VI.F. Clinical Experience and Education	49

- 48
49 Int.B.1. Diagnostic radiology subspecialty fellowship programs are designed to
50 develop advanced knowledge and skills in a specific clinical area. The
51 program design and/or structure must be approved by the Review
52 Committee as part of the regular review process.
53
- 54 Int.B.2. Abdominal radiology constitutes the application and interpretation of
55 conventional techniques and procedures as they apply to diseases
56 involving the gastrointestinal tract, genitourinary tract, and the
57 intraperitoneal and extra peritoneal abdominal organs. These techniques
58 and procedures include computed tomography (CT), ultrasonography,
59 magnetic resonance imaging (MRI), nuclear medicine, and fluoroscopy.
60
- 61 Int.B.3. The program must substantially enhance fellows' knowledge of all forms
62 of diagnostic imaging and interventional techniques as they apply to the
63 unique clinical and pathophysiologic problems encountered in diseases
64 affecting the gastrointestinal and genitourinary systems. Fellows should
65 have education in normal and pathologic anatomy and physiology of
66 gastrointestinal and genitourinary disease. The program should be
67 structured to develop expertise in the appropriate application of all forms
68 of diagnostic imaging and interventions to problems of the abdomen and
69 pelvis.
70

71 **Int.C. Length of Educational Program**
72

73 The educational program in abdominal diagnostic radiology subspecialties must
74 be at least 12 months in length. (Core)*
75

76 **I. Oversight**
77

78 **I.A. Sponsoring Institution**
79

80 *The Sponsoring Institution is the organization or entity that assumes the*
81 *ultimate financial and academic responsibility for a program of graduate*
82 *medical education consistent with the ACGME Institutional Requirements.*
83

84 *When the Sponsoring Institution is not a rotation site for the program, the*
85 *most commonly utilized site of clinical activity for the program is the*
86 *primary clinical site.*
87

Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.

88

- 89 **I.A.1. The program must be sponsored by one ACGME-accredited**
90 **Sponsoring Institution.** ^(Core)
91
- 92 **I.B. Participating Sites**
93
94 *A participating site is an organization providing educational experiences or*
95 *educational assignments/rotations for fellows.*
96
- 97 **I.B.1. The program, with approval of its Sponsoring Institution, must**
98 **designate a primary clinical site.** ^(Core)
99
- 100 I.B.1.a) ~~Close cooperation between the fellowship and residency program~~
101 ~~directors is required. The Sponsoring Institution must also sponsor~~
102 ~~an ACGME-accredited program in diagnostic radiology.~~ ^(Core)
103
- 104 I.B.1.b) There should be ~~an~~ ACGME-accredited ~~residency~~ residencies or
105 subspecialty programs available in gastroenterology, general
106 surgery, ~~gastroenterology~~, obstetrics and gynecology, oncology,
107 pathology, and urology, ~~gynecology, and pathology~~ at the primary
108 clinical site. ^(Core)
109
- 110 **I.B.2. There must be a program letter of agreement (PLA) between the**
111 **program and each participating site that governs the relationship**
112 **between the program and the participating site providing a required**
113 **assignment.** ^(Core)
114
- 115 **I.B.2.a) The PLA must:**
116
- 117 **I.B.2.a).(1) be renewed at least every 10 years; and,** ^(Core)
118
- 119 **I.B.2.a).(2) be approved by the designated institutional official**
120 **(DIO).** ^(Core)
121
- 122 **I.B.3. The program must monitor the clinical learning and working**
123 **environment at all participating sites.** ^(Core)
124
- 125 **I.B.3.a) At each participating site there must be one faculty member,**
126 **designated by the program director, who is accountable for**
127 **fellow education for that site, in collaboration with the**
128 **program director.** ^(Core)
129

Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:

- Identifying the faculty members who will assume educational and supervisory responsibility for fellows
- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

130
131
132
133
134
135
136
137
138
139
140
141

I.B.4. The program director must submit any additions or deletions of participating sites routinely providing an educational experience, required for all fellows, of one month full time equivalent (FTE) or more through the ACGME's Accreditation Data System (ADS). ^(Core)

I.C. The program, in partnership with its Sponsoring Institution, must engage in practices that focus on mission-driven, ongoing, systematic recruitment and retention of a diverse and inclusive workforce of residents (if present), fellows, faculty members, senior administrative staff members, and other relevant members of its academic community. ^(Core)

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution's mission and aims. The program's annual evaluation must include an assessment of the program's efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

159
160
161
162
163

I.D. Resources

I.D.1. The program, in partnership with its Sponsoring Institution, must ensure the availability of adequate resources for fellow education. ^(Core)

I.D.1.a) There must be adequate office space for abdominal radiology faculty members, program administration, and fellows. ^(Core)

I.D.1.b) The program must have appropriate facilities and space for the education of the fellows. ^(Core)

I.D.1.b).(1) There must be adequate study space, conference space, and access to computers. ^{(CoreDetail)†}

I.D.1.b).(2) Adequate space for image display, interpretation, and consultation with clinicians and referring physicians must be available. ^(Core)

I.D.1.c) Modern imaging equipment and adequate space must be available to accomplish the overall educational program in

164 abdominal radiology, ~~and There must be state-of-the-art must~~
165 include access to routine equipment for conventional radiography,
166 digital fluoroscopy, computed tomography, ultrasonography,
167 nuclear medicine, and magnetic resonance imaging. ^(Core)
168

169 I.D.1.d) Adequate laboratory and pathology services must be available
170 adequate to support the educational experience in abdominal
171 radiology. ~~Adequate areas for display of images, interpretation of~~
172 ~~images, and consultation with clinicians must be available.~~ ^(Core)
173

174 **I.D.2. The program, in partnership with its Sponsoring Institution, must**
175 **ensure healthy and safe learning and working environments that**
176 **promote fellow well-being and provide for:** ^(Core)
177

178 **I.D.2.a) access to food while on duty;** ^(Core)
179

180 **I.D.2.b) safe, quiet, clean, and private sleep/rest facilities available**
181 **and accessible for fellows with proximity appropriate for safe**
182 **patient care;** ^(Core)
183

Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

184
185 **I.D.2.c) clean and private facilities for lactation that have refrigeration**
186 **capabilities, with proximity appropriate for safe patient care;**
187 ^(Core)
188

Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

189
190 **I.D.2.d) security and safety measures appropriate to the participating**
191 **site; and,** ^(Core)
192

193 **I.D.2.e) accommodations for fellows with disabilities consistent with**
194 **the Sponsoring Institution's policy.** ^(Core)
195

196 **I.D.3. Fellows must have ready access to subspecialty-specific and other**
197 **appropriate reference material in print or electronic format. This**

198 must include access to electronic medical literature databases with
199 full text capabilities. ^(Core)

200
201 **I.D.4. The program’s educational and clinical resources must be adequate**
202 **to support the number of fellows appointed to the program.** ^(Core)

203
204 I.D.4.a) The program must ensure there are ~~Fellows must have an~~
205 ~~adequate volume and variety of imaging studies and image-~~
206 ~~guided invasive procedures~~ available for the fellows’ education,
207 ~~and must be provided instruction in their indications, appropriate~~
208 ~~utilization, risks, and alternatives.~~ ^(Core)

209
210 **I.E. A fellowship program usually occurs in the context of many learners and**
211 **other care providers and limited clinical resources. It should be structured**
212 **to optimize education for all learners present.**

213
214 **I.E.1. Fellows should contribute to the education of residents in core**
215 **programs, if present.** ^(Core)

Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows’ education is not compromised by the presence of other providers and learners, and that fellows’ education does not compromise core residents’ education.

217
218 I.E.2. ~~The presence of other learners (including residents from other specialties,~~
219 ~~subspecialty fellows, PhD students, and nurse practitioners) in the~~
220 ~~program must not interfere with the appointed fellows’ education.~~ ^(Detail)

221
222 I.E.3. The fellows must not dilute or detract from the educational opportunities
223 available to residents in the core diagnostic radiology residency program.
224 ^(CoreDetail)

225
226 I.E.4. Lines of responsibilities for the diagnostic radiology residents and the
227 abdominal radiology ~~subspecialty~~ fellows must be clearly defined. ^(Core)

Specialty-Specific Background and Intent: A close relationship and interaction between the fellowship program and the diagnostic radiology residency program will be essential in the management and oversight of the clinical environment to prevent dilution of education or training opportunities for either the fellows or residents.

229
230 **II. Personnel**

231
232 **II.A. Program Director**

233
234 **II.A.1. There must be one faculty member appointed as program director**
235 **with authority and accountability for the overall program, including**
236 **compliance with all applicable program requirements.** ^(Core)

237

238 II.A.1.a) The Sponsoring Institution’s Graduate Medical Education
239 Committee (GMEC) must approve a change in program
240 director. ^(Core)

241
242 II.A.1.b) Final approval of the program director resides with the
243 Review Committee. ^(Core)
244

Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and made responsible for the program. This individual will have dedicated time for the leadership of the fellowship, and it is this individual’s responsibility to communicate with the fellows, faculty members, DIO, GMEC, and the ACGME. The program director’s nomination is reviewed and approved by the GMEC. Final approval of program directors resides with the Review Committee.

