1 **ACGME Program Requirements for Graduate Medical Education**
2 **in Vascular Surgery (Independent)**

3
4 **Common Program Requirements (Fellowship) are in BOLD**

5
6 Where applicable, text in italics describes the underlying philosophy of the requirements in that
7 section. These philosophic statements are not program requirements and are therefore not
8 citable.
9

10 **Background and Intent: These fellowship requirements reflect the fact that these learners have already completed the first phase of graduate medical education. Thus, the Common Program Requirements (Fellowship) are intended to explain the differences.**

The “Specialty-Specific Background and Intent” text in the boxes below provide detail regarding the intention behind specific requirements, as well as guidance on how to implement the requirements in a way that supports excellence in fellowship education. Programs will note that the Vascular Surgery Subspecialty FAQs companion document has been integrated into this document and, where appropriate, guidance is given on additional Review Committee resource information.

11
12 **Introduction**

13
14 **Int.A. *Fellowship is advanced graduate medical education beyond a core residency program for physicians who desire to enter more specialized practice. Fellowship-trained physicians serve the public by providing subspecialty care, which may also include core medical care, acting as a community resource for expertise in their field, creating and integrating new knowledge into practice, and educating future generations of physicians. Graduate medical education values the strength that a diverse group of physicians brings to medical care.***

15
16
17
18
19
20
21
22
23 ***Fellows who have completed residency are able to practice independently in their core specialty. The prior medical experience and expertise of fellows distinguish them from physicians entering into residency training. The fellow’s care of patients within the subspecialty is undertaken with appropriate faculty supervision and conditional independence. Faculty members serve as role models of excellence, compassion, professionalism, and scholarship. The fellow develops deep medical knowledge, patient care skills, and expertise applicable to their focused area of practice. Fellowship is an intensive program of subspecialty clinical and didactic education that focuses on the multidisciplinary care of patients. Fellowship education is often physically, emotionally, and intellectually demanding, and occurs in a variety of clinical learning environments committed to graduate medical education and the well-being of patients, residents, fellows, faculty members, students, and all members of the health care team.***

24
25
26
27
28
29
30
31
32
33
34
35
36
37
38
39 ***In addition to clinical education, many fellowship programs advance fellows’ skills as physician-scientists. While the ability to create new knowledge within medicine is not exclusive to fellowship-educated***

42 *physicians, the fellowship experience expands a physician's abilities to*
43 *pursue hypothesis-driven scientific inquiry that results in contributions to*
44 *the medical literature and patient care. Beyond the clinical subspecialty*
45 *expertise achieved, fellows develop mentored relationships built on an*
46 *infrastructure that promotes collaborative research.*

47
48 **Int.B. Definition of Subspecialty**

49
50 Vascular surgery is the surgical specialty involving diseases of the arterial,
51 venous, and lymphatic circulatory systems, exclusive of those circulatory vessels
52 intrinsic to the heart and intracranial vessels. Specialists in this discipline
53 demonstrate the knowledge, skills, and understanding of the medical science
54 relative to the vascular system, as well as mature technical skills and surgical
55 judgment.

56
57 **Int.C. Length of Educational Program**

58
59 The educational program in vascular surgery for independent programs must be
60 24 months in length. ^(Core)

61
62 **I. Oversight**

63
64 **I.A. Sponsoring Institution**

65
66 *The Sponsoring Institution is the organization or entity that assumes the*
67 *ultimate financial and academic responsibility for a program of graduate*
68 *medical education consistent with the ACGME Institutional Requirements.*

69
70 *When the Sponsoring Institution is not a rotation site for the program, the*
71 *most commonly utilized site of clinical activity for the program is the*
72 *primary clinical site.*

73
Background and Intent: Participating sites will reflect the health care needs of the community and the educational needs of the fellows. A wide variety of organizations may provide a robust educational experience and, thus, Sponsoring Institutions and participating sites may encompass inpatient and outpatient settings including, but not limited to a university, a medical school, a teaching hospital, a nursing home, a school of public health, a health department, a public health agency, an organized health care delivery system, a medical examiner's office, an educational consortium, a teaching health center, a physician group practice, federally qualified health center, or an educational foundation.

74
75 **I.A.1. The program must be sponsored by one ACGME-accredited**
76 **Sponsoring Institution. ^{(Core)*}**

77
78 **I.B. Participating Sites**

79
80 *A participating site is an organization providing educational experiences or*
81 *educational assignments/rotations for fellows.*

- 83 I.B.1. The program, with approval of its Sponsoring Institution, must
84 designate a primary clinical site. ^(Core)
85
- 86 I.B.2. There must be a program letter of agreement (PLA) between the
87 program and each participating site that governs the relationship
88 between the program and the participating site providing a required
89 assignment. ^(Core)
90
- 91 I.B.2.a) The PLA must:
- 92
- 93 I.B.2.a).(1) be renewed at least every 10 years; and, ^(Core)
94
- 95 I.B.2.a).(2) be approved by the designated institutional official
96 (DIO). ^(Core)
97
- 98 I.B.3. The program must monitor the clinical learning and working
99 environment at all participating sites. ^(Core)
100
- 101 I.B.3.a) At each participating site there must be one faculty member,
102 designated by the program director, who is accountable for
103 fellow education for that site, in collaboration with the
104 program director. ^(Core)
105

Background and Intent: While all fellowship programs must be sponsored by a single ACGME-accredited Sponsoring Institution, many programs will utilize other clinical settings to provide required or elective training experiences. At times it is appropriate to utilize community sites that are not owned by or affiliated with the Sponsoring Institution. Some of these sites may be remote for geographic, transportation, or communication issues. When utilizing such sites, the program must designate a faculty member responsible for ensuring the quality of the educational experience. In some circumstances, the person charged with this responsibility may not be physically present at the site, but remains responsible for fellow education occurring at the site. The requirements under I.B.3. are intended to ensure that this will be the case.

Suggested elements to be considered in PLAs will be found in the ACGME Program Director's Guide to the Common Program Requirements. These include:

- Identifying the faculty members who will assume educational and supervisory responsibility for fellows
- Specifying the responsibilities for teaching, supervision, and formal evaluation of fellows
- Specifying the duration and content of the educational experience
- Stating the policies and procedures that will govern fellow education during the assignment

- 106
- 107 I.B.4. The program director must submit any additions or deletions of
108 participating sites routinely providing an educational experience,
109 required for all fellows, of one month full time equivalent (FTE) or
110 more through the ACGME's Accreditation Data System (ADS). ^(Core)
111

- 112 I.B.5. Participating sites should be geographically proximate to the primary
 113 clinical site in order to allow all fellows to attend joint conferences, basic
 114 science lectures, and morbidity and mortality reviews on a regular and
 115 documented basis at a central location. ^(Core)
 116
- 117 I.B.5.a) Geographically remote participating sites must provide audiovisual
 118 access to the conferences and lectures at the central location, or
 119 document provision of an equivalent educational program of
 120 lectures and conferences. ^(Core)
 121
- 122 **I.C. The program, in partnership with its Sponsoring Institution, must engage in**
 123 **practices that focus on mission-driven, ongoing, systematic recruitment**
 124 **and retention of a diverse and inclusive workforce of residents (if present),**
 125 **fellows, faculty members, senior administrative staff members, and other**
 126 **relevant members of its academic community.** ^(Core)
 127

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution's mission and aims. The program's annual evaluation must include an assessment of the program's efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).

- 128
- 129 **I.D. Resources**
- 130
- 131 **I.D.1. The program, in partnership with its Sponsoring Institution, must**
 132 **ensure the availability of adequate resources for fellow education.**
 133 ^(Core)
- 134
- 135 I.D.1.a) These resources must include:
- 136
- 137 I.D.1.a).(1) a common office space for fellows that includes a sufficient
 138 number of computers and adequate workspace at the
 139 primary clinical site; ^(Core)
- 140
- 141 I.D.1.a).(2) software resources for production of presentations,
 142 manuscripts, and portfolios; and, ^(Core)
- 143
- 144 I.D.1.a).(3) online radiographic and laboratory reporting systems at the
 145 primary clinical site and all participating sites. ^(Core)
 146
- 147 I.D.1.b) The facility used to provide fellows with experience in
 148 interpretation of non-invasive vascular laboratory testing must be
 149 accredited by a recognized organization that would allow
 150 fellowship graduates to fulfill the requirements of eligibility for
 151 specialty board certification. ^(Core)
 152
- 153 I.D.1.b).(1) The laboratory must be currently accredited in extracranial
 154 cerebrovascular, peripheral arterial and peripheral venous
 155 testing, and must provide substantial experience in
 156 abdominal and visceral vascular imaging. ^(Core)

- 157
158 **I.D.2.** The program, in partnership with its Sponsoring Institution, must
159 ensure healthy and safe learning and working environments that
160 promote fellow well-being and provide for: ^(Core)
161
162 **I.D.2.a)** access to food while on duty; ^(Core)
163
164 **I.D.2.b)** safe, quiet, clean, and private sleep/rest facilities available
165 and accessible for fellows with proximity appropriate for safe
166 patient care; ^(Core)
167

Background and Intent: Care of patients within a hospital or health system occurs continually through the day and night. Such care requires that fellows function at their peak abilities, which requires the work environment to provide them with the ability to meet their basic needs within proximity of their clinical responsibilities. Access to food and rest are examples of these basic needs, which must be met while fellows are working. Fellows should have access to refrigeration where food may be stored. Food should be available when fellows are required to be in the hospital overnight. Rest facilities are necessary, even when overnight call is not required, to accommodate the fatigued fellow.

- 168
169 **I.D.2.c)** clean and private facilities for lactation that have refrigeration
170 capabilities, with proximity appropriate for safe patient care;
171 ^(Core)
172

Background and Intent: Sites must provide private and clean locations where fellows may lactate and store the milk within a refrigerator. These locations should be in close proximity to clinical responsibilities. It would be helpful to have additional support within these locations that may assist the fellow with the continued care of patients, such as a computer and a phone. While space is important, the time required for lactation is also critical for the well-being of the fellow and the fellow's family, as outlined in VI.C.1.d).(1).

- 173
174 **I.D.2.d)** security and safety measures appropriate to the participating
175 site; and, ^(Core)
176
177 **I.D.2.e)** accommodations for fellows with disabilities consistent with
178 the Sponsoring Institution's policy. ^(Core)
179
180 **I.D.3.** Fellows must have ready access to subspecialty-specific and other
181 appropriate reference material in print or electronic format. This
182 must include access to electronic medical literature databases with
183 full text capabilities. ^(Core)
184

Specialty-Specific Background and Intent: The Review Committee interprets "ready access" to mean availability at all clinical sites utilized by the program.

- 185
186 **I.D.4.** The program's educational and clinical resources must be adequate
187 to support the number of fellows appointed to the program. ^(Core)
188

- 189 I.D.4.a) The program must be conducted in an institution(s) that can
 190 document a sufficient breadth of patient care that routinely cares
 191 for patients with a broad spectrum of vascular diseases and
 192 conditions. ^(Core)
 193
- 194 I.D.4.b) In addition, these institutions must include facilities and staff
 195 members for a variety of other services that provide a critical role
 196 in the care of patients with vascular conditions, including
 197 cardiovascular services, critical care services, general surgery
 198 services, nephrology services, neurology services, and radiology
 199 services. ^(Core)
 200
- 201 I.D.4.c) The institutional volume and variety of open and endovascular
 202 operative experience must be adequate to ensure a sufficient
 203 number and distribution of complex cases (as determined by the
 204 Review Committee) for each fellow in the program. ^(Core)
 205
- 206 **I.E. *A fellowship program usually occurs in the context of many learners and***
 207 ***other care providers and limited clinical resources. It should be structured***
 208 ***to optimize education for all learners present.***
 209
- 210 **I.E.1. Fellows should contribute to the education of residents in core**
 211 **programs, if present. ^(Core)**
 212

Background and Intent: The clinical learning environment has become increasingly complex and often includes care providers, students, and post-graduate residents and fellows from multiple disciplines. The presence of these practitioners and their learners enriches the learning environment. Programs have a responsibility to monitor the learning environment to ensure that fellows' education is not compromised by the presence of other providers and learners, and that fellows' education does not compromise core residents' education.

- 213
- 214 **II. Personnel**
- 215
- 216 **II.A. Program Director**
- 217
- 218 **II.A.1. There must be one faculty member appointed as program director**
 219 **with authority and accountability for the overall program, including**
 220 **compliance with all applicable program requirements. ^(Core)**
 221
- 222 **II.A.1.a) The Sponsoring Institution's Graduate Medical Education**
 223 **Committee (GMEC) must approve a change in program**
 224 **director. ^(Core)**
 225
- 226 **II.A.1.b) Final approval of the program director resides with the**
 227 **Review Committee. ^(Core)**
 228

Background and Intent: While the ACGME recognizes the value of input from numerous individuals in the management of a fellowship, a single individual must be designated as program director and have overall responsibility for the program. The program director's

nomination is reviewed and approved by the GMEC. Final approval of the program director resides with the applicable ACGME Review Committee.

229
230
231
232
233
234
235
236
237
238
239
240
241
242
243
244
245
246
247

- II.A.2. The program director and, as applicable, the program’s leadership team, must be provided with support adequate for administration of the program based upon its size and configuration. (Core)**
- II.A.2.a) At a minimum, the program director must be provided with the salary support required to devote 20 percent FTE of non-clinical time to the administration of the program. (Core)
- II.A.2.b) Program directors who oversee both an independent and an integrated vascular surgery program must be provided a minimum of 30 percent protected time for administration of the programs. (Core)
- II.A.2.c) Program directors who oversee both an independent and an integrated vascular surgery program which, combined, have 10 or more residents/fellows must appoint an associate program director. (Core)

Background and Intent: To achieve successful graduate medical education, individuals serving as education and administrative leaders of fellowship programs, as well as those significantly engaged in the education, supervision, evaluation, and mentoring of fellows, must have sufficient dedicated professional time to perform the vital activities required to sustain an accredited program.

