1                   **ACGME Program Requirements for Graduate Medical Education**  
2   **in Obstetrics and Gynecology**

3  
4                   **Common Program Requirements (Residency) are in BOLD**

5  
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.

9  
10 **Introduction**

11  
12 **Int.A.**           *Graduate medical education is the crucial step of professional*  
13 *development between medical school and autonomous clinical practice. It*  
14 *is in this vital phase of the continuum of medical education that residents*  
15 *learn to provide optimal patient care under the supervision of faculty*  
16 *members who not only instruct, but serve as role models of excellence,*  
17 *compassion, professionalism, and scholarship.*

18  
19 *Graduate medical education transforms medical students into physician*  
20 *scholars who care for the patient, family, and a diverse community; create*  
21 *and integrate new knowledge into practice; and educate future generations*  
22 *of physicians to serve the public. Practice patterns established during*  
23 *graduate medical education persist many years later.*

24  
25 *Graduate medical education has as a core tenet the graded authority and*  
26 *responsibility for patient care. The care of patients is undertaken with*  
27 *appropriate faculty supervision and conditional independence, allowing*  
28 *residents to attain the knowledge, skills, attitudes, and empathy required*  
29 *for autonomous practice. Graduate medical education develops physicians*  
30 *who focus on excellence in delivery of safe, equitable, affordable, quality*  
31 *care; and the health of the populations they serve. Graduate medical*  
32 *education values the strength that a diverse group of physicians brings to*  
33 *medical care.*

34  
35 *Graduate medical education occurs in clinical settings that establish the*  
36 *foundation for practice-based and lifelong learning. The professional*  
37 *development of the physician, begun in medical school, continues through*  
38 *faculty modeling of the effacement of self-interest in a humanistic*  
39 *environment that emphasizes joy in curiosity, problem-solving, academic*  
40 *rigor, and discovery. This transformation is often physically, emotionally,*  
41 *and intellectually demanding and occurs in a variety of clinical learning*  
42 *environments committed to graduate medical education and the well-being*  
43 *of patients, residents, fellows, faculty members, students, and all members*  
44 *of the health care team.*

45  
46 **Int.B.**           **Definition of Specialty**

47  
48                   Obstetrician gynecologists are physicians who, by virtue of satisfactory  
49 completion of a defined course of graduate medical education, possess special  
50 knowledge, skills, and professional capability in the medical and surgical care of  
51 the female reproductive system across the life span and women’s health

52 conditions, such that it distinguishes them from other physicians and enables  
53 them to serve as primary physicians for women, and as consultants to other  
54 physicians.  
55

56 **Int.C. Length of Educational Program**

57  
58 The educational program in obstetrics and gynecology must be 48 months in  
59 length. <sup>(Core)\*</sup>  
60

61 **I. Oversight**

62  
63 **I.A. Sponsoring Institution**

64  
65 *The Sponsoring Institution is the organization or entity that assumes the*  
66 *ultimate financial and academic responsibility for a program of graduate*  
67 *medical education, consistent with the ACGME Institutional Requirements.*  
68

69 *When the Sponsoring Institution is not a rotation site for the program, the*  
70 *most commonly utilized site of clinical activity for the program is the*  
71 *primary clinical site.*  
72

**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the residents. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

73  
74 **I.A.1. The program must be sponsored by one ACGME-accredited**  
75 **Sponsoring Institution. <sup>(Core)</sup>**  
76

77 **I.B. Participating Sites**

78  
79 *A participating site is an organization providing educational experiences or*  
80 *educational assignments/rotations for residents.*  
81

82 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
83 **designate a primary clinical site. <sup>(Core)</sup>**  
84

85 **I.B.1.a)** The primary clinical site should also be the clinical site for at least  
86 one other ACGME-accredited residency program in another  
87 specialty. <sup>(Core)</sup>  
88

89 **I.B.2. There must be a program letter of agreement (PLA) between the**  
90 **program and each participating site that governs the relationship**  
91 **between the program and the participating site providing a required**  
92 **assignment. <sup>(Core)</sup>**  
93

94 I.B.2.a) The PLA must:  
95  
96 I.B.2.a).(1) be renewed at least every 10 years; and, (Core)  
97  
98 I.B.2.a).(2) be approved by the designated institutional official  
99 (DIO). (Core)

100  
101 I.B.3. The program must monitor the clinical learning and working  
102 environment at all participating sites. (Core)

103  
104 I.B.3.a) At each participating site there must be one faculty member,  
105 designated by the program director as the site director, who  
106 is accountable for resident education at that site, in  
107 collaboration with the program director. (Core)  
108

**Background and Intent: While all residency programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites the program must ensure the quality of the educational experience. The requirements under I.B.3. are intended to ensure that this will be the case.**

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- Identifying the faculty members who will assume educational and supervisory responsibility for residents
- Specifying the responsibilities for teaching, supervision, and formal evaluation of residents
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern resident education during the assignment

109  
110 I.B.4. The program director must submit any additions or deletions of  
111 participating sites routinely providing an educational experience,  
112 required for all residents, of one month full time equivalent (FTE) or  
113 more through the ACGME's Accreditation Data System (ADS). (Core)  
114

115 I.C. The program, in partnership with its Sponsoring Institution, must engage in  
116 practices that focus on mission-driven, ongoing, systematic recruitment  
117 and retention of a diverse and inclusive workforce of residents, fellows (if  
118 present), faculty members, senior administrative staff members, and other  
119 relevant members of its academic community. (Core)  
120

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution's mission and aims. The program's annual evaluation must**

**include an assessment of the program's efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

165

**I.D. Resources**

**I.D.1. The program, in partnership with its Sponsoring Institution, must ensure the availability of adequate resources for resident education.**  
(Core)

I.D.1.a) Inpatient facilities, including a labor and delivery unit, operating rooms, recovery room(s), intensive care unit(s), blood bank(s), diagnostic laboratories, and imaging services, must be regularly available and accessible on an emergency basis. (Core)

I.D.1.b) Ambulatory care facilities must be regularly available and adequately equipped. (Core)

I.D.1.c) Residents must have access to hospital-based consultative services in the major medical and surgical disciplines. (Core)

**Specialty-Specific Background and Intent: It is expected that programs that depend on nearby facility(ies) to provide medical and surgical critical care have established a clear threshold for the transfer of patient care, plans for the transfer of patient care, and have current written agreement(s) in place with the accepting facility(ies).**

I.D.1.d) There must be space and equipment for the educational program, including office space for residents which must include computer workstations that provide access to electronic health records and space for interprofessional discussions regarding patient care to maintain patient confidentiality, classroom space for educational activities, and access to simulation resources. (Core)

I.D.1.e) The patient population on which the educational program is based must be sufficient in volume and variety so that the broad spectrum of experiences necessary to meet the educational objectives will be provided. (Core)

**I.D.2. The program, in partnership with its Sponsoring Institution, must ensure healthy and safe learning and working environments that promote resident well-being and provide for:** (Core)

**I.D.2.a) access to food while on duty;** (Core)

**I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available and accessible for residents with proximity appropriate for safe patient care;** (Core)

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that residents function at their peak abilities, which requires the work environment to provide them with the**

ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while residents are working. Residents should have access to refrigeration where food may be stored. Food should be available when residents are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued resident.

166  
167  
168  
169  
170

- I.D.2.c) clean and private facilities for lactation that have refrigeration capabilities, with proximity appropriate for safe patient care; (Core)

**Background and Intent:** Sites must provide private and clean locations where residents may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the resident with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the resident and the resident's family, as outlined in VI.C.1.d).(1).

171  
172  
173  
174

- I.D.2.d) security and safety measures appropriate to the participating site; and, (Core)

175  
176  
177

- I.D.2.e) accommodations for residents with disabilities consistent with the Sponsoring Institution's policy. (Core)

178  
179  
180  
181  
182

- I.D.3. Residents must have ready access to specialty-specific and other appropriate reference material in print or electronic format. This must include access to electronic medical literature databases with full text capabilities. (Core)

183  
184  
185

- I.D.4. The program's educational and clinical resources must be adequate to support the number of residents appointed to the program. (Core)

186  
187  
188  
189  
190

- I.E. The presence of other learners and other care providers, including, but not limited to, residents from other programs, subspecialty fellows, and advanced practice providers, must enrich the appointed residents' education. (Core)

191  
192  
193  
194

- I.E.1. The program must report circumstances when the presence of other learners has interfered with the residents' education to the DIO and Graduate Medical Education Committee (GMEC). (Core)

**Background and Intent:** The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that residents' education is not compromised by the presence of other providers and learners.

195

206  
207  
208  
209

**II.A. Program Director**

**II.A.1. There must be one faculty member appointed as program director with authority and accountability for the overall program, including compliance with all applicable program requirements. (Core)**

**II.A.1.a) The Sponsoring Institution’s GMEC must approve a change in program director. (Core)**

**II.A.1.b) Final approval of the program director resides with the Review Committee. (Core)**

**Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a residency, a single individual must be designated as program director and have overall responsibility for the program. The program director’s nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.**

210  
211  
212  
213  
214

**II.A.1.c) The program must demonstrate retention of the program director for a length of time adequate to maintain continuity of leadership and program stability. (Core)**

**Background and Intent: The success of residency programs is generally enhanced by continuity in the program director position. The professional activities required of a program director are unique and complex and take time to master. All programs are encouraged to undertake succession planning to facilitate program stability when there is necessary turnover in the program director position.**

227  
228  
229

**II.A.2. The program director and, as applicable, the program’s leadership team, must be provided with support adequate for administration of the program based upon its size and configuration. ~~At a minimum, the program director must be provided with the salary support required to devote 50 percent FTE of non-clinical time to the administration of the program.~~ (Core)**

**II.A.2.a) At a minimum, the program director must be provided with the dedicated time and support specified below for administration of the program. Additional support for program leadership must be provided as specified below. This additional support may be for the program director only or divided among the program director and one or more associate (or assistant) program directors. (Core)**

<u>Number of Approved Resident Positions</u>	<u>Minimum Support Required (FTE) for the Program Director</u>	<u>Minimum Additional Support Required (FTE) for Program Leadership in Aggregate</u>
<u>7-10</u>	<u>0.4</u>	<u>=</u>
<u>11-15</u>	<u>0.5</u>	<u>=</u>
<u>16-20</u>	<u>0.5</u>	<u>0.1</u>
<u>21-25</u>	<u>0.5</u>	<u>0.2</u>

<u>26-30</u>	<u>0.5</u>	<u>0.3</u>
<u>31-35</u>	<u>0.5</u>	<u>0.4</u>
<u>36-40</u>	<u>0.5</u>	<u>0.5</u>
<u>41-45</u>	<u>0.5</u>	<u>0.6</u>
<u>46-50</u>	<u>0.5</u>	<u>0.7</u>
<u>51-55</u>	<u>0.5</u>	<u>0.8</u>
<u>56-60</u>	<u>0.5</u>	<u>0.9</u>
<u>61-65</u>	<u>0.5</u>	<u>1.0</u>
<u>66-70</u>	<u>0.5</u>	<u>1.1</u>
<u>71-75</u>	<u>0.5</u>	<u>1.2</u>
<u>76-80</u>	<u>0.5</u>	<u>1.3</u>

230

**Background and Intent:** To achieve successful graduate medical education, individuals serving as education and administrative leaders of residency programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of residents, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.

The ultimate outcome of graduate medical education is excellence in resident education and patient care.

The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the residency program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.

Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.

231  
232  
233  
234  
235  
236  
237

**II.A.3. Qualifications of the program director:**

**II.A.3.a) must include specialty expertise and at least three years of documented educational and/or administrative experience, or qualifications acceptable to the Review Committee; (Core)**

**Background and Intent:** Leading a program requires knowledge and skills that are established during residency and subsequently further developed. The time period from completion of residency until assuming the role of program director allows the individual to cultivate leadership abilities while becoming professionally established. The three-year period is intended for the individual's professional maturation.