245
246 II.A.2. The program director must be provided with support adequate for
247 administration of the program based upon its size and configuration.
248 ^(Core)

249
250 II.A.2.a) At a minimum, the program director must be provided with the
251 dedicated time and support specified below for administration of
252 the program: ^(Core)
253

<u>Number of Approved Fellow Positions</u>	<u>Minimum Support Required (FTE)</u>
<u>1-4</u>	<u>0.1</u>
<u>5-7</u>	<u>0.2</u>
<u>8 or more</u>	<u>0.3</u>

254
Background and Intent: Ten percent FTE is defined as one half day per week.
“Administrative time” is defined as non-clinical time spent meeting the responsibilities of the program director as detailed in requirements II.A.4.-II.A.4.a).(16).
The requirement does not address the source of funding required to provide the specified salary support.

255
256 II.A.3. Qualifications of the program director:
257

258 II.A.3.a) must include subspecialty expertise and qualifications
259 acceptable to the Review Committee; ^(Core)
260

261 II.A.3.a).(1) post-residency experience in abdominal radiology the
262 subspecialty area, including fellowship education and
263 training, or five years of practice experience in the
264 subspecialty for those subspecialties in which no
265 certification is offered; ^(Core)
266

- 267 II.A.3.a).(2) experience as an educator and supervisor of fellows in
 268 abdominal radiology; and, ^(Core)
 269
- 270 II.A.3.a).(3) at least three years' experience as a faculty member in an
 271 ACGME-accredited or AOA-approved diagnostic radiology
 272 or interventional radiology residency, or abdominal
 273 radiology fellowship program. ^(Core)
 274
- 275 **II.A.3.b) must include current certification in the specialty by the**
 276 **American Board of Radiology or by the American Osteopathic**
 277 **Board of Radiology, or subspecialty qualifications that are**
 278 **acceptable to the Review Committee;** ^(Core)
 279
- 280 [Note that while the Common Program Requirements deem
 281 certification by a certifying board of the American Board of Medical
 282 Specialties (ABMS) or the American Osteopathic Association
 283 (AOA) acceptable, there is no ABMS or AOA board that offers
 284 certification in this subspecialty]
 285
- 286 II.A.3.c) ~~must include devotion of at least 80% of his/her professional time~~
 287 ~~in abdominal radiology, and devote sufficient time to fulfill all~~
 288 ~~responsibilities inherent to meeting the educational goals of the~~
 289 ~~program.~~ ^(Detail) must include devotion of at least 80 percent of
 290 professional clinical contributions in abdominal radiology; and,
 291 ^(Core)
 292
- 293 II.A.3.d) must include devotion of sufficient time to fulfill all responsibilities
 294 inherent to meeting the educational goals of the program. ^(Core)
 295
- 296 **II.A.4. Program Director Responsibilities**
 297
- 298 **The program director must have responsibility, authority, and**
 299 **accountability for: administration and operations; teaching and**
 300 **scholarly activity; fellow recruitment and selection, evaluation, and**
 301 **promotion of fellows, and disciplinary action; supervision of fellows;**
 302 **and fellow education in the context of patient care.** ^(Core)
 303
- 304 **II.A.4.a) The program director must:**
 305
- 306 **II.A.4.a).(1) be a role model of professionalism;** ^(Core)
 307

Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

308

309 **II.A.4.a).(2)** design and conduct the program in a fashion
310 consistent with the needs of the community, the
311 mission(s) of the Sponsoring Institution, and the
312 mission(s) of the program; ^(Core)
313

Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

314
315 **II.A.4.a).(3)** administer and maintain a learning environment
316 conducive to educating the fellows in each of the
317 ACGME Competency domains; ^(Core)
318

Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

319
320 **II.A.4.a).(4)** develop and oversee a process to evaluate candidates
321 prior to approval as program faculty members for
322 participation in the fellowship program education and
323 at least annually thereafter, as outlined in V.B.; ^(Core)
324

325 **II.A.4.a).(5)** have the authority to approve program faculty
326 members for participation in the fellowship program
327 education at all sites; ^(Core)
328

329 **II.A.4.a).(6)** have the authority to remove program faculty
330 members from participation in the fellowship program
331 education at all sites; ^(Core)
332

333 **II.A.4.a).(7)** have the authority to remove fellows from supervising
334 interactions and/or learning environments that do not
335 meet the standards of the program; ^(Core)
336

Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

337
338 **II.A.4.a).(8)** submit accurate and complete information required
339 and requested by the DIO, GMEC, and ACGME; ^(Core)

- 340
341 **II.A.4.a).(9)** provide applicants who are offered an interview with
342 information related to the applicant's eligibility for the
343 relevant subspecialty board examination(s); ^(Core)
344
- 345 **II.A.4.a).(10)** provide a learning and working environment in which
346 fellows have the opportunity to raise concerns and
347 provide feedback in a confidential manner as
348 appropriate, without fear of intimidation or retaliation;
349 ^(Core)
350
- 351 **II.A.4.a).(11)** ensure the program's compliance with the Sponsoring
352 Institution's policies and procedures related to
353 grievances and due process; ^(Core)
354
- 355 **II.A.4.a).(12)** ensure the program's compliance with the Sponsoring
356 Institution's policies and procedures for due process
357 when action is taken to suspend or dismiss, not to
358 promote, or not to renew the appointment of a fellow;
359 ^(Core)
360

Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution's policies and procedures, and will ensure they are followed by the program's leadership, faculty members, support personnel, and fellows.

- 361
362 **II.A.4.a).(13)** ensure the program's compliance with the Sponsoring
363 Institution's policies and procedures on employment
364 and non-discrimination; ^(Core)
365
- 366 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-
367 competition guarantee or restrictive covenant.
368 ^(Core)
369
- 370 **II.A.4.a).(14)** document verification of program completion for all
371 graduating fellows within 30 days; ^(Core)
372
- 373 **II.A.4.a).(15)** provide verification of an individual fellow's
374 completion upon the fellow's request, within 30 days;
375 and, ^(Core)
376

Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.

- 377
378 **II.A.4.a).(16)** obtain review and approval of the Sponsoring
379 Institution's DIO before submitting information or
380 requests to the ACGME, as required in the Institutional

Requirements and outlined in the ACGME Program
Director's Guide to the Common Program
Requirements. ^(Core)

II.B. Faculty

Faculty members are a foundational element of graduate medical education – faculty members teach fellows how to care for patients. Faculty members provide an important bridge allowing fellows to grow and become practice ready, ensuring that patients receive the highest quality of care. They are role models for future generations of physicians by demonstrating compassion, commitment to excellence in teaching and patient care, professionalism, and a dedication to lifelong learning. Faculty members experience the pride and joy of fostering the growth and development of future colleagues. The care they provide is enhanced by the opportunity to teach. By employing a scholarly approach to patient care, faculty members, through the graduate medical education system, improve the health of the individual and the population.

Faculty members ensure that patients receive the level of care expected from a specialist in the field. They recognize and respond to the needs of the patients, fellows, community, and institution. Faculty members provide appropriate levels of supervision to promote patient safety. Faculty members create an effective learning environment by acting in a professional manner and attending to the well-being of the fellows and themselves.

Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment or salary support.

II.B.1. For each participating site, there must be a sufficient number of faculty members with competence to instruct and supervise all fellows at that location. ^(Core)

II.B.1.a) ~~At a minimum, the program faculty must have two FTE faculty members dedicated to the program, including the program director. ^(Core)~~

II.B.1.b) ~~To ensure adequate supervision and evaluation of the fellows' academic progress, the faculty/fellow ratio should not be less than one faculty member to each fellow. To ensure adequate teaching, supervision, and evaluation of the fellows' academic progress, there must be a ratio of at least one full-time faculty member for every fellow in the program. ^(Core)~~

II.B.1.b).(1) ~~Although it is desirable that abdominal radiologists supervise special imaging such as computed tomography, ultrasonography, and magnetic resonance imaging, in instances where they are not expert in a special imaging technique, other radiologists who are specialists in those~~

429 ~~areas must be part-time members of the abdominal~~
430 ~~radiology faculty.~~ ^(Detail)

431
432 **II.B.2. Faculty members must:**

433
434 **II.B.2.a) be role models of professionalism;** ^(Core)

435
436 **II.B.2.b) demonstrate commitment to the delivery of safe, quality,**
437 **cost-effective, patient-centered care;** ^(Core)
438

Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.

439
440 **II.B.2.c) demonstrate a strong interest in the education of fellows;** ^(Core)

441
442 **II.B.2.d) devote sufficient time to the educational program to fulfill**
443 **their supervisory and teaching responsibilities;** ^(Core)

444
445 **II.B.2.e) administer and maintain an educational environment**
446 **conducive to educating fellows;** ^(Core)

447
448 **II.B.2.f) regularly participate in organized clinical discussions,**
449 **rounds, journal clubs, and conferences;** ^(Core)

450
451 **II.B.2.g) pursue faculty development designed to enhance their skills**
452 **at least annually; and,** ^(Core)

453
454 **II.B.2.h) provide didactic teaching and supervision of the fellows'**
455 **performance and interpretation of all abdominal imaging**
456 **procedures.** ^(Core)
457

Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.

458
459 **II.B.3. Faculty Qualifications**

460
461 **II.B.3.a) Faculty members must have appropriate qualifications in**
462 **their field and hold appropriate institutional appointments.**
463 ^(Core)

464
465 **II.B.3.b) Subspecialty physician faculty members must:**
466

467 **II.B.3.b).(1)** **have current certification in the specialty by the**
468 **American Board of Radiology or the American**
469 **Osteopathic Board of Radiology, or possess**
470 **qualifications judged acceptable to the Review**
471 **Committee; and,** ^(Core)

[Note that while the Common Program Requirements deem certification by a certifying board of the American Board of Medical Specialties (ABMS) or the American Osteopathic Association (AOA) acceptable, there is no ABMS or AOA board that offers certification in this subspecialty]

479
480 **II.B.3.b).(2)** have post-residency experience in abdominal radiology,
481 including fellowship education. ^(Core)

482
483 **II.B.3.c)** **Any non-physician faculty members who participate in**
484 **fellowship program education must be approved by the**
485 **program director.** ^(Core)
486

Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.

