VI.F. Clinical Experience and Education .....	51

1 **ACGME Program Requirements for Graduate Medical Education**  
2 **in Reproductive Endocrinology and Infertility**

3  
4 **Common Program Requirements (Fellowship) are in BOLD**

5  
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that  
7 section. These philosophic statements are not program requirements and are therefore not  
8 citable.  
9

**Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

10  
11 **Introduction**

12  
13 **Int.A.** *Fellowship is advanced graduate medical education beyond a core  
14 residency program for physicians who desire to enter more specialized  
15 practice. Fellowship-trained physicians serve the public by providing  
16 subspecialty care, which may also include core medical care, acting as a  
17 community resource for expertise in their field, creating and integrating  
18 new knowledge into practice, and educating future generations of  
19 physicians. Graduate medical education values the strength that a diverse  
20 group of physicians brings to medical care.*

21  
22 *Fellows who have completed residency are able to practice independently  
23 in their core specialty. The prior medical experience and expertise of  
24 fellows distinguish them from physicians entering into residency training.  
25 The fellow's care of patients within the subspecialty is undertaken with  
26 appropriate faculty supervision and conditional independence. Faculty  
27 members serve as role models of excellence, compassion,  
28 professionalism, and scholarship. The fellow develops deep medical  
29 knowledge, patient care skills, and expertise applicable to their focused  
30 area of practice. Fellowship is an intensive program of subspecialty clinical  
31 and didactic education that focuses on the multidisciplinary care of  
32 patients. Fellowship education is often physically, emotionally, and  
33 intellectually demanding, and occurs in a variety of clinical learning  
34 environments committed to graduate medical education and the well-being  
35 of patients, residents, fellows, faculty members, students, and all members  
36 of the health care team.*

37  
38 *In addition to clinical education, many fellowship programs advance  
39 fellows' skills as physician-scientists. While the ability to create new  
40 knowledge within medicine is not exclusive to fellowship-educated  
41 physicians, the fellowship experience expands a physician's abilities to  
42 pursue hypothesis-driven scientific inquiry that results in contributions to  
43 the medical literature and patient care. Beyond the clinical subspecialty  
44 expertise achieved, fellows develop mentored relationships built on an  
45 infrastructure that promotes collaborative research.*

46  
47 **Int.B.** **Definition of Subspecialty**

48  
49 Reproductive endocrinology and infertility physicians provide consultative  
50 services and comprehensive management of patients with reproductive  
51 endocrinology and infertility problems throughout the life cycle. This includes the  
52 preventive, diagnostic, and therapeutic procedures necessary for the total care of  
53 patients with endocrine, structural, genetic, and fertility problems. This requires  
54 additional education and training to acquire advanced knowledge of the most  
55 current diagnostic and therapeutic approaches available. The subspecialist  
56 should be able to function effectively in the arena of basic and applied  
57 investigation in reproductive endocrinology and infertility.

58  
59 **Int.C. Length of Educational Program**

60  
61 The educational program in reproductive endocrinology and infertility must be 36  
62 months in length. <sup>(Core)\*</sup>

63  
64 **I. Oversight**

65  
66 **I.A. Sponsoring Institution**

67  
68 *The Sponsoring Institution is the organization or entity that assumes the*  
69 *ultimate financial and academic responsibility for a program of graduate*  
70 *medical education consistent with the ACGME Institutional Requirements.*

71  
72 *When the Sponsoring Institution is not a rotation site for the program, the*  
73 *most commonly utilized site of clinical activity for the program is the*  
74 *primary clinical site.*

75  
**Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.**

76  
77 **I.A.1. The program must be sponsored by one ACGME-accredited**  
78 **Sponsoring Institution.** <sup>(Core)</sup>

79  
80 **I.B. Participating Sites**

81  
82 *A participating site is an organization providing educational experiences or*  
83 *educational assignments/rotations for fellows.*

84  
85 **I.B.1. The program, with approval of its Sponsoring Institution, must**  
86 **designate a primary clinical site.** <sup>(Core)</sup>

87  
88 **I.B.1.a) The Sponsoring Institution must also sponsor an ACGME-**  
89 **accredited residency program in obstetrics and gynecology.** <sup>(Core)</sup>

- 90
- 91 I.B.1.a).(1) The program must function as an integral part of an  
 92 ACGME-accredited residency program in obstetrics and  
 93 gynecology. <sup>(Core)</sup>
- 94
- 95 I.B.1.a).(2) The fellowship program and residency program must  
 96 complement and enrich one another. <sup>(Core)</sup>
- 97
- 98 **I.B.2. There must be a program letter of agreement (PLA) between the  
 99 program and each participating site that governs the relationship  
 100 between the program and the participating site providing a required  
 101 assignment.** <sup>(Core)</sup>
- 102
- 103 **I.B.2.a) The PLA must:**
- 104
- 105 **I.B.2.a).(1) be renewed at least every 10 years; and,** <sup>(Core)</sup>
- 106
- 107 **I.B.2.a).(2) be approved by the designated institutional official  
 108 (DIO).** <sup>(Core)</sup>
- 109
- 110 **I.B.3. The program must monitor the clinical learning and working  
 111 environment at all participating sites.** <sup>(Core)</sup>
- 112
- 113 **I.B.3.a) At each participating site there must be one faculty member,  
 114 designated by the program director, who is accountable for  
 115 fellow education for that site, in collaboration with the  
 116 program director.** <sup>(Core)</sup>
- 117

**Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.**

**Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:**

- **Identifying the faculty members who will assume educational and supervisory responsibility for fellows**
- **Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows**
- **Specifying the duration and content of the educational experience**
- **Stating the policies and procedures that will govern fellow education during the assignment**

118

119 **I.B.4.** The program director must submit any additions or deletions of  
120 participating sites routinely providing an educational experience,  
121 required for all fellows, of one month full time equivalent (FTE) or  
122 more through the ACGME’s Accreditation Data System (ADS). <sup>(Core)</sup>  
123

124 **I.C.** The program, in partnership with its Sponsoring Institution, must engage in  
125 practices that focus on mission-driven, ongoing, systematic recruitment  
126 and retention of a diverse and inclusive workforce of residents (if present),  
127 fellows, faculty members, senior administrative staff members, and other  
128 relevant members of its academic community. <sup>(Core)</sup>  
129

**Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).**

130  
131 **I.D. Resources**

132  
133 **I.D.1.** The program, in partnership with its Sponsoring Institution, must  
134 ensure the availability of adequate resources for fellow education.  
135 <sup>(Core)</sup>  
136

137 I.D.1.a) Operating rooms and ambulatory care facilities must be available  
138 on a regularly scheduled basis and must always be available on  
139 an emergency basis. These must include the following: <sup>(Core)</sup>  
140

141 I.D.1.a).(1) ambulatory facilities, including ultrasound imaging; <sup>(Core)</sup>  
142

143 I.D.1.a).(2) blood bank(s); <sup>(Core)</sup>  
144

145 I.D.1.a).(3) diagnostic laboratories; <sup>(Core)</sup>  
146

147 I.D.1.a).(4) facilities to perform hysterosalpingography,  
148 sonohysterography, computerized axial tomography, bone  
149 densitometry, and magnetic resonance imaging; <sup>(Core)</sup>  
150

151 I.D.1.a).(5) imaging services; <sup>(Core)</sup>  
152

153 I.D.1.a).(6) intensive care unit(s); <sup>(Core)</sup>  
154

155 I.D.1.a).(7) laboratories equipped to conduct hormone assays and  
156 andrology testing; <sup>(Core)</sup>  
157

158 I.D.1.a).(8) a laboratory of assisted reproductive technologies in  
159 compliance with all regulatory statutes and reporting of  
160 clinical outcomes as required by government entities; <sup>(Core)</sup>  
161

- 162 I.D.1.a).(8).(a) This laboratory must be equipped to conduct  
 163 oocyte identification, fertilization, and embryo  
 164 culture and diagnostic procedures. (Core)  
 165  
 166 I.D.1.a).(9) operating rooms equipped for open, endoscopic, and  
 167 microsurgical procedures; and, (Core)  
 168  
 169 I.D.1.a).(10) recovery room(s). (Core)  
 170  
 171 I.D.1.b) Research infrastructure must be adequate in scope, equipment,  
 172 statistical support, and personnel to conduct research training.  
 173 (Core)  
 174  
 175 I.D.1.c) Medical Records  
 176  
 177 I.D.1.c).(1) Individual patient medical records must be readily available  
 178 for patient care, clinical research, mandated outcome  
 179 reporting, and quality improvement projects. (Core)  
 180  
 181 I.D.1.d) Consultation  
 182  
 183 I.D.1.d).(1) A program must ensure fellows have access to  
 184 consultative services in the areas of:  
 185  
 186 I.D.1.d).(1).(a) genetics; (Core)  
 187  
 188 I.D.1.d).(1).(b) male infertility; (Core)  
 189  
 190 I.D.1.d).(1).(c) medical endocrinology; and, (Core)  
 191  
 192 I.D.1.d).(1).(d) pediatric endocrinology. (Core)  
 193  
 194 **I.D.2. The program, in partnership with its Sponsoring Institution, must**  
 195 **ensure healthy and safe learning and working environments that**  
 196 **promote fellow well-being and provide for:** (Core)  
 197  
 198 **I.D.2.a) access to food while on duty;** (Core)  
 199  
 200 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**  
 201 **and accessible for fellows with proximity appropriate for safe**  
 202 **patient care;** (Core)  
 203

**Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.**

204  
205 **I.D.2.c)** **clean and private facilities for lactation that have refrigeration**  
206 **capabilities, with proximity appropriate for safe patient care;**  
207 **(Core)**  
208

**Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).**

209  
210 **I.D.2.d)** **security and safety measures appropriate to the participating**  
211 **site; and, (Core)**  
212

213 **I.D.2.e)** **accommodations for fellows with disabilities consistent with**  
214 **the Sponsoring Institution's policy. (Core)**  
215

