1 **ACGME Program Requirements for Graduate Medical Education**
2 **in Vascular Surgery (Independent)**

3
4 **Common Program Requirements (Fellowship) are in BOLD**

5
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that
7 section. These philosophic statements are not program requirements and are therefore not
8 citable.
9

10 **Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

The “Specialty-Specific Background and Intent” text in the boxes below provide detail regarding the intention behind specific requirements, as well as guidance on how to implement the requirements in a way that supports excellence in fellowship education. Programs will note that the Vascular Surgery Subspecialty FAQs companion document has been integrated into this document and, where appropriate, guidance is given on additional Review Committee resource information.

11
12 **Introduction**

13
14 **Int.A. *Fellowship is advanced graduate medical education beyond a core residency program for physicians who desire to enter more specialized practice. Fellowship-trained physicians serve the public by providing subspecialty care, which may also include core medical care, acting as a community resource for expertise in their field, creating and integrating new knowledge into practice, and educating future generations of physicians. Graduate medical education values the strength that a diverse group of physicians brings to medical care.***

15
16
17
18
19
20
21
22
23 ***Fellows who have completed residency are able to practice independently in their core specialty. The prior medical experience and expertise of fellows distinguish them from physicians entering into residency training. The fellow’s care of patients within the subspecialty is undertaken with appropriate faculty supervision and conditional independence. Faculty members serve as role models of excellence, compassion, professionalism, and scholarship. The fellow develops deep medical knowledge, patient care skills, and expertise applicable to their focused area of practice. Fellowship is an intensive program of subspecialty clinical and didactic education that focuses on the multidisciplinary care of patients. Fellowship education is often physically, emotionally, and intellectually demanding, and occurs in a variety of clinical learning environments committed to graduate medical education and the well-being of patients, residents, fellows, faculty members, students, and all members of the health care team.***

24
25
26
27
28
29
30
31
32
33
34
35
36
37
38
39 ***In addition to clinical education, many fellowship programs advance fellows’ skills as physician-scientists. While the ability to create new knowledge within medicine is not exclusive to fellowship-educated***

42 *physicians, the fellowship experience expands a physician's abilities to*
43 *pursue hypothesis-driven scientific inquiry that results in contributions to*
44 *the medical literature and patient care. Beyond the clinical subspecialty*
45 *expertise achieved, fellows develop mentored relationships built on an*
46 *infrastructure that promotes collaborative research.*

47
48 **Int.B. Definition of Subspecialty**

49
50 Vascular surgery is the surgical specialty involving diseases of the arterial,
51 venous, and lymphatic circulatory systems, exclusive of those circulatory vessels
52 intrinsic to the heart and intracranial vessels. Specialists in this discipline
53 demonstrate the knowledge, skills, and understanding of the medical science
54 relative to the vascular system, as well as mature technical skills and surgical
55 judgment.

56
57 **Int.C. Length of Educational Program**

58
59 The educational program in vascular surgery for independent programs must be
60 24 months in length. ^(Core)

61
62 **I. Oversight**

63
64 **I.A. Sponsoring Institution**

65
66 *The Sponsoring Institution is the organization or entity that assumes the*
67 *ultimate financial and academic responsibility for a program of graduate*
68 *medical education consistent with the ACGME Institutional Requirements.*

69
70 *When the Sponsoring Institution is not a rotation site for the program, the*
71 *most commonly utilized site of clinical activity for the program is the*
72 *primary clinical site.*

73
74
75 **Background and Intent: Participating sites will reflect the health care needs of the**
76 **community and the educational needs of the fellows. A wide variety of organizations**
77 **may provide a robust educational experience and, thus, Sponsoring Institutions and**
78 **participating sites may encompass inpatient and outpatient settings including, but not**
79 **limited to a university, a medical school, a teaching hospital, a nursing home, a**
80 **school of public health, a health department, a public health agency, an organized**
81 **health care delivery system, a medical examiner's office, an educational consortium, a**
82 **teaching health center, a physician group practice, federally qualified health center, or**
an educational foundation.

74
75 **I.A.1. The program must be sponsored by one ACGME-accredited**
76 **Sponsoring Institution. ^{(Core)*}**

77
78 **I.B. Participating Sites**

79
80 *A participating site is an organization providing educational experiences or*
81 *educational assignments/rotations for fellows.*

- 83 I.B.1. The program, with approval of its Sponsoring Institution, must
84 designate a primary clinical site. ^(Core)
85
- 86 I.B.2. There must be a program letter of agreement (PLA) between the
87 program and each participating site that governs the relationship
88 between the program and the participating site providing a required
89 assignment. ^(Core)
90
- 91 I.B.2.a) The PLA must:
- 92
- 93 I.B.2.a).(1) be renewed at least every 10 years; and, ^(Core)
94
- 95 I.B.2.a).(2) be approved by the designated institutional official
96 (DIO). ^(Core)
97
- 98 I.B.3. The program must monitor the clinical learning and working
99 environment at all participating sites. ^(Core)
100
- 101 I.B.3.a) At each participating site there must be one faculty member,
102 designated by the program director, who is accountable for
103 fellow education for that site, in collaboration with the
104 program director. ^(Core)
105

Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:

- Identifying the faculty members who will assume educational and supervisory responsibility for fellows
- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

- 106
- 107 I.B.4. The program director must submit any additions or deletions of
108 participating sites routinely providing an educational experience,
109 required for all fellows, of one month full time equivalent (FTE) or
110 more through the ACGME's Accreditation Data System (ADS). ^(Core)
111

- 112 I.B.5. Participating sites should be geographically proximate to the primary
 113 clinical site in order to allow all fellows to attend joint conferences, basic
 114 science lectures, and morbidity and mortality reviews on a regular and
 115 documented basis at a central location. ^(Core)
 116
 117 I.B.5.a) Geographically remote participating sites must provide audiovisual
 118 access to the conferences and lectures at the central location, or
 119 document provision of an equivalent educational program of
 120 lectures and conferences. ^(Core)
 121
 122 **I.C. The program, in partnership with its Sponsoring Institution, must engage in**
 123 **practices that focus on mission-driven, ongoing, systematic recruitment**
 124 **and retention of a diverse and inclusive workforce of residents (if present),**
 125 **fellows, faculty members, senior administrative staff members, and other**
 126 **relevant members of its academic community.** ^(Core)
 127

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution's mission and aims. The program's annual evaluation must include an assessment of the program's efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

- 128
 129 **I.D. Resources**
 130
 131 **I.D.1. The program, in partnership with its Sponsoring Institution, must**
 132 **ensure the availability of adequate resources for fellow education.**
 133 ^(Core)
 134
 135 I.D.1.a) These resources must include:
 136
 137 I.D.1.a).(1) a common office space for fellows that includes a sufficient
 138 number of computers and adequate workspace at the
 139 primary clinical site; ^(Core)
 140
 141 I.D.1.a).(2) software resources for production of presentations,
 142 manuscripts, and portfolios; and, ^(Core)
 143
 144 I.D.1.a).(3) online radiographic and laboratory reporting systems at the
 145 primary clinical site and all participating sites. ^(Core)
 146
 147 I.D.1.b) The facility used to provide fellows with experience in
 148 interpretation of non-invasive vascular laboratory testing must be
 149 accredited by a recognized organization that would allow
 150 fellowship graduates to fulfill the requirements of eligibility for
 151 specialty board certification. ^(Core)
 152
 153 I.D.1.b).(1) The laboratory must be currently accredited in extracranial
 154 cerebrovascular, peripheral arterial and peripheral venous
 155 testing, and must provide substantial experience in
 156 abdominal and visceral vascular imaging. ^(Core)

- 157
158 **I.D.2.** The program, in partnership with its Sponsoring Institution, must
159 ensure healthy and safe learning and working environments that
160 promote fellow well-being and provide for: ^(Core)
161
162 **I.D.2.a)** access to food while on duty; ^(Core)
163
164 **I.D.2.b)** safe, quiet, clean, and private sleep/rest facilities available
165 and accessible for fellows with proximity appropriate for safe
166 patient care; ^(Core)
167

Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

- 168
169 **I.D.2.c)** clean and private facilities for lactation that have refrigeration
170 capabilities, with proximity appropriate for safe patient care;
171 ^(Core)
172

Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

- 173
174 **I.D.2.d)** security and safety measures appropriate to the participating
175 site; and, ^(Core)
176
177 **I.D.2.e)** accommodations for fellows with disabilities consistent with
178 the Sponsoring Institution's policy. ^(Core)
179
180 **I.D.3.** Fellows must have ready access to subspecialty-specific and other
181 appropriate reference material in print or electronic format. This
182 must include access to electronic medical literature databases with
183 full text capabilities. ^(Core)
184

Specialty-Specific Background and Intent: The Review Committee interprets "ready access" to mean availability at all clinical sites utilized by the program.