The broad allowance for educational and/or administrative experience recognizes that strong leaders arise through diverse pathways. These areas of expertise are important

when identifying and appointing a program director. The choice of a program director should be informed by the mission of the program and the needs of the community.

In certain circumstances, the program and Sponsoring Institution may propose and the Review Committee may accept a candidate for program director who fulfills these goals but does not meet the three-year minimum.

242  
243  
244  
245  
246  
247  
248  
249  
250
- II.A.3.b)** must include current certification in the specialty for which they are the program director by the American Board of Obstetrics and Gynecology (ABOG) or by the American Osteopathic Board of Obstetrics and Gynecology, or specialty qualifications that are acceptable to the Review Committee; <sup>(Core)</sup>
- II.A.3.c)** must include current medical licensure and appropriate medical staff appointment; and, <sup>(Core)</sup>
- II.A.3.d)** must include ongoing clinical activity. <sup>(Core)</sup>

**Background and Intent: A program director is a role model for faculty members and residents. The program director must participate in clinical activity consistent with the specialty. This activity will allow the program director to role model the Core Competencies for the faculty members and residents.**

- 251  
252  
253  
254  
255  
256  
257  
258  
259  
260  
261  
262  
263
- II.A.4. Program Director Responsibilities**
- The program director must have responsibility, authority, and accountability for: administration and operations; teaching and scholarly activity; resident recruitment and selection, evaluation, and promotion of residents, and disciplinary action; supervision of residents; and resident education in the context of patient care. <sup>(Core)</sup>
- II.A.4.a) The program director must:**
- II.A.4.a).(1) be a role model of professionalism; <sup>(Core)</sup>**

**Background and Intent: The program director, as the leader of the program, must serve as a role model to residents in addition to fulfilling the technical aspects of the role. As residents are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.**

- 264  
265  
266  
267  
268
- II.A.4.a).(2) design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; <sup>(Core)</sup>**

269

**Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.**

270

271

**II.A.4.a).(3) administer and maintain a learning environment conducive to educating the residents in each of the ACGME Competency domains; (Core)**

272

273

274

**Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Residency programs can be highly complex. In a complex organization, the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.**

275

276

**II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the residency program education and at least annually thereafter, as outlined in V.B.; (Core)**

277

278

279

280

**II.A.4.a).(5) have the authority to approve program faculty members for participation in the residency program education at all sites; (Core)**

281

282

283

284

**II.A.4.a).(6) have the authority to remove program faculty members from participation in the residency program education at all sites; (Core)**

285

286

287

288

**II.A.4.a).(7) have the authority to remove residents from supervising interactions and/or learning environments that do not meet the standards of the program; (Core)**

289

290

291

292

**Background and Intent: The program director has the responsibility to ensure that all who educate residents effectively role model the Core Competencies. Working with a resident is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.**

**There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.**

293

294

**II.A.4.a).(8) submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; (Core)**

295

296

- 297 **II.A.4.a).(9)** provide applicants who are offered an interview with  
 298 information related to the applicant's eligibility for the  
 299 relevant specialty board examination(s); <sup>(Core)</sup>  
 300
- 301 **II.A.4.a).(10)** provide a learning and working environment in which  
 302 residents have the opportunity to raise concerns and  
 303 provide feedback in a confidential manner as  
 304 appropriate, without fear of intimidation or retaliation;  
 305 <sup>(Core)</sup>  
 306
- 307 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring  
 308 Institution's policies and procedures related to  
 309 grievances and due process; <sup>(Core)</sup>  
 310
- 311 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring  
 312 Institution's policies and procedures for due process  
 313 when action is taken to suspend or dismiss, not to  
 314 promote, or not to renew the appointment of a  
 315 resident; <sup>(Core)</sup>  
 316

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and residents.**

- 317
- 318 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring  
 319 Institution's policies and procedures on employment  
 320 and non-discrimination; <sup>(Core)</sup>  
 321
- 322 **II.A.4.a).(13).(a)** Residents must not be required to sign a non-  
 323 competition guarantee or restrictive covenant.  
 324 <sup>(Core)</sup>  
 325
- 326 **II.A.4.a).(14)** document verification of program completion for all  
 327 graduating residents within 30 days; <sup>(Core)</sup>  
 328
- 329 **II.A.4.a).(15)** provide verification of an individual resident's  
 330 completion upon the resident's request, within 30  
 331 days; and, <sup>(Core)</sup>  
 332

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of residents who have previously completed the program. Residents who leave the program prior to completion also require timely documentation of their summative evaluation.**

- 333
- 334 **II.A.4.a).(16)** obtain review and approval of the Sponsoring  
 335 Institution's DIO before submitting information or  
 336 requests to the ACGME, as required in the Institutional  
 337 Requirements and outlined in the ACGME Program

338 Director's Guide to the Common Program  
339 Requirements. <sup>(Core)</sup>  
340

341 **II.B. Faculty**  
342

343 *Faculty members are a foundational element of graduate medical education*  
344 *– faculty members teach residents how to care for patients. Faculty*  
345 *members provide an important bridge allowing residents to grow and*  
346 *become practice-ready, ensuring that patients receive the highest quality of*  
347 *care. They are role models for future generations of physicians by*  
348 *demonstrating compassion, commitment to excellence in teaching and*  
349 *patient care, professionalism, and a dedication to lifelong learning. Faculty*  
350 *members experience the pride and joy of fostering the growth and*  
351 *development of future colleagues. The care they provide is enhanced by*  
352 *the opportunity to teach. By employing a scholarly approach to patient*  
353 *care, faculty members, through the graduate medical education system,*  
354 *improve the health of the individual and the population.*  
355

356 *Faculty members ensure that patients receive the level of care expected*  
357 *from a specialist in the field. They recognize and respond to the needs of*  
358 *the patients, residents, community, and institution. Faculty members*  
359 *provide appropriate levels of supervision to promote patient safety. Faculty*  
360 *members create an effective learning environment by acting in a*  
361 *professional manner and attending to the well-being of the residents and*  
362 *themselves.*  
363

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating residents. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.**

364  
365 **II.B.1. At each participating site, there must be a sufficient number of**  
366 **faculty members with competence to instruct and supervise all**  
367 **residents at that location.** <sup>(Core)</sup>  
368

369 II.B.1.a) The program director should identify a qualified individual as a  
370 Subspecialty Faculty Educator in each of the following  
371 subspecialties of obstetrics and gynecology: complex family  
372 planning; female pelvic medicine and reconstructive surgery;  
373 gynecologic oncology; maternal-fetal medicine; and reproductive  
374 endocrinology and infertility. <sup>(Detail)</sup>  
375

376 II.B.1.a).(1) The Subspecialty Faculty Educator should be:

377  
378 II.B.1.a).(1).(a) currently certified in the subspecialty by ABOG or  
379 AOBOG, or possess qualifications that are  
380 acceptable to the Review Committee, and, <sup>(Detail)</sup>  
381

382 II.B.1.a).(1).(b) accountable for the coordination of residents’  
383 educational experiences in the respective  
384 subspecialty, in collaboration with the program  
385 director. <sup>(Detail)</sup>

386  
387  
388  
389  
390  
391  
392  
393

- II.B.2. Faculty members must:**
- II.B.2.a) be role models of professionalism;** <sup>(Core)</sup>
- II.B.2.b) demonstrate commitment to the delivery of safe, quality, cost-effective, patient-centered care;** <sup>(Core)</sup>

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

394  
395  
396  
397  
398  
399  
400  
401  
402  
403  
404  
405  
406  
407  
408  
409

- II.B.2.c) demonstrate a strong interest in the education of residents;** <sup>(Core)</sup>
- II.B.2.d) devote sufficient time to the educational program to fulfill their supervisory and teaching responsibilities;** <sup>(Core)</sup>
- II.B.2.e) administer and maintain an educational environment conducive to educating residents;** <sup>(Core)</sup>
- II.B.2.f) regularly participate in organized clinical discussions, rounds, journal clubs, and conferences; and,** <sup>(Core)</sup>
- II.B.2.g) pursue faculty development designed to enhance their skills at least annually;** <sup>(Core)</sup>

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the residency program faculty in the aggregate.**

410  
411  
412  
413  
414  
415  
416  
417  
418  
419  
420

- II.B.2.g).(1) as educators;** <sup>(Core)</sup>
- II.B.2.g).(2) in quality improvement and patient safety;** <sup>(Core)</sup>
- II.B.2.g).(3) in fostering their own and their residents' well-being; and,** <sup>(Core)</sup>
- II.B.2.g).(4) in patient care based on their practice-based learning and improvement efforts.** <sup>(Core)</sup>

**Background and Intent: Practice-based learning serves as the foundation for the practice of medicine. Through a systematic analysis of one's practice and review of the literature, one is able to make adjustments that improve patient outcomes and care.**

**Thoughtful consideration to practice-based analysis improves quality of care, as well as patient safety. This allows faculty members to serve as role models for residents in practice-based learning.**

- 421  
422 II.B.2.h) provide on-site physician faculty member supervision when  
423 residents are on duty in the inpatient hospital. (Core)  
424  
425 II.B.2.h).(1) On the labor and delivery unit, on-site physician faculty  
426 member supervision must be provided by an obstetrics and  
427 gynecology physician. (Core)  
428  
429 II.B.2.h).(2) Members of the physician faculty must be immediately  
430 available to a resident if clinical activity is taking place in  
431 the operating rooms and/or labor and delivery areas. (Core)  
432  
433 II.B.2.h).(3) If the program director judges that the size and nature of  
434 the patient population does not require a 24-hour on-site  
435 presence of residents or physician faculty members, this  
436 situation must be carefully defined, and must receive prior  
437 approval from the Review Committee. (Core)  
438  
439 **II.B.3. Faculty Qualifications**  
440  
441 **II.B.3.a) Faculty members must have appropriate qualifications in**  
442 **their field and hold appropriate institutional appointments.**  
443 (Core)  
444  
445 **II.B.3.b) Physician faculty members must:**  
446  
447 **II.B.3.b).(1) have current certification in the specialty by the**  
448 **American Board of Obstetrics and Gynecology (ABOG)**  
449 **or the American Osteopathic Board of Obstetrics and**  
450 **Gynecology, or possess qualifications judged**  
451 **acceptable to the Review Committee. (Core)**  
452  
453 **II.B.3.c) Any non-physician faculty members who participate in**  
454 **residency program education must be approved by the**  
455 **program director. (Core)**  
456

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of residents by non-physician educators enables the resident to better manage patient care and provides valuable advancement of the residents' knowledge. Furthermore, other individuals contribute to the education of the resident in the basic science of the specialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the residents, the program director may designate the individual as a program faculty member or a program core faculty member.**

- 457  
458 **II.B.4. Core Faculty**  
459

460 Core faculty members must have a significant role in the education  
461 and supervision of residents and must devote a significant portion  
462 of their entire effort to resident education and/or administration, and  
463 must, as a component of their activities, teach, evaluate, and  
464 provide formative feedback to residents. (Core)  
465

**Background and Intent: Core faculty members are critical to the success of resident education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring residents, and assessing residents' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of residents, and also participate in non-clinical activities related to resident education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting resident applicants, providing didactic instruction, mentoring residents, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.**

466  
467 **II.B.4.a) Core faculty members must be designated by the program**  
468 **director. (Core)**

469  
470 **II.B.4.b) Core faculty members must complete the annual ACGME**  
471 **Faculty Survey. (Core)**

472  
473 **II.B.4.c)** Programs with 12 or fewer residents must have a minimum of  
474 three core physician faculty members in addition to the program  
475 director. (Core)