216 **I.D.3.** **Fellows must have ready access to subspecialty-specific and other**  
217 **appropriate reference material in print or electronic format. This**  
218 **must include access to electronic medical literature databases with**  
219 **full text capabilities. (Core)**  
220

221 **I.D.4.** **The program's educational and clinical resources must be adequate**  
222 **to support the number of fellows appointed to the program. (Core)**  
223

224 **I.D.4.a)** **The volume and diversity of cases must be sufficient to provide**  
225 **adequate experiences in the comprehensive management of**  
226 **reproductive endocrinology and infertility, including surgical and**  
227 **medical care, to meet the educational objectives of the program.**  
228 **(Core)**  
229

230 **I.E.** ***A fellowship program usually occurs in the context of many learners and***  
231 ***other care providers and limited clinical resources. It should be structured***  
232 ***to optimize education for all learners present.***  
233

234 **I.E.1.** **Fellows should contribute to the education of residents in core**  
235 **programs, if present. (Core)**  
236

237 **I.E.1.a)** **There must be adequate patient volume and diversity to educate**  
238 **the approved number of fellows without adversely impacting the**  
239 **education of residents in the obstetrics and gynecology residency.**  
240 **(Core)**  
241

242 **I.E.1.b)** **The educational opportunities for the fellows and residents in**  
243 **obstetrics and gynecology must be separate and clearly**  
244 **delineated. (Core)**  
245

246 **I.E.2.** **The program director must monitor the impact of other learners on the**  
247 **experience of the fellows. (Core)**

**Background and Intent:** The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.

249  
250  
251  
252  
253  
254  
255  
256  
257  
258  
259  
260  
261  
262  
263  
264

**II. Personnel**

**II.A. Program Director**

**II.A.1.** There must be one faculty member appointed as program director with authority and accountability for the overall program, including compliance with all applicable program requirements. <sup>(Core)</sup>

**II.A.1.a)** The Sponsoring Institution's Graduate Medical Education Committee (GMEC) must approve a change in program director. <sup>(Core)</sup>

**II.A.1.b)** Final approval of the program director resides with the Review Committee. <sup>(Core)</sup>

**Background and Intent:** To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.

The ultimate outcome of graduate medical education is excellence in fellow education and patient care.

The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.

Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.

265  
266  
267  
268

**II.A.2.** The program director and, as applicable, the program's leadership team, must be provided with support adequate for administration of the program based upon its size and configuration. <sup>(Core)</sup>

269  
270 II.A.2.a) At a minimum, the program director must be provided with support  
271 equal to a dedicated minimum of 0.2 FTE for administration of the  
272 program. <sup>(Core)</sup>  
273

**Background and Intent: Twenty percent FTE is defined as one day per week.**

**“Administrative time” is defined as non-clinical time spent meeting the responsibilities of the program director as detailed in requirements II.A.4.-II.A.4.a).(16).**

**The requirement does not address the source of funding required to provide the specified salary support.**

274  
275 **II.A.3. Qualifications of the program director:**

276  
277 **II.A.3.a) must include subspecialty expertise and qualifications**  
278 **acceptable to the Review Committee;** <sup>(Core)</sup>

279  
280 **II.A.3.b) must include current certification in the subspecialty for**  
281 **which they are the program director by the American Board**  
282 **of Obstetrics and Gynecology, or by the American Osteopathic**  
283 **Board of Obstetrics and Gynecology, or subspecialty**  
284 **qualifications that are acceptable to the Review Committee;**  
285 <sup>(Core)</sup>

286  
287 II.A.3.c) must include five years’ experience as a reproductive  
288 endocrinology and infertility subspecialist following completion of a  
289 reproductive endocrinology and infertility fellowship, or possess  
290 qualifications that are acceptable to the Review Committee; <sup>(Core)</sup>  
291

Specialty-Specific Background and Intent: The Committee believes five years of experience as a reproductive endocrinology and infertility physician provides a new program director with the clinical, educational, research, and administrative background needed to effectively lead a program. The Committee will consider a candidate for program director who has fewer than five years of experience provided the faculty member demonstrates clinical and scholarly expertise in reproductive endocrinology and infertility, is exceptionally well-prepared and positioned to take on this leadership position, and has mentorship and support by at least one faculty member that can be documented.

292  
293 II.A.3.d) must include active care of patients in the subspecialty; and, <sup>(Core)</sup>  
294

295 II.A.3.e) must include demonstration of clinical and scholarly expertise in  
296 reproductive endocrinology and infertility by publication of at least  
297 three original peer-reviewed publications within the past three  
298 years, and at least two of the following annually: <sup>(Core)</sup>  
299

300 II.A.3.e).(1) grant with leadership role (principal investigator, co-  
301 investigator, site director); <sup>(Core)</sup>  
302

303 II.A.3.e).(2) invited or research presentation at  
304 regional/national/international scientific or faculty

305 development meetings (primary presenter, co-presenter,  
306 co-investigator, or senior author); and, <sup>(Core)</sup>

307  
308 II.A.3.e).(3) active leadership role in a national or international  
309 organization or as an editorial board member for a peer-  
310 reviewed journal. <sup>(Core)</sup>

311  
312 **II.A.4. Program Director Responsibilities**

313  
314 **The program director must have responsibility, authority, and**  
315 **accountability for: administration and operations; teaching and**  
316 **scholarly activity; fellow recruitment and selection, evaluation, and**  
317 **promotion of fellows, and disciplinary action; supervision of fellows;**  
318 **and fellow education in the context of patient care. <sup>(Core)</sup>**

319  
320 **II.A.4.a) The program director must:**

321  
322 **II.A.4.a).(1) be a role model of professionalism; <sup>(Core)</sup>**

323  
**Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.**

324  
325 **II.A.4.a).(2) design and conduct the program in a fashion**  
326 **consistent with the needs of the community, the**  
327 **mission(s) of the Sponsoring Institution, and the**  
328 **mission(s) of the program; <sup>(Core)</sup>**

329  
**Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.**

330  
331 **II.A.4.a).(3) administer and maintain a learning environment**  
332 **conducive to educating the fellows in each of the**  
333 **ACGME Competency domains; <sup>(Core)</sup>**

334  
**Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.**

335

- 336 II.A.4.a).(4) develop and oversee a process to evaluate candidates  
 337 prior to approval as program faculty members for  
 338 participation in the fellowship program education and  
 339 at least annually thereafter, as outlined in V.B.; (Core)  
 340
- 341 II.A.4.a).(5) have the authority to approve program faculty  
 342 members for participation in the fellowship program  
 343 education at all sites; (Core)  
 344
- 345 II.A.4.a).(6) have the authority to remove program faculty  
 346 members from participation in the fellowship program  
 347 education at all sites; (Core)  
 348
- 349 II.A.4.a).(7) have the authority to remove fellows from supervising  
 350 interactions and/or learning environments that do not  
 351 meet the standards of the program; (Core)  
 352

**Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.**

**There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.**

- 353
- 354 II.A.4.a).(8) submit accurate and complete information required  
 355 and requested by the DIO, GMEC, and ACGME; (Core)  
 356
- 357 II.A.4.a).(9) provide applicants who are offered an interview with  
 358 information related to the applicant's eligibility for the  
 359 relevant subspecialty board examination(s); (Core)  
 360
- 361 II.A.4.a).(10) provide a learning and working environment in which  
 362 fellows have the opportunity to raise concerns and  
 363 provide feedback in a confidential manner as  
 364 appropriate, without fear of intimidation or retaliation;  
 365 (Core)  
 366
- 367 II.A.4.a).(11) ensure the program's compliance with the Sponsoring  
 368 Institution's policies and procedures related to  
 369 grievances and due process; (Core)  
 370
- 371 II.A.4.a).(12) ensure the program's compliance with the Sponsoring  
 372 Institution's policies and procedures for due process  
 373 when action is taken to suspend or dismiss, not to  
 374 promote, or not to renew the appointment of a fellow;  
 375 (Core)  
 376

**Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring**

Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.

387  
388  
389  
390  
391  
392
- II.A.4.a).(13) ensure the program's compliance with the Sponsoring Institution's policies and procedures on employment and non-discrimination; <sup>(Core)</sup>
- II.A.4.a).(13).(a) Fellows must not be required to sign a non-competition guarantee or restrictive covenant. <sup>(Core)</sup>
- II.A.4.a).(14) document verification of program completion for all graduating fellows within 30 days; <sup>(Core)</sup>
- II.A.4.a).(15) provide verification of an individual fellow's completion upon the fellow's request, within 30 days; and, <sup>(Core)</sup>

**Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.**

**II.B. Faculty**

*Faculty members are a foundational element of graduate medical education – faculty members teach fellows how to care for patients. Faculty members provide an important bridge allowing fellows to grow and become practice ready, ensuring that patients receive the highest quality of care. They are role models for future generations of physicians by demonstrating compassion, commitment to excellence in teaching and patient care, professionalism, and a dedication to lifelong learning. Faculty members experience the pride and joy of fostering the growth and development of future colleagues. The care they provide is enhanced by the opportunity to teach. By employing a scholarly approach to patient care, faculty members, through the graduate medical education system, improve the health of the individual and the population.*

*Faculty members ensure that patients receive the level of care expected from a specialist in the field. They recognize and respond to the needs of the patients, fellows, community, and institution. Faculty members provide appropriate levels of supervision to promote patient safety. Faculty*

420  
421  
422  
423

*members create an effective learning environment by acting in a professional manner and attending to the well-being of the fellows and themselves.*

**Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.**

424  
425  
426  
427

429  
430  
431  
432  
433  
434  
435

- II.B.1.** For each participating site, there must be a sufficient number of faculty members with competence to instruct and supervise all fellows at that location. <sup>(Core)</sup>
- II.B.2.** Faculty members must:
  - II.B.2.a)** be role models of professionalism; <sup>(Core)</sup>
  - II.B.2.b)** demonstrate commitment to the delivery of safe, quality, cost-effective, patient-centered care; <sup>(Core)</sup>

**Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.**

436  
437  
438  
439  
440  
441  
442  
443  
444  
445  
446  
447  
448  
449  
450

- II.B.2.c)** demonstrate a strong interest in the education of fellows; <sup>(Core)</sup>
- II.B.2.d)** devote sufficient time to the educational program to fulfill their supervisory and teaching responsibilities; <sup>(Core)</sup>
- II.B.2.e)** administer and maintain an educational environment conducive to educating fellows; <sup>(Core)</sup>
- II.B.2.f)** regularly participate in organized clinical discussions, rounds, journal clubs, and conferences; and, <sup>(Core)</sup>
- II.B.2.g)** pursue faculty development designed to enhance their skills at least annually. <sup>(Core)</sup>

**Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.**

451  
452  
453

**II.B.3. Faculty Qualifications**

454 **II.B.3.a) Faculty members must have appropriate qualifications in**  
455 **their field and hold appropriate institutional appointments.**  
456 **(Core)**

457  
458 **II.B.3.b) Subspecialty physician faculty members must:**

459  
460 **II.B.3.b).(1) have current certification in the subspecialty by the**  
461 **American Board of Obstetrics and Gynecology, or the**  
462 **American Osteopathic Board of Obstetrics and**  
463 **Gynecology, or possess qualifications judged**  
464 **acceptable to the Review Committee. (Core)**  
465

466 **II.B.3.c) Any non-physician faculty members who participate in**  
467 **fellowship program education must be approved by the**  
468 **program director. (Core)**  
469

**Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.**

470  
471 **II.B.3.d) Any other specialty physician faculty members must have**  
472 **current certification in their specialty by the appropriate**  
473 **American Board of Medical Specialties (ABMS) member**  
474 **board or American Osteopathic Association (AOA) certifying**  
475 **board, or possess qualifications judged acceptable to the**  
476 **Review Committee. (Core)**  
477

478 **II.B.3.d).(1) In addition to the faculty in reproductive endocrinology and**  
479 **infertility, there must be faculty members in the following**  
480 **specialty areas who participate in the care of patients,**  
481 **have mutually complementary and continuing interaction**  
482 **with the fellows, and are involved in the education of the**  
483 **fellows:**

484  
485 **II.B.3.d).(1).(a) genetics; (Core)**

486  
487 **II.B.3.d).(1).(b) male infertility; (Core)**

488  
489 **II.B.3.d).(1).(c) medical endocrinology; and, (Core)**

490  
491 **II.B.3.d).(1).(d) pediatric endocrinology. (Core)**  
492

493 **II.B.4. Core Faculty**

494  
495 **Core faculty members must have a significant role in the education**  
496 **and supervision of fellows and must devote a significant portion of**

497  
498  
499  
500

their entire effort to fellow education and/or administration, and must, as a component of their activities, teach, evaluate, and provide formative feedback to fellows. <sup>(Core)</sup>

**Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.**

501  
502  
503  
504  
505  
506  
507

526  
527  
528  
529  
530

- II.B.4.a) Core faculty members must be designated by the program director. <sup>(Core)</sup>
- II.B.4.b) Core faculty members must complete the annual ACGME Faculty Survey. <sup>(Core)</sup>
- II.B.4.c) In addition to the program director, there must be at least one core physician faculty member who is certified in reproductive endocrinology and infertility by the American Board of Obstetrics and Gynecology or the American Osteopathic Board of Obstetrics and Gynecology, or who possesses subspecialty qualifications acceptable to the Review Committee. <sup>(Core)</sup>
- II.B.4.d) In addition to the program director, there must be at least one core faculty member who is qualified and available to serve as a research mentor to the fellows. <sup>(Core)</sup>
- II.C. Program Coordinator
- II.C.1. There must be a program coordinator. <sup>(Core)</sup>
- II.C.2. The program coordinator must be provided with dedicated time and support adequate for administration of the program based upon its size and configuration <sup>(Core)</sup>
- II.C.2.a) At a minimum, the program coordinator must be provided with the dedicated time and support specified below for administration of the program: <sup>(Core)</sup>

<u>Number of Approved Fellow Positions</u>	<u>Minimum FTE</u>
<u>6 or fewer</u>	<u>0.3</u>
<u>7-8</u>	<u>0.45</u>
<u>9 or more</u>	<u>0.5</u>

531

**Background and Intent:** The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

532

533

**II.D. Other Program Personnel**

534

535

The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. <sup>(Core)</sup>

536

537

538

**Background and Intent:** Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.

539

540

**III. Fellow Appointments**

541

542

**III.A. Eligibility Criteria**

543

544

**III.A.1. Eligibility Requirements – Fellowship Programs**

545

546

All required clinical education for entry into ACGME-accredited fellowship programs must be completed in an ACGME-accredited residency program, an AOA-approved residency program, a

547

548

549 program with ACGME International (ACGME-I) Advanced Specialty  
550 Accreditation, or a Royal College of Physicians and Surgeons of  
551 Canada (RCPSC)-accredited or College of Family Physicians of  
552 Canada (CFPC)-accredited residency program located in Canada.  
553 (Core)  
554

**Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).**

- 555  
556 **III.A.1.a) Fellowship programs must receive verification of each**  
557 **entering fellow's level of competence in the required field,**  
558 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**  
559 **Milestones evaluations from the core residency program. (Core)**  
560
- 561 **III.A.1.b) A fellow must have satisfactorily completed program in obstetrics**  
562 **and gynecology that satisfies III.A.1. (Core)**  
563
- 564 **III.A.1.c) Fellow Eligibility Exception**  
565  
566 **The Review Committee for Obstetrics and Gynecology will allow**  
567 **the following exception to the fellowship eligibility**  
568 **requirements:**  
569
- 570 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**  
571 **an exceptionally qualified international graduate**  
572 **applicant who does not satisfy the eligibility**  
573 **requirements listed in III.A.1., but who does meet all of**  
574 **the following additional qualifications and conditions:**  
575 **(Core)**  
576
- 577 **III.A.1.c).(1).(a) evaluation by the program director and**  
578 **fellowship selection committee of the**  
579 **applicant's suitability to enter the program,**  
580 **based on prior training and review of the**  
581 **summative evaluations of training in the core**  
582 **specialty; and, (Core)**  
583
- 584 **III.A.1.c).(1).(b) review and approval of the applicant's**  
585 **exceptional qualifications by the GMEC; and,**  
586 **(Core)**  
587
- 588 **III.A.1.c).(1).(c) verification of Educational Commission for**  
589 **Foreign Medical Graduates (ECFMG)**  
590 **certification. (Core)**  
591
- 592 **III.A.1.c).(2) Applicants accepted through this exception must have**  
593 **an evaluation of their performance by the Clinical**  
594 **Competency Committee within 12 weeks of**  
595 **matriculation. (Core)**  
596

**Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.**

**In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.**

597

625  
626  
627  
628  
629  
630  
631

**III.B. The program director must not appoint more fellows than approved by the Review Committee. (Core)**

**III.B.1. All complement increases must be approved by the Review Committee. (Core)**

**III.B.2. There must be a minimum of two fellows in the program at all times. (Core)**

**III.C. Fellow Transfers**

**The program must obtain verification of previous educational experiences and a summative competency-based performance evaluation prior to acceptance of a transferring fellow, and Milestones evaluations upon matriculation. (Core)**

**IV. Educational Program**

***The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.***

***The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.***

***In addition, the program is expected to define its specific program aims consistent with the overall mission of its Sponsoring Institution, the needs of the community it serves and that its graduates will serve, and the distinctive capabilities of physicians it intends to graduate. While programs must demonstrate substantial compliance with the Common and subspecialty-specific Program Requirements, it is recognized that within this framework, programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.***

- 632  
633 **IV.A. The curriculum must contain the following educational components:** <sup>(Core)</sup>  
634  
635 **IV.A.1. a set of program aims consistent with the Sponsoring Institution’s**  
636 **mission, the needs of the community it serves, and the desired**  
637 **distinctive capabilities of its graduates;** <sup>(Core)</sup>  
638  
639 **IV.A.1.a) The program’s aims must be made available to program**  
640 **applicants, fellows, and faculty members.** <sup>(Core)</sup>  
641  
642 **IV.A.2. competency-based goals and objectives for each educational**  
643 **experience designed to promote progress on a trajectory to**  
644 **autonomous practice in their subspecialty. These must be**  
645 **distributed, reviewed, and available to fellows and faculty members;**  
646 <sup>(Core)</sup>  
647  
648 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**  
649 **responsibility for patient management, and graded supervision in**  
650 **their subspecialty;** <sup>(Core)</sup>  
651

**Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.**

- 652  
653 **IV.A.4. structured educational activities beyond direct patient care; and,**  
654 <sup>(Core)</sup>  
655

**Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.**

- 656  
657 **IV.A.5. advancement of fellows’ knowledge of ethical principles**  
658 **foundational to medical professionalism.** <sup>(Core)</sup>  
659  
660 **IV.B. ACGME Competencies**  
661

**Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.**

662

663 **IV.B.1. The program must integrate the following ACGME Competencies**  
664 **into the curriculum:** (Core)

665  
666 **IV.B.1.a) Professionalism**  
667  
668 **Fellows must demonstrate a commitment to professionalism**  
669 **and an adherence to ethical principles.** (Core)  
670

671 **IV.B.1.b) Patient Care and Procedural Skills**  
672

**Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]’s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs*. 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician’s well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.**

**These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.**

673  
674 **IV.B.1.b).(1) Fellows must be able to provide patient care that is**  
675 **compassionate, appropriate, and effective for the**  
676 **treatment of health problems and the promotion of**  
677 **health.** (Core)  
678

679 **IV.B.1.b).(1).(a) Fellows must demonstrate competence in the**  
680 **management of clinical problems affecting the**  
681 **development, function, and aging of the female and**  
682 **male reproductive system, including:** (Core)  
683