- 185
186 **I.D.4.** The program's educational and clinical resources must be adequate
187 to support the number of fellows appointed to the program. ^(Core)
188

- 189 I.D.4.a) The program must be conducted in an institution(s) that can
 190 document a sufficient breadth of patient care that routinely cares
 191 for patients with a broad spectrum of vascular diseases and
 192 conditions. ^(Core)
 193
- 194 I.D.4.b) In addition, these institutions must include facilities and staff
 195 members for a variety of other services that provide a critical role
 196 in the care of patients with vascular conditions, including
 197 cardiovascular services, critical care services, general surgery
 198 services, nephrology services, neurology services, and radiology
 199 services. ^(Core)
 200
- 201 I.D.4.c) The institutional volume and variety of open and endovascular
 202 operative experience must be adequate to ensure a sufficient
 203 number and distribution of complex cases (as determined by the
 204 Review Committee) for each fellow in the program. ^(Core)
 205
- 206 **I.E. *A fellowship program usually occurs in the context of many learners and***
 207 ***other care providers and limited clinical resources. It should be structured***
 208 ***to optimize education for all learners present.***
 209
- 210 **I.E.1. Fellows should contribute to the education of residents in core**
 211 **programs, if present. ^(Core)**
 212

Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.

- 213
- 214 **II. Personnel**
- 215
- 216 **II.A. Program Director**
- 217
- 218 **II.A.1. There must be one faculty member appointed as program director**
 219 **with authority and accountability for the overall program, including**
 220 **compliance with all applicable program requirements. ^(Core)**
 221
- 222 **II.A.1.a) The Sponsoring Institution's Graduate Medical Education**
 223 **Committee (GMEC) must approve a change in program**
 224 **director. ^(Core)**
 225
- 226 **II.A.1.b) Final approval of the program director resides with the**
 227 **Review Committee. ^(Core)**
 228

Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and have overall responsibility for the program. The program director's

nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.

229
230
231
232
233
234
235
236
237
238
239
240
241
242
243
244
245
246
247

- II.A.2. The program director and, as applicable, the program’s leadership team, must be provided with support adequate for administration of the program based upon its size and configuration. (Core)**
- II.A.2.a) At a minimum, the program director must be provided with the salary support required to devote 20 percent FTE of non-clinical time to the administration of the program. (Core)
- II.A.2.b) Program directors who oversee both an independent and an integrated vascular surgery program must be provided a minimum of 30 percent protected time for administration of the programs. (Core)
- II.A.2.c) Program directors who oversee both an independent and an integrated vascular surgery program which, combined, have 10 or more residents/fellows must appoint an associate program director. (Core)

Background and Intent: To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.

The ultimate outcome of graduate medical education is excellence in fellow education and patient care.

The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.

Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.

248

Specialty-Specific Background and Intent: Programs are advised that the Common Program Requirements specify that protected time is specifically for the administration of the program and not for clinical activities. The program is further advised that the Program Requirements for independent and integrated vascular surgery programs are two distinct sets of requirements. If a

single program director has responsibility for both program formats, the applicable protected time is outlined in II.A.2. of both sets of Program Requirements.

268
269
270
271
272
273
274
275
276
277

II.A.3. Qualifications of the program director:

II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; (Core)

II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Surgery or by the American Osteopathic Board of Surgery, or subspecialty qualifications that are acceptable to the Review Committee; (Core)

II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, (Core)

II.A.3.d) must include ongoing clinical activity. (Core)

II.A.4. Program Director Responsibilities

The program director must have responsibility, authority, and accountability for: administration and operations; teaching and scholarly activity; fellow recruitment and selection, evaluation, and promotion of fellows, and disciplinary action; supervision of fellows; and fellow education in the context of patient care. (Core)

II.A.4.a) The program director must:

II.A.4.a).(1) be a role model of professionalism; (Core)

Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

278
279
280
281
282
283

II.A.4.a).(2) design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; (Core)

Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design

and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

284
285
286
287
288

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; ^(Core)

Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

289
290
291
292
293
294
295
296
297
298
299
300
301
302
303
304
305
306

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; ^(Core)

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; ^(Core)

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; ^(Core)

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; ^(Core)

Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

307
308
309
310
311
312
313
314
315
316
317

- II.A.4.a).(8) submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; ^(Core)

- II.A.4.a).(9) provide applicants who are offered an interview with information related to the applicant's eligibility for the relevant subspecialty board examination(s); ^(Core)

- II.A.4.a).(10) provide a learning and working environment in which fellows have the opportunity to raise concerns and provide feedback in a confidential manner as

- 318 appropriate, without fear of intimidation or retaliation;
 319 (Core)
 320
 321 **II.A.4.a).(11)** ensure the program’s compliance with the Sponsoring
 322 Institution’s policies and procedures related to
 323 grievances and due process; (Core)
 324
 325 **II.A.4.a).(12)** ensure the program’s compliance with the Sponsoring
 326 Institution’s policies and procedures for due process
 327 when action is taken to suspend or dismiss, not to
 328 promote, or not to renew the appointment of a fellow;
 329 (Core)
 330

Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution’s policies and procedures, and will ensure they are followed by the program’s leadership, faculty members, support personnel, and fellows.

- 331
 332 **II.A.4.a).(13)** ensure the program’s compliance with the Sponsoring
 333 Institution’s policies and procedures on employment
 334 and non-discrimination; (Core)
 335
 336 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-
 337 competition guarantee or restrictive covenant.
 338 (Core)
 339
 340 **II.A.4.a).(14)** document verification of program completion for all
 341 graduating fellows within 30 days; (Core)
 342
 343 **II.A.4.a).(15)** provide verification of an individual fellow’s
 344 completion upon the fellow’s request, within 30 days;
 345 and, (Core)
 346

Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.

- 347
 348 **II.A.4.a).(16)** obtain review and approval of the Sponsoring
 349 Institution’s DIO before submitting information or
 350 requests to the ACGME, as required in the Institutional
 351 Requirements and outlined in the ACGME Program
 352 Director’s Guide to the Common Program
 353 Requirements. (Core)
 354
 355 **II.B. Faculty**
 356
 357 *Faculty members are a foundational element of graduate medical education*
 358 *– faculty members teach fellows how to care for patients. Faculty members*

359 *provide an important bridge allowing fellows to grow and become practice*
360 *ready, ensuring that patients receive the highest quality of care. They are*
361 *role models for future generations of physicians by demonstrating*
362 *compassion, commitment to excellence in teaching and patient care,*
363 *professionalism, and a dedication to lifelong learning. Faculty members*
364 *experience the pride and joy of fostering the growth and development of*
365 *future colleagues. The care they provide is enhanced by the opportunity to*
366 *teach. By employing a scholarly approach to patient care, faculty members,*
367 *through the graduate medical education system, improve the health of the*
368 *individual and the population.*

369
370 *Faculty members ensure that patients receive the level of care expected*
371 *from a specialist in the field. They recognize and respond to the needs of*
372 *the patients, fellows, community, and institution. Faculty members provide*
373 *appropriate levels of supervision to promote patient safety. Faculty*
374 *members create an effective learning environment by acting in a*
375 *professional manner and attending to the well-being of the fellows and*
376 *themselves.*
377

Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.

378
379 **II.B.1.** For each participating site, there must be a sufficient number of
380 **faculty members with competence to instruct and supervise all**
381 **fellows at that location.** ^(Core)
382

383 **II.B.1.a)** The members of the physician faculty must reflect sufficient
384 **diversity of interest and capability to represent the many facets of**
385 **vascular surgery.** ^(Detail)
386

387 **II.B.2.** Faculty members must:

388
389 **II.B.2.a)** be role models of professionalism; ^(Core)
390

391 **II.B.2.b)** demonstrate commitment to the delivery of safe, quality,
392 **cost-effective, patient-centered care;** ^(Core)
393

Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.

394
395 **II.B.2.c)** demonstrate a strong interest in the education of fellows; ^(Core)
396

397 **II.B.2.d)** devote sufficient time to the educational program to fulfill
398 **their supervisory and teaching responsibilities;** ^(Core)
399

400 **II.B.2.e)** administer and maintain an educational environment
401 **conducive to educating fellows;** ^(Core)

- 402
403 **II.B.2.f)** regularly participate in organized clinical discussions,
404 rounds, journal clubs, and conferences; and, ^(Core)
405
406 **II.B.2.g)** pursue faculty development designed to enhance their skills
407 at least annually. ^(Core)
408

Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.

