

Recognition of Sponsoring Institutions with Non-Standard Training Programs for J-1 Visa Sponsorship Examples of Non-Standard Training Focus Areas

Institutional Review Committee

This is a non-exhaustive list of Non-Standard Training (NST) focus areas that includes examples of NST program types that were previously approved for participants in the Exchange Visitor Program with J-1 visas sponsored by the Educational Commission for Foreign Medical Graduates. In this list, each focus area has been linked to its most closely related ACGME-accredited specialty(ies) and/or subspecialty(ies).

When a Sponsoring Institution receives Initial Recognition, descriptions of active NST programs must be entered into the ACGME's Accreditation Data System. These focus areas and relationships to ACGME-accredited programs may be selected when entering a program description.

Sponsoring Institutions can request new NST focus areas and new specialty/subspecialty relationships that do not appear on this list.

Email <u>irc@acqme.org</u> with questions.