476  
477 **II.B.4.d)** Programs with more than 12 residents must have a minimum of  
478 one core physician faculty member, in addition to the program  
479 director, for every four residents. (Core)

480  
481 **II.C. Program Coordinator**

482  
483 **II.C.1. There must be a program coordinator. (Core)**

484  
485 **II.C.2. The program coordinator must be provided with dedicated time and**  
486 **support adequate for administration of the program based upon its**  
487 **size and configuration. ~~At a minimum, the program coordinator must~~**  
488 **~~be supported at 100 percent FTE for administration of the program.~~**  
489 (Core)

490  
491 **II.C.2.a) At a minimum, the program coordinator must be provided with the**  
492 **dedicated time and support specified below for administration of**  
493 **the program. Additional administrative support must be provided**  
494 **based on program size as follows: (Core)**

495

<u>Number of Approved Resident Positions</u>	<u>Minimum FTE Required for Coordinator Support</u>	<u>Minimum Additional Aggregate FTE Required for Administration of the Program</u>
<u>7-10</u>	<u>0.7</u>	<u>-</u>
<u>11-15</u>	<u>0.8</u>	<u>-</u>
<u>16-20</u>	<u>0.9</u>	<u>-</u>
<u>21-25</u>	<u>1.0</u>	<u>-</u>
<u>26-30</u>	<u>1.0</u>	<u>0.1</u>
<u>31-35</u>	<u>1.0</u>	<u>0.2</u>
<u>36-40</u>	<u>1.0</u>	<u>0.3</u>
<u>41-45</u>	<u>1.0</u>	<u>0.4</u>
<u>46-50</u>	<u>1.0</u>	<u>0.5</u>
<u>51-55</u>	<u>1.0</u>	<u>0.6</u>
<u>56-60</u>	<u>1.0</u>	<u>0.7</u>
<u>61-65</u>	<u>1.0</u>	<u>0.8</u>
<u>66-70</u>	<u>1.0</u>	<u>0.9</u>
<u>71-75</u>	<u>1.0</u>	<u>1.0</u>
<u>76-80</u>	<u>1.0</u>	<u>1.1</u>

496

**Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.**

**Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.**

**The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of residents.**

**Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer residents may not require a full-time coordinator; one coordinator may support more than one program.**

497

498

**II.D. Other Program Personnel**

499

500

**The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>**

501

502

503

**Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.**

504

**III. Resident Appointments**

505

506

507

**III.A. Eligibility Requirements**

508

509

**III.A.1. An applicant must meet one of the following qualifications to be eligible for appointment to an ACGME-accredited program: <sup>(Core)</sup>**

510

511

512

**III.A.1.a) graduation from a medical school in the United States or Canada, accredited by the Liaison Committee on Medical Education (LCME) or graduation from a college of osteopathic medicine in the United States, accredited by the American Osteopathic Association Commission on Osteopathic College Accreditation (AOACOCA); or, <sup>(Core)</sup>**

513

514

515

516

517

518

519

**III.A.1.b) graduation from a medical school outside of the United States or Canada, and meeting one of the following additional qualifications: <sup>(Core)</sup>**

520

521

522

523

**III.A.1.b).(1) holding a currently valid certificate from the Educational Commission for Foreign Medical Graduates (ECFMG) prior to appointment; or, <sup>(Core)</sup>**

524

525

526

527

**III.A.1.b).(2) holding a full and unrestricted license to practice medicine in the United States licensing jurisdiction in which the ACGME-accredited program is located. <sup>(Core)</sup>**

528

529

530

531

**III.A.2. All prerequisite post-graduate clinical education required for initial entry or transfer into ACGME-accredited residency programs must be completed in ACGME-accredited residency programs, AOA-approved residency programs, Royal College of Physicians and Surgeons of Canada (RCPSC)-accredited or College of Family Physicians of Canada (CFPC)-accredited residency programs located in Canada, or in residency programs with ACGME International (ACGME-I) Advanced Specialty Accreditation. <sup>(Core)</sup>**

532

533

534

535

536

537

538

539

540

**III.A.2.a) Residency programs must receive verification of each resident's level of competency in the required clinical field using ACGME, CanMEDS, or ACGME-I Milestones evaluations from the prior training program upon matriculation. <sup>(Core)</sup>**

541

542

543

544

**Background and Intent: Programs with ACGME-I Foundational Accreditation or from institutions with ACGME-I accreditation do not qualify unless the program has also achieved ACGME-I Advanced Specialty Accreditation. To ensure entrants into ACGME-accredited programs from ACGME-I programs have attained the prerequisite**

milestones for this training, they must be from programs that have ACGME-I Advanced Specialty Accreditation.

545  
546 **III.A.3.** A physician who has completed a residency program that was not  
547 accredited by ACGME, AOA, RCPSC, CFPC, or ACGME-I (with  
548 Advanced Specialty Accreditation) may enter an ACGME-accredited  
549 residency program in the same specialty at the PGY-1 level and, at  
550 the discretion of the program director of the ACGME-accredited  
551 program and with approval by the GMEC, may be advanced to the  
552 PGY-2 level based on ACGME Milestones evaluations at the ACGME-  
553 accredited program. This provision applies only to entry into  
554 residency in those specialties for which an initial clinical year is not  
555 required for entry. <sup>(Core)</sup>  
556

557 **III.B.** The program director must not appoint more residents than approved by  
558 the Review Committee. <sup>(Core)</sup>  
559

560 **III.B.1.** All complement increases must be approved by the Review  
561 Committee. <sup>(Core)</sup>  
562

563 **III.B.2.** There should be at least three approved categorical positions per PGY  
564 level. <sup>(Core)</sup>  
565

566 **III.C.** Resident Transfers

567  
568 The program must obtain verification of previous educational experiences  
569 and a summative competency-based performance evaluation prior to  
570 acceptance of a transferring resident, and Milestones evaluations upon  
571 matriculation. <sup>(Core)</sup>  
572

573 **IV.** Educational Program

574  
575 *The ACGME accreditation system is designed to encourage excellence and*  
576 *innovation in graduate medical education regardless of the organizational*  
577 *affiliation, size, or location of the program.*  
578

579 *The educational program must support the development of knowledgeable, skillful*  
580 *physicians who provide compassionate care.*  
581

582 *In addition, the program is expected to define its specific program aims consistent*  
583 *with the overall mission of its Sponsoring Institution, the needs of the community*  
584 *it serves and that its graduates will serve, and the distinctive capabilities of*  
585 *physicians it intends to graduate. While programs must demonstrate substantial*  
586 *compliance with the Common and specialty-specific Program Requirements, it is*  
587 *recognized that within this framework, programs may place different emphasis on*  
588 *research, leadership, public health, etc. It is expected that the program aims will*  
589 *reflect the nuanced program-specific goals for it and its graduates; for example, it*  
590 *is expected that a program aiming to prepare physician-scientists will have a*  
591 *different curriculum from one focusing on community health.*  
592

593 **IV.A.** The curriculum must contain the following educational components: <sup>(Core)</sup>

594  
595 **IV.A.1.** a set of program aims consistent with the Sponsoring Institution's  
596 mission, the needs of the community it serves, and the desired  
597 distinctive capabilities of its graduates; <sup>(Core)</sup>

598  
599 **IV.A.1.a)** The program's aims must be made available to program  
600 applicants, residents, and faculty members. <sup>(Core)</sup>

601  
602 **IV.A.2.** competency-based goals and objectives for each educational  
603 experience designed to promote progress on a trajectory to  
604 autonomous practice. These must be distributed, reviewed, and  
605 available to residents and faculty members; <sup>(Core)</sup>  
606

**Background and Intent:** The trajectory to autonomous practice is documented by Milestones evaluation. The Milestones detail the progress of a resident in attaining skill in each competency domain. They are developed by each specialty group and allow evaluation based on observable behaviors. Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific resident.

607  
608 **IV.A.3.** delineation of resident responsibilities for patient care, progressive  
609 responsibility for patient management, and graded supervision; <sup>(Core)</sup>  
610

**Background and Intent:** These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

611  
612 **IV.A.4.** a broad range of structured didactic activities; <sup>(Core)</sup>

613  
614 **IV.A.4.a)** Residents must be provided with protected time to participate  
615 in core didactic activities. <sup>(Core)</sup>  
616

**Background and Intent:** It is intended that residents will participate in structured didactic activities. It is recognized that there may be circumstances in which this is not possible. Programs should define core didactic activities for which time is protected and the circumstances in which residents may be excused from these didactic activities. Didactic activities may include, but are not limited to, lectures, conferences, courses, labs, asynchronous learning, simulations, drills, case discussions, grand rounds, didactic teaching, and education in critical appraisal of medical evidence.

617  
618 **IV.A.5.** advancement of residents' knowledge of ethical principles  
619 foundational to medical professionalism; and, <sup>(Core)</sup>  
620

621 **IV.A.6.** advancement in the residents' knowledge of the basic principles of  
622 scientific inquiry, including how research is designed, conducted,  
623 evaluated, explained to patients, and applied to patient care. <sup>(Core)</sup>  
624

625 **IV.B. ACGME Competencies**  
626

**Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each specialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each specialty.**

627  
628 **IV.B.1.** The program must integrate the following ACGME Competencies  
629 into the curriculum: <sup>(Core)</sup>  
630

631 **IV.B.1.a) Professionalism**

632  
633 Residents must demonstrate a commitment to  
634 professionalism and an adherence to ethical principles. <sup>(Core)</sup>  
635

636 **IV.B.1.a).(1)** Residents must demonstrate competence in:

637  
638 **IV.B.1.a).(1).(a)** compassion, integrity, and respect for others;  
639 <sup>(Core)</sup>  
640

641 **IV.B.1.a).(1).(b)** responsiveness to patient needs that  
642 supersedes self-interest; <sup>(Core)</sup>  
643

**Background and Intent: This includes the recognition that under certain circumstances, the interests of the patient may be best served by transitioning care to another provider. Examples include fatigue, conflict or duality of interest, not connecting well with a patient, or when another physician would be better for the situation based on skill set or knowledge base.**

644  
645 **IV.B.1.a).(1).(c)** respect for patient privacy and autonomy; <sup>(Core)</sup>  
646

647 **IV.B.1.a).(1).(d)** accountability to patients, society, and the  
648 profession; <sup>(Core)</sup>  
649

650 **IV.B.1.a).(1).(e)** respect and responsiveness to diverse patient  
651 populations, including but not limited to  
652 diversity in gender, age, culture, race, religion,  
653 disabilities, national origin, socioeconomic  
654 status, and sexual orientation; <sup>(Core)</sup>  
655

656 **IV.B.1.a).(1).(f)** ability to recognize and develop a plan for one's  
657 own personal and professional well-being; and,  
658 <sup>(Core)</sup>  
659

660 **IV.B.1.a).(1).(g)** appropriately disclosing and addressing  
661 conflict or duality of interest. <sup>(Core)</sup>

662  
663  
664

IV.B.1.b)

Patient Care and Procedural Skills

**Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]’s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality*. *Health Affairs*. 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician’s well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

IV.B.1.b).(1)

**Residents must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health. <sup>(Core)</sup>**

IV.B.1.b).(1).(a)

Residents must develop and ultimately demonstrate the ability to manage patients:

IV.B.1.b).(1).(a).(i)

in the medical and surgical care of the female reproductive system and associated disorders, and as the primary physician of women; <sup>(Core)</sup>

IV.B.1.b).(1).(a).(ii)

in a variety of roles within health systems, with progressive responsibility to include serving as the direct provider, the leader or member of a multi-disciplinary team of providers, a consultant to other physicians, and an educational resource to the patient and other members of the health care team; and, <sup>(Core)</sup>

