ACGME Case Log Entry System

General Instructions for Physical Medicine and Rehabilitation Procedure Entry

Accessing the ACGME Case Log System to Enter a Patient Encounter:

1. Log into the Resident Case Log System at: https://apps.acgme.org/ads.Type in your ACGME username and password to access the system.
2. After signing into the system, you will be directed to the Case Entry screen.
3. A step-by-step "Resident User Guide" is available under "Reference Materials."

The Review Committee for Physical Medicine and Rehabilitation monitors resident experiences in the procedures listed below:

Procedure	Total [Minimum Performed]	Code
Chemodenervation procedures for spasticity (i.e., botulinum toxin, phenol) (per limb)	50 [40]	64611; 64612; 64615; 64616; 64642; 64643; 64644; 64645; 64646; 64647; 64640; 76942; 95873; 95874
EMG/NCS (per patient encounter)	150 [125]	95860; 95861; 95863; 95864; 95867; 95868; 95869; 95870; 95907; 95908; 95909; 95910; 95911; 95912; 95913
Intra-articular/bursa injections (per structure)	50 [40]	20600; 20605; 20610; 20611; 76942
Axial facet-based and sacroiliac joint procedures	5 [0]	64451; 64490; 64493; 64625
Diagnostic musculoskeletal ultrasound	10 [0]	76881; 76882
Epidural injections	5 [0]	62321; 62323; 64479; 64480; 64483
Intrathecal pump programming/refills	5 [0]	62368; 95991; 62369; 62370
Periarticular injections (e.g., tendon sheath, deep gluteal, peripheral nerve)	10 [0]	20526; 20550; 20551; 64405; 64418; 64450; 64454; 64483; 64624; 64640
Ultrasound guidance for procedures	40 [10]	76942

- Recognizing the evolving technology of virtual reality, simulations, access to cadavers, and variable education and training resources available to programs, some of the cases may be performed by simulation if the program can demonstrate achievement of equivalent educational value.
- Self-administered procedures may only be counted as simulated.
- The Review Committee for Physical Medicine and Rehabilitation is not currently monitoring patient encounter diagnoses. Patient diagnoses may be entered for your program's own internal tracking.