- 409
410 **II.B.3. Faculty Qualifications**
411
412 **II.B.3.a)** Faculty members must have appropriate qualifications in
413 their field and hold appropriate institutional appointments.
414 ^(Core)
415
416 **II.B.3.b)** Subspecialty physician faculty members must:
417
418 **II.B.3.b).(1)** have current certification in the subspecialty by the
419 **American Board of Surgery or the American**
420 **Osteopathic Board of Surgery, or possess**
421 **qualifications judged acceptable to the Review**
422 **Committee; and,** ^(Core)
423
424 **II.B.3.b).(2)** have current certification in their specialty (if other than
425 vascular surgery) by the appropriate American Board of
426 Medical Specialties (ABMS) member board or American
427 Osteopathic Association (AOA) certifying board, or
428 possess qualifications judged acceptable to the Review
429 Committee. ^(Core)
430
431 **II.B.3.c)** Any non-physician faculty members who participate in
432 fellowship program education must be approved by the
433 program director. ^(Core)
434

Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.

- 435
436 **II.B.3.d)** Any other specialty physician faculty members must have
437 current certification in their specialty by the appropriate

438 American Board of Medical Specialties (ABMS) member
439 board or American Osteopathic Association (AOA) certifying
440 board, or possess qualifications judged acceptable to the
441 Review Committee. ^(Core)
442

443 **II.B.4. Core Faculty**
444

445 Core faculty members must have a significant role in the education
446 and supervision of fellows and must devote a significant portion of
447 their entire effort to fellow education and/or administration, and
448 must, as a component of their activities, teach, evaluate, and provide
449 formative feedback to fellows. ^(Core)
450

Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.

451
452 **II.B.4.a) Core faculty members must be designated by the program**
453 **director. ^(Core)**
454

455 **II.B.4.b) Core faculty members must complete the annual ACGME**
456 **Faculty Survey. ^(Core)**
457

458 **II.B.4.c) In addition to the program director, there must be at least one**
459 **board-certified vascular surgery core faculty member for each**
460 **approved fellowship position. ^(Core)**
461

Specialty-Specific Background and Intent: In addition to identifying the faculty members who fulfill requirement II.B.4.c), programs may list non-vascular surgery specialty and subspecialty faculty members as core faculty members in the program.

462
463 **II.C. Program Coordinator**
464

465 **II.C.1. There must be a program coordinator. ^(Core)**
466

467 **II.C.2. The program coordinator must be provided with dedicated time and**
468 **support adequate for administration of the program based upon its**
469 **size and configuration. ^(Core)**
470

- 471 II.C.2.a) At a minimum, the program coordinator must be supported at 50
472 percent FTE for administration of the program. ^(Core)
473
474 II.C.2.b) The program coordinator must be supported at 1.0 FTE for a
475 program with 10 or more fellows. ^(Core)
476
477 II.C.2.c) A program with 20 or more fellows must provide the program
478 coordinator with additional administrative support. ^(Core)
479

Specialty-Specific Background and Intent: Support for a single coordinator who has responsibility for both an integrated vascular surgery program and an independent vascular surgery program is addressed in II.C.2. of the Program Requirements for each of those program formats and is cumulative.

480

Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

481
482
483
484
485
486
487

II.D. Other Program Personnel

The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. ^(Core)

Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.

488
489

490 **III. Fellow Appointments**

491
492 **III.A. Eligibility Criteria**

493
494 **III.A.1. Eligibility Requirements – Fellowship Programs**

495
496 **All required clinical education for entry into ACGME-accredited**
497 **fellowship programs must be completed in an ACGME-accredited**
498 **residency program, an AOA-approved residency program, a**
499 **program with ACGME International (ACGME-I) Advanced Specialty**
500 **Accreditation, or a Royal College of Physicians and Surgeons of**
501 **Canada (RCPSC)-accredited or College of Family Physicians of**
502 **Canada (CFPC)-accredited residency program located in Canada.**
503 (Core)
504

Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).

505
506 **III.A.1.a) Fellowship programs must receive verification of each**
507 **entering fellow's level of competence in the required field,**
508 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**
509 **Milestones evaluations from the core residency program. (Core)**
510

511 **III.A.1.b)** To be eligible for appointment, fellows must have successfully
512 completed a residency program in surgery that satisfies the
513 requirements in III.A.1. (Core)
514

515 **III.A.1.c)** To be eligible for appointment to an Early Specialization Program
516 (ESP), fellows must have successfully completed four years of an
517 ACGME-accredited residency program in surgery that satisfies the
518 requirements in III.A.1. and that has been approved by the Review
519 Committee for participation as an ESP and that is in the same
520 institution as the ESP vascular surgery program. (Core)
521

522 **III.B. The program director must not appoint more fellows than approved by the**
523 **Review Committee. (Core)**
524

525 **III.B.1. All complement increases must be approved by the Review**
526 **Committee. (Core)**
527

528 **III.C. Fellow Transfers**

529
530 **The program must obtain verification of previous educational experiences**
531 **and a summative competency-based performance evaluation prior to**
532 **acceptance of a transferring fellow, and Milestones evaluations upon**
533 **matriculation. (Core)**
534

535 **III.C.1.** Any fellow transfer must be approved in advance by the Review
536 **Committee. (Core)**
537

538 IV. Educational Program

539

540 *The ACGME accreditation system is designed to encourage excellence and*
541 *innovation in graduate medical education regardless of the organizational*
542 *affiliation, size, or location of the program.*

543

544 *The educational program must support the development of knowledgeable, skillful*
545 *physicians who provide compassionate care.*

546

547 *In addition, the program is expected to define its specific program aims consistent*
548 *with the overall mission of its Sponsoring Institution, the needs of the community*
549 *it serves and that its graduates will serve, and the distinctive capabilities of*
550 *physicians it intends to graduate. While programs must demonstrate substantial*
551 *compliance with the Common and subspecialty-specific Program Requirements, it*
552 *is recognized that within this framework, programs may place different emphasis*
553 *on research, leadership, public health, etc. It is expected that the program aims*
554 *will reflect the nuanced program-specific goals for it and its graduates; for*
555 *example, it is expected that a program aiming to prepare physician-scientists will*
556 *have a different curriculum from one focusing on community health.*

557

558 IV.A. The curriculum must contain the following educational components: (Core)

559

560 IV.A.1. a set of program aims consistent with the Sponsoring Institution's
561 mission, the needs of the community it serves, and the desired
562 distinctive capabilities of its graduates; (Core)

563

564 IV.A.1.a) The program's aims must be made available to program
565 applicants, fellows, and faculty members. (Core)

566

567 IV.A.2. competency-based goals and objectives for each educational
568 experience designed to promote progress on a trajectory to
569 autonomous practice in their subspecialty. These must be
570 distributed, reviewed, and available to fellows and faculty members;
571 (Core)

572

573 IV.A.3. delineation of fellow responsibilities for patient care, progressive
574 responsibility for patient management, and graded supervision in
575 their subspecialty; (Core)

576

Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

577

578 IV.A.4. structured educational activities beyond direct patient care; and,
579 (Core)

580

Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case

discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

581
582
583
584
585
586

IV.A.5. advancement of fellows' knowledge of ethical principles foundational to medical professionalism. *(Core)*

IV.B. ACGME Competencies

Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

587
588
589
590
591
592
593
594
595
596
597

IV.B.1. The program must integrate the following ACGME Competencies into the curriculum: *(Core)*

IV.B.1.a) Professionalism

Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. *(Core)*

IV.B.1.b) Patient Care and Procedural Skills

Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs.* 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.

598
599
600
601
602
603
604
605
606
607
608

IV.B.1.b).(1) Fellows must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health. *(Core)*

IV.B.1.b).(1).(a) Fellows must demonstrate manual dexterity appropriate for their educational levels. *(Core)*

IV.B.1.b).(1).(b) Fellows must develop and execute patient care plans appropriate for their educational levels. *(Core)*

609		
610	IV.B.1.b).(2)	Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. (Core)
611		
612		
613		
614	IV.B.1.b).(2).(a)	Fellows must develop competence in performing operative procedures in the following list of defined categories:
615		
616		
617		
618	IV.B.1.b).(2).(a).(i)	open abdominal; (Core)
619		
620	IV.B.1.b).(2).(a).(i).(a)	aortic; (Core)
621		
622	IV.B.1.b).(2).(a).(ii)	open cerebrovascular; (Core)
623		
624	IV.B.1.b).(2).(a).(iii)	open peripheral; (Core)
625		
626	IV.B.1.b).(2).(a).(iv)	endovascular, including: (Core)
627		
628	IV.B.1.b).(2).(a).(iv).(a)	aortoiliac; (Core)
629		
630	IV.B.1.b).(2).(a).(iv).(b)	peripheral; and, (Core)
631		
632	IV.B.1.b).(2).(a).(iv).(c)	thoracic. (Core)
633		
634	IV.B.1.b).(2).(a).(v)	venous; (Core)
635		
636	IV.B.1.b).(2).(a).(vi)	open dialysis access; and, (Core)
637		
638	IV.B.1.b).(2).(a).(vii)	other major. (Core)
639		
640	IV.B.1.b).(2).(a).(vii).(a)	amputation. (Core)
641		
642	IV.B.1.b).(2).(b)	Fellows must develop competence in patient management, including determining an appropriate diagnosis and operative plan, providing pre-operative care, and directing post-operative care. (Core)
643		
644		
645		
646		
647		
648	IV.B.1.b).(2).(c)	Fellows must develop competence in assessing the vascular portion of angiography, computed tomography (CT) scanning, and magnetic resonance imaging (MRI) and magnetic resonance angiogram (MRA) images. (Core)
649		
650		
651		
652		
653		
654	IV.B.1.b).(2).(d)	Fellows must demonstrate the ability to accurately interpret non-invasive vascular laboratory studies. (Core)
655		
656		
657		
658	IV.B.1.b).(2).(d).(i)	This experience must include the range and number of non-invasive studies that would
659		

