1                    **ACGME Program Requirements for Graduate Medical Education**  
2                    **in Interventional Cardiology**

3  
4                    **Common Program Requirements (One-Year Fellowship) are in BOLD**

5  
6                    Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7                    section. These philosophic statements are not program requirements and are therefore not  
8                    citable.  
9

**Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (One-Year Fellowship) are intended to explain the differences.**

10  
11                    **Introduction**

12  
13                    **Int.A.                    *Fellowship is advanced graduate medical education beyond a core***  
14                    ***residency program for physicians who desire to enter more specialized***  
15                    ***practice. Fellowship-trained physicians serve the public by providing***  
16                    ***subspecialty care, which may also include core medical care, acting as a***  
17                    ***community resource for expertise in their field, creating and integrating***  
18                    ***new knowledge into practice, and educating future generations of***  
19                    ***physicians. Graduate medical education values the strength that a diverse***  
20                    ***group of physicians brings to medical care.***

21  
22                    ***Fellows who have completed residency are able to practice independently***  
23                    ***in their core specialty. The prior medical experience and expertise of***  
24                    ***fellows distinguish them from physicians entering into residency training.***  
25                    ***The fellow’s care of patients within the subspecialty is undertaken with***  
26                    ***appropriate faculty supervision and conditional independence. Faculty***  
27                    ***members serve as role models of excellence, compassion,***  
28                    ***professionalism, and scholarship. The fellow develops deep medical***  
29                    ***knowledge, patient care skills, and expertise applicable to their focused***  
30                    ***area of practice. Fellowship is an intensive program of subspecialty clinical***  
31                    ***and didactic education that focuses on the multidisciplinary care of***  
32                    ***patients. Fellowship education is often physically, emotionally, and***  
33                    ***intellectually demanding, and occurs in a variety of clinical learning***  
34                    ***environments committed to graduate medical education and the well-being***  
35                    ***of patients, residents, fellows, faculty members, students, and all members***  
36                    ***of the health care team.***

37  
38                    ***In addition to clinical education, many fellowship programs advance***  
39                    ***fellows’ skills as physician-scientists. While the ability to create new***  
40                    ***knowledge within medicine is not exclusive to fellowship-educated***  
41                    ***physicians, the fellowship experience expands a physician’s abilities to***  
42                    ***pursue hypothesis-driven scientific inquiry that results in contributions to***  
43                    ***the medical literature and patient care. Beyond the clinical subspecialty***  
44                    ***expertise achieved, fellows develop mentored relationships built on an***  
45                    ***infrastructure that promotes collaborative research.***

46  
47                    **Int.B.                    Definition of Subspecialty**

48 Interventional cardiology is the practice of techniques that improve coronary  
49 circulation, alleviate valvular stenosis and regurgitation, and treat other structural  
50 heart disease.

51  
52 **Int.C. Length of Educational Program**

53  
54 The educational program in interventional cardiology must be 12 months in  
55 length. <sup>(Core)\*</sup>

56  
57 **I. Oversight**

58  
59 **I.A. Sponsoring Institution**

60  
61 *The Sponsoring Institution is the organization or entity that assumes the*  
62 *ultimate financial and academic responsibility for a program of graduate*  
63 *medical education consistent with the ACGME Institutional Requirements.*

64  
65 *When the Sponsoring Institution is not a rotation site for the program, the*  
66 *most commonly utilized site of clinical activity for the program is the*  
67 *primary clinical site.*

68  

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, a federally qualified health center, a surgery center, an academic and private single-specialty clinic, or an educational foundation.**

69  
70 **I.A.1. The program must be sponsored by one ACGME-accredited**  
71 **Sponsoring Institution.** <sup>(Core)</sup>

72  
73 **I.B. Participating Sites**

74  
75 *A participating site is an organization providing educational experiences or*  
76 *educational assignments/rotations for fellows.*

77  
78 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
79 **designate a primary clinical site.** <sup>(Core)</sup>

80  
81 **I.B.1.a)** An interventional cardiology fellowship program must function as  
82 an integral part of an ACGME-accredited fellowship program in  
83 cardiovascular disease. <sup>(Core)</sup>

84  
85 **I.B.1.b)** The Sponsoring Institution must ensure that there is a reporting  
86 relationship with the program director of the cardiovascular  
87 disease program to ensure compliance with ACGME accreditation  
88 requirements. <sup>(Core)</sup>

- 89
- 90 **I.B.2.** There must be a program letter of agreement (PLA) between the
- 91 program and each participating site that governs the relationship
- 92 between the program and the participating site providing a required
- 93 assignment. <sup>(Core)</sup>
- 94
- 95 **I.B.2.a)** The PLA must:
- 96
- 97 **I.B.2.a).(1)** be renewed at least every 10 years; and, <sup>(Core)</sup>
- 98
- 99 **I.B.2.a).(2)** be approved by the designated institutional official
- 100 (DIO). <sup>(Core)</sup>
- 101
- 102 **I.B.3.** The program must monitor the clinical learning and working
- 103 environment at all participating sites. <sup>(Core)</sup>
- 104
- 105 **I.B.3.a)** At each participating site there must be one faculty member,
- 106 designated by the program director, who is accountable for
- 107 fellow education for that site, in collaboration with the
- 108 program director. <sup>(Core)</sup>
- 109

**Background and Intent:** While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director’s Guide to the Common Program Requirements. These include:**

- Identifying the faculty members who will assume educational and supervisory responsibility for fellows
- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

- 110
- 111 **I.B.4.** The program director must submit any additions or deletions of
- 112 participating sites routinely providing an educational experience,
- 113 required for all fellows, of one month full time equivalent (FTE) or
- 114 more through the ACGME’s Accreditation Data System (ADS). <sup>(Core)</sup>
- 115
- 116 **I.C.** The program, in partnership with its Sponsoring Institution, must engage in
- 117 practices that focus on mission-driven, ongoing, systematic recruitment
- 118 and retention of a diverse and inclusive workforce of residents (if present),

119  
120  
121

**fellows, faculty members, senior administrative staff members, and other relevant members of its academic community.** <sup>(Core)</sup>

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

122  
123

158  
159  
160  
161  
162  
163

**I.D. Resources**

**I.D.1. The program, in partnership with its Sponsoring Institution, must ensure the availability of adequate resources for fellow education.**  
<sup>(Core)</sup>

I.D.1.a) Space and Equipment

There must be space and equipment for the program, including meeting rooms, examination rooms, computers, visual and other educational aids, and work/study space. <sup>(Core)</sup>

I.D.1.b) Facilities

I.D.1.b).(1) Inpatient and outpatient systems must be in place to prevent fellows from performing routine clerical functions, such as scheduling tests and appointments, and retrieving records and letters. <sup>(Detail)†</sup>

I.D.1.b).(2) The Sponsoring Institution must provide the broad range of facilities and clinical support services required to provide comprehensive care of adult patients. <sup>(Core)</sup>

I.D.1.b).(3) Fellows must have access to a lounge facility during assigned duty hours. <sup>(Detail)</sup>

I.D.1.b).(4) When fellows are in the hospital, assigned night duty, or called in from home, they must be provided with a secure space for their belongings. <sup>(Detail)</sup>

I.D.1.c) Laboratory Services

Each of the following must be present at the primary clinical site:

I.D.1.c).(1) cardiac catheterization laboratories, each equipped with cardiac fluoroscopic equipment, digital imaging, recording devices, a full complement of interventional devices, and resuscitative equipment; and, <sup>(Core)</sup>

I.D.1.c).(1).(a) The primary laboratory must perform a minimum of 400 interventional procedures per year, and each

164 secondary laboratory must perform a minimum of  
165 200 interventional procedures per year. (Core)

166  
167 I.D.1.c).(2) cardiac radionuclide laboratories. (Detail)

168  
169 I.D.1.d) Other Support Services

170  
171 The following must be present at the primary clinical site:

172  
173 I.D.1.d).(1) an active cardiac surgery program; (Core)

174  
175 I.D.1.d).(2) a cardiac surgery intensive care unit; and, (Core)

176  
177 I.D.1.d).(3) a cardiac intensive care unit. (Core)

178  
179 I.D.1.e) Medical Records

180  
181 Access to an electronic health record should be provided. In the  
182 absence of an existing electronic health record, institutions must  
183 demonstrate institutional commitment to its development and  
184 progress toward its implementation. (Core)

185  
186 **I.D.2. The program, in partnership with its Sponsoring Institution, must**  
187 **ensure healthy and safe learning and working environments that**  
188 **promote fellow well-being and provide for:** (Core)

189  
190 **I.D.2.a) access to food while on duty;** (Core)

191  
192 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**  
193 **and accessible for fellows with proximity appropriate for safe**  
194 **patient care, if the fellows are assigned in-house call;** (Core)

195  
**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.**

196  
197 **I.D.2.c) clean and private facilities for lactation that have refrigeration**  
198 **capabilities, with proximity appropriate for safe patient care;**  
199 (Core)