IV.B.1.b).(1).(a).(iii)

in a variety of health care settings to include the inpatient unit, labor and delivery, operating room, critical care units, and emergency and ambulatory settings. <sup>(Core)</sup>

IV.B.1.b).(2)

**Residents must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. <sup>(Core)</sup>**

IV.B.1.b).(2).(a)

Residents must develop and ultimately demonstrate proficiency in obstetric and gynecologic procedures essential for specialty

700 board certification. (Core)

701  
702 **IV.B.1.c) Medical Knowledge**

703  
704 **Residents must demonstrate knowledge of established and**  
705 **evolving biomedical, clinical, epidemiological and social-**  
706 **behavioral sciences, as well as the application of this**  
707 **knowledge to patient care. (Core)**

708  
709 IV.B.1.c).(1) Resident must develop and ultimately demonstrate  
710 knowledge of the core and subspecialty content of  
711 obstetrics and gynecology, and topics related to women's  
712 health care appropriate for the unsupervised practice of  
713 obstetrics and gynecology. (Core)

714  
715 **IV.B.1.d) Practice-based Learning and Improvement**

716  
717 **Residents must demonstrate the ability to investigate and**  
718 **evaluate their care of patients, to appraise and assimilate**  
719 **scientific evidence, and to continuously improve patient care**  
720 **based on constant self-evaluation and lifelong learning. (Core)**

721

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a physician develop the habits of mind required to continuously pursue quality improvement, well past the completion of residency.**

722  
723 **IV.B.1.d).(1) Residents must demonstrate competence in:**

724  
725 **IV.B.1.d).(1).(a) identifying strengths, deficiencies, and limits in**  
726 **one's knowledge and expertise; (Core)**

727  
728 **IV.B.1.d).(1).(b) setting learning and improvement goals; (Core)**

729  
730 **IV.B.1.d).(1).(c) identifying and performing appropriate learning**  
731 **activities; (Core)**

732  
733 **IV.B.1.d).(1).(d) systematically analyzing practice using quality**  
734 **improvement methods, and implementing**  
735 **changes with the goal of practice improvement;**  
736 **(Core)**

737  
738 **IV.B.1.d).(1).(e) incorporating feedback and formative**  
739 **evaluation into daily practice; (Core)**

740

741	<b>IV.B.1.d).(1).(f)</b>	<b>locating, appraising, and assimilating evidence from scientific studies related to their patients' health problems; and,</b> <sup>(Core)</sup>
742

786		
787	<b>IV.B.1.e).(2)</b>	<b>Residents must learn to communicate with patients and families to partner with them to assess their care goals, including, when appropriate, end-of-life goals.</b> <sup>(Core)</sup>
788		
789		
790		
791		

**Background and Intent: When there are no more medications or interventions that can achieve a patient’s goals or provide meaningful improvements in quality or length of life, a discussion about the patient’s goals, values, and choices surrounding the end of life is one of the most important conversations that can occur. Residents must learn to participate effectively and compassionately in these meaningful human interactions, for the sake of their patients and themselves.**

**Programs may teach this skill through direct clinical experience, simulation, or other means of active learning.**

792  
793  
794

805  
806

**IV.B.1.f) Systems-based Practice**

**Residents must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the social determinants of health, as well as the ability to call effectively on other resources to provide optimal health care. <sup>(Core)</sup>**

**IV.B.1.f).(1) Residents must demonstrate competence in:**

**IV.B.1.f).(1).(a) working effectively in various health care delivery settings and systems relevant to their clinical specialty; <sup>(Core)</sup>**

**Background and Intent: Medical practice occurs in the context of an increasingly complex clinical care environment where optimal patient care requires attention to compliance with external and internal administrative and regulatory requirements.**

807  
808  
809  
810  
811

**IV.B.1.f).(1).(b) coordinating patient care across the health care continuum and beyond as relevant to their clinical specialty; <sup>(Core)</sup>**

**Background and Intent: Every patient deserves to be treated as a whole person. Therefore it is recognized that any one component of the health care system does not meet the totality of the patient's needs. An appropriate transition plan requires coordination and forethought by an interdisciplinary team. The patient benefits from proper care and the system benefits from proper use of resources.**

812  
813  
814  
815  
816  
817  
818  
819  
820  
821  
822  
823  
824

**IV.B.1.f).(1).(c) advocating for quality patient care and optimal patient care systems; <sup>(Core)</sup>**

**IV.B.1.f).(1).(d) working in interprofessional teams to enhance patient safety and improve patient care quality; <sup>(Core)</sup>**

**IV.B.1.f).(1).(e) participating in identifying system errors and implementing potential systems solutions; <sup>(Core)</sup>**

**IV.B.1.f).(1).(f) incorporating considerations of value, cost awareness, delivery and payment, and risk-**

- 825 benefit analysis in patient and/or population-  
 826 based care as appropriate; and, <sup>(Core)</sup>  
 827  
 828 **IV.B.1.f).(1).(g)** understanding health care finances and its  
 829 impact on individual patients' health decisions.  
 830 <sup>(Core)</sup>  
 831  
 832 **IV.B.1.f).(2)** Residents must learn to advocate for patients within  
 833 the health care system to achieve the patient's and  
 834 family's care goals, including, when appropriate, end-  
 835 of-life goals. <sup>(Core)</sup>  
 836  
 837 **IV.C. Curriculum Organization and Resident Experiences**  
 838  
 839 **IV.C.1. The curriculum must be structured to optimize resident educational**  
 840 **experiences, the length of these experiences, and supervisory**  
 841 **continuity.** <sup>(Core)</sup>  
 842  
 843 **IV.C.1.a)** Assignment of rotations must be structured to minimize the  
 844 frequency of rotational transitions, and rotations must be of  
 845 sufficient length to provide a quality educational experience,  
 846 defined by continuity of patient care, ongoing supervision,  
 847 longitudinal relationships with faculty members, and meaningful  
 848 assessment and feedback. <sup>(Core)</sup>  
 849  
 850 **IV.C.1.b)** Clinical experiences should be structured to facilitate learning in a  
 851 manner that allows the residents to function as part of an effective  
 852 interprofessional team that works together towards the shared  
 853 goals of patient safety and quality improvement. <sup>(Core)</sup>  
 854  
 855 **IV.C.1.c)** Programs must have schedules that minimize conflicting inpatient  
 856 and outpatient responsibilities. <sup>(Core)</sup>  
 857

**Background and Intent: In some specialties, frequent rotational transitions, inadequate continuity of faculty member supervision, and dispersed patient locations within the hospital have adversely affected optimal resident education and effective team-based care. The need for patient care continuity varies from specialty to specialty and by clinical situation, and may be addressed by the individual Review Committee.**

- 858  
 859 **IV.C.2. The program must provide instruction and experience in pain**  
 860 **management if applicable for the specialty, including recognition of**  
 861 **the signs of addiction.** <sup>(Core)</sup>  
 862  
 863 **IV.C.3.** An educational program in obstetrics and gynecology must provide an  
 864 opportunity for resident physicians to achieve the knowledge, skills, and  
 865 attitudes essential to the practice of obstetrics and gynecology and  
 866 ambulatory health care for women. The program must provide opportunity  
 867 for increasing responsibility, appropriate supervision, formal instruction,  
 868 critical evaluation, and feedback for residents. <sup>(Core)</sup>  
 869

870	IV.C.4.	Chief Resident Experience
871		
872	IV.C.4.a)	Within the final 24 months of education, residents must serve at least 12 months as a chief resident. <sup>(Core)</sup>
873		
874		
875	IV.C.4.b)	The clinical and academic experience as a chief resident should be structured to prepare the resident for an independent practice of obstetrics and gynecology. This chief resident experience, with appropriate supervision, should promote a high level of responsibility and independence, and should include development of technical competence and proficiency in the management of patients with complex gynecological conditions, management of complicated pregnancies, and the performance of advanced procedures. <sup>(Core)</sup>
876		
877		
878		
879		
880		
881		
882		
883		
884		
885	IV.C.5.	Ambulatory Care Experience
886		
887	IV.C.5.a)	Continuity of care is a recognized core value of the specialty of obstetrics and gynecology and must be a priority in each program. <sup>(Core)</sup>
888		
889		
890		
891	IV.C.5.b)	Resident experience in the provision of ambulatory care must be structured to include a minimum of 120 distinct half-day sessions over the course of the program. <sup>(Core)</sup>
892		
893		
894		
895	IV.C.5.c)	Each resident's ambulatory care experience must include:
896		
897	IV.C.5.c).(1)	continuity clinics, and/or maternal-fetal medicine clinics, and/or gynecologic clinics that provide appropriate continuity of patient care; <sup>(Core)</sup>
898		
899		
900		
901	IV.C.5.c).(1).(a)	Clinics must include a panel of patients cared for by individual residents or a team of residents. <sup>(Core)</sup>
902		
903		
904	IV.C.5.c).(1).(b)	The distance between residents' ambulatory care assignment(s) and concurrent rotation(s) should not be so great as to impede residents' ability to easily travel between these educational experiences. <sup>(Core)</sup>
905		
906		
907		
908		
909	IV.C.5.c).(2)	sufficient experiences to allow residents to learn to address acute problems and follow them to resolution, and to stabilize chronic problems; <sup>(Core)</sup>
910		
911		
912		
913	IV.C.5.c).(3)	evaluation of performance data for the resident's patients relating to problem-oriented and preventive health care; <sup>(Core)</sup>
914		
915		
916		
917	IV.C.5.c).(4)	resident participation in coordination of care within and across hospital-based and outpatient health care settings; and, <sup>(Core)</sup>
918		
919		
920		

921	IV.C.5.c).(5)	availability to participate in the management of their
922		continuity patients between outpatient visits. (Core)
923		
924	IV.C.5.c).(5).(a)	There must be systems of care to provide coverage
925		of urgent problems when a resident is not readily
926		available. (Core)
927		
928	IV.C.6.	Procedural Experience
929		
930	IV.C.6.a)	Residents' procedural experience must include appropriate
931		involvement in the selection of the surgical or therapeutic option,
932		pre-operative assessment, and post-operative care. (Core)
933		
934	IV.C.6.b)	Each graduating resident must perform the minimum number of
935		cases as established by the Review Committee. (Outcome)
936		
937	IV.C.6.b).(1)	Performance of the minimum number of cases by a
938		graduating resident must not be interpreted as equivalent
939		to the achievement of competence. (Core)
940		
941	IV.C.6.c)	PGY-1 Gynecology Experiences
942		
943	IV.C.6.c).(1)	PGY-1 residents must have formal training in basic
944		surgical skills, which may be provided longitudinally or as a
945		dedicated rotation. The basic surgical skill curriculum must
946		teach: (Core)
947		
948	IV.C.6.c).(1).(a)	basic operative skills, including incision
949		management, soft tissue management, and
950		suturing; and, (Core)
951		
952	IV.C.6.c).(1).(b)	the fundamentals of endoscopic surgical
953		equipment, and safe use of electrosurgical
954		equipment. (Core)
955		
956	Specialty-Specific Background and Intent: The basic surgical skills curriculum during the PGY-1	
957	is expected to provide a foundation for skills training in subsequent PGYs and prepare residents	
958	to participate in major gynecologic surgery cases in PGY-2.	
959		
960	IV.C.7.	Family Planning
961		
962	IV.C.7.a)	Programs must provide training or access to training in the
963		provision of abortions, and this must be part of the planned
964		curriculum. (Core)
965		
966	IV.C.7.b)	Residents who have a religious or moral objection may opt out
967		and must not be required to participate in training in or performing
968		induced abortions. (Core)
969		
970	IV.C.7.c)	Programs must ensure residents' clinical experience includes

