between fellows
- 1028 and faculty members, bedside teaching, discussion of pathophysiology,
- 1029 and the use of current evidence in diagnostic and therapeutic decisions.
- 1030 (Core)
- 1031
- 1032 The teaching must be:
- 1033
- 1034 IV.C.13.a) formally conducted on all inpatient, outpatient, and consultative
- 1035 services; and, (Detail)
- 1036
- 1037 IV.C.13.b) conducted with a frequency and duration that ensures a
- 1038 meaningful and continuous teaching relationship between the
- 1039 assigned supervising faculty member(s) and fellows. (Detail)
- 1040
- 1041 IV.C.14. Fellows must receive instruction in practice management relevant to
- 1042 pulmonary disease. (Detail)
- 1043
- 1044 **IV.D. Scholarship**
- 1045
- 1046 ***Medicine is both an art and a science. The physician is a humanistic***
- 1047 ***scientist who cares for patients. This requires the ability to think critically,***
- 1048 ***evaluate the literature, appropriately assimilate new knowledge, and***
- 1049 ***practice lifelong learning. The program and faculty must create an***
- 1050 ***environment that fosters the acquisition of such skills through fellow***
- 1051 ***participation in scholarly activities as defined in the subspecialty-specific***
- 1052 ***Program Requirements. Scholarly activities may include discovery,***
- 1053 ***integration, application, and teaching.***
- 1054
- 1055 ***The ACGME recognizes the diversity of fellowships and anticipates that***
- 1056 ***programs prepare physicians for a variety of roles, including clinicians,***
- 1057 ***scientists, and educators. It is expected that the program's scholarship will***
- 1058 ***reflect its mission(s) and aims, and the needs of the community it serves.***
- 1059 ***For example, some programs may concentrate their scholarly activity on***
- 1060 ***quality improvement, population health, and/or teaching, while other***
- 1061 ***programs might choose to utilize more classic forms of biomedical***
- 1062 ***research as the focus for scholarship.***
- 1063

1064	<b>IV.D.1.</b>	<b>Program Responsibilities</b>
1065		
1066	<b>IV.D.1.a)</b>	<b>The program must demonstrate evidence of scholarly activities, consistent with its mission(s) and aims. <sup>(Core)</sup></b>
1067		
1068		
1069	<b>IV.D.1.b)</b>	<b>The program in partnership with its Sponsoring Institution, must allocate adequate resources to facilitate fellow and faculty involvement in scholarly activities. <sup>(Core)</sup></b>
1070		
1071		
1072		
1073	<b>IV.D.2.</b>	<b>Faculty Scholarly Activity</b>
1074		
1075	<b>IV.D.2.a)</b>	<b>Among their scholarly activity, programs must demonstrate accomplishments in at least three of the following domains: <sup>(Core)</sup></b>
1076		
1077		
1078		
1079		<ul style="list-style-type: none"> <li>• <b>Research in basic science, education, translational science, patient care, or population health</b></li> </ul>
1080		<ul style="list-style-type: none"> <li>• <b>Peer-reviewed grants</b></li> </ul>
1081		<ul style="list-style-type: none"> <li>• <b>Quality improvement and/or patient safety initiatives</b></li> </ul>
1082		<ul style="list-style-type: none"> <li>• <b>Systematic reviews, meta-analyses, review articles, chapters in medical textbooks, or case reports</b></li> </ul>
1083		<ul style="list-style-type: none"> <li>• <b>Creation of curricula, evaluation tools, didactic educational activities, or electronic educational materials</b></li> </ul>
1084		<ul style="list-style-type: none"> <li>• <b>Contribution to professional committees, educational organizations, or editorial boards</b></li> </ul>
1085		<ul style="list-style-type: none"> <li>• <b>Innovations in education</b></li> </ul>
1086		
1087		
1088		
1089		
1090		
1091		
1092	<b>IV.D.2.b)</b>	<b>The program must demonstrate dissemination of scholarly activity within and external to the program by the following methods:</b>
1093		
1094		
1095		

**Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.**

1096		
1097	<b>IV.D.2.b).(1)</b>	<b>faculty participation in grand rounds, posters, workshops, quality improvement presentations, podium presentations, grant leadership, non-peer-reviewed print/electronic resources, articles or publications, book chapters, textbooks, webinars, service on professional committees, or serving as a journal reviewer, journal editorial board member, or editor; <sup>(Outcome)‡</sup></b>
1098		
1099		
1100		
1101		
1102		
1103		
1104		

1105  
 1106 IV.D.2.b).(1).(a) At least 50 percent of the core faculty members  
 1107 who are certified in pulmonary disease by the ABIM  
 1108 or AOBIM (see Program Requirements II.B.4.c)-d)  
 1109 must annually engage in a variety of scholarly  
 1110 activities, as listed in Program Requirement  
 1111 IV.D.2.b).(1). (Core)