The ultimate outcome of graduate medical education is excellence in fellow education and patient care.

The program director and, as applicable, the program leadership team, devote a portion of their professional effort to the oversight and management of the fellowship program, as defined in II.A.4.-II.A.4.a).(16). Both provision of support for the time required for the leadership effort and flexibility regarding how this support is provided are important. Programs, in partnership with their Sponsoring Institutions, may provide support for this time in a variety of ways. Examples of support may include, but are not limited to, salary support, supplemental compensation, educational value units, or relief of time from other professional duties.

Program directors and, as applicable, members of the program leadership team, who are new to the role may need to devote additional time to program oversight and management initially as they learn and become proficient in administering the program. It is suggested that during this initial period the support described above be increased as needed.

248

Specialty-Specific Background and Intent: Programs are advised that the Common Program Requirements specify that protected time is specifically for the administration of the program and not for clinical activities. The program is further advised that the Program Requirements for independent and integrated vascular surgery programs are two distinct sets of requirements. If a

single program director has responsibility for both program formats, the applicable protected time is outlined in II.A.2. of both sets of Program Requirements.

268
269
270
271
272
273
274
275
276
277

II.A.3. Qualifications of the program director:

II.A.3.a) must include subspecialty expertise and qualifications acceptable to the Review Committee; (Core)

II.A.3.b) must include current certification in the subspecialty for which they are the program director by the American Board of Surgery or by the American Osteopathic Board of Surgery, or subspecialty qualifications that are acceptable to the Review Committee; (Core)

II.A.3.c) must include current medical licensure and appropriate medical staff appointment; and, (Core)

II.A.3.d) must include ongoing clinical activity. (Core)

II.A.4. Program Director Responsibilities

The program director must have responsibility, authority, and accountability for: administration and operations; teaching and scholarly activity; fellow recruitment and selection, evaluation, and promotion of fellows, and disciplinary action; supervision of fellows; and fellow education in the context of patient care. (Core)

II.A.4.a) The program director must:

II.A.4.a).(1) be a role model of professionalism; (Core)

Background and Intent: The program director, as the leader of the program, must serve as a role model to fellows in addition to fulfilling the technical aspects of the role. As fellows are expected to demonstrate compassion, integrity, and respect for others, they must be able to look to the program director as an exemplar. It is of utmost importance, therefore, that the program director model outstanding professionalism, high quality patient care, educational excellence, and a scholarly approach to work. The program director creates an environment where respectful discussion is welcome, with the goal of continued improvement of the educational experience.

278
279
280
281
282
283

II.A.4.a).(2) design and conduct the program in a fashion consistent with the needs of the community, the mission(s) of the Sponsoring Institution, and the mission(s) of the program; (Core)

Background and Intent: The mission of institutions participating in graduate medical education is to improve the health of the public. Each community has health needs that vary based upon location and demographics. Programs must understand the social determinants of health of the populations they serve and incorporate them in the design

and implementation of the program curriculum, with the ultimate goal of addressing these needs and health disparities.

284
285
286
287
288

- II.A.4.a).(3) administer and maintain a learning environment conducive to educating the fellows in each of the ACGME Competency domains; ^(Core)

Background and Intent: The program director may establish a leadership team to assist in the accomplishment of program goals. Fellowship programs can be highly complex. In a complex organization the leader typically has the ability to delegate authority to others, yet remains accountable. The leadership team may include physician and non-physician personnel with varying levels of education, training, and experience.

289
290
291
292
293
294
295
296
297
298
299
300
301
302
303
304
305
306

- II.A.4.a).(4) develop and oversee a process to evaluate candidates prior to approval as program faculty members for participation in the fellowship program education and at least annually thereafter, as outlined in V.B.; ^(Core)

- II.A.4.a).(5) have the authority to approve program faculty members for participation in the fellowship program education at all sites; ^(Core)

- II.A.4.a).(6) have the authority to remove program faculty members from participation in the fellowship program education at all sites; ^(Core)

- II.A.4.a).(7) have the authority to remove fellows from supervising interactions and/or learning environments that do not meet the standards of the program; ^(Core)

Background and Intent: The program director has the responsibility to ensure that all who educate fellows effectively role model the Core Competencies. Working with a fellow is a privilege that is earned through effective teaching and professional role modeling. This privilege may be removed by the program director when the standards of the clinical learning environment are not met.

There may be faculty in a department who are not part of the educational program, and the program director controls who is teaching the residents.

307
308
309
310
311
312
313
314
315
316
317

- II.A.4.a).(8) submit accurate and complete information required and requested by the DIO, GMEC, and ACGME; ^(Core)

- II.A.4.a).(9) provide applicants who are offered an interview with information related to the applicant's eligibility for the relevant subspecialty board examination(s); ^(Core)

- II.A.4.a).(10) provide a learning and working environment in which fellows have the opportunity to raise concerns and provide feedback in a confidential manner as

- 318 appropriate, without fear of intimidation or retaliation;
 319 (Core)
 320
 321 **II.A.4.a).(11)** ensure the program’s compliance with the Sponsoring
 322 Institution’s policies and procedures related to
 323 grievances and due process; (Core)
 324
 325 **II.A.4.a).(12)** ensure the program’s compliance with the Sponsoring
 326 Institution’s policies and procedures for due process
 327 when action is taken to suspend or dismiss, not to
 328 promote, or not to renew the appointment of a fellow;
 329 (Core)
 330

Background and Intent: A program does not operate independently of its Sponsoring Institution. It is expected that the program director will be aware of the Sponsoring Institution’s policies and procedures, and will ensure they are followed by the program’s leadership, faculty members, support personnel, and fellows.

- 331
 332 **II.A.4.a).(13)** ensure the program’s compliance with the Sponsoring
 333 Institution’s policies and procedures on employment
 334 and non-discrimination; (Core)
 335
 336 **II.A.4.a).(13).(a)** Fellows must not be required to sign a non-
 337 competition guarantee or restrictive covenant.
 338 (Core)
 339
 340 **II.A.4.a).(14)** document verification of program completion for all
 341 graduating fellows within 30 days; (Core)
 342
 343 **II.A.4.a).(15)** provide verification of an individual fellow’s
 344 completion upon the fellow’s request, within 30 days;
 345 and, (Core)
 346

Background and Intent: Primary verification of graduate medical education is important to credentialing of physicians for further training and practice. Such verification must be accurate and timely. Sponsoring Institution and program policies for record retention are important to facilitate timely documentation of fellows who have previously completed the program. Fellows who leave the program prior to completion also require timely documentation of their summative evaluation.

- 347
 348 **II.A.4.a).(16)** obtain review and approval of the Sponsoring
 349 Institution’s DIO before submitting information or
 350 requests to the ACGME, as required in the Institutional
 351 Requirements and outlined in the ACGME Program
 352 Director’s Guide to the Common Program
 353 Requirements. (Core)
 354
 355 **II.B. Faculty**
 356
 357 *Faculty members are a foundational element of graduate medical education*
 358 *– faculty members teach fellows how to care for patients. Faculty members*

359 *provide an important bridge allowing fellows to grow and become practice*
360 *ready, ensuring that patients receive the highest quality of care. They are*
361 *role models for future generations of physicians by demonstrating*
362 *compassion, commitment to excellence in teaching and patient care,*
363 *professionalism, and a dedication to lifelong learning. Faculty members*
364 *experience the pride and joy of fostering the growth and development of*
365 *future colleagues. The care they provide is enhanced by the opportunity to*
366 *teach. By employing a scholarly approach to patient care, faculty members,*
367 *through the graduate medical education system, improve the health of the*
368 *individual and the population.*

369
370 *Faculty members ensure that patients receive the level of care expected*
371 *from a specialist in the field. They recognize and respond to the needs of*
372 *the patients, fellows, community, and institution. Faculty members provide*
373 *appropriate levels of supervision to promote patient safety. Faculty*
374 *members create an effective learning environment by acting in a*
375 *professional manner and attending to the well-being of the fellows and*
376 *themselves.*
377

Background and Intent: “Faculty” refers to the entire teaching force responsible for educating fellows. The term “faculty,” including “core faculty,” does not imply or require an academic appointment.

378
379 **II.B.1.** For each participating site, there must be a sufficient number of
380 **faculty members with competence to instruct and supervise all**
381 **fellows at that location.** ^(Core)
382

383 **II.B.1.a)** The members of the physician faculty must reflect sufficient
384 **diversity of interest and capability to represent the many facets of**
385 **vascular surgery.** ^(Detail)
386

387 **II.B.2.** **Faculty members must:**
388

389 **II.B.2.a)** **be role models of professionalism;** ^(Core)
390

391 **II.B.2.b)** **demonstrate commitment to the delivery of safe, quality,**
392 **cost-effective, patient-centered care;** ^(Core)
393

Background and Intent: Patients have the right to expect quality, cost-effective care with patient safety at its core. The foundation for meeting this expectation is formed during residency and fellowship. Faculty members model these goals and continually strive for improvement in care and cost, embracing a commitment to the patient and the community they serve.

394
395 **II.B.2.c)** **demonstrate a strong interest in the education of fellows;** ^(Core)
396

397 **II.B.2.d)** **devote sufficient time to the educational program to fulfill**
398 **their supervisory and teaching responsibilities;** ^(Core)
399

400 **II.B.2.e)** **administer and maintain an educational environment**
401 **conducive to educating fellows;** ^(Core)

- 402
403 **II.B.2.f)** regularly participate in organized clinical discussions,
404 rounds, journal clubs, and conferences; and, ^(Core)
405
406 **II.B.2.g)** pursue faculty development designed to enhance their skills
407 at least annually. ^(Core)
408

Background and Intent: Faculty development is intended to describe structured programming developed for the purpose of enhancing transference of knowledge, skill, and behavior from the educator to the learner. Faculty development may occur in a variety of configurations (lecture, workshop, etc.) using internal and/or external resources. Programming is typically needs-based (individual or group) and may be specific to the institution or the program. Faculty development programming is to be reported for the fellowship program faculty in the aggregate.

- 409
410 **II.B.3. Faculty Qualifications**
411
412 **II.B.3.a)** Faculty members must have appropriate qualifications in
413 their field and hold appropriate institutional appointments.
414 ^(Core)
415
416 **II.B.3.b)** Subspecialty physician faculty members must:
417
418 **II.B.3.b).(1)** have current certification in the subspecialty by the
419 **American Board of Surgery or the American**
420 **Osteopathic Board of Surgery, or possess**
421 **qualifications judged acceptable to the Review**
422 **Committee; and,** ^(Core)
423
424 **II.B.3.b).(2)** have current certification in their specialty (if other than
425 vascular surgery) by the appropriate American Board of
426 Medical Specialties (ABMS) member board or American
427 Osteopathic Association (AOA) certifying board, or
428 possess qualifications judged acceptable to the Review
429 Committee. ^(Core)
430
431 **II.B.3.c)** Any non-physician faculty members who participate in
432 fellowship program education must be approved by the
433 program director. ^(Core)
434

Background and Intent: The provision of optimal and safe patient care requires a team approach. The education of fellows by non-physician educators enables the fellows to better manage patient care and provides valuable advancement of the fellows' knowledge. Furthermore, other individuals contribute to the education of the fellow in the basic science of the subspecialty or in research methodology. If the program director determines that the contribution of a non-physician individual is significant to the education of the fellow, the program director may designate the individual as a program faculty member or a program core faculty member.

- 435
436 **II.B.3.d)** Any other specialty physician faculty members must have
437 current certification in their specialty by the appropriate

438 American Board of Medical Specialties (ABMS) member
439 board or American Osteopathic Association (AOA) certifying
440 board, or possess qualifications judged acceptable to the
441 Review Committee. ^(Core)
442

443 **II.B.4. Core Faculty**
444

445 Core faculty members must have a significant role in the education
446 and supervision of fellows and must devote a significant portion of
447 their entire effort to fellow education and/or administration, and
448 must, as a component of their activities, teach, evaluate, and provide
449 formative feedback to fellows. ^(Core)
450

Background and Intent: Core faculty members are critical to the success of fellow education. They support the program leadership in developing, implementing, and assessing curriculum, mentoring fellows, and assessing fellows' progress toward achievement of competence in and the independent practice of the specialty. Core faculty members should be selected for their broad knowledge of and involvement in the program, permitting them to effectively evaluate the program. Core faculty members may also be selected for their specific expertise and unique contribution to the program. Core faculty members are engaged in a broad range of activities, which may vary across programs and specialties. Core faculty members provide clinical teaching and supervision of fellows, and also participate in non-clinical activities related to fellow education and program administration. Examples of these non-clinical activities include, but are not limited to, interviewing and selecting fellow applicants, providing didactic instruction, mentoring fellows, simulation exercises, completing the annual ACGME Faculty Survey, and participating on the program's Clinical Competency Committee, Program Evaluation Committee, and other GME committees.

451
452 **II.B.4.a) Core faculty members must be designated by the program**
453 **director. ^(Core)**
454

455 **II.B.4.b) Core faculty members must complete the annual ACGME**
456 **Faculty Survey. ^(Core)**
457

458 **II.B.4.c) In addition to the program director, there must be at least one**
459 **board-certified vascular surgery core faculty member for each**
460 **approved fellowship position. ^(Core)**
461

Specialty-Specific Background and Intent: In addition to identifying the faculty members who fulfill requirement II.B.4.c), programs may list non-vascular surgery specialty and subspecialty faculty members as core faculty members in the program.