487
488 **II.B.3.d)** **Any other specialty physician faculty members must have**
489 **current certification in their specialty by the appropriate**
490 **American Board of Medical Specialties (ABMS) member**
491 **board or American Osteopathic Association (AOA) certifying**
492 **board, or possess qualifications judged acceptable to the**
493 **Review Committee.** ^(Core)

494
495 **II.B.4.** **Core Faculty**
496
497 **Core faculty members must have a significant role in the education**
498 **and supervision of fellows and must devote a significant portion of**
499 **their entire effort to fellow education and/or administration, and**
500 **must, as a component of their activities, teach, evaluate, and provide**
501 **formative feedback to fellows.** ^(Core)
502

Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum and in assessing fellows' progress toward achievement of competence in the subspecialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program, including completion of the annual ACGME Faculty Survey.

503

- 504 **II.B.4.a)** **Core faculty members must be designated by the program**
505 **director.** ^(Core)
506
- 507 **II.B.4.b)** **Core faculty members must complete the annual ACGME**
508 **Faculty Survey.** ^(Core)
509
- 510 **II.B.4.c)** The abdominal radiology faculty must have a minimum of two FTE
511 core faculty members, which must include the program director
512 and at least one other full-time radiologist specializing in
513 abdominal radiology. ^(Core)
514
- 515 **II.C. Program Coordinator**
516
- 517 **II.C.1.** **There must be a program coordinator.** ^(Core)
518
- 519 **II.C.2.** **The program coordinator must be provided with support adequate**
520 **for administration of the program based upon its size and**
521 **configuration.** ^(Core)
522

Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison with learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management. Program coordinators are expected to develop unique knowledge of the ACGME and Program Requirements, policies, and procedures. Program coordinators assist the program director in accreditation efforts, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

- 523
- 524 **II.D. Other Program Personnel**
525
- 526 **The program, in partnership with its Sponsoring Institution, must jointly**
527 **ensure the availability of necessary personnel for the effective**
528 **administration of the program.** ^(Core)
529

Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.

530
531 **III. Fellow Appointments**
532
533 **III.A. Eligibility Criteria**

534
535 **III.A.1. Eligibility Requirements – Fellowship Programs**
536

537 **All required clinical education for entry into ACGME-accredited**
538 **fellowship programs must be completed in an ACGME-accredited**
539 **residency program, an AOA-approved residency program, a**
540 **program with ACGME International (ACGME-I) Advanced Specialty**
541 **Accreditation, or a Royal College of Physicians and Surgeons of**
542 **Canada (RCPSC)-accredited or College of Family Physicians of**
543 **Canada (CFPC)-accredited residency program located in Canada.**
544 **(Core)**
545

Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).

546
547 **III.A.1.a) Fellowship programs must receive verification of each**
548 **entering fellow’s level of competence in the required field,**
549 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**
550 **Milestones evaluations from the core residency program. (Core)**
551

552 **III.A.1.b) Prerequisite ~~experience training~~ for entry into a diagnostic**
553 **~~radiology subspecialty~~ the fellowship program should include the**
554 **satisfactory completion of a diagnostic radiology or interventional**
555 **radiology residency program that satisfies the requirements in**
556 **III.A.1. (Core)**
557

558 **III.A.1.c) Fellow Eligibility Exception**
559

560 **The Review Committee for Radiology will allow the following**
561 **exception to the fellowship eligibility requirements:**
562

563 **III.A.1.c).(1) An ACGME-accredited fellowship program may accept**
564 **an exceptionally qualified international graduate**
565 **applicant who does not satisfy the eligibility**
566 **requirements listed in III.A.1., but who does meet all of**
567 **the following additional qualifications and conditions:**
568 **(Core)**
569

570 **III.A.1.c).(1).(a) evaluation by the program director and**
571 **fellowship selection committee of the**
572 **applicant’s suitability to enter the program,**
573 **based on prior training and review of the**
574 **summative evaluations of training in the core**
575 **specialty; and, (Core)**
576

- 577 III.A.1.c).(1).(b) review and approval of the applicant's
 578 exceptional qualifications by the GMEC; and,
 579 (Core)
 580
 581 III.A.1.c).(1).(c) verification of Educational Commission for
 582 Foreign Medical Graduates (ECFMG)
 583 certification. (Core)
 584
 585 III.A.1.c).(2) Applicants accepted through this exception must have
 586 an evaluation of their performance by the Clinical
 587 Competency Committee within 12 weeks of
 588 matriculation. (Core)
 589

Background and Intent: An exceptionally qualified international graduate applicant has (1) completed a residency program in the core specialty outside the continental United States that was not accredited by the ACGME, AOA, ACGME-I, RCPSC or CFPC, and (2) demonstrated clinical excellence, in comparison to peers, throughout training. Additional evidence of exceptional qualifications is required, which may include one of the following: (a) participation in additional clinical or research training in the specialty or subspecialty; (b) demonstrated scholarship in the specialty or subspecialty; and/or (c) demonstrated leadership during or after residency. Applicants being considered for these positions must be informed of the fact that their training may not lead to certification by ABMS member boards or AOA certifying boards.

In recognition of the diversity of medical education and training around the world, this early evaluation of clinical competence required for these applicants ensures they can provide quality and safe patient care. Any gaps in competence should be addressed as per policies for fellows already established by the program in partnership with the Sponsoring Institution.

- 590
 591 III.B. The program director must not appoint more fellows than approved by the
 592 Review Committee. (Core)
 593
 594 III.B.1. All complement increases must be approved by the Review
 595 Committee. (Core)
 596
 597 III.B.1.a) ~~The total number of fellows in the program must be~~
 598 ~~commensurate with the capacity of the program to offer an~~
 599 ~~adequate educational experience in abdominal radiology.~~ (Core)
 600
 601 ~~III.B.1.a).(1) The minimum number of fellows need not be greater than~~
 602 ~~one, but at least two fellows are desirable.~~ (Detail)
 603
 604 III.C. Fellow Transfers
 605
 606 The program must obtain verification of previous educational experiences
 607 and a summative competency-based performance evaluation prior to
 608 acceptance of a transferring fellow, and Milestones evaluations upon
 609 matriculation. (Core)
 610

642
643
644
645
646
647
648
649

The ACGME accreditation system is designed to encourage excellence and innovation in graduate medical education regardless of the organizational affiliation, size, or location of the program.

The educational program must support the development of knowledgeable, skillful physicians who provide compassionate care.

In addition, the program is expected to define its specific program aims consistent with the overall mission of its Sponsoring Institution, the needs of the community it serves and that its graduates will serve, and the distinctive capabilities of physicians it intends to graduate. While programs must demonstrate substantial compliance with the Common and subspecialty-specific Program Requirements, it is recognized that within this framework, programs may place different emphasis on research, leadership, public health, etc. It is expected that the program aims will reflect the nuanced program-specific goals for it and its graduates; for example, it is expected that a program aiming to prepare physician-scientists will have a different curriculum from one focusing on community health.

IV.A. The curriculum must contain the following educational components: (Core)

IV.A.1. a set of program aims consistent with the Sponsoring Institution’s mission, the needs of the community it serves, and the desired distinctive capabilities of its graduates; (Core)

IV.A.1.a) The program’s aims must be made available to program applicants, fellows, and faculty members. (Core)

IV.A.2. competency-based goals and objectives for each educational experience designed to promote progress on a trajectory to autonomous practice in their subspecialty. These must be distributed, reviewed, and available to fellows and faculty members; (Core)

IV.A.3. delineation of fellow responsibilities for patient care, progressive responsibility for patient management, and graded supervision in their subspecialty; (Core)

Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

IV.A.4. structured educational activities beyond direct patient care; and, (Core)

Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case discussions, etc., allow fellows to gain medical knowledge directly applicable to the

650
651
652
653

patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

654
655
656
657
658
659

IV.A.5. advancement of fellows' knowledge of ethical principles foundational to medical professionalism. ^(Core)

IV.B. ACGME Competencies

Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

660
661
662
663
664
665
666
667
668
669
670

IV.B.1. The program must integrate the following ACGME Competencies into the curriculum: ^(Core)

IV.B.1.a) Professionalism

Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. ^(Core)

IV.B.1.b) Patient Care and Procedural Skills

Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs.* 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.