1112 **IV.D.3. Fellow Scholarly Activity**

1113  
 1114  
 1115 IV.D.3.a) While in the program, at least 50 percent of a program’s fellows  
 1116 must engage in more than one of the following scholarly activities:  
 1117 participation in grand rounds, posters, workshops, quality  
 1118 improvement presentations, podium presentations, grant  
 1119 leadership, non-peer-reviewed print/electronic resources, articles  
 1120 or publications, book chapters, textbooks, webinars, service on  
 1121 professional committees, or serving as a journal reviewer, journal  
 1122 editorial board member, or editor. (Outcome)

1123  
 1124 **V. Evaluation**

1125  
 1126 **V.A. Fellow Evaluation**

1127  
 1128 **V.A.1. Feedback and Evaluation**

**Background and Intent: Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- **fellows identify their strengths and weaknesses and target areas that need work**
- **program directors and faculty members recognize where fellows are struggling and address problems immediately**

**Summative evaluation is *evaluating a fellow’s learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

- 1130  
1131 **V.A.1.a)** Faculty members must directly observe, evaluate, and  
1132 frequently provide feedback on fellow performance during  
1133 each rotation or similar educational assignment. <sup>(Core)</sup>  
1134  
1135 V.A.1.a).(1) The faculty must discuss this evaluation with each fellow at  
1136 the completion of each assignment. <sup>(Core)</sup>  
1137  
1138 V.A.1.a).(2) Assessment of procedural competence should include a  
1139 formal evaluation process and not be based solely on a  
1140 minimum number of procedures performed. <sup>(Detail)</sup>  
1141

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

- 1142  
1143 **V.A.1.b)** Evaluation must be documented at the completion of the  
1144 assignment. <sup>(Core)</sup>  
1145  
1146 **V.A.1.b).(1)** For block rotations of greater than three months in  
1147 duration, evaluation must be documented at least  
1148 every three months. <sup>(Core)</sup>  
1149  
1150 **V.A.1.b).(2)** Longitudinal experiences such as continuity clinic in  
1151 the context of other clinical responsibilities must be  
1152 evaluated at least every three months and at  
1153 completion. <sup>(Core)</sup>  
1154  
1155 **V.A.1.c)** The program must provide an objective performance  
1156 evaluation based on the Competencies and the subspecialty-  
1157 specific Milestones, and must: <sup>(Core)</sup>  
1158  
1159 **V.A.1.c).(1)** use multiple evaluators (e.g., faculty members, peers,  
1160 patients, self, and other professional staff members);  
1161 and, <sup>(Core)</sup>  
1162  
1163 **V.A.1.c).(2)** provide that information to the Clinical Competency  
1164 Committee for its synthesis of progressive fellow  
1165 performance and improvement toward unsupervised  
1166 practice. <sup>(Core)</sup>  
1167

**Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency**

domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

- 1168  
1169 V.A.1.d) The program director or their designee, with input from the  
1170 Clinical Competency Committee, must:  
1171  
1172 V.A.1.d).(1) meet with and review with each fellow their  
1173 documented semi-annual evaluation of performance,  
1174 including progress along the subspecialty-specific  
1175 Milestones. <sup>(Core)</sup>  
1176  
1177 V.A.1.d).(2) assist fellows in developing individualized learning  
1178 plans to capitalize on their strengths and identify areas  
1179 for growth; and, <sup>(Core)</sup>  
1180  
1181 V.A.1.d).(3) develop plans for fellows failing to progress, following  
1182 institutional policies and procedures. <sup>(Core)</sup>  
1183

**Background and Intent:** Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

- 1184  
1185 V.A.1.e) At least annually, there must be a summative evaluation of  
1186 each fellow that includes their readiness to progress to the  
1187 next year of the program, if applicable. <sup>(Core)</sup>  
1188  
1189 V.A.1.f) The evaluations of a fellow's performance must be accessible  
1190 for review by the fellow. <sup>(Core)</sup>  
1191  
1192 V.A.2. Final Evaluation  
1193

1194	<b>V.A.2.a)</b>	<b>The program director must provide a final evaluation for each fellow upon completion of the program. <sup>(Core)</sup></b>
1195		
1196		
1197	<b>V.A.2.a).(1)</b>	<b>The subspecialty-specific Milestones, and when applicable the subspecialty-specific Case Logs, must be used as tools to ensure fellows are able to engage in autonomous practice upon completion of the program. <sup>(Core)</sup></b>