462
463 **II.C. Program Coordinator**
464

465 **II.C.1. There must be a program coordinator. ^(Core)**
466

467 **II.C.2. The program coordinator must be provided with dedicated time and**
468 **support adequate for administration of the program based upon its**
469 **size and configuration. ^(Core)**
470

- 471 II.C.2.a) At a minimum, the program coordinator must be supported at 50
472 percent FTE for administration of the program. ^(Core)
473
474 II.C.2.b) The program coordinator must be supported at 1.0 FTE for a
475 program with 10 or more fellows. ^(Core)
476
477 II.C.2.c) A program with 20 or more fellows must provide the program
478 coordinator with additional administrative support. ^(Core)
479

Specialty-Specific Background and Intent: Support for a single coordinator who has responsibility for both an integrated vascular surgery program and an independent vascular surgery program is addressed in II.C.2. of the Program Requirements for each of those program formats and is cumulative.

480

Background and Intent: The requirement does not address the source of funding required to provide the specified salary support.

Each program requires a lead administrative person, frequently referred to as a program coordinator, administrator, or as otherwise titled by the institution. This person will frequently manage the day-to-day operations of the program and serve as an important liaison and facilitator between the learners, faculty and other staff members, and the ACGME. Individuals serving in this role are recognized as program coordinators by the ACGME.

The program coordinator is a key member of the leadership team and is critical to the success of the program. As such, the program coordinator must possess skills in leadership and personnel management appropriate to the complexity of the program. Program coordinators are expected to develop in-depth knowledge of the ACGME and Program Requirements, including policies and procedures. Program coordinators assist the program director in meeting accreditation requirements, educational programming, and support of fellows.

Programs, in partnership with their Sponsoring Institutions, should encourage the professional development of their program coordinators and avail them of opportunities for both professional and personal growth. Programs with fewer fellows may not require a full-time coordinator; one coordinator may support more than one program.

481
482
483
484
485
486
487

II.D. Other Program Personnel

The program, in partnership with its Sponsoring Institution, must jointly ensure the availability of necessary personnel for the effective administration of the program. ^(Core)

Background and Intent: Multiple personnel may be required to effectively administer a program. These may include staff members with clerical skills, project managers, education experts, and staff members to maintain electronic communication for the program. These personnel may support more than one program in more than one discipline.

488
489

490 **III. Fellow Appointments**

491
492 **III.A. Eligibility Criteria**

493
494 **III.A.1. Eligibility Requirements – Fellowship Programs**

495
496 **All required clinical education for entry into ACGME-accredited**
497 **fellowship programs must be completed in an ACGME-accredited**
498 **residency program, an AOA-approved residency program, a**
499 **program with ACGME International (ACGME-I) Advanced Specialty**
500 **Accreditation, or a Royal College of Physicians and Surgeons of**
501 **Canada (RCPSC)-accredited or College of Family Physicians of**
502 **Canada (CFPC)-accredited residency program located in Canada.**
503 **(Core)**

Background and Intent: Eligibility for ABMS or AOA Board certification may not be satisfied by fellowship training. Applicants must be notified of this at the time of application, as required in II.A.4.a).(9).

505
506 **III.A.1.a) Fellowship programs must receive verification of each**
507 **entering fellow's level of competence in the required field,**
508 **upon matriculation, using ACGME, ACGME-I, or CanMEDS**
509 **Milestones evaluations from the core residency program. (Core)**

510
511 **III.A.1.b)** To be eligible for appointment, fellows must have successfully
512 completed a residency program in surgery that satisfies the
513 requirements in III.A.1. **(Core)**

514
515 **III.A.1.c)** To be eligible for appointment to an Early Specialization Program
516 (ESP), fellows must have successfully completed four years of an
517 ACGME-accredited residency program in surgery that satisfies the
518 requirements in III.A.1. and that has been approved by the Review
519 Committee for participation as an ESP and that is in the same
520 institution as the ESP vascular surgery program. **(Core)**

521
522 **III.B. The program director must not appoint more fellows than approved by the**
523 **Review Committee. (Core)**

524
525 **III.B.1. All complement increases must be approved by the Review**
526 **Committee. (Core)**

527
528 **III.C. Fellow Transfers**

529
530 **The program must obtain verification of previous educational experiences**
531 **and a summative competency-based performance evaluation prior to**
532 **acceptance of a transferring fellow, and Milestones evaluations upon**
533 **matriculation. (Core)**

534
535 **III.C.1.** Any fellow transfer must be approved in advance by the Review
536 **Committee. (Core)**

537

538 **IV. Educational Program**

539
540 *The ACGME accreditation system is designed to encourage excellence and*
541 *innovation in graduate medical education regardless of the organizational*
542 *affiliation, size, or location of the program.*

543
544 *The educational program must support the development of knowledgeable, skillful*
545 *physicians who provide compassionate care.*

546
547 *In addition, the program is expected to define its specific program aims consistent*
548 *with the overall mission of its Sponsoring Institution, the needs of the community*
549 *it serves and that its graduates will serve, and the distinctive capabilities of*
550 *physicians it intends to graduate. While programs must demonstrate substantial*
551 *compliance with the Common and subspecialty-specific Program Requirements, it*
552 *is recognized that within this framework, programs may place different emphasis*
553 *on research, leadership, public health, etc. It is expected that the program aims*
554 *will reflect the nuanced program-specific goals for it and its graduates; for*
555 *example, it is expected that a program aiming to prepare physician-scientists will*
556 *have a different curriculum from one focusing on community health.*

557
558 **IV.A. The curriculum must contain the following educational components:** (Core)

559
560 **IV.A.1. a set of program aims consistent with the Sponsoring Institution's**
561 **mission, the needs of the community it serves, and the desired**
562 **distinctive capabilities of its graduates;** (Core)

563
564 **IV.A.1.a) The program's aims must be made available to program**
565 **applicants, fellows, and faculty members.** (Core)

566
567 **IV.A.2. competency-based goals and objectives for each educational**
568 **experience designed to promote progress on a trajectory to**
569 **autonomous practice in their subspecialty. These must be**
570 **distributed, reviewed, and available to fellows and faculty members;**
571 **(Core)**

572
573 **IV.A.3. delineation of fellow responsibilities for patient care, progressive**
574 **responsibility for patient management, and graded supervision in**
575 **their subspecialty;** (Core)

576
Background and Intent: These responsibilities may generally be described by PGY level and specifically by Milestones progress as determined by the Clinical Competency Committee. This approach encourages the transition to competency-based education. An advanced learner may be granted more responsibility independent of PGY level and a learner needing more time to accomplish a certain task may do so in a focused rather than global manner.

577
578 **IV.A.4. structured educational activities beyond direct patient care; and,**
579 **(Core)**

580
Background and Intent: Patient care-related educational activities, such as morbidity and mortality conferences, tumor boards, surgical planning conferences, case

discussions, etc., allow fellows to gain medical knowledge directly applicable to the patients they serve. Programs should define those educational activities in which fellows are expected to participate and for which time is protected. Further specification can be found in IV.C.

581
582
583
584
585
586

IV.A.5. advancement of fellows' knowledge of ethical principles foundational to medical professionalism. *(Core)*

IV.B. ACGME Competencies

Background and Intent: The Competencies provide a conceptual framework describing the required domains for a trusted physician to enter autonomous practice. These Competencies are core to the practice of all physicians, although the specifics are further defined by each subspecialty. The developmental trajectories in each of the Competencies are articulated through the Milestones for each subspecialty. The focus in fellowship is on subspecialty-specific patient care and medical knowledge, as well as refining the other competencies acquired in residency.

587
588
589
590
591
592
593
594
595
596
597

IV.B.1. The program must integrate the following ACGME Competencies into the curriculum: *(Core)*

IV.B.1.a) Professionalism

Fellows must demonstrate a commitment to professionalism and an adherence to ethical principles. *(Core)*

IV.B.1.b) Patient Care and Procedural Skills

Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]'s *Crossing the Quality Chasm: A New Health System for the 21st Century*, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality. Health Affairs.* 2008; 27(3):759-769.). In addition, there should be a focus on improving the clinician's well-being as a means to improve patient care and reduce burnout among residents, fellows, and practicing physicians.

These organizing principles inform the Common Program Requirements across all Competency domains. Specific content is determined by the Review Committees with input from the appropriate professional societies, certifying boards, and the community.

598
599
600
601
602
603
604
605
606
607
608

IV.B.1.b).(1) Fellows must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health. *(Core)*

IV.B.1.b).(1).(a) Fellows must demonstrate manual dexterity appropriate for their educational levels. *(Core)*

IV.B.1.b).(1).(b) Fellows must develop and execute patient care plans appropriate for their educational levels. *(Core)*

609		
610	IV.B.1.b).(2)	Fellows must be able to perform all medical, diagnostic, and surgical procedures considered essential for the area of practice. (Core)
611		
612		
613		
614	IV.B.1.b).(2).(a)	Fellows must develop competence in performing operative procedures in the following list of defined categories:
615		
616		
617		
618	IV.B.1.b).(2).(a).(i)	<u>open abdominal</u> ; (Core)
619		
620	IV.B.1.b).(2).(a).(i).(a)	<u>aortic</u> ; (Core)
621		
622	IV.B.1.b).(2).(a).(ii)	<u>open cerebrovascular</u> ; (Core)
623		
624	IV.B.1.b).(2).(a).(iii)	<u>open peripheral</u> ; (Core)
625		
626	IV.B.1.b).(2).(a).(iv)	complex ; (Core)
627		
628	IV.B.1.b).(2).(a).(v)	endovascular diagnostic ; (Core)
629		
630	IV.B.1.b).(2).(a).(vi)	endovascular therapeutic; and ; (Core)
631		
632	IV.B.1.b).(2).(a).(vii)	endovascular aneurysm repair ; (Core)
633		
634	IV.B.1.b).(2).(a).(viii)	<u>endovascular, including</u> ; (Core)
635		
636	IV.B.1.b).(2).(a).(viii).(a)	<u>aortoiliac</u> ; (Core)
637		
638	IV.B.1.b).(2).(a).(viii).(b)	<u>peripheral; and</u> ; (Core)
639		
640	IV.B.1.b).(2).(a).(viii).(c)	<u>thoracic</u> ; (Core)
641		
642	IV.B.1.b).(2).(a).(ix)	<u>venous</u> ; (Core)
643		
644	IV.B.1.b).(2).(a).(x)	<u>open dialysis access; and</u> ; (Core)
645		
646	IV.B.1.b).(2).(a).(xi)	<u>other major</u> ; (Core)
647		
648	IV.B.1.b).(2).(a).(xi).(a)	<u>amputation</u> ; (Core)
649		
650	IV.B.1.b).(2).(b)	Fellows must develop competence in patient management, including determining an appropriate diagnosis and operative plan, providing pre-operative care, and directing post-operative care. (Core)
651		
652		
653		
654		
655		
656	IV.B.1.b).(2).(c)	Fellows must develop competence in assessing the vascular portion of angiography, computed tomography (CT) scanning, and magnetic
657		
658		

659 resonance imaging (MRI) and magnetic resonance
660 angiogram (MRA) images. ^(Core)

661
662 IV.B.1.b).(2).(d) Fellows must demonstrate the ability to accurately
663 interpret non-invasive vascular laboratory studies.
664 ^(Core)

665
666 IV.B.1.b).(2).(d).(i) This experience must include the range and
667 number of non-invasive studies that would
668 allow graduates to fulfill the requirements of
669 eligibility for specialty board certification.
670 ^(Core)

671
672 **IV.B.1.c) Medical Knowledge**

673
674 **Fellows must demonstrate knowledge of established and**
675 **evolving biomedical, clinical, epidemiological and social-**
676 **behavioral sciences, as well as the application of this**
677 **knowledge to patient care. ^(Core)**

678
679 IV.B.1.c).(1) Fellows must demonstrate knowledge of anatomy, biology,
680 embryology, microbiology, physiology, and pathology as
681 they relate to the pathophysiology, diagnosis, and
682 treatment of vascular lesions. ^(Core)

683
684 IV.B.1.c).(2) Fellows must demonstrate knowledge of the methods and
685 techniques of angiography, CT scanning, MRI, MRA, and
686 other vascular imaging modalities. ^(Core)

687
688 IV.B.1.c).(3) Fellows must demonstrate knowledge of the roles of
689 different specialists and other health care professionals in
690 overall patient management. ^(Core)

691
692 **IV.B.1.d) Practice-based Learning and Improvement**

693
694 **Fellows must demonstrate the ability to investigate and**
695 **evaluate their care of patients, to appraise and assimilate**
696 **scientific evidence, and to continuously improve patient care**
697 **based on constant self-evaluation and lifelong learning. ^(Core)**

Background and Intent: Practice-based learning and improvement is one of the defining characteristics of being a physician. It is the ability to investigate and evaluate the care of patients, to appraise and assimilate scientific evidence, and to continuously improve patient care based on constant self-evaluation and lifelong learning.

The intention of this Competency is to help a fellow refine the habits of mind required to continuously pursue quality improvement, well past the completion of fellowship.