671

674
675
676
677
678
679
680
681
682

IV.B.1.b).(1) Fellows must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health. ^(Core)

IV.B.1.b).(1).(a) Fellows must demonstrate competence in providing consultation with referring physicians or services. ^(Core)

IV.B.1.b).(1).(b) Fellows must demonstrate competence in applying standards of care for practicing in a safe

683		environment, attempting to reduce errors, and
684		improving patient outcomes. (Core)
685		
686	IV.B.1.b).(1).(c)	Fellows must demonstrate competence in the
687		interpretation of all specified exams and/or invasive
688		studies under close, graded responsibility and
689		supervision. (Core)
690		
691	IV.B.1.b).(1).(d)	Fellows must demonstrate competence in the
692		interpretation of the range of abdominal imaging
693		studies, encompassing: (Core)
694		
695	IV.B.1.b).(1).(d).(i)	plain films and contrast enhanced
696		conventional radiography studies of the
697		<u>gastrointestinal (GI)</u> and <u>genitourinary (GU)</u>
698		tracts, including Barium contrast studies and
699		urography; (Core)
700		
701	IV.B.1.b).(1).(d).(ii)	all ultrasonic examinations of the solid and
702		hollow organs and conduits of the GI tract
703		and of the kidneys, retroperitoneal spaces,
704		the bladder, and male and female
705		reproductive organs and conduits; (Core)
706		
707	IV.B.1.b).(1).(d).(iii)	all computed tomography <u>CT</u> examinations
708		of the solid and hollow organs and conduits
709		of the GI and GU tract and associated
710		vessels and spaces; and, (Core)
711		
712	IV.B.1.b).(1).(d).(iv)	all magnetic resonance imaging <u>MRI</u>
713		examinations of the abdomen, including but
714		not limited to magnetic resonance
715		cholangiopancreatography and magnetic
716		resonance angiography. (Core)
717		
718	IV.B.1.b).(1).(e)	Fellows must demonstrate an understanding of the
719		indications and complications of percutaneous
720		nephrostomy, and transhepatic cholangiography,
721		tumor embolization, and percutaneous ablation;
722		(Core)
723		
724	IV.B.1.b).(1).(f)	Fellows must demonstrate an understanding of the
725		indications, performance, and interpretation of PET
726		and PET/CT in relation to abdominal disease; and,
727		(Core)
728		
729	IV.B.1.b).(1).(g)	Fellows should demonstrate competence in have a
730		clearly defined role in educating diagnostic <u>and</u>
731		<u>interventional radiology</u> residents, and if
732		appropriate, medical students, and other
733		professional personnel, in the care and

734		management of patients. ^(Core) [Moved from
735		IV.B.1.b).(1).(b)]
736		
737	IV.B.1.b).(1).(h)	Fellows should <u>demonstrate competence in</u>
738		<u>integrating</u> invasive procedures during
739		conferences and individual consultation, where
740		indicated, into optimal care plans for patients, even
741		if formal responsibility for performing the
742		procedures may not be part of the program. ^(Core)
743		
744	IV.B.1.b).(2)	Fellows must be able to perform all medical,
745		diagnostic, and surgical procedures considered
746		essential for the area of practice. ^(Core)
747		
748	IV.B.1.b).(2).(a)	Fellows must <u>demonstrate competence in applying</u>
749		low dose radiation techniques for both adults and
750		children. ^(Core)
751		
752	IV.B.1.b).(2).(b)	Fellows must <u>demonstrate competence in the</u>
753		<u>performance of</u> all specified exams and/or invasive
754		studies under close, graded responsibility and
755		supervision. ^(Core)
756		
757	IV.B.1.c)	Medical Knowledge
758		
759		Fellows must demonstrate knowledge of established and
760		evolving biomedical, clinical, epidemiological and social-
761		behavioral sciences, as well as the application of this
762		knowledge to patient care. ^(Core)
763		
764	IV.B.1.c).(1)	Fellows must demonstrate a level of expertise in the
765		knowledge of those areas appropriate for <u>an abdominal</u>
766		radiology specialist. ^(Core)
767		
768	IV.B.1.c).(2)	<u>Fellows must demonstrate knowledge and understanding</u>
769		<u>of the indications and complications of percutaneous</u>
770		<u>nephrostomy, and transhepatic cholangiography, tumor</u>
771		<u>embolization, and percutaneous ablation.</u> ^(Core)
772		
773	IV.B.1.c).(3)	<u>Fellows must demonstrate knowledge and understanding</u>
774		<u>of the indications, performance, and interpretation of</u>
775		<u>positron emission tomography (PET) and PET/CT in</u>
776		<u>relation to abdominal disease.</u> ^(Core)
777		
778	IV.B.1.c).(4)	Fellows must demonstrate knowledge of low dose radiation
779		techniques for both adults and children. ^(Core)
780		
781	IV.B.1.c).(5)	Fellows must demonstrate knowledge of <u>the</u> prevention
782		and of treatment of complications of contrast
783		administration. ^(Core)
784		

785 IV.B.1.c).(6) Fellows should ~~develop~~ demonstrate knowledge and skills
786 in preparing and presenting educational material for
787 medical students, graduate medical staff members, and
788 allied health personnel. ^(Core)
789

790 **IV.B.1.d) Practice-based Learning and Improvement**

791
792 **Fellows must demonstrate the ability to investigate and**
793 **evaluate their care of patients, to appraise and assimilate**
794 **scientific evidence, and to continuously improve patient care**
795 **based on constant self-evaluation and lifelong learning.** ^(Core)
796

Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.

The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.

797
798 **IV.B.1.e) Interpersonal and Communication Skills**
799

800 **Fellows must demonstrate interpersonal and communication**
801 **skills that result in the effective exchange of information and**
802 **collaboration with patients, their families, and health**
803 **professionals.** ^(Core)
804

805 **IV.B.1.f) Systems-based Practice**
806

807 **Fellows must demonstrate an awareness of and**
808 **responsiveness to the larger context and system of health**
809 **care, including the social determinants of health, as well as**
810 **the ability to call effectively on other resources to provide**
811 **optimal health care.** ^(Core)
812

813 **IV.C. Curriculum Organization and Fellow Experiences**
814

815 **IV.C.1. The curriculum must be structured to optimize fellow educational**
816 **experiences, the length of these experiences, and supervisory**
817 **continuity.** ^(Core)
818

819 **IV.C.1.a) The assignment of educational experiences should be structured**
820 **to minimize the frequency of transitions.** ^(Detail)
821

822 **IV.C.1.b) Educational experiences should be of sufficient length to provide a**
823 **quality educational experience defined by ongoing supervision,**
824 **longitudinal relationships with faculty members, and high-quality**
825 **assessment and feedback.** ^(Detail)
826

- 827 **IV.C.2. The program must provide instruction and experience in pain**
 828 **management if applicable for the subspecialty, including recognition**
 829 **of the signs of addiction.** ^(Core)
 830
 831 **IV.C.3. Didactic Experiences**
 832
 833 **IV.C.3.a) Didactic activities ~~Conferences~~ must provide for progressive fellow**
 834 **participation, including:** ^(CoreDetail) [Moved from IV.C.6.]
 835
 836 ~~IV.C.3.a).(1) Scheduled presentations by fellows should be encouraged.~~
 837 ~~These conferences should include:~~ ^(Detail)
 838
 839 **IV.C.3.a).(1).(a) intradepartmental conferences;** ^(CoreDetail) [Moved
 840 from IV.C.6.a).(1)]
 841
 842 ~~IV.C.3.a).(1).(b) departmental grand rounds;~~ ^(Detail)
 843
 844 **IV.C.3.a).(1).(c) at least one interdisciplinary multidisciplinary**
 845 **conferences per week; and,** ^(CoreDetail) [Moved from
 846 IV.C.6.a).(3)]
 847
 848 **IV.C.3.a).(1).(d) peer-review case conferences and/or morbidity and**
 849 **mortality conferences.** ^(CoreDetail) [Moved from
 850 IV.C.6.a).(4)]

Specialty-Specific Background and Intent: It is intended that fellows will participate in structured didactic activities, which may include, but are not limited to, lectures, conferences, courses, labs, asynchronous learning, simulations, drills, case discussions, grand rounds, didactic teaching, and education in critical appraisal of medical evidence.

- 851
 852 **IV.C.3.b) Journal club must be held on a quarterly basis.** ^(Core)
 853
 854 **IV.C.3.c) Fellows must attend/participate in and regularly attend didactic**
 855 **activities, conferences directed to the level of the individual fellow,**
 856 **that provide formal review of the topics in the subspecialty**
 857 **curriculum.** ^(Core) [Moved from IV.C.8]
 858
 859 **IV.C.3.c).(1) This should include scheduled presentations by the**
 860 **fellows.** ^(Detail)
 861
 862 **IV.C.3.c).(2) These didactic activities ~~conferences~~ should occur at least**
 863 **twice per month.** ^(Detail) [Moved from IV.C.8.a)]
 864
 865 **IV.C.3.d) Fellows should attend and participate in local conferences and at**
 866 **least one national meeting or medical education post-graduate**
 867 **course in the subspecialty abdominal radiology during the**
 868 **fellowship program.** ^(Core) [Moved from IV.C.7]
 869
 870 ~~IV.C.3.d).(1) Participation in local or national subspecialty societies~~
 871 ~~should be encouraged. Reasonable expenses should be~~
 872 ~~reimbursed.~~ ^(Detail)

873

Specialty-Specific Background and Intent: Fellow participation in local or national subspecialty societies is encouraged, and programs are encouraged to provide support, including time away from the program for this participation.

874

875 IV.C.4. Fellow Experiences

876

877 IV.C.4.a) The program must provide the fellows a structured learning
878 experience designed to develop expertise in the appropriate
879 application of all forms of diagnostic imaging and interventions to
880 problems of the abdomen and pelvis. (Core)

881

882 IV.C.4.b) Fellows must have both clinical and didactic experiences that
883 encompass the full breadth spectrum of abdominal diseases and
884 their pathophysiology. (Core) [Moved from IV.C.3.]