1234		
1235	<b>V.A.3.b).(2)</b>	<b>determine each fellow’s progress on achievement of the subspecialty-specific Milestones; and, <sup>(Core)</sup></b>
1236		
1237		
1238	<b>V.A.3.b).(3)</b>	<b>meet prior to the fellows’ semi-annual evaluations and advise the program director regarding each fellow’s progress. <sup>(Core)</sup></b>
1239		
1240		
1241		
1242	<b>V.B.</b>	<b>Faculty Evaluation</b>
1243		

1244 **V.B.1.** The program must have a process to evaluate each faculty  
1245 member's performance as it relates to the educational program at  
1246 least annually. (Core)  
1247

**Background and Intent:** The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

1248  
1249 **V.B.1.a)** This evaluation must include a review of the faculty member's  
1250 clinical teaching abilities, engagement with the educational  
1251 program, participation in faculty development related to their  
1252 skills as an educator, clinical performance, professionalism,  
1253 and scholarly activities. (Core)  
1254

1255 **V.B.1.b)** This evaluation must include written, confidential evaluations  
1256 by the fellows. (Core)  
1257

1258 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
1259 annually. (Core)  
1260

1261 **V.B.3.** Results of the faculty educational evaluations should be  
1262 incorporated into program-wide faculty development plans. (Core)  
1263

**Background and Intent:** The quality of the faculty's teaching and clinical care is a determinant of the quality of the program and the quality of the fellows' future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

1264  
1265 **V.C.** Program Evaluation and Improvement  
1266

1267 **V.C.1.** The program director must appoint the Program Evaluation  
1268 Committee to conduct and document the Annual Program

- 1269 **Evaluation as part of the program’s continuous improvement**  
 1270 **process.** <sup>(Core)</sup>  
 1271  
 1272 **V.C.1.a)** **The Program Evaluation Committee must be composed of at**  
 1273 **least two program faculty members, at least one of whom is a**  
 1274 **core faculty member, and at least one fellow.** <sup>(Core)</sup>  
 1275  
 1276 **V.C.1.b)** **Program Evaluation Committee responsibilities must include:**  
 1277  
 1278 **V.C.1.b).(1)** **acting as an advisor to the program director, through**  
 1279 **program oversight;** <sup>(Core)</sup>  
 1280  
 1281 **V.C.1.b).(2)** **review of the program’s self-determined goals and**  
 1282 **progress toward meeting them;** <sup>(Core)</sup>  
 1283  
 1284 **V.C.1.b).(3)** **guiding ongoing program improvement, including**  
 1285 **development of new goals, based upon outcomes;**  
 1286 **and,** <sup>(Core)</sup>  
 1287  
 1288 **V.C.1.b).(4)** **review of the current operating environment to identify**  
 1289 **strengths, challenges, opportunities, and threats as**  
 1290 **related to the program’s mission and aims.** <sup>(Core)</sup>  
 1291

**Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.**

- 1292  
 1293 **V.C.1.c)** **The Program Evaluation Committee should consider the**  
 1294 **following elements in its assessment of the program:**  
 1295  
 1296 **V.C.1.c).(1)** **curriculum;** <sup>(Core)</sup>  
 1297  
 1298 **V.C.1.c).(2)** **outcomes from prior Annual Program Evaluation(s);**  
 1299 <sup>(Core)</sup>  
 1300  
 1301 **V.C.1.c).(3)** **ACGME letters of notification, including citations,**  
 1302 **Areas for Improvement, and comments;** <sup>(Core)</sup>  
 1303  
 1304 **V.C.1.c).(4)** **quality and safety of patient care;** <sup>(Core)</sup>  
 1305  
 1306 **V.C.1.c).(5)** **aggregate fellow and faculty:**  
 1307  
 1308 **V.C.1.c).(5).(a)** **well-being;** <sup>(Core)</sup>  
 1309  
 1310 **V.C.1.c).(5).(b)** **recruitment and retention;** <sup>(Core)</sup>  
 1311  
 1312 **V.C.1.c).(5).(c)** **workforce diversity;** <sup>(Core)</sup>  
 1313

1355	<b>V.C.2.a)</b>	<b>A summary of the Self-Study must be submitted to the DIO.</b> <sup>(Core)</sup>
1356		
1357		

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the**

Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

- V.C.3.** *One goal of ACGME-accredited education is to educate physicians who seek and achieve board certification. One measure of the effectiveness of the educational program is the ultimate pass rate.*
- The program director should encourage all eligible program graduates to take the certifying examination offered by the applicable American Board of Medical Specialties (ABMS) member board or American Osteopathic Association (AOA) certifying board.*
- V.C.3.a)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) an annual written exam, in the preceding three years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. *(Outcome)*
- V.C.3.b)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) a biennial written exam, in the preceding six years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. *(Outcome)*
- V.C.3.c)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) an annual oral exam, in the preceding three years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. *(Outcome)*
- V.C.3.d)** For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) a biennial oral exam, in the preceding six years, the program’s aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. *(Outcome)*
- V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program whose graduates over the time period specified in the requirement have achieved an 80 percent pass rate will have met this requirement, no matter the percentile rank of the program for pass rate in that subspecialty. *(Outcome)*

**Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five**

percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

1402  
1403  
1404  
1405  
1406

V.C.3.f) Programs must report, in ADS, board certification status annually for the cohort of board-eligible fellows that graduated seven years earlier. <sup>(Core)</sup>

**Background and Intent:** It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

## VI. The Learning and Working Environment

*Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:*

- *Excellence in the safety and quality of care rendered to patients by fellows today*
- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*
- *Excellence in professionalism through faculty modeling of:*
  - *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*
  - *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more

discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

**VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability**

**VI.A.1. Patient Safety and Quality Improvement**

*All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.*

*Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.*

*It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.*

**VI.A.1.a) Patient Safety**

**VI.A.1.a).(1) Culture of Safety**

1458 ***A culture of safety requires continuous identification***  
1459 ***of vulnerabilities and a willingness to transparently***  
1460 ***deal with them. An effective organization has formal***  
1461 ***mechanisms to assess the knowledge, skills, and***  
1462 ***attitudes of its personnel toward safety in order to***  
1463 ***identify areas for improvement.***

1464  
1465 **VI.A.1.a).(1).(a)** **The program, its faculty, residents, and fellows**  
1466 **must actively participate in patient safety**  
1467 **systems and contribute to a culture of safety.**  
1468 **(Core)**

1469  
1470 **VI.A.1.a).(1).(b)** **The program must have a structure that**  
1471 **promotes safe, interprofessional, team-based**  
1472 **care. (Core)**

1473  
1474 **VI.A.1.a).(2)** **Education on Patient Safety**

1475  
1476 **Programs must provide formal educational activities**  
1477 **that promote patient safety-related goals, tools, and**  
1478 **techniques. (Core)**

1479  
**Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.**

1480  
1481 **VI.A.1.a).(3)** **Patient Safety Events**

1482  
1483 ***Reporting, investigation, and follow-up of adverse***  
1484 ***events, near misses, and unsafe conditions are pivotal***  
1485 ***mechanisms for improving patient safety, and are***  
1486 ***essential for the success of any patient safety***  
1487 ***program. Feedback and experiential learning are***  
1488 ***essential to developing true competence in the ability***  
1489 ***to identify causes and institute sustainable systems-***  
1490 ***based changes to ameliorate patient safety***  
1491 ***vulnerabilities.***

1492

1568 VI.A.2.

## Supervision and Accountability

1569  
1570 VI.A.2.a)

*Although the attending physician is ultimately responsible for the care of the patient, every physician shares in the responsibility and accountability for their efforts in the provision of care. Effective programs, in partnership with their Sponsoring Institutions, define, widely communicate, and monitor a structured chain of responsibility and accountability as it relates to the supervision of all patient care.*

*Supervision in the setting of graduate medical education provides safe and effective care to patients; ensures each fellow's development of the skills, knowledge, and attitudes required to enter the unsupervised practice of medicine; and establishes a foundation for continued professional growth.*

1571  
1572  
1573  
1574  
1575  
1576  
1577  
1578  
1579  
1580  
1581  
1582  
1583  
1584  
1585 VI.A.2.a).(1)

Each patient must have an identifiable and appropriately-credentialed and privileged attending physician (or licensed independent practitioner as specified by the applicable Review Committee) who is responsible and accountable for the patient's care. <sup>(Core)</sup>

1586  
1587  
1588  
1589  
1590  
1591  
1592 VI.A.2.a).(1).(a)

This information must be available to fellows, faculty members, other members of the health care team, and patients. <sup>(Core)</sup>

1593  
1594  
1595  
1596 VI.A.2.a).(1).(b)

Fellows and faculty members must inform each patient of their respective roles in that patient's care when providing direct patient care. <sup>(Core)</sup>

1597  
1598  
1599  
1600 VI.A.2.b)

*Supervision may be exercised through a variety of methods. For many aspects of patient care, the supervising physician may be a more advanced fellow. Other portions of care provided by the fellow can be adequately supervised by the appropriate availability of the supervising faculty member or fellow, either on site or by means of telecommunication technology. Some activities require the physical presence of the supervising faculty member. In some circumstances,*

1608  
1609  
1610

*supervision may include post-hoc review of fellow-delivered care with feedback.*

**Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of fellow patient interactions, education and training locations, and fellow skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a fellow gains more experience, even with the same patient condition or procedure. All fellows have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.**

1645  
1646  
1647  
1648  
1649

- VI.A.2.b).(1)** The program must demonstrate that the appropriate level of supervision in place for all fellows is based on each fellow’s level of training and ability, as well as patient complexity and acuity. Supervision may be exercised through a variety of methods, as appropriate to the situation. <sup>(Core)</sup>
- VI.A.2.b).(2)** The program must define when physical presence of a supervising physician is required. <sup>(Core)</sup>
- VI.A.2.c)** **Levels of Supervision**
- To promote appropriate fellow supervision while providing for graded authority and responsibility, the program must use the following classification of supervision: <sup>(Core)</sup>
- VI.A.2.c).(1)** **Direct Supervision:**
- VI.A.2.c).(1).(a)** the supervising physician is physically present with the fellow during the key portions of the patient interaction; or, <sup>(Core)</sup>
- VI.A.2.c).(1).(b)** the supervising physician and/or patient is not physically present with the fellow and the supervising physician is concurrently monitoring the patient care through appropriate telecommunication technology. <sup>(Core)</sup>
- VI.A.2.c).(2)** **Indirect Supervision:** the supervising physician is not providing physical or concurrent visual or audio supervision but is immediately available to the fellow for guidance and is available to provide appropriate direct supervision. <sup>(Core)</sup>
- VI.A.2.c).(3)** **Oversight –** the supervising physician is available to provide review of procedures/encounters with feedback provided after care is delivered. <sup>(Core)</sup>

- 1650 VI.A.2.d) The privilege of progressive authority and responsibility,  
 1651 conditional independence, and a supervisory role in patient  
 1652 care delegated to each fellow must be assigned by the  
 1653 program director and faculty members. <sup>(Core)</sup>  
 1654
- 1655 VI.A.2.d).(1) The program director must evaluate each fellow's  
 1656 abilities based on specific criteria, guided by the  
 1657 Milestones. <sup>(Core)</sup>  
 1658
- 1659 VI.A.2.d).(2) Faculty members functioning as supervising  
 1660 physicians must delegate portions of care to fellows  
 1661 based on the needs of the patient and the skills of  
 1662 each fellow. <sup>(Core)</sup>  
 1663
- 1664 VI.A.2.d).(3) Fellows should serve in a supervisory role to junior  
 1665 fellows and residents in recognition of their progress  
 1666 toward independence, based on the needs of each  
 1667 patient and the skills of the individual resident or  
 1668 fellow. <sup>(Detail)</sup>  
 1669
- 1670 VI.A.2.e) Programs must set guidelines for circumstances and events  
 1671 in which fellows must communicate with the supervising  
 1672 faculty member(s). <sup>(Core)</sup>  
 1673
- 1674 VI.A.2.e).(1) Each fellow must know the limits of their scope of  
 1675 authority, and the circumstances under which the  
 1676 fellow is permitted to act with conditional  
 1677 independence. <sup>(Outcome)</sup>  
 1678

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

- 1679
- 1680 VI.A.2.f) Faculty supervision assignments must be of sufficient  
 1681 duration to assess the knowledge and skills of each fellow  
 1682 and to delegate to the fellow the appropriate level of patient  
 1683 care authority and responsibility. <sup>(Core)</sup>  
 1684
- 1685 VI.B. Professionalism
- 1686
- 1687 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must  
 1688 educate fellows and faculty members concerning the professional  
 1689 responsibilities of physicians, including their obligation to be  
 1690 appropriately rested and fit to provide the care required by their  
 1691 patients. <sup>(Core)</sup>  
 1692
- 1693 VI.B.2. The learning objectives of the program must:
- 1694
- 1695 VI.B.2.a) be accomplished through an appropriate blend of supervised  
 1696 patient care responsibilities, clinical teaching, and didactic  
 1697 educational events; <sup>(Core)</sup>

1698  
1699  
1700  
1701

**VI.B.2.b) be accomplished without excessive reliance on fellows to fulfill non-physician obligations; and, <sup>(Core)</sup>**

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.**

1702  
1703  
1704

**VI.B.2.c) ensure manageable patient care responsibilities. <sup>(Core)</sup>**

**Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.**

1705  
1706  
1707  
1708  
1709

**VI.B.3. The program director, in partnership with the Sponsoring Institution, must provide a culture of professionalism that supports patient safety and personal responsibility. <sup>(Core)</sup>**