200  
**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for**

**lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).**

- 201  
202 **I.D.2.d)** security and safety measures appropriate to the participating  
203 site; and, <sup>(Core)</sup>  
204  
205 **I.D.2.e)** accommodations for fellows with disabilities consistent with  
206 the Sponsoring Institution's policy. <sup>(Core)</sup>  
207  
208 **I.D.3.** Fellows must have ready access to subspecialty-specific and other  
209 appropriate reference material in print or electronic format. This  
210 must include access to electronic medical literature databases with  
211 full text capabilities. <sup>(Core)</sup>  
212  
213 **I.D.4.** The program's educational and clinical resources must be adequate  
214 to support the number of fellows appointed to the program. <sup>(Core)</sup>  
215  
216 **I.D.4.a)** Patient Population  
217  
218 **I.D.4.a).(1)** The patient population must have a variety of clinical  
219 problems and stages of diseases. <sup>(Core)</sup>  
220  
221 **I.D.4.a).(2)** There must be patients of each gender, with a broad age  
222 range, including geriatric patients. <sup>(Core)</sup>  
223  
224 **I.D.4.a).(3)** A sufficient number of patients must be available to enable  
225 each fellow to achieve the required educational outcomes.  
226 <sup>(Core)</sup>  
227  
228 **I.E.** *A fellowship program usually occurs in the context of many learners and*  
229 *other care providers and limited clinical resources. It should be structured*  
230 *to optimize education for all learners present.*  
231  
232 **I.E.1.** Fellows should contribute to the education of residents in core  
233 programs, if present. <sup>(Core)</sup>  
234

**Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.**

- 235  
236 **II. Personnel**  
237  
238 **II.A. Program Director**  
239  
240 **II.A.1.** There must be one faculty member appointed as program director  
241 with authority and accountability for the overall program, including  
242 compliance with all applicable program requirements. <sup>(Core)</sup>

243  
244 **II.A.1.a)** **The Sponsoring Institution’s Graduate Medical Education**  
245 **Committee (GMEC) must approve a change in program**  
246 **director.** <sup>(Core)</sup>

247  
248 **II.A.1.b)** **Final approval of the program director resides with the**  
249 **Review Committee.** <sup>(Core)</sup>  
250

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and have overall responsibility for the program. The program director’s nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.**

251  
252 **II.A.2.** **The program director and, as applicable, the program’s leadership**  
253 **team, must be provided with support adequate for administration of**  
254 **the program based upon its size and configuration.** <sup>(Core)</sup>

255  
256 **II.A.2.a)** ~~At a minimum, the program director must be provided with the~~  
257 ~~salary support required to devote 20-50 percent FTE of non-~~  
258 ~~clinical time to the administration of the program.~~ <sup>(Core)</sup>

259  
260 At a minimum, the program director must be provided with the  
261 dedicated time and support specified below for administration of  
262 the program: <sup>(Core)</sup>  
263

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>.2</u>
<u>7-9</u>	<u>.25</u>
<u>10-12</u>	<u>.3</u>

264  
265 **II.A.2.b)** Programs must appoint at least one of the subspecialty-certified  
266 core faculty members to be associate program director(s). The  
267 associate program directors(s) must be provided with support  
268 equal to a dedicated minimum time for administration of the  
269 program as follows: <sup>(Core)</sup>  
270

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>&lt;7</u>	<u>0</u>
<u>7-9</u>	<u>.13</u>
<u>10-12</u>	<u>.14</u>

271  
**Background and Intent: To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.**

The ultimate outcome of graduate medical education is excellence in fellow education and patient care.

The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.

Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.

272

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 30 percent FTE support for the Program Director and at least 14 percent FTE support for the associate program director(s). Because an associate program director is also a core faculty member, the minimum dedicated time requirements for associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE. Further, the Review Committee allows the minimum required FTE support to be shared among multiple associate program directors, as delegated by and at the discretion of the program director.

273

274

**II.A.3. Qualifications of the program director:**

275

276

**II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; and, <sup>(Core)</sup>**

277

278

279

II.A.3.a).(1) The program director must have administrative experience and at least three years of participation as an active faculty member in an ACGME-accredited internal medicine cardiovascular disease fellowship or interventional cardiology fellowship. <sup>(Core)</sup>

280

281

282

283

284

285

**II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Internal Medicine (ABIM) or by the American Osteopathic Board of Internal Medicine (AOBIM), or subspecialty qualifications that are acceptable to the Review Committee. <sup>(Core)</sup>**

286

287

288

289

290

291

292

II.A.3.b).(1) The Review Committee only accepts current ABIM or AOBIM certification in interventional cardiology. <sup>(Core)</sup>

293

294

295

**II.A.4. Program Director Responsibilities**

296  
297 The program director must have responsibility, authority, and  
298 accountability for: administration and operations; teaching and  
299 scholarly activity; fellow recruitment and selection, evaluation, and  
300 promotion of fellows, and disciplinary action; supervision of fellows;  
301 and fellow education in the context of patient care. <sup>(Core)</sup>  
302

303 **II.A.4.a)** The program director must:

304  
305 **II.A.4.a).(1)** be a role model of professionalism; <sup>(Core)</sup>  
306

**Background and Intent:** The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

307  
308 **II.A.4.a).(2)** design and conduct the program in a fashion  
309 consistent with the needs of the community, the  
310 mission(s) of the Sponsoring Institution, and the  
311 mission(s) of the program; <sup>(Core)</sup>  
312

**Background and Intent:** The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

313  
314 **II.A.4.a).(3)** administer and maintain a learning environment  
315 conducive to educating the fellows in each of the  
316 ACGME Competency domains; <sup>(Core)</sup>  
317

**Background and Intent:** The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

318  
319 **II.A.4.a).(4)** develop and oversee a process to evaluate candidates  
320 prior to approval as program faculty members for  
321 participation in the fellowship program education and  
322 at least annually thereafter, as outlined in V.B.; <sup>(Core)</sup>  
323

324 **II.A.4.a).(5)** have the authority to approve program faculty  
325 members for participation in the fellowship program  
326 education at all sites; <sup>(Core)</sup>

- 327  
328 **II.A.4.a).(6)** have the authority to remove program faculty  
329 members from participation in the fellowship program  
330 education at all sites; <sup>(Core)</sup>  
331  
332 **II.A.4.a).(7)** have the authority to remove fellows from supervising  
333 interactions and/or learning environments that do not  
334 meet the standards of the program; <sup>(Core)</sup>  
335

**Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.**

**There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.**

- 336  
337 **II.A.4.a).(8)** submit accurate and complete information required  
338 and requested by the DIO, GMEC, and ACGME; <sup>(Core)</sup>  
339  
340 **II.A.4.a).(9)** provide applicants who are offered an interview with  
341 information related to the applicant's eligibility for the  
342 relevant subspecialty board examination(s); <sup>(Core)</sup>  
343  
344 **II.A.4.a).(10)** provide a learning and working environment in which  
345 fellows have the opportunity to raise concerns and  
346 provide feedback in a confidential manner as  
347 appropriate, without fear of intimidation or retaliation;  
348 <sup>(Core)</sup>  
349  
350 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring  
351 Institution's policies and procedures related to  
352 grievances and due process; <sup>(Core)</sup>  
353  
354 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring  
355 Institution's policies and procedures for due process  
356 when action is taken to suspend or dismiss, not to  
357 promote, or not to renew the appointment of a fellow;  
358 <sup>(Core)</sup>  
359

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.**

- 360  
361 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring  
362 Institution's policies and procedures on employment  
363 and non-discrimination; <sup>(Core)</sup>  
364

- 365 II.A.4.a).(13).(a) Fellows must not be required to sign a non-  
366 competition guarantee or restrictive covenant.  
367 (Core)  
368  
369 II.A.4.a).(14) document verification of program completion for all  
370 graduating fellows within 30 days; (Core)  
371  
372 II.A.4.a).(15) provide verification of an individual fellow's  
373 completion upon the fellow's request, within 30 days;  
374 and, (Core)  
375

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

- 376  
377 II.A.4.a).(16) obtain review and approval of the Sponsoring  
378 Institution's DIO before submitting information or  
379 requests to the ACGME, as required in the Institutional  
380 Requirements and outlined in the ACGME Program  
381 Director's Guide to the Common Program  
382 Requirements. (Core)  
383

384 **II.B. Faculty**

385  
386 *Faculty members are a foundational element of graduate medical education*  
387 *– faculty members teach fellows how to care for patients. Faculty members*  
388 *provide an important bridge allowing fellows to grow and become practice*  
389 *ready, ensuring that patients receive the highest quality of care. They are*  
390 *role models for future generations of physicians by demonstrating*  
391 *compassion, commitment to excellence in teaching and patient care,*  
392 *professionalism, and a dedication to lifelong learning. Faculty members*  
393 *experience the pride and joy of fostering the growth and development of*  
394 *future colleagues. The care they provide is enhanced by the opportunity to*  
395 *teach. By employing a scholarly approach to patient care, faculty members,*  
396 *through the graduate medical education system, improve the health of the*  
397 *individual and the population.*

398  
399 *Faculty members ensure that patients receive the level of care expected*  
400 *from a specialist in the field. They recognize and respond to the needs of*  
401 *the patients, fellows, community, and institution. Faculty members provide*  
402 *appropriate levels of supervision to promote patient safety. Faculty*  
403 *members create an effective learning environment by acting in a*  
404 *professional manner and attending to the well-being of the fellows and*  
405 *themselves.*  
406

**Background and Intent: "Faculty" refers to the entire teaching force responsible for educating fellows. The term "faculty," including "core faculty," does not imply or require an academic appointment.**