885

886 IV.C.4.b).(1) This experience must include uncommon problems
887 involving the gastrointestinal tract, genitourinary tract, and
888 abdomen. (Core Detail) [Moved from IV.C.3.a)]

889

890

891 IV.C.4.c) Fellows must have daily image interpretation sessions, under
892 faculty review and critique, in which fellows reach their own
893 diagnostic conclusions. (Core) [Moved from IV.B.1.c).(5)]

894

895 IV.C.4.d) All fellows must maintain a procedure log and record their
896 involvement in both diagnostic and invasive cases. (Core)

897

898 IV.C.4.e) Fellows should be instructed in the indications, risks, limitations,
899 alternatives, and appropriate utilization of imaging and image-
900 guided invasive procedures. (Core) [Moved from IV.C.4.]

901

902 IV.C.4.f) ~~Fellows must participate on a regular basis in scheduled~~
903 ~~conferences.~~ (Core)

904

905 **IV.D. Scholarship**

906

907 ***Medicine is both an art and a science. The physician is a humanistic***
908 ***scientist who cares for patients. This requires the ability to think critically,***
909 ***evaluate the literature, appropriately assimilate new knowledge, and***
910 ***practice lifelong learning. The program and faculty must create an***
911 ***environment that fosters the acquisition of such skills through fellow***
912 ***participation in scholarly activities as defined in the subspecialty-specific***
913 ***Program Requirements. Scholarly activities may include discovery,***
914 ***integration, application, and teaching.***

915

916 ***The ACGME recognizes the diversity of fellowships and anticipates that***
917 ***programs prepare physicians for a variety of roles, including clinicians,***
918 ***scientists, and educators. It is expected that the program's scholarship will***
919 ***reflect its mission(s) and aims, and the needs of the community it serves.***
920 ***For example, some programs may concentrate their scholarly activity on***

921 *quality improvement, population health, and/or teaching, while other*
922 *programs might choose to utilize more classic forms of biomedical*
923 *research as the focus for scholarship.*

924
925 **IV.D.1. Program Responsibilities**

926
927 **IV.D.1.a) The program must demonstrate evidence of scholarly**
928 **activities, consistent with its mission(s) and aims. ^(Core)**

929
930 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**
931 **must allocate adequate resources to facilitate fellow and**
932 **faculty involvement in scholarly activities. ^(Core)**

933
934 **IV.D.2. Faculty Scholarly Activity**

935
936 **IV.D.2.a) Among their scholarly activity, programs must demonstrate**
937 **accomplishments in at least three of the following domains:**
938 **^(Core)**

- 939
- 940 • **Research in basic science, education, translational**
- 941 **science, patient care, or population health**
- 942 • **Peer-reviewed grants**
- 943 • **Quality improvement and/or patient safety initiatives**
- 944 • **Systematic reviews, meta-analyses, review articles,**
- 945 **chapters in medical textbooks, or case reports**
- 946 • **Creation of curricula, evaluation tools, didactic**
- 947 **educational activities, or electronic educational**
- 948 **materials**
- 949 • **Contribution to professional committees, educational**
- 950 **organizations, or editorial boards**
- 951 • **Innovations in education**

952
953 **IV.D.2.b) The program must demonstrate dissemination of scholarly**
954 **activity within and external to the program by the following**
955 **methods:**

Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program's effectiveness in the creation of an environment of inquiry that advances the fellows' scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

957
958 **IV.D.2.b).(1) faculty participation in grand rounds, posters,**
959 **workshops, quality improvement presentations,**
960 **podium presentations, grant leadership, non-peer-**
961 **reviewed print/electronic resources, articles or**

962 publications, book chapters, textbooks, webinars,

996 ~~meetings.~~ (Outcome)

997
998 V. Evaluation

999
1000 V.A. Fellow Evaluation

1001
1002 V.A.1. Feedback and Evaluation

Background and Intent: Feedback is ongoing information provided regarding aspects of one's performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows

to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.

1004
1005
1006
1007
1008

V.A.1.a) Faculty members must directly observe, evaluate, and frequently provide feedback on fellow performance during each rotation or similar educational assignment. ^(Core)

Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.

1009
1010
1011
1012
1013
1014
1015
1016
1017
1018
1019
1020
1021
1022
1023
1024
1025
1026
1027

~~V.A.1.a).(1) The program must ensure that there is at least a quarterly review. ^(Core)~~

~~V.A.1.a).(1).(a) These quarterly reviews should include: ^(Detail)~~

~~V.A.1.a).(1).(a).(i) review of faculty evaluations of the fellow; ^(Detail)~~

~~V.A.1.a).(1).(a).(ii) review of the procedure log; ^(Detail)~~

~~V.A.1.a).(1).(a).(iii) documentation of compliance with institutional and departmental policies (HIPAA, the Joint Commission, patient safety, infection control, etc.); ^(Detail)~~

V.A.1.b) Evaluation must be documented at the completion of the assignment. ^(Core)

1028 **V.A.1.b).(1)** For block rotations of greater than three months in
1029 duration, evaluation must be documented at least
1030 every three months. ^(Core)

1031
1032 **V.A.1.b).(2)** Longitudinal experiences such as continuity clinic in
1033 the context of other clinical responsibilities must be
1034 evaluated at least every three months and at
1035 completion. ^(Core)
1036

Specialty-Specific Background and Intent: A complete quarterly evaluation also includes a review of the fellows' procedure log, procedural competencies, and documentation of compliance with institutional and departmental policies (HIPAA, the Joint Commission, patient safety, infection control, etc.).

1037
1038 **V.A.1.c)** The program must provide an objective performance
1039 evaluation based on the Competencies and the subspecialty-
1040 specific Milestones, and must: ^(Core)

1041
1042 **V.A.1.c).(1)** use multiple evaluators (e.g., faculty members, peers,
1043 patients, self, and other professional staff members);
1044 and, ^(Core)

1045
1046 **V.A.1.c).(2)** provide that information to the Clinical Competency
1047 Committee for its synthesis of progressive fellow
1048 performance and improvement toward unsupervised
1049 practice. ^(Core)
1050

Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

1051
1052 **V.A.1.d)** The program director or their designee, with input from the
1053 Clinical Competency Committee, must:

1054
1055 **V.A.1.d).(1)** meet with and review with each fellow their
1056 documented semi-annual evaluation of performance,
1057 including progress along the subspecialty-specific
1058 Milestones. ^(Core)

1059
1060 **V.A.1.d).(2)** assist fellows in developing individualized learning
1061 plans to capitalize on their strengths and identify areas
1062 for growth; and, ^(Core)
1063

1064 V.A.1.d).(3) develop plans for fellows failing to progress, following
1065 institutional policies and procedures. (Core)
1066

Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

1067
1068 V.A.1.e) At least annually, there must be a summative evaluation of
1069 each fellow that includes their readiness to progress to the
1070 next year of the program, if applicable. (Core)
1071
1072 V.A.1.f) The evaluations of a fellow's performance must be accessible
1073 for review by the fellow. (Core)
1074
1075 V.A.2. Final Evaluation
1076
1077 V.A.2.a) The program director must provide a final evaluation for each
1078 fellow upon completion of the program. (Core)
1079
1080 V.A.2.a).(1) The subspecialty-specific Milestones, and when
1081 applicable the subspecialty-specific Case Logs, must
1082 be used as tools to ensure fellows are able to engage
1083 in autonomous practice upon completion of the
1084 program. (Core)
1085
1086 V.A.2.a).(2) The final evaluation must:
1087
1088 V.A.2.a).(2).(a) become part of the fellow's permanent record
1089 maintained by the institution, and must be
1090 accessible for review by the fellow in
1091 accordance with institutional policy; (Core)
1092
1093 V.A.2.a).(2).(b) verify that the fellow has demonstrated the
1094 knowledge, skills, and behaviors necessary to
1095 enter autonomous practice; (Core)
1096

- 1097 **V.A.2.a).(2).(c)** consider recommendations from the Clinical
1098 Competency Committee; and, ^(Core)
1099
- 1100 **V.A.2.a).(2).(d)** be shared with the fellow upon completion of
1101 the program. ^(Core)
1102
- 1103 **V.A.3.** **A Clinical Competency Committee must be appointed by the**
1104 **program director.** ^(Core)
1105
- 1106 **V.A.3.a)** **At a minimum the Clinical Competency Committee must**
1107 **include three members, at least one of whom is a core faculty**
1108 **member. Members must be faculty members from the same**
1109 **program or other programs, or other health professionals**
1110 **who have extensive contact and experience with the**
1111 **program’s fellows.** ^(Core)
1112
- 1113 **V.A.3.b)** **The Clinical Competency Committee must:**
- 1114
- 1115 **V.A.3.b).(1)** **review all fellow evaluations at least semi-annually;**
1116 ^(Core)
1117
- 1118 **V.A.3.b).(2)** **determine each fellow’s progress on achievement of**
1119 **the subspecialty-specific Milestones; and,** ^(Core)
1120
- 1121 **V.A.3.b).(3)** **meet prior to the fellows’ semi-annual evaluations and**
1122 **advise the program director regarding each fellow’s**
1123 **progress.** ^(Core)
1124
- 1125 **V.B.** **Faculty Evaluation**
- 1126
- 1127 **V.B.1.** **The program must have a process to evaluate each faculty**
1128 **member’s performance as it relates to the educational program at**
1129 **least annually.** ^(Core)
1130

Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program’s faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information.