1710  
1711  
1712

**VI.B.4. Fellows and faculty members must demonstrate an understanding of their personal role in the:**

1713  
1714

**VI.B.4.a) provision of patient- and family-centered care; <sup>(Outcome)</sup>**

1715  
1716  
1717  
1718

**VI.B.4.b) safety and welfare of patients entrusted to their care, including the ability to report unsafe conditions and adverse events; <sup>(Outcome)</sup>**

**Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.**

1719  
1720  
1721

**VI.B.4.c) assurance of their fitness for work, including: <sup>(Outcome)</sup>**

**Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.**

1722		
1723	VI.B.4.c).(1)	management of their time before, during, and after clinical assignments; and, (Outcome)
1724		
1725		
1726	VI.B.4.c).(2)	recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)
1727		
1728		
1729		
1730	VI.B.4.d)	commitment to lifelong learning; (Outcome)
1731		
1732	VI.B.4.e)	monitoring of their patient care performance improvement indicators; and, (Outcome)
1733		
1734		
1735	VI.B.4.f)	accurate reporting of clinical and educational work hours, patient outcomes, and clinical experience data. (Outcome)
1736		
1737		
1738	VI.B.5.	All fellows and faculty members must demonstrate responsiveness to patient needs that supersedes self-interest. This includes the recognition that under certain circumstances, the best interests of the patient may be served by transitioning that patient's care to another qualified and rested provider. (Outcome)
1739		
1740		
1741		
1742		
1743		
1744	VI.B.6.	Programs, in partnership with their Sponsoring Institutions, must provide a professional, equitable, respectful, and civil environment that is free from discrimination, sexual and other forms of harassment, mistreatment, abuse, or coercion of students, fellows, faculty, and staff. (Core)
1745		
1746		
1747		
1748		
1749		
1750	VI.B.7.	Programs, in partnership with their Sponsoring Institutions, should have a process for education of fellows and faculty regarding unprofessional behavior and a confidential process for reporting, investigating, and addressing such concerns. (Core)
1751		
1752		
1753		
1754		
1755	VI.C.	Well-Being
1756		
1757		<i>Psychological, emotional, and physical well-being are critical in the development of the competent, caring, and resilient physician and require proactive attention to life inside and outside of medicine. Well-being requires that physicians retain the joy in medicine while managing their own real-life stresses. Self-care and responsibility to support other members of the health care team are important components of professionalism; they are also skills that must be modeled, learned, and nurtured in the context of other aspects of fellowship training.</i>

1774  
1775  
1776

*clinical learning environment models constructive behaviors, and prepares fellows with the skills and attitudes needed to thrive throughout their careers.*

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website: [www.acgme.org/physicianwellbeing](http://www.acgme.org/physicianwellbeing).

The ACGME also created a repository for well-being materials, assessments, presentations, and more on the [Well-Being Tools and Resources page](#) in Learn at ACGME for programs seeking to develop or strengthen their own well-being initiatives. There are many activities that programs can implement now to assess and support physician well-being. These include the distribution and analysis of culture of safety surveys, ensuring the availability of counseling services, and paying attention to the safety of the entire health care team.

1777  
1778  
1779  
1780  
1781  
1782

1785  
1786  
1787  
1788  
1789  
1790  
1791  
1792  
1793

- VI.C.1.** The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:
- VI.C.1.a)** efforts to enhance the meaning that each fellow finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; <sup>(Core)</sup>
- VI.C.1.b)** attention to scheduling, work intensity, and work compression that impacts fellow well-being; <sup>(Core)</sup>
- VI.C.1.c)** evaluating workplace safety data and addressing the safety of fellows and faculty members; <sup>(Core)</sup>

**Background and Intent:** This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1794  
1795  
1796  
1797

- VI.C.1.d)** policies and programs that encourage optimal fellow and faculty member well-being; and, <sup>(Core)</sup>

**Background and Intent:** Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1798  
1799 **VI.C.1.d).(1)** **Fellows must be given the opportunity to attend**  
1800 **medical, mental health, and dental care appointments,**  
1801 **including those scheduled during their working hours.**  
1802 **(Core)**  
1803

**Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.**

1804  
1805 **VI.C.1.e)** **attention to fellow and faculty member burnout, depression,**  
1806 **and substance use disorder. The program, in partnership with**  
1807 **its Sponsoring Institution, must educate faculty members and**  
1808 **fellows in identification of the symptoms of burnout,**  
1809 **depression, and substance use disorder, including means to**  
1810 **assist those who experience these conditions. Fellows and**  
1811 **faculty members must also be educated to recognize those**  
1812 **symptoms in themselves and how to seek appropriate care.**  
1813 **The program, in partnership with its Sponsoring Institution,**  
1814 **must: (Core)**  
1815

**Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorder. Materials and more information are available in Learn at ACGME (<https://dl.acgme.org/pages/well-being-tools-resources>).**