660 allow graduates to fulfill the requirements of
661 eligibility for specialty board certification.
662 (Core)

663
664 **IV.B.1.c) Medical Knowledge**

665 **Fellows must demonstrate knowledge of established and**
666 **evolving biomedical, clinical, epidemiological and social-**
667 **behavioral sciences, as well as the application of this**
668 **knowledge to patient care.** (Core)
669

670
671 IV.B.1.c).(1) Fellows must demonstrate knowledge of anatomy, biology,
672 embryology, microbiology, physiology, and pathology as
673 they relate to the pathophysiology, diagnosis, and
674 treatment of vascular lesions. (Core)
675

676 IV.B.1.c).(2) Fellows must demonstrate knowledge of the methods and
677 techniques of angiography, CT scanning, MRI, MRA, and
678 other vascular imaging modalities. (Core)
679

680 IV.B.1.c).(3) Fellows must demonstrate knowledge of the roles of
681 different specialists and other health care professionals in
682 overall patient management. (Core)
683

684 **IV.B.1.d) Practice-based Learning and Improvement**

685 **Fellows must demonstrate the ability to investigate and**
686 **evaluate their care of patients, to appraise and assimilate**
687 **scientific evidence, and to continuously improve patient care**
688 **based on constant self-evaluation and lifelong learning.** (Core)
689
690

Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.

The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.

691
692 **IV.B.1.e) Interpersonal and Communication Skills**

693 **Fellows must demonstrate interpersonal and communication**
694 **skills that result in the effective exchange of information and**
695 **collaboration with patients, their families, and health**
696 **professionals.** (Core)
697
698

699 **IV.B.1.f) Systems-based Practice**

700 **Fellows must demonstrate an awareness of and**
701 **responsiveness to the larger context and system of health**
702

703 care, including the social determinants of health, as well as
704 the ability to call effectively on other resources to provide
705 optimal health care. ^(Core)
706

707 **IV.C. Curriculum Organization and Fellow Experiences**
708

709 **IV.C.1. The curriculum must be structured to optimize fellow educational**
710 **experiences, the length of these experiences, and supervisory**
711 **continuity.** ^(Core)
712

713 IV.C.1.a) Fellows' clinical rotations must be a minimum of four weeks in
714 duration. ^(Core)
715

716 **IV.C.2. The program must provide instruction and experience in pain**
717 **management if applicable for the subspecialty, including recognition**
718 **of the signs of addiction.** ^(Core)
719

720 IV.C.3. The following conferences must exist:
721

722 IV.C.3.a) a review, held at least biweekly, of all current complications and
723 deaths, including radiological and pathological correlation of
724 surgical specimens and autopsies when relevant; ^(Detail)
725

726 IV.C.3.b) a course or a structured series of conferences to ensure coverage
727 of the basic and clinical sciences fundamental to vascular surgery,
728 as well as the technological advances that relate to vascular
729 surgery and the care of patients with vascular diseases; ^(Detail)
730

731 IV.C.3.c) regular organized clinical teaching; and, ^(Detail)
732

733 IV.C.3.d) a regular review of recent literature in a journal club format. ^(Detail)
734

735 IV.C.4. Fellows must actively participate in the planning and presentation of
736 required conferences. ^(Core)
737

738 IV.C.4.a) Each fellow must attend at least 75 percent of all required
739 conferences. ^(Detail)
740

741 IV.C.4.b) At least 50 percent of the core faculty, in aggregate, must attend
742 program conferences. ^(Detail)
743

744 IV.C.5. Fellows must perform a minimum of 250 major vascular reconstructive
745 procedures. ^(Core)
746

747 IV.C.5.a) Operative experience in excess of 900 total cases must be
748 justified by the program director. ^(Core)
749

750 IV.C.6. The curriculum for each fellow must include a final year with chief
751 responsibility on the vascular surgery service at the primary clinical site or
752 at a participating site. ^(Core)
753

754	IV.C.6.a)	A vascular surgery fellow and a chief resident in an integrated vascular surgery program may function together on the same service but must not have primary responsibility for the same patients. ^(Core)
755		
756		
757		
758		
759	IV.C.6.b)	A vascular surgery fellow and a chief resident in a general surgery residency program may function together on the same service but must not have primary responsibility for the same patients. ^(Core)
760		
761		
762		
763	IV.C.7.	Fellow experiences must include:
764		
765	IV.C.7.a)	primary responsibility for continuity of patient care, including ambulatory care, inpatient care, referral and consultation, and utilization of community resources; ^(Core)
766		
767		
768		
769	IV.C.7.b)	progressive senior surgical responsibilities in the total care of vascular surgery patients, including pre-operative evaluation, therapeutic decision-making, operative experience, and post-operative management; ^(Core)
770		
771		
772		
773		
774	IV.C.7.c)	participation in providing consultation with faculty member supervision. ^(Core)
775		
776		
777	IV.C.7.c).(1)	Fellows should have clearly defined educational responsibilities for other fellows, residents, medical students, and professional personnel. ^(Detail)
778		
779		
780		
781	IV.C.7.c).(1).(a)	Teaching by fellows should include correlation of basic biomedical knowledge with the clinical aspects of vascular surgery. ^(Detail)
782		
783		
784		
785	IV.C.7.d)	experience in the application, assessment, and limitations of non-invasive vascular diagnostic techniques; and, ^(Core)
786		
787		
788	IV.C.7.d).(1)	The program must provide didactic and clinical training in non-invasive vascular diagnostic testing and interpretation. ^(Detail)
789		
790		
791		
792	IV.C.7.d).(2)	Such education must not be achieved solely through attendance at off-site review or test preparation courses. ^(Detail)
793		
794		
795		
796	IV.C.7.e)	experience with outpatient activities. ^(Detail)
797		
798	IV.C.7.e).(1)	Fellows must devote an average of at least one half-day per week to outpatient activities. ^(Core)
799		
800		
801	IV.C.8.	When justified by experience, fellows should serve as teaching assistants to more junior fellows and to residents. ^(Detail)
802		
803		
804	IV.D.	Scholarship

805
806 **Medicine is both an art and a science. The physician is a humanistic**
807 **scientist who cares for patients. This requires the ability to think critically,**
808 **evaluate the literature, appropriately assimilate new knowledge, and**
809 **practice lifelong learning. The program and faculty must create an**
810 **environment that fosters the acquisition of such skills through fellow**
811 **participation in scholarly activities as defined in the subspecialty-specific**
812 **Program Requirements. Scholarly activities may include discovery,**
813 **integration, application, and teaching.**

814
815 **The ACGME recognizes the diversity of fellowships and anticipates that**
816 **programs prepare physicians for a variety of roles, including clinicians,**
817 **scientists, and educators. It is expected that the program's scholarship will**
818 **reflect its mission(s) and aims, and the needs of the community it serves.**
819 **For example, some programs may concentrate their scholarly activity on**
820 **quality improvement, population health, and/or teaching, while other**
821 **programs might choose to utilize more classic forms of biomedical**
822 **research as the focus for scholarship.**

823
824 **IV.D.1. Program Responsibilities**

825
826 **IV.D.1.a) The program must demonstrate evidence of scholarly**
827 **activities, consistent with its mission(s) and aims. ^(Core)**

828
829 **IV.D.1.b) The program in partnership with its Sponsoring Institution,**
830 **must allocate adequate resources to facilitate fellow and**
831 **faculty involvement in scholarly activities. ^(Core)**

832
833 **IV.D.2. Faculty Scholarly Activity**

834
835 **IV.D.2.a) Among their scholarly activity, programs must demonstrate**
836 **accomplishments in at least three of the following domains:**
837 **^(Core)**

- 838
839
 - 840 • **Research in basic science, education, translational**
 - 841 **science, patient care, or population health**
 - 842 • **Peer-reviewed grants**
 - 843 • **Quality improvement and/or patient safety initiatives**
 - 844 • **Systematic reviews, meta-analyses, review articles,**
 - 845 **chapters in medical textbooks, or case reports**
 - 846 • **Creation of curricula, evaluation tools, didactic**
 - 847 **educational activities, or electronic educational**
 - 848 **materials**
 - 849 • **Contribution to professional committees, educational**
 - 850 **organizations, or editorial boards**
 - 851 • **Innovations in education**

852 **IV.D.2.b) The program must demonstrate dissemination of scholarly**
853 **activity within and external to the program by the following**
854 **methods:**

Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

V. Evaluation

V.A. Fellow Evaluation

V.A.1. Feedback and Evaluation

Background and Intent: Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.