684 **IV.B.1.b).(1).(a).(i) fertility disorders, to include: ovarian**  
685 **stimulation for the purposes of fertility**  
686 **enhancement; and techniques of assisted**  
687 **reproduction;** (Core)  
688

689 **IV.B.1.b).(1).(a).(ii) genetic issues related to the evaluation and**  
690 **management of patients and their partners;**  
691 (Core)  
692

693 **IV.B.1.b).(1).(a).(iii) oncofertility and fertility preservation;** (Core)  
694

695 **IV.B.1.b).(1).(a).(iv) psychological, sexual, legal, and ethical**  
696 **implications of reproductive and gender**  
697 **issues; and,** (Core)  
698

699 **IV.B.1.b).(1).(a).(v) reproductive disorders, to include: abnormal**  
700 **uterine bleeding; climacteric; contraception;**  
701 **endometriosis; fibroids; hypothalamic,**  
702 **pituitary, ovarian, and adrenal axis**

703		disorders; and structural abnormalities of
704		the reproductive tract. <sup>(Core)</sup>
705		
706	IV.B.1.b).(1).(b)	Fellows must demonstrate a commitment to the
707		fundamental ethical principles applicable to gender
708		and reproductive care and choice, including all
709		aspects of care, along with management of
710		reproductive and endocrine issues for lesbian, gay,
711		bisexual and transgender individuals. <sup>(Core)</sup>
712		
713	IV.B.1.b).(1).(c)	Fellows must demonstrate sensitivity to the
714		psychological, sexual, legal, and ethical
715		implications of reproductive issues, including
716		gamete donation, fertility preservation, and third-
717		party reproduction. <sup>(Core)</sup>
718		
719	IV.B.1.b).(1).(d)	Fellows must demonstrate competence in the use
720		of cost-effective approaches to the management of
721		infertility. <sup>(Core)</sup>
722		
723	<b>IV.B.1.b).(2)</b>	<b>Fellows must be able to perform all medical,</b>
724		<b>diagnostic, and surgical procedures considered</b>
725		<b>essential for the area of practice.</b> <sup>(Core)</sup>
726		
727	IV.B.1.b).(2).(a)	Fellows must demonstrate competence in
728		specialized surgical techniques, including: <sup>(Core)</sup>
729		
730	IV.B.1.b).(2).(a).(i)	embryo transfer (live, mock, or simulation);
731		<sup>(Core)</sup>
732		
733	IV.B.1.b).(2).(a).(ii)	hysteroscopy, laparoscopy, and operative
734		procedures for the management of acquired
735		and developmental abnormalities of the
736		reproductive tract, to include fibroids,
737		endometriosis, müllerian anomalies, and
738		tubal disease; and, <sup>(Core)</sup>
739		
740	IV.B.1.b).(2).(a).(iii)	oocyte retrieval. <sup>(Core)</sup>
741		
742	IV.B.1.b).(2).(b)	Fellows must demonstrate competence in:
743		
744	IV.B.1.b).(2).(b).(i)	performing transvaginal and transabdominal
745		ultrasound, sonohysterography,
746		hysterosalpingography; and, <sup>(Core)</sup>
747		
748	IV.B.1.b).(2).(b).(ii)	the interpretation of all imaging modalities
749		used in the practice of reproductive
750		endocrinology and infertility. <sup>(Core)</sup>
751		
752	<b>IV.B.1.c)</b>	<b>Medical Knowledge</b>
753		

754		<b>Fellows must demonstrate knowledge of established and</b>
755		<b>evolving biomedical, clinical, epidemiological and social-</b>
756		<b>behavioral sciences, as well as the application of this</b>
757		<b>knowledge to patient care.</b> <sup>(Core)</sup>
758		
759	IV.B.1.c).(1)	Fellows must demonstrate knowledge of the following
760		topics as they relate to reproductive endocrinology and
761		infertility: <sup>(Core)</sup>
762		
763	IV.B.1.c).(1).(a)	abnormal uterine bleeding; <sup>(Core)</sup>
764		
765	IV.B.1.c).(1).(b)	adrenal function and disease states; <sup>(Core)</sup>
766		
767	IV.B.1.c).(1).(c)	amenorrhea; <sup>(Core)</sup>
768		
769	IV.B.1.c).(1).(d)	clinical diagnostic techniques; <sup>(Core)</sup>
770		
771	IV.B.1.c).(1).(e)	contraception; <sup>(Core)</sup>
772		
773	IV.B.1.c).(1).(f)	embryology; <sup>(Core)</sup>
774		
775	IV.B.1.c).(1).(g)	endocrinology of pregnancy; <sup>(Core)</sup>
776		
777	IV.B.1.c).(1).(h)	endometriosis; <sup>(Core)</sup>
778		
779	IV.B.1.c).(1).(i)	female infertility; <sup>(Core)</sup>
780		
781	IV.B.1.c).(1).(j)	genetics; <sup>(Core)</sup>
782		
783	IV.B.1.c).(1).(k)	male infertility; <sup>(Core)</sup>
784		
785	IV.B.1.c).(1).(l)	neuroendocrine function and disease states; <sup>(Core)</sup>
786		
787	IV.B.1.c).(1).(m)	oncofertility and fertility preservation; <sup>(Core)</sup>
788		
789	IV.B.1.c).(1).(n)	ovarian function and disease states; <sup>(Core)</sup>
790		
791	IV.B.1.c).(1).(o)	physiology and endocrinology of the climacteric;
792		<sup>(Core)</sup>
793		
794	IV.B.1.c).(1).(p)	psychological, sexual, legal, and ethical
795		implications of reproductive and gender issues;
796		<sup>(Core)</sup>
797		
798	IV.B.1.c).(1).(q)	puberty; <sup>(Core)</sup>
799		
800	IV.B.1.c).(1).(r)	recurrent pregnancy loss; <sup>(Core)</sup>
801		
802	IV.B.1.c).(1).(s)	statistics; <sup>(Core)</sup>
803		
804	IV.B.1.c).(1).(t)	techniques of assisted reproduction; <sup>(Core)</sup>

805  
 806 IV.B.1.c).(1).(u) thyroid function and disease states; (Core)  
 807  
 808 IV.B.1.c).(1).(v) use of cost-effective approaches to the  
 809 management of infertility; and, (Core)  
 810  
 811 IV.B.1.c).(1).(w) use of laboratory methodology, applications, and  
 812 techniques of reproductive endocrinology. (Core)  
 813  
 814 IV.B.1.c).(2) Fellows must demonstrate knowledge of the indications,  
 815 techniques, complications, follow-up, and limitations of the  
 816 diagnostic and surgical procedures used in clinical  
 817 reproductive endocrinology and infertility. (Core)  
 818  
 819 **IV.B.1.d) Practice-based Learning and Improvement**  
 820  
 821 **Fellows must demonstrate the ability to investigate and**  
 822 **evaluate their care of patients, to appraise and assimilate**  
 823 **scientific evidence, and to continuously improve patient care**  
 824 **based on constant self-evaluation and lifelong learning. (Core)**  
 825

**Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.**

**The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.**

826  
 827 **IV.B.1.e) Interpersonal and Communication Skills**  
 828  
 829 **Fellows must demonstrate interpersonal and communication**  
 830 **skills that result in the effective exchange of information and**  
 831 **collaboration with patients, their families, and health**  
 832 **professionals. (Core)**  
 833  
 834 **IV.B.1.f) Systems-based Practice**  
 835  
 836 **Fellows must demonstrate an awareness of and**  
 837 **responsiveness to the larger context and system of health**  
 838 **care, including the social determinants of health, as well as**  
 839 **the ability to call effectively on other resources to provide**  
 840 **optimal health care. (Core)**  
 841  
 842 **IV.C. Curriculum Organization and Fellow Experiences**  
 843  
 844 **IV.C.1. The curriculum must be structured to optimize fellow educational**  
 845 **experiences, the length of these experiences, and supervisory**  
 846 **continuity. (Core)**  
 847

- 848 IV.C.1.a) Clinical experiences in reproductive endocrinology and infertility  
849 must prioritize continuity of patient care, ongoing supervision,  
850 longitudinal relationships with faculty members, and meaningful  
851 assessment and feedback. (Core)  
852
- 853 **IV.C.2. The program must provide instruction and experience in pain  
854 management if applicable for the subspecialty, including recognition  
855 of the signs of addiction. (Core)**  
856
- 857 IV.C.3. A program must provide regularly scheduled didactic instruction in both  
858 basic science and the clinical aspects of the subspecialty. (Core)  
859
- 860 IV.C.3.a) These sessions must comprise a minimum of one hour per week  
861 (averaged over four weeks), be conducted at a fellowship level, be  
862 presented by faculty members a majority of the time, and be  
863 presented on site. (Core)  
864
- 865 IV.C.3.b) Fellows' schedules and responsibilities should be structured to  
866 allow attendance at the great majority of these sessions. (Core)  
867
- 868 IV.C.4. Fellows must actively participate in multidisciplinary inter-professional  
869 conferences devoted to care of reproductive endocrinology and infertility  
870 patients. (Core)  
871
- 872 IV.C.5. Reproductive Endocrinology and Infertility Rotations  
873
- 874 IV.C.5.a) Assisted reproductive technology (ART) experiences must take  
875 place at a site(s) that report(s) all ART cycles to the Centers for  
876 Disease Control and Prevention (CDC) on an annual basis. (Core)  
877
- 878 IV.C.5.a).(1) Each site should be a member of the Society for Assisted  
879 Reproductive Technology (SART). (Core)  
880
- 881 IV.C.5.b) The program must ensure that the educational program for each  
882 fellow is allocated as follows:  
883
- 884 IV.C.5.b).(1) a minimum of ~~12~~ 18 months of clinical reproductive  
885 endocrinology and infertility, which may consist of either  
886 block time and/or structured longitudinal experiences  
887 distributed throughout one or more blocks; (Core)  
888
- 889 IV.C.5.b).(2) a minimum of ~~18~~ 12 months of ~~protected time for research;~~  
890 and, (Core)  
891
- 892 IV.C.5.b).(2).(a) The Research rotations experience must be  
893 include 12 months of protected time scheduled in  
894 monthly blocks. (Core)  
895
- 896 IV.C.5.b).(2).(a).(i) ~~If fellows are a~~Assigned clinical duties  
897 during regular office hours in protected  
898 research months, ~~this experience must be~~

899 limited to four hours per week (averaged  
 900 over a four-week period). (Core)  
 901  
 902 IV.C.5.b).(2).(a).(i).(a) Fellows' moonlighting hours must  
 903 not count toward these four hours.  
 904 (Core)  
 905  
 906 ~~IV.C.5.b).(2).(b) At least 12 months of the required 18 months of~~  
 907 ~~research must be contiguous. (Core)~~  
 908

Specialty-Specific Background and Intent: The required 12 months of protected research time preserves uninterrupted research time during the week. The maximum four hours per week of assigned clinical duties, during regular office hours, are inclusive of assigned reproductive endocrinology and infertility and independent practice duties.