1816  
1817 **VI.C.1.e).(1)** **encourage fellows and faculty members to alert the**  
1818 **program director or other designated personnel or**  
1819 **programs when they are concerned that another**  
1820 **fellow, resident, or faculty member may be displaying**  
1821 **signs of burnout, depression, a substance use**  
1822 **disorder, suicidal ideation, or potential for violence;**  
1823 **(Core)**  
1824

**Background and Intent: Individuals experiencing burnout, depression, substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.**

- 1825  
1826 **VI.C.1.e).(2)** provide access to appropriate tools for self-screening;  
1827 and, <sup>(Core)</sup>  
1828  
1829 **VI.C.1.e).(3)** provide access to confidential, affordable mental  
1830 health assessment, counseling, and treatment,  
1831 including access to urgent and emergent care 24  
1832 hours a day, seven days a week. <sup>(Core)</sup>  
1833

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

- 1834  
1835 **VI.C.2.** There are circumstances in which fellows may be unable to attend  
1836 work, including but not limited to fatigue, illness, family  
1837 emergencies, and parental leave. Each program must allow an  
1838 appropriate length of absence for fellows unable to perform their  
1839 patient care responsibilities. <sup>(Core)</sup>  
1840  
1841 **VI.C.2.a)** The program must have policies and procedures in place to  
1842 ensure coverage of patient care. <sup>(Core)</sup>  
1843  
1844 **VI.C.2.b)** These policies must be implemented without fear of negative  
1845 consequences for the fellow who is or was unable to provide  
1846 the clinical work. <sup>(Core)</sup>  
1847

**Background and Intent:** Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

- 1848  
1849 **VI.D. Fatigue Mitigation**  
1850  
1851 **VI.D.1. Programs must:**  
1852  
1853 **VI.D.1.a)** educate all faculty members and fellows to recognize the  
1854 signs of fatigue and sleep deprivation; <sup>(Core)</sup>  
1855  
1856 **VI.D.1.b)** educate all faculty members and fellows in alertness  
1857 management and fatigue mitigation processes; and, <sup>(Core)</sup>  
1858  
1859 **VI.D.1.c)** encourage fellows to use fatigue mitigation processes to  
1860 manage the potential negative effects of fatigue on patient  
1861 care and learning. <sup>(Detail)</sup>

1862

**Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.**

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.**

1863

1864

**VI.D.2. Each program must ensure continuity of patient care, consistent with the program’s policies and procedures referenced in VI.C.2–VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue. (Core)**

1875

**VI.E.1. Clinical Responsibilities**

1876

1877

**The clinical responsibilities for each fellow must be based on PGY level, patient safety, fellow ability, severity and complexity of patient illness/condition, and available support services. (Core)**

1878

1879

1880

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.**

1881

1882

**VI.E.2. Teamwork**

1883

1884

**Fellows must care for patients in an environment that maximizes communication. This must include the opportunity to work as a member of effective interprofessional teams that are appropriate to the delivery of care in the subspecialty and larger health system.**

- 1915 **VI.F. Clinical Experience and Education**
- 1916
- 1917 *Programs, in partnership with their Sponsoring Institutions, must design*
- 1918 *an effective program structure that is configured to provide fellows with*
- 1919 *educational and clinical experience opportunities, as well as reasonable*
- 1920 *opportunities for rest and personal activities.*
- 1921

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

- 1922
- 1923 **VI.F.1. Maximum Hours of Clinical and Educational Work per Week**
- 1924
- 1925 **Clinical and educational work hours must be limited to no more than**
- 1926 **80 hours per week, averaged over a four-week period, inclusive of all**
- 1927 **in-house clinical and educational activities, clinical work done from**
- 1928 **home, and all moonlighting.** <sup>(Core)</sup>
- 1929

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work

periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

### ***Scheduling***

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

### ***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

### ***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding

whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

**VI.F.2. Mandatory Time Free of Clinical Work and Education**

**VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>**

**VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>**

**VI.F.2.b).(1) There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. <sup>(Detail)</sup>**

**Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.**

1948  
1949  
1950  
1951

**VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. <sup>(Core)</sup>**

**Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.**

1952  
1953  
1954  
1955  
1956  
1957

**VI.F.2.d) Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. <sup>(Core)</sup>**

**Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended**

that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

1959	<b>VI.F.3.</b>	<b>Maximum Clinical Work and Education Period Length</b>
1960		
1961	<b>VI.F.3.a)</b>	<b>Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments.</b> <small>(Core)</small>
1962		
1963		
1964		
1965	<b>VI.F.3.a).(1)</b>	<b>Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education.</b> <small>(Core)</small>
1966		
1967		
1968		
1969		
1970	<b>VI.F.3.a).(1).(a)</b>	<b>Additional patient care responsibilities must not be assigned to a fellow during this time.</b> <small>(Core)</small>
1971		
1972		