699
700 **IV.B.1.e) Interpersonal and Communication Skills**
701

702 **Fellows must demonstrate interpersonal and communication**
703 **skills that result in the effective exchange of information and**
704 **collaboration with patients, their families, and health**
705 **professionals. (Core)**

706
707 **IV.B.1.f) Systems-based Practice**

708
709 **Fellows must demonstrate an awareness of and**
710 **responsiveness to the larger context and system of health**
711 **care, including the social determinants of health, as well as**
712 **the ability to call effectively on other resources to provide**
713 **optimal health care. (Core)**

714
715 **IV.C. Curriculum Organization and Fellow Experiences**

716
717 **IV.C.1. The curriculum must be structured to optimize fellow educational**
718 **experiences, the length of these experiences, and supervisory**
719 **continuity. (Core)**

720
721 **IV.C.1.a) Fellows' clinical rotations must be a minimum of four weeks in**
722 **duration. (Core)**

723
724 **IV.C.2. The program must provide instruction and experience in pain**
725 **management if applicable for the subspecialty, including recognition**
726 **of the signs of addiction. (Core)**

727
728 **IV.C.3. The following conferences must exist:**

729
730 **IV.C.3.a) a review, held at least biweekly, of all current complications and**
731 **deaths, including radiological and pathological correlation of**
732 **surgical specimens and autopsies when relevant; (Detail)**

733
734 **IV.C.3.b) a course or a structured series of conferences to ensure coverage**
735 **of the basic and clinical sciences fundamental to vascular surgery,**
736 **as well as the technological advances that relate to vascular**
737 **surgery and the care of patients with vascular diseases; (Detail)**

738
739 **IV.C.3.c) regular organized clinical teaching; and, (Detail)**

740
741 **IV.C.3.d) a regular review of recent literature in a journal club format. (Detail)**

742
743 **IV.C.4. Fellows must actively participate in the planning and presentation of**
744 **required conferences. (Core)**

745
746 **IV.C.4.a) Each fellow must attend at least 75 percent of all required**
747 **conferences. (Detail)**

748
749 **IV.C.4.b) At least 50 percent of the core faculty, in aggregate, must attend**
750 **program conferences. (Detail)**

751

752	IV.C.5.	Fellows must perform a minimum of 250 major vascular reconstructive procedures. <small>(Core)</small>
753		
754		
755	IV.C.5.a)	Operative experience in excess of 900 total cases must be justified by the program director. <small>(Core)</small>
756		
757		
758	IV.C.6.	The curriculum for each fellow must include a final year with chief responsibility on the vascular surgery service at the primary clinical site or at a participating site. <small>(Core)</small>
759		
760		
761		
762	IV.C.6.a)	A vascular surgery fellow and a chief resident in an integrated vascular surgery program may function together on the same service but must not have primary responsibility for the same patients. <small>(Core)</small>
763		
764		
765		
766		
767	IV.C.6.b)	A vascular surgery fellow and a chief resident in a general surgery residency program may function together on the same service but must not have primary responsibility for the same patients. <small>(Core)</small>
768		
769		
770		
771	IV.C.7.	Fellow experiences must include:
772		
773	IV.C.7.a)	primary responsibility for continuity of patient care, including ambulatory care, inpatient care, referral and consultation, and utilization of community resources; <small>(Core)</small>
774		
775		
776		
777	IV.C.7.b)	progressive senior surgical responsibilities in the total care of vascular surgery patients, including pre-operative evaluation, therapeutic decision-making, operative experience, and post-operative management; <small>(Core)</small>
778		
779		
780		
781		
782	IV.C.7.c)	participation in providing consultation with faculty member supervision. <small>(Core)</small>
783		
784		
785	IV.C.7.c).(1)	Fellows should have clearly defined educational responsibilities for other fellows, residents, medical students, and professional personnel. <small>(Detail)</small>

824 ***programs prepare physicians for a variety of roles, including clinicians,***
825 ***scientists, and educators. It is expected that the program's scholarship will***
826 ***reflect its mission(s) and aims, and the needs of the community it serves.***
827 ***For example, some programs may concentrate their scholarly activity on***
828 ***quality improvement, population health, and/or teaching, while other***
829 ***programs might choose to utilize more classic forms of biomedical***
830 ***research as the focus for scholarship.***
831

832 IV.D.1. Program Responsibilities

- 833
834 IV.D.1.a) The program must demonstrate evidence of scholarly
835 activities, consistent with its mission(s) and aims. (Core)
836
837 IV.D.1.b) The program in partnership with its Sponsoring Institution,
838 must allocate adequate resources to facilitate fellow and
839 faculty involvement in scholarly activities. (Core)
840

841 IV.D.2. Faculty Scholarly Activity

- 842
843 IV.D.2.a) Among their scholarly activity, programs must demonstrate
844 accomplishments in at least three of the following domains:
845 (Core)
846

- 847 • Research in basic science, education, translational
848 science, patient care, or population health
- 849 • Peer-reviewed grants
- 850 • Quality improvement and/or patient safety initiatives
- 851 • Systematic reviews, meta-analyses, review articles,
852 chapters in medical textbooks, or case reports

- 853 • Creation of curricula, evaluation tools, didactic
- 854 educational activities, or electronic educational
- 855 materials
- 856 • Contribution to professional committees, educational
- 857 organizations, or editorial boards
- 858 • Innovations in education

859
 860 **IV.D.2.b) The program must demonstrate dissemination of scholarly**
 861 **activity within and external to the program by the following**
 862 **methods:**
 863

Background and Intent: For the purposes of education, metrics of scholarly activity represent one of the surrogates for the program’s effectiveness in the creation of an environment of inquiry that advances the fellows’ scholarly approach to patient care. The Review Committee will evaluate the dissemination of scholarship for the program as a whole, not for individual faculty members, for a five-year interval, for both core and non-core faculty members, with the goal of assessing the effectiveness of the creation of such an environment. The ACGME recognizes that there may be differences in scholarship requirements between different specialties and between residencies and fellowships in the same specialty.

864
 865 **IV.D.2.b).(1) faculty participation in grand rounds, posters,**
 866 **workshops, quality improvement presentations,**
 867 **podium presentations, grant leadership, non-peer-**
 868 **reviewed print/electronic resources, articles or**
 869 **publications, book chapters, textbooks, webinars,**
 870 **service on professional committees, or serving as a**
 871 **journal reviewer, journal editorial board member, or**
 872 **editor; and, (Outcome)‡**
 873

874 **IV.D.2.b).(2) peer-reviewed publication. (Outcome)**
 875

876 **IV.D.3. Fellow Scholarly Activity**
 877

878 **IV.D.3.a) Fellows must have instruction in critical thinking, design of**
 879 **experiments, and evaluation of data. (Detail)**
 880

881 **IV.D.3.b) Fellows should participate in clinical and/or laboratory research.**
 882 **(Detail)**
 883

884 **V. Evaluation**
 885

886 **V.A. Fellow Evaluation**
 887

888 **V.A.1. Feedback and Evaluation**
 889

Background and Intent: Feedback is ongoing information provided regarding aspects of one’s performance, knowledge, or understanding. The faculty empower fellows to provide much of that feedback themselves in a spirit of continuous learning and self-

reflection. Feedback from faculty members in the context of routine clinical care should be frequent, and need not always be formally documented.

Formative and summative evaluation have distinct definitions. Formative evaluation is *monitoring fellow learning* and providing ongoing feedback that can be used by fellows to improve their learning in the context of provision of patient care or other educational opportunities. More specifically, formative evaluations help:

- fellows identify their strengths and weaknesses and target areas that need work
- program directors and faculty members recognize where fellows are struggling and address problems immediately

Summative evaluation is *evaluating a fellow's learning* by comparing the fellows against the goals and objectives of the rotation and program, respectively. Summative evaluation is utilized to make decisions about promotion to the next level of training, or program completion.

End-of-rotation and end-of-year evaluations have both summative and formative components. Information from a summative evaluation can be used formatively when fellows or faculty members use it to guide their efforts and activities in subsequent rotations and to successfully complete the fellowship program.

Feedback, formative evaluation, and summative evaluation compare intentions with accomplishments, enabling the transformation of a new specialist to one with growing subspecialty expertise.

890		
891	V.A.1.a)	Faculty members must directly observe, evaluate, and frequently provide feedback on fellow performance during each rotation or similar educational assignment. ^(Core)
892		
893		
894		
895	V.A.1.a).(1)	The semi-annual assessment must include a review of each fellow's operative experience to ensure breadth and balance of experience in the surgical care of vascular diseases. ^(Core)
896		
897		
898		
899		
900	V.A.1.a).(2)	The program director must ensure that the operative experience of individual fellows in the same program is comparable. ^(Detail)
901		
902		
903		

Background and Intent: Faculty members should provide feedback frequently throughout the course of each rotation. Fellows require feedback from faculty members to reinforce well-performed duties and tasks, as well as to correct deficiencies. This feedback will allow for the development of the learner as they strive to achieve the Milestones. More frequent feedback is strongly encouraged for fellows who have deficiencies that may result in a poor final rotation evaluation.

904		
905	V.A.1.b)	Evaluation must be documented at the completion of the assignment. ^(Core)
906		
907		

- 908 **V.A.1.b).(1)** For block rotations of greater than three months in
 909 duration, evaluation must be documented at least
 910 every three months. ^(Core)
 911
- 912 **V.A.1.b).(2)** Longitudinal experiences such as continuity clinic in
 913 the context of other clinical responsibilities must be
 914 evaluated at least every three months and at
 915 completion. ^(Core)
 916
- 917 **V.A.1.c)** The program must provide an objective performance
 918 evaluation based on the Competencies and the subspecialty-
 919 specific Milestones, and must: ^(Core)
 920
- 921 **V.A.1.c).(1)** use multiple evaluators (e.g., faculty members, peers,
 922 patients, self, and other professional staff members);
 923 and, ^(Core)
 924
- 925 **V.A.1.c).(2)** provide that information to the Clinical Competency
 926 Committee for its synthesis of progressive fellow
 927 performance and improvement toward unsupervised
 928 practice. ^(Core)
 929

Background and Intent: The trajectory to autonomous practice in a subspecialty is documented by the subspecialty-specific Milestones evaluation during fellowship. These Milestones detail the progress of a fellow in attaining skill in each competency domain. It is expected that the most growth in fellowship education occurs in patient care and medical knowledge, while the other four domains of competency must be ensured in the context of the subspecialty. They are developed by a subspecialty group and allow evaluation based on observable behaviors. The Milestones are considered formative and should be used to identify learning needs. This may lead to focused or general curricular revision in any given program or to individualized learning plans for any specific fellow.

- 930
- 931 **V.A.1.d)** The program director or designee, with input from the Clinical
 932 Competency Committee, must:
 933
- 934 **V.A.1.d).(1)** meet with and review with each fellow their
 935 documented semi-annual evaluation of performance,
 936 including progress along the subspecialty-specific
 937 Milestones; ^(Core)
 938
- 939 **V.A.1.d).(2)** assist fellows in developing individualized learning
 940 plans to capitalize on their strengths and identify areas
 941 for growth; and, ^(Core)
 942
- 943 **V.A.1.d).(3)** develop plans for fellows failing to progress, following
 944 institutional policies and procedures. ^(Core)
 945

Background and Intent: Learning is an active process that requires effort from the teacher and the learner. Faculty members evaluate a fellow's performance at least at the end of each rotation. The program director or their designee will review those

evaluations, including their progress on the Milestones, at a minimum of every six months. Fellows should be encouraged to reflect upon the evaluation, using the information to reinforce well-performed tasks or knowledge or to modify deficiencies in knowledge or practice. Working together with the faculty members, fellows should develop an individualized learning plan.

Fellows who are experiencing difficulties with achieving progress along the Milestones may require intervention to address specific deficiencies. Such intervention, documented in an individual remediation plan developed by the program director or a faculty mentor and the fellow, will take a variety of forms based on the specific learning needs of the fellow. However, the ACGME recognizes that there are situations which require more significant intervention that may alter the time course of fellow progression. To ensure due process, it is essential that the program director follow institutional policies and procedures.

- 946
947 **V.A.1.e)** At least annually, there must be a summative evaluation of
948 each fellow that includes their readiness to progress to the
949 next year of the program, if applicable. ^(Core)
950
951 **V.A.1.f)** The evaluations of a fellow’s performance must be accessible
952 for review by the fellow. ^(Core)
953
954 **V.A.2.** Final Evaluation
955
956 **V.A.2.a)** The program director must provide a final evaluation for each
957 fellow upon completion of the program. ^(Core)
958
959 **V.A.2.a).(1)** The subspecialty-specific Milestones, and when
960 applicable the subspecialty-specific Case Logs, must
961 be used as tools to ensure fellows are able to engage
962 in autonomous practice upon completion of the
963 program. ^(Core)
964
965 **V.A.2.a).(2)** The final evaluation must:
966
967 **V.A.2.a).(2).(a)** become part of the fellow’s permanent record
968 maintained by the institution, and must be
969 accessible for review by the fellow in
970 accordance with institutional policy; ^(Core)
971
972 **V.A.2.a).(2).(b)** verify that the fellow has demonstrated the
973 knowledge, skills, and behaviors necessary to
974 enter autonomous practice; ^(Core)
975
976 **V.A.2.a).(2).(c)** consider recommendations from the Clinical
977 Competency Committee; and, ^(Core)
978
979 **V.A.2.a).(2).(d)** be shared with the fellow upon completion of
980 the program. ^(Core)
981

- 982 **V.A.3. A Clinical Competency Committee must be appointed by the**
 983 **program director. (Core)**
 984
- 985 **V.A.3.a) At a minimum the Clinical Competency Committee must**
 986 **include three members, at least one of whom is a core faculty**
 987 **member. Members must be faculty members from the same**
 988 **program or other programs, or other health professionals**
 989 **who have extensive contact and experience with the**
 990 **program’s fellows. (Core)**
 991
- 992 **V.A.3.b) The Clinical Competency Committee must:**
 993
- 994 **V.A.3.b).(1) review all fellow evaluations at least semi-annually;**
 995 **(Core)**
 996
- 997 **V.A.3.b).(2) determine each fellow’s progress on achievement of**
 998 **the subspecialty-specific Milestones; and, (Core)**
 999
- 1000 **V.A.3.b).(3) meet prior to the fellows’ semi-annual evaluations and**
 1001 **advise the program director regarding each fellow’s**
 1002 **progress. (Core)**
 1003
- 1004 **V.B. Faculty Evaluation**
 1005
- 1006 **V.B.1. The program must have a process to evaluate each faculty**
 1007 **member’s performance as it relates to the educational program at**
 1008 **least annually. (Core)**
 1009

Background and Intent: The program director is responsible for the education program and for whom delivers it. While the term faculty may be applied to physicians within a given institution for other reasons, it is applied to fellowship program faculty members only through approval by a program director. The development of the faculty improves the education, clinical, and research aspects of a program. Faculty members have a strong commitment to the fellow and desire to provide optimal education and work opportunities. Faculty members must be provided feedback on their contribution to the mission of the program. All faculty members who interact with fellows desire feedback on their education, clinical care, and research. If a faculty member does not interact with fellows, feedback is not required. With regard to the diverse operating environments and configurations, the fellowship program director may need to work with others to determine the effectiveness of the program’s faculty performance with regard to their role in the educational program. All teaching faculty members should have their educational efforts evaluated by the fellows in a confidential and anonymous manner. Other aspects for the feedback may include research or clinical productivity, review of patient outcomes, or peer review of scholarly activity. The process should reflect the local environment and identify the necessary information. The feedback from the various sources should be summarized and provided to the faculty on an annual basis by a member of the leadership team of the program.