971		involvement in educating patients on the surgical and medical
972		therapeutic options related to the provision of abortions. (Core)
973		
974	IV.C.7.d)	Residents must participate in the management of complications of
975		abortions. (Core)
976		
977	IV.C.7.e)	Residents must have training in all forms of contraception. (Core)
978		
979	IV.C.8.	Didactic Education
980		
981	IV.C.9.	Educational sessions in obstetrics and gynecology must be structured
982		and regularly scheduled and held. (Core)
983		
984	IV.C.9.a)	These sessions must consist of clinical teaching rounds, case
985		conferences, simulation training, journal clubs, and protected time
986		for educational activities covering all aspects of obstetrics and
987		gynecology, including basic sciences pertinent to the specialty.
988		(Core)
989		
990	IV.C.9.b)	Interdisciplinary and interprofessional sessions must occur. (Core)
991		
992	IV.C.9.c)	Educational sessions in racial and ethnic health disparities must
993		be held and include disparate maternal morbidity and mortality
994		causes and prevention, and impact of social determinants of
995		health and understanding of racism, privilege, and bias. (Core)
996		
997	<b>IV.D.</b>	<b>Scholarship</b>
998		
999		<b><i>Medicine is both an art and a science. The physician is a humanistic</i></b>
1000		<b><i>scientist who cares for patients. This requires the ability to think critically,</i></b>
1001		<b><i>evaluate the literature, appropriately assimilate new knowledge, and</i></b>
1002		<b><i>practice lifelong learning. The program and faculty must create an</i></b>
1003		<b><i>environment that fosters the acquisition of such skills through resident</i></b>
1004		<b><i>participation in scholarly activities. Scholarly activities may include</i></b>
1005		<b><i>discovery, integration, application, and teaching.</i></b>
1006		
1007		<b><i>The ACGME recognizes the diversity of residencies and anticipates that</i></b>
1008		<b><i>programs prepare physicians for a variety of roles, including clinicians,</i></b>
1009		<b><i>scientists, and educators. It is expected that the program's scholarship will</i></b>
1010		<b><i>reflect its mission(s) and aims, and the needs of the community it serves.</i></b>
1011		<b><i>For example, some programs may concentrate their scholarly activity on</i></b>
1012		<b><i>quality improvement, population health, and/or teaching, while other</i></b>
1013		<b><i>programs might choose to utilize more classic forms of biomedical</i></b>
1014		<b><i>research as the focus for scholarship.</i></b>
1015		
1016	<b>IV.D.1.</b>	<b>Program Responsibilities</b>
1017		
1018	<b>IV.D.1.a)</b>	<b>The program must demonstrate evidence of scholarly</b>
1019		<b>activities consistent with its mission(s) and aims. (Core)</b>
1020		

- 1021 **IV.D.1.b)**                                    **The program, in partnership with its Sponsoring Institution,**  
 1022 **must allocate adequate resources to facilitate resident and**  
 1023 **faculty involvement in scholarly activities. (Core)**
- 1024
- 1025 **IV.D.1.c)**                                    **The program must advance residents' knowledge and**  
 1026 **practice of the scholarly approach to evidence-based patient**  
 1027 **care. (Core)**
- 1028

**Background and Intent: The scholarly approach can be defined as a synthesis of teaching, learning, and research with the aim of encouraging curiosity and critical thinking based on an understanding of physiology, pathophysiology, differential diagnosis, treatments, treatment alternatives, efficiency of care, and patient safety. While some faculty members are responsible for fulfilling the traditional elements of scholarship through research, integration, and teaching, all faculty members are responsible for advancing residents' scholarly approach to patient care.**

**Elements of a scholarly approach to patient care include:**

- **Asking meaningful questions to stimulate residents to utilize learning resources to create a differential diagnosis, a diagnostic algorithm, and treatment plan**
- **Challenging the evidence that the residents use to reach their medical decisions so that they understand the benefits and limits of the medical literature**
- **When appropriate, dissemination of scholarly learning in a peer-reviewed manner (publication or presentation)**
- **Improving resident learning by encouraging them to teach using a scholarly approach**

**The scholarly approach to patient care begins with curiosity, is grounded in the principles of evidence-based medicine, expands the knowledge base through dissemination, and develops the habits of lifelong learning by encouraging residents to be scholarly teachers.**

- 1029
- 1030 **IV.D.2.                                    Faculty Scholarly Activity**
- 1031
- 1032 **IV.D.2.a)**                                    **Among their scholarly activity, programs must demonstrate**  
 1033 **accomplishments in at least three of the following domains:**  
 1034 **(Core)**
- 1035
- **Research in basic science, education, translational science, patient care, or population health**
  - **Peer-reviewed grants**
  - **Quality improvement and/or patient safety initiatives**
  - **Systematic reviews, meta-analyses, review articles, chapters in medical textbooks, or case reports**
  - **Creation of curricula, evaluation tools, didactic educational activities, or electronic educational materials**
  - **Contribution to professional committees, educational organizations, or editorial boards**
  - **Innovations in education**
- 1036
- 1037
- 1038
- 1039
- 1040
- 1041
- 1042
- 1043
- 1044
- 1045
- 1046
- 1047
- 1048

1049 IV.D.2.b) The program must demonstrate dissemination of scholarly  
1050 activity within and external to the program by the following  
1051 methods:  
1052

**Background and Intent:** For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the residents’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

1053  
1054 IV.D.2.b).(1) faculty participation in grand rounds, posters,  
1055 workshops, quality improvement presentations,  
1056 podium presentations, grant leadership, non-peer-  
1057 reviewed print/electronic resources, articles or  
1058 publications, book chapters, textbooks, webinars,  
1059 service on professional committees, or serving as a  
1060 journal reviewer, journal editorial board member, or  
1061 editor; (Outcome)‡

1062  
1063 IV.D.2.b).(2) peer-reviewed publication. (Outcome)

1064  
1065 IV.D.3. Resident Scholarly Activity

1066  
1067 IV.D.3.a) Residents must participate in scholarship. (Core)

1068  
1069 V. Evaluation

1070  
1071 V.A. Resident Evaluation

1072  
1073 V.A.1. Feedback and Evaluation

**Background and Intent:** Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower residents to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring resident learning* and providing ongoing feedback that can be used by residents to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- residents identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where residents are struggling and address problems immediately

Summative evaluation is *evaluating a resident's learning* by comparing the residents against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when residents or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the residency program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a neophyte physician to one with growing expertise.

1075  
1076  
1077  
1078  
1079

- V.A.1.a) Faculty members must directly observe, evaluate, and frequently provide feedback on resident performance during each rotation or similar educational assignment. <sup>(Core)</sup>

**Background and Intent:** Faculty members should provide feedback frequently throughout the course of each rotation. Residents require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for residents who have deficiencies that may result in a poor final rotation evaluation.

1103  
1104  
1105

- V.A.1.b) Evaluation must be documented at the completion of the assignment. <sup>(Core)</sup>

- V.A.1.b).(1) For block rotations of greater than three months in duration, evaluation must be documented at least every three months. <sup>(Core)</sup>

- V.A.1.b).(2) Longitudinal experiences, such as continuity clinic in the context of other clinical responsibilities, must be evaluated at least every three months and at completion. <sup>(Core)</sup>

- V.A.1.c) The program must provide an objective performance evaluation based on the Competencies and the specialty-specific Milestones, and must: <sup>(Core)</sup>

- V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers, patients, self, and other professional staff members); and, <sup>(Core)</sup>

- V.A.1.c).(2) provide that information to the Clinical Competency Committee for its synthesis of progressive resident performance and improvement toward unsupervised practice. <sup>(Core)</sup>

- 1106 **V.A.1.d)** **The program director or their designee, with input from the**  
 1107 **Clinical Competency Committee, must:**  
 1108  
 1109 **V.A.1.d).(1)** **meet with and review with each resident their**  
 1110 **documented semi-annual evaluation of performance,**  
 1111 **including progress along the specialty-specific**  
 1112 **Milestones;** <sup>(Core)</sup>  
 1113  
 1114 V.A.1.d).(1).(a) The semiannual evaluation must include review,  
 1115 with each resident, of progress along the Milestone  
 1116 continuum and of the record of operative  
 1117 experience to ensure breadth and depth of  
 1118 experience and continuing growth in technical and  
 1119 clinical competence. <sup>(Core)</sup>  
 1120  
 1121 **V.A.1.d).(2)** **assist residents in developing individualized learning**  
 1122 **plans to capitalize on their strengths and identify areas**  
 1123 **for growth; and,** <sup>(Core)</sup>  
 1124  
 1125 **V.A.1.d).(3)** **develop plans for residents failing to progress,**  
 1126 **following institutional policies and procedures.** <sup>(Core)</sup>  
 1127

**Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a resident's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Residents should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, residents should develop an individualized learning plan.**

**Residents who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the resident, will take a variety of forms based on the specific learning needs of the resident. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of resident progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.**

- 1128  
 1129 **V.A.1.e)** **At least annually, there must be a summative evaluation of**  
 1130 **each resident that includes their readiness to progress to the**  
 1131 **next year of the program, if applicable.** <sup>(Core)</sup>  
 1132  
 1133 **V.A.1.f)** **The evaluations of a resident's performance must be**  
 1134 **accessible for review by the resident.** <sup>(Core)</sup>  
 1135  
 1136 V.A.1.g) Assessment should specifically monitor the resident's knowledge  
 1137 by use of a formal exam such as the Council on Resident  
 1138 Education in Obstetrics and Gynecology (CREOG) In-Training  
 1139 Examination or other cognitive exams. Tests results should not be

- 1140 the sole criterion of resident knowledge, and should not be used  
 1141 as the sole criterion for promotion to a subsequent PG level. (Detail)  
 1142
- 1143 **V.A.2. Final Evaluation**  
 1144
- 1145 **V.A.2.a) The program director must provide a final evaluation for each**  
 1146 **resident upon completion of the program. (Core)**  
 1147
- 1148 **V.A.2.a).(1) The specialty-specific Milestones, and when applicable**  
 1149 **the specialty-specific Case Logs, must be used as**  
 1150 **tools to ensure residents are able to engage in**  
 1151 **autonomous practice upon completion of the program.**  
 1152 **(Core)**  
 1153
- 1154 **V.A.2.a).(2) The final evaluation must:**  
 1155
- 1156 **V.A.2.a).(2).(a) become part of the resident’s permanent record**  
 1157 **maintained by the institution, and must be**  
 1158 **accessible for review by the resident in**  
 1159 **accordance with institutional policy; (Core)**  
 1160
- 1161 **V.A.2.a).(2).(b) verify that the resident has demonstrated the**  
 1162 **knowledge, skills, and behaviors necessary to**  
 1163 **enter autonomous practice; (Core)**  
 1164
- 1165 **V.A.2.a).(2).(c) consider recommendations from the Clinical**  
 1166 **Competency Committee; and, (Core)**  
 1167
- 1168 **V.A.2.a).(2).(d) be shared with the resident upon completion of**  
 1169 **the program. (Core)**  
 1170
- 1171 **V.A.3. A Clinical Competency Committee must be appointed by the**  
 1172 **program director. (Core)**  
 1173
- 1174 **V.A.3.a) At a minimum, the Clinical Competency Committee must**  
 1175 **include three members of the program faculty, at least one of**  
 1176 **whom is a core faculty member. (Core)**  
 1177
- 1178 **V.A.3.a).(1) Additional members must be faculty members from**  
 1179 **the same program or other programs, or other health**  
 1180 **professionals who have extensive contact and**  
 1181 **experience with the program’s residents. (Core)**  
 1182

**Background and Intent: The requirements regarding the Clinical Competency Committee do not preclude or limit a program director’s participation on the Clinical Competency Committee. The intent is to leave flexibility for each program to decide the best structure for its own circumstances, but a program should consider: its program director’s other roles as resident advocate, advisor, and confidante; the impact of the program director’s presence on the other Clinical Competency Committee members’ discussions and decisions; the size of the program faculty; and**

other program-relevant factors. The program director has final responsibility for resident evaluation and promotion decisions.