Regular office hours are defined as Monday through Friday, 8:00 a.m. to 5:00 p.m.

909  
 910 IV.C.5.b).(3) a maximum of six months of elective time consistent with  
 911 the program aims, and at the discretion of the program  
 912 director. (Core)  
 913

914 **IV.D. Scholarship**

915  
 916 ***Medicine is both an art and a science. The physician is a humanistic***  
 917 ***scientist who cares for patients. This requires the ability to think critically,***  
 918 ***evaluate the literature, appropriately assimilate new knowledge, and***  
 919 ***practice lifelong learning. The program and faculty must create an***  
 920 ***environment that fosters the acquisition of such skills through fellow***  
 921 ***participation in scholarly activities as defined in the subspecialty-specific***  
 922 ***Program Requirements. Scholarly activities may include discovery,***  
 923 ***integration, application, and teaching.***  
 924

925 ***The ACGME recognizes the diversity of fellowships and anticipates that***  
 926 ***programs prepare physicians for a variety of roles, including clinicians,***  
 927 ***scientists, and educators. It is expected that the program's scholarship will***  
 928 ***reflect its mission(s) and aims, and the needs of the community it serves.***  
 929 ***For example, some programs may concentrate their scholarly activity on***  
 930 ***quality improvement, population health, and/or teaching, while other***  
 931 ***programs might choose to utilize more classic forms of biomedical***  
 932 ***research as the focus for scholarship.***  
 933

934 **IV.D.1. Program Responsibilities**

935  
 936 **IV.D.1.a) The program must demonstrate evidence of scholarly**  
 937 **activities, consistent with its mission(s) and aims. (Core)**  
 938

939 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**  
 940 **must allocate adequate resources to facilitate fellow and**  
 941 **faculty involvement in scholarly activities. (Core)**  
 942

943 **IV.D.2. Faculty Scholarly Activity**

944  
945 **IV.D.2.a)** **Among their scholarly activity, programs must demonstrate**  
946 **accomplishments in at least three of the following domains:**  
947 **(Core)**

- 948  
949  
950  
951  
952  
953  
954  
955  
956  
957  
958  
959  
960  
961
- **Research in basic science, education, translational science, patient care, or population health**
  - **Peer-reviewed grants**
  - **Quality improvement and/or patient safety initiatives**
  - **Systematic reviews, meta-analyses, review articles, chapters in medical textbooks, or case reports**
  - **Creation of curricula, evaluation tools, didactic educational activities, or electronic educational materials**
  - **Contribution to professional committees, educational organizations, or editorial boards**
  - **Innovations in education**

962 **IV.D.2.b)** **The program must demonstrate dissemination of scholarly**  
963 **activity within and external to the program by the following**  
964 **methods:**  
965

**Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.**

966  
967 **IV.D.2.b).(1)** **faculty participation in grand rounds, posters,**  
968 **workshops, quality improvement presentations,**  
969 **podium presentations, grant leadership, non-peer-**  
970 **reviewed print/electronic resources, articles or**  
971 **publications, book chapters, textbooks, webinars,**  
972 **service on professional committees, or serving as a**  
973 **journal reviewer, journal editorial board member, or**  
974 **editor;** **(Outcome)**

975  
976 **IV.D.2.b).(2)** **peer-reviewed publication.** **(Outcome)**

977  
978 **IV.D.3. Fellow Scholarly Activity**

979  
980 **IV.D.3.a)** **The appointed faculty research mentor must review with the**  
981 **fellows the research curriculum and scholarly paper (thesis)**  
982 **resources, timeline, and expectations.** **(Core)**

983  
984 **IV.D.3.b)** **The research curriculum must include:**

985		
986	IV.D.3.b).(1)	<u>structured delivery of education in research design,</u>
987		<u>research methodology, data analysis, and grant writing;</u>
988		<u>(Core)</u>
989		
990	IV.D.3.b).(2)	opportunities for <del>structured</del> basic, translational, and/or
991		clinical research; <u>and,</u> <sup>(Core)</sup>
992		
993	<del>IV.D.3.b).(3)</del>	<del>enhancement of the fellows' understanding of the latest</del>
994		<del>scientific techniques and encouragement of interaction</del>
995		<del>with other scientists;</del> <sup>(Core)</sup>
996		
997	IV.D.3.b).(4)	the opportunity for the fellows to present their academic
998		contributions to the <del>national</del> reproductive endocrinology
999		and infertility <del>scientific</del> community; <sup>(Core)</sup>
1000		
1001	<del>IV.D.3.b).(5)</del>	<del>preparation of the fellows to obtain research funding and</del>

 1052 ~~documentation must be available upon request.~~ <sup>(Core)</sup>  
 1053

1054 **IV.E. *Fellowship programs may assign fellows to engage in the independent***  
 1055 ***practice of their core specialty during their fellowship program.***

1056  
 1057 **IV.E.1. If programs permit their fellows to utilize the independent practice**  
 1058 **option, it must not exceed 20 percent of their time per week or 10**  
 1059 **weeks of an academic year.** <sup>(Core)</sup>  
 1060

- 1061 IV.E.1.a) No more than four hours per week of independent practice,  
 1062 averaged over a four-week period, may occur on a weekday  
 1063 during regular office hours. <sup>(Core)</sup>  
 1064

**Background and Intent: Fellows who have previously completed residency programs have demonstrated sufficient competence to enter autonomous practice within their core specialty. This option is designed to enhance fellows' maturation and competence in their core specialty. This enables fellows to occupy a dual role in the health system: as learners in their subspecialty, and as credentialed practitioners in their core specialty. Hours worked in independent practice during fellowship still fall under the clinical and educational work hour limits. See Program Director Guide for more details.**

Specialty-Specific Background and Intent: Maintenance of skills associated with independent practice as an obstetrics and gynecology specialist may be beneficial to reproductive endocrinology and infertility fellows and may occur as outlined, but must not substantially interfere with fellows' subspecialty education. Independent practice may only be assigned by the program director and is distinct from moonlighting, which is voluntary. Information regarding moonlighting can be found in VI.F.5.-VI.F.5.b) of these Requirements, and in the ACGME Glossary of Terms, which can be found on the ACGME website. Programs are reminded that both independent practice and moonlighting hours must collectively adhere to the work hour requirements outlined in VI.F.-VI.F.8.b) of this document.

During the 12 months of protected research months experience, no more than four hours of a fellow's time per week, averaged over a four-week period, may be devoted to clinical activities during regular office hours, including both assigned independent practice in general obstetrics and gynecology and assigned reproductive endocrinology and infertility clinical activities.

1080 Specifically, the total time of all clinical activities during regular office hours must not exceed  
1081 four hours per week (averaged over a four-week period).

1082  
1083 Regular office hours are defined as Monday through Friday, 8:00 a.m. to 5:00 p.m.

1084  
1085 **V. Evaluation**

1086  
1087 **V.A. Fellow Evaluation**

1088  
1089 **V.A.1. Feedback and Evaluation**

**Background and Intent: Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.**

**Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:**

- **fellows identify their strengths and weaknesses and target areas that need work**
- **program directors and faculty members recognize where fellows are struggling and address problems immediately**

**Summative evaluation is *evaluating a fellow’s learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.**

**End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.**

**Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.**

1091  
1092 **V.A.1.a) Faculty members must directly observe, evaluate, and**  
1093 **frequently provide feedback on fellow performance during**  
1094 **each rotation or similar educational assignment. <sup>(Core)</sup>**  
1095

**Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.**

1096

- 1097 **V.A.1.b)** **Evaluation must be documented at the completion of the**  
1098 **assignment.** (Core)  
1099  
1100 **V.A.1.b).(1)** **For block rotations of greater than three months in**  
1101 **duration, evaluation must be documented at least**  
1102 **every three months.** (Core)  
1103  
1104 **V.A.1.b).(2)** **Longitudinal experiences such as continuity clinic in**  
1105 **the context of other clinical responsibilities must be**  
1106 **evaluated at least every three months and at**  
1107 **completion.** (Core)  
1108  
1109 **V.A.1.c)** **The program must provide an objective performance**  
1110 **evaluation based on the Competencies and the subspecialty-**  
1111 **specific Milestones, and must:** (Core)  
1112  
1113 **V.A.1.c).(1)** **use multiple evaluators (e.g., faculty members, peers,**  
1114 **patients, self, and other professional staff members);**  
1115 **and,** (Core)  
1116  
1117 **V.A.1.c).(2)** **provide that information to the Clinical Competency**  
1118 **Committee for its synthesis of progressive fellow**  
1119 **performance and improvement toward unsupervised**  
1120 **practice.** (Core)  
1121

**Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.**

- 1122  
1123 **V.A.1.d)** **The program director or their designee, with input from the**  
1124 **Clinical Competency Committee, must:**  
1125  
1126 **V.A.1.d).(1)** **meet with and review with each fellow their**  
1127 **documented semi-annual evaluation of performance,**  
1128 **including progress along the subspecialty-specific**  
1129 **Milestones.** (Core)  
1130  
1131 **V.A.1.d).(1).(a)** **The review must include fellow progress toward**  
1132 **thesis completion.** (Core)  
1133  
1134 **V.A.1.d).(2)** **assist fellows in developing individualized learning**  
1135 **plans to capitalize on their strengths and identify areas**  
1136 **for growth; and,** (Core)  
1137

1138 V.A.1.d).(3) develop plans for fellows failing to progress, following  
1139 institutional policies and procedures. (Core)  
1140

**Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.**

**Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.**

1141  
1142 Specialty-Specific Background and Intent: The semi-annual evaluation conducted by the  
1143 program director or the program director's designee includes review of fellow progress  
1144 towards thesis completion and the record of experiences entered into the ACGME Case Log  
1145 System to ensure breadth and depth of experience.