882
883
884
885
886
887
888
889
890
891
892
893
894
895

V.A.1.a) Faculty members must directly observe, evaluate, and frequently provide feedback on fellow performance during each rotation or similar educational assignment. ^(Core)

V.A.1.a).(1) The semi-annual assessment must include a review of each fellow's operative experience to ensure breadth and balance of experience in the surgical care of vascular diseases. ^(Core)

V.A.1.a).(2) The program director must ensure that the operative experience of individual fellows in the same program is comparable. ^(Detail)

Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.

896
897
898
899
900
901
902
903
904
905
906
907
908
909
910
911
912

V.A.1.b) Evaluation must be documented at the completion of the assignment. ^(Core)

V.A.1.b).(1) For block rotations of greater than three months in duration, evaluation must be documented at least every three months. ^(Core)

V.A.1.b).(2) Longitudinal experiences such as continuity clinic in the context of other clinical responsibilities must be evaluated at least every three months and at completion. ^(Core)

V.A.1.c) The program must provide an objective performance evaluation based on the Competencies and the subspecialty-specific Milestones, and must: ^(Core)

- 913 V.A.1.c).(1) use multiple evaluators (e.g., faculty members, peers,
 914 patients, self, and other professional staff members);
 915 and, ^(Core)
 916
- 917 V.A.1.c).(2) provide that information to the Clinical Competency
 918 Committee for its synthesis of progressive fellow
 919 performance and improvement toward unsupervised
 920 practice. ^(Core)
 921

Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

- 922
- 923 V.A.1.d) The program director or designee, with input from the Clinical
 924 Competency Committee, must:
 925
- 926 V.A.1.d).(1) meet with and review with each fellow their
 927 documented semi-annual evaluation of performance,
 928 including progress along the subspecialty-specific
 929 Milestones; ^(Core)
 930
- 931 V.A.1.d).(2) assist fellows in developing individualized learning
 932 plans to capitalize on their strengths and identify areas
 933 for growth; and, ^(Core)
 934
- 935 V.A.1.d).(3) develop plans for fellows failing to progress, following
 936 institutional policies and procedures. ^(Core)
 937

Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow

progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

- 938
939 **V.A.1.e)** At least annually, there must be a summative evaluation of
940 each fellow that includes their readiness to progress to the
941 next year of the program, if applicable. ^(Core)
942
- 943 **V.A.1.f)** The evaluations of a fellow's performance must be accessible
944 for review by the fellow. ^(Core)
945
- 946 **V.A.2.** Final Evaluation
947
- 948 **V.A.2.a)** The program director must provide a final evaluation for each
949 fellow upon completion of the program. ^(Core)
950
- 951 **V.A.2.a).(1)** The subspecialty-specific Milestones, and when
952 applicable the subspecialty-specific Case Logs, must
953 be used as tools to ensure fellows are able to engage
954 in autonomous practice upon completion of the
955 program. ^(Core)
956
- 957 **V.A.2.a).(2)** The final evaluation must:
958
- 959 **V.A.2.a).(2).(a)** become part of the fellow's permanent record
960 maintained by the institution, and must be
961 accessible for review by the fellow in
962 accordance with institutional policy; ^(Core)
963
- 964 **V.A.2.a).(2).(b)** verify that the fellow has demonstrated the
965 knowledge, skills, and behaviors necessary to
966 enter autonomous practice; ^(Core)
967
- 968 **V.A.2.a).(2).(c)** consider recommendations from the Clinical
969 Competency Committee; and, ^(Core)
970
- 971 **V.A.2.a).(2).(d)** be shared with the fellow upon completion of
972 the program. ^(Core)
973
- 974 **V.A.3.** A Clinical Competency Committee must be appointed by the
975 program director. ^(Core)
976
- 977 **V.A.3.a)** At a minimum the Clinical Competency Committee must
978 include three members, at least one of whom is a core faculty
979 member. Members must be faculty members from the same
980 program or other programs, or other health professionals
981 who have extensive contact and experience with the
982 program's fellows. ^(Core)
983
- 984 **V.A.3.b)** The Clinical Competency Committee must:
985

- 986 V.A.3.b).(1) review all fellow evaluations at least semi-annually;
 987 (Core)
 988
 989 V.A.3.b).(2) determine each fellow's progress on achievement of
 990 the subspecialty-specific Milestones; and, (Core)
 991
 992 V.A.3.b).(3) meet prior to the fellows' semi-annual evaluations and
 993 advise the program director regarding each fellow's
 994 progress. (Core)
 995

996 V.B. Faculty Evaluation

- 997
 998 V.B.1. The program must have a process to evaluate each faculty
 999 member's performance as it relates to the educational program at
 1000 least annually. (Core)
 1001

Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program's faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1002
 1003 V.B.1.a) This evaluation must include a review of the faculty member's
 1004 clinical teaching abilities, engagement with the educational
 1005 program, participation in faculty development related to their
 1006 skills as an educator, clinical performance, professionalism,
 1007 and scholarly activities. (Core)
 1008
 1009 V.B.1.b) This evaluation must include written, confidential evaluations
 1010 by the fellows. (Core)
 1011
 1012 V.B.2. Faculty members must receive feedback on their evaluations at least
 1013 annually. (Core)
 1014
 1015 V.B.3. Results of the faculty educational evaluations should be
 1016 incorporated into program-wide faculty development plans. (Core)
 1017

Background and Intent: The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1018
1019 **V.C. Program Evaluation and Improvement**
1020
1021 **V.C.1. The program director must appoint the Program Evaluation**
1022 **Committee to conduct and document the Annual Program**
1023 **Evaluation as part of the program’s continuous improvement**
1024 **process. (Core)**
1025
1026 **V.C.1.a) The Program Evaluation Committee must be composed of at**
1027 **least two program faculty members, at least one of whom is a**
1028 **core faculty member, and at least one fellow. (Core)**
1029
1030 **V.C.1.b) Program Evaluation Committee responsibilities must include:**
1031
1032 **V.C.1.b).(1) acting as an advisor to the program director, through**
1033 **program oversight; (Core)**
1034
1035 **V.C.1.b).(2) review of the program’s self-determined goals and**
1036 **progress toward meeting them; (Core)**
1037
1038 **V.C.1.b).(3) guiding ongoing program improvement, including**
1039 **development of new goals, based upon outcomes;**
1040 **and, (Core)**
1041
1042 **V.C.1.b).(4) review of the current operating environment to identify**
1043 **strengths, challenges, opportunities, and threats as**
1044 **related to the program’s mission and aims. (Core)**
1045

Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program’s progress toward achievement of its goals and aims.

- 1046
1047 **V.C.1.c) The Program Evaluation Committee should consider the**
1048 **following elements in its assessment of the program:**
1049
1050 **V.C.1.c).(1) curriculum; (Core)**
1051
1052 **V.C.1.c).(2) outcomes from prior Annual Program Evaluation(s);**
1053 **(Core)**
1054
1055 **V.C.1.c).(3) ACGME letters of notification, including citations,**
1056 **Areas for Improvement, and comments; (Core)**

1103		
1104	V.C.1.e).(2)	be submitted to the DIO. ^(Core)
1105		
1106	V.C.2.	The program must participate in a Self-Study prior to its 10-Year Accreditation Site Visit. ^(Core)
1107		

1108
1109
1110
1111

V.C.2.a)

A summary of the Self-Study must be submitted to the DIO.
(Core)

Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

1112

V.C.3.

One goal of ACGME-accredited education is to educate physicians who seek and achieve board certification. One measure of the effectiveness of the educational program is the ultimate pass rate.

1113

1114

1115

1116

1117

1118

1119

1120

1121

The program director should encourage all eligible program graduates to take the certifying examination offered by the applicable American Board of Medical Specialties (ABMS) member board or American Osteopathic Association (AOA) certifying board.