- 1010
- 1011 **V.B.1.a) This evaluation must include a review of the faculty member’s**
 1012 **clinical teaching abilities, engagement with the educational**
 1013 **program, participation in faculty development related to their**

- 1014 skills as an educator, clinical performance, professionalism,
 1015 and scholarly activities. ^(Core)
 1016
 1017 **V.B.1.b)** This evaluation must include written, confidential evaluations
 1018 by the fellows. ^(Core)
 1019
 1020 **V.B.2.** Faculty members must receive feedback on their evaluations at least
 1021 annually. ^(Core)
 1022
 1023 **V.B.3.** Results of the faculty educational evaluations should be
 1024 incorporated into program-wide faculty development plans. ^(Core)
 1025

Background and Intent: The quality of the faculty’s teaching and clinical care is a determinant of the quality of the program and the quality of the fellows’ future clinical care. Therefore, the program has the responsibility to evaluate and improve the program faculty members’ teaching, scholarship, professionalism, and quality care. This section mandates annual review of the program’s faculty members for this purpose, and can be used as input into the Annual Program Evaluation.

- 1026
 1027 **V.C. Program Evaluation and Improvement**
 1028
 1029 **V.C.1.** The program director must appoint the Program Evaluation
 1030 Committee to conduct and document the Annual Program
 1031 Evaluation as part of the program’s continuous improvement
 1032 process. ^(Core)
 1033
 1034 **V.C.1.a)** The Program Evaluation Committee must be composed of at
 1035 least two program faculty members, at least one of whom is a
 1036 core faculty member, and at least one fellow. ^(Core)
 1037
 1038 **V.C.1.b)** Program Evaluation Committee responsibilities must include:
 1039
 1040 **V.C.1.b).(1)** acting as an advisor to the program director, through
 1041 program oversight; ^(Core)
 1042
 1043 **V.C.1.b).(2)** review of the program’s self-determined goals and
 1044 progress toward meeting them; ^(Core)
 1045
 1046 **V.C.1.b).(3)** guiding ongoing program improvement, including
 1047 development of new goals, based upon outcomes;
 1048 and, ^(Core)
 1049
 1050 **V.C.1.b).(4)** review of the current operating environment to identify
 1051 strengths, challenges, opportunities, and threats as
 1052 related to the program’s mission and aims. ^(Core)
 1053

Background and Intent: In order to achieve its mission and train quality physicians, a program must evaluate its performance and plan for improvement in the Annual Program Evaluation. Performance of fellows and faculty members is a reflection of program quality, and can use metrics that reflect the goals that a program has set for

itself. The Program Evaluation Committee utilizes outcome parameters and other data to assess the program's progress toward achievement of its goals and aims.

- 1054
1055 **V.C.1.c)** **The Program Evaluation Committee should consider the**
1056 **following elements in its assessment of the program:**
1057
1058 **V.C.1.c).(1)** **curriculum;** ^(Core)
1059
1060 **V.C.1.c).(2)** **outcomes from prior Annual Program Evaluation(s);**
1061 ^(Core)
1062
1063 **V.C.1.c).(3)** **ACGME letters of notification, including citations,**
1064 **Areas for Improvement, and comments;** ^(Core)
1065
1066 **V.C.1.c).(4)** **quality and safety of patient care;** ^(Core)
1067
1068 **V.C.1.c).(5)** **aggregate fellow and faculty:**
1069
1070 **V.C.1.c).(5).(a)** **well-being;** ^(Core)
1071
1072 **V.C.1.c).(5).(b)** **recruitment and retention;** ^(Core)
1073
1074 **V.C.1.c).(5).(c)** **workforce diversity;** ^(Core)
1075
1076 **V.C.1.c).(5).(d)** **engagement in quality improvement and patient**
1077 **safety;** ^(Core)
1078
1079 **V.C.1.c).(5).(e)** **scholarly activity;** ^(Core)
1080
1081 **V.C.1.c).(5).(f)** **ACGME Resident/Fellow and Faculty Surveys**
1082 **(where applicable); and,** ^(Core)
1083
1084 **V.C.1.c).(5).(g)** **written evaluations of the program.** ^(Core)
1085
1086 **V.C.1.c).(6)** **aggregate fellow:**
1087
1088 **V.C.1.c).(6).(a)** **achievement of the Milestones;** ^(Core)
1089
1090 **V.C.1.c).(6).(b)** **in-training examinations (where applicable);**
1091 ^(Core)
1092
1093 **V.C.1.c).(6).(c)** **board pass and certification rates; and,** ^(Core)
1094
1095 **V.C.1.c).(6).(d)** **graduate performance.** ^(Core)
1096
1097 **V.C.1.c).(7)** **aggregate faculty:**
1098
1099 **V.C.1.c).(7).(a)** **evaluation; and,** ^(Core)
1100
1101 **V.C.1.c).(7).(b)** **professional development** ^(Core)
1102

- 1103 V.C.1.d) The Program Evaluation Committee must evaluate the
 1104 program’s mission and aims, strengths, areas for
 1105 improvement, and threats. ^(Core)
 1106
 1107 V.C.1.e) The annual review, including the action plan, must:
 1108
 1109 V.C.1.e).(1) be distributed to and discussed with the members of
 1110 the teaching faculty and the fellows; and, ^(Core)
 1111
 1112 V.C.1.e).(2) be submitted to the DIO. ^(Core)
 1113
 1114 V.C.2. The program must participate in a Self-Study prior to its 10-Year
 1115 Accreditation Site Visit. ^(Core)
 1116
 1117 V.C.2.a) A summary of the Self-Study must be submitted to the DIO.
 1118 ^(Core)
 1119

Background and Intent: Outcomes of the documented Annual Program Evaluation can be integrated into the 10-year Self-Study process. The Self-Study is an objective, comprehensive evaluation of the fellowship program, with the aim of improving it. Underlying the Self-Study is this longitudinal evaluation of the program and its learning environment, facilitated through sequential Annual Program Evaluations that focus on the required components, with an emphasis on program strengths and self-identified areas for improvement. Details regarding the timing and expectations for the Self-Study and the 10-Year Accreditation Site Visit are provided in the *ACGME Manual of Policies and Procedures*. Additionally, a description of the [Self-Study process](#), as well as information on how to prepare for the [10-Year Accreditation Site Visit](#), is available on the ACGME website.

- 1120
 1121 V.C.3. *One goal of ACGME-accredited education is to educate physicians*
 1122 *who seek and achieve board certification. One measure of the*
 1123 *effectiveness of the educational program is the ultimate pass rate.*
 1124
 1125 *The program director should encourage all eligible program*
 1126 *graduates to take the certifying examination offered by the*
 1127 *applicable American Board of Medical Specialties (ABMS) member*
 1128 *board or American Osteopathic Association (AOA) certifying board.*
 1129
 1130 V.C.3.a) For subspecialties in which the ABMS member board and/or
 1131 AOA certifying board offer(s) an annual written exam, in the
 1132 preceding three years, the program’s aggregate pass rate of
 1133 those taking the examination for the first time must be higher
 1134 than the bottom fifth percentile of programs in that
 1135 subspecialty. ^(Outcome)
 1136
 1137 V.C.3.b) For subspecialties in which the ABMS member board and/or
 1138 AOA certifying board offer(s) a biennial written exam, in the
 1139 preceding six years, the program’s aggregate pass rate of
 1140 those taking the examination for the first time must be higher
 1141 than the bottom fifth percentile of programs in that
 1142 subspecialty. ^(Outcome)

- 1143
 1144 **V.C.3.c)** For subspecialties in which the ABMS member board and/or
 1145 AOA certifying board offer(s) an annual oral exam, in the
 1146 preceding three years, the program’s aggregate pass rate of
 1147 those taking the examination for the first time must be higher
 1148 than the bottom fifth percentile of programs in that
 1149 subspecialty. ^(Outcome)
 1150
 1151 **V.C.3.d)** For subspecialties in which the ABMS member board and/or
 1152 AOA certifying board offer(s) a biennial oral exam, in the
 1153 preceding six years, the program’s aggregate pass rate of
 1154 those taking the examination for the first time must be higher
 1155 than the bottom fifth percentile of programs in that
 1156 subspecialty. ^(Outcome)
 1157
 1158 **V.C.3.e)** For each of the exams referenced in V.C.3.a)-d), any program
 1159 whose graduates over the time period specified in the
 1160 requirement have achieved an 80 percent pass rate will have
 1161 met this requirement, no matter the percentile rank of the
 1162 program for pass rate in that subspecialty. ^(Outcome)
 1163

Background and Intent: Setting a single standard for pass rate that works across subspecialties is not supportable based on the heterogeneity of the psychometrics of different examinations. By using a percentile rank, the performance of the lower five percent (fifth percentile) of programs can be identified and set on a path to curricular and test preparation reform.

There are subspecialties where there is a very high board pass rate that could leave successful programs in the bottom five percent (fifth percentile) despite admirable performance. These high-performing programs should not be cited, and V.C.3.e) is designed to address this.

- 1164
 1165 **V.C.3.f)** Programs must report, in ADS, board certification status
 1166 annually for the cohort of board-eligible fellows that
 1167 graduated seven years earlier. ^(Core)
 1168

Background and Intent: It is essential that fellowship programs demonstrate knowledge and skill transfer to their fellows. One measure of that is the qualifying or initial certification exam pass rate. Another important parameter of the success of the program is the ultimate board certification rate of its graduates. Graduates are eligible for up to seven years from fellowship graduation for initial certification. The ACGME will calculate a rolling three-year average of the ultimate board certification rate at seven years post-graduation, and the Review Committees will monitor it.

The Review Committees will track the rolling seven-year certification rate as an indicator of program quality. Programs are encouraged to monitor their graduates’ performance on board certification examinations.

In the future, the ACGME may establish parameters related to ultimate board certification rates.

1169

1170 VI. The Learning and Working Environment

1171
1172 *Fellowship education must occur in the context of a learning and working*
1173 *environment that emphasizes the following principles:*
1174

- 1175 • *Excellence in the safety and quality of care rendered to patients by fellows*
1176 *today*
1177
- 1178 • *Excellence in the safety and quality of care rendered to patients by today's*
1179 *fellows in their future practice*
1180
- 1181 • *Excellence in professionalism through faculty modeling of:*
1182
 - 1183 ○ *the effacement of self-interest in a humanistic environment that supports*
1184 *the professional development of physicians*
1185
 - 1186 ○ *the joy of curiosity, problem-solving, intellectual rigor, and discovery*
1187
- 1188 • *Commitment to the well-being of the students, residents, fellows, faculty*
1189 *members, and all members of the health care team*
1190

Background and Intent: The revised requirements are intended to provide greater flexibility within an established framework, allowing programs and fellows more discretion to structure clinical education in a way that best supports the above principles of professional development. With this increased flexibility comes the responsibility for programs and fellows to adhere to the 80-hour maximum weekly limit (unless a rotation-specific exception is granted by a Review Committee), and to utilize flexibility in a manner that optimizes patient safety, fellow education, and fellow well-being. The requirements are intended to support the development of a sense of professionalism by encouraging fellows to make decisions based on patient needs and their own well-being, without fear of jeopardizing their program's accreditation status. In addition, the proposed requirements eliminate the burdensome documentation requirement for fellows to justify clinical and educational work hour variations.

Clinical and educational work hours represent only one part of the larger issue of conditions of the learning and working environment, and Section VI has now been expanded to include greater attention to patient safety and fellow and faculty member well-being. The requirements are intended to support programs and fellows as they strive for excellence, while also ensuring ethical, humanistic training. Ensuring that flexibility is used in an appropriate manner is a shared responsibility of the program and fellows. With this flexibility comes a responsibility for fellows and faculty members to recognize the need to hand off care of a patient to another provider when a fellow is too fatigued to provide safe, high quality care and for programs to ensure that fellows remain within the 80-hour maximum weekly limit.