407  
408 **II.B.1.** **For each participating site, there must be a sufficient number of**  
409 **faculty members with competence to instruct and supervise all**  
410 **fellows at that location.** <sup>(Core)</sup>  
411

412 **II.B.1.a)** Access to faculty members with expertise in congenital heart  
413 disease in adults, hematology, pharmacology, radiation safety,  
414 and research is suggested. <sup>(Detail)</sup>  
415

416 **II.B.2.** **Faculty members must:**  
417

418 **II.B.2.a)** **be role models of professionalism;** <sup>(Core)</sup>  
419

420 **II.B.2.b)** **demonstrate commitment to the delivery of safe, quality,**  
421 **cost-effective, patient-centered care;** <sup>(Core)</sup>  
422

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

423  
424 **II.B.2.c)** **demonstrate a strong interest in the education of fellows;** <sup>(Core)</sup>  
425

426 **II.B.2.d)** **devote sufficient time to the educational program to fulfill**  
427 **their supervisory and teaching responsibilities;** <sup>(Core)</sup>  
428

429 **II.B.2.e)** **administer and maintain an educational environment**  
430 **conducive to educating fellows;** <sup>(Core)</sup>  
431

432 **II.B.2.f)** **pursue faculty development designed to enhance their skills;**  
433 **and,** <sup>(Core)</sup>  
434

435 **II.B.2.g)** encourage and support fellows in scholarly activities. <sup>(Core)</sup>  
436

437 **II.B.3.** **Faculty Qualifications**  
438

439 **II.B.3.a)** **Faculty members must have appropriate qualifications in**  
440 **their field and hold appropriate institutional appointments.**  
441 <sup>(Core)</sup>  
442

443 **II.B.3.b)** **Subspecialty physician faculty members must:**  
444

445 **II.B.3.b).(1)** **have current certification in the subspecialty by the**  
446 **American Board of Internal Medicine or the American**  
447 **Osteopathic Board of Internal Medicine, or possess**  
448 **qualifications judged acceptable to the Review**  
449 **Committee.** <sup>(Core)</sup>  
450

451 **II.B.3.c) Any non-physician faculty members who participate in**  
452 **fellowship program education must be approved by the**  
453 **program director. (Core)**  
454

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

455  
456 **II.B.3.d) Any other specialty physician faculty members must have**  
457 **current certification in their specialty by the appropriate**  
458 **American Board of Medical Specialties (ABMS) member**  
459 **board or American Osteopathic Association (AOA) certifying**  
460 **board, or possess qualifications judged acceptable to the**  
461 **Review Committee. (Core)**

462  
463 **II.B.4. Core Faculty**  
464  
465 **Core faculty members must have a significant role in the education**  
466 **and supervision of fellows and must devote a significant portion of**  
467 **their entire effort to fellow education and/or administration, and**  
468 **must, as a component of their activities, teach, evaluate, and provide**  
469 **formative feedback to fellows. (Core)**  
470

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contributions to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.**

471  
472 **II.B.4.a) Core faculty members must be designated by the program**  
473 **director. (Core)**

474  
475 **II.B.4.b) Core faculty members must complete the annual ACGME**  
476 **Faculty Survey. (Core)**  
477

- 478 II.B.4.c) In addition to the program director, there must be at least one core  
 479 faculty member certified in interventional cardiology by the ABIM  
 480 or the AOBIM. <sup>(Core)</sup>  
 481  
 482 II.B.4.d) In programs approved for more than two fellows, there must be at  
 483 least one core faculty member certified in interventional cardiology  
 484 by the ABIM or the AOBIM for every 1.5 fellows. <sup>(Core)</sup>  
 485  
 486 II.B.4.e) At a minimum, the required core faculty members, in aggregate  
 487 and excluding members of the program leadership, must be  
 488 provided with support equal to an average dedicated minimum of  
 489 .1 FTE for educational and administrative responsibilities that do  
 490 not involve direct patient care. <sup>(Core)</sup>  
 491

~~Specialty Background and Intent: The program must have a minimum number of ABIM- or AOBIM-certified interventional cardiology faculty members who devote significant time to teaching, supervising, and advising residents, and working closely with the program director. One way the interventional cardiology-certified faculty members can demonstrate they are devoting a significant portion of their effort to resident education is by dedicating an average of 10 hours per week to the program.~~

492

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have a minimum of eight ABIM- or AOBIM-subspecialty-certified faculty members and an FTE of 10 percent each. Because an associate program director is also a core faculty member, the minimum dedicated time requirements for associate program directors are inclusive of core faculty activities. An additional 10 percent FTE for the core faculty position is not required. For example, if one core faculty member is named the associate program director for a 12-fellow program, the required minimum support for that position is 14 percent FTE.

493

494 **II.C. Program Coordinator**

495

496 **II.C.1. There must be administrative support for program coordination.** <sup>(Core)</sup>

497

498 II.C.1.a) At a minimum, the program coordinator must be provided with the  
 499 dedicated time and support specified below for administration of  
 500 the program. Additional administrative support must be provided  
 501 based on the program size as follows: <sup>(Core)</sup>  
 502

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE Required for Coordinator Support</u>	<u>Additional Aggregate FTE Required for Administration of the Program</u>
<u>1-3</u>	<u>.3</u>	<u>0</u>
<u>4-6</u>	<u>.3</u>	<u>.2</u>
<u>7-9</u>	<u>.3</u>	<u>.38</u>
<u>10-12</u>	<u>.3</u>	<u>.44</u>

503

**Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.**

504

Subspecialty-Specific Background and Intent: For instance, a program with an approved complement of 12 fellows is required to have at least 74 percent FTE administrative support: 30 percent FTE for the program coordinator; and an additional 44 percent FTE aggregate support. This additional support may be for the program coordinator only or divided among the program coordinator and one or more other administrative personnel. The Review Committee has not specified how the FTE should be distributed to allow programs, in partnership with their Sponsoring Institution, to allocate the FTE as they see fit.

505  
506  
507  
508  
509  
510  
511

**II.D. Other Program Personnel**

**The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>**

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

528  
529  
530  
531  
532  
533  
534

II.D.1. There must be services available from other health care professionals, including dietitians, language interpreters, nurses, occupational therapists, physical therapists, and social workers. <sup>(Detail)</sup>

II.D.2. There must be appropriate and timely consultation from other specialties. <sup>(Detail)</sup>

**III. Fellow Appointments**

**III.A. Eligibility Criteria**

**III.A.1. Eligibility Requirements – Fellowship Programs**

**All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a program with ACGME International (ACGME-I) Advanced Specialty Accreditation, or a Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency program located in Canada. <sup>(Core)</sup>**

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

535  
536  
537  
538  
539

**III.A.1.a) Fellowship programs must receive verification of each entering fellow's level of competence in the required field, upon matriculation, using ACGME, ACGME-I, or CanMEDS Milestones evaluations from the core residency program. <sup>(Core)</sup>**

540  
541 III.A.1.b) Prior to appointment in the fellowship, fellows should have  
542 completed a three-year cardiovascular disease program that  
543 satisfies the requirements in III.A.1. <sup>(Core)</sup>  
544  
545 III.A.1.b).(1) Fellows who did not complete a cardiovascular disease  
546 program that satisfies the requirements in III.A.1. must  
547 have completed at least three years of cardiovascular  
548 disease education prior to starting the fellowship as well as  
549 met all of the criteria in the “Fellow Eligibility Exception”  
550 section below. <sup>(Core)</sup>  
551  
552 **III.A.1.c) Fellow Eligibility Exception**  
553  
554 **The Review Committee for Internal Medicine will allow the**  
555 **following exception to the fellowship eligibility requirements:**  
556  
557 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**  
558 **an exceptionally qualified international graduate**  
559 **applicant who does not satisfy the eligibility**  
560 **requirements listed in III.A.1., but who does meet all of**  
561 **the following additional qualifications and conditions:**  
562 <sup>(Core)</sup>  
563  
564 **III.A.1.c).(1).(a) evaluation by the program director and**  
565 **fellowship selection committee of the**  
566 **applicant’s suitability to enter the program,**  
567 **based on prior training and review of the**  
568 **summative evaluations of training in the core**  
569 **specialty; and, <sup>(Core)</sup>**  
570  
571 **III.A.1.c).(1).(b) review and approval of the applicant’s**  
572 **exceptional qualifications by the GMEC; and,**  
573 <sup>(Core)</sup>  
574  
575 **III.A.1.c).(1).(c) verification of Educational Commission for**  
576 **Foreign Medical Graduates (ECFMG)**  
577 **certification. <sup>(Core)</sup>**  
578  
579 **III.A.1.c).(2) Applicants accepted through this exception must have**  
580 **an evaluation of their performance by the Clinical**  
581 **Competency Committee within 12 weeks of**  
582 **matriculation. <sup>(Core)</sup>**  
583

<p><b>Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or</b></p>
---

**(c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.**

**III.B. The program director must not appoint more fellows than approved by the Review Committee. <sup>(Core)</sup>**

**III.B.1. All complement increases must be approved by the Review Committee. <sup>(Core)</sup>**

**IV. Educational Program**

***The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.***

***The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.***

***In addition, the program is expected to define its specific program aims consistent with the overall mission of its Sponsoring Institution, the needs of the community it serves and that its graduates will serve, and the distinctive capabilities of physicians it intends to graduate. While programs must demonstrate substantial compliance with the Common and subspecialty-specific Program Requirements, it is recognized that within this framework, programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.***