1146  
1147 V.A.1.e) At least annually, there must be a summative evaluation of  
1148 each fellow that includes their readiness to progress to the  
1149 next year of the program, if applicable. (Core)  
1150

1151 V.A.1.f) The evaluations of a fellow's performance must be accessible  
1152 for review by the fellow. (Core)  
1153

1154 V.A.2. Final Evaluation

1155  
1156 V.A.2.a) The program director must provide a final evaluation for each  
1157 fellow upon completion of the program. (Core)  
1158

1159 V.A.2.a).(1) The subspecialty-specific Milestones, and when  
1160 applicable the subspecialty-specific Case Logs, must  
1161 be used as tools to ensure fellows are able to engage  
1162 in autonomous practice upon completion of the  
1163 program. (Core)  
1164

1165 V.A.2.a).(2) The final evaluation must:

1166  
1167 V.A.2.a).(2).(a) become part of the fellow's permanent record  
1168 maintained by the institution, and must be  
1169 accessible for review by the fellow in  
1170 accordance with institutional policy; (Core)

- 1171
- 1172 **V.A.2.a).(2).(b)** verify that the fellow has demonstrated the
- 1173 knowledge, skills, and behaviors necessary to
- 1174 enter autonomous practice; <sup>(Core)</sup>
- 1175
- 1176 **V.A.2.a).(2).(c)** consider recommendations from the Clinical
- 1177 Competency Committee; and, <sup>(Core)</sup>
- 1178
- 1179 **V.A.2.a).(2).(d)** be shared with the fellow upon completion of
- 1180 the program. <sup>(Core)</sup>
- 1181
- 1182 **V.A.3.** **A Clinical Competency Committee must be appointed by the**
- 1183 program director. <sup>(Core)</sup>
- 1184
- 1185 **V.A.3.a)** **At a minimum the Clinical Competency Committee must**
- 1186 include three members, at least one of whom is a core faculty
- 1187 member. Members must be faculty members from the same
- 1188 program or other programs, or other health professionals
- 1189 who have extensive contact and experience with the
- 1190 program's fellows. <sup>(Core)</sup>
- 1191
- 1192 **V.A.3.b)** **The Clinical Competency Committee must:**
- 1193
- 1194 **V.A.3.b).(1)** review all fellow evaluations at least semi-annually;
- 1195 <sup>(Core)</sup>
- 1196
- 1197 **V.A.3.b).(2)** determine each fellow's progress on achievement of
- 1198 the subspecialty-specific Milestones; and, <sup>(Core)</sup>
- 1199
- 1200 **V.A.3.b).(3)** meet prior to the fellows' semi-annual evaluations and
- 1201 advise the program director regarding each fellow's
- 1202 progress. <sup>(Core)</sup>
- 1203
- 1204 **V.B.** **Faculty Evaluation**
- 1205
- 1206 **V.B.1.** **The program must have a process to evaluate each faculty**
- 1207 member's performance as it relates to the educational program at
- 1208 least annually. <sup>(Core)</sup>
- 1209

**Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with**

regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1210  
1211 **V.B.1.a)** This evaluation must include a review of the faculty member's  
1212 clinical teaching abilities, engagement with the educational  
1213 program, participation in faculty development related to their  
1214 skills as an educator, clinical performance, professionalism,  
1215 and scholarly activities. <sup>(Core)</sup>  
1216  
1217 **V.B.1.b)** This evaluation must include written, confidential evaluations  
1218 by the fellows. <sup>(Core)</sup>  
1219  
1220 **V.B.2.** Faculty members must receive feedback on their evaluations at least  
1221 annually. <sup>(Core)</sup>  
1222  
1223 **V.B.3.** Results of the faculty educational evaluations should be  
1224 incorporated into program-wide faculty development plans. <sup>(Core)</sup>  
1225

**Background and Intent:** The quality of the faculty's teaching and clinical care is a determinant of the quality of the program and the quality of the fellows' future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1226  
1227 **V.C. Program Evaluation and Improvement**  
1228  
1229 **V.C.1.** The program director must appoint the Program Evaluation  
1230 Committee to conduct and document the Annual Program  
1231 Evaluation as part of the program's continuous improvement  
1232 process. <sup>(Core)</sup>  
1233  
1234 **V.C.1.a)** The Program Evaluation Committee must be composed of at  
1235 least two program faculty members, at least one of whom is a  
1236 core faculty member, and at least one fellow. <sup>(Core)</sup>  
1237  
1238 **V.C.1.b)** Program Evaluation Committee responsibilities must include:  
1239  
1240 **V.C.1.b).(1)** acting as an advisor to the program director, through  
1241 program oversight; <sup>(Core)</sup>  
1242  
1243 **V.C.1.b).(2)** review of the program's self-determined goals and  
1244 progress toward meeting them; <sup>(Core)</sup>  
1245

- 1246 **V.C.1.b).(3)** **guiding ongoing program improvement, including**  
 1247 **development of new goals, based upon outcomes;**  
 1248 **and, (Core)**  
 1249  
 1250 **V.C.1.b).(4)** **review of the current operating environment to identify**  
 1251 **strengths, challenges, opportunities, and threats as**  
 1252 **related to the program’s mission and aims. (Core)**  
 1253

**Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.**

- 1254  
 1255 **V.C.1.c)** **The Program Evaluation Committee should consider the**  
 1256 **following elements in its assessment of the program:**  
 1257  
 1258 **V.C.1.c).(1)** **curriculum; (Core)**  
 1259  
 1260 **V.C.1.c).(2)** **outcomes from prior Annual Program Evaluation(s);**  
 1261 **(Core)**  
 1262  
 1263 **V.C.1.c).(3)** **ACGME letters of notification, including citations,**  
 1264 **Areas for Improvement, and comments; (Core)**  
 1265  
 1266 **V.C.1.c).(4)** **quality and safety of patient care; (Core)**  
 1267  
 1268 **V.C.1.c).(5)** **aggregate fellow and faculty:**  
 1269  
 1270 **V.C.1.c).(5).(a)** **well-being; (Core)**  
 1271  
 1272 **V.C.1.c).(5).(b)** **recruitment and retention; (Core)**  
 1273  
 1274 **V.C.1.c).(5).(c)** **workforce diversity; (Core)**  
 1275  
 1276 **V.C.1.c).(5).(d)** **engagement in quality improvement and patient**  
 1277 **safety; (Core)**  
 1278  
 1279 **V.C.1.c).(5).(e)** **scholarly activity; (Core)**  
 1280  
 1281 **V.C.1.c).(5).(f)** **ACGME Resident/Fellow and Faculty Surveys**  
 1282 **(where applicable); and, (Core)**  
 1283  
 1284 **V.C.1.c).(5).(g)** **written evaluations of the program. (Core)**  
 1285  
 1286 **V.C.1.c).(6)** **aggregate fellow:**  
 1287  
 1288 **V.C.1.c).(6).(a)** **achievement of the Milestones; (Core)**  
 1289

- 1290 V.C.1.c).(6).(b) in-training examinations (where applicable);  
 1291 (Core)
- 1292
- 1293 V.C.1.c).(6).(c) board pass and certification rates; and, (Core)
- 1294
- 1295 V.C.1.c).(6).(d) graduate performance. (Core)
- 1296
- 1297 V.C.1.c).(7) aggregate faculty:
- 1298
- 1299 V.C.1.c).(7).(a) evaluation; and, (Core)
- 1300
- 1301 V.C.1.c).(7).(b) professional development (Core)
- 1302
- 1303 V.C.1.d) The Program Evaluation Committee must evaluate the  
 1304 program's mission and aims, strengths, areas for  
 1305 improvement, and threats. (Core)
- 1306
- 1307 V.C.1.e) The annual review, including the action plan, must:
- 1308
- 1309 V.C.1.e).(1) be distributed to and discussed with the members of  
 1310 the teaching faculty and the fellows; and, (Core)
- 1311
- 1312 V.C.1.e).(2) be submitted to the DIO. (Core)
- 1313
- 1314 V.C.2. The program must participate in a Self-Study prior to its 10-Year  
 1315 Accreditation Site Visit. (Core)
- 1316
- 1317 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.  
 1318 (Core)
- 1319

**Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.**

- 1320
- 1321 V.C.3. *One goal of ACGME-accredited education is to educate physicians  
 1322 who seek and achieve board certification. One measure of the  
 1323 effectiveness of the educational program is the ultimate pass rate.*
- 1324
- 1325 *The program director should encourage all eligible program  
 1326 graduates to take the certifying examination offered by the  
 1327 applicable American Board of Medical Specialties (ABMS) member  
 1328 board or American Osteopathic Association (AOA) certifying board.*
- 1329