1191 VI.A. Patient Safety, Quality Improvement, Supervision, and Accountability

1192
1193
1194 VI.A.1. Patient Safety and Quality Improvement
1195

1196 ***All physicians share responsibility for promoting patient safety and***
1197 ***enhancing quality of patient care. Graduate medical education must***
1198 ***prepare fellows to provide the highest level of clinical care with***
1199 ***continuous focus on the safety, individual needs, and humanity of***
1200 ***their patients. It is the right of each patient to be cared for by fellows***
1201 ***who are appropriately supervised; possess the requisite knowledge,***
1202 ***skills, and abilities; understand the limits of their knowledge and***
1203 ***experience; and seek assistance as required to provide optimal***
1204 ***patient care.***

1205
1206 ***Fellows must demonstrate the ability to analyze the care they***
1207 ***provide, understand their roles within health care teams, and play an***
1208 ***active role in system improvement processes. Graduating fellows***
1209 ***will apply these skills to critique their future unsupervised practice***
1210 ***and effect quality improvement measures.***

1211
1212 ***It is necessary for fellows and faculty members to consistently work***
1213 ***in a well-coordinated manner with other health care professionals to***
1214 ***achieve organizational patient safety goals.***

1215
1216 **VI.A.1.a) Patient Safety**

1217
1218 **VI.A.1.a).(1) Culture of Safety**

1219
1220 ***A culture of safety requires continuous identification***
1221 ***of vulnerabilities and a willingness to transparently***
1222 ***deal with them. An effective organization has formal***
1223 ***mechanisms to assess the knowledge, skills, and***
1224 ***attitudes of its personnel toward safety in order to***
1225 ***identify areas for improvement.***

1226
1227 **VI.A.1.a).(1).(a) The program, its faculty, residents, and fellows**
1228 **must actively participate in patient safety**
1229 **systems and contribute to a culture of safety.**
1230 **(Core)**

1231
1232 **VI.A.1.a).(1).(b) The program must have a structure that**
1233 **promotes safe, interprofessional, team-based**
1234 **care. (Core)**

1235
1236 **VI.A.1.a).(2) Education on Patient Safety**

1237
1238 **Programs must provide formal educational activities**
1239 **that promote patient safety-related goals, tools, and**
1240 **techniques. (Core)**

1241 **Background and Intent: Optimal patient safety occurs in the setting of a coordinated interprofessional learning and working environment.**

1242
1243 **VI.A.1.a).(3) Patient Safety Events**
1244

Reporting, investigation, and follow-up of adverse events, near misses, and unsafe conditions are pivotal mechanisms for improving patient safety, and are essential for the success of any patient safety program. Feedback and experiential learning are essential to developing true competence in the ability to identify causes and institute sustainable systems-based changes to ameliorate patient safety vulnerabilities.

1295

VI.A.1.a).(3).(a)

Residents, fellows, faculty members, and other clinical staff members must:

VI.A.1.a).(3).(a).(i)

**know their responsibilities in reporting patient safety events at the clinical site;
(Core)**

VI.A.1.a).(3).(a).(ii)

know how to report patient safety events, including near misses, at the clinical site; and, (Core)

VI.A.1.a).(3).(a).(iii)

be provided with summary information of their institution's patient safety reports. (Core)

VI.A.1.a).(3).(b)

Fellows must participate as team members in real and/or simulated interprofessional clinical patient safety activities, such as root cause analyses or other activities that include analysis, as well as formulation and implementation of actions. (Core)

VI.A.1.a).(4)

Fellow Education and Experience in Disclosure of Adverse Events

Patient-centered care requires patients, and when appropriate families, to be apprised of clinical situations that affect them, including adverse events. This is an important skill for faculty physicians to model, and for fellows to develop and apply.

VI.A.1.a).(4).(a)

All fellows must receive training in how to disclose adverse events to patients and families. (Core)

VI.A.1.a).(4).(b)

Fellows should have the opportunity to participate in the disclosure of patient safety events, real or simulated. (Detail)†

VI.A.1.b)

Quality Improvement

1296	VI.A.1.b).(1)	Education in Quality Improvement
1297		
1298		<i>A cohesive model of health care includes quality-</i>
1299		<i>related goals, tools, and techniques that are necessary</i>
1300		<i>in order for health care professionals to achieve</i>
1301		<i>quality improvement goals.</i>
1302		
1303	VI.A.1.b).(1).(a)	Fellows must receive training and experience in
1304		quality improvement processes, including an
1305		understanding of health care disparities. ^(Core)
1306		
1307	VI.A.1.b).(2)	Quality Metrics
1308		
1309		<i>Access to data is essential to prioritizing activities for</i>
1310		<i>care improvement and evaluating success of</i>
1311		<i>improvement efforts.</i>
1312		
1313	VI.A.1.b).(2).(a)	Fellows and faculty members must receive data
1314		on quality metrics and benchmarks related to
1315		their patient populations. ^(Core)
1316		
1317	VI.A.1.b).(3)	Engagement in Quality Improvement Activities
1318		
1319		<i>Experiential learning is essential to developing the</i>
1320		<i>ability to identify and institute sustainable systems-</i>
1321		<i>based changes to improve patient care.</i>
1322		
1323	VI.A.1.b).(3).(a)	Fellows must have the opportunity to
1324		participate in interprofessional quality
1325		improvement activities. ^(Core)
1326		
1327	VI.A.1.b).(3).(a).(i)	This should include activities aimed at
1328		reducing health care disparities. ^(Detail)
1329		
1330	VI.A.2.	Supervision and Accountability
1331		
1332	VI.A.2.a)	<i>Although the attending physician is ultimately responsible for</i>
1333		<i>the care of the patient, every physician shares in the</i>
1334		<i>responsibility and accountability for their efforts in the</i>
1335		<i>provision of care. Effective programs, in partnership with</i>
1336		<i>their Sponsoring Institutions, define, widely communicate,</i>
1337		<i>and monitor a structured chain of responsibility and</i>
1338		<i>accountability as it relates to the supervision of all patient</i>
1339		<i>care.</i>
1340		
1341		<i>Supervision in the setting of graduate medical education</i>
1342		<i>provides safe and effective care to patients; ensures each</i>
1343		<i>fellow's development of the skills, knowledge, and attitudes</i>
1344		<i>required to enter the unsupervised practice of medicine; and</i>
1345		<i>establishes a foundation for continued professional growth.</i>
1346		

1347 VI.A.2.a).(1) Each patient must have an identifiable and
1348 appropriately-credentialed and privileged attending
1349 physician (or licensed independent practitioner as
1350 specified by the applicable Review Committee) who is
1351 responsible and accountable for the patient’s care.
1352 (Core)

1353
1354 VI.A.2.a).(1).(a) This information must be available to fellows,
1355 faculty members, other members of the health
1356 care team, and patients. (Core)

1357
1358 VI.A.2.a).(1).(b) Fellows and faculty members must inform each
1359 patient of their respective roles in that patient’s
1360 care when providing direct patient care. (Core)

1361
1362 VI.A.2.b) *Supervision may be exercised through a variety of methods.*
1363 *For many aspects of patient care, the supervising physician*
1364 *may be a more advanced fellow. Other portions of care*
1365 *provided by the fellow can be adequately supervised by the*
1366 *appropriate availability of the supervising faculty member or*
1367 *fellow, either on site or by means of telecommunication*
1368 *technology. Some activities require the physical presence of*
1369 *the supervising faculty member. In some circumstances,*
1370 *supervision may include post-hoc review of fellow-delivered*
1371 *care with feedback.*
1372

Background and Intent: Appropriate supervision is essential for patient safety and high-quality teaching. Supervision is also contextual. There is tremendous diversity of resident patient interactions, education and training locations, and resident skills and abilities even at the same level of the educational program. The degree of supervision is expected to evolve progressively as a resident gains more experience, even with the same patient condition or procedure. All residents have a level of supervision commensurate with their level of autonomy in practice; this level of supervision may be enhanced based on factors such as patient safety, complexity, acuity, urgency, risk of serious adverse events, or other pertinent variables.

1373
1374 VI.A.2.b).(1) The program must demonstrate that the appropriate
1375 level of supervision in place for all fellows is based on
1376 each fellow’s level of training and ability, as well as
1377 patient complexity and acuity. Supervision may be
1378 exercised through a variety of methods, as appropriate
1379 to the situation. (Core)

1380
1381 VI.A.2.b).(2) The program must define when physical presence of a
1382 supervising physician is required. (Core)

1383
1384 VI.A.2.c) **Levels of Supervision**
1385
1386 **To promote appropriate fellow supervision while providing**
1387 **for graded authority and responsibility, the program must use**
1388 **the following classification of supervision: (Core)**

- 1389
- 1390 **VI.A.2.c).(1)** **Direct Supervision:**
- 1391
- 1392 **VI.A.2.c).(1).(a)** **the supervising physician is physically present**
- 1393 **with the fellow during the key portions of the**
- 1394 **patient interaction. ^(Core)**
- 1395
- 1396 **VI.A.2.c).(2)** **Indirect Supervision: the supervising physician is not**
- 1397 **providing physical or concurrent visual or audio**
- 1398 **supervision but is immediately available to the fellow**
- 1399 **for guidance and is available to provide appropriate**
- 1400 **direct supervision. ^(Core)**
- 1401
- 1402 **VI.A.2.c).(3)** **Oversight – the supervising physician is available to**
- 1403 **provide review of procedures/encounters with**
- 1404 **feedback provided after care is delivered. ^(Core)**
- 1405
- 1406 **VI.A.2.d)** **The privilege of progressive authority and responsibility,**
- 1407 **conditional independence, and a supervisory role in patient**
- 1408 **care delegated to each fellow must be assigned by the**
- 1409 **program director and faculty members. ^(Core)**
- 1410
- 1411 **VI.A.2.d).(1)** **The program director must evaluate each fellow’s**
- 1412 **abilities based on specific criteria, guided by the**
- 1413 **Milestones. ^(Core)**
- 1414
- 1415 **VI.A.2.d).(2)** **Faculty members functioning as supervising**
- 1416 **physicians must delegate portions of care to fellows**
- 1417 **based on the needs of the patient and the skills of**
- 1418 **each fellow. ^(Core)**
- 1419
- 1420 **VI.A.2.d).(3)** **Fellows should serve in a supervisory role to junior**
- 1421 **fellows and residents in recognition of their progress**
- 1422 **toward independence, based on the needs of each**
- 1423 **patient and the skills of the individual resident or**
- 1424 **fellow. ^(Detail)**
- 1425
- 1426 **VI.A.2.e)** **Programs must set guidelines for circumstances and events**
- 1427 **in which fellows must communicate with the supervising**
- 1428 **faculty member(s). ^(Core)**
- 1429
- 1430 **VI.A.2.e).(1)** **Each fellow must know the limits of their scope of**
- 1431 **authority, and the circumstances under which the**
- 1432 **fellow is permitted to act with conditional**
- 1433 **independence. ^(Outcome)**
- 1434

Background and Intent: The ACGME Glossary of Terms defines conditional independence as: Graded, progressive responsibility for patient care with defined oversight.

1435

1436 VI.A.2.f) Faculty supervision assignments must be of sufficient
1437 duration to assess the knowledge and skills of each fellow
1438 and to delegate to the fellow the appropriate level of patient
1439 care authority and responsibility. ^(Core)
1440

1441 VI.B. Professionalism
1442

1443 VI.B.1. Programs, in partnership with their Sponsoring Institutions, must
1444 educate fellows and faculty members concerning the professional
1445 responsibilities of physicians, including their obligation to be
1446 appropriately rested and fit to provide the care required by their
1447 patients. ^(Core)
1448

1449 VI.B.2. The learning objectives of the program must:
1450

1451 VI.B.2.a) be accomplished through an appropriate blend of supervised
1452 patient care responsibilities, clinical teaching, and didactic
1453 educational events; ^(Core)
1454

1455 VI.B.2.b) be accomplished without excessive reliance on fellows to
1456 fulfill non-physician obligations; and, ^(Core)
1457

Background and Intent: Routine reliance on fellows to fulfill non-physician obligations increases work compression for fellows and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from the wards or units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the ward; and clerical duties, such as scheduling. While it is understood that fellows may be expected to do any of these things on occasion when the need arises, these activities should not be performed by fellows routinely and must be kept to a minimum to optimize fellow education.

1458 VI.B.2.c) ensure manageable patient care responsibilities. ^(Core)
1459
1460

Background and Intent: The Common Program Requirements do not define “manageable patient care responsibilities” as this is variable by specialty and PGY level. Review Committees will provide further detail regarding patient care responsibilities in the applicable specialty-specific Program Requirements and accompanying FAQs. However, all programs, regardless of specialty, should carefully assess how the assignment of patient care responsibilities can affect work compression.

1461 VI.B.3. The program director, in partnership with the Sponsoring Institution,
1462 must provide a culture of professionalism that supports patient
1463 safety and personal responsibility. ^(Core)
1464

1465 VI.B.4. Fellows and faculty members must demonstrate an understanding
1466 of their personal role in the:
1467
1468

- 1469 VI.B.4.a) provision of patient- and family-centered care; (Outcome)
 1470
 1471 VI.B.4.b) safety and welfare of patients entrusted to their care,
 1472 including the ability to report unsafe conditions and adverse
 1473 events; (Outcome)
 1474

Background and Intent: This requirement emphasizes that responsibility for reporting unsafe conditions and adverse events is shared by all members of the team and is not solely the responsibility of the fellow.

- 1475
 1476 VI.B.4.c) assurance of their fitness for work, including: (Outcome)
 1477

Background and Intent: This requirement emphasizes the professional responsibility of faculty members and fellows to arrive for work adequately rested and ready to care for patients. It is also the responsibility of faculty members, fellows, and other members of the care team to be observant, to intervene, and/or to escalate their concern about fellow and faculty member fitness for work, depending on the situation, and in accordance with institutional policies.