**IV.A. The curriculum must contain the following educational components: <sup>(Core)</sup>**

**IV.A.1. a set of program aims consistent with the Sponsoring Institution's mission, the needs of the community it serves, and the desired distinctive capabilities of its graduates; <sup>(Core)</sup>**

**IV.A.1.a) The program's aims must be made available to program applicants, fellows, and faculty members. <sup>(Core)</sup>**

**IV.A.2. competency-based goals and objectives for each educational experience designed to promote progress on a trajectory to autonomous practice in their subspecialty. These must be distributed, reviewed, and available to fellows and faculty members; <sup>(Core)</sup>**

626 IV.A.3. delineation of fellow responsibilities for patient care, progressive  
627 responsibility for patient management, and graded supervision in  
628 their subspecialty; <sup>(Core)</sup>  
629

**Background and Intent:** These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

630 IV.A.4. structured educational activities beyond direct patient care; and,  
631 <sup>(Core)</sup>  
632  
633

**Background and Intent:** Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

634 IV.A.5. advancement of fellows' knowledge of ethical principles  
635 foundational to medical professionalism. <sup>(Core)</sup>  
636  
637

638 IV.B. ACGME Competencies  
639

**Background and Intent:** The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

640 IV.B.1. The program must integrate the following ACGME Competencies  
641 into the curriculum: <sup>(Core)</sup>  
642

643 IV.B.1.a) Professionalism

644 Fellows must demonstrate a commitment to professionalism  
645 and an adherence to ethical principles. <sup>(Core)</sup>  
646  
647

648 IV.B.1.b) Patient Care and Procedural Skills  
649  
650

**Background and Intent:** Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs. 2008; 27(3):759-769.*) In addition, there

**should be a focus on improving the clinician’s well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

651		
652	<b>IV.B.1.b).(1)</b>	<b>Fellows must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health.</b> <sup>(Core)</sup>

839		therapies for treatment of restenosis; <sup>(Core)</sup>
840		
841	IV.B.1.c).(3).(m)	the role of platelets and the clotting cascade in
842		response to vascular injury; <sup>(Core)</sup>
843		
844	IV.B.1.c).(3).(n)	the role of randomized clinical trials and registry
845		experiences in clinical decision making; and, <sup>(Core)</sup>
846		

847 IV.B.1.c).(3).(o) the use of pharmacologic agents appropriate in the  
848 post-intervention management of patients. <sup>(Core)</sup>  
849

850 **IV.B.1.d) Practice-based Learning and Improvement**

851  
852 **Fellows must demonstrate the ability to investigate and**  
853 **evaluate their care of patients, to appraise and assimilate**  
854 **scientific evidence, and to continuously improve patient care**  
855 **based on constant self-evaluation and lifelong learning.** <sup>(Core)</sup>  
856

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

857  
858 **IV.B.1.e) Interpersonal and Communication Skills**

859  
860 **Fellows must demonstrate interpersonal and communication**  
861 **skills that result in the effective exchange of information and**  
862 **collaboration with patients, their families, and health**  
863 **professionals.** <sup>(Core)</sup>  
864

865 **IV.B.1.f) Systems-based Practice**

866  
867 **Fellows must demonstrate an awareness of and**  
868 **responsiveness to the larger context and system of health**  
869 **care, including the social determinants of health, as well as**  
870 **the ability to call effectively on other resources to provide**  
871 **optimal health care.** <sup>(Core)</sup>  
872

873 **IV.C. Curriculum Organization and Fellow Experiences**

874  
875 **IV.C.1. The curriculum must be structured to optimize fellow educational**  
876 **experiences, the length of these experiences, and supervisory**  
877 **continuity.** <sup>(Core)</sup>  
878

879 **IV.C.1.a)** Assignment of rotations must be structured to minimize the  
880 frequency of rotational transitions, and rotations must be of  
881 sufficient length to provide a quality educational experience,  
882 defined by continuity of patient care, ongoing supervision,  
883 longitudinal relationships with faculty members, and meaningful  
884 assessment and feedback. <sup>(Core)</sup>  
885

886 **IV.C.1.b)** Clinical experiences should be structured to facilitate learning in a  
887 manner that allows fellows to function as part of an effective  
888 interprofessional team that works together towards the shared  
889 goals of patient safety and quality improvement. <sup>(Core)</sup>

890		
891	<b>IV.C.2.</b>	<b>The program must provide instruction and experience in pain management if applicable for the subspecialty, including recognition of the signs of addiction.</b> <sup>(Core)</sup>
892		
893		
894		
895	IV.C.3.	All 12 months must include clinical experiences and appropriate protected time for research. <sup>(Core)</sup>
896		
897		
898	IV.C.4.	Fellows must participate in training using simulation. <sup>(Detail)</sup>
899		
900	IV.C.5.	The core curriculum must include a didactic program based upon the core knowledge content in the subspecialty area. <sup>(Core)</sup>
901		
902		
903	IV.C.5.a)	The program must afford each fellow an opportunity to review topics covered in conferences that he or she was unable to attend. <sup>(Detail)</sup>
904		
905		
906		
907	IV.C.5.b)	Fellows must participate in clinical case conferences, journal clubs, research conferences, and morbidity and mortality or quality improvement conferences. <sup>(Detail)</sup>
908		
909		
910		
911	IV.C.5.c)	All core conferences must have at least one faculty member preset, and must be scheduled as to ensure peer-peer and peer-faculty interaction. <sup>(Detail)</sup>
912		
913		
914		
915	IV.C.6.	Fellows must be instructed in practice management relevant to interventional cardiology. <sup>(Detail)</sup>
916		
917		
918	IV.C.7.	Fellows must attend an outpatient clinic to provide follow-up care for patients. <sup>(Core)</sup>
919		
920		
921	IV.C.8.	Procedures and Technical Skills
922		
923	IV.C.8.a)	Direct supervision of procedures performed by each fellow must occur until proficiency has been acquired and documented by the program director. <sup>(Core)</sup>
924		
925		
926		
927	IV.C.8.b)	Faculty members must teach and supervise the fellows in the performance and interpretation of procedures, which must be documented in each fellow's record, including indications, outcomes, diagnoses, and supervisor(s). <sup>(Core)</sup>
928		
929		
930		
931		
932	IV.C.8.c)	All fellows must:
933		
934	IV.C.8.c).(1)	participate in pre-procedural planning, including the indications for the procedure, and the selection of the appropriate procedure or instruments; <sup>(Core)</sup>
935		
936		
937		
938	IV.C.8.c).(2)	perform the critical technical manipulations of the procedure; and, <sup>(Core)</sup>
939		
940		

941 IV.C.8.c).(3) demonstrate substantial involvement in post-procedure  
942 care. <sup>(Core)</sup>

943  
944 **IV.D. Scholarship**

945  
946 ***Medicine is both an art and a science. The physician is a humanistic***  
947 ***scientist who cares for patients. This requires the ability to think critically,***  
948 ***evaluate the literature, appropriately assimilate new knowledge, and***  
949 ***practice lifelong learning. The program and faculty must create an***  
950 ***environment that fosters the acquisition of such skills through fellow***  
951 ***participation in scholarly activities as defined in the subspecialty-specific***  
952 ***Program Requirements. Scholarly activities may include discovery,***  
953 ***integration, application, and teaching.***

954  
955 ***The ACGME recognizes the diversity of fellowships and anticipates that***  
956 ***programs prepare physicians for a variety of roles, including clinicians,***  
957 ***scientists, and educators. It is expected that the program's scholarship will***  
958 ***reflect its mission(s) and aims, and the needs of the community it serves.***  
959 ***For example, some programs may concentrate their scholarly activity on***  
960 ***quality improvement, population health, and/or teaching, while other***  
961 ***programs might choose to utilize more classic forms of biomedical***  
962 ***research as the focus for scholarship.***

963  
964 **IV.D.1. Program Responsibilities**

965  
966 **IV.D.1.a) The program must demonstrate evidence of scholarly**  
967 **activities, consistent with its mission(s) and aims. <sup>(Core)</sup>**

968  
969 **IV.D.2. Faculty Scholarly Activity**

970  
971 **IV.D.2.a) The faculty must establish and maintain an environment of inquiry**  
972 **and scholarship with an active research component. <sup>(Core)</sup>**

973  
974 **IV.D.2.a).(1) The faculty must regularly participate in organized clinical**  
975 **discussions, rounds, journal clubs, and conferences. <sup>(Detail)</sup>**

976  
977 **IV.D.2.a).(2) At least 50 percent of the core faculty members who are**  
978 **certified in interventional cardiology by the ABIM or the**  
979 **AOBIM (see Program Requirements II.B.4.c)-d) must**  
980 **annually engage in a variety of scholarly activities from**  
981 **among the following: faculty participation in grand rounds,**  
982 **posters, workshops, quality improvement presentations,**  
983 **podium presentations, grant leadership, non-peer-**  
984 **reviewed print/electronic resources, articles or publications,**  
985 **book chapters, textbooks, webinars, service on**  
986 **professional committees, or serving as a journal reviewer,**  
987 **journal editorial board member, or editor. <sup>(Core)</sup>**