Program faculty may include more than the physician faculty members, such as other physicians and non-physicians who teach and evaluate the program's residents. There may be additional members of the Clinical Competency Committee. Chief residents who have completed core residency programs in their specialty may be members of the Clinical Competency Committee.

1199  
1200  
1201

- V.A.3.b) The Clinical Competency Committee must:**
- V.A.3.b).(1) review all resident evaluations at least semi-annually; (Core)**
  - V.A.3.b).(2) determine each resident's progress on achievement of the specialty-specific Milestones; and, (Core)**
  - V.A.3.b).(3) meet prior to the residents' semi-annual evaluations and advise the program director regarding each resident's progress. (Core)**
- V.B. Faculty Evaluation**
- V.B.1. The program must have a process to evaluate each faculty member's performance as it relates to the educational program at least annually. (Core)**

**Background and Intent:** The program director is responsible for the education program and for whom delivers it. While the term "faculty" may be applied to physicians within a given institution for other reasons, it is applied to residency program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the resident and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with residents desire feedback on their education, clinical care, and research. If a faculty member does not interact with residents, feedback is not required. With regard to the diverse operating environments and configurations, the residency program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the residents in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

1202  
1203  
1204  
1205

- V.B.1.a) This evaluation must include a review of the faculty member's clinical teaching abilities, engagement with the educational program, participation in faculty development related to their**

- 1206 skills as an educator, clinical performance, professionalism,  
 1207 and scholarly activities. <sup>(Core)</sup>  
 1208  
 1209 **V.B.1.b)** This evaluation must include written, anonymous, and  
 1210 confidential evaluations by the residents. <sup>(Core)</sup>  
 1211  
 1212 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
 1213 annually. <sup>(Core)</sup>  
 1214  
 1215 **V.B.3.** Results of the faculty educational evaluations should be  
 1216 incorporated into program-wide faculty development plans. <sup>(Core)</sup>  
 1217

**Background and Intent:** The quality of the faculty's teaching and clinical care is a determinant of the quality of the program and the quality of the residents' future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1218  
 1219 **V.C. Program Evaluation and Improvement**  
 1220  
 1221 **V.C.1.** The program director must appoint the Program Evaluation  
 1222 Committee to conduct and document the Annual Program  
 1223 Evaluation as part of the program's continuous improvement  
 1224 process. <sup>(Core)</sup>  
 1225  
 1226 **V.C.1.a)** The Program Evaluation Committee must be composed of at  
 1227 least two program faculty members, at least one of whom is a  
 1228 core faculty member, and at least one resident. <sup>(Core)</sup>  
 1229  
 1230 **V.C.1.b)** Program Evaluation Committee responsibilities must include:  
 1231  
 1232 **V.C.1.b).(1)** acting as an advisor to the program director, through  
 1233 program oversight; <sup>(Core)</sup>  
 1234  
 1235 **V.C.1.b).(2)** review of the program's self-determined goals and  
 1236 progress toward meeting them; <sup>(Core)</sup>  
 1237  
 1238 **V.C.1.b).(3)** guiding ongoing program improvement, including  
 1239 development of new goals, based upon outcomes;  
 1240 and, <sup>(Core)</sup>  
 1241  
 1242 **V.C.1.b).(4)** review of the current operating environment to identify  
 1243 strengths, challenges, opportunities, and threats as  
 1244 related to the program's mission and aims. <sup>(Core)</sup>  
 1245

**Background and Intent:** In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of residents and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for

- 1295 V.C.1.d) The Program Evaluation Committee must evaluate the  
 1296 program's mission and aims, strengths, areas for  
 1297 improvement, and threats. <sup>(Core)</sup>  
 1298  
 1299 V.C.1.e) The annual review, including the action plan, must:  
 1300  
 1301 V.C.1.e).(1) be distributed to and discussed with the members of  
 1302 the teaching faculty and the residents; and, <sup>(Core)</sup>  
 1303  
 1304 V.C.1.e).(2) be submitted to the DIO. <sup>(Core)</sup>  
 1305  
 1306 V.C.2. The program must complete a Self-Study prior to its 10-Year  
 1307 Accreditation Site Visit. <sup>(Core)</sup>  
 1308  
 1309 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.  
 1310 <sup>(Core)</sup>  
 1311

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the residency program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**

- 1312  
 1313 V.C.3. *One goal of ACGME-accredited education is to educate physicians*  
 1314 *who seek and achieve board certification. One measure of the*  
 1315 *effectiveness of the educational program is the ultimate pass rate.*  
 1316  
 1317 *The program director should encourage all eligible program*  
 1318 *graduates to take the certifying examination offered by the*  
 1319 *applicable American Board of Medical Specialties (ABMS) member*  
 1320 *board or American Osteopathic Association (AOA) certifying board.*  
 1321  
 1322 V.C.3.a) For specialties in which the ABMS member board and/or AOA  
 1323 certifying board offer(s) an annual written exam, in the  
 1324 preceding three years, the program's aggregate pass rate of  
 1325 those taking the examination for the first time must be higher  
 1326 than the bottom fifth percentile of programs in that specialty.  
 1327 <sup>(Outcome)</sup>  
 1328  
 1329 V.C.3.b) For specialties in which the ABMS member board and/or AOA  
 1330 certifying board offer(s) a biennial written exam, in the  
 1331 preceding six years, the program's aggregate pass rate of  
 1332 those taking the examination for the first time must be higher  
 1333 than the bottom fifth percentile of programs in that specialty.  
 1334 <sup>(Outcome)</sup>

- 1335  
 1336 **V.C.3.c)** For specialties in which the ABMS member board and/or AOA  
 1337 certifying board offer(s) an annual oral exam, in the preceding  
 1338 three years, the program’s aggregate pass rate of those  
 1339 taking the examination for the first time must be higher than  
 1340 the bottom fifth percentile of programs in that specialty.  
 1341 (Outcome)  
 1342  
 1343 **V.C.3.d)** For specialties in which the ABMS member board and/or AOA  
 1344 certifying board offer(s) a biennial oral exam, in the preceding  
 1345 six years, the program’s aggregate pass rate of those taking  
 1346 the examination for the first time must be higher than the  
 1347 bottom fifth percentile of programs in that specialty. (Outcome)  
 1348  
 1349 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program  
 1350 whose graduates over the time period specified in the  
 1351 requirement have achieved an 80 percent pass rate will have  
 1352 met this requirement, no matter the percentile rank of the  
 1353 program for pass rate in that specialty. (Outcome)  
 1354

**Background and Intent: Setting a single standard for pass rate that works across specialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.**

**There are specialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.**

- 1355  
 1356 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1357 annually for the cohort of board-eligible residents that  
 1358 graduated seven years earlier. (Core)  
 1359

**Background and Intent: It is essential that residency programs demonstrate knowledge and skill transfer to their residents. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from residency graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.**

**The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates’ performance on board certification examinations.**

**In the future, the ACGME may establish parameters related to ultimate board certification rates.**

- 1360  
 1361 **VI. The Learning and Working Environment**

1362  
1363  
1364  
1365  
1366  
1367  
1368  
1369  
1370

1372  
1373  
1374  
1375  
1376  
1377  
1378  
1379  
1380  
1381

**Residency education must occur in the context of a learning and working environment that emphasizes the following principles:**

- **Excellence in the safety and quality of care rendered to patients by residents today**
- **Excellence in the safety and quality of care rendered to patients by today's residents in their future practice**
- **Excellence in professionalism through faculty modeling of:**
  - **the effacement of self-interest in a humanistic environment that supports the professional development of physicians**
  - **the joy of curiosity, problem-solving, intellectual rigor, and discovery**
- **Commitment to the well-being of the students, residents, faculty members, and all members of the health care team**

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and residents more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and residents to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, resident education, and resident well-being. The requirements are intended to support the development of a sense of professionalism by encouraging residents to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for residents to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and resident and faculty member well-being. The requirements are intended to support programs and residents as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and residents. With this flexibility comes a responsibility for residents and faculty members to recognize the need to hand off care of a patient to another provider when a resident is too fatigued to provide safe, high quality care and for programs to ensure that residents remain within the 80-hour maximum weekly limit.

1500		<i>Access to data is essential to prioritizing activities for</i>
1501		<i>care improvement and evaluating success of</i>
1502		<i>improvement efforts.</i>
1503		
1504	VI.A.1.b).(2).(a)	<b>Residents and faculty members must receive</b>
1505		<b>data on quality metrics and benchmarks related</b>
1506		<b>to their patient populations. <sup>(Core)</sup></b>
1507		
1508	VI.A.1.b).(3)	<b>Engagement in Quality Improvement Activities</b>
1509		
1510		<i>Experiential learning is essential to developing the</i>
1511		<i>ability to identify and institute sustainable systems-</i>
1512		<i>based changes to improve patient care.</i>
1513		
1514	VI.A.1.b).(3).(a)	<b>Residents must have the opportunity to</b>
1515		<b>participate in interprofessional quality</b>
1516		<b>improvement activities. <sup>(Core)</sup></b>
1517		
1518	VI.A.1.b).(3).(a).(i)	<b>This should include activities aimed at</b>
1519		<b>reducing health care disparities. <sup>(Detail)</sup></b>
1520		
1521	VI.A.2.	<b>Supervision and Accountability</b>
1522		
1523	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for</i>
1524		<i>the care of the patient, every physician shares in the</i>
1525		<i>responsibility and accountability for their efforts in the</i>
1526		<i>provision of care. Effective programs, in partnership with</i>
1527		<i>their Sponsoring Institutions, define, widely communicate,</i>
1528		<i>and monitor a structured chain of responsibility and</i>
1529		<i>accountability as it relates to the supervision of all patient</i>
1530		<i>care.</i>
1531		
1532		<i>Supervision in the setting of graduate medical education</i>
1533		<i>provides safe and effective care to patients; ensures each</i>
1534		<i>resident's development of the skills, knowledge, and attitudes</i>
1535		<i>required to enter the unsupervised practice of medicine; and</i>
1536		<i>establishes a foundation for continued professional growth.</i>
1537		

1538 VI.A.2.a).(1) Each patient must have an identifiable and  
1539 appropriately-credentialed and privileged attending  
1540 physician (or licensed independent practitioner as  
1541 specified by the applicable Review Committee) who is  
1542 responsible and accountable for the patient’s care.  
1543 (Core)

1544  
1545 VI.A.2.a).(1).(a) This information must be available to residents,  
1546 faculty members, other members of the health  
1547 care team, and patients. (Core)

1548  
1549 VI.A.2.a).(1).(b) Residents and faculty members must inform  
1550 each patient of their respective roles in that  
1551 patient’s care when providing direct patient  
1552 care. (Core)

1553  
1554 VI.A.2.b) *Supervision may be exercised through a variety of methods.*  
1555 *For many aspects of patient care, the supervising physician*  
1556 *may be a more advanced resident or fellow. Other portions of*  
1557 *care provided by the resident can be adequately supervised*  
1558 *by the appropriate availability of the supervising faculty*  
1559 *member, fellow, or senior resident physician, either on site or*  
1560 *by means of telecommunication technology. Some activities*  
1561 *require the physical presence of the supervising faculty*  
1562 *member. In some circumstances, supervision may include*  
1563 *post-hoc review of resident-delivered care with feedback.*  
1564

**Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of resident patient interactions, education and training locations, and resident skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a resident gains more experience, even with the same patient condition or procedure. All residents have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.**

1565  
1566 VI.A.2.b).(1) The program must demonstrate that the appropriate  
1567 level of supervision in place for all residents is based  
1568 on each resident’s level of training and ability, as well  
1569 as patient complexity and acuity. Supervision may be  
1570 exercised through a variety of methods, as appropriate  
1571 to the situation. (Core)