The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1131
1132 **V.B.1.a)** This evaluation must include a review of the faculty member's
1133 clinical teaching abilities, engagement with the educational
1134 program, participation in faculty development related to their
1135 skills as an educator, clinical performance, professionalism,
1136 and scholarly activities. ^(Core)
1137
1138 **V.B.1.b)** This evaluation must include written, confidential evaluations
1139 by the fellows. ^(Core)
1140
1141 **V.B.2.** Faculty members must receive feedback on their evaluations at least
1142 annually. ^(Core)
1143
1144 **V.B.3.** Results of the faculty educational evaluations should be
1145 incorporated into program-wide faculty development plans. ^(Core)
1146

Background and Intent: The quality of the faculty's teaching and clinical care is a determinant of the quality of the program and the quality of the fellows' future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members' teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program's faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1147
1148 **V.C. Program Evaluation and Improvement**
1149
1150 **V.C.1.** The program director must appoint the Program Evaluation
1151 Committee to conduct and document the Annual Program
1152 Evaluation as part of the program's continuous improvement
1153 process. ^(Core)
1154
1155 **V.C.1.a)** The Program Evaluation Committee must be composed of at
1156 least two program faculty members, at least one of whom is a
1157 core faculty member, and at least one fellow. ^(Core)
1158
1159 **V.C.1.b)** Program Evaluation Committee responsibilities must include:
1160
1161 **V.C.1.b).(1)** acting as an advisor to the program director, through
1162 program oversight; ^(Core)
1163
1164 **V.C.1.b).(2)** review of the program's self-determined goals and
1165 progress toward meeting them; ^(Core)
1166
1167 **V.C.1.b).(3)** guiding ongoing program improvement, including
1168 development of new goals, based upon outcomes;
1169 and, ^(Core)
1170
1171 **V.C.1.b).(4)** review of the current operating environment to identify
1172 strengths, challenges, opportunities, and threats as
1173 related to the program's mission and aims. ^(Core)

1174

Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program's progress toward achievement of its goals and aims.

- 1175
1176 **V.C.1.c) The Program Evaluation Committee should consider the**
1177 **following elements in its assessment of the program:**
1178
1179 **V.C.1.c).(1) curriculum;** ^(Core)
1180
1181 **V.C.1.c).(2) outcomes from prior Annual Program Evaluation(s);**
1182 ^(Core)
1183
1184 **V.C.1.c).(3) ACGME letters of notification, including citations,**
1185 **Areas for Improvement, and comments;** ^(Core)
1186
1187 **V.C.1.c).(4) quality and safety of patient care;** ^(Core)
1188
1189 **V.C.1.c).(5) aggregate fellow and faculty:**
1190
1191 **V.C.1.c).(5).(a) well-being;** ^(Core)
1192
1193 **V.C.1.c).(5).(b) recruitment and retention;** ^(Core)
1194
1195 **V.C.1.c).(5).(c) workforce diversity;** ^(Core)
1196
1197 **V.C.1.c).(5).(d) engagement in quality improvement and patient**
1198 **safety;** ^(Core)
1199
1200 **V.C.1.c).(5).(e) scholarly activity;** ^(Core)
1201
1202 **V.C.1.c).(5).(f) ACGME Resident/Fellow and Faculty Surveys**
1203 **(where applicable); and,** ^(Core)
1204
1205 **V.C.1.c).(5).(g) written evaluations of the program.** ^(Core)
1206
1207 **V.C.1.c).(6) aggregate fellow:**
1208
1209 **V.C.1.c).(6).(a) achievement of the Milestones;** ^(Core)
1210
1211 **V.C.1.c).(6).(b) in-training examinations (where applicable);**
1212 ^(Core)
1213
1214 **V.C.1.c).(6).(c) board pass and certification rates; and,** ^(Core)
1215
1216 **V.C.1.c).(6).(d) graduate performance.** ^(Core)
1217
1218 **V.C.1.c).(7) aggregate faculty:**

- 1219
- 1220 V.C.1.c).(7).(a) evaluation; and, (Core)
- 1221
- 1222 V.C.1.c).(7).(b) professional development (Core)
- 1223
- 1224 V.C.1.d) The Program Evaluation Committee must evaluate the
- 1225 program's mission and aims, strengths, areas for
- 1226 improvement, and threats. (Core)
- 1227
- 1228 V.C.1.e) The annual review, including the action plan, must:
- 1229
- 1230 V.C.1.e).(1) be distributed to and discussed with the members of
- 1231 the teaching faculty and the fellows; and, (Core)
- 1232
- 1233 V.C.1.e).(2) be submitted to the DIO. (Core)
- 1234
- 1235 V.C.2. The program must participate in a Self-Study prior to its 10-Year
- 1236 Accreditation Site Visit. (Core)
- 1237
- 1238 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.
- 1239 (Core)
- 1240

Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

- 1241
- 1242 V.C.3. ~~One goal of ACGME-accredited education is to educate physicians~~
- 1243 ~~who seek and achieve board certification. One measure of the~~
- 1244 ~~effectiveness of the educational program is the ultimate pass rate.~~
- 1245
- 1246 ~~The program director should encourage all eligible program~~
- 1247 ~~graduates to take the certifying examination offered by the~~
- 1248 ~~applicable American Board of Medical Specialties (ABMS) member~~
- 1249 ~~board or American Osteopathic Association (AOA) certifying board.~~
- 1250
- 1251 V.C.3.a) ~~For subspecialties in which the ABMS member board and/or~~
- 1252 ~~AOA certifying board offer(s) an annual written exam, in the~~
- 1253 ~~preceding three years, the program's aggregate pass rate of~~
- 1254 ~~those taking the examination for the first time must be higher~~
- 1255 ~~than the bottom fifth percentile of programs in that~~
- 1256 ~~subspecialty. (Outcome)~~
- 1257

- 1258 V.C.3.b) ~~For subspecialties in which the ABMS member board and/or~~
 1259 ~~AOA certifying board offer(s) a biennial written exam, in the~~
 1260 ~~preceding six years, the program's aggregate pass rate of~~
 1261 ~~those taking the examination for the first time must be higher~~
 1262 ~~than the bottom fifth percentile of programs in that~~
 1263 ~~subspecialty.~~^(Outcome)
 1264
- 1265 V.C.3.c) ~~For subspecialties in which the ABMS member board and/or~~
 1266 ~~AOA certifying board offer(s) an annual oral exam, in the~~
 1267 ~~preceding three years, the program's aggregate pass rate of~~
 1268 ~~those taking the examination for the first time must be higher~~
 1269 ~~than the bottom fifth percentile of programs in that~~
 1270 ~~subspecialty.~~^(Outcome)
 1271
- 1272 V.C.3.d) ~~For subspecialties in which the ABMS member board and/or~~
 1273 ~~AOA certifying board offer(s) a biennial oral exam, in the~~
 1274 ~~preceding six years, the program's aggregate pass rate of~~
 1275 ~~those taking the examination for the first time must be higher~~
 1276 ~~than the bottom fifth percentile of programs in that~~
 1277 ~~subspecialty.~~^(Outcome)
 1278
- 1279 V.C.3.e) ~~For each of the exams referenced in V.C.3.a) -d), any program~~
 1280 ~~whose graduates over the time period specified in the~~
 1281 ~~requirement have achieved an 80 percent pass rate will have~~
 1282 ~~met this requirement, no matter the percentile rank of the~~
 1283 ~~program for pass rate in that subspecialty.~~^(Outcome)
 1284

~~Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.~~

~~There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.~~

- 1285
 1286 V.C.3.f) ~~Programs must report, in ADS, board certification status~~
 1287 ~~annually for the cohort of board-eligible fellows that~~
 1288 ~~graduated seven years earlier.~~^(Core)
 1289

~~Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.~~

~~The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.~~

~~In the future, the ACGME may establish parameters related to ultimate board certification rates.~~

1290

VI. The Learning and Working Environment

Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:

- *Excellence in the safety and quality of care rendered to patients by fellows today*
- *Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice*
- *Excellence in professionalism through faculty modeling of:*
 - *the effacement of self-interest in a humanistic environment that supports the professional development of physicians*
 - *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
- *Commitment to the well-being of the students, residents, fellows, faculty members, and all members of the health care team*

Background and Intent: The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too

fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability

VI.A.1. Patient Safety and Quality Improvement

All physicians share responsibility for promoting patient safety and enhancing quality of patient care. Graduate medical education must prepare fellows to provide the highest level of clinical care with continuous focus on the safety, individual needs, and humanity of their patients. It is the right of each patient to be cared for by fellows who are appropriately supervised; possess the requisite knowledge, skills, and abilities; understand the limits of their knowledge and experience; and seek assistance as required to provide optimal patient care.

Fellows must demonstrate the ability to analyze the care they provide, understand their roles within health care teams, and play an active role in system improvement processes. Graduating fellows will apply these skills to critique their future unsupervised practice and effect quality improvement measures.

It is necessary for fellows and faculty members to consistently work in a well-coordinated manner with other health care professionals to achieve organizational patient safety goals.

VI.A.1.a) Patient Safety

VI.A.1.a).(1) Culture of Safety

A culture of safety requires continuous identification of vulnerabilities and a willingness to transparently deal with them. An effective organization has formal mechanisms to assess the knowledge, skills, and attitudes of its personnel toward safety in order to identify areas for improvement.

VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows must actively participate in patient safety systems and contribute to a culture of safety.
(Core)

VI.A.1.a).(1).(b) The program must have a structure that promotes safe, interprofessional, team-based care.
(Core)

VI.A.1.a).(2) Education on Patient Safety

1403
1404
1405
1406

Programs must provide formal educational activities that promote patient safety-related goals, tools, and techniques. ^(Core)

Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.