988  
989 **IV.D.3. Fellow Scholarly Activity**

990

991 IV.D.3.a) While in the program, at least 50 percent of a program's fellows  
992 must engage in more than one of the following scholarly activities:  
993 participation in grand rounds, posters, workshops, quality  
994 improvement presentations, podium presentations, grant  
995 leadership, non-peer-reviewed print/electronic resources, articles  
996 or publications, book chapters, textbooks, webinars, service on  
997 professional committees, or serving as a journal reviewer, journal  
998 editorial board member, or editor. (Outcome)  
999

1000 **V. Evaluation**

1001  
1002 **V.A. Fellow Evaluation**

1003  
1004 **V.A.1. Feedback and Evaluation**  
1005

**Background and Intent: Feedback is ongoing information provided regarding aspects of one's performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- **fellows identify their strengths and weaknesses and target areas that need work**
- **program directors and faculty members recognize where fellows are struggling and address problems immediately**

**Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

1006  
1007 **V.A.1.a) Faculty members must directly observe, evaluate, and**  
1008 **frequently provide feedback on fellow performance during**  
1009 **each rotation or similar educational assignment. (Core)**

1010  
1011 V.A.1.a).(1) The faculty must discuss evaluations with each fellow at  
1012 least every three months. (Core)  
1013

1014 V.A.1.a).(2) Assessment of procedural competence should include a  
1015 formal evaluation process and not be based solely on a  
1016 minimum number of procedures performed. <sup>(Detail)</sup>  
1017

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

1018  
1019 **V.A.1.b) Evaluation must be documented at the completion of the**  
1020 **assignment.** <sup>(Core)</sup>  
1021

1022 **V.A.1.b).(1) Evaluations must be completed at least every three**  
1023 **months.** <sup>(Core)</sup>  
1024

1025 **V.A.1.c) The program must provide an objective performance**  
1026 **evaluation based on the Competencies and the subspecialty-**  
1027 **specific Milestones, and must:** <sup>(Core)</sup>  
1028

1029 **V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers,**  
1030 **patients, self, and other professional staff members);**  
1031 **and,** <sup>(Core)</sup>  
1032

1033 **V.A.1.c).(2) provide that information to the Clinical Competency**  
1034 **Committee for its synthesis of progressive fellow**  
1035 **performance and improvement toward unsupervised**  
1036 **practice.** <sup>(Core)</sup>  
1037

**Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.**

1038  
1039 **V.A.1.d) The program director or their designee, with input from the**  
1040 **Clinical Competency Committee, must:**  
1041

1042 **V.A.1.d).(1) meet with and review with each fellow their**  
1043 **documented semi-annual evaluation of performance,**  
1044 **including progress along the subspecialty-specific**  
1045 **Milestones.** <sup>(Core)</sup>  
1046

1047 **V.A.1.d).(2) develop plans for fellows failing to progress, following**  
1048 **institutional policies and procedures.** <sup>(Core)</sup>

**Background and Intent:** Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

1050		
1051	<b>V.A.1.e)</b>	<b>The evaluations of a fellow's performance must be accessible</b>
1052		<b>for review by the fellow. (Core)</b>
1053		
1054	<b>V.A.2.</b>	<b>Final Evaluation</b>
1055		
1056	<b>V.A.2.a)</b>	<b>The program director must provide a final evaluation for each</b>

1081		

- 1082 **V.A.3. A Clinical Competency Committee must be appointed by the**  
 1083 **program director. (Core)**  
 1084  
 1085 **V.A.3.a) At a minimum the Clinical Competency Committee must**  
 1086 **include three members, at least one of whom is a core faculty**  
 1087 **member. Members must be faculty members from the same**  
 1088 **program or other programs, or other health professionals**  
 1089 **who have extensive contact and experience with the**  
 1090 **program’s fellows. (Core)**  
 1091  
 1092 **V.A.3.b) The Clinical Competency Committee must:**  
 1093  
 1094 **V.A.3.b).(1) review all fellow evaluations at least semi-annually;**  
 1095 **(Core)**  
 1096  
 1097 **V.A.3.b).(2) determine each fellow’s progress on achievement of**  
 1098 **the subspecialty-specific Milestones; and, (Core)**  
 1099  
 1100 **V.A.3.b).(3) meet prior to the fellows’ semi-annual evaluations and**  
 1101 **advise the program director regarding each fellow’s**  
 1102 **progress. (Core)**  
 1103  
 1104 **V.B. Faculty Evaluation**  
 1105  
 1106 **V.B.1. The program must have a process to evaluate each faculty**  
 1107 **member’s performance as it relates to the educational program at**  
 1108 **least annually. (Core)**  
 1109

**Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program’s faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.**

- 1110  
 1111 **V.B.1.a) This evaluation must include a review of the faculty member’s**  
 1112 **clinical teaching abilities, engagement with the educational**  
 1113 **program, participation in faculty development related to their**

- 1114 skills as an educator, clinical performance, professionalism,  
 1115 and scholarly activities. <sup>(Core)</sup>  
 1116  
 1117 **V.B.1.b)** This evaluation must include written, confidential evaluations  
 1118 by the fellows. <sup>(Core)</sup>  
 1119  
 1120 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
 1121 annually. <sup>(Core)</sup>  
 1122

**Background and Intent:** The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1123  
 1124 **V.C. Program Evaluation and Improvement**  
 1125  
 1126 **V.C.1.** The program director must appoint the Program Evaluation  
 1127 Committee to conduct and document the Annual Program  
 1128 Evaluation as part of the program’s continuous improvement  
 1129 process. <sup>(Core)</sup>  
 1130  
 1131 **V.C.1.a)** The Program Evaluation Committee must be composed of at  
 1132 least two program faculty members, at least one of whom is a  
 1133 core faculty member, and at least one fellow. <sup>(Core)</sup>  
 1134  
 1135 **V.C.1.b)** Program Evaluation Committee responsibilities must include:  
 1136  
 1137 **V.C.1.b).(1)** acting as an advisor to the program director, through  
 1138 program oversight; <sup>(Core)</sup>  
 1139  
 1140 **V.C.1.b).(2)** review of the program’s self-determined goals and  
 1141 progress toward meeting them; <sup>(Core)</sup>  
 1142  
 1143 **V.C.1.b).(3)** guiding ongoing program improvement, including  
 1144 development of new goals, based upon outcomes;  
 1145 and, <sup>(Core)</sup>  
 1146  
 1147 **V.C.1.b).(4)** review of the current operating environment to identify  
 1148 strengths, challenges, opportunities, and threats as  
 1149 related to the program’s mission and aims. <sup>(Core)</sup>  
 1150

**Background and Intent:** In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.

1151

- 1152 V.C.1.c) The Program Evaluation Committee should consider the  
 1153 following elements in its assessment of the program:  
 1154  
 1155 V.C.1.c).(1) fellow performance; <sup>(Core)</sup>  
 1156  
 1157 V.C.1.c).(2) faculty development; and, <sup>(Core)</sup>  
 1158  
 1159 V.C.1.c).(3) progress on the previous year’s action plan(s). <sup>(Core)</sup>  
 1160  
 1161 V.C.1.d) The Program Evaluation Committee must evaluate the  
 1162 program’s mission and aims, strengths, areas for  
 1163 improvement, and threats. <sup>(Core)</sup>  
 1164  
 1165 V.C.1.e) The annual review, including the action plan, must:  
 1166  
 1167 V.C.1.e).(1) be distributed to and discussed with the members of  
 1168 the teaching faculty and the fellows; and, <sup>(Core)</sup>  
 1169  
 1170 V.C.1.e).(2) be submitted to the DIO. <sup>(Core)</sup>  
 1171  
 1172 V.C.2. The program must participate in a Self-Study prior to its 10-Year  
 1173 Accreditation Site Visit. <sup>(Core)</sup>  
 1174  
 1175 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.  
 1176 <sup>(Core)</sup>  
 1177

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**

- 1178  
 1179 V.C.3. *One goal of ACGME-accredited education is to educate physicians*  
 1180 *who seek and achieve board certification. One measure of the*  
 1181 *effectiveness of the educational program is the ultimate pass rate.*  
 1182  
 1183 *The program director should encourage all eligible program*  
 1184 *graduates to take the certifying examination offered by the*  
 1185 *applicable American Board of Medical Specialties (ABMS) member*  
 1186 *board or American Osteopathic Association (AOA) certifying board.*  
 1187  
 1188 V.C.3.a) For subspecialties in which the ABMS member board and/or  
 1189 AOA certifying board offer(s) an annual written exam, in the  
 1190 preceding three years, the program’s aggregate pass rate of  
 1191 those taking the examination for the first time must be higher