- 1330 **V.C.3.a)** For subspecialties in which the ABMS member board and/or  
 1331 AOA certifying board offer(s) an annual written exam, in the  
 1332 preceding three years, the program’s aggregate pass rate of  
 1333 those taking the examination for the first time must be higher  
 1334 than the bottom fifth percentile of programs in that  
 1335 subspecialty. <sup>(Outcome)</sup>  
 1336
- 1337 **V.C.3.b)** For subspecialties in which the ABMS member board and/or  
 1338 AOA certifying board offer(s) a biennial written exam, in the  
 1339 preceding six years, the program’s aggregate pass rate of  
 1340 those taking the examination for the first time must be higher  
 1341 than the bottom fifth percentile of programs in that  
 1342 subspecialty. <sup>(Outcome)</sup>  
 1343
- 1344 **V.C.3.c)** For subspecialties in which the ABMS member board and/or  
 1345 AOA certifying board offer(s) an annual oral exam, in the  
 1346 preceding three years, the program’s aggregate pass rate of  
 1347 those taking the examination for the first time must be higher  
 1348 than the bottom fifth percentile of programs in that  
 1349 subspecialty. <sup>(Outcome)</sup>  
 1350
- 1351 **V.C.3.d)** For subspecialties in which the ABMS member board and/or  
 1352 AOA certifying board offer(s) a biennial oral exam, in the  
 1353 preceding six years, the program’s aggregate pass rate of  
 1354 those taking the examination for the first time must be higher  
 1355 than the bottom fifth percentile of programs in that  
 1356 subspecialty. <sup>(Outcome)</sup>  
 1357
- 1358 **V.C.3.e)** For each of the exams referenced in V.C.3.a-d), any program  
 1359 whose graduates over the time period specified in the  
 1360 requirement have achieved an 80 percent pass rate will have  
 1361 met this requirement, no matter the percentile rank of the  
 1362 program for pass rate in that subspecialty. <sup>(Outcome)</sup>  
 1363

**Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.**

**There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.**

- 1364  
 1365 **V.C.3.f)** Programs must report, in ADS, board certification status  
 1366 annually for the cohort of board-eligible fellows that  
 1367 graduated seven years earlier. <sup>(Core)</sup>  
 1368

**Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or**

initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

## VI. The Learning and Working Environment

*Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:*

- *Excellence in the safety and quality of care rendered to patients by fellows today*
- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*
- *Excellence in professionalism through faculty modeling of:*
  - *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*
  - *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

**Background and Intent:** The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member

well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

- VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability**
- VI.A.1. Patient Safety and Quality Improvement**
- All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.*
- Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.*
- It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.*
- VI.A.1.a) Patient Safety**
- VI.A.1.a).(1) Culture of Safety**
- A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.*
- VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety. (Core)**
- VI.A.1.a).(1).(b) The program must have a structure that promotes safe, interprofessional, team-based care. (Core)**

1566		
1567		
1568	VI.A.2.a).(1).(b)	Fellows and faculty members must inform each patient of their respective roles in that patient's care when providing direct patient care. <sup>(Core)</sup>
1569		
1570		
1571		
1572	VI.A.2.b)	<i>Supervision may be exercised through a variety of methods. For many aspects of patient care, the supervising physician may be a more advanced fellow. Other portions of care provided by the fellow can be adequately supervised by the appropriate availability of the supervising faculty member or fellow, either on site or by means of telecommunication technology. Some activities require the physical presence of the supervising faculty member. In some circumstances, supervision may include post-hoc review of fellow-delivered care with feedback.</i>
1573		
1574		
1575		
1576		
1577		
1578		
1579		
1580		
1581		
1582		

- 1624 care delegated to each fellow must be assigned by the  
 1625 program director and faculty members. <sup>(Core)</sup>  
 1626
- 1627 **VI.A.2.d).(1)** The program director must evaluate each fellow's  
 1628 abilities based on specific criteria, guided by the  
 1629 Milestones. <sup>(Core)</sup>  
 1630
- 1631 **VI.A.2.d).(2)** Faculty members functioning as supervising  
 1632 physicians must delegate portions of care to fellows  
 1633 based on the needs of the patient and the skills of  
 1634 each fellow. <sup>(Core)</sup>  
 1635
- 1636 **VI.A.2.d).(3)** Fellows should serve in a supervisory role to junior  
 1637 fellows and residents in recognition of their progress  
 1638 toward independence, based on the needs of each  
 1639 patient and the skills of the individual resident or  
 1640 fellow. <sup>(Detail)</sup>  
 1641
- 1642 **VI.A.2.e)** Programs must set guidelines for circumstances and events  
 1643 in which fellows must communicate with the supervising  
 1644 faculty member(s). <sup>(Core)</sup>  
 1645
- 1646 **VI.A.2.e).(1)** Each fellow must know the limits of their scope of  
 1647 authority, and the circumstances under which the  
 1648 fellow is permitted to act with conditional  
 1649 independence. <sup>(Outcome)</sup>  
 1650

**Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.**

- 1651
- 1652 **VI.A.2.f)** Faculty supervision assignments must be of sufficient  
 1653 duration to assess the knowledge and skills of each fellow  
 1654 and to delegate to the fellow the appropriate level of patient  
 1655 care authority and responsibility. <sup>(Core)</sup>  
 1656
- 1657 **VI.B. Professionalism**
- 1658
- 1659 **VI.B.1.** Programs, in partnership with their Sponsoring Institutions, must  
 1660 educate fellows and faculty members concerning the professional  
 1661 responsibilities of physicians, including their obligation to be  
 1662 appropriately rested and fit to provide the care required by their  
 1663 patients. <sup>(Core)</sup>  
 1664
- 1665 **VI.B.2.** The learning objectives of the program must:
- 1666
- 1667 **VI.B.2.a)** be accomplished through an appropriate blend of supervised  
 1668 patient care responsibilities, clinical teaching, and didactic  
 1669 educational events; <sup>(Core)</sup>  
 1670

1671 VI.B.2.b) be accomplished without excessive reliance on fellows to  
1672 fulfill non-physician obligations; and, <sup>(Core)</sup>  
1673

**Background and Intent:** Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1674 VI.B.2.c) ensure manageable patient care responsibilities. <sup>(Core)</sup>  
1675  
1676

**Background and Intent:** The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1677 VI.B.3. The program director, in partnership with the Sponsoring Institution,  
1678 must provide a culture of professionalism that supports patient  
1679 safety and personal responsibility. <sup>(Core)</sup>  
1680

1681 VI.B.4. Fellows and faculty members must demonstrate an understanding  
1682 of their personal role in the:  
1683

1684 VI.B.4.a) provision of patient- and family-centered care; <sup>(Outcome)</sup>  
1685

1686 VI.B.4.b) safety and welfare of patients entrusted to their care,  
1687 including the ability to report unsafe conditions and adverse  
1688 events; <sup>(Outcome)</sup>  
1689  
1690

**Background and Intent:** This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.

1691 VI.B.4.c) assurance of their fitness for work, including: <sup>(Outcome)</sup>  
1692  
1693

**Background and Intent:** This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

1694

1695	VI.B.4.c).(1)	management of their time before, during, and after clinical assignments; and, (Outcome)
1696		
1697		
1698	VI.B.4.c).(2)	recognition of impairment, including from illness, fatigue, and substance use, in themselves, their peers, and other members of the health care team. (Outcome)
1699		
1700		
1701		
1702	VI.B.4.d)	commitment to lifelong learning; (Outcome)
1703		
1704	VI.B.4.e)	monitoring of their patient care performance improvement indicators; and, (Outcome)
1705		
1706		
1707	VI.B.4.f)	accurate reporting of clinical and educational work hours, patient outcomes, and clinical experience data. (Outcome)
1708		
1709		
1710	VI.B.5.	All fellows and faculty members must demonstrate responsiveness to patient needs that supersedes self-interest. This includes the recognition that under certain circumstances, the best interests of the patient may be served by transitioning that patient's care to another qualified and rested provider. (Outcome)
1711		
1712		
1713		
1714		
1715		
1716	VI.B.6.	Programs, in partnership with their Sponsoring Institutions, must provide a professional, equitable, respectful, and civil environment that is free from discrimination, sexual and other forms of harassment, mistreatment, abuse, or coercion of students, fellows, faculty, and staff. 1717		
1718		
1719		
1720		
1721		
1722	VI.B.7.	Programs, in partnership with their Sponsoring Institutions, should have a process for education of fellows and faculty regarding unprofessional behavior and a confidential process for reporting, investigating, and addressing such concerns. (Core)
1723		
1724		
1725		
1726		
1727	VI.C.	Well-Being
1728		
1729		<i>Psychological, emotional, and physical well-being are critical in the development of the competent, caring, and resilient physician and require proactive attention to life inside and outside of medicine. Well-being requires that physicians retain the joy in medicine while managing their own real-life stresses. Self-care and responsibility to support other members of the health care team are important components of professionalism; they are also skills that must be modeled, learned, and nurtured in the context of other aspects of fellowship training.</i>
1730		
1731		
1732		
1733		
1734		
1735		
1736		
1737		
1738		<i>Fellows and faculty members are at risk for burnout and depression. Programs, in partnership with their Sponsoring Institutions, have the same responsibility to address well-being as other aspects of resident competence. Physicians and all members of the health care team share responsibility for the well-being of each other. For example, a culture which encourages covering for colleagues after an illness without the expectation of reciprocity reflects the ideal of professionalism. A positive culture in a clinical learning environment models constructive behaviors, and prepares</i>

1746  
1747  
1748

*fellows with the skills and attitudes needed to thrive throughout their careers.*

**Background and Intent:** The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website: [www.acgme.org/physicianwellbeing](http://www.acgme.org/physicianwellbeing).

The ACGME also created a repository for well-being materials, assessments, presentations, and more on the [Well-Being Tools and Resources page](#) in Learn at ACGME for programs seeking to develop or strengthen their own well-being initiatives. There are many activities that programs can implement now to assess and support physician well-being. These include the distribution and analysis of culture of safety surveys, ensuring the availability of counseling services, and paying attention to the safety of the entire health care team.