V.C.3.a)

For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) an annual written exam, in the preceding three years, the program's aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)

1122

1123

1124

1125

1126

1127

1128

V.C.3.b)

For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) a biennial written exam, in the preceding six years, the program's aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)

1129

1130

1131

1132

1133

1134

1135

V.C.3.c)

For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) an annual oral exam, in the preceding three years, the program's aggregate pass rate of those taking the examination for the first time must be higher than the bottom fifth percentile of programs in that subspecialty. (Outcome)

1136

1137

1138

1139

1140

1141

1142

V.C.3.d)

For subspecialties in which the ABMS member board and/or AOA certifying board offer(s) a biennial oral exam, in the preceding six years, the program's aggregate pass rate of those taking the examination for the first time must be higher

1143

1144

1145

1146

1147 than the bottom fifth percentile of programs in that
1148 subspecialty. ^(Outcome)
1149
1150 V.C.3.e) For each of the exams referenced in V.C.3.a)-d), any program
1151 whose graduates over the time period specified in the
1152 requirement have achieved an 80 percent pass rate will have
1153 met this requirement, no matter the percentile rank of the
1154 program for pass rate in that subspecialty. ^(Outcome)
1155

Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

1156
1157 V.C.3.f) Programs must report, in ADS, board certification status
1158 annually for the cohort of board-eligible fellows that
1159 graduated seven years earlier. ^(Core)
1160

Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates' performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

1161
1162 VI. The Learning and Working Environment
1163

Fellowship education must occur in the context of a learning and working environment that emphasizes the following principles:

- ***Excellence in the safety and quality of care rendered to patients by fellows today***
- ***Excellence in the safety and quality of care rendered to patients by today's fellows in their future practice***

- 1173 • ***Excellence in professionalism through faculty modeling of:***
- 1174
- 1175 ○ ***the effacement of self-interest in a humanistic environment that supports***
- 1176 ***the professional development of physicians***
- 1177
- 1178 ○ ***the joy of curiosity, problem-solving, intellectual rigor, and discovery***
- 1179
- 1180 • ***Commitment to the well-being of the students, residents, fellows, faculty***
- 1181 ***members, and all members of the health care team***
- 1182

Background and Intent: The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program’s accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

1218
1219 **VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows**
1220 **must actively participate in patient safety**
1221 **systems and contribute to a culture of safety.**
1222 **(Core)**

1223
1224 **VI.A.1.a).(1).(b) The program must have a structure that**
1225 **promotes safe, interprofessional, team-based**
1226 **care. (Core)**

1227
1228 **VI.A.1.a).(2) Education on Patient Safety**

1229
1230 **Programs must provide formal educational activities**
1231 **that promote patient safety-related goals, tools, and**
1232 **techniques. (Core)**

1233
**Background and Intent: Optimal patient safety occurs in the setting of a coordinated
interprofessional learning and working environment.**

1234
1235 **VI.A.1.a).(3) Patient Safety Events**

1236 ***Reporting, investigation, and follow-up of adverse***
1237 ***events, near misses, and unsafe conditions are pivotal***
1238 ***mechanisms for improving patient safety, and are***
1239 ***essential for the success of any patient safety***
1240 ***program. Feedback and experiential learning are***
1241 ***essential to developing true competence in the ability***
1242 ***to identify causes and institute sustainable systems-***
1243 ***based changes to ameliorate patient safety***
1244 ***vulnerabilities.***

1245
1246
1247 **VI.A.1.a).(3).(a) Residents, fellows, faculty members, and other**
1248 **clinical staff members must:**

1249		
1250	VI.A.1.a).(3).(a).(i)	know their responsibilities in reporting patient safety events at the clinical site;
1251		(Core)
1252		
1253		
1254	VI.A.1.a).(3).(a).(ii)	know how to report patient safety events, including near misses, at the clinical site; and,
1255		(Core)
1256		
1257		
1258	VI.A.1.a).(3).(a).(iii)	be provided with summary information of their institution's patient safety reports.
1259		(Core)
1260		
1261		
1262	VI.A.1.a).(3).(b)	Fellows must participate as team members in real and/or simulated interprofessional clinical patient safety activities, such as root cause analyses or other activities that include analysis, as well as formulation and implementation of actions.
1263		(Core)
1264		
1265		
1266		
1267		
1268		
1269	VI.A.1.a).(4)	Fellow Education and Experience in Disclosure of Adverse Events
1270		
1271		
1272		<i>Patient-centered care requires patients, and when appropriate families, to be apprised of clinical situations that affect them, including adverse events. This is an important skill for faculty physicians to model, and for fellows to develop and apply.</i>
1273		
1274		
1275		
1276		
1277		
1278	VI.A.1.a).(4).(a)	All fellows must receive training in how to disclose adverse events to patients and families.
1279		(Core)
1280		
1281		
1282	VI.A.1.a).(4).(b)	Fellows should have the opportunity to participate in the disclosure of patient safety events, real or simulated.
1283		(Detail)†
1284		
1285		
1286	VI.A.1.b)	Quality Improvement
1287		
1288	VI.A.1.b).(1)	Education in Quality Improvement
1289		
1290		<i>A cohesive model of health care includes quality-related goals, tools, and techniques that are necessary in order for health care professionals to achieve quality improvement goals.</i>
1291		
1292		
1293		
1294		
1295	VI.A.1.b).(1).(a)	Fellows must receive training and experience in quality improvement processes, including an understanding of health care disparities.
1296		(Core)
1297		
1298		
1299	VI.A.1.b).(2)	Quality Metrics

1300		
1301		<i>Access to data is essential to prioritizing activities for</i>
1302		<i>care improvement and evaluating success of</i>
1303		<i>improvement efforts.</i>
1304		
1305	VI.A.1.b).(2).(a)	Fellows and faculty members must receive data
1306		on quality metrics and benchmarks related to
1307		their patient populations. ^(Core)
1308		
1309	VI.A.1.b).(3)	Engagement in Quality Improvement Activities
1310		
1311		<i>Experiential learning is essential to developing the</i>
1312		<i>ability to identify and institute sustainable systems-</i>
1313		<i>based changes to improve patient care.</i>
1314		
1315	VI.A.1.b).(3).(a)	Fellows must have the opportunity to
1316		participate in interprofessional quality
1317		improvement activities. ^(Core)
1318		
1319	VI.A.1.b).(3).(a).(i)	This should include activities aimed at
1320		reducing health care disparities. ^(Detail)
1321		
1322	VI.A.2.	Supervision and Accountability
1323		
1324	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for</i>
1325		<i>the care of the patient, every physician shares in the</i>
1326		<i>responsibility and accountability for their efforts in the</i>
1327		<i>provision of care. Effective programs, in partnership with</i>
1328		<i>their Sponsoring Institutions, define, widely communicate,</i>
1329		<i>and monitor a structured chain of responsibility and</i>
1330		<i>accountability as it relates to the supervision of all patient</i>
1331		<i>care.</i>
1332		
1333		<i>Supervision in the setting of graduate medical education</i>
1334		<i>provides safe and effective care to patients; ensures each</i>
1335		<i>fellow’s development of the skills, knowledge, and attitudes</i>
1336		<i>required to enter the unsupervised practice of medicine; and</i>
1337		<i>establishes a foundation for continued professional growth.</i>
1338		
1339	VI.A.2.a).(1)	Each patient must have an identifiable and
1340		appropriately-credentialed and privileged attending
1341		physician (or licensed independent practitioner as
1342		specified by the applicable Review Committee) who is
1343		responsible and accountable for the patient’s care.
1344		^(Core)
1345		
1346	VI.A.2.a).(1).(a)	This information must be available to fellows,
1347		faculty members, other members of the health
1348		care team, and patients. ^(Core)
1349		

1350 VI.A.2.a).(1).(b) Fellows and faculty members must inform each
1351 patient of their respective roles in that patient's
1352 care when providing direct patient care. ^(Core)
1353

1354 VI.A.2.b) *Supervision may be exercised through a variety of methods.
1355 For many aspects of patient care, the supervising physician
1356 may be a more advanced fellow. Other portions of care
1357 provided by the fellow can be adequately supervised by the
1358 appropriate availability of the supervising faculty member or
1359 fellow, either on site or by means of telecommunication
1360 technology. Some activities require the physical presence of
1361 the supervising faculty member. In some circumstances,
1362 supervision may include post-hoc review of fellow-delivered
1363 care with feedback.*
1364

Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of resident patient interactions, education and training locations, and resident skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a resident gains more experience, even with the same patient condition or procedure. All residents have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.