VI.A.1.a).(3)

Patient Safety Events

Reporting, investigation, and follow-up of adverse events, near misses, and unsafe conditions are pivotal mechanisms for improving patient safety, and are essential for the success of any patient safety program. Feedback and experiential learning are essential to developing true competence in the ability to identify causes and institute sustainable systems-based changes to ameliorate patient safety vulnerabilities.

VI.A.1.a).(3).(a)

Residents, fellows, faculty members, and other clinical staff members must:

VI.A.1.a).(3).(a).(i)

know their responsibilities in reporting patient safety events at the clinical site; ^(Core)

VI.A.1.a).(3).(a).(ii)

know how to report patient safety events, including near misses, at the clinical site; and, ^(Core)

VI.A.1.a).(3).(a).(iii)

be provided with summary information of their institution’s patient safety reports. ^(Core)

VI.A.1.a).(3).(b)

Fellows must participate as team members in real and/or simulated interprofessional clinical patient safety activities, such as root cause analyses or other activities that include analysis, as well as formulation and implementation of actions. ^(Core)

VI.A.1.a).(4)

Fellow Education and Experience in Disclosure of Adverse Events

Patient-centered care requires patients, and when appropriate families, to be apprised of clinical situations that affect them, including adverse events. This is an important skill for faculty physicians to model, and for fellows to develop and apply.

1407	VI.A.1.a).(4).(a)	All fellows must receive training in how to disclose adverse events to patients and families. ^(Core)
1408		
1409		
1410

1448	VI.A.1.b).(3).(a).(i)	This should include activities aimed at reducing health care disparities. ^(Detail)
1449		
1450		
1451	VI.A.2.	Supervision and Accountability
1452		
1453	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for the care of the patient, every physician shares in the responsibility and accountability for their efforts in the provision of care. Effective programs, in partnership with their Sponsoring Institutions, define, widely communicate,</i>
1454		
1455		
1456		
1457		

1458 *and monitor a structured chain of responsibility and*
1459 *accountability as it relates to the supervision of all patient*
1460 *care.*

1461
1462 *Supervision in the setting of graduate medical education*
1463 *provides safe and effective care to patients; ensures each*
1464 *fellow's development of the skills, knowledge, and attitudes*
1465 *required to enter the unsupervised practice of medicine; and*
1466 *establishes a foundation for continued professional growth.*

1467
1468 **VI.A.2.a).(1)** Each patient must have an identifiable and
1469 appropriately-credentialed and privileged attending
1470 physician (or licensed independent practitioner as
1471 specified by the applicable Review Committee) who is
1472 responsible and accountable for the patient's care.
1473 (Core)

1474
1475 **VI.A.2.a).(1).(a)** This information must be available to fellows,
1476 faculty members, other members of the health
1477 care team, and patients. (Core)

1478
1479 **VI.A.2.a).(1).(b)** Fellows and faculty members must inform each
1480 patient of their respective roles in that patient's
1481 care when providing direct patient care. (Core)

1482
1483 **VI.A.2.b)** *Supervision may be exercised through a variety of methods.*
1484 *For many aspects of patient care, the supervising physician*
1485 *may be a more advanced fellow. Other portions of care*
1486 *provided by the fellow can be adequately supervised by the*
1487 *appropriate availability of the supervising faculty member or*
1488 *fellow, either on site or by means of telecommunication*
1489 *technology. Some activities require the physical presence of*
1490 *the supervising faculty member. In some circumstances,*
1491 *supervision may include post-hoc review of fellow-delivered*
1492 *care with feedback.*

Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of fellow patient interactions, education and training locations, and fellow skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a fellow gains more experience, even with the same patient condition or procedure. All fellows have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.

1494
1495 **VI.A.2.b).(1)** The program must demonstrate that the appropriate
1496 level of supervision in place for all fellows is based on
1497 each fellow's level of training and ability, as well as
1498 patient complexity and acuity. Supervision may be

1499		exercised through a variety of methods, as appropriate
1500		to the situation. ^(Core)
1501		
1502	VI.A.2.b).(2)	The program must define when physical presence of a
1503		supervising physician is required. ^(Core)
1504		
1505	VI.A.2.c)	Levels of Supervision
1506		
1507		To promote appropriate fellow supervision while providing
1508		for graded authority and responsibility, the program must use
1509		the following classification of supervision: ^(Core)
1510		
1511	VI.A.2.c).(1)	Direct Supervision:
1512		
1513	VI.A.2.c).(1).(a)	the supervising physician is physically present
1514		with the fellow during the key portions of the
1515		patient interaction; or, ^(Core)
1516		
1517	VI.A.2.c).(1).(b)	the supervising physician and/or patient is not
1518		physically present with the fellow and the
1519		supervising physician is concurrently
1520		monitoring the patient care through appropriate
1521		telecommunication technology. ^(Core)
1522		
1523	VI.A.2.c).(1).(b).(i)	<u>The program must have clear guidelines</u>
1524		<u>that delineate which competencies must be</u>
1525		<u>met to determine when a fellow can</u>
1526		<u>progress to indirect supervision. ^(Core)</u>
1527		
1528	VI.A.2.c).(1).(b).(ii)	<u>The program director must ensure that clear</u>
1529		<u>expectations exist and are communicated to</u>
1530		<u>the fellows, and that these expectations</u>
1531		<u>outline specific situations in which a fellow</u>
1532		<u>would still require direct supervision. ^(Core)</u>
1533		
1534	VI.A.2.c).(2)	Indirect Supervision: the supervising physician is not
1535		providing physical or concurrent visual or audio
1536		supervision but is immediately available to the fellow
1537		for guidance and is available to provide appropriate
1538		direct supervision. ^(Core)
1539		
1540	VI.A.2.c).(3)	Oversight – the supervising physician is available to
1541		provide review of procedures/encounters with
1542		feedback provided after care is delivered. ^(Core)
1543		
1544	VI.A.2.d)	The privilege of progressive authority and responsibility,
1545		conditional independence, and a supervisory role in patient
1546		care delegated to each fellow must be assigned by the
1547		program director and faculty members. ^(Core)
1548		

- 1549 VI.A.2.d).(1) The program director must evaluate each fellow’s
 1550 abilities based on specific criteria, guided by the
 1551 Milestones. ^(Core)
 1552
- 1553 VI.A.2.d).(2) Faculty members functioning as supervising
 1554 physicians must delegate portions of care to fellows
 1555 based on the needs of the patient and the skills of
 1556 each fellow. ^(Core)
 1557
- 1558 VI.A.2.d).(3) Fellows should serve in a supervisory role to junior
 1559 fellows and residents in recognition of their progress
 1560 toward independence, based on the needs of each
 1561 patient and the skills of the individual resident or
 1562 fellow. ^(Detail)
 1563
- 1564 VI.A.2.e) Programs must set guidelines for circumstances and events
 1565 in which fellows must communicate with the supervising
 1566 faculty member(s). ^(Core)
 1567
- 1568 VI.A.2.e).(1) Each fellow must know the limits of their scope of
 1569 authority, and the circumstances under which the
 1570 fellow is permitted to act with conditional
 1571 independence. ^(Outcome)
 1572

Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.

- 1573
- 1574 VI.A.2.f) Faculty supervision assignments must be of sufficient
 1575 duration to assess the knowledge and skills of each fellow
 1576 and to delegate to the fellow the appropriate level of patient
 1577 care authority and responsibility. ^(Core)
 1578
- 1579 VI.B. Professionalism
- 1580
- 1581 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must
 1582 educate fellows and faculty members concerning the professional
 1583 responsibilities of physicians, including their obligation to be
 1584 appropriately rested and fit to provide the care required by their
 1585 patients. ^(Core)
 1586
- 1587 VI.B.2. The learning objectives of the program must:
- 1588
- 1589 VI.B.2.a) be accomplished through an appropriate blend of supervised
 1590 patient care responsibilities, clinical teaching, and didactic
 1591 educational events; ^(Core)
 1592
- 1593 VI.B.2.b) be accomplished without excessive reliance on fellows to
 1594 fulfill non-physician obligations; and, ^(Core)
 1595

Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1596
1597
1598

VI.B.2.c) ensure manageable patient care responsibilities. (Core)

Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1599
1600
1601
1602
1603
1604
1605
1606
1607
1608
1609
1610
1611
1612

VI.B.3. The program director, in partnership with the Sponsoring Institution, must provide a culture of professionalism that supports patient safety and personal responsibility. (Core)

VI.B.4. Fellows and faculty members must demonstrate an understanding of their personal role in the:

VI.B.4.a) provision of patient- and family-centered care; (Outcome)

VI.B.4.b) safety and welfare of patients entrusted to their care, including the ability to report unsafe conditions and adverse events; (Outcome)

Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.