- 1478
 1479 VI.B.4.c).(1) management of their time before, during, and after
 1480 clinical assignments; and, (Outcome)
 1481
 1482 VI.B.4.c).(2) recognition of impairment, including from illness,
 1483 fatigue, and substance use, in themselves, their peers,
 1484 and other members of the health care team. (Outcome)
 1485
 1486 VI.B.4.d) commitment to lifelong learning; (Outcome)
 1487
 1488 VI.B.4.e) monitoring of their patient care performance improvement
 1489 indicators; and, (Outcome)
 1490
 1491 VI.B.4.f) accurate reporting of clinical and educational work hours,
 1492 patient outcomes, and clinical experience data. (Outcome)
 1493
 1494 VI.B.5. All fellows and faculty members must demonstrate responsiveness
 1495 to patient needs that supersedes self-interest. This includes the
 1496 recognition that under certain circumstances, the best interests of
 1497 the patient may be served by transitioning that patient's care to
 1498 another qualified and rested provider. (Outcome)
 1499
 1500 VI.B.6. Programs, in partnership with their Sponsoring Institutions, must
 1501 provide a professional, equitable, respectful, and civil environment
 1502 that is free from discrimination, sexual and other forms of
 1503 harassment, mistreatment, abuse, or coercion of students, fellows,
 1504 faculty, and staff. (Core)
 1505
 1506 VI.B.7. Programs, in partnership with their Sponsoring Institutions, should
 1507 have a process for education of fellows and faculty regarding
 1508 unprofessional behavior and a confidential process for reporting,
 1509 investigating, and addressing such concerns. (Core)

1510
1511 **VI.C. Well-Being**

1512
1513 *Psychological, emotional, and physical well-being are critical in the*
1514 *development of the competent, caring, and resilient physician and require*
1515 *proactive attention to life inside and outside of medicine. Well-being*
1516 *requires that physicians retain the joy in medicine while managing their*
1517 *own real life stresses. Self-care and responsibility to support other*
1518 *members of the health care team are important components of*
1519 *professionalism; they are also skills that must be modeled, learned, and*
1520 *nurtured in the context of other aspects of fellowship training.*

1521
1522 *Fellows and faculty members are at risk for burnout and depression.*
1523 *Programs, in partnership with their Sponsoring Institutions, have the same*
1524 *responsibility to address well-being as other aspects of resident*
1525 *competence. Physicians and all members of the health care team share*
1526 *responsibility for the well-being of each other. For example, a culture which*
1527 *encourages covering for colleagues after an illness without the expectation*
1528 *of reciprocity reflects the ideal of professionalism. A positive culture in a*
1529 *clinical learning environment models constructive behaviors, and prepares*
1530 *fellows with the skills and attitudes needed to thrive throughout their*
1531 *careers.*

Background and Intent: The ACGME is committed to addressing physician well-being for individuals and as it relates to the learning and working environment. The creation of a learning and working environment with a culture of respect and accountability for physician well-being is crucial to physicians' ability to deliver the safest, best possible care to patients. The ACGME is leveraging its resources in four key areas to support the ongoing focus on physician well-being: education, influence, research, and collaboration. Information regarding the ACGME's ongoing efforts in this area is available on the ACGME website.

As these efforts evolve, information will be shared with programs seeking to develop and/or strengthen their own well-being initiatives. In addition, there are many activities that programs can utilize now to assess and support physician well-being. These include culture of safety surveys, ensuring the availability of counseling services, and attention to the safety of the entire health care team.

1533
1534 **VI.C.1. The responsibility of the program, in partnership with the**
1535 **Sponsoring Institution, to address well-being must include:**

1536
1537 **VI.C.1.a) efforts to enhance the meaning that each fellow finds in the**
1538 **experience of being a physician, including protecting time**
1539 **with patients, minimizing non-physician obligations,**
1540 **providing administrative support, promoting progressive**
1541 **autonomy and flexibility, and enhancing professional**
1542 **relationships; ^(Core)**

1543
1544 **VI.C.1.b) attention to scheduling, work intensity, and work**
1545 **compression that impacts fellow well-being; ^(Core)**
1546

1547 VI.C.1.c) evaluating workplace safety data and addressing the safety of
1548 fellows and faculty members; ^(Core)
1549

Background and Intent: This requirement emphasizes the responsibility shared by the Sponsoring Institution and its programs to gather information and utilize systems that monitor and enhance fellow and faculty member safety, including physical safety. Issues to be addressed include, but are not limited to, monitoring of workplace injuries, physical or emotional violence, vehicle collisions, and emotional well-being after adverse events.

1550 VI.C.1.d) policies and programs that encourage optimal fellow and
1551 faculty member well-being; and, ^(Core)
1552
1553

Background and Intent: Well-being includes having time away from work to engage with family and friends, as well as to attend to personal needs and to one's own health, including adequate rest, healthy diet, and regular exercise.

1554 VI.C.1.d).(1) Fellows must be given the opportunity to attend
1555 medical, mental health, and dental care appointments,
1556 including those scheduled during their working hours.
1557 ^(Core)
1558
1559

Background and Intent: The intent of this requirement is to ensure that fellows have the opportunity to access medical and dental care, including mental health care, at times that are appropriate to their individual circumstances. Fellows must be provided with time away from the program as needed to access care, including appointments scheduled during their working hours.

1560 VI.C.1.e) attention to fellow and faculty member burnout, depression,
1561 and substance use disorders. The program, in partnership
1562 with its Sponsoring Institution, must educate faculty
1563 members and fellows in identification of the symptoms of
1564 burnout, depression, and substance use disorders, including
1565 means to assist those who experience these conditions.
1566 Fellows and faculty members must also be educated to
1567 recognize those symptoms in themselves and how to seek
1568 appropriate care. The program, in partnership with its
1569 Sponsoring Institution, must: ^(Core)
1570
1571

Background and Intent: Programs and Sponsoring Institutions are encouraged to review materials in order to create systems for identification of burnout, depression, and substance use disorders. Materials and more information are available on the Physician Well-being section of the ACGME website (<http://www.acgme.org/What-We-Do/Initiatives/Physician-Well-Being>).

1572 VI.C.1.e).(1) encourage fellows and faculty members to alert the
1573 program director or other designated personnel or
1574 programs when they are concerned that another
1575 fellow, resident, or faculty member may be displaying
1576 signs of burnout, depression, a substance use
1577

1578
1579
1580

disorder, suicidal ideation, or potential for violence;
(Core)

Background and Intent: Individuals experiencing burnout, depression, a substance use disorder, and/or suicidal ideation are often reluctant to reach out for help due to the stigma associated with these conditions, and are concerned that seeking help may have a negative impact on their career. Recognizing that physicians are at increased risk in these areas, it is essential that fellows and faculty members are able to report their concerns when another fellow or faculty member displays signs of any of these conditions, so that the program director or other designated personnel, such as the department chair, may assess the situation and intervene as necessary to facilitate access to appropriate care. Fellows and faculty members must know which personnel, in addition to the program director, have been designated with this responsibility; those personnel and the program director should be familiar with the institution's impaired physician policy and any employee health, employee assistance, and/or wellness programs within the institution. In cases of physician impairment, the program director or designated personnel should follow the policies of their institution for reporting.

1581
1582
1583
1584
1585
1586
1587
1588
1589

VI.C.1.e).(2) provide access to appropriate tools for self-screening; and, (Core)

VI.C.1.e).(3) provide access to confidential, affordable mental health assessment, counseling, and treatment, including access to urgent and emergent care 24 hours a day, seven days a week. (Core)

Background and Intent: The intent of this requirement is to ensure that fellows have immediate access at all times to a mental health professional (psychiatrist, psychologist, Licensed Clinical Social Worker, Primary Mental Health Nurse Practitioner, or Licensed Professional Counselor) for urgent or emergent mental health issues. In-person, telemedicine, or telephonic means may be utilized to satisfy this requirement. Care in the Emergency Department may be necessary in some cases, but not as the primary or sole means to meet the requirement.

The reference to affordable counseling is intended to require that financial cost not be a barrier to obtaining care.

1590
1591
1592
1593
1594
1595
1596
1597
1598
1599
1600
1601
1602
1603

VI.C.2. There are circumstances in which fellows may be unable to attend work, including but not limited to fatigue, illness, family emergencies, and parental leave. Each program must allow an appropriate length of absence for fellows unable to perform their patient care responsibilities. (Core)

VI.C.2.a) The program must have policies and procedures in place to ensure coverage of patient care. (Core)

VI.C.2.b) These policies must be implemented without fear of negative consequences for the fellow who is or was unable to provide the clinical work. (Core)

Background and Intent: Fellows may need to extend their length of training depending on length of absence and specialty board eligibility requirements. Teammates should assist colleagues in need and equitably reintegrate them upon return.

1604

1609
1610
1611
1612
1613
1614
1615
1616
1617
1618

VI.D. Fatigue Mitigation

VI.D.1. Programs must:

VI.D.1.a) educate all faculty members and fellows to recognize the signs of fatigue and sleep deprivation; ^(Core)

VI.D.1.b) educate all faculty members and fellows in alertness management and fatigue mitigation processes; and, ^(Core)

VI.D.1.c) encourage fellows to use fatigue mitigation processes to manage the potential negative effects of fatigue on patient care and learning. ^(Detail)

Background and Intent: Providing medical care to patients is physically and mentally demanding. Night shifts, even for those who have had enough rest, cause fatigue. Experiencing fatigue in a supervised environment during training prepares fellows for managing fatigue in practice. It is expected that programs adopt fatigue mitigation processes and ensure that there are no negative consequences and/or stigma for using fatigue mitigation strategies.

This requirement emphasizes the importance of adequate rest before and after clinical responsibilities. Strategies that may be used include, but are not limited to, strategic napping; the judicious use of caffeine; availability of other caregivers; time management to maximize sleep off-duty; learning to recognize the signs of fatigue, and self-monitoring performance and/or asking others to monitor performance; remaining active to promote alertness; maintaining a healthy diet; using relaxation techniques to fall asleep; maintaining a consistent sleep routine; exercising regularly; increasing sleep time before and after call; and ensuring sufficient sleep recovery periods.

VI.D.2. Each program must ensure continuity of patient care, consistent with the program's policies and procedures referenced in VI.C.2–VI.C.2.b), in the event that a fellow may be unable to perform their patient care responsibilities due to excessive fatigue. ^(Core)

VI.D.3. The program, in partnership with its Sponsoring Institution, must ensure adequate sleep facilities and safe transportation options for fellows who may be too fatigued to safely return home. ^(Core)

VI.E. Clinical Responsibilities, Teamwork, and Transitions of Care

VI.E.1. Clinical Responsibilities

The clinical responsibilities for each fellow must be based on PGY level, patient safety, fellow ability, severity and complexity of patient illness/condition, and available support services. ^(Core)

1636

Background and Intent: The changing clinical care environment of medicine has meant that work compression due to high complexity has increased stress on fellows. Faculty members and program directors need to make sure fellows function in an environment that has safe patient care and a sense of fellow well-being. Some Review Committees have addressed this by setting limits on patient admissions, and it is an essential responsibility of the program director to monitor fellow workload. Workload should be distributed among the fellow team and interdisciplinary teams to minimize work compression.

- 1637
1638 VI.E.1.a) The workload associated with optimal clinical care of surgical
1639 patients is a continuum from the moment of admission to the point
1640 of discharge. (Core)
1641
- 1642 VI.E.1.b) During the fellowship education process, surgical teams should be
1643 made up of attending surgeons, fellows and residents at various
1644 PG levels (when appropriate), medical students (when
1645 appropriate), and other health care providers. (Core)
1646
- 1647 VI.E.1.c) The work of the caregiver team should be assigned to team
1648 members based on each member's level of education,
1649 experience, and competence. (Core)
1650
- 1651 VI.E.1.d) As fellows progress through levels of increasing competence and
1652 responsibility, it is expected that work assignments will keep pace
1653 with their advancement. (Core)
1654
- 1655 **VI.E.2. Teamwork**
1656
1657 **Fellows must care for patients in an environment that maximizes**
1658 **communication. This must include the opportunity to work as a**
1659 **member of effective interprofessional teams that are appropriate to**
1660 **the delivery of care in the subspecialty and larger health system.**
1661 (Core)
1662
- 1663 VI.E.2.a) Effective surgical practices must entail the involvement of
1664 members with a mix of complementary skills and attributes
1665 (physicians, nurses, and other staff). Success requires both an
1666 unwavering mutual respect for those skills and contributions, and
1667 a shared commitment to the process of patient care. (Core)
1668
- 1669 VI.E.2.b) Fellows must collaborate with other surgical residents and fellows,
1670 faculty members, and other physicians outside of their specialty,
1671 and non-traditional health care providers, to best formulate
1672 treatment plans for an increasingly diverse patient population. (Core)
1673
- 1674 VI.E.2.c) Fellows must assume personal responsibility to complete all tasks
1675 to which they are assigned (or which they voluntarily assume) in a
1676 timely fashion. These tasks must be completed in the hours
1677 assigned, or, if that is not possible, fellows must learn and utilize
1678 the established methods for handing off remaining tasks to

- 1679 another member of the fellow team so that patient care is not
 1680 compromised. ^(Core)
 1681
 1682 VI.E.2.d) Lines of authority should be defined by programs, and all fellows
 1683 must have a working knowledge of these expected reporting
 1684 relationships to maximize quality care and patient safety. ^(Core)
 1685
 1686 **VI.E.3. Transitions of Care**
 1687
 1688 **VI.E.3.a) Programs must design clinical assignments to optimize**
 1689 **transitions in patient care, including their safety, frequency,**
 1690 **and structure.** ^(Core)
 1691
 1692 **VI.E.3.b) Programs, in partnership with their Sponsoring Institutions,**
 1693 **must ensure and monitor effective, structured hand-over**
 1694 **processes to facilitate both continuity of care and patient**
 1695 **safety.** ^(Core)
 1696
 1697 **VI.E.3.c) Programs must ensure that fellows are competent in**
 1698 **communicating with team members in the hand-over process.**
 1699 ^(Outcome)
 1700
 1701 **VI.E.3.d) Programs and clinical sites must maintain and communicate**
 1702 **schedules of attending physicians and fellows currently**
 1703 **responsible for care.** ^(Core)
 1704
 1705 **VI.E.3.e) Each program must ensure continuity of patient care,**
 1706 **consistent with the program’s policies and procedures**
 1707 **referenced in VI.C.2-VI.C.2.b), in the event that a fellow may**
 1708 **be unable to perform their patient care responsibilities due to**
 1709 **excessive fatigue or illness, or family emergency.** ^(Core)
 1710
 1711 **VI.F. Clinical Experience and Education**
 1712
 1713 *Programs, in partnership with their Sponsoring Institutions, must design*
 1714 *an effective program structure that is configured to provide fellows with*
 1715 *educational and clinical experience opportunities, as well as reasonable*
 1716 *opportunities for rest and personal activities.*
 1717

Background and Intent: In the new requirements, the terms “clinical experience and education,” “clinical and educational work,” and “clinical and educational work hours” replace the terms “duty hours,” “duty periods,” and “duty.” These changes have been made in response to concerns that the previous use of the term “duty” in reference to number of hours worked may have led some to conclude that fellows’ duty to “clock out” on time superseded their duty to their patients.