1365
1366 VI.A.2.b).(1) The program must demonstrate that the appropriate
1367 level of supervision in place for all fellows is based on
1368 each fellow's level of training and ability, as well as
1369 patient complexity and acuity. Supervision may be
1370 exercised through a variety of methods, as appropriate
1371 to the situation. ^(Core)
1372

1373 VI.A.2.b).(2) The program must define when physical presence of a
1374 supervising physician is required. ^(Core)
1375

1376 VI.A.2.c) Levels of Supervision
1377
1378 To promote appropriate fellow supervision while providing
1379 for graded authority and responsibility, the program must use
1380 the following classification of supervision: ^(Core)
1381

1382 VI.A.2.c).(1) Direct Supervision:

1383
1384 VI.A.2.c).(1).(a) the supervising physician is physically present
1385 with the fellow during the key portions of the
1386 patient interaction. ^(Core)
1387

1388 VI.A.2.c).(2) Indirect Supervision: the supervising physician is not
1389 providing physical or concurrent visual or audio
1390 supervision but is immediately available to the fellow

- 1391 for guidance and is available to provide appropriate
- 1392 direct supervision. ^(Core)
- 1393
- 1394 **VI.A.2.c).(3)** Oversight – the supervising physician is available to
- 1395 provide review of procedures/encounters with
- 1396 feedback provided after care is delivered. ^(Core)
- 1397
- 1398 **VI.A.2.d)** The privilege of progressive authority and responsibility,
- 1399 conditional independence, and a supervisory role in patient
- 1400 care delegated to each fellow must be assigned by the
- 1401 program director and faculty members. ^(Core)
- 1402
- 1403 **VI.A.2.d).(1)** The program director must evaluate each fellow’s
- 1404 abilities based on specific criteria, guided by the
- 1405 Milestones. ^(Core)
- 1406
- 1407 **VI.A.2.d).(2)** Faculty members functioning as supervising
- 1408 physicians must delegate portions of care to fellows
- 1409 based on the needs of the patient and the skills of
- 1410 each fellow. ^(Core)
- 1411
- 1412 **VI.A.2.d).(3)** Fellows should serve in a supervisory role to junior
- 1413 fellows and residents in recognition of their progress
- 1414 toward independence, based on the needs of each
- 1415 patient and the skills of the individual resident or
- 1416 fellow. ^(Detail)
- 1417
- 1418 **VI.A.2.e)** Programs must set guidelines for circumstances and events
- 1419 in which fellows must communicate with the supervising
- 1420 faculty member(s). ^(Core)
- 1421
- 1422 **VI.A.2.e).(1)** Each fellow must know the limits of their scope of
- 1423 authority, and the circumstances under which the
- 1424 fellow is permitted to act with conditional
- 1425 independence. ^(Outcome)
- 1426

Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.

- 1427
- 1428 **VI.A.2.f)** Faculty supervision assignments must be of sufficient
- 1429 duration to assess the knowledge and skills of each fellow
- 1430 and to delegate to the fellow the appropriate level of patient
- 1431 care authority and responsibility. ^(Core)
- 1432
- 1433 **VI.B. Professionalism**
- 1434
- 1435 **VI.B.1.** Programs, in partnership with their Sponsoring Institutions, must
- 1436 educate fellows and faculty members concerning the professional
- 1437 responsibilities of physicians, including their obligation to be

1438 appropriately rested and fit to provide the care required by their
1439 patients. ^(Core)

1440
1441 **VI.B.2.** The learning objectives of the program must:

1442
1443 **VI.B.2.a)** be accomplished through an appropriate blend of supervised
1444 patient care responsibilities, clinical teaching, and didactic
1445 educational events; ^(Core)

1446
1447 **VI.B.2.b)** be accomplished without excessive reliance on fellows to
1448 fulfill non-physician obligations; and, ^(Core)

1449
Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1450
1451 **VI.B.2.c)** ensure manageable patient care responsibilities. ^(Core)

1452
Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1453
1454 **VI.B.3.** The program director, in partnership with the Sponsoring Institution,
1455 must provide a culture of professionalism that supports patient
1456 safety and personal responsibility. ^(Core)

1457
1458 **VI.B.4.** Fellows and faculty members must demonstrate an understanding
1459 of their personal role in the:

1460
1461 **VI.B.4.a)** provision of patient- and family-centered care; ^(Outcome)

1462
1463 **VI.B.4.b)** safety and welfare of patients entrusted to their care,
1464 including the ability to report unsafe conditions and adverse
1465 events; ^(Outcome)

1466
Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.

1467

1468 VI.B.4.c) assurance of their fitness for work, including: (Outcome)
1469

Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

1470
1471 VI.B.4.c).(1) management of their time before, during, and after
1472 clinical assignments; and, (Outcome)
1473

1474 VI.B.4.c).(2) recognition of impairment, including from illness,
1475 fatigue, and substance use, in themselves, their peers,
1476 and other members of the health care team. (Outcome)
1477

1478 VI.B.4.d) commitment to lifelong learning; (Outcome)
1479

1480 VI.B.4.e) monitoring of their patient care performance improvement
1481 indicators; and, (Outcome)
1482

1483 VI.B.4.f) accurate reporting of clinical and educational work hours,
1484 patient outcomes, and clinical experience data. (Outcome)
1485

1486 VI.B.5. All fellows and faculty members must demonstrate responsiveness
1487 to patient needs that supersedes self-interest. This includes the
1488 recognition that under certain circumstances, the best interests of
1489 the patient may be served by transitioning that patient's care to
1490 another qualified and rested provider. (Outcome)
1491

1492 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must
1493 provide a professional, equitable, respectful, and civil environment
1494 that is free from discrimination, sexual and other forms of
1495 harassment, mistreatment, abuse, or coercion of students, fellows,
1496 faculty, and staff. (Core)
1497

1498 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should
1499 have a process for education of fellows and faculty regarding
1500 unprofessional behavior and a confidential process for reporting,
1501 investigating, and addressing such concerns. (Core)
1502

1503 VI.C. Well-Being
1504

1505 *Psychological, emotional, and physical well-being are critical in the*
1506 *development of the competent, caring, and resilient physician and require*
1507 *proactive attention to life inside and outside of medicine. Well-being*
1508 *requires that physicians retain the joy in medicine while managing their*
1509 *own real life stresses. Self-care and responsibility to support other*
1510 *members of the health care team are important components of*
1511 *professionalism; they are also skills that must be modeled, learned, and*
1512 *nurtured in the context of other aspects of fellowship training.*

1513
1514
1515
1516
1517
1518
1519
1520
1521
1522
1523
1524

Fellows and faculty members are at risk for burnout and depression. Programs, in partnership with their Sponsoring Institutions, have the same responsibility to address well-being as other aspects of resident competence. Physicians and all members of the health care team share responsibility for the well-being of each other. For example, a culture which encourages covering for colleagues after an illness without the expectation of reciprocity reflects the ideal of professionalism. A positive culture in a clinical learning environment models constructive behaviors, and prepares fellows with the skills and attitudes needed to thrive throughout their careers.

Background and Intent: The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

1525
1526

1539
1540
1541

- VI.C.1. The responsibility of the program, in partnership with the Sponsoring Institution, to address well-being must include:**
- VI.C.1.a) efforts to enhance the meaning that each fellow finds in the experience of being a physician, including protecting time with patients, minimizing non-physician obligations, providing administrative support, promoting progressive autonomy and flexibility, and enhancing professional relationships; ^(Core)**
- VI.C.1.b) attention to scheduling, work intensity, and work compression that impacts fellow well-being; ^(Core)**
- VI.C.1.c) evaluating workplace safety data and addressing the safety of fellows and faculty members; ^(Core)**

Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1542

1543 VI.C.1.d) policies and programs that encourage optimal fellow and
1544 faculty member well-being; and, ^(Core)
1545

Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1546
1547 VI.C.1.d).(1) Fellows must be given the opportunity to attend
1548 medical, mental health, and dental care appointments,
1549 including those scheduled during their working hours.
1550 ^(Core)
1551

Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

1552
1553 VI.C.1.e) attention to fellow and faculty member burnout, depression,
1554 and substance use disorders. The program, in partnership
1555 with its Sponsoring Institution, must educate faculty
1556 members and fellows in identification of the symptoms of
1557 burnout, depression, and substance use disorders, including
1558 means to assist those who experience these conditions.
1559 Fellows and faculty members must also be educated to
1560 recognize those symptoms in themselves and how to seek
1561 appropriate care. The program, in partnership with its
1562 Sponsoring Institution, must: ^(Core)
1563

Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorders. Materials and more information are available on the Physician Well-being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).

1564
1565 VI.C.1.e).(1) encourage fellows and faculty members to alert the
1566 program director or other designated personnel or
1567 programs when they are concerned that another
1568 fellow, resident, or faculty member may be displaying
1569 signs of burnout, depression, a substance use
1570 disorder, suicidal ideation, or potential for violence;
1571 ^(Core)
1572

Background and Intent: Individuals experiencing burnout, depression, a substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the

department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1575
1576
1577
1578
1579
1580
1581
- VI.C.1.e).(2) provide access to appropriate tools for self-screening; and, ^(Core)
- VI.C.1.e).(3) provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. ^(Core)

Background and Intent: The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1588
1589
1590
1591
1592
1593
1594
1595
- VI.C.2. There are circumstances in which fellows may be unable to attend work, including but not limited to fatigue, illness, family emergencies, and parental leave. Each program must allow an appropriate length of absence for fellows unable to perform their patient care responsibilities. ^(Core)
- VI.C.2.a) The program must have policies and procedures in place to ensure coverage of patient care. ^(Core)
- VI.C.2.b) These policies must be implemented without fear of negative consequences for the fellow who is or was unable to provide the clinical work. ^(Core)

Background and Intent: Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

- 1596
1597
1598
1599
1600
1601
1602
- VI.D. **Fatigue Mitigation**
- VI.D.1. **Programs must:**
- VI.D.1.a) educate all faculty members and fellows to recognize the signs of fatigue and sleep deprivation; ^(Core)