- 1192 than the bottom fifth percentile of programs in that  
 1193 subspecialty. <sup>(Outcome)‡</sup>  
 1194  
 1195 **V.C.3.b)** For subspecialties in which the ABMS member board and/or  
 1196 AOA certifying board offer(s) a biennial written exam, in the  
 1197 preceding six years, the program’s aggregate pass rate of  
 1198 those taking the examination for the first time must be higher  
 1199 than the bottom fifth percentile of programs in that  
 1200 subspecialty. <sup>(Outcome)</sup>  
 1201  
 1202 **V.C.3.c)** For subspecialties in which the ABMS member board and/or  
 1203 AOA certifying board offer(s) an annual oral exam, in the  
 1204 preceding three years, the program’s aggregate pass rate of  
 1205 those taking the examination for the first time must be higher  
 1206 than the bottom fifth percentile of programs in that  
 1207 subspecialty. <sup>(Outcome)</sup>  
 1208  
 1209 **V.C.3.d)** For subspecialties in which the ABMS member board and/or  
 1210 AOA certifying board offer(s) a biennial oral exam, in the  
 1211 preceding six years, the program’s aggregate pass rate of  
 1212 those taking the examination for the first time must be higher  
 1213 than the bottom fifth percentile of programs in that  
 1214 subspecialty. <sup>(Outcome)</sup>  
 1215  
 1216 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program  
 1217 whose graduates over the time period specified in the  
 1218 requirement have achieved an 80 percent pass rate will have  
 1219 met this requirement, no matter the percentile rank of the  
 1220 program for pass rate in that subspecialty. <sup>(Outcome)</sup>  
 1221

**Background and Intent:** Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

- 1222  
 1223 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1224 annually for the cohort of board-eligible fellows that  
 1225 graduated seven years earlier. <sup>(Core)</sup>  
 1226

**Background and Intent:** It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME

will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

## VI. The Learning and Working Environment

*Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:*

- *Excellence in the safety and quality of care rendered to patients by fellows today*
- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*
- *Excellence in professionalism through faculty modeling of:*
  - *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*
  - *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and

**fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.**

1249		
1250	<b>VI.A.</b>	<b>Patient Safety, Quality Improvement, Supervision, and Accountability</b>
1251		
1252	<b>VI.A.1.</b>	<b>Patient Safety and Quality Improvement</b>
1253		
1254		<i>All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.</i>
1255		
1256		
1257		
1258		
1259		
1260		
1261		
1262		
1263		
1264		<i>Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.</i>
1265		
1266		
1267		
1268		
1269		
1270		<i>It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.</i>
1271		
1272		
1273		
1274	<b>VI.A.1.a)</b>	<b>Patient Safety</b>
1275		
1276	<b>VI.A.1.a).(1)</b>	<b>Culture of Safety</b>
1277		
1278		<i>A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.</i>
1279		
1280		
1281		
1282		
1283		
1284		
1285	<b>VI.A.1.a).(1).(a)</b>	<b>The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety.</b>

1341  
1342  
1343

**VI.A.1.a).(3)**

**Patient Safety Events**

*Reporting, investigation, and follow-up of adverse events, near misses, and unsafe conditions are pivotal mechanisms for improving patient safety, and are essential for the success of any patient safety program. Feedback and experiential learning are essential to developing true competence in the ability to identify causes and institute sustainable systems-based changes to ameliorate patient safety vulnerabilities.*

**VI.A.1.a).(3).(a)**

**Residents, fellows, faculty members, and other clinical staff members must:**

**VI.A.1.a).(3).(a).(i)**

**know their responsibilities in reporting patient safety events at the clinical site;** <sup>(Core)</sup>

**VI.A.1.a).(3).(a).(ii)**

**know how to report patient safety events, including near misses, at the clinical site; and,** <sup>(Core)</sup>

**VI.A.1.a).(3).(a).(iii)**

**be provided with summary information of their institution’s patient safety reports.** <sup>(Core)</sup>

**VI.A.1.a).(3).(b)**

**Fellows must participate as team members in real and/or simulated interprofessional clinical patient safety activities, such as root cause analyses or other activities that include analysis, as well as formulation and implementation of actions.** <sup>(Core)</sup>

**VI.A.1.a).(4)**

**Fellow Education and Experience in Disclosure of Adverse Events**

*Patient-centered care requires patients, and when appropriate families, to be apprised of clinical situations that affect them, including adverse events. This is an important skill for faculty physicians to model, and for fellows to develop and apply.*

1344	VI.A.1.a).(4).(a)	All fellows must receive training in how to disclose adverse events to patients and families. <sup>(Core)</sup>
1345		
1346		
1347		
1348	VI.A.1.a).(4).(b)	Fellows should have the opportunity to participate in the disclosure of patient safety events, real or simulated. <sup>(Detail)</sup>
1349		
1350		
1351		
1352	VI.A.1.b)	Quality Improvement
1353		
1354	VI.A.1.b).(1)	Education in Quality Improvement
1355		
1356		<i>A cohesive model of health care includes quality-related goals, tools, and techniques that are necessary in order for health care professionals to achieve quality improvement goals.</i>
1357		
1358		
1359		
1360		
1361	VI.A.1.b).(1).(a)	Fellows must receive training and experience in quality improvement processes, including an understanding of health care disparities. <sup>(Core)</sup>
1362		
1363		
1364		
1365	VI.A.1.b).(2)	Quality Metrics
1366		
1367		<i>Access to data is essential to prioritizing activities for care improvement and evaluating success of improvement efforts.</i>
1368		
1369		
1370		
1371	VI.A.1.b).(2).(a)	Fellows and faculty members must receive data on quality metrics and benchmarks related to their patient populations. <sup>(Core)</sup>
1372		
1373		
1374		
1375	VI.A.1.b).(3)	Engagement in Quality Improvement Activities
1376		
1377		<i>Experiential learning is essential to developing the ability to identify and institute sustainable systems-based changes to improve patient care.</i>
1378		
1379		
1380		
1381	VI.A.1.b).(3).(a)	Fellows must have the opportunity to participate in interprofessional quality improvement activities. <sup>(Core)</sup>
1382		
1383		
1384		
1385	VI.A.1.b).(3).(a).(i)	This should include activities aimed at reducing health care disparities. <sup>(Detail)</sup>
1386		
1387		
1388	VI.A.2.	Supervision and Accountability
1389		
1390	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for the care of the patient, every physician shares in the responsibility and accountability for their efforts in the provision of care. Effective programs, in partnership with their Sponsoring Institutions, define, widely communicate,</i>
1391		
1392		
1393		
1394		

1395 *and monitor a structured chain of responsibility and*  
1396 *accountability as it relates to the supervision of all patient*  
1397 *care.*

1398  
1399 *Supervision in the setting of graduate medical education*  
1400 *provides safe and effective care to patients; ensures each*  
1401 *fellow's development of the skills, knowledge, and attitudes*  
1402 *required to enter the unsupervised practice of medicine; and*  
1403 *establishes a foundation for continued professional growth.*  
1404

1405 **VI.A.2.a).(1)** Each patient must have an identifiable and  
1406 appropriately-credentialed and privileged attending  
1407 physician (or licensed independent practitioner as  
1408 specified by the applicable Review Committee) who is  
1409 responsible and accountable for the patient's care.  
1410 (Core)

1411  
1412 **VI.A.2.a).(1).(a)** This information must be available to fellows,  
1413 faculty members, other members of the health  
1414 care team, and patients. (Core)

1415  
1416 **VI.A.2.a).(1).(b)** Fellows and faculty members must inform each  
1417 patient of their respective roles in that patient's  
1418 care when providing direct patient care. (Core)

1419  
1420 **VI.A.2.b)** *Supervision may be exercised through a variety of methods.*  
1421 *For many aspects of patient care, the supervising physician*  
1422 *may be a more advanced fellow. Other portions of care*  
1423 *provided by the fellow can be adequately supervised by the*  
1424 *appropriate availability of the supervising faculty member or*  
1425 *fellow, either on site or by means of telecommunication*  
1426 *technology. Some activities require the physical presence of*  
1427 *the supervising faculty member. In some circumstances,*  
1428 *supervision may include post-hoc review of fellow-delivered*  
1429 *care with feedback.*  
1430

**Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of fellow patient interactions, education and training locations, and fellow skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a fellow gains more experience, even with the same patient condition or procedure. All fellows have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.**

1431  
1432 **VI.A.2.b).(1)** The program must demonstrate that the appropriate  
1433 level of supervision in place for all fellows is based on  
1434 each fellow's level of training and ability, as well as  
1435 patient complexity and acuity. Supervision may be

1436		exercised through a variety of methods, as appropriate
1437		to the situation. <sup>(Core)</sup>
1438		
1439	<b>VI.A.2.b).(2)</b>	<b>The program must define when physical presence of a</b>
1440		<b>supervising physician is required. <sup>(Core)</sup></b>
1441		
1442	<b>VI.A.2.c)</b>	<b>Levels of Supervision</b>
1443		
1444		<b>To promote appropriate fellow supervision while providing</b>
1445		<b>for graded authority and responsibility, the program must use</b>
1446		<b>the following classification of supervision: <sup>(Core)</sup></b>
1447		
1448	<b>VI.A.2.c).(1)</b>	<b>Direct Supervision:</b>
1449		
1450	<b>VI.A.2.c).(1).(a)</b>	<b>the supervising physician is physically present</b>
1451		<b>with the fellow during the key portions of the</b>
1452		<b>patient interaction; or, <sup>(Core)</sup></b>
1453		
1454	<b>VI.A.2.c).(1).(b)</b>	<b>the supervising physician and/or patient is not</b>
1455		<b>physically present with the fellow and the</b>
1456		<b>supervising physician is concurrently</b>
1457		<b>monitoring the patient care through appropriate</b>
1458		<b>telecommunication technology. <sup>(Core)</sup></b>
1459		
1460	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision: the supervising physician is not</b>
1461		<b>providing physical or concurrent visual or audio</b>
1462		<b>supervision but is immediately available to the fellow</b>
1463		<b>for guidance and is available to provide appropriate</b>
1464		<b>direct supervision. <sup>(Core)</sup></b>
1465		
1466	<b>VI.A.2.c).(3)</b>	<b>Oversight – the supervising physician is available to</b>
1467		<b>provide review of procedures/encounters with</b>