**Background and Intent:** The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

1973		
1974	<b>VI.F.4.</b>	<b>Clinical and Educational Work Hour Exceptions</b>
1975		
1976	<b>VI.F.4.a)</b>	<b>In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:</b>
1977		
1978		
1979		
1980		
1981	<b>VI.F.4.a).(1)</b>	<b>to continue to provide care to a single severely ill or unstable patient;</b> <small>(Detail)</small>
1982		
1983		
1984	<b>VI.F.4.a).(2)</b>	<b>humanistic attention to the needs of a patient or family; or,</b> <small>(Detail)</small>
1985		
1986		
1987	<b>VI.F.4.a).(3)</b>	<b>to attend unique educational events.</b> <small>(Detail)</small>
1988		

1989 VI.F.4.b) These additional hours of care or education will be counted  
1990 toward the 80-hour weekly limit. <sup>(Detail)</sup>  
1991

**Background and Intent:** This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

1992  
1993 VI.F.4.c) A Review Committee may grant rotation-specific exceptions  
1994 for up to 10 percent or a maximum of 88 clinical and  
1995 educational work hours to individual programs based on a  
1996 sound educational rationale.  
1997  
1998 The Review Committee for Internal Medicine will not consider  
1999 requests for exceptions to the 80-hour limit to the fellows' work  
2000 week.  
2001

2002 VI.F.5. Moonlighting

2003  
2004 VI.F.5.a) Moonlighting must not interfere with the ability of the fellow  
2005 to achieve the goals and objectives of the educational  
2006 program, and must not interfere with the fellow's fitness for  
2007 work nor compromise patient safety. <sup>(Core)</sup>  
2008

2009 VI.F.5.b) Time spent by fellows in internal and external moonlighting  
2010 (as defined in the ACGME Glossary of Terms) must be  
2011 counted toward the 80-hour maximum weekly limit. <sup>(Core)</sup>  
2012

**Background and Intent:** For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

2013  
2014 VI.F.6. In-House Night Float

2015  
2016 Night float must occur within the context of the 80-hour and one-  
2017 day-off-in-seven requirements. <sup>(Core)</sup>  
2018

**Background and Intent:** The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

2019  
2020 VI.F.7. Maximum In-House On-Call Frequency

2021  
2022 Fellows must be scheduled for in-house call no more frequently than  
2023 every third night (when averaged over a four-week period). <sup>(Core)</sup>  
2024

2025 VI.F.7.a) Internal Medicine fellowships must not average in-house call over  
2026 a four-week period. <sup>(Core)</sup>

2027  
2028 **VI.F.8. At-Home Call**

2029  
2030 **VI.F.8.a) Time spent on patient care activities by fellows on at-home**  
2031 **call must count toward the 80-hour maximum weekly limit.**  
2032 **The frequency of at-home call is not subject to the every-**  
2033 **third-night limitation, but must satisfy the requirement for one**  
2034 **day in seven free of clinical work and education, when**  
2035 **averaged over four weeks.** <sup>(Core)</sup>

2036  
2037 **VI.F.8.a).(1) At-home call must not be so frequent or taxing as to**  
2038 **preclude rest or reasonable personal time for each**  
2039 **fellow.** <sup>(Core)</sup>

2040  
2041 **VI.F.8.b) Fellows are permitted to return to the hospital while on at-**  
2042 **home call to provide direct care for new or established**  
2043 **patients. These hours of inpatient patient care must be**  
2044 **included in the 80-hour maximum weekly limit.** <sup>(Detail)</sup>

2045

**Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.**

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**

2046  
2047 \*\*\*

2048  
2049 **\*Core Requirements:** Statements that define structure, resource, or process elements  
2050 essential to every graduate medical educational program.

2051  
2052 **†Detail Requirements:** Statements that describe a specific structure, resource, or process, for  
2053 achieving compliance with a Core Requirement. Programs and sponsoring institutions in  
2054 substantial compliance with the Outcome Requirements may utilize alternative or innovative  
2055 approaches to meet Core Requirements.

2056  
2057 **‡Outcome Requirements:** Statements that specify expected measurable or observable  
2058 attributes (knowledge, abilities, skills, or attitudes) of residents or fellows at key stages of their  
2059 graduate medical education.

2060  
2061 **Osteopathic Recognition**  
2062 For programs with or applying for Osteopathic Recognition, the Osteopathic Recognition  
2063 Requirements also apply ([www.acgme.org/OsteopathicRecognition](http://www.acgme.org/OsteopathicRecognition)).