- 1603
 1604 VI.D.1.b) educate all faculty members and fellows in alertness
 1605 management and fatigue mitigation processes; and, ^(Core)
 1606
 1607 VI.D.1.c) encourage fellows to use fatigue mitigation processes to
 1608 manage the potential negative effects of fatigue on patient
 1609 care and learning. ^(Detail)
 1610

Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

- 1611
 1612 VI.D.2. Each program must ensure continuity of patient care, consistent
 1613 with the program's policies and procedures referenced in VI.C.2–
 1614 VI.C.2.b), in the event that a fellow may be unable to perform their
 1615 patient care responsibilities due to excessive fatigue. ^(Core)
 1616
 1617 VI.D.3. The program, in partnership with its Sponsoring Institution, must
 1618 ensure adequate sleep facilities and safe transportation options for
 1619 fellows who may be too fatigued to safely return home. ^(Core)
 1620
 1621 VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care
 1622
 1623 VI.E.1. Clinical Responsibilities
 1624
 1625 The clinical responsibilities for each fellow must be based on PGY
 1626 level, patient safety, fellow ability, severity and complexity of patient
 1627 illness/condition, and available support services. ^(Core)
 1628

Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

1629

1630	VI.E.1.a)	The workload associated with optimal clinical care of surgical patients is a continuum from the moment of admission to the point of discharge. ^(Core)
1631		
1632		
1633		
1634	VI.E.1.b)	During the fellowship education process, surgical teams should be made up of attending surgeons, fellows and residents at various PG levels (when appropriate), medical students (when appropriate), and other health care providers. ^(Core)
1635		
1636		
1637		
1638		
1639	VI.E.1.c)	The work of the caregiver team should be assigned to team members based on each member's level of education, experience, and competence. ^(Core)
1640		
1641		
1642		
1643	VI.E.1.d)	As fellows progress through levels of increasing competence and responsibility, it is expected that work assignments will keep pace with their advancement. ^(Core)

1676		
1677		
1678	VI.E.3.	Transitions of Care
1679		

- 1680 VI.E.3.a) Programs must design clinical assignments to optimize
 1681 transitions in patient care, including their safety, frequency,
 1682 and structure. ^(Core)
 1683
- 1684 VI.E.3.b) Programs, in partnership with their Sponsoring Institutions,
 1685 must ensure and monitor effective, structured hand-over
 1686 processes to facilitate both continuity of care and patient
 1687 safety. ^(Core)
 1688
- 1689 VI.E.3.c) Programs must ensure that fellows are competent in
 1690 communicating with team members in the hand-over process.
 1691 ^(Outcome)
 1692
- 1693 VI.E.3.d) Programs and clinical sites must maintain and communicate
 1694 schedules of attending physicians and fellows currently
 1695 responsible for care. ^(Core)
 1696
- 1697 VI.E.3.e) Each program must ensure continuity of patient care,
 1698 consistent with the program’s policies and procedures
 1699 referenced in VI.C.2-VI.C.2.b), in the event that a fellow may
 1700 be unable to perform their patient care responsibilities due to
 1701 excessive fatigue or illness, or family emergency. ^(Core)
 1702

1703 VI.F. Clinical Experience and Education

1704
 1705 *Programs, in partnership with their Sponsoring Institutions, must design*
 1706 *an effective program structure that is configured to provide fellows with*
 1707 *educational and clinical experience opportunities, as well as reasonable*
 1708 *opportunities for rest and personal activities.*
 1709

Background and Intent: In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

- 1710
- 1711 VI.F.1. Maximum Hours of Clinical and Educational Work per Week
- 1712
- 1713 Clinical and educational work hours must be limited to no more than
 1714 80 hours per week, averaged over a four-week period, inclusive of all
 1715 in-house clinical and educational activities, clinical work done from
 1716 home, and all moonlighting. ^(Core)
 1717

Background and Intent: Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

Scheduling

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

Oversight

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

Work from Home

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in

excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

VI.F.2. Mandatory Time Free of Clinical Work and Education

VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. ^(Core)

VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. ^(Detail)

VI.F.2.b).(1) There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. ^(Detail)

Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1736
1737
1738
1739

VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. ^(Core)

Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

1740
1741
1742
1743
1744
1745

VI.F.2.d) Fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days. ^(Core)

Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend,"

meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as “one (1) continuous 24-hour period free from all administrative, clinical, and educational activities.”

- 1746
1747 **VI.F.3. Maximum Clinical Work and Education Period Length**
1748
1749 **VI.F.3.a) Clinical and educational work periods for fellows must not**
1750 **exceed 24 hours of continuous scheduled clinical**
1751 **assignments. (Core)**
1752
1753 **VI.F.3.a).(1) Up to four hours of additional time may be used for**
1754 **activities related to patient safety, such as providing**
1755 **effective transitions of care, and/or fellow education.**
1756 **(Core)**
1757
1758 **VI.F.3.a).(1).(a) Additional patient care responsibilities must not**
1759 **be assigned to a fellow during this time. (Core)**
1760

Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

- 1761
1762 **VI.F.4. Clinical and Educational Work Hour Exceptions**
1763
1764 **VI.F.4.a) In rare circumstances, after handing off all other**
1765 **responsibilities, a fellow, on their own initiative, may elect to**
1766 **remain or return to the clinical site in the following**
1767 **circumstances:**
1768
1769 **VI.F.4.a).(1) to continue to provide care to a single severely ill or**
1770 **unstable patient; (Detail)**
1771
1772 **VI.F.4.a).(2) humanistic attention to the needs of a patient or**
1773 **family; or, (Detail)**
1774
1775 **VI.F.4.a).(3) to attend unique educational events. (Detail)**
1776
1777 **VI.F.4.b) These additional hours of care or education will be counted**
1778 **toward the 80-hour weekly limit. (Detail)**
1779

Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

- 1780
1781 **VI.F.4.c)** **A Review Committee may grant rotation-specific exceptions**
1782 **for up to 10 percent or a maximum of 88 clinical and**
1783 **educational work hours to individual programs based on a**
1784 **sound educational rationale.**
- 1785
1786 The Review Committee for Surgery will not accept requests for
1787 exceptions to the 80-hour limit to the fellows' work week.
- 1788
1789 **VI.F.4.c).(1)** **In preparing a request for an exception, the program**
1790 **director must follow the clinical and educational work**
1791 **hour exception policy from the *ACGME Manual of***
1792 ***Policies and Procedures.* (Core)**
- 1793
1794 **VI.F.4.c).(2)** **Prior to submitting the request to the Review**
1795 **Committee, the program director must obtain approval**
1796 **from the Sponsoring Institution's GMEC and DIO. (Core)**
1797

Background and Intent: The provision for exceptions for up to 88 hours per week has been modified to specify that exceptions may be granted for specific rotations if the program can justify the increase based on criteria specified by the Review Committee. As in the past, Review Committees may opt not to permit exceptions. The underlying philosophy for this requirement is that while it is expected that all fellows should be able to train within an 80-hour work week, it is recognized that some programs may include rotations with alternate structures based on the nature of the specialty. DIO/GMEC approval is required before the request will be considered by the Review Committee.

- 1798
1799 **VI.F.5.** **Moonlighting**
1800
- 1801 **VI.F.5.a)** **Moonlighting must not interfere with the ability of the fellow**
1802 **to achieve the goals and objectives of the educational**
1803 **program, and must not interfere with the fellow's fitness for**
1804 **work nor compromise patient safety. (Core)**
- 1805
1806 **VI.F.5.b)** **Time spent by fellows in internal and external moonlighting**
1807 **(as defined in the ACGME Glossary of Terms) must be**
1808 **counted toward the 80-hour maximum weekly limit. (Core)**
1809

Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

VI.F.6. In-House Night Float

Night float must occur within the context of the 80-hour and one-day-off-in-seven requirements. (Core)

- VI.F.6.a) Night float rotations must not exceed two months in succession, or three months in succession for rotations with night shifts alternating with day shifts. (Detail)
- VI.F.6.b) There can be no more than four months of night float per year. (Detail)
- VI.F.6.c) There must be at least two months between each night float rotation. (Detail)
- VI.F.6.d) The total amount of night float for any fellow in a two-year fellowship must be no more than eight months. (Detail)

Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

VI.F.7. Maximum In-House On-Call Frequency

Fellows must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period). (Core)

VI.F.8. At-Home Call

- VI.F.8.a) Time spent on patient care activities by fellows on at-home call must count toward the 80-hour maximum weekly limit. The frequency of at-home call is not subject to the every-third-night limitation, but must satisfy the requirement for one day in seven free of clinical work and education, when averaged over four weeks. (Core)
- VI.F.8.a).(1) At-home call must not be so frequent or taxing as to preclude rest or reasonable personal time for each fellow. (Core)
- VI.F.8.b) Fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. (Detail)

Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour

maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.