1572  
1573 VI.A.2.b).(1).(a) Physician faculty member supervision of residents  
1574 must comply with II.B.2.h)-II.B.2.h).(2). (Core)

1575  
1576 VI.A.2.b).(2) The program must define when physical presence of a  
1577 supervising physician is required. (Core)

1578  
1579 VI.A.2.c) Levels of Supervision

1580		
1581		
1582		<b>To promote appropriate resident supervision while providing</b>
1583		<b>for graded authority and responsibility, the program must use</b>
1584		<b>the following classification of supervision:</b> <sup>(Core)</sup>
1585	<b>VI.A.2.c).(1)</b>	<b>Direct Supervision:</b>
1586		
1587	<b>VI.A.2.c).(1).(a)</b>	<b>the supervising physician is physically present</b>
1588		<b>with the resident during the key portions of the</b>
1589		<b>patient interaction; or,</b> <sup>(Core)</sup>
1590		
1591	<b>VI.A.2.c).(1).(a).(i)</b>	<b>PGY-1 residents must initially be</b>
1592		<b>supervised directly, only as described in</b>
1593		<b>VI.A.2.c).(1).(a).</b> <sup>(Core)</sup>
1594		
1595	<b>VI.A.2.c).(1).(b)</b>	<b>the supervising physician and/or patient is not</b>
1596		<b>physically present with the resident and the</b>
1597		<b>supervising physician is concurrently</b>
1598		<b>monitoring the patient care through appropriate</b>
1599		<b>telecommunication technology.</b> <sup>(Core)</sup>
1600		
1601	<b>VI.A.2.c).(1).(b).(i)</b>	<b>Telecommunication technology for direct</b>
1602		<b>supervision must not be used for the</b>
1603		<b>management of labor and delivery or with</b>
1604		<b>invasive procedures.</b> <sup>(Core)</sup>
1605		
1606	<b>VI.A.2.c).(2)</b>	<b>Indirect Supervision: the supervising physician is not</b>
1607		<b>providing physical or concurrent visual or audio</b>
1608		<b>supervision but is immediately available to the</b>
1609		<b>resident for guidance and is available to provide</b>
1610		<b>appropriate direct supervision.</b> <sup>(Core)</sup>
1611		
1612	<b>VI.A.2.c).(3)</b>	<b>Oversight – the supervising physician is available to</b>
1613		<b>provide review of procedures/encounters with</b>
1614		<b>feedback provided after care is delivered.</b> <sup>(Core)</sup>
1615		
1616	<b>VI.A.2.d)</b>	<b>The privilege of progressive authority and responsibility,</b>
1617		<b>conditional independence, and a supervisory role in patient</b>
1618		<b>care delegated to each resident must be assigned by the</b>
1619		<b>program director and faculty members.</b> <sup>(Core)</sup>
1620		
1621	<b>VI.A.2.d).(1)</b>	<b>The program director must evaluate each resident’s</b>
1622		<b>abilities based on specific criteria, guided by the</b>
1623		<b>Milestones.</b> <sup>(Core)</sup>
1624		
1625	<b>VI.A.2.d).(2)</b>	<b>Faculty members functioning as supervising</b>
1626		<b>physicians must delegate portions of care to residents</b>
1627		<b>based on the needs of the patient and the skills of</b>
1628		<b>each resident.</b> <sup>(Core)</sup>
1629		

1630 VI.A.2.d).(3) Senior residents or fellows should serve in a  
1631 supervisory role to junior residents in recognition of  
1632 their progress toward independence, based on the  
1633 needs of each patient and the skills of the individual  
1634 resident or fellow. <sup>(Detail)</sup>  
1635

1636 VI.A.2.e) Programs must set guidelines for circumstances and events  
1637 in which residents must communicate with the supervising  
1638 faculty member(s). <sup>(Core)</sup>  
1639

1640 VI.A.2.e).(1) Each resident must know the limits of their scope of  
1641 authority, and the circumstances under which the  
1642 resident is permitted to act with conditional  
1643 independence. <sup>(Outcome)</sup>  
1644

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

1645  
1646 VI.A.2.f) Faculty supervision assignments must be of sufficient  
1647 duration to assess the knowledge and skills of each resident  
1648 and to delegate to the resident the appropriate level of patient  
1649 care authority and responsibility. <sup>(Core)</sup>  
1650

1651 VI.B. Professionalism

1652  
1653 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must  
1654 educate residents and faculty members concerning the professional  
1655 responsibilities of physicians, including their obligation to be  
1656 appropriately rested and fit to provide the care required by their  
1657 patients. <sup>(Core)</sup>  
1658

1659 VI.B.2. The learning objectives of the program must:

1660  
1661 VI.B.2.a) be accomplished through an appropriate blend of supervised  
1662 patient care responsibilities, clinical teaching, and didactic  
1663 educational events; <sup>(Core)</sup>  
1664

1665 VI.B.2.b) be accomplished without excessive reliance on residents to  
1666 fulfill non-physician obligations; and, <sup>(Core)</sup>  
1667

**Background and Intent: Routine reliance on residents to fulfill non-physician obligations increases work compression for residents and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that residents may be expected to do any of these**

things on occasion when the need arises, these activities should not be performed by residents routinely and must be kept to a minimum to optimize resident education.

1668  
1669  
1670

VI.B.2.c) ensure manageable patient care responsibilities. (Core)

**Background and Intent:** The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression, especially at the PGY-1 level.

1671  
1672  
1673  
1674  
1675  
1676  
1677  
1678  
1679  
1680  
1681  
1682  
1683  
1684

VI.B.3. The program director, in partnership with the Sponsoring Institution, must provide a culture of professionalism that supports patient safety and personal responsibility. (Core)

VI.B.4. Residents and faculty members must demonstrate an understanding of their personal role in the:

VI.B.4.a) provision of patient- and family-centered care; (Outcome)

VI.B.4.b) safety and welfare of patients entrusted to their care, including the ability to report unsafe conditions and adverse events; (Outcome)

**Background and Intent:** This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the resident.

1685  
1686  
1687

VI.B.4.c) assurance of their fitness for work, including; (Outcome)

**Background and Intent:** This requirement emphasizes the professional responsibility of faculty members and residents to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, residents, and other members of the care team to be observant, to intervene, and/or to escalate their concern about resident and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

1688  
1689  
1690  
1691  
1692  
1693  
1694  
1695  
1696  
1697  
1698  
1699

VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, (Outcome)

VI.B.4.c).(2) recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)

VI.B.4.d) commitment to lifelong learning; (Outcome)

VI.B.4.e) monitoring of their patient care performance improvement indicators; and, (Outcome)

- 1700  
1701 **VI.B.4.f)** accurate reporting of clinical and educational work hours,  
1702 patient outcomes, and clinical experience data. <sup>(Outcome)</sup>  
1703
- 1704 **VI.B.5.** All residents and faculty members must demonstrate  
1705 responsiveness to patient needs that supersedes self-interest. This  
1706 includes the recognition that under certain circumstances, the best  
1707 interests of the patient may be served by transitioning that patient's  
1708 care to another qualified and rested provider. <sup>(Outcome)</sup>  
1709
- 1710 **VI.B.6.** Programs, in partnership with their Sponsoring Institutions, must  
1711 provide a professional, equitable, respectful, and civil environment  
1712 that is free from discrimination, sexual and other forms of  
1713 harassment, mistreatment, abuse, or coercion of students,  
1714 residents, faculty, and staff. <sup>(Core)</sup>  
1715
- 1716 **VI.B.7.** Programs, in partnership with their Sponsoring Institutions, should  
1717 have a process for education of residents and faculty regarding  
1718 unprofessional behavior and a confidential process for reporting,  
1719 investigating, and addressing such concerns. <sup>(Core)</sup>  
1720
- 1721 **VI.C. Well-Being**  
1722
- 1723 *Psychological, emotional, and physical well-being are critical in the*  
1724 *development of the competent, caring, and resilient physician and require*  
1725 *proactive attention to life inside and outside of medicine. Well-being*  
1726 *requires that physicians retain the joy in medicine while managing their*  
1727 *own real-life stresses. Self-care and responsibility to support other*  
1728 *members of the health care team are important components of*  
1729 *professionalism; they are also skills that must be modeled, learned, and*  
1730 *nurtured in the context of other aspects of residency training.*
- 1731  
1732 *Residents and faculty members are at risk for burnout and depression.*  
1733 *Programs, in partnership with their Sponsoring Institutions, have the same*  
1734 *responsibility to address well-being as other aspects of resident*  
1735 *competence. Physicians and all members of the health care team share*  
1736 *responsibility for the well-being of each other. For example, a culture which*  
1737 *encourages covering for colleagues after an illness without the expectation*  
1738 *of reciprocity reflects the ideal of professionalism. A positive culture in a*  
1739 *clinical learning environment models constructive behaviors, and prepares*  
1740 *residents with the skills and attitudes needed to thrive throughout their*  
1741 *careers.*  
1742

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

- 1743  
1744  
1745  
1746  
1747  
1748  
1749  
1750  
1751  
1752  
1753  
1754  
1755  
1756  
1757  
1758  
1759
- VI.C.1. The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:**
- VI.C.1.a) efforts to enhance the meaning that each resident finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; (Core)**
- VI.C.1.b) attention to scheduling, work intensity, and work compression that impacts resident well-being; (Core)**
- VI.C.1.c) evaluating workplace safety data and addressing the safety of residents and faculty members; (Core)**

**Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance resident and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.**

- 1760  
1761  
1762  
1763
- VI.C.1.d) policies and programs that encourage optimal resident and faculty member well-being; and, (Core)**

**Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.**

- 1764  
1765  
1766  
1767  
1768  
1769
- VI.C.1.d).(1) Residents must be given the opportunity to attend medical, mental health, and dental care appointments, including those scheduled during their working hours. (Core)**

**Background and Intent: The intent of this requirement is to ensure that residents have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Residents must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.**

- 1770  
1771  
1772
- VI.C.1.e) attention to resident and faculty member burnout, depression, and substance use disorders. The program, in**

1773 partnership with its Sponsoring Institution, must educate  
1774 faculty members and residents in identification of the  
1775 symptoms of burnout, depression, and substance use  
1776 disorders, including means to assist those who experience  
1777 these conditions. Residents and faculty members must also  
1778 be educated to recognize those symptoms in themselves and  
1779 how to seek appropriate care. The program, in partnership  
1780 with its Sponsoring Institution, must: <sup>(Core)</sup>  
1781

**Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorders. Materials and more information are available on the Physician Well-being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).**

1782  
1783 VI.C.1.e).(1) encourage residents and faculty members to alert the  
1784 program director or other designated personnel or  
1785 programs when they are concerned that another  
1786 resident, fellow, or faculty member may be displaying  
1787 signs of burnout, depression, a substance use  
1788 disorder, suicidal ideation, or potential for violence;  
1789 <sup>(Core)</sup>  
1790

**Background and Intent: Individuals experiencing burnout, depression, a substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that residents and faculty members are able to report their concerns when another resident or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Residents and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.**

1791  
1792 VI.C.1.e).(2) provide access to appropriate tools for self-screening;  
1793 and, <sup>(Core)</sup>  
1794

1795 VI.C.1.e).(3) provide access to confidential, affordable mental  
1796 health assessment, counseling, and treatment,  
1797 including access to urgent and emergent care 24  
1798 hours a day, seven days a week. <sup>(Core)</sup>  
1799

**Background and Intent: The intent of this requirement is to ensure that residents have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse**

Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1800  
1801 **VI.C.2.** There are circumstances in which residents may be unable to attend  
1802 work, including but not limited to fatigue, illness, family  
1803 emergencies, and parental leave. Each program must allow an  
1804 appropriate length of absence for residents unable to perform their  
1805 patient care responsibilities. <sup>(Core)</sup>