1749  
1750

1760  
1761  
1762  
1763  
1764  
1765

- VI.C.1.** The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:
- VI.C.1.a)** efforts to enhance the meaning that each fellow finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; <sup>(Core)</sup>
- VI.C.1.b)** attention to scheduling, work intensity, and work compression that impacts fellow well-being; <sup>(Core)</sup>
- VI.C.1.c)** evaluating workplace safety data and addressing the safety of fellows and faculty members; <sup>(Core)</sup>

**Background and Intent:** This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1766  
1767  
1768  
1769

- VI.C.1.d)** policies and programs that encourage optimal fellow and faculty member well-being; and, <sup>(Core)</sup>

**Background and Intent:** Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1770

1771 VI.C.1.d).(1) Fellows must be given the opportunity to attend  
1772 medical, mental health, and dental care appointments,  
1773 including those scheduled during their working hours.  
1774 (Core)  
1775

**Background and Intent:** The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

1776 VI.C.1.e) attention to fellow and faculty member burnout, depression,  
1777 and substance use disorder. The program, in partnership with  
1778 its Sponsoring Institution, must educate faculty members and  
1779 fellows in identification of the symptoms of burnout,  
1780 depression, and substance use disorder, including means to  
1781 assist those who experience these conditions. Fellows and  
1782 faculty members must also be educated to recognize those  
1783 symptoms in themselves and how to seek appropriate care.  
1784 The program, in partnership with its Sponsoring Institution,  
1785 must: (Core)  
1786  
1787

**Background and Intent:** Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorder. Materials and more information are available in Learn at ACGME (<https://dl.acgme.org/pages/well-being-tools-resources>).

1788 VI.C.1.e).(1) encourage fellows and faculty members to alert the  
1789 program director or other designated personnel or  
1790 programs when they are concerned that another  
1791 fellow, resident, or faculty member may be displaying  
1792 signs of burnout, depression, a substance use  
1793 disorder, suicidal ideation, or potential for violence;  
1794 (Core)  
1795  
1796

**Background and Intent:** Individuals experiencing burnout, depression, substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1797

- 1798 VI.C.1.e).(2) provide access to appropriate tools for self-screening;  
 1799 and, <sup>(Core)</sup>  
 1800  
 1801 VI.C.1.e).(3) provide access to confidential, affordable mental  
 1802 health assessment, counseling, and treatment,  
 1803 including access to urgent and emergent care 24  
 1804 hours a day, seven days a week. <sup>(Core)</sup>  
 1805

**Background and Intent:** The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

- 1806  
 1807 VI.C.2. There are circumstances in which fellows may be unable to attend  
 1808 work, including but not limited to fatigue, illness, family  
 1809 emergencies, and parental leave. Each program must allow an  
 1810 appropriate length of absence for fellows unable to perform their  
 1811 patient care responsibilities. <sup>(Core)</sup>  
 1812  
 1813 VI.C.2.a) The program must have policies and procedures in place to  
 1814 ensure coverage of patient care. <sup>(Core)</sup>  
 1815  
 1816 VI.C.2.b) These policies must be implemented without fear of negative  
 1817 consequences for the fellow who is or was unable to provide  
 1818 the clinical work. <sup>(Core)</sup>  
 1819

**Background and Intent:** Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

- 1820  
 1821 VI.D. Fatigue Mitigation  
 1822  
 1823 VI.D.1. Programs must:  
 1824  
 1825 VI.D.1.a) educate all faculty members and fellows to recognize the  
 1826 signs of fatigue and sleep deprivation; <sup>(Core)</sup>  
 1827  
 1828 VI.D.1.b) educate all faculty members and fellows in alertness  
 1829 management and fatigue mitigation processes; and, <sup>(Core)</sup>  
 1830  
 1831 VI.D.1.c) encourage fellows to use fatigue mitigation processes to  
 1832 manage the potential negative effects of fatigue on patient  
 1833 care and learning. <sup>(Detail)</sup>  
 1834

**Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.**

**This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.**

1847  
1848  
1849  
1850  
1851  
1852  
1853  
1854  
1855  
1856

- VI.D.2. Each program must ensure continuity of patient care, consistent with the program’s policies and procedures referenced in VI.C.2–VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue. (Core)**
- VI.D.3. The program, in partnership with its Sponsoring Institution, must ensure adequate sleep facilities and safe transportation options for fellows who may be too fatigued to safely return home. (Core)**
- VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care**
- VI.E.1. Clinical Responsibilities**
  - The clinical responsibilities for each fellow must be based on PGY level, patient safety, fellow ability, severity and complexity of patient illness/condition, and available support services. (Core)**
  - VI.E.1.a) Fellows must not be regularly relied upon to provide a clinical service that exceeds the educational value of the activity, such as follicular monitoring. (Core)**

**Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.**

1857  
1858  
1859  
1860  
1861

- VI.E.2. Teamwork**
  - Fellows must care for patients in an environment that maximizes communication. This must include the opportunity to work as a**

1862 member of effective interprofessional teams that are appropriate to  
1863 the delivery of care in the subspecialty and larger health system.  
1864 (Core)

1865  
1866 **VI.E.3. Transitions of Care**  
1867

1868 **VI.E.3.a) Programs must design clinical assignments to optimize**  
1869 **transitions in patient care, including their safety, frequency,**  
1870 **and structure. (Core)**  
1871

1872 **VI.E.3.b) Programs, in partnership with their Sponsoring Institutions,**  
1873 **must ensure and monitor effective, structured hand-over**  
1874 **processes to facilitate both continuity of care and patient**  
1875 **safety. (Core)**  
1876

1877 **VI.E.3.c) Programs must ensure that fellows are competent in**  
1878 **communicating with team members in the hand-over process.**  
1879 **(Outcome)**  
1880

1881 **VI.E.3.d) Programs and clinical sites must maintain and communicate**  
1882 **schedules of attending physicians and fellows currently**  
1883 **responsible for care. (Core)**  
1884

1885 **VI.E.3.e) Each program must ensure continuity of patient care,**  
1886 **consistent with the program’s policies and procedures**  
1887 **referenced in VI.C.2-VI.C.2.b), in the event that a fellow may**  
1888 **be unable to perform their patient care responsibilities due to**  
1889 **excessive fatigue or illness, or family emergency. (Core)**  
1890

1891 **VI.F. Clinical Experience and Education**  
1892

1893 *Programs, in partnership with their Sponsoring Institutions, must design*  
1894 *an effective program structure that is configured to provide fellows with*  
1895 *educational and clinical experience opportunities, as well as reasonable*  
1896 *opportunities for rest and personal activities.*  
1897

**Background and Intent: In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.**

1898  
1899 **VI.F.1. Maximum Hours of Clinical and Educational Work per Week**  
1900

1901 **Clinical and educational work hours must be limited to no more than**  
1902 **80 hours per week, averaged over a four-week period, inclusive of all**  
1903 **in-house clinical and educational activities, clinical work done from**  
1904 **home, and all moonlighting. (Core)**  
1905

**Background and Intent:** Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

### ***Scheduling***

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

### ***Oversight***

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

### ***Work from Home***

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the

accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

**VI.F.2. Mandatory Time Free of Clinical Work and Education**

**VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. <sup>(Core)</sup>**

**VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. <sup>(Detail)</sup>**

**VI.F.2.b).(1) There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. <sup>(Detail)</sup>**

**Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.**

1924  
1925  
1926  
1927

**VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. <sup>(Core)</sup>**

**Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.**

1929  
1930  
1931  
1932

**VI.F.2.d) Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. <sup>(Core)</sup>**

1933

**Background and Intent:** The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows’ preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a “golden weekend,” meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as “one (1) continuous 24-hour period free from all administrative, clinical, and educational activities.”

- VI.F.3. Maximum Clinical Work and Education Period Length**
- VI.F.3.a) Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments. (Core)**
- VI.F.3.a).(1) Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education. (Core)**
- VI.F.3.a).(1).(a) Additional patient care responsibilities must not be assigned to a fellow during this time. (Core)**

**Background and Intent:** The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- VI.F.4. Clinical and Educational Work Hour Exceptions**
- VI.F.4.a) In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:**
- VI.F.4.a).(1) to continue to provide care to a single severely ill or unstable patient; (Detail)**
- VI.F.4.a).(2) humanistic attention to the needs of a patient or family; or, (Detail)**

- 1963 VI.F.4.a).(3) to attend unique educational events. (Detail)
- 1964
- 1965 VI.F.4.b) These additional hours of care or education will be counted
- 1966 toward the 80-hour weekly limit. (Detail)
- 1967

**Background and Intent:** This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

- 1968
- 1969 VI.F.4.c) A Review Committee may grant rotation-specific exceptions
- 1970 for up to 10 percent or a maximum of 88 clinical and
- 1971 educational work hours to individual programs based on a
- 1972 sound educational rationale.
- 1973
- 1974 The Review Committee will not consider requests for exceptions
- 1975 to the 80-hour weekly limit.
- 1976

1977 VI.F.5. Moonlighting

1978

- 1979 VI.F.5.a) Moonlighting must not interfere with the ability of the fellow
- 1980 to achieve the goals and objectives of the educational
- 1981 program, and must not interfere with the fellow's fitness for
- 1982 work nor compromise patient safety. (Core)
- 1983

- 1984 VI.F.5.b) Time spent by fellows in internal and external moonlighting
- 1985 (as defined in the ACGME Glossary of Terms) must be
- 1986 counted toward the 80-hour maximum weekly limit. (Core)
- 1987

**Background and Intent:** For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

- 1988
- 1989 VI.F.6. In-House Night Float
- 1990
- 1991 Night float must occur within the context of the 80-hour and one-
- 1992 day-off-in-seven requirements. (Core)
- 1993

**Background and Intent:** The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

- 1994
- 1995 VI.F.7. Maximum In-House On-Call Frequency
- 1996
- 1997 Fellows must be scheduled for in-house call no more frequently than
- 1998 every third night (when averaged over a four-week period). (Core)

2014		
2015		
2016		
2017		

**Background and Intent:** This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

**In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.**