- 1718
 1719 **VI.F.1. Maximum Hours of Clinical and Educational Work per Week**
 1720
 1721 **Clinical and educational work hours must be limited to no more than**
 1722 **80 hours per week, averaged over a four-week period, inclusive of all**

1723
1724
1725

in-house clinical and educational activities, clinical work done from home, and all moonlighting. ^(Core)

Background and Intent: Programs and fellows have a shared responsibility to ensure that the 80-hour maximum weekly limit is not exceeded. While the requirement has been written with the intent of allowing fellows to remain beyond their scheduled work periods to care for a patient or participate in an educational activity, these additional hours must be accounted for in the allocated 80 hours when averaged over four weeks.

Scheduling

While the ACGME acknowledges that, on rare occasions, a fellow may work in excess of 80 hours in a given week, all programs and fellows utilizing this flexibility will be required to adhere to the 80-hour maximum weekly limit when averaged over a four-week period. Programs that regularly schedule fellows to work 80 hours per week and still permit fellows to remain beyond their scheduled work period are likely to exceed the 80-hour maximum, which would not be in substantial compliance with the requirement. These programs should adjust schedules so that fellows are scheduled to work fewer than 80 hours per week, which would allow fellows to remain beyond their scheduled work period when needed without violating the 80-hour requirement. Programs may wish to consider using night float and/or making adjustments to the frequency of in-house call to ensure compliance with the 80-hour maximum weekly limit.

Oversight

With increased flexibility introduced into the Requirements, programs permitting this flexibility will need to account for the potential for fellows to remain beyond their assigned work periods when developing schedules, to avoid exceeding the 80-hour maximum weekly limit, averaged over four weeks. The ACGME Review Committees will strictly monitor and enforce compliance with the 80-hour requirement. Where violations of the 80-hour requirement are identified, programs will be subject to citation and at risk for an adverse accreditation action.

Work from Home

While the requirement specifies that clinical work done from home must be counted toward the 80-hour maximum weekly limit, the expectation remains that scheduling be structured so that fellows are able to complete most work on site during scheduled clinical work hours without requiring them to take work home. The new requirements acknowledge the changing landscape of medicine, including electronic health records, and the resulting increase in the amount of work fellows choose to do from home. The requirement provides flexibility for fellows to do this while ensuring that the time spent by fellows completing clinical work from home is accomplished within the 80-hour weekly maximum. Types of work from home that must be counted include using an electronic health record and taking calls from home. Reading done in preparation for the following day's cases, studying, and research done from home do not count toward the 80 hours. Fellow decisions to leave the hospital before their clinical work has been completed and to finish that work later from home should be made in consultation with the fellow's supervisor. In such circumstances, fellows should be mindful of their professional responsibility to complete work in a timely manner and to maintain patient confidentiality.

During the public comment period many individuals raised questions and concerns related to this change. Some questioned whether minute by minute tracking would be

required; in other words, if a fellow spends three minutes on a phone call and then a few hours later spends two minutes on another call, will the fellow need to report that time. Others raised concerns related to the ability of programs and institutions to verify the accuracy of the information reported by fellows. The new requirements are not an attempt to micromanage this process. Fellows are to track the time they spend on clinical work from home and to report that time to the program. Decisions regarding whether to report infrequent phone calls of very short duration will be left to the individual fellow. Programs will need to factor in time fellows are spending on clinical work at home when schedules are developed to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks. There is no requirement that programs assume responsibility for documenting this time. Rather, the program's responsibility is ensuring that fellows report their time from home and that schedules are structured to ensure that fellows are not working in excess of 80 hours per week, averaged over four weeks.

VI.F.2. Mandatory Time Free of Clinical Work and Education

VI.F.2.a) The program must design an effective program structure that is configured to provide fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being. ^(Core)

VI.F.2.b) Fellows should have eight hours off between scheduled clinical work and education periods. ^(Detail)

VI.F.2.b).(1) There may be circumstances when fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements. ^(Detail)

Background and Intent: While it is expected that fellow schedules will be structured to ensure that fellows are provided with a minimum of eight hours off between scheduled work periods, it is recognized that fellows may choose to remain beyond their scheduled time, or return to the clinical site during this time-off period, to care for a patient. The requirement preserves the flexibility for fellows to make those choices. It is also noted that the 80-hour weekly limit (averaged over four weeks) is a deterrent for scheduling fewer than eight hours off between clinical and education work periods, as it would be difficult for a program to design a schedule that provides fewer than eight hours off without violating the 80-hour rule.

1744
1745
1746
1747

VI.F.2.c) Fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call. ^(Core)

Background and Intent: Fellows have a responsibility to return to work rested, and thus are expected to use this time away from work to get adequate rest. In support of this goal, fellows are encouraged to prioritize sleep over other discretionary activities.

1748

1749 VI.F.2.d) Fellows must be scheduled for a minimum of one day in
1750 seven free of clinical work and required education (when
1751 averaged over four weeks). At-home call cannot be assigned
1752 on these free days. ^(Core)
1753

Background and Intent: The requirement provides flexibility for programs to distribute days off in a manner that meets program and fellow needs. It is strongly recommended that fellows' preference regarding how their days off are distributed be considered as schedules are developed. It is desirable that days off be distributed throughout the month, but some fellows may prefer to group their days off to have a "golden weekend," meaning a consecutive Saturday and Sunday free from work. The requirement for one free day in seven should not be interpreted as precluding a golden weekend. Where feasible, schedules may be designed to provide fellows with a weekend, or two consecutive days, free of work. The applicable Review Committee will evaluate the number of consecutive days of work and determine whether they meet educational objectives. Programs are encouraged to distribute days off in a fashion that optimizes fellow well-being, and educational and personal goals. It is noted that a day off is defined in the ACGME Glossary of Terms as "one (1) continuous 24-hour period free from all administrative, clinical, and educational activities."

1754
1755 VI.F.3. Maximum Clinical Work and Education Period Length
1756

1757 VI.F.3.a) Clinical and educational work periods for fellows must not
1758 exceed 24 hours of continuous scheduled clinical
1759 assignments. ^(Core)
1760

1761 VI.F.3.a).(1) Up to four hours of additional time may be used for
1762 activities related to patient safety, such as providing
1763 effective transitions of care, and/or fellow education.
1764 ^(Core)
1765

1766 VI.F.3.a).(1).(a) Additional patient care responsibilities must not
1767 be assigned to a fellow during this time. ^(Core)
1768

Background and Intent: The additional time referenced in VI.F.3.a).(1) should not be used for the care of new patients. It is essential that the fellow continue to function as a member of the team in an environment where other members of the team can assess fellow fatigue, and that supervision for post-call fellows is provided. This 24 hours and up to an additional four hours must occur within the context of 80-hour weekly limit, averaged over four weeks.

1769
1770 VI.F.4. Clinical and Educational Work Hour Exceptions
1771

1772 VI.F.4.a) In rare circumstances, after handing off all other
1773 responsibilities, a fellow, on their own initiative, may elect to
1774 remain or return to the clinical site in the following
1775 circumstances:
1776

1777 VI.F.4.a).(1) to continue to provide care to a single severely ill or
1778 unstable patient; ^(Detail)

- 1779
 1780 VI.F.4.a).(2) humanistic attention to the needs of a patient or
 1781 family; or, ^(Detail)
 1782
 1783 VI.F.4.a).(3) to attend unique educational events. ^(Detail)
 1784
 1785 VI.F.4.b) These additional hours of care or education will be counted
 1786 toward the 80-hour weekly limit. ^(Detail)
 1787

Background and Intent: This requirement is intended to provide fellows with some control over their schedules by providing the flexibility to voluntarily remain beyond the scheduled responsibilities under the circumstances described above. It is important to note that a fellow may remain to attend a conference, or return for a conference later in the day, only if the decision is made voluntarily. Fellows must not be required to stay. Programs allowing fellows to remain or return beyond the scheduled work and clinical education period must ensure that the decision to remain is initiated by the fellow and that fellows are not coerced. This additional time must be counted toward the 80-hour maximum weekly limit.

- 1788
 1789 VI.F.4.c) A Review Committee may grant rotation-specific exceptions
 1790 for up to 10 percent or a maximum of 88 clinical and
 1791 educational work hours to individual programs based on a
 1792 sound educational rationale.
 1793
 1794 The Review Committee for Surgery will not accept requests for
 1795 exceptions to the 80-hour limit to the fellows' work week.
 1796
 1797 VI.F.4.c).(1) In preparing a request for an exception, the program
 1798 director must follow the clinical and educational work
 1799 hour exception policy from the *ACGME Manual of*
 1800 *Policies and Procedures.* ^(Core)
 1801
 1802 VI.F.4.c).(2) Prior to submitting the request to the Review
 1803 Committee, the program director must obtain approval
 1804 from the Sponsoring Institution's GMEC and DIO. ^(Core)
 1805

Background and Intent: The provision for exceptions for up to 88 hours per week has been modified to specify that exceptions may be granted for specific rotations if the program can justify the increase based on criteria specified by the Review Committee. As in the past, Review Committees may opt not to permit exceptions. The underlying philosophy for this requirement is that while it is expected that all fellows should be able to train within an 80-hour work week, it is recognized that some programs may include rotations with alternate structures based on the nature of the specialty. DIO/GMEC approval is required before the request will be considered by the Review Committee.

- 1806
 1807 VI.F.5. Moonlighting
 1808
 1809 VI.F.5.a) Moonlighting must not interfere with the ability of the fellow
 1810 to achieve the goals and objectives of the educational

1811 program, and must not interfere with the fellow's fitness for
1812 work nor compromise patient safety. ^(Core)

1813
1814 **VI.F.5.b)** Time spent by fellows in internal and external moonlighting
1815 (as defined in the ACGME Glossary of Terms) must be
1816 counted toward the 80-hour maximum weekly limit. ^(Core)
1817

Background and Intent: For additional clarification of the expectations related to moonlighting, please refer to the Common Program Requirement FAQs (available at <http://www.acgme.org/What-We-Do/Accreditation/Common-Program-Requirements>).

1818
1819 **VI.F.6. In-House Night Float**
1820
1821 **Night float must occur within the context of the 80-hour and one-**
1822 **day-off-in-seven requirements.** ^(Core)
1823

1824 VI.F.6.a) Night float rotations must not exceed two months in succession, or
1825 three months in succession for rotations with night shifts
1826 alternating with day shifts. ^(Detail)

1827
1828 VI.F.6.b) There can be no more than four months of night float per year.
1829 ^(Detail)

1830
1831 VI.F.6.c) There must be at least two months between each night float
1832 rotation. ^(Detail)

1833
1834 VI.F.6.d) The total amount of night float for any fellow in a two-year
1835 fellowship must be no more than eight months. ^(Detail)
1836

Background and Intent: The requirement for no more than six consecutive nights of night float was removed to provide programs with increased flexibility in scheduling.

1837
1838 **VI.F.7. Maximum In-House On-Call Frequency**
1839
1840 **Fellows must be scheduled for in-house call no more frequently than**
1841 **every third night (when averaged over a four-week period).** ^(Core)
1842

1843 **VI.F.8. At-Home Call**

1844
1845 **VI.F.8.a)** Time spent on patient care activities by fellows on at-home
1846 call must count toward the 80-hour maximum weekly limit.
1847 The frequency of at-home call is not subject to the every-
1848 third-night limitation, but must satisfy the requirement for one
1849 day in seven free of clinical work and education, when
1850 averaged over four weeks. ^(Core)
1851

1852 **VI.F.8.a).(1)** At-home call must not be so frequent or taxing as to
1853 preclude rest or reasonable personal time for each
1854 fellow. ^(Core)
1855

1856
1857
1858
1859
1860

VI.F.8.b) Fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit. ^(Detail)

Background and Intent: This requirement has been modified to specify that clinical work done from home when a fellow is taking at-home call must count toward the 80-hour maximum weekly limit. This change acknowledges the often significant amount of time fellows devote to clinical activities when taking at-home call, and ensures that taking at-home call does not result in fellows routinely working more than 80 hours per week. At-home call activities that must be counted include responding to phone calls and other forms of communication, as well as documentation, such as entering notes in an electronic health record. Activities such as reading about the next day's case, studying, or research activities do not count toward the 80-hour weekly limit.

In their evaluation of fellowship programs, Review Committees will look at the overall impact of at-home call on fellow rest and personal time.