1806  
1807 **VI.C.2.a)** The program must have policies and procedures in place to  
1808 ensure coverage of patient care. <sup>(Core)</sup>

1809  
1810 **VI.C.2.b)** These policies must be implemented without fear of negative  
1811 consequences for the resident who is or was unable to  
1812 provide the clinical work. <sup>(Core)</sup>  
1813

**Background and Intent: Residents may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.**

1814  
1815 **VI.D. Fatigue Mitigation**

1816  
1817 **VI.D.1. Programs must:**

1818  
1819 **VI.D.1.a)** educate all faculty members and residents to recognize the  
1820 signs of fatigue and sleep deprivation; <sup>(Core)</sup>

1821  
1822 **VI.D.1.b)** educate all faculty members and residents in alertness  
1823 management and fatigue mitigation processes; and, <sup>(Core)</sup>

1824  
1825 **VI.D.1.c)** encourage residents to use fatigue mitigation processes to  
1826 manage the potential negative effects of fatigue on patient  
1827 care and learning. <sup>(Detail)</sup>  
1828

**Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares residents for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.**

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management**

to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

- 1829  
1830 **VI.D.2.** Each program must ensure continuity of patient care, consistent  
1831 with the program's policies and procedures referenced in VI.C.2–  
1832 VI.C.2.b), in the event that a resident may be unable to perform their  
1833 patient care responsibilities due to excessive fatigue. <sup>(Core)</sup>  
1834  
1835 **VI.D.3.** The program, in partnership with its Sponsoring Institution, must  
1836 ensure adequate sleep facilities and safe transportation options for  
1837 residents who may be too fatigued to safely return home. <sup>(Core)</sup>  
1838  
1839 **VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care**  
1840  
1841 **VI.E.1. Clinical Responsibilities**  
1842  
1843 The clinical responsibilities for each resident must be based on PGY  
1844 level, patient safety, resident ability, severity and complexity of  
1845 patient illness/condition, and available support services. <sup>(Core)</sup>  
1846

**Background and Intent:** The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on residents. Faculty members and program directors need to make sure residents function in an environment that has safe patient care and a sense of resident well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor resident workload. Workload should be distributed among the resident team and interdisciplinary teams to minimize work compression.

- 1847  
1848 **VI.E.2. Teamwork**  
1849  
1850 Residents must care for patients in an environment that maximizes  
1851 communication. This must include the opportunity to work as a  
1852 member of effective interprofessional teams that are appropriate to  
1853 the delivery of care in the specialty and larger health system. <sup>(Core)</sup>  
1854  
1855 **VI.E.3. Transitions of Care**  
1856  
1857 **VI.E.3.a)** Programs must design clinical assignments to optimize  
1858 transitions in patient care, including their safety, frequency,  
1859 and structure. <sup>(Core)</sup>  
1860  
1861 **VI.E.3.b)** Programs, in partnership with their Sponsoring Institutions,  
1862 must ensure and monitor effective, structured hand-over  
1863 processes to facilitate both continuity of care and patient  
1864 safety. <sup>(Core)</sup>  
1865

- 1866 VI.E.3.c) Programs must ensure that residents are competent in  
 1867 communicating with team members in the hand-over process.  
 1868 (Outcome)  
 1869  
 1870 VI.E.3.d) Programs and clinical sites must maintain and communicate  
 1871 schedules of attending physicians and residents currently  
 1872 responsible for care. (Core)  
 1873  
 1874 VI.E.3.e) Each program must ensure continuity of patient care,  
 1875 consistent with the program’s policies and procedures  
 1876 referenced in VI.C.2-VI.C.2.b), in the event that a resident may  
 1877 be unable to perform their patient care responsibilities due to  
 1878 excessive fatigue or illness, or family emergency. (Core)  
 1879  
 1880 VI.F. Clinical Experience and Education  
 1881  
 1882 *Programs, in partnership with their Sponsoring Institutions, must design*  
 1883 *an effective program structure that is configured to provide residents with*  
 1884 *educational and clinical experience opportunities, as well as reasonable*  
 1885 *opportunities for rest and personal activities.*  
 1886

**Background and Intent:** In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that residents’ duty to “clock out” on time superseded their duty to their patients.

- 1887  
 1888 VI.F.1. Maximum Hours of Clinical and Educational Work per Week  
 1889  
 1890 Clinical and educational work hours must be limited to no more than  
 1891 80 hours per week, averaged over a four-week period, inclusive of all  
 1892 in-house clinical and educational activities, clinical work done from  
 1893 home, and all moonlighting. (Core)  
 1894

**Background and Intent:** Programs and residents have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing residents to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

**Scheduling**  
 While the ACGME acknowledges that, on rare occasions, a resident may work in excess of 80 hours in a given week, all programs and residents utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule residents to work 80 hours per week and still permit residents to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that residents are scheduled to work fewer than 80 hours per week, which would allow residents to remain beyond

their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

### ***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for residents to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

### ***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that residents are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work residents choose to do from home. The requirement provides flexibility for residents to do this while ensuring that the time spent by residents completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Resident decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the resident's supervisor. In such circumstances, residents should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a resident spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the resident need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by residents. The new requirements are not an attempt to micromanage this process. Residents are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual resident. Programs will need to factor in time residents are spending on clinical work at home when schedules are developed to ensure that residents are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that residents report their time from home and that schedules are structured to ensure that residents are not working in excess of 80 hours per week, averaged over four weeks.

### ***PGY-1 and PGY-2 Residents***

PGY-1 and PGY-2 residents may not have the experience to make decisions about when it is appropriate to utilize flexibility or may feel pressured to use it when unnecessary.

Programs are responsible for ensuring that residents are provided with manageable workloads that can be accomplished during scheduled work hours. This includes ensuring that a resident's assigned direct patient load is manageable, that residents have appropriate support from their clinical teams, and that residents are not overburdened with clerical work and/or other non-physician duties.

**VI.F.2. Mandatory Time Free of Clinical Work and Education**

**VI.F.2.a) The program must design an effective program structure that is configured to provide residents with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>**

**VI.F.2.b) Residents should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>**

**VI.F.2.b).(1) There may be circumstances when residents choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. <sup>(Detail)</sup>**

**Background and Intent: While it is expected that resident schedules will be structured to ensure that residents are provided with a minimum of eight hours off between scheduled work periods, it is recognized that residents may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for residents to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.**

1913  
1914  
1915  
1916

**VI.F.2.c) Residents must have at least 14 hours free of clinical work and education after 24 hours of in-house call. <sup>(Core)</sup>**

**Background and Intent: Residents have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, residents are encouraged to prioritize sleep over other discretionary activities.**

1917  
1918  
1919  
1920  
1921  
1922

**VI.F.2.d) Residents must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. <sup>(Core)</sup>**

**Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and resident needs. It is strongly recommended that residents' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some residents may prefer to group their days off to have a**

**“golden weekend,” meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide residents with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes resident well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as “one (1) continuous 24-hour period free from all administrative, clinical, and educational activities.”**

1929

**VI.F.3. Maximum Clinical Work and Education Period Length**

**VI.F.3.a) Clinical and educational work periods for residents must not exceed 24 hours of continuous scheduled clinical assignments. (Core)**

**Background and Intent: The Task Force examined the question of “consecutive time on task.” It examined the research supporting the current limit of 16 consecutive hours of time on task for PGY-1 residents; the range of often conflicting impacts of this requirement on patient safety, clinical care, and continuity of care by resident teams; and resident learning found in the literature. Finally, it heard a uniform request by the specialty societies, certifying boards, membership societies and organizations, and senior residents to repeal this requirement. It heard conflicting perspectives from resident unions, a medical student association, and a number of public advocacy groups, some arguing for continuation of the requirement, others arguing for extension of the requirement to all residents.**

**Of greatest concern to the Task Force were the observations of disruption of team care and patient care continuity brought about with residents beyond the PGY-1 level adhering to differing requirements. The graduate medical education community uniformly requested that the Task Force remove this requirement. The most frequently-cited reason for this request was the complete disruption of the team, separating the PGY-1 from supervisory faculty members and residents who were best able to judge the ability of the resident and customize the supervision of patient care for each PGY-1. Cited nearly as frequently was the separation of the PGY-1 from the team, delaying maturation of clinical skills, and threatening to create a “shift” mentality in disciplines where overnight availability to patients is essential in delivery of care.**

**The Task Force examined the impact of the request to consider 16-consecutive-hour limits for all residents, and rejected the proposition. It found that model incompatible with the actual practice of medicine and surgery in many specialties, excessively limiting in configuration of clinical services in many disciplines, and potentially disruptive of the inculcation of responsibility and professional commitment to altruism and placing the needs of patients above those of the physician.**

**After careful consideration of the information available, the testimony and position of all parties submitting information, and presentations to the Task Force, the Task Force removed the 16-hour-consecutive-time-on-task requirement for PGY-1 residents. It remains crucial that programs ensure that PGY-1 residents are supervised in**

compliance with the applicable Program Requirements, and that resident well-being is prioritized as described in Section VI.C. of these requirements.

- 1930  
1931 VI.F.3.a).(1) Up to four hours of additional time may be used for  
1932 activities related to patient safety, such as providing  
1933 effective transitions of care, and/or resident education.  
1934 (Core)  
1935  
1936 VI.F.3.a).(1).(a) Additional patient care responsibilities must not  
1937 be assigned to a resident during this time. (Core)  
1938

**Background and Intent:** The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the resident continue to function as a member of the team in an environment where other members of the team can assess resident fatigue, and that supervision for post-call residents is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- 1939  
1940 VI.F.4. Clinical and Educational Work Hour Exceptions  
1941  
1942 VI.F.4.a) In rare circumstances, after handing off all other  
1943 responsibilities, a resident, on their own initiative, may elect  
1944 to remain or return to the clinical site in the following  
1945 circumstances:  
1946  
1947 VI.F.4.a).(1) to continue to provide care to a single severely ill or  
1948 unstable patient; (Detail)  
1949  
1950 VI.F.4.a).(2) humanistic attention to the needs of a patient or  
1951 family; or, (Detail)  
1952  
1953 VI.F.4.a).(3) to attend unique educational events. (Detail)  
1954  
1955 VI.F.4.b) These additional hours of care or education will be counted  
1956 toward the 80-hour weekly limit. (Detail)  
1957

**Background and Intent:** This requirement is intended to provide residents with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a resident may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Residents must not be required to stay. Programs allowing residents to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the resident and that residents are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

- 1958  
1959 VI.F.4.c) A Review Committee may grant rotation-specific exceptions  
1960 for up to 10 percent or a maximum of 88 clinical and  
1961 educational work hours to individual programs based on a  
1962 sound educational rationale.

**VI.F.7. Maximum In-House On-Call Frequency**

**Residents must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period). (Core)**

**VI.F.8. At-Home Call**

**VI.F.8.a) Time spent on patient care activities by residents on at-home call must count toward the 80-hour maximum weekly limit. The frequency of at-home call is not subject to the every-third-night limitation, but must satisfy the requirement for one day in seven free of clinical work and education, when averaged over four weeks. (Core)**

**VI.F.8.a).(1) At-home call must not be so frequent or taxing as to preclude rest or reasonable personal time for each resident. (Core)**

**VI.F.8.b) Residents are permitted to return to the hospital while on at-home call to provide direct care for new or established**

2007  
2008  
2009

patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. <sup>(Detail)</sup>

**Background and Intent:** This requirement has been modified to specify that clinical work done from home when a resident is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time residents devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in residents routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

**In their evaluation of residency/fellowship programs, Review Committees will look at the overall impact of at-home call on resident/fellow rest and personal time.**