1613
1614
1615

VI.B.4.c) assurance of their fitness for work, including: (Outcome)

Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

1616
1617
1618
1619

VI.B.4.c).(1) management of their time before, during, and after clinical assignments; and, (Outcome)

- 1620 VI.B.4.c).(2) recognition of impairment, including from illness,
 1621 fatigue, and substance use, in themselves, their peers,
 1622 and other members of the health care team. (Outcome)
 1623
- 1624 VI.B.4.d) commitment to lifelong learning; (Outcome)
 1625
- 1626 VI.B.4.e) monitoring of their patient care performance improvement
 1627 indicators; and, (Outcome)
 1628
- 1629 VI.B.4.f) accurate reporting of clinical and educational work hours,
 1630 patient outcomes, and clinical experience data. (Outcome)
 1631
- 1632 VI.B.5. All fellows and faculty members must demonstrate responsiveness
 1633 to patient needs that supersedes self-interest. This includes the
 1634 recognition that under certain circumstances, the best interests of
 1635 the patient may be served by transitioning that patient's care to
 1636 another qualified and rested provider. (Outcome)
 1637
- 1638 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must
 1639 provide a professional, equitable, respectful, and civil environment
 1640 that is free from discrimination, sexual and other forms of
 1641 harassment, mistreatment, abuse, or coercion of students, fellows,
 1642 faculty, and staff. (Core)
 1643
- 1644 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should
 1645 have a process for education of fellows and faculty regarding
 1646 unprofessional behavior and a confidential process for reporting,
 1647 investigating, and addressing such concerns. (Core)
 1648
- 1649 VI.C. Well-Being
 1650
- 1651 *Psychological, emotional, and physical well-being are critical in the*
 1652 *development of the competent, caring, and resilient physician and require*
 1653 *proactive attention to life inside and outside of medicine. Well-being*
 1654 *requires that physicians retain the joy in medicine while managing their*
 1655 *own real life stresses. Self-care and responsibility to support other*
 1656 *members of the health care team are important components of*
 1657 *professionalism; they are also skills that must be modeled, learned, and*
 1658 *nurtured in the context of other aspects of fellowship training.*
 1659
- 1660 *Fellows and faculty members are at risk for burnout and depression.*
 1661 *Programs, in partnership with their Sponsoring Institutions, have the same*
 1662 *responsibility to address well-being as other aspects of resident*
 1663 *competence. Physicians and all members of the health care team share*
 1664 *responsibility for the well-being of each other. For example, a culture which*
 1665 *encourages covering for colleagues after an illness without the expectation*
 1666 *of reciprocity reflects the ideal of professionalism. A positive culture in a*
 1667 *clinical learning environment models constructive behaviors, and prepares*
 1668 *fellows with the skills and attitudes needed to thrive throughout their*
 1669 *careers.*
 1670

Background and Intent: The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

VI.C.1.e).(1) encourage fellows and faculty members to alert the program director or other designated personnel or programs when they are concerned that another fellow, resident, or faculty member may be displaying signs of burnout, depression, a substance use disorder, suicidal ideation, or potential for violence; ^(Core)

Background and Intent: Individuals experiencing burnout, depression, substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1719
1720
1721
1722

VI.C.1.e).(2) provide access to appropriate tools for self-screening; and, ^(Core)

1723 VI.C.1.e).(3) provide access to confidential, affordable mental
1724 health assessment, counseling, and treatment,
1725 including access to urgent and emergent care 24
1726 hours a day, seven days a week. ^(Core)
1727

Background and Intent: The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1728
1729 VI.C.2. There are circumstances in which fellows may be unable to attend
1730 work, including but not limited to fatigue, illness, family
1731 emergencies, and parental leave. Each program must allow an
1732 appropriate length of absence for fellows unable to perform their
1733 patient care responsibilities. ^(Core)
1734

1735 VI.C.2.a) The program must have policies and procedures in place to
1736 ensure coverage of patient care. ^(Core)
1737

1738 VI.C.2.b) These policies must be implemented without fear of negative
1739 consequences for the fellow who is or was unable to provide
1740 the clinical work. ^(Core)
1741

Background and Intent: Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

1742
1743 VI.D. Fatigue Mitigation
1744

1745 VI.D.1. Programs must:

1746
1747 VI.D.1.a) educate all faculty members and fellows to recognize the
1748 signs of fatigue and sleep deprivation; ^(Core)
1749

1750 VI.D.1.b) educate all faculty members and fellows in alertness
1751 management and fatigue mitigation processes; and, ^(Core)
1752

1753 VI.D.1.c) encourage fellows to use fatigue mitigation processes to
1754 manage the potential negative effects of fatigue on patient
1755 care and learning. ^(Detail)
1756

Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for

managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

1774

VI.D.2. Each program must ensure continuity of patient care, consistent with the program’s policies and procedures referenced in VI.C.2–VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue. ^(Core)

VI.D.3. The program, in partnership with its Sponsoring Institution, must ensure adequate sleep facilities and safe transportation options for fellows who may be too fatigued to safely return home. ^(Core)

VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care

VI.E.1. Clinical Responsibilities

The clinical responsibilities for each fellow must be based on PGY level, patient safety, fellow ability, severity and complexity of patient illness/condition, and available support services. ^(Core)

Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

1781
1782
1783
1784
1785

VI.E.2. Teamwork

Fellows must care for patients in an environment that maximizes communication. This must include the opportunity to work as a member of effective interprofessional teams that are appropriate to the delivery of care in the subspecialty and larger health system. ^(Core)

VI.E.3. Transitions of Care

- 1786 VI.E.3.a) Programs must design clinical assignments to optimize
 1787 transitions in patient care, including their safety, frequency,
 1788 and structure. ^(Core)
 1789
- 1790 VI.E.3.b) Programs, in partnership with their Sponsoring Institutions,
 1791 must ensure and monitor effective, structured hand-over
 1792 processes to facilitate both continuity of care and patient
 1793 safety. ^(Core)
 1794
- 1795 VI.E.3.c) Programs must ensure that fellows are competent in
 1796 communicating with team members in the hand-over process.
 1797 ^(Outcome)
 1798
- 1799 VI.E.3.d) Programs and clinical sites must maintain and communicate
 1800 schedules of attending physicians and fellows currently
 1801 responsible for care. ^(Core)
 1802
- 1803 VI.E.3.e) Each program must ensure continuity of patient care,
 1804 consistent with the program’s policies and procedures
 1805 referenced in VI.C.2-VI.C.2.b), in the event that a fellow may
 1806 be unable to perform their patient care responsibilities due to
 1807 excessive fatigue or illness, or family emergency. ^(Core)
 1808
- 1809 VI.F. Clinical Experience and Education
 1810
 1811 *Programs, in partnership with their Sponsoring Institutions, must design*
 1812 *an effective program structure that is configured to provide fellows with*
 1813 *educational and clinical experience opportunities, as well as reasonable*
 1814 *opportunities for rest and personal activities.*
 1815

Background and Intent: In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

- 1816
 1817 VI.F.1. Maximum Hours of Clinical and Educational Work per Week
 1818
 1819 Clinical and educational work hours must be limited to no more than
 1820 80 hours per week, averaged over a four-week period, inclusive of all
 1821 in-house clinical and educational activities, clinical work done from
 1822 home, and all moonlighting. ^(Core)
 1823

Background and Intent: Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

Scheduling

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

Oversight

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

Work from Home

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in

excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

VI.F.2. Mandatory Time Free of Clinical Work and Education

VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. ^(Core)

VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. ^(Detail)

VI.F.2.b).(1) There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. ^(Detail)

Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1842
1843
1844
1845

VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. ^(Core)

Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

1846
1847
1848
1849
1850
1851

VI.F.2.d) Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. ^(Core)

Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend,"

meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as “one (1) continuous 24-hour period free from all administrative, clinical, and educational activities.”

- VI.F.3. Maximum Clinical Work and Education Period Length**
- VI.F.3.a) Clinical and educational work periods for fellows must not exceed 24 hours of continuous scheduled clinical assignments. ^(Core)**
- VI.F.3.a).(1) Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or fellow education. ^(Core)**
- VI.F.3.a).(1).(a) Additional patient care responsibilities must not be assigned to a fellow during this time. ^(Core)**

Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- VI.F.4. Clinical and Educational Work Hour Exceptions**
- VI.F.4.a) In rare circumstances, after handing off all other responsibilities, a fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:**
- VI.F.4.a).(1) to continue to provide care to a single severely ill or unstable patient; ^(Detail)**
- VI.F.4.a).(2) humanistic attention to the needs of a patient or family; or, ^(Detail)**
- VI.F.4.a).(3) to attend unique educational events. ^(Detail)**
- VI.F.4.b) These additional hours of care or education will be counted toward the 80-hour weekly limit. ^(Detail)**

Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

VI.F.4.c) A Review Committee may grant rotation-specific exceptions for up to 10 percent or a maximum of 88 clinical and educational work hours to individual programs based on a sound educational rationale.

The Review Committee for Diagnostic Radiology will not consider requests for exceptions to the 80-hour limit to the fellows' work week.

VI.F.5. Moonlighting

VI.F.5.a) Moonlighting must not interfere with the ability of the fellow to achieve the goals and objectives of the educational program, and must not interfere with the fellow's fitness for work nor compromise patient safety. (Core)

VI.F.5.b) Time spent by fellows in internal and external moonlighting (as defined in the ACGME Glossary of Terms) must be counted toward the 80-hour maximum weekly limit. (Core)

Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

1919
1920

VI.F.7. Maximum In-House On-Call Frequency

Fellows must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period). (Core)

VI.F.8. At-Home Call

- 1921 VI.F.8.a) Time spent on patient care activities by fellows on at-home
 1922 call must count toward the 80-hour maximum weekly limit.
 1923 The frequency of at-home call is not subject to the every-
 1924 third-night limitation, but must satisfy the requirement for one
 1925 day in seven free of clinical work and education, when
 1926 averaged over four weeks. ^(Core)
 1927
- 1928 VI.F.8.a).(1) At-home call must not be so frequent or taxing as to
 1929 preclude rest or reasonable personal time for each
 1930 fellow. ^(Core)
 1931
- 1932 VI.F.8.b) Fellows are permitted to return to the hospital while on at-
 1933 home call to provide direct care for new or established
 1934 patients. These hours of inpatient patient care must be
 1935 included in the 80-hour maximum weekly limit. ^(Detail)
 1936

Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.