1481		<b>based on the needs of the patient and the skills of</b>
1482		<b>each fellow. <sup>(Core)</sup></b>
1483		
1484	<b>VI.A.2.d).(3)</b>	<b>Fellows should serve in a supervisory role to junior</b>
1485		<b>fellows and residents in recognition of their progress</b>
1486		<b>toward independence, based on the needs of each</b>

1487 patient and the skills of the individual resident or  
1488 fellow. <sup>(Detail)</sup>

1489  
1490 **VI.A.2.e) Programs must set guidelines for circumstances and events**  
1491 **in which fellows must communicate with the supervising**  
1492 **faculty member(s).** <sup>(Core)</sup>

1493  
1494 **VI.A.2.e).(1) Each fellow must know the limits of their scope of**  
1495 **authority, and the circumstances under which the**  
1496 **fellow is permitted to act with conditional**  
1497 **independence.** <sup>(Outcome)</sup>

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

1499  
1500 **VI.A.2.f) Faculty supervision assignments must be of sufficient**  
1501 **duration to assess the knowledge and skills of each fellow**  
1502 **and to delegate to the fellow the appropriate level of patient**  
1503 **care authority and responsibility.** <sup>(Core)</sup>

1504  
1505 **VI.B. Professionalism**

1506  
1507 **VI.B.1. Programs, in partnership with their Sponsoring Institutions, must**  
1508 **educate fellows and faculty members concerning the professional**  
1509 **responsibilities of physicians, including their obligation to be**  
1510 **appropriately rested and fit to provide the care required by their**  
1511 **patients.** <sup>(Core)</sup>

1512  
1513 **VI.B.2. The learning objectives of the program must:**

1514  
1515 **VI.B.2.a) be accomplished through an appropriate blend of supervised**  
1516 **patient care responsibilities, clinical teaching, and didactic**  
1517 **educational events;** <sup>(Core)</sup>

1518  
1519 **VI.B.2.b) be accomplished without excessive reliance on fellows to**  
1520 **fulfill non-physician obligations; and,** <sup>(Core)</sup>

**Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.**

1522  
1523 **VI.B.2.c) ensure manageable patient care responsibilities.** <sup>(Core)</sup>

1524

**Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.**

1525

1526

**VI.B.3. The program director, in partnership with the Sponsoring Institution, must provide a culture of professionalism that supports patient safety and personal responsibility. <sup>(Core)</sup>**

1527

1528

1529

1530

**VI.B.4. Fellows and faculty members must demonstrate an understanding of their personal role in the:**

1531

1532

1533

**VI.B.4.a) provision of patient- and family-centered care; <sup>(Outcome)</sup>**

1534

1535

**VI.B.4.b) safety and welfare of patients entrusted to their care, including the ability to report unsafe conditions and adverse events; <sup>(Outcome)</sup>**

1536

1537

1538

**Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.**

1539

1540

**VI.B.4.c) assurance of their fitness for work, including: <sup>(Outcome)</sup>**

1541

**Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.**

1542

1543

**VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, <sup>(Outcome)</sup>**

1544

1545

1546

**VI.B.4.c).(2) recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. <sup>(Outcome)</sup>**

1547

1548

1549

1550

**VI.B.4.d) commitment to lifelong learning; <sup>(Outcome)</sup>**

1551

1552

**VI.B.4.e) monitoring of their patient care performance improvement indicators; and, <sup>(Outcome)</sup>**

1553

1554

1555

**VI.B.4.f) accurate reporting of clinical and educational work hours, patient outcomes, and clinical experience data. <sup>(Outcome)</sup>**

1556

1557

1558 VI.B.5. All fellows and faculty members must demonstrate responsiveness  
1559 to patient needs that supersedes self-interest. This includes the  
1560 recognition that under certain circumstances, the best interests of  
1561 the patient may be served by transitioning that patient's care to  
1562 another qualified and rested provider. (Outcome)  
1563

1564 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must  
1565 provide a professional, equitable, respectful, and civil environment  
1566 that is free from discrimination, sexual and other forms of  
1567 harassment, mistreatment, abuse, or coercion of students, fellows,  
1568 faculty, and staff. (Core)  
1569

1570 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should  
1571 have a process for education of fellows and faculty regarding  
1572 unprofessional behavior and a confidential process for reporting,  
1573 investigating, and addressing such concerns. (Core)  
1574

1575 VI.C. Well-Being  
1576

1577 *Psychological, emotional, and physical well-being are critical in the*  
1578 *development of the competent, caring, and resilient physician and require*  
1579 *proactive attention to life inside and outside of medicine. Well-being*  
1580 *requires that physicians retain the joy in medicine while managing their*  
1581 *own real-life stresses. Self-care and responsibility to support other*  
1582 *members of the health care team are important components of*  
1583 *professionalism; they are also skills that must be modeled, learned, and*  
1584 *nurtured in the context of other aspects of fellowship training.*  
1585

1586 *Fellows and faculty members are at risk for burnout and depression.*  
1587 *Programs, in partnership with their Sponsoring Institutions, have the same*  
1588 *responsibility to address well-being as other aspects of resident*  
1589 *competence. Physicians and all members of the health care team share*  
1590 *responsibility for the well-being of each other. For example, a culture which*  
1591 *encourages covering for colleagues after an illness without the expectation*  
1592 *of reciprocity reflects the ideal of professionalism. A positive culture in a*  
1593 *clinical learning environment models constructive behaviors, and prepares*  
1594 *fellows with the skills and attitudes needed to thrive throughout their*  
1595 *careers.*  
1596

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website: [www.acgme.org/physicianwellbeing](http://www.acgme.org/physicianwellbeing).

The ACGME also created a repository for well-being materials, assessments, presentations, and more on the [Well-Being Tools and Resources page](#) in Learn at ACGME for programs seeking to develop or strengthen their own well-being initiatives.

**There are many activities that programs can implement now to assess and support physician well-being. These include the distribution and analysis of culture of safety surveys, ensuring the availability of counseling services, and paying attention to the safety of the entire health care team.**

1612  
1613

**VI.C.1. The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:**

**VI.C.1.a) efforts to enhance the meaning that each fellow finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; (Core)**

**VI.C.1.b) attention to scheduling, work intensity, and work compression that impacts fellow well-being; (Core)**

**VI.C.1.c) evaluating workplace safety data and addressing the safety of fellows and faculty members; (Core)**

**Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.**

1614  
1615  
1616  
1617

**VI.C.1.d) policies and programs that encourage optimal fellow and faculty member well-being; and, (Core)**

**Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.**

1618  
1619  
1620  
1621  
1622  
1623

**VI.C.1.d).(1) Fellows must be given the opportunity to attend medical, mental health, and dental care appointments, including those scheduled during their working hours. (Core)**

**Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.**

1624  
1625  
1626  
1627  
1628

**VI.C.1.e) attention to fellow and faculty member burnout, depression, and substance use disorder. The program, in partnership with its Sponsoring Institution, must educate faculty members and fellows in identification of the symptoms of burnout,**

1629 depression, and substance use disorder, including means to  
1630 assist those who experience these conditions. Fellows and  
1631 faculty members must also be educated to recognize those  
1632 symptoms in themselves and how to seek appropriate care.  
1633 The program, in partnership with its Sponsoring Institution,  
1634 must: <sup>(Core)</sup>  
1635

**Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorder. Materials and more information are available in Learn at ACGME (<https://dl.acgme.org/pages/well-being-tools-resources>).**

1636  
1637 **VI.C.1.e).(1)** encourage fellows and faculty members to alert the  
1638 program director or other designated personnel or  
1639 programs when they are concerned that another  
1640 fellow, resident, or faculty member may be displaying  
1641 signs of burnout, depression, a substance use  
1642 disorder, suicidal ideation, or potential for violence;  
1643 <sup>(Core)</sup>  
1644

**Background and Intent: Individuals experiencing burnout, depression, a substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.**

1645  
1646 **VI.C.1.e).(2)** provide access to appropriate tools for self-screening;  
1647 and, <sup>(Core)</sup>  
1648  
1649 **VI.C.1.e).(3)** provide access to confidential, affordable mental  
1650 health assessment, counseling, and treatment,  
1651 including access to urgent and emergent care 24  
1652 hours a day, seven days a week. <sup>(Core)</sup>  
1653

**Background and Intent: The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.**

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1682
- VI.D. Fatigue Mitigation
  - VI.D.1. Programs must:
    - VI.D.1.a) educate all faculty members and fellows to recognize the signs of fatigue and sleep deprivation; <sup>(Core)</sup>
    - VI.D.1.b) educate all faculty members and fellows in alertness management and fatigue mitigation processes; and, <sup>(Core)</sup>
    - VI.D.1.c) encourage fellows to use fatigue mitigation processes to manage the potential negative effects of fatigue on patient care and learning. <sup>(Detail)</sup>

Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

- 1683
- 1684 **VI.D.2.** Each program must ensure continuity of patient care, consistent  
 1685 with the program’s policies and procedures referenced in VI.C.2–  
 1686 VI.C.2.b), in the event that a fellow may be unable to perform their  
 1687 patient care responsibilities due to excessive fatigue. <sup>(Core)</sup>  
 1688
- 1689 **VI.D.3.** The program, in partnership with its Sponsoring Institution, must  
 1690 ensure adequate sleep facilities and safe transportation options for  
 1691 fellows who may be too fatigued to safely return home. <sup>(Core)</sup>  
 1692
- 1693 **VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care**
- 1694
- 1695 **VI.E.1. Clinical Responsibilities**
- 1696
- 1697 The clinical responsibilities for each fellow must be based on PGY  
 1698 level, patient safety, fellow ability, severity and complexity of patient  
 1699 illness/condition, and available support services. <sup>(Core)</sup>  
 1700

**Background and Intent:** The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

- 1701
- 1702 **VI.E.2. Teamwork**
- 1703
- 1704 Fellows must care for patients in an environment that maximizes  
 1705 communication. This must include the opportunity to work as a  
 1706 member of effective interprofessional teams that are appropriate to  
 1707 the delivery of care in the subspecialty and larger health system.  
 1708 <sup>(Core)</sup>  
 1709
- 1710 **VI.E.3. Transitions of Care**
- 1711
- 1712 **VI.E.3.a)** Programs must design clinical assignments to optimize  
 1713 transitions in patient care, including their safety, frequency,  
 1714 and structure. <sup>(Core)</sup>  
 1715
- 1716 **VI.E.3.b)** Programs, in partnership with their Sponsoring Institutions,  
 1717 must ensure and monitor effective, structured hand-over  
 1718 processes to facilitate both continuity of care and patient  
 1719 safety. <sup>(Core)</sup>  
 1720
- 1721 **VI.E.3.c)** Programs must ensure that fellows are competent in  
 1722 communicating with team members in the hand-over process.  
 1723 <sup>(Outcome)</sup>  
 1724

1725 VI.E.3.d) Programs and clinical sites must maintain and communicate  
1726 schedules of attending physicians and fellows currently  
1727 responsible for care. <sup>(Core)</sup>  
1728

1729 VI.E.3.e) Each program must ensure continuity of patient care,  
1730 consistent with the program’s policies and procedures  
1731 referenced in VI.C.2-VI.C.2.b), in the event that a fellow may  
1732 be unable to perform their patient care responsibilities due to  
1733 excessive fatigue or illness, or family emergency. <sup>(Core)</sup>  
1734

1735 VI.F. Clinical Experience and Education

1736 *Programs, in partnership with their Sponsoring Institutions, must design*  
1737 *an effective program structure that is configured to provide fellows with*  
1738 *educational and clinical experience opportunities, as well as reasonable*  
1739 *opportunities for rest and personal activities.*  
1740  
1741

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

1742  
1743 VI.F.1. Maximum Hours of Clinical and Educational Work per Week

1744  
1745 Clinical and educational work hours must be limited to no more than  
1746 80 hours per week, averaged over a four-week period, inclusive of all  
1747 in-house clinical and educational activities, clinical work done from  
1748 home, and all moonlighting. <sup>(Core)</sup>  
1749

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

**Scheduling**

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

1750  
1751  
1752  
1753  
1754  
1755  
1756  
1757

**VI.F.2. Mandatory Time Free of Clinical Work and Education**

**VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>**

1758 VI.F.2.b) Fellows should have eight hours off between scheduled  
1759 clinical work and education periods. <sup>(Detail)</sup>

1760  
1761 VI.F.2.b).(1) There may be circumstances when fellows choose to  
1762 stay to care for their patients or return to the hospital  
1763 with fewer than eight hours free of clinical experience  
1764 and education. This must occur within the context of  
1765 the 80-hour and the one-day-off-in-seven  
1766 requirements. <sup>(Detail)</sup>

**Background and Intent:** While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1768  
1769 VI.F.2.c) Fellows must have at least 14 hours free of clinical work and  
1770 education after 24 hours of in-house call. <sup>(Core)</sup>

**Background and Intent:** Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

1772  
1773 VI.F.2.d) Fellows must be scheduled for a minimum of one day in  
1774 seven free of clinical work and required education (when  
1775 averaged over four weeks). At-home call cannot be assigned  
1776 on these free days. <sup>(Core)</sup>

**Background and Intent:** The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

1778  
1779 VI.F.3. Maximum Clinical Work and Education Period Length  
1780

- 1781 VI.F.3.a) Clinical and educational work periods for fellows must not  
 1782 exceed 24 hours of continuous scheduled clinical  
 1783 assignments. <sup>(Core)</sup>  
 1784  
 1785 VI.F.3.a).(1) Up to four hours of additional time may be used for  
 1786 activities related to patient safety, such as providing  
 1787 effective transitions of care, and/or fellow education.  
 1788 <sup>(Core)</sup>  
 1789  
 1790 VI.F.3.a).(1).(a) Additional patient care responsibilities must not  
 1791 be assigned to a fellow during this time. <sup>(Core)</sup>  
 1792

**Background and Intent:** The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- 1793  
 1794 VI.F.4. Clinical and Educational Work Hour Exceptions  
 1795  
 1796 VI.F.4.a) In rare circumstances, after handing off all other  
 1797 responsibilities, a fellow, on their own initiative, may elect to  
 1798 remain or return to the clinical site in the following  
 1799 circumstances:  
 1800  
 1801 VI.F.4.a).(1) to continue to provide care to a single severely ill or  
 1802 unstable patient; <sup>(Detail)</sup>  
 1803  
 1804 VI.F.4.a).(2) humanistic attention to the needs of a patient or  
 1805 family; or, <sup>(Detail)</sup>  
 1806  
 1807 VI.F.4.a).(3) to attend unique educational events. <sup>(Detail)</sup>  
 1808  
 1809 VI.F.4.b) These additional hours of care or education will be counted  
 1810 toward the 80-hour weekly limit. <sup>(Detail)</sup>  
 1811

**Background and Intent:** This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

- 1812  
 1813 VI.F.4.c) A Review Committee may grant rotation-specific exceptions  
 1814 for up to 10 percent or a maximum of 88 clinical and

1815 educational work hours to individual programs based on a  
1816 sound educational rationale.

1817  
1818 The Review Committee for Internal Medicine will not consider  
1819 requests for exceptions to the 80-hour limit to the fellows' work  
1820 week.

1821  
1822 **VI.F.5. Moonlighting**

1823  
1824 **VI.F.5.a) Moonlighting must not interfere with the ability of the fellow  
1825 to achieve the goals and objectives of the educational  
1826 program, and must not interfere with the fellow's fitness for  
1827 work nor compromise patient safety. (Core)**

1828  
1829 **VI.F.5.b) Time spent by fellows in internal and external moonlighting  
1830 (as defined in the ACGME Glossary of Terms) must be  
1831 counted toward the 80-hour maximum weekly limit. (Core)**  
1832

**Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).**

1833  
1834 **VI.F.6. In-House Night Float**

1835  
1836 **Night float must occur within the context of the 80-hour and one-  
1837 day-off-in-seven requirements. (Core)**  
1838

**Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.**

1839  
1840 **VI.F.7. Maximum In-House On-Call Frequency**

1841  
1842 **Fellows must be scheduled for in-house call no more frequently than  
1843 every third night (when averaged over a four-week period). (Core)**

1844  
1845 **VI.F.7.a) Internal Medicine fellowships must not average in-house call over  
1846 a four-week period. (Core)**

1847  
1848 **VI.F.8. At-Home Call**

1849  
1850 **VI.F.8.a) Time spent on patient care activities by fellows on at-home  
1851 call must count toward the 80-hour maximum weekly limit.  
1852 The frequency of at-home call is not subject to the every-  
1853 third-night limitation, but must satisfy the requirement for one  
1854 day in seven free of clinical work and education, when  
1855 averaged over four weeks. (Core)**

1856  
1857 **VI.F.8.a).(1) At-home call must not be so frequent or taxing as to  
1858 preclude rest or reasonable personal time for each  
1859 fellow. (Core)**

1860  
1861  
1862  
1863  
1864  
1865

**VI.F.8.b)**

Fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. <sup>(Detail)</sup>

**Background and Intent:** This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**

\*\*\*

**\*Core Requirements:** Statements that define structure, resource, or process elements essential to every graduate medical educational program.

**†Detail Requirements:** Statements that describe a specific structure, resource, or process, for achieving compliance with a Core Requirement. Programs and sponsoring institutions in substantial compliance with the Outcome Requirements may utilize alternative or innovative approaches to meet Core Requirements.

**‡Outcome Requirements:** Statements that specify expected measurable or observable attributes (knowledge, abilities, skills, or attitudes) of residents or fellows at key stages of their graduate medical education.

**Osteopathic Recognition**

For programs with or applying for Osteopathic Recognition, the Osteopathic Recognition Requirements also apply ([www.acgme.org/OsteopathicRecognition](http://www.acgme.org/OsteopathicRecognition)).
